More important, we've recognized that growing enough food to feed the people in the world is not the problem; getting it to them is. Surpluses of food simply sit in the wrong places: Nebraska, Iowa, and Minnesota. We have 40 percent of the world's food stocks in storage in this country. Getting it to the inner parts of Ethiopia, where there are no roads, where there are no airports, where there is no network of people to distribute it, will be the food aid challenge of the '80s and '90s. Getting food into the interior of Mali or the Sudan and other African countries that are very large, but have very few people, is not easy to do. We must also understand the paradoxes of food aid. India is often touted as a food aid success story because it is now exporting agricultural commodities. Yet half the malnourished people in the world—200 million—live in India. Crops grown near the coast are exported, because Indians have no satisfactory means to get them to their own people in need.

In addition to the problems of distribution and transportation, we must come to grips with the effect food aid has on the recipient country. It's easy to crush a fragile agricultural economy with food aid. Even though the agricultural base of most recipient countries doesn't provide all the food that is needed, normally it provides most of the food. When a large quantity of agricultural commodities enters a developing country, it can drive down the price and lead to lower incomes for farmers. Food aid can also shape politics. It may allow a repressive government to maintain the status quo or, worse, to use food to coerce or manipulate the people.

The problem of world hunger will not be solved by growing more food or distributing more food but only by finding means to build independence. The challenge of food aid (and other foreign assistance) programs will be to create economic growth where it is most needed—among the poorest of the poor.

America's experience of more than 30 years in food aid programs has brought all these problems into focus. But they will not be solved by abandoning the programs. Instead, we should structure them carefully in each country, understanding its culture, so as to minimize adverse effects. Our food aid programs have had successes—South Korea, Taiwan, Mexico, Brazil. We will continue to have more if we learn from past experience and proceed with our eyes open.

Also, there must be greater coordination among agencies and countries providing food aid. Our goal must be to eliminate world hunger. The only way is to raise world hunger on our list of priorities and make a commitment to achieve that goal.●

THE 30TH ANNIVERSARY OF THE HUNGARIAN REVOLUTION

● Mr. D'AMATO. Mr. President, I support Senate Joint Resolution 385, a resolution commemorating the valor of the Hungarian freedom fighters who sought to break the chains of Soviet tyranny and rid their country of totalitarianism. This year marks the 30th anniversary of their uprising which began on October 23, 1956, a quest for freedom which continues to this day.

The seeds of the revolution were planted during the early 1950's under the leadership of Imre Nagy. In 1953, Nagy was appointed prime minister, replacing the much hated Matyas Rakosi, an action which appears to have been supported by the Soviet leadership. During the 1940's it was Nagy who raised serious reservations regarding the policy of collectivization being pursued by the Hungarian Government. Soon after his appointment, Nagy embarked on a "New Course," a package of reforms including: Decollectivization of agriculture, a new emphasis on light industry, and release of political prisoners.

Amid growing disunity within the Hungarian Communist Party and a change of heart on the part of Moscow, Nagy, the principal proponent of the "New Course," came under increasing criticism. During early 1955, Nagy was pressured by the Kremlin to renounce his reform policies. He refused. Nagy was forced out of office

and expelled from the Communist Party which he had helped found. He was replaced by his archrival Rakosi.

Despite Nagy's ouster, the pressures for reform continued, particularly among members of the intelligencia. During this period, the former prime minister wrote a series of political essays defending reform.

Concern over continuing tensions in Hungary, the Kremlin turned to Nagy, who was readmitted to the party on October 13, 1956, for help. An anti-Stalinist revolution in Poland 6 days later added to the press for reform. Peaceful demonstrations began in Budapest on October 23 in support of change. A large statue of Stalin was toppled and dragged through the streets of the capital—the revolution had begun. Tens of thousands participated in these peaceful demonstrations of Hungarian nationalism.

During the coming days, the revolutionary fervor spread. Tension began to rise as the streets swelled with freedom fighters. Violence erupted as police opened fire on unarmed demonstrators, many of them children. The bloodiest incident of the revolution occurred at Parliament Square on October 25, when Soviet forces and the secret police opened machinegun fire on a crowd of peaceful demonstrators, killing an estimated 500 people. Despite these acts of brutality, the revolutionaries were successful in taking over the major provincial cities.

On October 30, 1956, Nagy announced the abolition of one-party rule and the establishment of a coalition government. Cardinal Mindszenty was freed from captivity. Two days later, Hungary withdrew from the Warsaw Pact and its neutrality was declared. It appeared as though nothing would stop the Hungarians in their quest for freedom and independence.

On November 3, Cardinal Mindszenty delivered an impassioned address to his fellow countrymen. His words are as meaningful today as they were three decades ago. Mr. President, I ask unanimous consent that an excerpt of this address be printed in the RECORD.

The Soviet Ambassador at the time, Yuriy Andropov, a little known figure at the time, offered his assurances that Soviet troops would be withdrawn from Hungary. Before dawn on November 4, an estimated 200,000 Soviet troops with 2,500 tanks and armored cars had crossed the border into Hungary, launching an offensive designed to crush the revolution. Despite their courageous effort, the Hungarian freedom fighters were vastly outnumbered. The Hungarian revolution, fueled by national heroism, was to last but a fleeting moment. In all more than 25,000 Hungarians had died. Another 20,000 were deported to the Soviet Union, many were never heard from again. Others were imprisoned under the orders of Janos Kadar. At least 500 were executed.

In the aftermath of the shortlived revolution, 200,000 refugees fled the repressive regime of Kadar, a puppet installed by the Kremlin. Tens of thousands of others lost their lives in the carnage. Nagy and his close associates, including Pal Maleter and Miklos Gimes, were executed in June 1958 and burried in graves which to this day have remained unmarked.

The address follows:

RADIO STATEMENT OF JOSEF CARDINAL MINDSZENTY NOVEMBER 3, 1956

There is no country which in the course of its thousand years of history has suffered more than we. Hungarians have had to wage incessant struggles for independence, mostly in defense of the Western countries. These struggles interrupted the continuity of our development and we always had to rise again by our own efforts. In the course of history this is the first occasion that Hungary has enjoyed the sympathy of all other civilized countries. We are deeply moved by this, and every member of our small land rejoices that, because of our love of liberty, the nations have taken up its case.

Yet we, even in our dire situation, hope we have no enemies, for we are the enemies of no one. We want to live in friendship with all people and all countries. We Hungarians want to live and progress as standard-bearers of the family of peaceful European nations. We want to live in a spirit of friendship with all the peoples of Europe and not on the basis of an artificially created friendship. And turning our eyes toward more distant parts, we, a small nation, want to live in friendship; in undisturbed, peaceful, and mutual esteem with the great United States, as well as the powerful Russian Empire, and in good-neighborly relations with Prague, Bucharest, Warsaw, and Belgrade.

Now we need general elections, free from abuse, in which all parties can nominate candidates. The elections should be held under international supervision.

I must stress that we have a classless society and a State where laws prevail. We support private ownership which is rightly and justly limited by social interests. This is the wish of the Hungarian people.

As head of the Hungarian Roman Catholic Church I declare that we do not oppose the justified development of our country. We only desire that this development be sound.

On October 23, we will commemorate the 30th anniversary of the Hungarian revolution. In doing so, we recall the courage, valor and dedication to freedom displayed by the many individuals who took part in the uprising. As we mark this historic occassion, however, we are reminded that many Hungarians continue in their struggle for freedom and individual human rights. Expressions of independence are met with harassment by the Hungarian authorities. Some have become targets for harassment simply for speaking out about the events of 1956.

Mr. President, the commemoration of the 1956 Hungarian revolution will bring many sad memories as we remember those who lost their lives during their quest for freedom. As we express our grief, we reaffirm our commitment to assist those who continue to fight against tyranny. As chairman of the Commission on Security and Cooperation in Europe, I urge my colleagues to support adoption of Senate Joint Resolution 385 as a demonstration of our support of Hungarian freedom fighters, past and present.

Thank you Mr. President.●

HANK GREENBERG—A CHAMPION OF CHAMPIONS

● Mr. LEVIN. Mr. President, many people, when they see a baseball uniform with a number 5 on it, think about Joe DiMaggio. Many fans also know that another player wore that number with equal pride and distinction: Hank Greenberg of the Detroit Tigers.

Hank Greenberg died earlier this month but he will remain a living. He lives in my mind and for more than his .313 life time batting average or the 331 homeruns he hit—58 in one season; more than the grand slam he hit on the last day of the season in 1945 to give the Tigers the league championship or the 2 years he was named MVP. No, he was more than that for me.

Greenberg was the first big time ballplayer who was Jewish. Like Jackie Robinson after him, Greenberg paid a price for being first. One of the reporters in Detroit wrote that "the other teams saw his potential and power and called 'Jew Boy' from the corners of the dugout. The Yankees were the worst." And Greenberg himself is quoted as saying "One time the Yankees even brought up a player from the minors just to get on me. He sat next to the manager for protection. I heard it all from them—every slur you could think of. It was pretty vicious."

That's the way it was back then. But it isn't that way now. Because of people like Greenberg and Robinson and players like Roberto Clemente and Fernando Valenzuela, we have white kids who grow up idolizing black ballplayers, Christian kids rooting for a Jewish homerun hitter, Anglos cheering on a player from Mexico or the Islands.

It isn't much, maybe, but it is a start. It gives a kid the sense that maybe there is something more important than color or religion or national origin—maybe if a player can help the home team win, then that player ought to be admired and accepted for what he can do rather than being rejected because of where he comes from.

No, it isn't much. But it is a beginning which hundreds of thousands of kids make every day of every year because of guys like Greenberg. And it isn't just kids that grow. Greenberg

was playing when Jackie Robinson broke into the big leagues. Years later, Greenberg recalled that "guys on our team were calling Jackie 'Coal Mine.' He got hit and stood beside me on first base with his chin up like a prince. I had a feeling for him because of the way I had been treated. I remember saying to him 'Don't let them get you down. You're doing fine. Keep it up.'" And Robinson remembered Greenberg saying that too; he later said that Greenberg was the first opposing player in the big leagues to give him encouragement. "Hank Greenberg," said Robinson, "has class. It stands out all over him."

So kids and grownups got a little "color blind" because of the game and the teams that tie us together. But at the same time, we all got a little "color proud." We looked at a Greenberg or Robinson or Clemente or Valenzuela or any of the others and we suddenly realized that our people were really something special and making it big in big leagues.

There is that. But baseball is, after all is said and done, more than sociology. It is a sport which tests each player every day and gives us a way to keep score—to measure success and evaluate failure. And in the sport, Greenberg had few peers. He could hit the ball as far as any human being I have ever seen. I can still look back and see what I was lucky enough to see then: Hank Greenberg doing what he did best. There he is bringing that bat around to his right shoulder and then tightening his muscles and waiting for the pitch and watching it break in over the plate and then—and then the ball would sail away from the plate over the fence and into the history which still lives in the minds of everyone who ever saw him play.

Which, I guess, is just a way of saying that in addition to being a symbol, the man was a hell of a ballplayer. And, as the years went by, we got to see he was a hell of man—involved in civic affairs, caring and willing to give of himself.

Some 40 years ago, I remember reading the morning paper report on the homer he hit to win the pennant. The story started something like this: "Call him the hero of heroes. Call him the champion of champions. Call him the pride of Bengal-town." It still has the ring of truth.●

RAYMOND D. TEMPEST, HIGH SHERIFF

● Mr. PELL. Mr. President, there will soon be a big void in the law enforcement establishment of my own State of Rhode Island because Raymond D. Tempest, high sheriff of Providence County, is about to retire.

I call the void "big," not only because Ray Tempest is a big man, though there is no denying that he is. Big in size, big in heart, big in spirit.

It is also big because it will be difficult for anyone to fill the shoes of this man who has given his city of Woonsocket and his State of Rhode Island 36 years of dedicated, talented and highly professional service.

On February 19, 1951, Ray was sworn in as a patrolman in Woonsocket. He advanced through the ranks, becoming captain and head of the detective division in 1960 and becoming detective commander in 1974.

Throughout his years on the Woonsocket force Ray was a larger than life figure. He was always on the scene, always the leader who took charge in times of chaos with the levelheaded and commonsense approach that always characterized his police work.

He was a hard-nosed, fearless investigator, determined to uncover and wipe out dishonesty and corruption, no matter where he found it.

Ray was, at the same time, a gentle person whose big hand was often extended in consolation and comfort to those who had suffered personal sadness or hurt. And he always dealt with children in the kind, understanding manner of a father.

As you can see, Mr. President, I think very highly of Ray Tempest and I am sure that these same exemplary qualities which so impress me led my friend, the former Governor of Rhode Island, J. Joseph Garrahy, to select Ray in 1977, to be the high sheriff of Providence County.

In the years since Ray has filled that important position with distinction. And after such a vigorous and distinguished career he has earned the relaxation that retirement will bring.

I wish Ray and his wonderful wife Maggie peace and good health in the years ahead.●

GRAMM-RUDMAN-HOLLINGS

● Mr. MOYNIHAN. Mr. President, I rise today to discuss once more the reliance on economic forecasting required by the Gramm-Rudman-Hollings law.

On November 6, 1985, the day the Senate voted 74 to 24 in favor of the Gramm-Rudman-Hollings amendment, I warned that the proposition:

> . . . assumes we know what we're talking about, that we can predict when a recession is coming. We can't, and neither, in this matter, can anyone else. . . .
>
> Economists do not know the future—they study, and barely know, the past. This is really an adventure in mad scientism, pretending to know what cannot be known.

The Congressional Research Service recently published a report that supports my analysis. CRS Report 86-829S—"Implications of Uncertainty in Economic Forecasting under Gramm-Rudman-Hollings: Options for Congressional Response"—contains information that should have been understood before the Gramm-Rudman-Hollings amendment ever reached the Senate floor.

On page vii of the summary of the report, we learn that:

> The average deviations of OMB's and CBO's February economic forecasts from their subsequent outcomes, if repeated today, would result in deficit forecasts for the coming fiscal year that miss their mark by an average of more than $30 billion. Three-quarters of the forecasts by both agencies worked toward underestimating deficits by amounts averaging more than $35 billion; the remaining forecasts tended to overstate the deficits by an average of $15 to $20 billion.

The law requires that OMB and CBO make guesses about economic performance for the next fiscal year, and that Congress act on those guesses to meet specific deficit targets. We cannot say for sure whether or not we have actually met those targets until after the fiscal year has ended. Only then do we know how the economy performed, how much the Treasury collected in revenues, and how much we spent.

Table 6 of the CRS report shows the average errors in CBO's and OMB's calendar year economic assumptions.

The average CBO forecast for real GNP growth has been off by 1 percentage point. OMB has missed the mark by 1.2 percentage points. If CBO and OMB agreed that real growth were to be 3 percent in a given year, the data indicate that based on past averages, economic growth may be 2 percent, 3 percent, or 4 percent. An error of 1 percentage point is a 33 percent error.

On July 22, the Commerce Department estimated that second quarter growth was 1.1 percent. One month later, on August 19, that estimate was revised downward to 0.6 percent. Our best estimate of economic growth dropped by one-half in a month's time.

None of which is to disparage economists. Theirs is a noble profession, but not a perfect science. Things happen that cannot be forecast—at least not with the accuracy required by Gramm-Rudman-Hollings.

Congress continues to announce that we will meet the deficit targets for fiscal year 1987 and beyond. We do not really know that. Too much depends on what GNP growth turns out to be, what interest rates are, and how much unemployment there is.

Under such circumstances, we ought not continue the practice of announcing that we have met a specific deficit target. To do so is to assume we have a predictive capacity that the data shows we do not, in fact, possess.

The tables follow:

TABLE 6. AVERAGE ERRORS IN CBO's AND OMB's CALENDAR-YEAR ECONOMICS ASSUMPTIONS

[Percentage points]

	Forecast year—		
	First	Second	Third
Nominal GNP growth:			
CBO	1.0	2.8	3.0
OMB	1.2	2.6	3.2
Real GNP growth:			
CBO	1.0	2.2	3.1
OMB	1.2	2.4	3.1
GNP deflator:			
CBO	0.7	1.3	2.9
OMB	1.5	1.7	2.7
Consumer Price Index:			
CBO	1.5	2.9	4.0
OMB	1.4	2.8	3.8
Unemployment rate:			
CBO	.4	1.0	1.4
OMB	.4	1.1	1.7
91-day T-bill rate:			
CBO	1.1	2.7	2.8
OMB	1.2	2.7	3.1

Source: Congress of the United States. Congressional Budget Office. CBO's 5-year Economic Outlook. Also Executive Office of the President. Office of Management and Budget. Annual January/February Publications. CBO's and OMB's 1981 Economic Outlooks were published in March. Historical data were obtained from the Department of Commerce, Bureau of Economic Analysis, and the Department of Labor, Bureau of Labor Statistics.

TABLE 7.—HOW PREVIOUS FORECAST ERRORS WOULD AFFECT CURRENT POLICY BUDGET PROJECTIONS FOR FISCAL YEAR 1987

[Dollars in billions]

	Absolute average	Overestimates—		Underestimates—	
		Average	Freq.[1]	Average	Freq.[1]
Impacts on Revenue Projections					
Real GNP growth:					
CBO[2]	$17.69	$17.53	75.0	$18.17	25.0
OMB	18.51	19.78	62.5	16.38	37.5
Inflation rate (GNP deflator):					
CBO	23.29	26.43	50.0	20.14	50.0
OMB	24.03	28.03	50.0	20.03	50.0
Nominal GNP growth:					
CBO	31.28	43.03	50.0	19.53	50.0
OMB	28.77	38.99	50.0	18.55	50.0
Impacts on Outlay Projections					
Inflation (consumer price index):					
CBO	6.20	3.80	50.0	8.70	50.0
OMB	5.80	3.70	50.0	8.00	50.0
Unemployment rate:					
CBO	6.30	5.20	50.0	7.48	50.0
OMB	7.20	5.80	50.0	8.58	50.0
91-day Treasury Bill rate:					
CBO	13.55	12.84	25.0	13.79	75.0
OMB	14.57	6.17	25.0	17.38	75.0
Net Impact on Deficit Projections					
CBO	32.43	19.92	25.0	36.60	75.0
OMB	34.24	17.98	25.0	39.66	75.0

[1] Frequencies in percent.

[2] Column one in the first line, for example, shows that inaccuracies in CBO's real growth assumptions would affect its revenue estimates by an average of $17.69 billion in FY87. Columns two and three indicate that inaccurate real growth assumptions in 75% of the observed forecasts would tend to understate FY87 revenues by an average of $17.53 billion. Columns four and five show that in the other 25%, real growth assumptions would tend to understate FY87 revenues by an average of $18.17 billion.

Source: Author's calculation. In calculating the impacts of inaccurate real GNP growth, inflation and nominal GNP growth assumptions on revenue projections, it is assumed that revenues remain a constant share of current-dollar GNP. The impacts of inaccurate inflation, unemployment and interest-rate assumptions on projected outlays are estimated using CBO's rules-of-thumb.

DR. RICHARD ROSSER, OUTGOING PRESIDENT OF DEPAUW UNIVERSITY

● Mr. QUAYLE. Mr. President, at the beginning of this year, Dr. Richard Rosser, president of DePauw University, announced his retirement from the position he then held. It is with regret that I bring to the attention of my colleagues his decision to retire from DePauw University and with appreciation that I commend him for his successful tenure as president and faculty member at DePauw.

I would like to commend Dr. Rosser for his long-standing commitment, integrity, and dedication to the highest standards of professional competence during his years of service to the university. As a member of the DePauw academic community, he has consistently displayed effective leadership and succeeded in creating an education climate to support his goals.

Under the administration of Dr. Rosser, DePauw University has embarked on a fundraising sesquicentennial campaign for the development of its endowment fund, a campaign that has met with unprecedented success, far exceeding its original monetary goal. The campaign will continue until June 1987 at which time Dr. Rosser will retire.

Dr. Rosser has an outstanding professional background which includes his present employment as chancellor and outgoing president of DePauw University, dean of faculty and professor of political science at Albion College in Michigan, permanent professor and head of the department of political science at the U.S. Air Force Academy in Colorado, and as an officer in the U.S. Air Force intelligence organizations as specialist in Soviet studies and Russian linguist.

His professional expertise is well attested to by his continued visible leadership in the academic community and various educational organizations. These include his involvement with the American Association of University Professors, the American Political Science Association, Associated Colleges of Indiana and the Independent Colleges and Universities of Indiana.

As an alumnus of DePauw University and on behalf of the DePauw community, I extend to Dr. Rosser my deep appreciation for the invaluable services he has provided and best wishes for continued success in whatever he may endeavor.●

MEASURE HELD AT THE DESK—H.R. 2574

Mr. BROYHILL. I would like to ask the minority leader if he is ready to proceed with unanimous consent with respect to H.R. 2574.

Mr. BYRD. Mr. President, reserving the right to object, that matter is cleared on this side; however, only if we go into morning business so that the time will not be running against the bill.

Mr. BROYHILL. I would ask that we proceed as if we are in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BYRD. So the time will no longer be running against the reconciliation measure?

The PRESIDING OFFICER. The reconciliation bill will be temporarily laid aside.

Mr. BYRD. I thank the Chair and I thank the Senator.

Mr. BROYHILL. I ask unanimous consent that once the Senate receives from the House H.R. 2574, a bill for the private relief of the survivors of Christopher Eney, it be held at the desk pending further disposition.

The PRESIDING OFFICER. Is there objection? Hearing none, it is so ordered.

CORRECTION OF ENROLLMENT—COLORADO RIVER FLOODWAY PROTECTION ACT

Mr. ABDNOR. Mr. President, yesterday, the Senate passed H.R. 1246, the Colorado River Floodway Protection Act.

It has come to my attention that the Senate amendment to H.R. 1246 contained an incorrect reference to a section of public law. This mistaken reference renders obscure a provision of the bill requiring the Secretary of the Interior to publish notice of certain of his activities pursuant to the bills provisions.

I therefore ask unanimous consent that the enrolling clerk be instructed to correct subsection 14(c) of the amendment of the Senate to the bill H.R. 1246 to read as follows:

(c) The Secretary shall publish notice on three successive occasions in newspapers of general circulation in communities affected by the provisions of Section 1322 of Public Law 90-448, (82 Stat. 572), as amended by this Act.

The PRESIDING OFFICER. Without objection, it is so amended.

TRANSFER OF CERTAIN PUBLIC LANDS

Mr. BROYHILL. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on S. 1963.

The PRESIDING OFFICER laid before the Senate the following message from the House of Representatives:

Resolved, That the bill from the Senate (S. 1963) entitled "An Act to direct the Secretary of the Interior to convey certain interests in lands in Sorocco County, New Mexico, to the New Mexico Institute of Mining and Technology", do pass with the following amendment:

Strike out all after the enacting clause and insert:

SECTION 1. TRANSFER OF LANDS.

(a) CONVEYANCE.—Subject to valid existing rights and except as provided in section 3, the Secretary of the Interior (hereafter in this Act referred to as the "Secretary") is authorized and directed to convey to the New Mexico Institute of Mining and Technology (hereafter in this Act referred to as the "Institute"), Socorro, New Mexico, at fair market value, as determined by the Secretary, all right, title, and interest of the

United States in and to the public lands aggregating approximately 8,501.55 acres in Socorro County, New Mexico, as generally depicted on a map entitled "New Mexico Institute of Mining and Technology Land Transfer, Socorro, New Mexico" dated 1985, to be used for research and education.

(b) SURVEY.—The conveyance required by subsection (a) shall occur only after the Institute performs and provides to the Secretary a survey of the archeological resources of the area which identifies the mitigation measures, if any, that the Institute, in coordination with the State of New Mexico Historic Preservation Office, will implement following the conveyance and shall be conditioned on the implementation of such mitigation measures.

SECTION 2. MAPS AND DESCRIPTION OF LANDS.

As soon as practicable after the enactment of this Act, the Secretary shall submit a map and legal description of the public lands designated in the first section of this Act to the Committee on Energy and Natural Resources of the Senate and the Committee on Interior and Insular Affairs of the House of Representatives. Such map and legal description shall have the same force and effect as if included in this Act, except that any clerical or typographical errors in such map or legal description may be corrected. The Secretary shall place such map and legal description on file, and make them available for public inspection, in the Office of the Director, New Mexico State Office, Bureau of Land Management, Santa Fe, New Mexico.

SECTION 3. RESERVATION OF RIGHTS.

There are reserved to the United States all minerals that may be found in the lands described in the first section: *Provided, however,* That such lands, except for valid existing rights, shall not be available for location and patent under the U.S. Mining law, Act of May 10, 1872, 17 Stat. 91, 30 U.S.C. 22, 28, 28b.

Mr. BROYHILL. I move that the Senate concur in the House amendment, Mr. President.

The motion was agreed to.

Mr. BROYHILL. I move to reconsider the vote by which the motion was agreed to.

Mr. BYRD. Mr. President, I move to lay the motion on the table.

The motion to lay on the table was agreed to.

□ 2250

ORDER FOR RECESS UNTIL 9:00 A.M. TOMORROW

Mr. BROYHILL. Mr. President, I ask unanimous consent that when the Senate completes its business today, it stand in recess until 9 a.m. on Thursday, September 18, 1986.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER FOR ROUTINE MORNING BUSINESS TOMORROW

Mr. BROYHILL. Mr. President, I ask unanimous consent that following the recognition of the two leaders under the standing order on tomorrow, there be a period for the transaction of routine morning business, not to extend beyond 9:30 a.m. with Senators permitted to speak therein for not more than 5 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

JOINT MEETING OF THE TWO HOUSES—ORDER FOR RECESS

Mr. BROYHILL. Mr. President, at 9:30 a.m. tomorrow, Senators are asked to assemble in the Senate Chamber, to proceed in a body to the Hall of the House of Representatives, to hear an address by President Aquino.

I ask unanimous consent that the Senate stand in recess between 9:30 a.m. and 10:30 a.m. for the joint meeting.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. BROYHILL. Mr. President, at 10:30 a.m. tomorrow, the Senate will resume consideration of the reconciliation bill, under a statutory time limitation of 20 hours.

Votes can be expected throughout Thursday's session, and a late-night session is anticipated in order to make progress on the reconciliation bill.

MAINE CENTRAL RAILROAD COMPANY AND PORTLAND TERMINAL COMPANY LABOR-MANAGEMENT DISPUTE

Mr. BYRD. Mr. President, at the desk, and pursuant to an order of yesterday, is Senate Joint Resolution 415, which has been read the second time.

I ask unanimous consent—this has been cleared on the other side—that this resolution, Senate Joint Resolution 415, by Mr. MITCHELL, relating to a settlement to the Maine Central Railroad Co. and Portland Terminal Co. labor-management dispute, be taken up and that the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. The joint resolution will be stated by title.

The assistant legislative clerk read as follows:

A joint resolution (S.J. Res. 415) to provide for a settlement to the Maine Central Railroad Company and Portland Terminal Company labor-management dispute.

The PRESIDING OFFICER. Is there objection to the present consideration of the joint resolution.

There being no objection, the Senate proceeded to consider the bill.

Mr. MITCHELL. Mr. President, yesterday, I joined with Senator COHEN in introducing legislation, Senate Joint Resolution 415, to bring about a settlement of the longstanding labor dispute on the Maine Central Railroad.

I ask unanimous consent that Senators KENNEDY, WEICKER, and BURDICK be added as cosponsors of the resolution—which seeks to enact the recommendations of Presidential Emergency Board No. 209.

The Emergency Board recommendations are reasonable and well balanced. They represent a rational solution to an impasse between labor and management, and a rational response by Congress to protect interstate commerce by averting a terrible national rail shutdown.

The congressionally extended cooling off period in the dispute expires at midnight tonight. On Friday, the railroad has pledged to unilaterally impose terms which would trigger a national railroad strike.

To prevent a national railroad strike, I urge the Senate to adopt the resolution, and hope the House of Representatives also will move swiftly to adopt it and send it to President Reagan for signature.

The PRESIDING OFFICER. The joint resolution is open to amendment. If there be no amendment, the question is on the engrossment and third reading of the joint resolution.

The joint resolution was ordered to be engrossed for a third reading, was read the third time, and passed.

The preamble was agreed to.

The joint resolution, with its preamble, reads as follows:

S.J. RES. 415

Whereas the labor dispute between the common rail carriers, Maine Central Railroad Company and Portland Terminal Company, and certain of the employees of such carriers represented by the Brotherhood of Maintenance of Way Employees threatens essential transportation services of the Nation;

Whereas it is essential to the national interest, including the national health and defense, that essential transportation services be maintained;

Whereas the Congress finds that emergency measures are essential to security and continuity of transportation services by such carriers;

Whereas the President by Executive Order Numbered 12557 of May 26, 1986, pursuant to the provisions of section 10 of the Railway Labor Act (45 U.S.C. 160), created a Presidential Emergency Board to investigate the dispute and report findings;

Whereas the recommendations of Presidential Emergency Board Numbered 209 for settlement of such dispute have not yet resulted in a settlement;

Whereas the extension of the provisions of section 10 of the Railway Labor Act (45 U.S.C. 160) for an additional 60-day period to such dispute provided by the joint resolution entitled: "Joint resolution to provide for a temporary prohibition of strikes or lockouts with respect to the Maine Central Railroad Company and the Portland Terminal Company labor-management dispute", approved August 21, 1986 (Public Law 99-385), has not yet resulted in a settlement of such dispute;

Whereas the advisory board established pursuant to section 2 of such joint resolution recommended that in the event that the parties to the dispute were unable to reach agreement on the dispute before September 13, 1986, the Congress should enact

legislation directing the parties to accept and apply the recommendations of Emergency Board Numbered 209, and if such parties are unable to agree as to all necessary details in applying the recommendations of such Emergency Board, all such unsettled issues should be submitted to final and binding arbitration;

Whereas all the procedures for resolving such dispute provided for in the Railway Labor Act have been exhausted and have not yet resulted in settlement of the dispute:

Whereas the Congress, under the Commerce Clause of the Constitution, has the authority and responsibility to ensure the uninterrupted operation of essential transportation services; and

Whereas the Congress in the past has enacted legislation for such purposes: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) the following conditions shall apply to the dispute referred to in Executive Order Numbered 12557 of May 16, 1986, between the common rail carriers, Maine Central Railroad Company and Portland Terminal Company (hereafter in this resolution referred to as the "carriers") and the employees of such carriers represented by the Brotherhood of Maintenance of Way Employees.

(1) The parties to such dispute shall take all necessary steps to restore or preserve the conditions out of which such dispute arose as such conditions existed before 12:01 ante meridiem of March 3, 1986, except as provided in paragraphs (2) through (4).

(2) The report and recommendations of Presidential Emergency Board Numbered 209 shall be binding on the parties and shall have the same effect as though arrived at by agreement of the parties under the Railway Labor Act (45 U.S.C. 151 et seq.), except that nothing in this joint resolution shall prevent a mutual written agreement by the parties to any terms and conditions different from those established by this joint resolution.

(3)(A) If there are unresolved implementing issues remaining with respect to the report and recommendations or agreement under paragraph (2) after ten days after the date of the enactment of this joint resolution, the parties to the dispute shall enter into binding arbitration to provide for a resolution of such issues.

(B) The National Mediation Board established by section 4 of the Railway Labor Act (45 U.S.C. 154) shall appoint an arbitrator to resolve the issues described in subparagraph (A). Except as provided in this joint resolution, such arbitration shall be conducted as if it were under section 7 of such Act, and any award of such arbitration shall be enforceable as if under section 9 of such Act.

(b) Within thirty days after the date of the enactment of this joint resolution, the binding arbitration entered into pursuant to paragraph (3) shall be completed.

Mr. BYRD. Mr. President, I move to reconsider the vote by which the joint resolution was passed.

Mr. BROYHILL. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

RECESS UNTIL 9 A.M. TOMORROW

Mr. BROYHILL. Mr. President, I move that the Senate stand in recess until 9 a.m. on tomorrow.

The motion was agreed to, and at 10:53 p.m., the Senate recessed, to reconvene on Thursday, September 18, 1986, at 9 a.m.

CONFIRMATIONS

Executive nominations confirmed by the Senate September 17, 1986:

THE JUDICIARY

William H. Rehnquist, of Virginia, to be Chief Justice of the United States.

Antonin Scalia, of Virginia, to be an Associate Justice of the Supreme Court of the United States.

EXTENSIONS OF REMARKS

ART ROWE HONORED ON OCTOBER 2, 1986

HON. JERRY LEWIS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. LEWIS of California. Mr. Speaker, it gives me great pleasure to have this opportunity to recognize a truly remarkable citizen of the 35th District of California, Mr. Art Rowe. Mr. Rowe will be honored as the Special Dairy Award winner by the Chino Valley Chamber of Commerce at the 11th annual dairy awards dinner on October 2 of this year.

Mr. Rowe has devoted much of his life to the dairy business. Born in Oregon, WI, he was raised on a dairy and livestock farm. He worked on this family farm until 1949, when he went to work for Dane Company Wisconsin D.H.I.A., where he spent a great deal of time doing herd improvement registry, advance registry testing, and check testing. When he moved to California in 1952, he continued the family tradition in the dairy business and worked as a milker, herdsman, artificial inseminator, and manager for Roger Jessup Farms.

Mr. Rowe went on to become a successful businessman, starting first with an insurance company. In 1956 he married his wife Betty, and in 1959 he started with Security Pacific National Bank.

Although Art Rowe's responsibilities with his work are extensive, he has always actively contributed to his community. He was Chino Chamber of Commerce director, treasurer, and president. He was a member of the Lions Club and has been a member of the Chino Rotary Club for the last 2 years, where he ably served on the International Livestock Committee and contributed toward the sending of animals to foreign countries through Heifer Project International.

Service to his community and a strong interest in agriculture continued as evidenced in his membership and presidency on the fair board for a number of years. During this time he was instrumental in raising funds to build the new barn, Brinderson Hall, and many other improvements now evident. Indeed, the success of the yearly barbecue depends on his diligent supervision at the fairgrounds, putting in long hours for many days and weekends before and after the annual Junior Fair.

Art Rowe has always been a good friend and neighbor, lending a helping hand when needed, going that extra mile for his family, friends, and community.

Mr. Speaker, I ask that you join me in saluting Mr. Art Rowe. I am proud to recognize such a fine citizen. He serves as an outstanding example to us all as a man who has always considered another's needs before his own, placing service above self. Art Rowe truly deserves and qualifies for this special award.

A TRIBUTE TO JERRY LAMOTHE

HON. MERVYN M. DYMALLY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. DYMALLY. Mr. Speaker, recently I had the welcome opportunity to participate in the third annual educational seminar of UAW Local 887, which represents aerospace workers in my congressional district. This year's seminar was dedicated to a dear friend and coworker of mine, Jerry Lamothe, who passed away in July. I want to take a moment to reflect on Jerry's life for my colleagues because the example he gave us of dedication to the needs of working men and women is worthy of both admiration and emulation.

At the time of his passing, Jerry had been a union man for 32 years, having joined the UAW in 1954 when he was employed by the Chrysler Corp., at a plant it once had in Maywood. He came to prominence in 1960 when he led a wildcat strike at that plant. That selfless act—it lost him his job—is typical of the single-minded devotion Jerry always had to the rights of workers in the workplace. He was for the workers, even when his efforts were not clearly advantageous to himself.

Maywood's loss was our gain, because Jerry landed a job at Rockwell International's Autonetics facility. It was there that he joined UAW Local 887 and began a career of unstinting service to his fellow workers. Over the years he moved through the ranks of the union. He served at various times as secretary, treasurer, and chairman of unit 6. He chaired the civil rights committee as well as the educational committee. He was a joint council delegate, and, eventually, a member of the executive board. In his spare time he was editor of the local union publication, the Propeller.

His dynamism earned him international recognition, and in 1973 he was appointed chairman of the UAW Region Six Educational Committee. For 10 years he served with distinction. And in 1983 he was appointed to the International UAW CAP Department.

Jerry was not one to let any grass grow under his feet. In addition to his very active service to the union, Jerry served as administrative assistant to Hon. Jesse Unruh when Mr. Unruh was California speaker. I came to know Jerry well during those years, and when he completed his service with Jesse, he came to work for me as a field representative for my State senate office. Jerry was a formidable organizer. His get-out-the-vote program led to the largest election-day voter turnout in southern California's history, an astounding 81.6 percent. I feel a great loss at Jerry's passing. The thought that he was only days away from retirement when he was taken from us makes the loss deeper. I am comforted, as I think are his wife Carole and children Dwaine and Denise, that Jerry was active and vigorous to the very last. May we all live life as fully as he did.

A MORE IMPORTANT WORLD ISSUE?

HON. BOB McEWEN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. McEWEN. Mr. Speaker, this afternoon an American journalist—Nicholas Daniloff—is still being held hostage by the Soviet Union. They've stopped torturing him and for that I'm thankful, but he is still a hostage nonetheless.

State-sponsored hostage-taking is nothing more than terrorism. I think most of us here recognize that.

That's why I was so distressed to hear the words this weekend of Deputy Secretary of State, John C. Whitehead, on "Face the Nation." Mr. Whitehead said, "If they refuse to set him free, the world must go on. This is an important issue, but, of course, it's not the only issue. * * *"

Mr. Whitehead, if there is a more important issue than the threat this act poses to all Americans working abroad, then I want to know what it is.

If a world power, engaging in terrorist activities against our countrymen is not the most important issue facing America today, then Mr. Whitehead, I want to know what issues are more important to you?

And finally, Mr. Speaker, where should we look for the protection of American lives, if we can't even depend on our own Department of State?

TRIBUTE TO THE LATE FRANK MANNING

HON. BARNEY FRANK

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. FRANK. Mr. Speaker, older people in Massachusetts suffered a terrible loss late last month with the death of Frank Manning. Frank was a giant: as an advocate, as a strategist, as an orator, and most importantly, as a moral force on behalf of all of those in our society who are in need. Indeed, while the elderly in Massachusetts were the primary beneficiaries of his enormous energy and talent, all of us who live in this country and care about the quality of life for all people suffer from his death.

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

I know of no one over the past 15 years who did more for the cause of social justice in America. Like many other elected and appointed officials from Massachusetts and elsewhere, I felt proud to be his friend and enriched by the chance to work with him.

At Frank's funeral, Mr. Speaker, along with Senator KENNEDY, Governor Dukakis, and Mayor Flynn, Frank's successor as head of the organization he embodied, the Massachusetts Association of Older Americans, paid eloquent tribute to her predecessor. I am especially proud, Mr. Speaker, that those who worked so hard under Frank's leadership decided that Elsie Frank was best suited to carry on his work, because Members of the House do not often get the opportunity to do what I am about to do here, which is to ask unanimous consent that there be printed in the RECORD at this point the eulogy for Frank Manning delivered by my mother, the president:

ELSIE FRANK'S TRIBUTE TO FRANK AT HIS FUNERAL SERVICES

According to Frank's obituary he is survived by his sister, Catherine Renee Hoxie, and various nieces and nephews.

Ah—but this is not altogether true. He is also survived by a child he fathered and nurtured, the Massachusetts Association of Older Americans, which under his guidance and leadership became the most influential and respected elderly organization in the Commonwealth of Massachusetts. MAOA's accomplishments on behalf of the elderly are legendary.

Two years ago, Frank became concerned about his failing health and how it would affect the future well-being of MAOA. So he instructed the board of directors to become a stronger voice in management, resigned as president and became president emeritus. And I was brought into the fold so he could groom me to keep MAOA as a viable, effective force in the elder network when the time came.

The time is now. Taking Frank's place is, of course, mission impossible because he was one of a kind.

However, like everything else he did in life, he was an excellent teacher. All of us at Massachusetts Association of Elder Americans have pledged that MAOA shall continue to be a living memorial to Frank J. Manning because MAOA is his bequest to posterity.

We promise you, Frank, that MAOA will continue to effectively advocate for the promotion of all issues that impact on the quality of life, the sense of security, the well-being of older Americans.

We are hoping that we can count on your support in keeping Frank's MAOA alive.

PRESERVE THE ABILITY OF THE UNITED STATES TO ACT EFFECTIVELY IN ANGOLA

HON. BOB STUMP
OF ARIZONA
IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. STUMP. Mr. Speaker, the Angolan resistance fighters of Jonas Savimbi's National Union for the Total Independence of Angola [UNITA] fight against the forces of the Communist government and the approximately 35,000 Cuban troops in Angola. The governing Marxist-Leninist regime in Angola seized power in 1975 in breach of an agreement among Angolan nationalist groups for an interim governing arrangement leading to free elections. The UNITA nationalists have continued since that time to resist the Communist government.

For an entire decade UNITA fought without U.S. aid because the recently repealed Clark amendment prohibited such aid. Now that Congress has removed the Clark amendment restriction on providing such aid, the Democrats of the House Intelligence Committee have moved to impose a new form of Clark amendment with section 107 of the intelligence authorization bill for fiscal year 1987 (H.R. 4759). The UNITA fighters deserve American support, but they could not receive it under the liberal Democrats' bill.

Section 107 of intelligence committee chairman LEE HAMILTON's bill prohibits covert aid to the Angolan resistance forces. The Democrats on the House Intelligence Committee seek with the Angolan resistance prohibition to derail the President's plans for meeting the Communist challenge in Angola. The Congress must defeat the Democrats' dangerous effort to establish a country-specific restraint on the President's ability to protect U.S. interests through effective aid to the forces of freedom.

Under the Hamilton legislation, the President could provide aid to UNITA only if he announced to the world his intention to do so and the Congress after public debate passed a joint resolution approving such aid. Thus, the legislation prohibits covert aid, and allows overt aid only if Congress passes a special law approving it. The President of the United States cannot protect and advance American interests if the Congress so shackles his conduct of foreign policy.

The Republicans in the House will offer an amendment to eliminate the Angolan resistance prohibition from the legislation. The issue is clear. A vote in favor of the Republican amendment to eliminate the Angola prohibition is a vote for potential effective opposition to the Communist regime in Angola. A vote against the amendment is a vote which will help the Communist regime in Angola.

Achievement of U.S. foreign policy objectives abroad sometimes depends upon the ability of the President to conduct activities besides diplomacy in support of such objectives without official public acknowlegment of them; such activities are called covert actions. Those in Congress who would oppose the President's use of covert action as a tool for implementing national policy with respect to Angola act as if the Congress of the United States would have no control over the matter. Nothing could be further from the truth. The Congress of the United States has full and complete control over the ability of the United States to conduct any intelligence activity, including a covert action, by its control of the power of the purse.

Critics of some or all covert actions incorrectly assert that they divert senior intelligence managers from other important intelligence duties and that they are too easy to initiate. Intelligence Committee Chairman HAMILTON so argued in his article "The Trouble With 'Covert' Action" in the Washington Post of August 17, 1986.

The U.S. intelligence community devotes only a small percentage of its human and fiscal resources to covert action. Covert action is an important function of the intelligence community, but it need not be a resource-intensive function. Those directly responsible for covert action spend a significant amount of time managing covert action operations, as is appropriate given the sensitivity and potential risks of such operations. Such officials also spend a significant amount of time explaining and justifying covert actions to the Congress, often because of the demands placed upon them by the very Members of Congress who complain that intelligence managers spend too much time on covert action. Nevertheless, the improvement in the quantity and quality of U.S. intelligence analysis and reporting in recent years shows that senior intelligence managers have not devoted time to covert action to the detriment of intelligence collection and analysis.

Initiation of a covert action is not easy. A proposal for a covert action must pass through a number of executive branch forums for decision up to and including the President, who must personally find in writing that each such action is important to the national security of the United States. Moreover, once initiated, such an action receives detailed scrutiny both within the executive branch and from the intelligence committees of Congress. In advance of implementation of covert actions, the executive branch secretly gives notice of them to the House and Senate intelligence committees, or in extraordinary circumstances to a House and Senate leadership group only. The Congress enjoys full authority to oversee covert actions and possesses the ability, though control of funding, to modify or to terminate such actions should it ever become necessary to do so.

The system for congressional oversight establishment by title V of the National Security Act of 1947 contemplates that congressional and executive branch relations on intelligence matters will maintain secrecy. Unfortunately, in recent years, although the executive branch and the Congress have maintained tight secrecy with respect to the vast majority of intelligence activities, secrecy has broken down miserably with respect to covert actions involving paramilitary support. Some Members of Congress who oppose such covert actions say that such actions will not succeed because they will not remain secret, a prophecy which those Members help fulfill by giving such actions great publicity. It is of critical importance that the U.S. Government, including the Congress, demonstrate the will and ability to maintain covert action plans up for public discussion instead of secret discussion in the councils of government as our laws contemplate, the liberal Democrats force those of us who support the President on Angola to speak out, which we do as carefully as we can, mindful of the need to preserve secrecy.

Overt support to the UNITA Angolan resistance is not an effective option. The prohibition on covert aid to the Angolan resistance reflects a naive assumption that the United States can conduct all aspects of its foreign

policy in public, an assumption which ignores the harsh realities of international conflict in the world today and does a disservice to the American people. Suppose that the prohibition became law and the President—whether President Reagan or a future President—found it necessary to provide support for UNITA resistance forces in Angola. For diplomatic or political reasons UNITA might not desire to receive U.S. aid if such aid must be acknowledged openly. Countries that might be willing to help the United States in a quiet action to aid UNITA might not be willing to help in an action the United States announced to the world. Also, the Soviet and Cuban Governments which have deployed armed forces in Angola might feel compelled to respond aggressively to an action the United States announced to the world.

For these reasons, the liberal Democrats' stated preference for openness is hollow. The choice is covert action or no action, and no action means the Communist regime in Angola wins, and the world wonders whether the United States possesses the strength of will to defend its interests and those of the free world.

The basic premise of Chairman HAMILTON's Angolan resistance prohibition, that covert actions involving military support should be debated publicly in the Congress, is dangerously flawed. Both the Congress and the executive branch must understand that, to ensure the success of covert actions and of the diplomatic activities of the United States which those actions support, they can neither confirm nor deny publicly the existence or nonexistence of any particular alleged covert action. If the President and the Congress cannot restore the condition of secrecy in their mutual discussions of covert actions, the foreign policy interests of the United States will be severely damaged in the years to come.

MORE ON WEAPONS TESTING

HON. CHARLES E. BENNETT

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. BENNETT. Mr. Speaker, I would like to share with my colleagues an article published Tuesday, September 16, 1986, in the New York Times. A former testing official with the FMC corporation is suing the company, charging that the company lied to the Army when it claimed that its Bradley fighting vehicle is safe to operate while crossing streams.

Regardless of what the merits may be of this suit, this is an example of what I think is a crisis in defense testing in our country. The Bradley is not the only weapon system we have bought and paid for—and then found out it does not work as advertised. Dozens of weapons, from AMRAAM to Bigeye to Divad, have made headlines in the past few years because of inadequate testing.

Fortunately, in the House-passed Defense Authorization Act, this year we have new, comprehensive testing language which will require realistic testing before a weapon goes into production. It mandates live-fire testing of new weapons and the testing of weapons under battlefield conditions—not carefully staged, success-oriented tests.

A New York Times editorial in February of this year said, "If Congress does not want the flaws in America's weapons to emerge in battle, it had better ensure that they are discovered beforehand." That is exactly what our legislation does. I am confident that the Authorization Conference will agree with the House provisions, and we will take a major step forward in solving the testing crisis.

SUIT CHARGES CONTRACTOR LIED TO ARMY ON INFANTRY VEHICLE

(By John H. Cushman, Jr.)

WASHINGTON, Sept. 15.—A recently discharged employee of the FMC Corporation, which makes the Bradley infantry fighting vehicle for the Army, has sued the company, saying it falsely asserted that the weapon system met the Army's specifications.

The employee, Henry Boisvert, charges that the Bradley, an armored vehicle that carries soldiers into combat, is unsafe to operate while fording streams. Mr. Boisvert, an engineer, was in charge of water-crossing tests, according to his attorney.

The attorney, Phillip G. Svalya, said Mr. Boisvert had been discharged by FMC, effective Sept. 23, because of his disagreements with the company over the Bradley's testing. Mr. Boisvert filed the suit last Tuesday under a little-used provision of the False Claims Act. The provision allows private citizens to sue on behalf of the Government and possibly to share in the award of treble damages that may result.

The suit charges that FMC, which is producing nearly 7,000 of the vehicles at a total cost of $12.2 billion, defrauded the Government by failing to meet dozens of specific contract clauses detailing the vehicle's ability to cross water during combat. The Army is already using 2,400 Bradley vehicles.

While the Bradley, whose performance has been the subject of controversy for years, has been said before to have difficulty in deep water, the suit details for the first time a series of specific purported failings.

Patrick J. Head, general counsel of FMC, said today that he was not aware of the suit. After further checking, company officials said they had not yet been served with a copy.

Justice Department officials in Washington provided a copy of the suit, which was filed in Federal court for the Northern District of California in San Jose, where the FMC Ordance Division is situated. The department has 60 days to decide whether to join in prosecuting the case, officials said.

The Bradley, a 25-ton armored vehicle with tracks and a cannon that make it resemble a tank, carriers several foot-soldiers into battle. It has been the focus of particular controversy over the last year because of a Defense Department official's charge that tests of its ability to withstand antitank fire had been improperly designed, leading the Army to understate its vulnerability.

ASSIGNED TO RUN TESTS

Mr. Svalya said his client was assigned a year ago to run a series of tests on the Bradley's ability to operate in water. The tests ended about a month ago, he said.

Mr. Svalya said that Mr. Boisvert's superiors told him on numerous occasions that his complaints would not be acted upon.

According to court papers filed by Mr. Boisvert, the Bradley has difficulty entering the water on a slope on 40 to 50 degrees and at a speed of five miles an hour.

The court papers said FMC's water testing of the Bradley had not been realistic. "All of FMC's tests have been done in a cement pool with a specially designed tread enhancer ramp to promote friction," the papers said. Even in those tests, Mr. Svalya said, the vehicle was practically swamped and its pumps proved incapable of draining the water that splashed into the vehicle.

NATIONAL HISPANIC HERITAGE WEEK

HON. RONALD D. COLEMAN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. COLEMAN of Texas. Mr. Speaker, the beginning of Mexican independence was marked by a cry for freedom 176 years ago by Father Guadalupe Hidalgo in the small town of Dolores, Mexico. The struggle for independence would last 10 years, and would be waged against the Spanish and then against the French. One hundred years later in 1910, a new revolution would break out against the tyrannical regime of Porforio Diaz.

"El Grito," as it is known in Mexico, ignited a burning desire for freedom in the hearts of Mexicans throughout the country, a desire that would see them through long years of constant struggle. Today is the day that the inextinguishable flame is celebrated and tribute is paid to a people with a fiercely determined human spirit and a great ability to endure and to fight for the freedom they love so much.

The constituents in my district are aware of that spirit, for our sister city of Ciudad Juarez, shares a common culture. The character of the people from my district, which is predominantly Hispanic, is infused with that undying respect and love for freedom.

It is appropriate that this week, when Mexican independence is celebrated, is also National Hispanic Heritage Week in this country. Mexican Americans in the Southwest and throughout the country share the pride of their cultural heritage by reaffirming the spirit of the independence movement through their political, social and economic contributions to our country. This struggle manifests in the Hispanic struggle for full employment and against discrimination.

The pride and nationalism displayed during this week transcends the international boundary and honors the spirit of freedom and independence valued by both Mexico and the United States. Today, I invite you to join me in honoring our Mexican neighbors as they commemorate their independence by joining in that famous cry that still rings in the hearts of Mexicans as well as Americans: "Via la Independencia."

A TRIBUTE TO JOHN MEGEL LAZO, THE AMERICAN GYPSY WARRIOR

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. LANTOS. Mr. Speaker, today an unprecedented Day of Remembrance of the thousands of Gypsies who perished in the Holocaust, prominent Romani leaders from throughout the world gathered in the U.S. Capitol for a ceremony of remembrance, tribute, and dedication to preserve this history for future generations to share. One giant of a man, who helped to bring about this public recognition, could not be present. John Megel died only a few days before he was to speak at the ceremony. The following tribute was written for him by Gabrielle Tyrnauer who is the chronicler of the Gypsy Holocaust. Gabrille's tireless efforts helped to bring to world consciousness the tragic fate half-a-million European Gypsies shared with 9 million Jews. The Nazi efforts toward genocide included both Jew and Gypsy. Gabrille encouraged Lazo to find a meaningful way to express his pain and outrage. These words are hers, mingled with his, as she writes:

He was a mountain of a man, sometimes soft-spoken and gentle, but even then a dormant volcano—and when he erupted it was something to see. Flames spewing in all directions, his great bulk projecting the words with oratorical flourishes that he never learned at school. His anger was like a tidal wave but free from malice or guile. A few moments later his eyes could be sparkling like the gentlest of wavelets, and he could suddenly dissolve tension with self-deprecating humor.

His anger was only incidentally aimed at individuals. His target was a great historic injustice to his people, the Rom, known to the world as Gypsies. "Half a million killed and not even a monument, a word of recognition" he would say. "My people laugh at me. They don't understand what all the fuss is about. Sure, Gypsies was killed, but Gypsies was always being killed. So what else is new?"

But for Lazo, who first learned about the Holocaust during the Eichmann trial, historical knowledge became a voyage of self-discovery and in the end obsession with the injustice of the world's indifference, with the maze of bureaucracy that diverted him from his clear goal of recovery the forgotten Holocaust of his people from oblivion and erecting a monument for all the world—but particularly for his own people—to see.

"They're saying the Holocaust never happened. The Rom, like the Jewish people, was witnesses that it did. Our ashes mingle in the crematoria of Auschwitz.

Lazo worked tirelessly for the goal of having the Jewish Gypsy connection in persecution and death recognized. "We was always together, you know that," he would say. "The Gypsies stole the children and gave them to the Jews so they could drink their blood." We would both laugh at this bitter twin-stereotype.

"I grew up with Jews in New York City," he recalled, "and with Irish, and Italians and Puerto Ricans. But it was only in the Jewish deli that I felt safe."

The Shrine of St. Anne de Beaupr' (Santanna) on the St. Lawrence River outside Quebec City is the site of a traditional pilgrimage for the Romani people in North America. But in recent years the number of Romani's pilgrims to Santanna had declined precipitously.

"That's where we can be ourselves," he would say. "Singing, dancing, feasting, talking at the Slava (feast.) You could meet relatives you never saw any other time. They would come from all over the United States and Canada."

In 1985 Lazo went to "Santanna" for a special reason. He drove in his white Cadillac made to his own scale. He was not a practicing but regarded this traditional Gypsy pilgrimage an important form of social cement for his people. Furthermore, there was to be an extraordinary ceremony at the Church of St. Anne.

Father Joshka, the French priest who had spent many years ministering to the Gypsies in Europe, was to be in Quebec to perform a special ceremony for the Romani victims of the Holocaust. The service, held in the crypt of the Gothic Church by the St. Lawrence, would be in their own ancient language, Romanes, which Father Joshka spoke fluently.

"It's the first time ever, "Lazo said with pride.

Last May Lazo's years of pounding on closed doors in Washington led to the first clear opening since the commissioning of a report on the fate of the Gypsy during the Holocaust.

Now there was a meeting with the U.S. Holocaust Memorial Council staff and its new executive director. A Gypsy Day of Remembrance was pledged. Also some representation in the Jewish commemoration for 1986 was granted. At the same time, a photographic exhibit about the Romani was assembled for the Congressional Human Rights Caucus.

Lazo's role in this exhibit was officially and publicly lauded and acknowledged. His role in bringing about today's ceremony was acknowledged by those who participated in the few moments of solemn silence in his honor.

Lazo was a restless man—some would say impatient. He wanted to blow down resistance with one giant puff. But his lungs and his heart grew tired with the gargantuan effort. He was a galleant warrior who was burned out by his inner fire. Today this ceremony is his greatest memorial in the world beyond his family and community—a world which he only learned to know in his last years. Today Rom, Jew, and Gentile gathered in our Nation's Capitol to commemorate the Romani victims of the Holocaust and to John Megel, the big, brash, American Rom who found in their death a mission for his life.

He was an authentic representative of his people. Even those who did not always agree with his tactics respected Lazo for his fervor and ferocity. His leadership and commitment will long be remembered—there is an empty place now where he would have stood so tall.

HONORING THE STATUE OF LIBERTY

HON. PAUL E. KANJORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. KANJORSKI. Mr. Speaker, this year we celebrate the 100th anniversary of the quintessential symbol of American freedom—the Statue of Liberty. To commemorate this national event, Walter Kasian, one of my constituents who came to Ellis Island as an immigrant, wrote a moving tribute which I am pleased to share with my colleagues in the House of Representatives.

THE STATUE OF LIBERTY

My humble memories of long ago
One cold November dawn
Ocean liner was moving very slow
On the deck was hushing sound.
Whispering
America, America, America.
Our hearts beating with joy
Tears rolling down our faces
Mother hugging baby boy
Family joined in an embrace.
Whispering
America, America, America.
There she was in all her glory
Flaming torch in her hand
Lady Liberty—what a sight, what a story
Showing the way to a freedom land.
Whispering
America, America, America.
We had almost nothing, clothes on our back
Wealth of courage in our hearts
Few things in our burlap sack
With God's help, we will make our start.
Whispering
America, America, America.
We passed through the golden door
To begin new life living free
Following us there will be more
Tired and poor from across the sea.
Whispering
America, America, America.
Always remembering the engraved words on the Statue of Liberty
Give me your tired, your poor, your huddled Masses yearning to breathe free
The wretched refuse of your teeming shores.
Send these, the homeless, tempest-tost to me,
I lift my lamp beside the golden door!"

—WALTER KASIAN.

SETTLEMENT OF RAILROAD DISPUTE

HON. JOHN R. McKERNAN, JR.

OF MAINE

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. McKERNAN. Mr. Speaker, today I join several of our colleagues in introducing legislation to provide for a settlement to the dispute between the Maine Central Railroad Co./ Portland Terminal Co. and the Brotherhood of Maintenance of Way Employees [BMWE].

I have been concerned, as are many Government officials, business leaders, and public

groups, over the impact of the dispute between these two parties on the Northeast and indeed the whole country. Although there has been some recent dialog between management and labor, enlightened self-interest has failed to produce an agreement.

It is clear that the BMWE has the legal ability and practical ability to initiate activities which could affect the national railway system. Therefore, because of concern that essential transportation services of the Nation may be disrupted by an escalation of this dispute, I believe that there is no alternative to congressional action to bring the dispute to an end.

On July 24, 1986, House Joint Resolution 683 was introduced to provide for a temporary prohibition of strikes or lockouts with respect to this labor manangement dispute. This resolution, which was enacted on August 11, 1986, established an advisory board to render a report concerning the progress of negotiations in this dispute, as well as findings of fact regarding financial and other related circumstances in the dispute, and recommendations for a solution. On September 8, 1986, the board submitted its report to Congress, recommending that:

"In the absence of an agreement between the parties disposing of this dispute no later than September 13, 1986, the Congress should enact legislation directing the parties to accept and apply the recommendations of EB [Emergency Board] 209. Should the parties be unable to agree as to all necessary details in applying the recommendations by October 1, 1986, any unsettled issues should be submitted to final and binding arbitration before an arbitrator designated by the NMB [National Mediation Board]."

Emergency Board 209 was established by the President on May 16, 1986, pursuant to the Railway Labor Act, when a strike by the BMWE threatened to spread to the Conrail system and beyond, posing a serious disruption of transportation services essential to the Nation. The Emergency Board recommended that:

"1. The carrier's proposal dated March 2, 1986 for job protection for then currently active employees, as subsequently modified and presented to the organization on March 3, 1986, should be adopted; the protective allowance to be $26,000.

2. The parties should negotiate a comprehensive agreement for system production maintenance crews to be used throughout the entire geographical confines of the Maine Central Railroad and the Portland Terminal Co. similar to those agreements negotiated on the Boston and Maine and the Delaware and Hudson rail lines of the Guildford System.

3. Consistent with its proposals of March 2 and 3, 1986, and in view of their past practice, the parties should agree to be bound by the results of the national negotiations involving rates of pay and health and welfare programs.

4. The parties should agree to handle changes in work rules and practices contained in notices which had been served prior to Executive Order 12557 under the orderly and peaceful procedures of the Railway Labor Act, as amended, up to and including mediation, and without resort to self-help."

Although the Congress has traditionally been reluctant to become unnecessarily involved in any specific collective bargaining process, there is precedent for congressional action in this regard, most notably the 1975 dispute involving the Norfolk-Southern Railroad in which Congress dictated specific wage levels. While I support the collective bargaining process and have long felt that only those parties directly concerned should be involved, I do believe that it is incumbent upon the Congress to ensure that transportaiton systems essential to the commerce of this Nation remain open.

The legislation we have introduced imposes the recommendations made by the Presidential Emergency Board, recommendations later supported by the special advisory board. It is important to note that not only have the provisions included in the bill been recommended by two independent panels, but aspects of the settlement provisions were offered by the railroad's management to the BMWE. I believe that this legislation is fair and provides the only opportunity to put this dispute behind us. Therefore, I urge my colleagues to support this bill.

DEPENDENT CARE BLOCK GRANTS

HON. OLYMPIA J. SNOWE

OF MAINE

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Ms. SNOWE. Mr. Speaker, I rise in support of the 4-year reauthorization of the Dependent Care Block Grant included in the conference report on the Human Services Reauthorization Act of 1986. I commend the members of the conference committee for their recognition of the importance of this program.

The Dependent Care Block Grant, first funded in fiscal year 1986, provides grants to the States to establish needed child care services for children who otherwise would be at home alone while their parents are at work. The program provides before and after-school child care for these "latchkey" children at both school facilities and community centers. In addition, the Dependent Care Block Grant provides funds to establish community-based information and referral services on available child care.

The Congressional Caucus on Women's Issues, of which I am Co-Chair, has long been concerned with the issue of adequate child care for working parents. As more and more women are joining the work force, often out of economic necessity, more children are coming home to empty apartments or houses. The child care services funded through the Dependent Care Block Grant Program provide a safe, supervised care alternative for these children.

I believe these child care services are vital and I urge my colleagues to join me in supporting this program.

PAMELA EDWARDS' TRIBUTE TO THE U.S. FLAG

HON. JERRY HUCKABY

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. HUCKABY. Mr. Speaker, Pamela Edwards of Monroe, LA, has written a lovely poem in tribute to the U.S. flag. Pamela is confined to a wheelchair because of spinal muscular atrophy, but she has not let this handicap confine her. She enjoys reading and writing poetry, and one day hopes to become a writer and a journalist. I was impressed with her poem, "As I Raise My Flag," and wanted to share it with the Members of the House.

AS I RAISE MY FLAG

As I raise my flag which is red, white, and blue,
It reminds me of the hard times we've been through;
And a salute we should give to soldiers who were brave,
Because of the courage they showed and the freedom they gave.
As I raise my flag which is a meaning of being free,
I can't begin to express what I feel for thee.
For all of the millions of tears that were shed,
I hope and pray that better things lay up ahead.
As I raise my flag up toward the sky,
It seems to be as happy as a bird learning to fly.
Because America is such a beautiful land,
I know you are safe because you're in God's hand.

—PAMELA EDWARDS.

THE ROAD TO YALTA

HON. JIM COURTER

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. COURTER. Mr. Speaker, President Reagan sent his personal assurances to General Secretary Gorbachev that Nick Daniloff is not a spy—one of the greatest examples of redundancy the world has seen since Premier Daladier hastended to assure Hitler that France had no hostile intentions against Nazi Germany. Hitler had cast his hungry eyes on Czechoslovakia, but graciously agreed at the summit to swallow only half of it, the Sudetenland. Daladier, Chamberlain, and most of the British Parliament expressed their gratitude to Hitler for helping arrange "peace for our time." Only Churchill and a handful of his supporters had the presence of mind to recognize Munich for what it was: "a total and unmitigated defeat for France and Britain. Daladier and Chamberlain might have denied it, but the summit of 1938 showed who was the real ruler of Europe.

President Reagan desperately wants a summit. He does not reflect on the real intention behind Gorbachev's insolent swallowing of Nick Daniloff. What will happen if Gorbachev suddenly relents and sends Daniloff home, just before the upcoming summit? Wouldn't the world be as grateful to Gorba-

chev for ending the crisis he alone had caused as it was to Hitler in 1938? Indeed, how could President Reagan avoid showing his gratitude by taking "concrete measures" to solidify the newfound U.S.-U.S.S.R. "friendship"—perhaps by sacrificing his SDI dream?

Those who think the Daniloff crisis is a bothersome diversion from "more important policy considerations" such as arms control and summitry should recognize that on the contrary in the Soviet leadership's mind they are closely intertwined. The ultimate cost of the Daniloff hostage incident is likely to be far higher than President Reagan is willing to acknowledge today in his pre-summit mode.

William Safire in the following column has described the Daniloff incident as a new road to Yalta. Over and over again, history demonstrates that negotiating with despots under some explicit or implicit threat is a danger to peace and security. It is a bitter disappointment that by arranging to trade our hostage in Moscow for the Soviet spy in the U.N. in order to keep his summitry on track, our conservative President has shown a most unconservative contempt for history. History may well return the favor in kind:

THE ROAD TO YALTA

(By William Safire)

The new Soviet equivalent of our National Security Council staff has just scored its first victory. In the Daniloff affair, Mr. Gorbachev went eyeball-to-eyeball with Mr. Reagan and it was the American who blinked.

The Soviet N.S.C. is headed by my old friend Anatoly Dobrynin, whose 26-year experience in the U.S. was applied to the trick of gaining diplomatic equivalence for a captured Soviet spy and an American seized as hostage. His chief deputies are Georgi Kornienko, long the backbone of the Gromyko Old Guard at the Foreign Ministry, and Gen. Viktor Starodubov, the Ogarkov protégé seeking Soviet Army modernization through limitation of American strategic arms.

This heavyweight trio, with direct access to the K.G.B.-dominated Politburo, promptly established its supremacy over the pickup band of second-string outcasts from Defense and State under John Poindexter, an inoffensive note-taker who carries the title of national security adviser but apparently has trouble getting an appointment with the White House spokesman at times of crisis.

Anatoly & Co., were thus able to seize a hostage, elicit an immediate response from the White House that this outrage would not endanger the summit, and sucker our State Department into making a first offer to settle. That enabled the Russians to make a counteroffer equating their spy with our hostage, remanding both to embassies pending trials. Mr. Reagan swallowed this personal humiliation, sending a chagrined and testy George Shultz forth to pretend that what was obvious to the whole world was not so, and on that note ushered in the Third Era of Détente.

What was needed was an suspension of all visits and conferences, in a straightforward, Rooseveltian "Daniloff alive or summit dead." What was delivered was a Carteresque cave-in, as if the well-being of the hostage came before the national interest. Mr. Shultz, is now reduced to pleading for the inclusion of some dissident to provide a fig leaf for what is clearly the spy-for-hostage swap. The more he insists publicly that what is true is not so, the more he erodes America's credibility and underscores the Russian triumph.

Let's face it: Mr. Reagan's ill-advised letter to Mr. Gorbachev formally testified to our hostage's innocence and the Soviet Government subsequently took the position that this testimony was a lie. Never in such a personal way has a Russian leader put his thumb in the eye of an American President.

Why has Mr. Reagan reacted by blinking amiably and pretending this has not happened? Perhaps because he has been told that the Sixth Round at the Geneva talks is his last chance at peacemaking. An agreement is already in place on intermediate-range missiles, with the British and French arms to be outside the deal; the difference on delay in Star Wars testing has narrowed to two years, and on-site inspection will be introduced. Secretary Shultz, maneuvered into dealing with a second-level counterpart, will assure Foreign Secretary Shevardnadze we will boost the Soviet economy and welcome the Russians into the Middle East as the Arabs' broker.

To retire in such a blaze of détente, Mr. Reagan has been persuaded that nothing—not even the most direct slap in the face administered to this Government by the Russian leader—should stand in the way of Geneva's Round Six. Mr. Dobrynin's probe has shown the newly pliant Reagan to be all too eager for a summit; the Soviet leaders, with a China rapprochement in the offing, can exploit that debilitating eagerness in shaping this generation's Yalta.

The next test of Mr. Reagan's will and of Mr. Dobrynin's skill will take place on Oct. 1. Last March, before last-quarter desperation set in, a Reagan order was issued notifying the Russians that the huge nest of spies that goes by the name of its U.N. delegation had to be reduced by 40 percent over the next few years. (The Russian spy caught making a payoff for secrets was part of this K.G.B. branch office.) In two weeks, the first deadline for reduction comes up: of the 275 on staff, we expect 30 to be shipped home and not replaced.

Will the Russians, on a summit roll, submit to this diminution of our hospitality? In fact, as the Administration plans to resist Congressional cuts of our payments to the U.N., our reduction demand is all too modest and the timetable too slow. Two hundred—all likely agents—should be shipped out this year.

The Russian delegate, on orders from his K.G.B. chauffeur, is shrugging off the Reagan order. We shall soon see if the summit-happy President is willing to accept another hard shove down the road to Yalta.

ST. STEPHEN'S CELEBRATES CENTENNIAL

HON. PAUL E. KANJORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. KANJORSKI. Mr. Speaker, it is my pleasure to bring to your attention the 100th anniversary of the St. Stephen's Roman Catholic Church in Plymouth, PA. I am proud to join in the celebration of this centennial, and I am glad to have the opportunity to share this event with my colleagues in the House of Representatives.

In the summer of 1885, only a handful of families lived in Plymouth. Among them, John Vavrek, Sr., John Menovsky, John and Andrew Kundrak, John Basta, and John Puhalla discussed establishing a parish and building a church. The following year, Father Joseph Kossalko came to Plymouth and joined with the group in approaching the Most Reverend Bishop O'Hara. Father Kossalko was later appointed the first pastor.

After raising several hundred dollars from area families, the church was built. For the first 2 years, services were held in the basement of the new building, until the main structure of the church could be completed. St. Stephen's was then the third Slovak parish in the United States.

The original church building was razed in 1953, and construction for a new building was begun. Under the leadership of Father Stephen J. Gurcik, who was originally appointed in 1943, St. Stephen's began construction in September 1953 and completed the new building in 1955. Father Gurcik also guided the parish in the construction of a new rectory after Hurricane Agnes caused considerable damage to the church, as it did to the entire area. Father Gurcik retired the following year as Pastor Emeritus, and the current pastor, Father John E. Zipay, was appointed.

Mr. Speaker, it is a great honor to call your attention to this milestone in the history of this fine church. I am sure that you join me in wishing all those involved with this exciting event our sincerest and most heartfelt congratulations.

THE STUEVE FAMILY HONORED ON OCTOBER 2, 1986

HON. JERRY LEWIS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. LEWIS of California. Mr. Speaker, I am grateful for this opportunity to share with you and my fellow Representatives an inspiring example of a family dedicated to their dairy business and to their community. The Stueve family of Chino, CA, will be honored by the Chino Valley Chamber of Commerce at the 11th Annual Dairy Awards Dinner on October 2 of this year. The "Dairyman of the Year" award will be presented to the family in recognition of many of their contributions to the dairy business.

In the late 1930's three Stueve brothers named Ed, Harold, and Elmer left their small family farm in Frohna, MO, to pursue their dream of starting their own dairy. They worked their way to California, and have been a genuine success ever since.

The brothers were the first to start a dairy operation in the Chino Valley. Their desire was to produce the best product possible for their customers. From a modest beginning, Alta-Dena grew rapidly. By 1950, the dairy had expanded its farming operation to Chino. Today, they have the largest dairy operation in California, owning or leasing a total of 693 acres in the valley.

The herd reached a high of 17,000 at one time—from the 61 cows and 2 bulls with

which they began. Today the dairy milks over 6,000 cows with a combined herd of over 15,000. This, along with milk purchased from producers, allows the dairy to process over 100,000 gallons of milk a day.

The eldest brother of this outstanding family is Elmer A. Stueve. He was the first to come to California in 1936. After he was discharged from the service, he joined the partnership in 1945. Since joining the partnership, Elmer has had the important responsibility of the design, construction, and maintenance of the dairies, plant, and offices.

Elmer married Ruth Anderson in October 1946. They have three children: Judy, Earl, and Lynn. Elmer has retired and Earl has assumed some of his duties. Judy also works at the dairy, as does Lynn's husband, Jim Heinz. Elmer and Ruth have five grandchildren.

Edgar E. Stueve worked at Foothill Dairy as a milker and deliveryman before forming a partnership with his brothers. Since the inception of Alta-Dena Certified Dairy, Ed has been in charge of the farm operation and the livestock. He especially enjoys overseeing the buying of all the feed for the animals.

Ed married his childhood sweetheart, Vera "Bee" Vogel, in 1940. Bee is now the office manager of the City of Industry dairy office. Ed and Bee have two daughters, Jackie and Jean. Jackie works in the dairy's office in City of Industry and her husband, Bob Arthur, is ranch foreman in Chino. Jean is married to Nelson Behrend, an architect. Ed and Bee Stueve have five grandchildren.

Even with a busy family life and business to manage, Ed and Bee find the time to be active in their community. Ed is active in the Lutheran Church in Monrovia and the Lion's Club and has been on the board of directors of the Good Shepherd Home of the West for retarded children. Bee is currently serving on the board. Ed has just been reelected for another term on the board of the Milk Producers Council.

Harold J.J. Stueve went into business for himself as an independent route man in 1942. Three years later, Ed and he went into partnership. Harold is now the business head of the partnership. Through his leadership and courage, the dairy has grown and expanded to one of the largest milk production/distribution systems in California, with sales extending throughout the country.

Harold married Vernice Evans in 1942, and they became the parents of four children. The eldest son, Lloyd, runs the heifer operation in Oakdale. Cleson is a sales representative for the company, and David runs one of the dairies in Chino. Donna is married to Boyd Clarke, the general manager of the dairy. A number of years later, Harold married Ruth Porter, also widowed and the mother of three children, Charles, Nancy, and Mary Ann. Harold and Ruth have a combined total of 17 grandchildren.

Throughout his career, Harold has remained active in civic, community and church affairs. For example, he ably served as both mayor and city council member of Monrovia. Some of his current involvements include serving as president of the Federal Land Bank in Rialto. He also serves on the American Association of Medical Milk Producers and Operating Committee. In addition he has been honored for his varied achievements by many California State assemblymen and senators.

Mr. Speaker, I think the reasons for honoring the Stueve family are clear. They represent the great entrepreneurial force that has made America the strong and spirited country it is today. In their quest for success, they have not forgotten the backbone of our Nation, the family. I am proud indeed to represent a family like the Stueves, and I congratulate them on being the deserving recipients of the "Dairymen of the Year" award.

SUPPORT OF H.R. 5016 (FOR THE RELIEF OF SUENG HO JANG AND SUENG IL JANG)

HON. MARIO BIAGGI

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. BIAGGI. Mr. Speaker, as author of H.R. 5016, I rise in support of its passage and ask that my colleagues assist in having this legislation become law. I believe that this bill is worthy of consideration at this time as it involves the future of two promising young men, who have known tremendous sorrow in their short lives.

H.R. 5016 was drafted shortly after Korean Air Line flight No. 007 was shot down over the Sea of Japan on September 1, 1983. Included in the 269 passengers and crew members who lost their lives on that ill-fated flight were the parents and two younger brothers of the two young men on whose behalf I have introduced this bill.

The Jang family had come to the United States under the terms of the Treaty/Trade Agreement and had been issued E-1 visas. They had been in New York for 4 years, where Mr. Jang had been the chief mechanic for Korean Air Lines. He was called back to his native land by the company in August 1983, however, had wanted his two elder sons to remain in the United States to complete their education. This too was the dream of these two young boys.

Not only did these youngsters lose their parents and brothers on that dark day, but their dream of completing their education in the United States was shattered as well. Under the terms of the Treaty/Trade Agreement, their visas became invalid with the death of their father. They were informed that they no longer had any status in the United States and would have to return to Korea.

H.R. 5016 would permit these two young men to remain in the United States as permanent residents. They have lived here now for a total of 7 years and have come to think of the United States as their home. They are now enrolled and studying at fine institutions, where they have excelled. The elder of the two is in an Economics Masters Degree Program at New York University, while the younger is studying at the Cooper Union, where he had been accepted based solely on his exceptional artistic ability.

Nothing will ever take away the pain and loss these young men have experienced, and I firmly believe that nothing positive will come of their having to return to Korea, after they have developed such "roots" in New York. We are discussing young men who will prove to be assets to our society.

These are gifted young men, who have known tremendous loss in their short lives. I can see no purpose in having them return to their native land, in which they have not lived for more than 7 years, and in light of the senseless, tragic manner in which they were left orphans, I respectfully request that H.R. 5016 be passed and that Sueng Ho and Sueng Il Jang be granted permanent residency in the United States.

THE TEACHING OF VALUES

HON. CHARLES E. BENNETT

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. BENNETT. Mr. Speaker, I call attention to the following editorial entitled, "The Teaching of Values" from the Boston Globe of September 2, 1986. Congress has had a degree of leadership in this matter as well as the administration. Legislation has been passed in recent years which made block grants money available for educational developments along the line discussed in this editorial. Congress itself has set up ethics committees for itself and considered ethical problems with regard to campaign financing and many other matters, all of which would not have been given very much attention some years back.

[From the Boston Globe, Sept. 2, 1986]

THE TEACHING OF VALUES

As the nation's schools reopen this week, the teaching of values in the classroom is finding renewed favor. New York Governor Mario Cuomo has joined President Reagan and Education Secretary William Bennett in urging the nation's teachers to enrich the moral content of what they teach.

Youngsters face moral choices of increasing complexity. Ideally, the schools should help students choose the wiser course of action. There is a consensus that this can be done without contravening the Supreme Court's restrictions on the teaching of religion in the public schools.

Cuomo distinguishes between explicitly religious values and civic values, such as respect for the law and the environment and opposition to drug addiction and vandalism. This is probably a valid distinction which a competent teacher could successfully maintain. It has to be recognized, however, that the subject of values is a potential minefield of controversy.

The family is normally the incubator of a child's values. A school can reinforce those values. It is more difficult for a school to inculcate values that the society nominally shares but which many families in reality do not practice.

Nevertheless, well-run schools and inspiring teachers can be a shaping force in children's lives even if they come from problem-ridden homes. Indeed, for some children from unhappy homes, school becomes an oasis of order and tranquility in a disordered world.

Homes and schools have a giant rival. Television is today's most powerful teacher. Although television could be a teaching medium, it has developed in this country as a medium for selling products by providing

amusement. It encourages passivity and escapism which are of no help to students who need to learn self-discipline and to postpone gratification if they are to complete the long, serious task of getting an education.

Americans have faith in education. It is central to this country's sense of itself as a land of opportunity. Schools still perform their great mission of keeping open the doors of hope. But too much should not be asked of them. Living by sound values and passing them on to the next generation are the work of the whole society. If adults take drugs, commit white collar crime, or lead lives of self-indulgence, they cannot look to their schools to provide their children with better values.

BUFFALO BANK'S LOW INTEREST RATE CREDIT CARD WORTHY OF PRAISE: OTHER FINANCIAL INSTITUTIONS SHOULD FOLLOW SUIT OR FACE FEDERAL LEGISLATIVE ALTERNATIVES

HON. JOHN J. LaFALCE

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. LAFALCE. Mr. Speaker, as the public debate continues on legislative alternatives to astronomically high credit card interest rates, I wanted my colleagues to be aware of the commendable action taken in this area by the Key Bank of Western New York, headquartered in Buffalo. Specifically, Key Bank has decided to offer its customers a credit card with a 9.9 annual percentage rate. This rate is less than half the 21 percent annual rate still being charged by many financial institutions on their credit cards.

Key Bank will guarantee the 9.9 annual percentage rate on its credit card for over a year—through the end of 1987. In addition to the 9.9 percent annual rate, Key Bank's credit card would have a $25 annual fee. Also, individuals applying for the credit card would be subject to a customary credit check.

Mr. Speaker, Key Bank has taken a bold and much-needed step to give consumers a fair break in the area of credit card interest rates. The fact that most financial institutions have failed to lower their credit card interest rates at a time when their own cost of money has fallen dramatically is unconscionable. After all, the Federal Reserve Board has lowered the discount rate—the rate it charges banks to borrow money—four times this year. It is now 5½ percent.

I am delighted that it is a western New York bank that has chosen to lead the way in lowering consumer credit card interest rates to more reasonable levels. In my view, if Key Bank can offer a 9.9 percent interest rate on credit cards, then other banks should be able to offer that rate or, at the very least, come close to it. Financial institutions should stand up and take notice of this action. If they continue to ignore the reality of lower interest rates and gouge the consumer through astronomically high rates, Congress will clearly pass legislation aimed at forcing banks to lower those rates.

The House Banking Committee's Subcommittee on Financial Institutions, on which I serve, recently approved legislation which would require financial institutions to more clearly disclose in their credit card advertisements and solicitations important consumer information about their credit cards, including the annual percentage rate, annual fee, and any applicable grace period. In addition, the House Banking Committee's Consumer and Coinage Subcommittee recently considered legislation that would palce a ceiling on credit card interest rates. Although the subcommittee decided not to report the legislation to the full Banking Committee at this time, there are likely to be future efforts in Congress to cap credit card interest rates if banks do not reduce their rates in response to market forces.

Financial institutions should look carefully at the House Banking Committee's actions. If they do not take steps soon to lower their credit card interest rates, Congress will force them to do so. This is particularly true when a western New York bank has demonstrated that it is feasible for banks to offer reasonable, consumer-oriented rates. Mr. Speaker, it is my hope that other financial institutions will follow suit in lowering their credit card interest rates.

MRS. MAE GREENBERG'S 100TH BIRTHDAY

HON. GARY L. ACKERMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. ACKERMAN. Mr. Speaker, I rise today to celebrate a truly wonderful occasion: the 100th birthday of Mrs. Mae Greenberg of Forest Hills, NY.

Mae Greenberg arrived in New York from her native Detroit over eight decades ago. She married the late Harry Greenberg, and modeled sportswear for his company. They brought into the world a daughter, Anita, who is survived by her husband, Harry Himber, who will proudly attend the birthday party that is being held—at Mrs. Greenberg's request—at Forest View Nursing Home, where she has lived for the past 2 years.

Not only has Mrs. Greenberg modeled, but she had a speaking role and was mentioned in the credits of the movie "PT 109."

Today, Mae Greenberg is an active registered voter, and remains up to date on current events; she recently gave a speech on Soviet Jewry. She feeds her interest in history by reading countless biographies and autobiographies. She also takes part in her immediate environment as an active member of the Resident Council at Forest View.

Mr. Speaker, Mae Greenberg represents American life at its best. How many of us, even those of us in this Chamber, will remain actively involved in the affairs of our Nation 30, 40, 50, or 60 years from now? Yet here we find a woman who, as her 100th birthday approaches, not only votes regularly, but also is constantly grounding herself in history as well as the major issues of our day. We would do well to look to her as an example.

Mr. Speaker, I call now on all of my colleagues in the U.S. House of Representatives to join me in congratulating Mrs. Mae Greenberg as she celebrates her 100th birthday, and in wishing her many happy returns on the day and many more rewarding years to come.

EXPLANATION ON ABSENCE DURING CONSIDERATION OF H.R. 5484, THE OMNIBUS DRUG ACT

HON. JERRY HUCKABY

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. HUCKABY. Mr. Speaker, due to the fact that Louisiana's primary is September 27, I was in my congressional district last Thursday, September 11, attending several functions that had been scheduled for weeks in advance. So, I was unable to cast my vote on the final passage of H.R. 5484, the Omnibus Drug Act. Had I been present, I would most assuredly have voted in favor of final passage, as I am an original cosponsor of the legislation. I had asked the pair clerks to pair me "for," but it is my understanding that there was no Member of Congress who wanted to be paired "against," so they were unable to pair me. As such, I want to state for the record that I strongly support H.R. 5484 and would have voted in favor of final passage of the bill, had I been physically here.

THE INTRODUCTION OF LEGISLATION TO PREVENT THE DEPARTMENT OF DEFENSE FROM ALTERING EXISTING MILITARY CARGO PREFERENCE LAW "OUR NATION'S SECURITY DEMANDS STRONG CARGO PREFERENCE"

HON. THOMAS J. MANTON

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. MANTON. Mr. Speaker, today, I and my distinguished colleague from Virginia, Mr. Bateman, are introducing legislation to stop the implementation of an ill-advised Department of Defense rule which would devastate our Nation's merchant marine fleet by dangerously meddling with existing cargo preference law.

Eighty-two years ago, Congress passed the Cargo Preference Act of 1904. This legislation requires the exclusive use of U.S.-flag vessels in the transportation by sea of military cargoes unless the President finds the rate charged for the use of those vessels to be "excessive or otherwise unreasonable." Congress passed this law because it believed a viable domestic fleet offers both defense and commercial benefits to the Nation.

For 82 years cargo preference for military cargo has served the country and our merchant marine well both in peacetime and during periods of national emergency and war. This law has stood the test of time, and it has

remained inviolate. The security of the Nation has rested in the role played by this cargo preference and, until now, no one has deemed to challenge the underlying principles of cargo prefernce by tampering with existing law.

Yet, the Reagan administration has continually chosen to ignore the history and supporting basis for this longstanding maritime policy. In only the latest of a series of attacks on the American merchant fleet, the administration has sought to undo eight decades of commercial and national security benefits ensured by cargo preference for military cargo.

First, the Department of Defense attacked the very basis of cargo preference by arbitrarily denying access by Rainbow Navigation, Inc., a U.S. flag shipping line, to the Iceland trade. Such a decision, if allowed to stand, would deal a crushing blow to this domestic marine corporation. Fortunately, two Federal courts found in favor of Rainbow Navigation, confirming that the rates charges were neither excessive nor unreasonable in accordance with the law, and that the Secretary's determination in this regard was not a product of reasoned decisionmaking.

More recently, the administration took a new tact in attempting to scuttle military cargo preference—a blatant effort to circumvent the court ruling and congressional intent. On July 28, 1986, the Department of Defense published a Notice of Proposed Rulemaking [NPR] which will, in effect, give the Secretary of the Navy the authority to unilaterally waive the Cargo Preference Act of 1904 on a case-by-case basis. This rule will establish rigid guidelines that would unnecessarily deny cargo to U.S. flag operators and, thereby, force many of them out of business.

Mr. Speaker, the elimination of cargo preference for military cargo would have a deleterious effect on the viability of our domestic merchant marine. We are already witness to a serious and dangerous decline in our Nation's merchant marine fleet. The current world-wide shipping depression, during which every large operator has recorded significant losses, has left the U.S. merchant marine in dire straits. Since 1946, the U.S. merchant marine has declined from more than 3,000 ships actively engaged in U.S. ocean borne foreign trade to just 370 active vessels today. Only some 5 percent of America's trade is now carried on U.S. flagships.

The current U.S. merchant marine would be hard pressed to support the Nation's security requirements in time of national emergency or war. Certainly any action which further weakens our domestic fleet would only erode our Nation's security even more. Obviously, the potential loss of nearly $200 million the U.S. fleet earns on military cargoes through existing preference laws would have a disasterous effect on this already strapped industry and further weaken the active ocean-going U.S.-flag merchant fleet.

Mr. Speaker, this bill will put an end to the Department of Defense's frontal assault on our cargo preference laws and our Nation's security. More than 30 years ago President Eisenhower called the domestic merchant marine our "Fourth Arm of Defense." We must make certain that this fourth arm remains strong and in working order now and for the coming decades.

THE CONGRESSIONAL CAUCUS FOR ETHIOPIAN JEWRY

HON. EDWARD F. FEIGHAN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. FEIGHAN. Mr. Speaker, tomorrow, September 17, 1986, rabbis from around the United States will gather on Capitol Hill for a Rabbinic Call to Conscience on the subject of Ethiopian Jewry. Rabbi Bruce N. Abrams of Temple Ner Tamid in Euclid, OH, along with other members of the American Rabbinic Network for Ethiopian Jews, participated in the planning of the conference and will be in Washington to meet with Members of Congress. The Call to Conscience gives us an opportunity to focus clearly on the plight of nearly 10,000 Jews who remain inside the famine-racked Gondar province of Ethiopia.

Over a year ago, America and Israel joined forces to rescue 8,000 Ethiopian Jews who had escaped from the famine and civil war of Ethiopia to the arid plains of the Sudan. Acting in secret, the United States worked with the Israel Government, giving them the economic and military support needed for two airlifts—Operation Moses and Operation Joshua.

Those rescue missions gained notice around the world. But in the Middle East, Israel and the United States were roundly criticized. The Communist Government of Ethiopia demanded that the liberated Jews be returned. The Government of Libya condemned us and asked the world community to retaliate. The Saudi regime added their voice of condemnation. Even Egypt's Government, while refraining from any outright criticism, failed to offer either words or efforts in support of the rescue.

Despite the attacks, Americans and Israelis can be proud of the rescue mission. Israel, suffering from severe economic problems, delivered thousands of Ethiopians from sure starvation and offered them a life of freedom and opportunity in the democratic Jewish state. As William Safire noted in a New York Times column at the time: "For the first time in history, thousands of Black people are being brought into a country not in chains, but in dignity, not as slaves, but as citizens."

Today, however, many Jews in Ethiopia still struggle. Nearly 10,000 Ethiopian Jews remain in Gondar province. They are mainly women and children, the elderly and the infirm. Denied the opportunity to join their families in Israel, they also face harassment from Ethiopia's Government. Hebrew schools have been closed, community leaders have been arrested, and the special permission required for holiday gatherings is often denied.

The Rabbinic Call to Conscience will help Members learn of the suffering that Jews in Ethiopia are encountering, and it will encourage our efforts to assist all those who continue to suffer in that troubled land. At the same time, I would like to commend my colleagues from New York, Mr. Solarz and Mr. Gilman, for their leadership in organizing the Congressional Caucus for Ethiopian Jewry. This caucus can help coordinate activities in the House to assist the thousands of Jews still trapped in Ethiopia realize their dream of living with their families and loved ones in Israel.

May I take this opportunity, Mr. Speaker, to urge all my colleagues to join in this humanitarian effort.

PERSONAL EXPLANATION

HON. BYRON L. DORGAN

OF NORTH DAKOTA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. DORGAN of North Dakota. Mr. Speaker, when the House voted on final passage of the Drug Enforcement, Education, and Control Act (H.R. 5484) on September 11, 1986, my affirmative vote was not recorded electronically for inexplicable reasons.

I was present and voting, as I was on all amendments to the omnibus drug bill. I would like the record to show that my vote on rollcall No. 378 should have been registered as "yea." As my statement at H 6727 of the September 11 CONGRESSIONAL RECORD clearly indicates, I am a strong supporter of this legislation as a vehicle for stemming the rising tide of drug abuse in this country.

AMENDMENTS TO FIFRA

HON. E. THOMAS COLEMAN

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. COLEMAN of Missouri. Mr. Speaker, today, I am submitting two amendments to the Federal Insecticide, Fungicide, and Rodenticide Act [FIFRA], H.R. 2482 as amended by H.R. 5440, to close a potentially dangerous gap in Federal law governing the storage of suspended or canceled pesticides.

My first amendment would require that any producer, exporter, distributor, or seller of pesticides possessing suspended or canceled pesticides report its quantities and locations to appropriate local, State, and Environmental Protection Agency [EPA] officials.

The second amendment authorizes EPA to inspect facilities where canceled or suspended pesticides are stored. Since reporting in and of itself is not sufficient to ensure the safety of people living and working near stored, suspended or canceled pesticides. I think it is essential to give EPA the authority to exercise its discretion in conducting inspections at storage facilities, especially in cases where there is long-term storage of a high volume of these pesticides.

Just over 1 month ago, ethylene dibromide, known more commonly as EDB, was discovered leaking from 1- and 5-gallon containers in the basement of a warehouse in St. Joseph, MO. The leak was found by two policemen who, while investigating a possible burglary, were overcome by the fumes of this toxic pesticide. At the time, the only government officials who knew that 64,000 gallons of

EDB were stored at this warehouse were employees of the EPA Office of Pesticides here in Washington. Local fire and health officials were unaware of the presence of the EDB. Officials of the Missouri Department of Natural Resources and regional EPA officials did not know of the location of the stored pesticide. Had there been a fire at this warehouse, the responding firefighters would not have known that EDB and 245-T were involved and that they had a chemical fire on their hands. A fire at this warehouse could have caused serious injury and have had long-term environmental consequences.

In the near future, EPA will be reviewing the registration of a multitude of pesticides for renewal and they predict that many will be suspended. The amendments I will offer to FIFRA are timely and necessary to provide for the future protection of all of our communities.

SAN FRANCISCO'S MASAYA KAKEBA BUILDING

HON. SALA BURTON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mrs. BURTON of California. Mr. Speaker, on August 11, 1986, a branch of the Department of Social Services of the city and county of San Francisco moved to a new facility located at 1440 Harrison Street. This new building is dedicated to the memory of one of the department's most able and devoted employees, the late Masaya Kakebe. I would like to share with my colleagues the life and accomplishments of Mr. Kakebe at this time.

Masaya Kakebe was born on Janurary 30, 1930, in San Francisco. His parents, both Isseis—first generation Japanese-Americans—were early immigrants to the United States. His mother was originally from the Fukuoka Prefecture and his father was from the Yamaguchi Prefecture in Japan. Masaya was educated in his early years through the San Francisco public school system, until the declaration of World War II in 1941 when he, his parents, and his sister May, were forced with 110,000 other Americans of Japanese ancestry into relocation camps spread out through the deserted and desolate parts of the Western United States. The Kakebe family was relocated first to the Pomona Assembly Center and finally to the Heart Mountain Relocation Center near Cody, WY, where they remained until September 1945.

Like many other Nisei and Issei families, the Kakebes returned to San Francisco after the war where Masaya continued his education at Commerce High School. He attended the City College of San Francisco and the University of California at Berkeley. Upon completion of his degree in business administration, Masaya served 2 years with the Corps of Engineers in the U.S. Army Air Force. He returned to the Bay Area after his military service and attended night school at the Golden Gate University while he worked at Laguna Honda General Hospital as an accountant during the day.

Mr. Kakebe embarked upon what was to be an outstanding career in public service in San Francisco. Through the years, his accomplishments gained him various positions of increasing responsibility in the city: Administrative assistant at Laguna Honda, senior accountant with the comptroller, assistant administrator of San Francisco General Hospital. In 1969, Mr. Kakebe came to the Department of Social Services as director of administrative services and was promoted to assistant general manager in 1976.

Masaya Kakebe also served the Japanese-American Community in San Francisco. He was an active member of the board of directors of the San Francisco Japanese-American Citizens League. He served as a resource person for the Kimochi, Inc., providing guidance and information on social service and other human resource programs for the Issei and Nisei.

Masaya Kakebe is remembered with respect and affection as a man of unchallenged integrity, compassion, and sincere dedication to the service of those who were less fortunate. He was a civil servant who truly believed in the "privilege of public service" and demonstrated for many that the exercise of judgment, talent, and caring does make a difference in a bureaucracy.

In the dedication of this new building, the Department of Social Services is proud to honor Masaya Kakebe and the principles for which he stood. I hope that my colleagues will feel as honored as I in remembering Masaya Kakebe in this way.

BERT AND EVA SKILES: 50 GOLDEN YEARS TOGETHER

HON. MERVYN M. DYMALLY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. DYMALLY. Mr. Speaker, on November 15 of this year Bert and Eva Skiles will celebrate their 50th wedding anniversary. I want to take a moment to wish them the best for their next 50 years and hope that we might all be as lucky as they.

Many of my colleagues know that I was a teacher before entering political life. I am especially mindful of this milestone in Bert and Eva's life because of the quarter century that Bert and Eva have dedicated to public education in the Orange Unified School District in southern California. For all that time, Bert was an elected member of the school board. All of us in political life know what an accomplishment it is to have the voters return us to their service continuously over that long a period. Anyone so fortunate is obviously doing something right for the constituents. Eva and Bert are both deeply committed to giving our children the best education possible. And over their adult lifetimes, they have put their effort where their commitment is. For my money, that is deserving of the highest commendation. Our children are our best hope for the future. Through their work in the education of our children, Bert and Eva have done much to shape a bright future for all of us.

I am sure the two of them are not expecting to have their accomplishments recognized here in the U.S. House of Representatives. But they have both long been keenly interested in politics, and follow State level politics especially carefully. This will be a well deserved and pleasant surprise for them. I think it especially fitting that these two people who exemplify the best in citizenship, the best in family tradition, the best in participatory democracy be recognized here in the seat of that representative government which their responsible citizenship has helped to make possible. Bert and Eva, we in your House of Representatives salute with admiration your 50 productive years together. May you have at least 50 more.

POW/MIA RECOGNITION DAY

HON. BENJAMIN A. GILMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. GILMAN. Mr. Speaker, it is now 13 years and 8 months since American involvement in the tragic conflict in Southeast Asia came to an end. Over 11 years have elapsed since the fall of Saigon to the Communists.

And yet, today, we still do not know the fates of more than 2,400 American heroes who never returned home from that conflict.

We in Congress have designated this coming Friday, September 19, 1986, as National POW/MIA Recognition Day.

This is an appropriate time for our veterans and service organizations through our Nation to conduct appropriate ceremonies in honor of our missing heroes. It is a time too for our schools, our educational institutions, and service groups to remind our Nation and the world that 2,400 Americans are still missing in action.

Most importantly, it is time that we, in Congress, let the administration know that we fully support its efforts to resolve this issue, and to send Hanoi a united signal that relations between their nation and the free world will not be normalized until all of our American heroes are fully accounted for.

ESTABLISH POVERTY POINT AS A NATIONAL MONUMENT

HON. JERRY HUCKABY

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. HUCKABY. Mr. Speaker, today I am introducing a bill to designate Poverty Point in the State of Louisiana as a national monument. Poverty Point, located in my congressional district, is the site of the earliest aboriginal culture group yet discovered in the lower Mississippi Valley, dated between 700 and 1700 B.C. This 400-acre area contains a complex of manmade earthen mounds, with the central group consisting of six rows of concentric octagonal ridges, 5 to 10 feet high. The dominant feature of the site is a great effigy mound, depicting a spectacular bird in flight. It measures about 700 by 800 feet at its base and rises about 60 feet into the air. It is unknown for what purpose these structures served, but their age, size, and character

clearly place them among the more significant archeological finds in America today.

The people who fashioned Poverty Point had probably migrated to this part of the world from Asia via the Bering Strait and Alaska. An apt comparison can be made to the Egyptians who dragged huge stones across the desert to build the great pyramids; it has been estimated that some 5 million man-hours were devoted to building these massive structures at Poverty Point, with these ancient laborers carrying the earth to the site in baskets of about a 50-pound capacity.

One of the remarkable aspects of this culture was the people's efforts to import materials from great distances and their ability to adapt to the environment. Hard brick-like clay balls were fashioned, heated, and used for cooking because there were no stones available at Poverty Point for this purpose. Flint knives and spears were made from stones from 30 miles away, and soapstone vessels were made of material from the mountains of North Carolina 500 miles away. There are many other rich archeological treasures at Poverty Point, such as a unique crematory site and a museum display of weapons that predate the bow and arrow.

One of the most important finds was the discovery of post holes—carbon deposits—which indicate the placement of posts that were used in sightings of the autumnal and vernal equinoxes, as well as the summer and winter solstices.

This could prove a link to Stonehenge in England, thereby dating Poverty Point back many more thousands of years and completely changing ancient history as it is being taught today.

I have had a continuing interest in affording Poverty Point some kind of Federal protection since 1977. However, the State of Louisiana did step in soon after and declared the site as a State commemorative area.

Because of the serious financial situation our great State is in right now, it is unfortunate that the State government was forced to close all its commemorative areas September 1. There is only a roving maintenance and security crew to oversee all our commemorative areas, and the public has no access to Poverty Point.

Poverty Point is already on the list of National Historic Places and is recognized as a historical national landmark by the National Park Service. It is considered nationally significant by the standards set in the Historic Act of 1935 and by its accessibility, suitability, and feasibility aspects. I cannot foresee any objections or obstacles to establishing Poverty Point as a national monument.

Louisiana State Governor Edwin Edwards has endorsed my proposal, and the people of Louisiana, plus visitors to our State, students, and researchers are overwhelmingly supportive of keeping Poverty Point open to the public.

Overall, I think we need to provide adequate protection to this valuable resource, so steeped in historical and archeological information. Although there is little legislative time left this year, this bill is noncontroversial and straightforward. I urge its quick consideration and approval by Congress.

PHILIPPINES SUGAR QUOTA LEGISLATION

HON. JOHN P. MURTHA

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. MURTHA. Mr. Speaker, as a member of the Defense Appropriations Subcommittee, I have long been concerned about a strong national defense. For this reason, I have had a long-time interest in the Clark Air Force Base and the Subic Bay Naval Base in the Philippines.

My interest in the Philippines was further increased last February when President Reagan asked me to be cochairman of the official U.S. delegation with Senator RICHARD LUGAR of Indiana to observe the February 7 presidential election in the Philippines. My observations of the Philippine election and what has transpired since significantly affected me. I saw a courageous woman campaigning for the presidency against all odds. But her courage, honesty, intelligence, and sincerity enabled her to overcome these overwhelming odds. Even when it appeared the election was being stolen from her through fraud, the Filipino people stood behind her to restore Democracy, and the American Government stood strong and proud for Democracy.

Now, Mr. Speaker, as the new President of the Philippines, Corizon Aquino, is in Washington, DC, to seek our assistance, she is facing monumental economic problems and I want to assist her in every way I can to rebuild a strong Democracy in the Philippines.

The best way is to give her much-needed economic assistance. One of the fastest ways to assist economically is to restore the Philippine sugar quota. Last week, I introduced legislation, H.R. 5512, to accomplish this. The Philippines has been our oldest supplier of sugar. Prior to 1960, we purchased all our sugar from Cuba and the Philippines. However, when Cuba went Communist under Fidel Castro, we withdrew their quota and reallocated it to 30 other foreign countries. Still, the Philippine quota remained the backbone of our sugar supply. Under President Kennedy, the Philippine quota was 28.3 percent of all our sugar imports. Under President Johnson, it was 27.6 percent, under President Nixon, 26.1 percent and under President Ford 25.6 percent. In other words, from 1961–75 the Philippine sugar quota averaged 26.9 percent of all our sugar imports. However, in 1982, when sugar quotas were reimposed and a faulty formula was used, the Philippine quota was unfairly and drastically cut in half to 13.5 percent.

To demonstrate how unfair the allocation proved to be, the formula allotted sugar quotas to Canada, Peru, and Ecuador, even though none of these nations can produce enough sugar to provide for their own needs. Since the allocation in 1982, Peru has consumed 1,869,000 tons of sugar. They have not been able to produce this amount and have had to purchase the remainder. Ecuador has produced 200,000 tons less than they have consumed. However, the greatest example of the injustice of the 1982 quota allocations is Canada. Canada is one of the world's largest importers of sugar and they buy nearly all their sugar from Cuba. From 1982 to 1985, Canada consumed 3,142,000 tons of sugar. During this same period, they produced only about 300,000 tons of sugar; less than 10 percent of their needs. Yet we gave and continue to give them a sugar quota. All three countries, Canada, Peru, and Ecuador, have purchased sugar from Cuba and resold it to the United States even though we refuse to buy sugar from Cuba directly. Today the world market price is 6¢ per pound and the U.S. price is 20¢ per pound. A U.S. sugar quota is extremely valuable.

Further, when we are paying a big subsidized price to foreign countries, it doesn't make sense to subsidize developed countries like Canada, Australia, and South Africa. The legislation I introduced last Friday provides that all U.S. sugar imports will come from friendly developing countries who are net exporters of sugar. This would make available enough quota to fully restore the Philippine percentage to its historical 27 percent. Further, depending upon the U.S. support price and the world market, this increase in quota would mean anywhere from $30 million to $60 million in economic aid annually during the balance of the sugar program and would not cost the taxpayer a cent.

We will always buy sugar from countries abroad. Should we buy from an ally, supporter, and net exporter? Or should we buy from a fully developed country with prosperous and sound economic development that buys sugar from Cuba?

Chairman Arsenio Yulo of the Philippine Sugar Regulatory Administration visited me several times regarding the need to restore the Philippine sugar quota. He has pointed out that 5 million people in the Philippines are dependent on sugar and the Communist rebels are making their greatest gains in the sugar areas where unemployment and starvation are everywhere. Chairman Yulo said restoring the sugar quota is the best way to fight communism in Negros and Panay and would be more effective than any other single action the United States could take. I am hopeful we can take this small step forward in assisting the courageous new President whom we will welcome to a joint session of Congress on Thursday and her loyal and dedicated citizens who have proven themselves to be great friends of the United States during World War II, the Korean war, the Vietnam war, as well as during peacetime.

I urge you to join me in supporting this legislation.

Thank you.

LET THE TRUTH COME OUT

HON. WILLIAM O. LIPINSKI

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. LIPINSKI. Mr. Speaker, I believe it is time the Government of India lift the current information blackout on the Punjab and allow the Sikh people the freedom to practice their religion and live their lives in peace. With the only source of news being the Government-

controlled media, dangerously little is known about what is actually going on in the Punjab, an area where most of India's 15 million Sikhs live. Eyewitness reports of religious and cultural persecution, of arbitrary arrest and detainment and the mass murder have conflicted sharply with official statements regarding the treatment of Sikhs.

Sikhs are a hard-working, industrious and peace-loving people. They produce 60 percent of total Indian wheat reserves bought by the Government and are largely responsible for the "green revolution" that has allowed India, in recent years, to become a net exporter of foodstuffs. However, with the bloody June 6, 1984 attack on the holiest of Sikh shrines, the Golden Temple, the Government has attemped to portray the large majority of Sikhs as terrorists and extremists bent on the violent creation of the independent state of Khalistan. Since all other news sources are so scarce, it is not surprising that many in the West have essentially accepted without question this line of reasoning or have never heard of the Sikh plight.

Dr. G.S. Aulakh, president of the International Sikh Organization, has been instrumental in presenting the other side. He claims the Indian army traps Sikh men in fake encounters in order to provide a pretext for their deaths. He argues that the Indian Government infiltrates Sikh organizations outside the country in order to discredit them as extremist and pursues at home a systematic policy of cultural and political genocide. He asks a number of questions that I think need to be answered: Why does the Indian Government prohibit foreign journalists from covering Punjab? Why was a group of U.S. Congressmen denied permission to visit the area? Why is the book "Report to the Nation: Oppression in Punjab", published by the largely Hindu Citizens for Democracy organization, banned in India? Why was no one tried for the murder of thousands of Sikhs in Delhi after the Gandhi assassination?

The most important point here is that genuine movement toward a lasting solution for the Sikh nation must include real freedom. A democracy cannot function if the majority tyrannizes the minority. Similarly, if there is no deep commitment to protecting the Sikh minority in India, then tragic events like the Golden Temple seige will continue to divide and disrupt India. I appeal to Prime Minister Gandhi as leader of the largest democracy in the world to work toward implementing those measures that would end the violence and strife in the Punjab.

ROMANI DAY OF REMEMBRANCE

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. LANTOS. Mr. Speaker, today we solemnly observed a ceremony of remembrance for the peoples of Romani, the Gypsies, who were another racist target of the evil inspired Nazi Holocaust. The stories of the deaths of hundreds of thousands of Gypsies at Auschwitz and in other Nazi concentration camps are only beginning to be told. The genocide attempted by Hitler's troops was planned for both Gypsy and Jew. This first day of remembering the Gypsy experience in the Holocaust was sponsored by the United States Holocaust Memorial Council in association with the American Rom (Gypsy) community. I submit for the RECORD the moving and scholarly speech given by Prof. Ian Hancock, specialist in Rom studies at the University of Texas, Austin.

I was just a child when the Second World War ended. But I remember the bomb shelters, and the blackouts, and especially the sirens warning of air attacks from the Continent. I remember the devastation those attacks left behind in London's east end; the empty shells of the buildings remained long after the war.

I was one of the lucky ones: I was born in Britain, and survived. Relatives of mine in Hungary did not; by 1945, over half a million of our people in Europe had been slaughtered. Those of us born here and in Britain must thank God for our deliverance.

German prejudice against the Romani people dates from our very arrival in that part of Europe in the fifteenth century. The methodical persecution which eventually culminated in genocide began at the end of the last century, with the establishment of the Central Office for Fighting the Gypsy Nuisance in Munich, in 1899. There had already been a proposal at an earlier conference on what was called the "Gypsy Filth" to round up and put into detention centers all Gypsies in German controlled territories. By the 1920s, special police units had been created to keep the Romani population under constant surveillance; everywhere, Rom and Sinti were fingerprinted and photographed, and were not allowed to move about the land without special passes.

When Hitler came to power in 1933, he found anti-Romani laws already well entrenched, and needing only refinement by the Nazis to turn what had been harassment and bigotry into the deadly tool of racism and murder. In that same year, the very first year of Nazi power, German Rom and Sinti became victims of their program to eradicate unwanted elements from their new society: numbers were sterilized and sent to camps at Dachau, Dieselstrasse, Mahrzan and Vennhausen.

In 1935, the Nuremberg Law for the Protection of Blood and Honor made unions between Gypsies and non-Gypsies illegal on racial grounds; a Gypsy was defined at that time as anyone having as little as one eighth Romani ancestry. Ironically, the less Romani blood, a Gypsy had, the harsher was his treatment at the hands of the Germans.

In 1936, Interpol itself supported the persecution of our people by establishing the International Center for the Fight Against the Gypsy Menace, an office which was not officially closed down until 1970.

A Nazi Party proclamation issued in 1938 stated that the Gyspy problem was categorically a matter of race, and was to be dealt with in that light. Johannes Behrend, speaking for the Party a year later, declared that "elimination without hesitation" was the only way to protect the Aryan people from racial contamination from Sinti and Rom. In that year, Gypsies began to be transported to concentration camps in Berlin and Poland. The same began to take place in the Baltic states, Czechoslovakia, Hungary, France, Italy and the Balkans. Large-scale round-ups were everywhere in effect by 1943; by April that year, over 10,000 Sinti and Rom were incarcerated in Sachsenhausen for later extermination. In some parts of Europe, entire Romani populations were destroyed, such as the Layenge Rom in Estonia, who are now an extinct people. Elsewhere in Nazi-controlled areas of Europe, as many as 70 and 80 percent of the resident Romani populations were exterminated. On August 1st, 1944, four thousand of our people were murdered at Auschwitz in just one night.

So complete was the Nazi destruction of the Romani people in Europe, that few survived to tell the story. Still fewer non-Gypsies seemed even to care. After the war, no nation came forward to help the survivors, no attempt was made on the part of any government or philanthropic organization to help reorient them; now war crime reparation was forthcoming, no invitations extended to testify at any of the war crime tribunals.

Hitler's methods of dealing with his Gypsy Problem included at first banishment, then sterilization, and finally extermination. For the Romani people, the defeat of Nazism did not bring an end to any of these, at least as possible solutions in the minds of the authorities: in 1981, police systematically rounded up and expelled numbers of Rom throughout Poland, abandoning them at sea without the papers necessary for them to return; in 1976, a government proposal in Czechoslovakia recommended that the sterilization of its Romani population would be an act of "socialistic humanity"; Romani Union lawyers have reason to believe that the fingerprints and photographs in the files of the Interpol office which was officially closed in 1970, are still being used by the police in Germany against the Rom. The contemporary state of our people remains very critical, and it is functions such as this Day of Remembrance that will bring the larger community to a better understanding of our situation.

The recognition here today by the U.S. Holocaust Memorial Council of the fate of the Rom in Hitler's Europe, marks a turning point in our efforts to bring it to the attention of the nation and of the world. This is a very special day, not only for Romani Americans but for all Americans. With the completion of the Memorial Museum, the fuller story of the Holocaust, as it affected all of its victims, will be told. We are at the beginning of a close and cooperative working relationship with the Council, one dedicated to bringing this to fruition.

Today is a special occasion for another reason as well. For the first time in American history, representatives of the different branches of the Romani Nation have come together in one place: members of the Machvano, Kalderash, Lovari, Xaladitka and Romanichal populations are here in this room to honor jointly the memory of our dead. Let us hope that in the years ahead, our numbers at this annual ceremony will grow, and that through future Days of Remembrance and through our Memorial Museum, the world will no longer remain ignorant of the fate of our people in the Holocaust.

I want to say a few words now about our dear friend John Megel, o Lazo le Gyorgosko shavo, who passed away only days before he was to have been here with us in Washington.

Like many Americans Rom whose ancestors arrived here in the early 1900s, Lazo

was aware that his people had been murdered in great numbers during the Second World War, but like most other Americans, knew little of the actual details of the Nazi atrocity against our people.

He was originally drawn into our Holocaust-related efforts through his own attempts to revive the Red Dress Romani Benevolent Association, founded almost sixty years ago by his grandfather, Steve Kaslov. John Megel felt, like his grandfather before him, that Romani Americans were the victims of social and economic prejudice which largely resulted from their being poorly understood: Kaslov met with and spoke personally to Franklin D. Roosevelt about his concerns for his people, though to little avail.

As John Megel came to understand more and more about the immensity of Hitler's plan to exterminate the Gypsy people, and how the world seemed to have turned its back on our plight since the War, he became consumed with an abiding outrage, and a determination to see justice done. Sometimes he would speak to me with tears in his eyes, wondering why no one seemed to care.

When we began to enter into a dialogue with the U.S. Holocaust Memorial Council about three years ago, he became one of the most vocal, and often impatient, advocates of the Romani cause. Sometimes he would be knocking on their office door once or twice a week. It is very largely due to his efforts that this solemn event has come about, and it is only fitting that a tribute be made to his memory here today. He was to have spoken, and to have participated in our water ceremony here this morning.

One of Lazo's concerns was the collection of songs and poems in Romani which have to do with the Holocaust. I recently found one such poem which I would like to read in his memory; it was composed by a Serbian Rom shortly after the end of the War.

One morning, about seven,
The Germans came to my door.
"Let's go, Gypsy, let's be on our way".
"Wait, Mr. German, until I light the fire
And kiss my old mother,
For I know I won't be coming back,
I know you're going to take my life".
"Hurry, Gypsy, and take your shovel,
And dig yourself
A grave".

I'd like to have a few moments' silence for John Megel.

Najis tuménge.

TRIBUTE TO ELIZABETH ALLEN

HON. ROBERT J. MRAZEK

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. MRAZEK. Mr. Speaker, it is with great regret that I rise today to inform my colleagues of the death on September 2 of my friend, Elizabeth Allen, of Centerport, Long Island. Mrs Allen, known to us all as Betty, was active for more than 40 years in local environmental and charitable causes.

Known fondly as the "Bird Lady of Centerport," Betty Allen was a founding member of the Huntington Audubon Society and held many offices within the organization. She raised an early voice in opposition to the widespread use of the pesticide DDT and alerted others to its disastrous effect on wildlife and the food chain. Much of her time was devoted to protecting the waterfowl on Mill Pond near her home, and to working to protect endangered species such as eagles, coyotes, and wolves in regions far from home.

She also devoted herself to helping the members of her community. For many years, she volunteered her services aiding the blind at Burrwood School in Lloyd Harbor. She also became a communications link for her neighbors during emergencies after taking up a ham-radio hobby and continuing to operate on Station WA2YHI.

Mr. Speaker, Betty Allen was a woman of many talents who chose to use them for the betterment of her community and beyond. Survived by her devoted husband, Richard, she leaves a legacy of concern for our wildlife and, by extension, our own species' environmental integrity.

SOVIET MISSILE ACCIDENT UNDERLINES NEED FOR IMPROVED COMMUNICATIONS BETWEEN SUPERPOWERS

HON. FORTNEY H. (PETE) STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. STARK. Mr. Speaker, today's report of a Soviet missile misfire underscores the urgent need for improved communications between the United States and the Soviet Union to reduce the chances of an accidental nuclear war.

The Reagan administration has consistently ignored, spurned or mocked proposals from Congress and private defense experts for improved "confidence building measures" (CBM's) or the establishment of a crisis control center. Meanwhile, there have been at least five missile-related accidents just this year. The question is, how many times can we say, "Oops," before we have a terrible disaster?

Fortunately, the Soviet missile appears to have landed in a very remote part of China. Fortunately, it carried a dummy warhead. But the Soviets had not been required to notify anybody of the test and they were unable to destroy the missile when they realized it had veered out of control. U.S. officials speculate that the incident is "embarassing" to the Soviets. I submit that it should be extremely frightening to the average citizen.

Mr. Speaker, one would think that rational people, faced with the reality of nearly 50,000 nuclear warheads between the superpowers, would do all they could do reduce the chances of them being used. One would think that these people would seek to stabilize everyday relations and to minimize the chances of a nuclear war resulting from a misunderstanding. Both superpowers, though, have consistently engaged in sabre-rattling rhetoric. In last month's defense bill, the House authorized purchase of destabilizing first-strike weapons like the MX and the Trident II submarine-launched missile that bring both sides closer to a launch-on-warning position. And, the Reagan administration has announced that it will no longer be bound by the SALT II treaty.

I want to touch for a moment on the President's SALT II decision because it is particularly relevant to the Soviets' latest accident. An obscure provision of the treaty, which would no longer apply if the treaty were scrapped, requires each side to notify the other before simultaneously test-firing more than one ICBM. One need not be very imaginative to envision a scenario where an unannounced multiple test-fire could go astray and appear to threaten one of the superpowers. With both sides in a launch-on-warning mode, with mode sides possessing a first-strike capability and with poor crisis communications and no agreed-upon rules of behavior during a crisis, the chances for a disaster are very high indeed. One need not subscribe to Murphy's Law to be shaken by the dangers we face.

Mr. Speaker, I have long supported both improved CBM's and the establishment of a crisis control center. Last year I drafted an amendment to the foreign aid bill ordering a study by the State Department and the Arms Control and Disarmament Agency of ten CBM's which have been widely accepted by defense experts in and out of the Government. The administration could not find even one that it liked. At the risk of repeating earlier statements of mine, I'd like to enumerate these ten proposals. One of them could literally save the world some day.

1. Increased redundancy for the Hot Line,
2. Create Hot Lines among all nuclear armed states,
3. Agree not to target each other's Hot Lines,
4. Agree on standard operating procedures for communication and cooperation in a third party nuclear attack,
5. Prohibit "locking on" of fire control radars of ships and planes, agree on separation of naval forces during a crisis, and other measures to reduce provocations,
6. Place unmanned launch sensors in the missile fields of the U.S. and the U.S.S.R.,
7. Create zones free from anti-submarine warfare,
8. Place mechanisms on submarine-launched missiles to prevent accidental or unauthorized firing,
9. Establish a training program for national command authorities,
10. Announce contingent relocation of national command authorities.

Mr. Speaker, it's hard not to get the feeling that we're using up our free mistakes. Both sides have already shaved to a mere strand the string holding the Damoclean sword over our heads. Before the laws of physics and probability and the vagaries of human nature overcome us, we need to develop measures to shore up our protection. I urge the Reagan administration to come out of the ideological corner into which it has painted itself and to commence serious negotiations with the Soviet Union on CBM's and a crisis control center. The defense of the American people depends upon it.

71-059 O-87-9 (Pt. 17)

CONGRATULATING JOHN W. LITTLE CO. ON ITS 100TH ANNIVERSARY

HON. FERNARD J. ST GERMAIN

OF RHODE ISLAND

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. ST GERMAIN. Mr. Speaker, I would like to take this opportunity to bring to the attention of my colleagues the 100th anniversary of a very special company in Rhode Island. The name of the firm is the John W. Little Co. Let me tell you a little bit about it.

On September 21, 1886, 25-year-old John W. Little created a business that would "carry on the printing and publishing business of every description." The new company was the first all-electric printing outfit in the Nation.

John W. Little was active in civic and community affairs throughout his lifetime. He received an appointment as postmaster of the city of Pawtucket from President William Howard Taft and served for many years as chairman of the Pawtucket School Committee until his death in 1922.

After the founder's death, the Little family retained control of the company. T. Stewart Little succeeded as president. He was followed by Peter K. Little and incumbent Steven B. Little. At the time of the company's incorporation in 1923, John W. Little, Jr., became the secretary of the business and received national recognition for his invention of the process of printing on cellophane. The sale of his patents in 1930 saved the company during the Great Depression.

The John W. Little Co., today is a nationwide supplier of Blister Pack and Die Cut cards for the packaging industry.

The Rhode Island State Senate has formally congratulated the John W. Little Co. of Pawtucket on its 100th anniversary. The civic responsibility and pride this company has displayed over the past century is truly an inspiration to all businesses across the country.. I ask my colleagues to join me today in saluting this outstanding organization.

NATIONAL GROUN DWATER CONTAMINATION RESEARCH ACT OF 1986

HON. SAM GEJDENSON

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. GEJDENSON. Mr. Speaker, today I am pleased to introduce the National Groundwater Contamination Research Act of 1986. This legislation is a revised version of H.R. 3906, The National Groundwater Contamination Research Act, which I introduced on December 11, 1985. The new bill incorporates some improvements which were suggested during two ground water hearings held by the House Interior Subcommittee on Water and Power Resources.

H.R. 3906 was cosponsored by a bipartisan group of 51 Members of Congress from all regions of the country. It was strongly supported by numerous environmental and industry groups, including the Environmental Policy Institute and the American Electronics Association.

Ground water contamination is one of the most serious environmental problems of the decade. The number of wells closed because of contamination by toxics and other substances increases every day. In my home State of Connecticut alone, over 1,000 wells have been closed.

Unfortunately, a major barrier to the protection of ground water from contamination is the lack of basic information on the problem. There is no reliable estimate of how much gound water in the United States is contaminated. The small amount of information we do have is alarming. One study by the Environmental Protection Agency found that up to 63 percent of rural Americans may be drinking water tainted by pesticides or other contaminants.

The National Groundwater Contamination Research Act of 1986 will provide Federal, State, and local governments, and industry with the information they need to resolve ground water contamination problems. The bill expands and focuses U.S. Geological Survey [USGS] research on ground water contamination.

The bill directs USGS to report on the adequacy of existing ground water information to meet the needs of States, communities, and industry. This report will be accompanied by an independent evaluation of information needs conducted by States. Following the completion of this report, USGS is required to establish a national ground water quality assessment program to meet the information needs identified by the report.

The bill also establishes a National Groundwater Information Clearinghouse to disseminate ground water information to Federal agencies, State and local governments, and private organizations and individuals. The Clearinghouse will serve as a repository for all ground water information and will provide decisionmakers with easy access to information they need to resolve ground water problems.

In addition, the bill expands the USGS program to provide technical assistance to States and localities experiencing ground water problems. To date, USGS's technical assistance has been extremely effective. In many instances it is the only information resource available to State and local officials attempting to solve ground water problems.

Ground water is a vital natural resource. We must do all we can to protect our Nation's ground water for use by present and future generations. Until we fully understand what is causing ground water contamination and how widespread it is, we will simply be throwing money at the problem in response to individual cases. The National Groundwater Contamination Research Act of 1986 will provide the information we need to begin to solve the ground water contamination problem.

REPORT OF DRUG ENFORCEMENT POLICY BOARD NOT YET RECEIVED

HON. LAWRENCE J. SMITH

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. SMITH of Florida. Mr. Speaker, during the debate on the Ackerman amendment to H.R. 5484 last week, I referred to a report that the Foreign Affairs Committee was to have received. At the time, I indicated incorrectly that the committee was expecting this report from the INS. I want to correct the record.

Under section 132 of the State Department Authorization Act, the National Drug Enforcement Policy Board was to agree on uniform guidelines that would permit the sharing of information on foreign drug traffickers to ensure that they are not permitted to legally enter the United States. The State Department was to share with DEA and Customs information on all drug arrests of foreign nationals in the United States so that information may be communicated to our embassies that issue visas.

Under the law, the Foreign Affairs Committee should have received in February 1986 a report from the National Drug Enforcement Policy Board on steps taken to implement that section. As chairman of the Foreign Affairs Committee's Task Force on International Narcotics Control, I still am waiting for this report.

So, it is not the INS that has been delinquent. It is the Drug Enforcement Policy Board, headed by the Attorney General, that has failed to comply with the law.

DID PETER SELLERS WRITE THE SCRIPT FOR THE CONTINENTAL BAILOUT?

HON. PHILIP M. CRANE

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday September 17, 1986

Mr. CRANE. Mr. Speaker, In June 1986, for the first time in 26 years, a British court upheld the refusal of an insurance company to pay the claim of a shipowner whose vessel had sunk. The ship in question was the *Captain Panagos,* which went down on Farazan Island in the Red Sea in November 1982. The court found, according to Andrew Fisher of the Financial Times, that as part of a fraudulent scheme to collect 9 million dollars' worth of insurance proceeds, the crew had deliberately scuttled the ship and then burned it.

The owner of the *Captain Panagos* was Xenofon Maritime SA of Panama. The prime shareholder of Xenofon was Diamantis Panagos Pateras. One might think that Pateras would have suffered the loss, but in fact he did not. Instead, the depositors at all federally insured banks in America paid for the *Captain Panagos.* How could such a perverse result be possible?

It turns out that the Continental Illinois Bank & Trust Company of Chicago held a mortgage on the *Captain Panagos.* Because the Federal

Deposit Insurance Corporation owns Continental Bank, it had to absorb the loss of this worthless loan. But of course the FDIC does not fund itself. It collects premiums from its member banks, who in turn collect their revenues from their depositors. And so it is that the depositors at all federally insured banks in America paid for the deliberate scuttling of the *Captain Panagos*.

In the late 1970's and early 1980's Continental Bank loaded its portfolio with improvident loans. Possessed of a "casino" mentality, the bank gambled that oil prices would rise, that real estate values would soar, that the steel industry would prosper, that the world economy would boom, that no foreign government could go broke.

Either the bank's management failed to perceive risks which it should have perceived, or it perceived the risks but—out of sheer arrogance—chose to ignore them. Either way, the management acted recklessly. By the time the Government intervened, the bank had wasted 2 billion dollars' worth of capital, and the value of its stock had sunk to one one-thousandth of 1 penny per share.

By rescuing Continental from its own mismanagement, the Government reaffirmed the message sent out a few years earlier by the Chrysler Corp. bailout: The Federal Government will refinance inefficient, bankrupt private enterprises—if they are large enough and politically visible enough. Put another way, most private businesses have to sink or swim in the marketplace, but those with a political constituency in Washington can get relief from Uncle Sam.

In its September 1984, rescue of Continental, the FDIC injected $1 billion of fresh capital into the bank's parent corporation, repaid a $3.5 billion loan from the Federal Reserve Bank of Chicago, and agreed to acquire $2.5 billion in bad loans by September 1987. While the FDIC has recovered 65 cents on the dollar from the collapse of the Penn Square Bank of Oklahoma City, the agency nevertheless estimates that it will collect less than 20 cents on the dollar from Continental's loans.

The FDIC charges its member banks annual premiums of one-twelfth of 1 percent of their deposits. Traditionally, the Federal insurance agency has rebated part of the premiums, thereby reducing the cost of the insurance. In 1985, however, the FDIC suspended its rebates for the first time since 1949.

The FDIC's stated reason for the suspension was that it needed the extra money to pay for the Continental bailout. The agency has already announced that it will suspend rebates again in 1986.

By taking this unusual step, the FDIC has greatly increased the effective price member banks pay for insurance. One can be certain that the banks have already begun to pass this added cost on to their customers either by offering lower interest rates on deposits or by charging higher rates for loans and other services.

In return for assuming Continental's bad loans and providing it with new equity, the FDIC has received a 78-percent ownership interest in the bank. The rescue package has thus given the Federal Government a major foothold in the commercial banking business. By contrast, the Chrysler bailout required only that the Government guarantee the automaker's credit. That bailout may have squeezed worthier borrowers out of the credit markets, but at least it did not put the Government into the business of manufacturing automobiles.

Some might call the Continental rescue package sound "industrial" policy. Others might call it corporate welfare, doled out arbitrarily to a chosen enterprise. But in reality it is a simple form of socialism. The Federal Government has nationalized Continental Bank and begun competing with other financial institutions.

Worse yet, the Government has financed this nationalization with funds derived exclusively from Continental's competitors. The very insolence of the rescue package mocks the tens of thousands of bankers who have maintained sound institutions and who have faithfully adhered to rules and regulations of responsible banking.

Now, less than 2 years after the bailout—and while its competitors are still paying its bills—Continental wants to go on a shopping spree.

On February 24, 1986, Continental announced that it planned to purchase two suburban Chicago area banks, the First National Bank of Deerfield, and the First Suburban Bank of Olympia Fields. This announcement came just 3 days after the bank doubled its earlier estimates of how much the FDIC would lose on the transferred loans.

In March of this year, Continental said that it plans to purchase a third financial institution, the First National Bank of Western Springs, IL.

Most recently, on August 12, 1986, Continental announced its intention to buy First Options of Chicago, Inc., the Nation's largest clearing firm for professional options traders.

Continental has offered nearly two times book value for the banks in question. As the president of one of the target banks said, "They made us an offer we couldn't afford to turn down."

It is unknown exactly how much Continental has offered for First Options of Chicago, Inc., but William Gruber and Laurie Cohen of the Chicago Tribune reveal that a London securities firm dropped out of the bidding when the price exceeded $100 million.

So Continental is not driving hard bargains. But why should it? All it has to do is sign the purchase contracts and send the FDIC the bills.

If Continental receives regulatory approval for its planned acquisitions we will have entered an ominous new phase in the FDIC rescue package. Instead of simply forcing member banks and their depositors to keep Continental afloat, the FDIC will be forcing them to buy other businesses for Continental's account.

What public policy principle, what theory of governance, will sustain the Federal funding of these acquisitions? Political expendiency may have sustained the initial bailout, but not even that will justify forcing sound banks to pay for the shopping spree of a bankrupt institution.

It occurs to me that perhaps the late Peter Sellers wrote the script for the Continental bailout. Those of you who saw the actor's most famous movie, "The Mouse That Roared," will recall that the plot went something like this: The Grand Duchy of Fenwick, a tiny country with medieval institutions, needed financing to bring itself into the 20th century. When all other means of boosting its economy failed, the Duchy hit upon a novel scheme. It would declare war on the United States, lose the war, and then get American economic assistance after it was over!

It's a grotesque irony, isn't it? Just as we once gave massive assistance to countries which waged war on us, so too, we are now giving blank checks, drawn on the FDIC, to a bank that wrecked itself. Instead of paying for its reckless banking, Continental stands to gain from it. Will all large American banks be better off going to the brink of collapse and inviting FDIC intervention than staying healthy?

On August 15, 1986, the FDIC announced that it will use a rescue package similar to Continental's in order to bail out the Bank of Oklahoma. In return for injecting $130 million of new capital, the FDIC will receive enough warrants to buy 55 percent of the bank's holding company.

Bankers across the country are waiting with bated breath to see how the Oklahoma bank will use its new found wealth. Maybe it will buy Merrill Lynch.

Mr. Swearingen, chairman of the board of directors and chief executive officer of Continental Illinois Corp., argued in a letter to Mr. Waterman, president of the Illinois Bankers Association, that prohibiting its planned acquisitions would contravene the very purpose of the rescue program.

Both of these arguments are unpersuasive. First, Continental twists the purpose of the rescue plan. The FDIC originally made the capital infusion in order to protect Continental's depositors and the depositors of other banks which were creditors of Continental's—all of whom would have suffered losses and had claims against the FDIC, had the bank failed. As such, the capital restructuring was plainly a defensive move by the FDIC.

Far from contravening the defensive purpose of the bailout program, it would be perfectly consistent with it to prohibit Continental from making acquisitions while under Government ownership. Corruption of the rescue program's purpose would occur if Continental were to use, in an aggressive and acquisitive manner, funds originally contributed for defensive purposes.

Second, Continental assumes that it will earn a high rate of return on any businesses it acquires, and thereby protect the FDIC's position. Were the bank to review its past record of managing satellite corporations, it would not so blithely make this assumption.

In 1982, Continental acquired the Continental Bank of Buffalo Grove, IL. In 1978, before the acquisition, Buffalo Grove's earnings were 1.30 percent of its assets. By yearend 1985, Continental's management had reduced that ratio to 0.77 percent.

High performance peer-banks earn more than double what the Continental Bank of Buffalo Grove does. Although Buffalo Grove has nearly tripled in size since 1982, its earnings have been insufficient to keep the bank adequately capitalized. Buffalo Grove has not paid any dividends in the past 4 years, and its excessive growth and declining earnings have

forced Continental to infuse it with approximately $2.4 million in capital.

Return on equity at Buffalo Grove has dropped from 14.18 percent in 1982 to 12.49 percent in 1985. Because Continental paid approximately two times book value for the bank, it is therefore earning a real return of only 6 percent.

Continental, however, makes much of its need for core deposits. It argues that by purchasing banks in wealthy Chicago suburbs, it will greatly boost its base of stable deposits.

This argument is plausible on its face, but it falls apart when one again examines the performance of the Buffalo Grove bank. Demand deposits at Buffalo Grove fell from 22.5 percent of total assets in 1982 to 15.26 percent in 1985. Meanwhile, jumbo certificates of deposit—$100,000 and over—still stood at 12.7 percent of assets at the close of last year.

If previous performance is any gauge then, Continental would be better off buying Government bonds than other banks. Both investments offer Continental the same return, but Government bonds are risk free. Thus, far from protecting the FDIC's position by buying other banks, Continental would be subjecting it to unnecessary risk.

The past gives us some indication as to how Continental would manage any bank that it purchases, but one can only speculate as to how it would manage other types of enterprises. Continental claims that it should acquire businesses in other industries so that it can diversify its portfolio and thereby limit its risk.

While this argument appears reasonable at first blush, further consideration nevertheless reveals that it, too, is a mere shibboleth. The one enterprise outside the banking industry which Continental seeks to acquire is a concern specializing in clearing trades for professional traders and other securities firms. The options clearing business is notoriously risky because it involves guaranteeing the trades of customers. Such a business can create either extraordinary gains or extraordinary losses.

Thus, it is true that Continental would diversify its portfolio by buying First Options of Chicago. But it is not true that it would thereby limit its risk. In fact, if anything, ownership of First Options would enormously increase the risk in Continental's portfolio.

Mr. Speaker, no one argues that Continental should not be able to expand and grow. The issue is simply whether it should do so with funds contributed by an agency of the Federal Government. All that Continental's competitors ask for is a level playing field.

Continental would have us believe that the only way it can survive is to use Uncle Sam's money to finance its acquisition program. In fact, however, Continental has several reasonable alternatives. For one, it could build a solid base of core deposits by soliciting certificates of deposit under $100,000 from the 14,500 other commercial banks in the United States. That way, the banks would at least be paid—not penalized—for helping their large competitor.

Continental could also raise capital by issuing either equity or debt securities. If this is impossible, then Continental should take the market's message and shrink its assets until it gains control of its equity.

I, and many of my colleagues, think that there should be public hearings, before either the Federal Reserve Board or the House Banking Committee, to discuss this issue. Not only would it be grossly unfair to other banks to approve Continental's expansion program, but in addition, it would be a dangerous precedent.

It is too late to undo the Continental bailout. But it is not too late to minimize the injury and injustice done to all federally insured banks and their depositors. It would be morally wrong for us to allow Continental Bank to emerge from Government control far better off than it would have been, had it never gone to the brink of failure and invited FDIC intervention in the first place.

If Peter Sellers wrote the script for the opening act of the Continental bailout, shouldn't Congress now write the close?

THE WAR ON ILLICIT DRUGS

HON. LEE H. HAMILTON

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 17, 1986

Mr. HAMILTON. Mr. Speaker, I would like to insert my Washington Report for Wednesday, August 27, 1986 into the CONGRESSIONAL RECORD:

THE WAR ON ILLICIT DRUGS

The senseless cocaine-related deaths of promising young athletes and the emergence of "crack," a cheap and extremely addictive form of cocaine, have raised public concern and prompted a new round in the war against drugs. Both the President and Congress are developing plans to strike at drug suppliers and the demand for drugs.

Americans spend over $100 billion each year on illicit drugs, making us the western world's largest consumer of illicut drugs. Many view drug use as our biggest social problem. Cocaine is particularly popular. Once too expensive for most Americans, cocaine can sell for about $50 a gram, making it cheaper than an ounce of marijuana. At least 5 million Americans regularly use cocaine. A 1985 survey showed almost two-thirds of high school seniors had used illicit drugs.

Drug abuse has enormous costs. It can lead to addiction, broken homes, ruined careers, bad health, even death. It brings heartbreak to millions. We waste at least $100 billion annually on drug-related medical costs, productivity losses and crime. Federal, state and local governments spend over $3 billion each year to fight drugs, money that could be used for other needs.

Everyone agrees that the problem's urgency requires a new approach to discourage drug abuse. We need a comprehensive, coordinated drug-control strategy that combines: international control; tougher enforcement; and effective drug abuse prevention, education, and treatment.

INTERNATIONAL CONTROL BY ERADICATION AND INTERDICTION

Since most of the drugs used here are imported, we have tried to reduce foreign production and intercept drugs before they cross our borders. The U.S. gives aid to drug-producing countries for enforcement, crop eradication and substitution. Yet our efforts with Mexico, Colombia, Bolivia, Peru and other drug-producers have failed to slow shipments to the U.S. In 1984, U.S. agents and the Colombian police seized 10 tons of cocaine, the largest capture in the history of the drug war. But this bust had little impact on price or supply. This year, it is estimated that 150 tons of cocaine, 12 tons of heroin, and 30,000 tons of marijuana will enter the U.S. Increased resources have helped enforcement efforts, but it is nearly impossible to control narcotices production and shipment in all geographic areas of the world simultaneously.

Some countries find it hard to cooperate with our efforts to halt production, since drugs are often important to their cultures and economies. In Bolivia, for example, wages are as low as $15 a month. Farmers can often earn that much in a day stomping coca leaves used to make cocaine. Powerful drug barons, corruption, and low public support hamper attempts to slow production. A new law allows us to cut off foreign aid to countries failing to control drug trafficking. But our foreign aid is based on many factors, chiefly our national security. We clearly need stronger efforts—like technical assistance for enforcement and eradication and international lending pressure on producing nations—to stop drugs at their source. But we should not assume these efforts alone will be sufficient.

ENFORCEMENT

Efforts to improve U.S. enforcement are being put in place. Federal funding has doubled since 1980. New laws make it easier to prosecute drug dealers and to seize their ill-gotten profits. Judges can impose stiffer penalties for drug-dealing. The U.S. military helps civilian officials monitor our borders. These efforts are showing hopeful signs. But, despite our best law enforcement efforts, we have not put a significant dent in drug supply. Huge profits lead traffickers and organized crime to take all necessary risks to maintain an adequate supply of illicit drugs. Law enforcement officials are faced with the overwhelming task of trying to control our entire border to prevent drug imports while at the same time battling dramatically expanded domestic production.

PREVENTION AND REHABILITATION

Increasingly, I have come to the view that we will not solve our drug abuse problem unless we reduce the demand for drugs. Efforts to fight drug use are woefully understaffed and underfunded, perhaps because education, prevention and rehabilitation programs seldom show quick results. Only about 15 percent of this year's $2.1 billion budget for anti-drug programs goes for education, treatment and research, a 5 percent drop in 5 years. We must do better educating Americans, particularly the young, about the dangers of drug use. We should give school and community-based drug prevention programs better information about effective rehabilitation and education methods. We must also explore the causes of drug abuse and step up research to find better treatment methods. We may never have a drug-free society, but we can minimize the human costs of drug abuse. We should intensify our efforts to halt the supply of drugs, but an effective drug abuse program requires greater emphasis on reducing the demand for drugs.

The President and Congress are now crafting a tough anti-drug plan. The urgency of the problem leaves no room for partisanship. Proposals being considered include: more money for international drug control and education programs; sharing drug-trafficking information with other countries;

expanded drug abuse prevention programs for elementary and secondary schools; more money for treatment and prevention; encouraging drug testing and rehabilitation at work and at schools; denying preferential trade status and other benefits to countries failing to cut drug production; increasing Coast Guard and Customs Service personnel and giving them more sophisticated detection equipment; developing a herbicide to destroy coca; and providing various other enforcement tools.

My uneasy feeling is that, despite our efforts, we are losing our war on illicit drugs. An effective war on drugs requires constant cooperation and support of federal, state, and local officials, the private sector, and the public. We will have to devote more resources to fight drug traffickers and to reduce drug demand. The best news may be that growing recognition of the size of the problem, and determination to deal with it, is changing the climate.

THE LIFE OF THE LATE AVERELL HARRIMAN

HON. BILL ALEXANDER

OF ARKANSAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 16, 1986

Mr. ALEXANDER. Mr. Speaker, it is said of this political year that campaigns are lackluster and uninspiring, while candidates are debating few significant issues or raising little or no new ideas for the consideration of the electorate. Instead, it is said candidates are focusing their energy and resources on what is called negative campaigning—in short, kicking the living daylights out of opponents while actively avoiding any public discussion of one's own vision of the future.

It is against this backdrop that we now honor an American who has consistently stood as a symbol of the grander ideals of this country and a broader vision of public service.

Averell Harriman was one of an elite class of world leaders, born in the late 19th century, schooled in the bitter experience of two World Wars, and called to guide the world through social and political transitions unparalleled in history. They were gentlemen, they were scholars, they were statesmen. Their personal commitment to build a better, safer world transcended political vanities, parochial interests, and personal self-interest. Among this company are numbered such great heroes as Winston Churchill, Harold MacMillan, and Conrad Adeneur. Their insights and leadership in international affairs gave to our modern world a framework through which nations would come to live in relative peace and security in spite of a newly discovered capacity to destroy each other with a mere pressing of a button.

Averell Harriman, whether as Governor of New York or Ambassador to the Soviet Union, was a reminder to all Americans of that in our national character which is noble and just. He believed in the inherent goodness of the American people. He understood that American power could be both a blessing and curse to the nations of the world—that we Americans could bully other nations through coersion and intimidation or lead them by example to our dreams of freedom and justice.

For Pamela Harriman, we Democrats especially, hold a warm place in our hearts. It is she who carries on in the tradition of her husband—cultivating leadership among our young people, inspiring those who might otherwise stand on the sidelines, and providing leadership for our party around the country.

Mr. Speaker, many politicians appeal to the voters by asking if we are better off today than in the past. Because of the work of men and women like Averell Harriman, we in the 1980's can proudly answer that question with a resounding "Yes."

GORGE BILL READY FOR ENACTMENT

HON. DON BONKER

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 17, 1986

Mr. BONKER. Mr. Speaker, legislation to establish a National Scenic Area to protect the Columbia River Gorge in Oregon and Washington has recently been fine tuned. The Washington and Oregon delegations and the Governors of both States have worked on this legislation for years and, with the assistance of House and Senate committees, the measure is now ready for congressional action.

As early as 1915 the Secretary of Interior identified the Columbia gorge as the Nation's greatest water gap and an area of "undeniable national significance." One year later, the first gorge protection bill was introduced in Congress. In the 70 years since then, the quickening pace of development has changed the face of the gorge and threatens to mar its breathtaking beauty forever. In the short time remaining in this session, we have an historic opportunity that may not present itself again for years to come.

The gorge, a deep ravine carved through the Cascade Mountains by the Columbia River, is uniquely beautiful. It also presents unique challenges in the effort to preserve its scenery, for the gorge is home to some 50,000 residents who depend on the area for their livelihoods. This legislation is painstakingly crafted to save the scenery without undermining the economy of developed areas within the gorge. It also balances the interests of Federal, State, and local governments.

Despite this balancing of interests, there are those in the gorge who oppose a Federal presence to preserve the scenery. Anyone who reviews the history of Federal preservation efforts understands that such efforts are usually opposed by local residents. However, once the Federal presence is in place, it is often the case that local concerns diminish and there is sometimes a new appreciation for the Government's role.

In the statement that follows, the Honorable Maurine Neuberger, former member of the U.S. Senate and Oregon Legislature, puts this issue in perspective. With decades of public service behind her, few are as qualified as she is to speak on this matter. As a former staffer for Senator Neuberger, I am pleased to present her testimony in favor of legislation to protect the Columbia River Gorge.

TESTIMONY OF MAURINE NEUBERGER BEFORE THE HOUSE SUBCOMMITTEE ON FORESTS, FAMILY FARMS AND ENERGY

I am Maurine Neuberger, former member of the Oregon Legislature; former member of the United States Senate. In the Senate I chose to serve on the Agriculture Committee because that committee deals with the National Forests, which have always been of great interest to me. My husband and I attended the dedication of the Gifford Pinchot National Forest. We were proud to take Adlai Stevenson to Harry Truman's camp on Mt. St. Helens.

When we were working on the legislation to create a national park at the Oregon Dunes, we visited the Olympic National Park and talked to people who lived within the park. People who thought they were going to lose their homes when the park was created, but who are still living there and said they were wrong in their first opposition to the park.

Similar opposition had arisen at the site of the Oregon Dunes. This summer when I attended the dedication of the Neuberger recreation area of the Oregon Dunes, one of the residents came up to me and reminded me that he had testified against the legislation, but now he is happy that his group did not prevail.

When it came down to the arguments pro and con for the Dunes area, I found that these same "cons" had been voiced and recorded in other instances. I researched the Congressional Record regarding the debates at the formation of the Cape Cod National Seashore, at Point Reyes in California, at Padre Island, and further back than that—the establishment of the National Forests, themselves. In all of the examples none of these "terrible things" have happened.

The Federal Government is necessary in our lives. If we adhered literally and strictly to the old saw "states rights", we would be like a series of Balkan states and not a union. We as individual states can not provide our own national defense, we cannot go to the corner drugstore and buy our own cancer research, we must have cooperation between states to control air pollution and Columbia River pollution.

The opponents of the Federal Legislation to protect the Columbia River Gorge are just as aware of the beauty of the area as I am. They have seen its changing colors from sunrise to sunset. They have thrilled at the omnipotence of nature during a storm when the dark clouds gather and the water churns. So, why are we antagonists about this legislation? I've read and listened to the testimony from some would-be developers. It makes me feel that economic (money) goals are all that matters. Even though the value of the land is its sight along the Gorge.

For sixteen years I lived in Washington and Boston. Few people there have ever visited the Northwest. They confuse Seattle and Portland, but they do know about Mt. Rainier and Mt. Hood and the Columbia River. I like to think that some taxi driver in Boston knows that he may never see our mountains or the Columbia River, but he knows that someday his son or his daughter will travel to the area that Meriwether Lewis called "Beyond the Shining Mountains", and will thrill at the splendor of our forests, our mountains and our river.

In conclusion, Congressmen, I encourage you to enact National Scenic Area legislation for the Columbia Gorge as soon as possible. As you have seen today, the Gorge is

truly of national significance, and deserves national protection through legislation which is at least as strong as the AuCoin/Bonker bill, H.R. 4221.

TIMELY RESOLUTIONS

HON. ELDON RUDD

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 17, 1986

Mr. RUDD. Mr. Speaker, a constituent of mine, Capt. Freeman P. Fountain, who is commander of the Phoenix Chapter of the Military Order of the World Wars, contacted me recently to share copies of seven resolutions adopted at the order's recent convention.

The resolutions, which cover immigration, terrorism, the freedom fighters in Central America, the English language amendment and drug abuse and trafficking, are timely and deserve the careful consideration of the Members of the House.

I ask unanimous consent that the text of the seven resolutions adopted by the order be printed in the RECORD at this point:

1986 NATIONAL CONVENTION, SAN DIEGO, CA—30 JULY-3 AUGUST 1986

RESOLUTION 1

Whereas Commissioner Alan C. Nelson of the U.S. Immigration and Naturalization Service has released figures indicating that some four million illegal aliens will successfully enter the United States in 1986; and

Whereas these aliens have come from at least 53 different nations, about 60 per cent of them from Mexico, a nation experiencing a severe and growing economic crisis and a birth rate over three times greater than that of the United States; and

Whereas valid national polls show that 91 per cent of the people in the United States want illegal immigration stopped, and 77 per cent want legal immigration quotas reduced, and it is obvious that immigration into this nation is out of control and presently uncontrollable and further is the projected source of an increase in U.S. population in the next twenty years of some 50 million people; be it therefore hereby

Resolved, That we, the members of the Military Order of the World Wars, in national convention assembled, do hereby call upon the President and the Congress to heed the reasonable apprehension of the people of this nation and allocate the necessary resources to regain control of the borders of the United States; be it further

Resolved, That the internal security of our nation, its economic future and the maintenance of our free society are all threatened by uncontrolled immigration, and as citizens of the United States, we believe that continued toleration of immigration abuse is a clear violation of the legal responsibility of the Congress under the Preamble to the Constitution.

RESOLUTION 2

Whereas President Ronald Reagan, both by work and forceful leadership, has demonstrated his commitment to the suppression of terrorism; be it therefore hereby

Resolved, That we, the membership of the Military Order of the World Wars, in national convention assembled, do thank and commend the President for his courage in taking action against terrorism, and we do further express our full support for all measures taken or to be taken to suppress terrorism committed against citizens of the United States, wherever in the world such measures need to be taken.

RESOLUTION 3

Whereas the House of Representatives has passed legislation providing one hundred million dollars of aid to the "Contra" freedom fighters in Nicaragua in support of their fight for freedom from communist slavery; and

Whereas the spending of these funds should be carefully supervised to ensure that they are used effectively and solely for the purpose of their appropriation; and

Whereas substantially detailed doctrines, policies and programs concerning the effective use of such funds have already been developed and proven effective through extensive use and experience in the field; be it therefore hereby

Resolved, That we, the membership of the Military Order of the World Wars, in national convention assembled, do call upon the President and the Congress to delegate the supervision of the spending of the recently appropriated "Contra" aid funds to the Department of Defense; be it further

Resolved, That the President, as Commander-in-Chief of the Armed Forces, should exercise his constitutional responsibility over the spending of said funds through a presidential commission charged solely with the task of determining that the spending of said funds is for the purpose for which they were appropriated and in the national interest of the United States of America.

RESOLUTION 4

Whereas the English language is that in which our basic statements of freedom are written and our laws are universally written and also the language in which the government, business, industry, research and education of our nation are carried on; and

Whereas the English language is the most universally spoken and understood language of western civilization and serves mankind well as the most fully expressive communications tool available; be it therefore hereby

Resolved, That we, the membership of the Military Order of the World Wars, in national convention assembled, do express our concern that failure to learn and use the English language in the United States leads inevitably to loss of contact with western civilization and the philosophic principles of American freedom and encourages divisive subcultures, potentially disaffected from primary loyalty to the United States, and we call upon the Congress to enact forthwith, legislation making the English language the official language of the United States.

RESOLUTION 5

Whereas the use of illicit drugs and the criminal economy and criminal activity supported thereby have become a deadly and destructive cancerous plague, eating away the vitality, spirit and strength of our society; and

Whereas we see the cause of this national disease to be the ignorance and irresponsibility of the users, the greed and criminal cynicism of the producers and sellers, the permissiveness and apathy of the general public, the limited resources of law enforcement, the heavy case-loads and leniency of the prosecutors and courts and the lack of laws providing for stringent and harsh penalties, including the death penalty, if needed, for all forms of drug trafficking; and

Whereas this problem is now at the well-recognized level of a serious national security threat, not only in the United States but in many smaller countries, because of links with communist terrorism and wide-spread official corruption; be it therefore hereby

Resolved, That we, the membership of the Military Order of the World Wars, in national convention assembled, do call upon the President, the Congress and the governors and legislatures of the various states to make a full and unequivocal commitment to destroy the illicit drug traffic in this nation by all means at hand, including the following:

1. An intensified program of education of the youth of America, emphasizing strongly the personal responsibilities of citizenship and the dangers of all illicit drug use.

2. The re-allocation of certain national and state resources to provide for substantially stronger law enforcement at all levels of police operations and prosecution against drug traffickers, including the use of the armed forces as needed.

3. The imposition of both sanctions and rewards upon foreign governments as may be needed to secure their cooperation against the production and trafficking of drugs.

4. The passage, forthwith, of new laws providing for stringent and harsh penalties for trafficking in drugs, including the death penalty in aggravated cases.

5. The leadership, by word and deed, to bring the people of America to aroused action to wipe out the present national plague of criminal drug use.

RESOLUTION 6

Whereas the Constitution of the United States of America has served us well for two hundred years, has been amended through the process provided therein as needed and has been fully interpreted by the Courts through two hundred years of jurisprudence; and

Whereas various State legislatures have called for a Constitutional Convention to rewrite this basic guarantee of our freedom; and

Whereas there is substantial inherent danger to the well established and well defined freedom we enjoy in the process of rewriting the entire Constitution and any such revision would bring about great confusion, gross insecurity and many long years of bitter litigation to re-interpret the full meaning of the new document; be it therefore hereby

Resolved, That we, the membership of the Military Order of the World Wars, in national convention assembled, do oppose a Constitutional Convention and do call upon those persons who wish to change the Constitution to offer amendments as may be needed instead of seeking to make changes by rewriting the entire document; be it further

Resolved, That we do continue to honor our sworn oath to "uphold and defend the Constitution of the United States against all enemies, foreign or domestic," and we call upon all others who have sworn such an oath, particularly whose persons elected to represent the people, to reflect upon their sworn duty and to protect the Constitution as it has so well protected our God-given rights for two centuries.

RESOLUTION 7

Whereas, as we see it, the overriding issue concerning the present government of Nicaragua is the simple question of whether the Caribbean Basin and Latin America are to

be dominated and controlled by the communist slavery of the Soviet Union or by the policy of freedom supported by the United States; be it therefore hereby

Resolved, That we, the membership of the Military Order of the World Wars, in national convention assembled, do support and encourage the increase of support and assistance by the United States to all persons, organizations and governments who fight and work against communist oppression and subversion and fight and work for freedom and human dignity in Central and South America and throughout the world.

Done and passed at San Diego, California, this 31st day of July 1986.

JEPTHA C. TANKSLEY,
Captain, USA (Retired)
Commander-in-Chief.

SOBER DRIVERS MAKE SAFER HIGHWAYS

HON. BYRON L. DORGAN

OF NORTH DAKOTA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 17, 1986

Mr. DORGAN of North Dakota. Mr. Speaker, today I would like to share with my colleagues a few startling facts about crime which has caused more death, injuries, and destruction than has been caused by murders, robberies, and rapes. This crime is drunk driving, and we have to do something to combat it.

Drunk driving crimes account for fully half of all auto fatalities.

Every 23 minutes someone dies because of a drunk driver.

Within the last 10 years, over a quarter of a million Americans have died because of drunk drivers. This is more than five times the number of U.S. combat deaths in Vietnam.

Drunk drivers cost society $24 billion each year in rehabilitation, lost earnings, and court costs.

One out of two Americans will be the victim, one way or another, of an alcohol-related crash.

The drunk driver is on highways and local streets all over our Nation. These statistics are frightening. Our constituents are frightened; but as Members of Congress we need to be more than frightened. We need to take action.

Today I am introducing legislation to encourage the States to take a stronger stance against drunk driving. This bill requires States to enact laws that puts the legal intoxication level at .10 and prohibits open alcohol containers in a vehicle. Similar to the law setting 21 as the legal age for purchasing alcohol law, this bill would withhold 5 percent of the State's highway funds if it does not comply.

All but 10 States currently have laws recognizing that drivers with a blood-alcohol level of .10 are intoxicated; two States have more stringent levels. Unfortunately, however, only 19 States currently prohibit drinking while driving.

It is possible to drive—following a reasonably direct route—from the New Hampshire-Canadian boarder south to Pensacola, FL and then west to Reno, NV—approximately 4,000 miles—drinking all the way.

Withholding State highway moneys is a serious penalty. I agree, but drunk driving is a serious nationwide problem, a problem that the Congress must take strong action to deal with.

The introduced legislation follows:

H.R. 5538

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. OPEN CONTAINER AND NATIONAL MINIMUM BLOOD ALCOHOL LEVEL LAWS.

(a) ESTABLISHMENT.—Chapter 1 of title 23, United States Code, is amended by adding at the end thereof the following new section:

"§ 159. Open container and blood alcohol level limitations.

"(a) WITHHOLDING OF FUNDS FOR NONCOMPLIANCE.—

"(1) GENERAL RULE.—The Secretary shall withhold 5 percent of the amount required to be apportioned to any State under each of sections 104(b)(1), 104(b)(2), 104(b)(5), and 104(b)(6) of this title on the first day of each fiscal year succeeding the first fiscal year beginning after September 30, 1989—

"(A) in which the possession of any open alcoholic beverage container, or the consumption of any alcoholic beverage, in the passenger area of any motor vehicle located on a public highway, or the right-of-way of a public highway, in such State is lawful; or

"(B) in which driving of a motor vehicle on a public highway, or the right-of-way of a public highway, in such State by a person with a blood alcohol concentration of 0.10 percent or greater is lawful.

"(2) LIMITATION OF APPLICATION TO CHARTER BUSES.—If a State has in effect a law which makes unlawful the possession of any open alcoholic beverage container in the passenger area by the driver (and not the passengers) of any motor vehicle designed to transport more than 10 passengers, including the driver, while being used to provide charter transportation of passengers, such State shall be deemed to be in compliance with paragraph (1) of this subsection with respect to such motor vehicles in each fiscal year in which such law is in effect.

"(b) PERIOD OF AVAILABILITY; EFFECT OF COMPLIANCE AND NONCOMPLIANCE.—

"(1) FUNDS WITHHELD ON OR BEFORE SEPTEMBER 30, 1991.—

"(A) PERIOD OF AVAILABILITY.—Any funds withheld under this section from apportionment to any State on or before September 30, 1991, shall remain available for apportionment to such State as follows:

"(i) If such funds would have been apportioned under section 104(b)(5)(A) of this title but for this section, such funds shall remain available until the end of the fiscal year for which such funds are authorized to be appropriated.

"(ii) If such funds would have been apportioned under section 104(b)(5)(B) of this title but for this section, such funds shall remain available until the end of the second fiscal year following the fiscal year for which such funds are authorized to be appropriated.

"(iii) If such funds would have been apportioned under section 104(b)(1), 104(b)(2), or 104(b)(6) of this title but for this section, such funds shall remain available until the end of the third fiscal year following the fiscal year for which such funds are authorized to be appropriated.

"(B) FUNDS WITHHELD AFTER SEPTEMBER 30, 1991.—No funds withheld under this section from apportionment to any State after September 30, 1991, shall be available for apportionment to such State.

"(2) APPORTIONMENT OF WITHHELD FUNDS AFTER COMPLIANCE.—If, before the last day of the period for which funds withheld under this section from apportionment are to remain available for apportionment to a State under paragraph (1), the State makes effective a law which is in compliance with subsection (a), the Secretary shall on the day following the effective date of such law apportion to such State the withheld funds remaining available for apportionment to such State.

"(3) PERIOD OF AVAILABILITY OF SUBSEQUENTLY APPORTIONED FUNDS.—Any funds apportioned pursuant to paragraph (2) shall remain available for expenditure as follows:

"(A) Funds apportioned under section 104(b)(5)(A) of this title shall remain available until the end of the fiscal year succeeding the fiscal year in which such funds are so apportioned.

"(B) Funds apportioned under section 104(b)(1), 104(b)(2), 104(b)(5)(B), or 104(b)(6) of this title shall remain available until the end of the third fiscal year succeeding the fiscal year in which such funds are so apportioned.

Sums not obligated at the end of such period shall lapse or, in the case of funds apportioned under section 104(b)(5) of this title, shall lapse and be made available by the Secretary for projects in accordance with section 118(b) of this title.

"(4) EFFECT OF NONCOMPLIANCE.—If, at the end of the period for which funds withheld under this section from apportionment are available for apportionment to a State under paragraph (1), the State has not made effective a law which is in compliance with subsection (a), such funds shall lapse or, in the case of funds withheld from apportionment under section 104(b)(5) of this title, such funds shall lapse and be made available by the Secretary for projects in accordance with section 118(b) of this title.

"(c) DEFINITIONS.—As used in this section—

"(1) ALCOHOLIC BEVERAGE.—The term 'alcoholic beverage' has the meaning such term has under section 158(c) of this title.

"(2) MOTOR VEHICLE.—The term 'motor vehicle' has the meaning such term has under section 154(b) of this title.

"(3) OPEN ALCOHOLIC BEVERAGE CONTAINER.—The term 'open alcoholic beverage container' means any bottle, can, or other receptacle—

"(A) which contains any amount of an alcoholic beverage; and

"(B)(i) which is open or has a broken seal, or

"(ii) the contents of which are partially removed.

"(4) PASSENGER AREA.—The term 'passenger area' shall be defined by the Secretary by regulation.".

(b) CONFORMING AMENDMENT.—The analysis for chapter 1 of such title is amended by adding at the end thereof the following new item:

"159. Open container and blood alcohol level limitations.".

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees

to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Any changes in committee scheduling will be indicated by placement of an asterisk to the left of the name of the unit conducting such meetings.

Meetings scheduled for Thursday, September 18, 1986, may be found in the Daily Digest of today's RECORD.

MEETINGS SCHEDULED

SEPTEMBER 19

9:00 a.m.
Energy and Natural Resources
Public Lands, Reserved Water and Resource Conservation Subcommittee
To hold hearings on S. 1971, to transfer certain lands to the City of Mesquite, Nevada, S. 2194, to convey certain lands to the Catholic Diocese of Reno/Las Vegas, Nevada, S. 2599, to declare that the United States holds certain public domain lands in trust for the Pueblo of Zia Indians in New Mexico, S. 2698, to transfer certain lands in Nevada to the Toiyabe, Humboldt, and Inyo National Forests, S. 2758, to authorize the exchange of certain lands in Nevada and Florida, S.J. Res. 372, to authorize the establishment of a memorial in the District of Columbia to honor America's astronauts, S. 2812 and H.R. 4037, bills to revise the boundary of the Indiana Dunes National Lakeshore, and H.R. 4645, to modify the boundaries of the Cuyahoga Valley National Recreational Area.
SD-366

Impeachment Committee
To continue hearings on matters relating to the impeachment of Honorable Harry E. Claiborne.
SR-325

9:30 a.m.
Commerce, Science, and Transportation
Aviation Subcommittee
To hold hearings to examine the quality of air in the cabins of commercial aircraft.
SR-253

Finance
Health Subcommittee
To hold hearings to examine current Medicaid funding services provided for the long-term care of developmentally disabled persons.
SD-215

10:00 a.m.
Judiciary
Business meeting, to mark up pending calendar business.
SD-226

2:00 p.m.
Impeachment Committee
To continue hearings on matters relating to the impeachment of Honorable Harry E. Claiborne.
SR-325

SEPTEMBER 22

2:30 p.m.
Commerce, Science, and Transportation
To hold hearings on the nomination of Dale D. Myers, of California, to be Deputy Administrator of the National Aeronautics and Space Administration.
SR-232A

Commerce, Science, and Transportation
Business, Trade, and Tourism Subcommittee
To hold hearings to review travel and tourism statistics.
SR-253

SEPTEMBER 23

9:00 a.m.
Office of Technology Assessment
The Board, to meet to consider pending business.
EF-100, Capitol

9:30 a.m.
Energy and Natural Resources
Public Lands, Reserved Water and Resource Conservation Subcommittee
To hold hearings on S. 2029 and H.R. 4090, bills to establish the Big Cypress National Preserve Addition in Florida, S. 2442 and H.R. 4811, bills to establish the San Pedro Reparian National Conservation Area in Arizona, H.R. 2921, to authorize the Secretary of Agriculture to issue permanent easements for certain water conveyance systems in order to resolve title claims arising under Acts repealed by the Federal Land Policy and Management Act of 1976, S. 2707 and H.R. 2826, bills to designate a segment of the Horsepasture River in North Carolina as a component of the National Wild and Scenic Rivers System.
SD-366

Rules and Administration
To hold hearings on S.J. Res. 268, to provide for the reappointment of Murray Gell-Mann as a citizen regent of the Board of Regents of the Smithsonian Institution, and to resume oversight hearings on the operations and functions of the Office of the Senate Sergeant at Arms.
SR-301

10:00 a.m.
Governmental Affairs
To hold hearings on the nomination of Robert P. Bedell, of Virginia, to be Administrator for Federal Procurement Policy.
SD-342

Labor and Human Resources
Children, Family, Drugs, and Alcoholism Subcommittee
To hold hearings to review proposed drug testing measures.
SD-430

Select on Indian Affairs
To hold oversight hearings on the transmittal and investment of money in the Indian Trust Fund.
SR-385

10:30 a.m.
Foreign Relations
Business meeting, to consider pending calendar business.
SD-419

Judiciary
To hold hearings on home video recording.
SD-226

11:00 a.m.
Veterans' Affairs
To hold hearings to review the legislative priorities of the American Legion.
SD-G50

SEPTEMBER 24

9:30 a.m.
Commerce, Science, and Transportation
Business meeting, on pending calendar business.
SR-253

Environment and Public Works
Nuclear Regulation Subcommittee
To hold hearings to review nuclear power safety measures in the aftermath of the Chernobyl nuclear powerplant accident.
SD-406

Governmental Affairs
Permanent Subcommittee on Investigations
To resume hearings on emerging foreign criminal groups in the United States.
SD-342

Select on Intelligence
To hold closed hearings on intelligence matters.
SH-219

10:00 a.m.
Energy and Natural Resources
Business meeting, to consider pending calendar business.
SD-366

Judiciary
Courts Subcommittee
To hold hearings on S. 2531, Bankruptcy Antifraud Act of 1986.
SD-226

Labor and Human Resources
Business meeting, to consider pending calendar business.
SD-430

SEPTEMBER 25

9:30 a.m.
Labor and Human Resources
Employment and Productivity Subcommittee
To hold hearings on the employment impact of United States/Japan autoparts trade relations.
SD-430

10:00 a.m.
Energy and Natural Resources
Business meeting, to consider pending calendar business.
SD-366

Environment and Public Works
To hold hearings on S. 2203, to establish a program to reduce acid deposition and other forms of air pollution.
SD-406

2:00 p.m.
Labor and Human Resources
To hold oversight hearings on activities of the Mine Safety and Health Administration.
SD-430

SEPTEMBER 26

9:30 a.m.
Governmental Affairs
Intergovernment Relations Subcommittee
To hold hearings on comprehensive federalism reform.
SD-342

10:00 a.m.
Environmental and Public Works
To continue hearings on S. 2203, to tablish a program to reduce acid deposition and other forms of air pollution.
SD-406

SEPTEMBER 29

9:30 a.m.
Finance
Taxation and Debt Management Subcommittee
To hold hearings on S. 1974 and S. 1113, bills to prohibit the imposition by States of the worldwide unitary method of taxation.
SD-215

SEPTEMBER 30

10:00 a.m.
Foreign Relations
East Asian and Pacific Affairs Subcommittee
To hold hearings on United States trade relations with Taiwan and Korea.
SD-419

OCTOBER 1

9:30 a.m.
Commerce, Science, and Transportation
To hold oversight hearings on activities of the National Highway Traffic Safety Administration, and the implementation of the Motor Carrier Safety Act of 1984.
SR-253

10:00 a.m.
Energy and Natural Resources
Business meeting, to consider pending calendar business.
SD-366

2:00 p.m.
Foreign Relations
East Asian and Pacific Affairs Subcommittee
To hold oversight hearings on the North Pacific drift net fisheries.
SD-419

OCTOBER 2

10:00 a.m.
Energy and Natural Resources
Business meeting, to consider pending calendar business.
SD-366

CANCELLATIONS

SEPTEMBER 26

9:30 a.m.
Commerce, Science, and Transportation
Aviation Subcommittee
To hold hearings on proposed legislation authorizing funds for the Airport and Airway Trust Fund.
SR-253

SENATE—*Thursday, September 18, 1986*

(Legislative day of Monday, September 15, 1986)

The Senate met at 9 a.m., on the expiration of the recess, and was called to order by the President pro tempore [Mr. THURMOND].

PRAYER

The Chaplain, the Reverend Richard C. Halverson, D.D., offered the following prayer:

Let us pray.

"Is anything too hard for God?"

God of Abraham, Isaac, and Israel, You addressed that question to Father Abraham when calling him to believe You in an impossible situation (Gen. 18:14). Faith responds, nothing is too hard for God. Gracious Lord, give us that faith.

"With men it is impossible, but with God, all things are possible." Jesus spoke those words to his disciples in an impossible situation (Matthew 19:26). God of the impossible, give us that faith.

When we are face to face with what seems an impossible situation, when nothing seems to work out right—when every option has led to a dead end—when we have reached our human extremity—Lord, give us the grace to trust in You in the confidence that "God works in everything for good to those who love Him and are the called according to His purpose." (Romans 8:28). Make us "more than conquerers through Him Who loves us." Amen.

RECOGNITION OF THE MAJORITY LEADER

The PRESIDENT pro tempore. The distinguished and able majority leader, Senator ROBERT DOLE, of Kansas, is recognized.

Mr. DOLE. Mr. President, I thank the distinguished Senator from South Carolina, Senator THURMOND.

SCHEDULE

Mr. DOLE. Mr. President, under the standing order, the leaders have 10 minutes each. I am going to ask, after the distinguished minority leader either uses or reserves his time, that I may parcel out my leaders time, 5 minutes to the distinguished Senator from Connecticut, Senator WEICKER, and 5 minutes to the distinguished Senator from Florida, Senator HAWKINS.

We will assemble at 9:30 to go to the House for a joint meeting to hear an address by President Aquino.

We are in recess from 9:30 to 10:30. We will resume consideration of the reconciliation bill under a statutory time limitation of 20 hours, which can be reduced by motion or agreement. We will not make that effort at this time.

It is also my understanding there will be a meeting this morning of key players in the budget process, Republicans and Democrats. They are looking for some compromise that might satisfy the majority of Members in the House and the Senate. So it is a combined House-Senate bipartisan effort to see if they can reach some agreement. That would certainly expedite matters and help us reach the October 3 target date.

I must say, I am not discouraged. I still believe that is attainable, that adjournment date of October 3. But, on the House side, I would add that I am getting all kinds of rumblings that there is no way; that it will be October 10. So I guess, on the balance, you could say it was 50-50.

RECOGNITION OF THE MINORITY LEADER

The PRESIDING OFFICER (Mr. ANDREWS). Under the previous order, the Democratic leader is recognized.

Mr. BYRD. Mr. President, I thank the Chair.

THE DANILOFF CASE

Mr. BYRD. Mr. President, I received a letter from deputies of the supreme Soviet of the U.S.S.R. yesterday on the subject of nuclear testing. The deputies, the chairman and members of the so-called section on the issues of peace and disarmament of the U.S.S.R. parliamentarian group, indicated that if the United States were to join with the Soviet Union in banning all nuclear testing today, this would be a concrete contribution to the cause of peace.

I have responded to the letter from those deputies, and I believe that a number of my colleagues, in particular the Senators who serve on the arms control observer group, are being delivered identical letters. I indicated in my response that a most important concrete step that could be taken at the moment would be the unconditional release of Mr. Daniloff from the Soviet Union, and that this gesture by the Soviet leadership would go a long way toward the creation of an atmosphere conducive to a successful summit meeting.

I indicated further that on the nuclear testing issues, American negotiators in Geneva are fully empowered to discuss and determine that issue, and that the Geneva talks are the proper forum for these proposals—after all, that is why the Geneva talks were created in the first place.

I have been among the foremost in expressing the hope for another summit, and have urged the administration to work toward that end. This is a two-way street, however, and the continued irresolution of the Daniloff case is getting in the way of progress in the far more important area of arms control. The moratorium which is needed right now is on rhetoric, press conferences, and public expressions of confrontation and posturing—and the Soviet Union can demonstrate its aspirations for peace by eliminating this needless roadblock, this cold rain shower which seems to be gathering more energy as time goes on.

I ask unanimous consent that my reply to the letter delivered to me by the Soviets, together with their letter, be printed in the RECORD.

There being no objection, the letters were ordered to be printed in the RECORD, as follows:

SEPTEMBER 15, 1986.

Hon. ROBERT C. BYRD,
U.S. Senate,
Washington, DC.

DEAR SENATOR: The Soviet Union has proved more than once its aspiration for peace, for the creation of a comprehensive system of international security. Its decision to extend the unilateral moratorium on nuclear testing, announced by General Secretary of the Central Committee of the CPSU M.S. Gorbachev in his Statement on Soviet television of August 18, 1986, is yet another vivid example attesting to this. Soviet Parliamentarians sincerely hope, that under current circumstances, when the realities of the nuclear threat are being even more deeply understood in the world and the realization that it is impossible to win a nuclear war is widening, our American Colleagues would properly appreciate this highly responsible decision and support the proposal to cease nuclear testing which would become a first step toward the complete elimination of nuclear weapons.

That is why we urge you to do everything in your power to convince the American Administration of the necessity to follow the example of the USSR and to stop any nuclear explosions. That would be a concrete contribution to the cause of peace and freeing mankind from the threat of nuclear catastrophe.

Sincerely,

Deputies of the Supreme Soviet of the USSR:

A. SUBBOTIN,

G. KORNIYENKO,
S. LOSEV,
E. CHAZOV,
Members of the Section.

U.S. SENATE,
OFFICE OF THE DEMOCRATIC LEADER,
Washington, DC, September 17, 1986

Mr. A. SUBBOTIN,
Chairman, Section on the Issues of Peace and Disarmament, the USSR Parliamentarian Group, Supreme Soviet of the USSR, Moscow, U.S.S.R.

DEAR MR. CHAIRMAN: Thank you for the letter you and your fellow deputies of the Supreme Soviet of the USSR sent to me on September 15, 1986 on the subject of nuclear testing.

As I am sure you are aware, the Senate of the United States has been on record for some time urging the Administration to request Senate approval of ratification, with adequate verification provisions, of the two nuclear testing treaties negotiated between our two nations and signed in 1974 and 1976. In addition, after this first step, the Senate strongly encouraged further negotiations aimed at a comprehensive and verifiable nuclear testing regime which would be subject to adequate controls and provisions consistent with the national security of both our nations.

The question of nuclear testing agreements should be discussed and determined at the Geneva negotiations. American negotiators are fully empowered to engage in this question, as well as the range of other matters relating to arms control. The recent give-and-take between President Reagan and General Secretary Gorbachev has been vigorous and wide-ranging, and needs to be seized upon in Geneva in order to make the most productive preparations possible for substantial achievements on arms control at any summit meeting.

I have been among the foremost in expressing the hope for another summit, and have urged the Administration to work toward that end. However, this is a two-way street, and the continued holding of Mr. Daniloff is impairing the atmosphere needed to promote a successful summit. As you rightly point out in your letter, the interests of comprehensive arms control, which can be significantly promoted at the summit, are far more important than such episodes as the Daniloff case, which is now getting in the way of progress. This has caused a cool and cloudy atmosphere in our relationship at precisely the wrong time.

As I have mentioned in a recent letter I sent to Ambassador Anatoly Dobrynin, the unconditional release of Mr. Daniloff would be a major gesture by the Soviet leadership that would go a long way toward a successful summit meeting.

Sincerely,

ROBERT C. BYRD.

THE PRESIDENT'S DRUG ABUSE INITIATIVES

Mr. BYRD. Mr. President, early this week I received the package of the President's drug abuse initiatives. That package, besides containing a copy of the Executive order on drug testing of Federal employees, which is effective immediately, contains only broad outlines of the legislative proposals the President intends to make.

Mr. President, I support targeted drug testing. I emphatically believe that those in very sensitive positions concerning national security issues, and certainly those who hold in their hands the health and safety of others, such as air traffic controllers and pilots, should be subject to testing, and tested as frequently as appears productive.

But, I am concerned about the broad reach of the Executive order. There is no evidence to suggest that it is necessary to test up to half of current Federal employees. Yet the order apparently calls for that. It seems to me to be an unnecessary and nonproductive infringement of personal privacy.

Concerning the statutory proposals, I would very much like to be able to address the President's proposals in detail, and I intend to do so when actual legislative language is available. I understand that the White House says this could happen, perhaps, by the end of this week.

In the meantime, I congratulate the President for adding his voice and his very important leadership to this issue. The President's recommendations appear to be comprehensive, but on cursory purusal of the very general descriptions now available, they appear to lack some of the components we believe are vital in a comprehensive and effective proposal. These components, which are contained in S. 2798, the bill we introduced on September 9, include, among others:

A mechanism to provide coordinated leadership of all Federal drug abuse control efforts;

Funding for correctional institutions, so that drug criminals can be jailed and not be released due to lack of space;

Increased funding for treatment programs, earmarked for substance abuse efforts; and

Funding to assist State and local agencies in their law enforcement efforts.

Also, the materials on the President's proposal sent to us earlier are unclear as to what will be new Federal efforts, as opposed to only a restatement of current Federal efforts.

In short, I will reserve my judgment on the President's proposal until I see the actual language. But, again, I would like to congratulate him for adding his voice to our dialog in the Congress.

A strong drug control bill has passed the House. We introduced a similar proposal last week, cosponsored by the entire Democratic Conference. And now we have a set of conceptual proposals from the administration.

I hope these expressions of support and interest mean that action on drug legislation will occur soon.

What remains is for both sides of the aisle here in the Senate to work together to craft the best, most effective proposal. I offer my aid and assistance to all Senators in this respect.

As I have said emphatically here on this floor, this is not a partisan issue. We want the same thing—the best legislation possible. We want it, and the American people demand it of us.

I hope the distinguished majority leader will entertain my proposal favorably, and that he will move expeditiously to schedule action in the immediate future on the proposals now awaiting action so a bill can be sent to the White House before we adjourn the 99th Congress sine die—which we hope to do on October 3.

Mr. President, I yield the floor.

ROUTINE MORNING BUSINESS

The PRESIDING OFFICER. Under the previous order, there will now be a period for the transaction of routine morning business for not to extend beyond the hour of 9:30 a.m. with statements therein limited to 5 minutes each.

The Senator from Connecticut is recognized.

THE WAR ON DRUGS

Mr. WEICKER. Mr. President, I want to commend the distinguished minority leader for his remarks about the war on drugs. The only difference between the minority leader and myself is that he is much more diplomatic than I am. My comments will not be so kind as to my understanding of the President's proposal. The President's proposal states, and I now quote, that:

> Increased resources called for in the President's Drug-Free America Act of 1986 and budget proposals will bring nearly $900 million of increased resources to the Federal effort to fight drug abuse.

That sounds very good until you come to the bottom of the page and you read

> consistent with the President's commitment to fiscal responsibility these budget proposals redirect resources within the existing Federal budget.

Mr. President, as I understand it, when we talk in terms of the real war we do not take from the Marines and give to the Navy, and we do not take from the Air Force and give to the Army. We go ahead and either raise taxes in terms of new money to finance the real war, or indeed we cut

back on these nice-to-have items in domestic times of peace and redirect these resources toward war.

Where is this money going to come from for the war on drugs? Where are these moneys going to come from in terms of being redirected from other resources? Let me tell you what my understanding is.

First of all, we have confirmed this morning both from OMB and the White House there will be no new money for the war on drugs. Therefore, it is my understanding that these are some of the potential proposals for funding the war on drugs; $100 million will be cut from student aid programs, college work study and supplemental education opportunity grants. The funds will instead be given to local school districts for drug education and law enforcement coordination.

The $233 million will be directed to the National Institute on Drug Abuse for treatment-prevention research. Where will the $233 million come from? The $75 million will come from what the administration calls the primary care block grant program. This cut could come from the community health centers, those centers which serve the poor that have no medical attention, and from the migrant health centers where people have no medical care.

The prevention block grant will be cut $2 million. This program provides money to the States for preventive health activities to reduce morbidity and mortality. The National Institutes of Health will be cut by $88 million. Those are cuts, in other words, that would reduce the number of new research grants in cancer, in heart disease, in Alzheimer's, in AIDS, and so on down the list.

The National Institute of Mental Health will be cut $6 million. This is the Institute that researches the causes, diagnoses, treatment, and prevention of mental illness. The Institute particularly focuses on schizophrenia, teenage suicide, and the mental health of the elderly. The $1.3 million will be taken from the National Institute on Alcohol Abuse and Alcoholism. And States will be allowed to use the $490 million alcohol, drug abuse and mental health block grant for increased drug abuse activities without adding additional funds. What that means is money for alcoholism and for mental health will give way to money for drug abuse.

What this type of a proposal would mean is not a war on drugs. This then becomes a war on the mentally ill. It becomes a war on the alcoholic. It becomes a war on the poor. It becomes a war on pregnant women insofar as infant mortality and low birth rate babies are concerned. This is what the war becomes.

Mr. President, I would hope with whatever passes this body we would say to ourselves that indeed drug abuse is a priority, and we have to pay for it just as we have to pay for any other real war. This is a real war and we should not redirect resources to pay for it, what a skillful term that is, to redirect resources. The administration's proposal will wreak havoc with those that already have been left at the door of our priorities in this Nation. I will have no part of that.

I do not even intend to address the constitutional problems raised in the President's package. That is something for others. But I know one thing. Any time that I go to war, I do not want to have media opportunities. You just give me the bullets. Otherwise, there is not much that can be done. I would hope that drug abuse would be a priority but not at the expense of others who need our special care. And that in effect is what is being proposed.

I used to have people sometimes during my speeches ask me why I am a Republican, and why don't you join the Democratic party? I will tell you one of the reasons why. I always used to look at the other side of the aisle here as being the greatest exponents of something for nothing. That is why I did not become a Democrat. But I am going to tell you. You fellows on the other side of the aisle are in the minor leagues compared to what has been going on here in the last couple of years. You do not get something for nothing. We do not get a war on drugs unless we pay for a war on drugs. We do not take it out of the misfortunes of other Americans.

Mr. President, when the legislation comes before the Senate I will support it vigorously. But only as long as I understand the true sacrifice that is going to be made in terms of our resources, our financial resources, that will be directed toward the war on drugs, so that we win the war—that we win the war as we will win the others for those that look to this Nation for help and indeed for life.

I yield the floor.

The PRESIDING OFFICER. The Senator from Wisconsin.

Mr. PROXMIRE. Mr. President, recently George Will——

Mr. BYRD. Mr. President, will the Senator yield to me just briefly? I ask unanimous consent that the time I take be taken from the time I reserved.

The PRESIDING OFFICER. The Democratic leader is recognized from the time he reserved.

Mr. BYRD. I apologize to the distinguished Senator.

I wanted to rise to compliment the distinguished Senator from Connecticut. He is being very realistic, and not just as a result of Mr. Reagan's proposal, but as to any issue that he addresses. He is being very realistic. He is always realistic, but if we are going to have a war on drugs, that is what we are going to have. That is what the people demand. He is quite right. We ought not to take that money out of other programs that are just as necessary and affect people just as severely. I congratulate him and thank him.

Whatever time I have remaining I yield to the distinguished Senator from Wisconsin.

Mr. WEICKER. I thank my friend.

The PRESIDING OFFICER. The Senator from Wisconsin is recognized.

YES GEORGE WILL—ARMS CONTROL WORKS

Mr. PROXMIRE. Mr. President, recently George Will, the widely admired columnist, challenged a Member of Congress on the Brinkley Sunday morning television show to name one arms control treaty that had helped bring a more peaceful and secure world. It was a welcome challenge to all of us who so vigorously advocate arms control. Have we arms control advocates been wasting the Nation's moral energy in pushing so constantly for arms control? Have we been pursuing an empty fantasy? Even worse, have those of us in the Congress who have a major responsibility for the country's security neglected the military security of our country in this super dangerous nuclear age to chase an impossible dream through futile attempts to win international cooperation?

The answers, Mr. President, is that a review of arms control treaties reveals first that arms control agreements have certainly made a significant overall contribution to world peace. Without them the nuclear world would be an even more threatening place than it is. Second, arms control has a long way to go. To date it constitutes more than one step in a journey of 1,000 miles but not much more.

First, consider the arms control treaties that have successfully excluded nuclear weapons from certain sections of the world.

Here they are: The Antarctic Treaty of 1961 has kept military weapons out of the Antaractic. This treaty is easy to deride as great for penguins but it represents the first attempt to establish a nuclear-free zone. It has worked—it established a useful precedent. Then in 1967 came the outer space treaty. Based on the Antarctic Treaty, it bans nuclear weapons and other weapons of mass destruction in orbit or on the Moon. An American or Soviet strategic defense initiative [SDI] or star wars would probably violate it. So far the treaty has been successful. Then there came the 1968 treaty prohibiting nuclear weapons in Latin America. This further advanced the nuclear-free zone concept. It also provides an international treaty basis

for United States resistance to the deployment of Soviet nuclear weapons in threatening our country in this hemisphere. And there is the 1972 Seabed Treaty. This treaty stops the deployment of nuclear weapons on the ocean floor. In doing so it inhibits a potential threat to the United States as the Nation's preeminent seapower. In aggregate this series of nuclear-free zone treaties have made the Earth at least marginally safer from nuclear war.

The Limited Test Ban Treaty of 1963 confined nuclear weapons explosions to the underground. In doing so it did nothing to stop the technical nuclear weapons arms race. But it did help to reduce the serious threat to the environment that flowed from massive nuclear explosions in the atmosphere.

In 1972 the United States and the U.S.S.R. signed and ratified the Anti-Ballistic Missile Treaty. That treaty sharply limited the defensive arms race. It went a long way toward establishing the credibility of the nuclear deterrent of both superpowers. For those of us who believe that the superpower nuclear peace that has persisted throughout the nuclear age has been based overwhelmingly on the devastating retaliatory power of both the United States and the U.S.S.R., and this treaty has made a vital contribution to a peaceful world. The Strategic Arms Limitation Treaty was signed in 1979. The United States has not ratified it. It expired on December 31, 1985. But it was kept in effect by the President until May 1986, and it may be revived. According to the CIA and the United States Joint Chiefs, that treaty succeeded in significantly limiting a major Soviet offensive nuclear arms buildup. It may well have been violated by the U.S.S.R. but the alleged violations, if verified, have little military significance.

The two arms control treaties that have had the most certain effect in reducing the threat of nuclear war have been the "hotline" agreement of 1963 and the Nonproliferation Treaty of 1970. The hotline agreement provides for direct communication in times of crisis between the Soviet leader with his finger on the nuclear button and the President of the United States. Here is one arms control agreement that could obviously make the differences between life on this planet and death.

Finally there is the Nonproliferation Treaty of 1970. A recent study of that treaty by the Carnegie Endowment for International Peace documented the continuing progress this arms control treaty is making in slowing the spread of nuclear weapons. It is true that seven or eight real or potential nuclear weapon nations have refused to sign the treaty or in one case have signed it but refuse to abide by it. But some 160 nations have signed it. A number of these nations operate nuclear energy facilities that produce processed uranium or plutonium of weapons grade. Most of these nations have recently agreed to unannounced on-the-spot international inspection to assure that the processed material is not being diverted to the fabrication of nuclear weapons.

Mr. President, it seems clear to this Senator that the answer to George Will's challenging question is that there are not one but a series of arms control agreements that have significantly advanced the prospects of world peace.

□ 0920

MYTH: CONGRESS IS UNDERCUTTING THE PRESIDENT ON ARMS CONTROL

Mr. PROXMIRE. Mr. President, the myth of the day is that the recent weapons funding cuts and arms control initiatives the House and Senate have enacted on their Defense authorization bills will undercut the administration's negotiating position at Geneva.

Let us take a look at what the House and Senate have done recently on their fiscal year 1987 DOD authorization bills:

The House, by a strong bipartisan majority voted to reduce funding for the strategic defense initiative to $3.1 billion in fiscal year 1987. The Senate came within one vote of reducing it to $3.2 billion and adopted report language calling for a redirection of the President's grandiose vision of an astrodome defense.

The House approved a 1-year moratorium on testing antisatellite weapons and a 1-year delay in the production of new chemical weapons.

The House voted to ban nuclear testing for 1 year if the Soviets reciprocate, while the Senate approved a nonbinding resolution calling for a comprehensive test ban treaty.

The House passed a measure requiring the President to adhere to SALT II, while the Senate bill contains nonbinding language urging the administration to stay within SALT's limits.

Now, according to the administration these actions undercut our negotiations in Geneva. According to Kenneth Adelman, the Director of the Arms Control and Disarmament Agency, Congress only demonstrates a "lack of will" by passing these amendments.

Is that the case, Mr. President?

No, it is not. Nothing could be further from the truth.

The fact is, the funding cuts and the arms control initiatives we have approved show a strong-willed commitment by the Congress toward a realistic arms control agreement with the Soviets that best serves the national interests of the United States.

The fact is, a $3.1 billion funding level for SDI is more than enough of a bargaining chip at Geneva. Any more would only demonstrate to the Soviets our ability to waste money.

The fact is, a mutual moratorium on antisatellite testing is in our national security interest because an arms race in Asat's puts more U.S. space assets at risk. A delay in producing binary nerve gas makes good defense sense at this point because of the problems we have been having with this weapon.

The fact is, a comprehensive test ban on both sides would be one of the most important steps we could take toward halting the superpower arms race and toward aiding our nonproliferation efforts.

And the fact is, it simply is in our military interest, as the Joint Chiefs of Staff have counseled in the past, to stay within the numerical limits of the SALT II Treaty.

In other words, Congress has shown the administration the path to arms control. It has sent the White House a message loud and clear on what kind of arms control treaty it wants—a treaty that bans weapons in space, a treaty that halts nuclear testing and the further production of chemical weapons, and a treaty that builds on the limits set by SALT II instead of skirting those limits.

The administration believes it has this problem with Congress and its arms control initiatives. That is not the case.

Congress has got a problem with this administration and its lack of initiative on arms control.

This is not a case of Congress undercutting the President.

It is a case of the President so far undercutting what the Congress wants in the way of arms control.

Mr. President, I yield the floor.

Mrs. HAWKINS addressed the Chair.

The PRESIDING OFFICER. The Senator from Florida.

THE DRUG PROBLEM

Mrs. HAWKINS. Mr. President, there is a radio advertisement that plays in Washington from time to time promoting a certain national bank. It promotes this particular bank as "the most important bank in the most important city in the world." I do not know about the first half of the ad, but the second half is absolutely right—as the capital of the most powerful, most prosperous democracy on the face of the Earth, Washington is without question a city of great power and prestige. But side by side with power and prestige should go obligation and responsibility. Washington is no exception.

The attention of the Nation and the world is focused on this city. Everyone

is watching to see if we are serious about dealing with the problem of illegal drug use and drug trafficking, including the diplomatic corps, the eyes and ears of nations around the world. Yet, while tough words on drugs flow from the White House and the Congress, a few blocks away pushers sell PCP, cocaine and just about every other illegal substance you can imagine. While our words may be tough—the pushers and users on the streets mock our efforts.

We have passed bills cutting off foreign aid for countries that do not get serious about eradicating illegal drug crops. We twist the arms of wealthy countries urging them to give generously to international organizations dedicated to fighting the war on drugs.

We pressure countries to sign extradition treaties, mutual legal assistance treaties, Coast Guard boarding treaties, bank secrecy treaties and dozens of other types of international agreements aimed at tightening an international noose around the neck of the drug traffickers. What must these countries think when we try to enlist their support in the war on drugs and their diplomats cable home that Washington and the surrounding area are a haven for pushers and users?

Capt. John F. Miller, captain of a police department in the Washington suburbs recently said, "It's like an ocean—everywhere we turn we see cocaine." The statistics bear out this grim assessment. Between 1981 and last year the number of cocaine-related emergency room episodes has increased almost five times! During that period the number of cocaine deaths rose twelvefold. It was five annually. Now it is 61. In Washington as in most places where the drug culture thrives, violence is a way of life. Shootings, robberies, and even murders at many of the 17 cocaine street markets in Washington are a part of everyday ritual for the drug pusher and user.

The tragic cocaine death of Len Bias, a college basketball star from the Washington area, gained national attention several months ago and graphically illustrated the danger of cocaine use—but it also is one more sign that drug abuse in this town is out of control.

We can win the war on drugs if we can dry up demand for the drugs, eliminate the illegal crops at their source and throw the traffickers into jail. A tall order, no question—but so long as Washington, the Nation's Capital, is a major center of illegal drug use, we cripple our international, and even our domestic, drug control efforts. After all if we cannot clean up drugs in the Nation's Capital, how can we expect other cities or other countries to do so.

The city of Washington, DC, needs to set a firm and straight course against the use and trafficking of illegal drugs. It needs to launch a drug testing program for city employees, and a school drug testing program, as well. It needs to toughen city ordinances and penalties for illegal drug use; to shift economic resources to the police and other agencies to go after the pushers; and to institute a constructive "just say no" drug education program throughout the city, but especially in the schools. These and other tough antidrug steps would not only make this city a more pleasant place to live, but also make it a model for the rest of the Nation.

Mr. President, I yield the floor.

Mr. LEVIN addressed the Chair.

The PRESIDING OFFICER. The Senator from Michigan.

TAX REFORM: VOICES FROM THE HEARTLAND

Mr. LEVIN. Mr. President, today it is expected that the conference committee on the tax reform bill will file its report. Undoubtedly, some will point to this as one of the final stages in the triumphant battle of the public interest against the special interests.

That is why I think it is an appropriate time to have the public speak for itself. I would like to take a few minutes of the Senate's time to read some of the letters from Michigan which I have received. Certainly, not all of it is in the vein of skepticism or opposition. But, according to my staff, at this point the mail in favor of this bill is a "dribble." The mail skeptical about it or against it is a "flood."

Mr. President, these letters are not written on formal letterhead. They are not technically precise in a couple of areas. But, then, again, these are not Washington lobbyists talking. They are voices from the heartland.

I will read these three letters at this time.

No. 1

I would like to voice my opposition to the new so called tax reform law and here are some of the reasons:

1. When President Reagan started talking tax reform, one of the key proposals was simpler tax forms. Surely the new law will make these forms more complicated—not simpler.

2. I think the elderly people are really getting jabbed by taking away the extra exemption. The increase in the amount of the standard deduction will not take care of taking away the extra exemption.

3. I am retired and my wife and I live comfortably but not lavish. We have a comfortable home purchased with an FHA mortgage many years ago. Couple years ago the law was passed making us pay one-half tax on social security benefits because total income is more than 32,000.00 due to, or rather including some municipal bonds. This was unfair because I purchased what municipals I have because they were supposedly tax free.

Now, the new tax reform law is taking away more deductions such as sales tax and increasing the standard deductions (which will not cover the deductions being taken away). I believe the tax reform people are kidding themselves and members of Congress when they say charitable organizations will not be effected. I predict they will be effected a great deal.

4. I am over 65 years of age and in a taxable income bracket of 25M to 30M dollars. As nearly as I can tell, my tax is going to increase 15 to 20 percent. I don't think this is fair.

5. Last but not least, I have talked to many of my friends whom I would class in middle income category. I have yet to find one person who is in favor of this tax reform law in it's present form. I am happy to see 6 million poor people removed from tax rolls, but don't penalize just one section of taxpayers of which I believe I am one.

No. 2

I have been following the recent proposals for income tax reform with great interest. I find what I am reading to be very alarming.

My wife and I had a combined income in the low 30's last year (gross). Loss of deductions for interest on our debts (car, credit cards, etc.), sales tax, state and local taxes, income tax preparation fee and I don't know what else since the final bill has not yet passed, will have major economic implications to our family. Loss of these deductions will move us into the 28 percent tax bracket. Additionally we will be paying taxes on our former deductions.

At the same time, much to my chagrin, I read that this "more equitable" tax system will move those who are well off in to this same tax bracket, some of whom stand to receive up to a 22 percent reduction. Some of these people stand to receive a tax reduction in excess of my family's gross income.

We have been forced to get by with less each year for the last ten years. We have been able to buy only one new car in the last ten years, no vacations in the last 5 years. Seldom do we go out to dinner or to the movies and the list goes on. Each year we must cut out something else. Each year the struggle grows more difficult. You and your fellow Congressmen must be aware of the implications of this bill for middleclass America.

No. 3

In attempting to get a handle on the proposed tax bill a number of issues come to the forefront. We would like to bring these to your attention as we feel they are substantial and will have a significant impact upon our country.

First, what we like about the proposed tax reform:

(1) The removal of many poor individuals and families from the tax rolls. This is a much needed reform to assist those already struggling to survive.

(2) The elimination of many(?) of the so-called "passive" tax shelters, that allowed large tax savings with little or no risk, far beyond the initial investment.

(3) A minimum tax for corporations. This should eliminate the untenable situation where most families, including us would pay more federal income taxes than large corporations with multi-million dollar profits; many of who were defense contractors making their profits from our tax dollars!

We see the above as major, positive developments; however, we have many concerns with the proposed tax bill and its overall impact as it emerged from the joint committee.

(1) The whole process has been rushed through Congress, and at times secretively, allowing little time for reflection or serious debate. In the haste to put together this legislation many of its ramifications have been seriously overlooked. A bill as radical as this one deserves and needs more attention.

(2) Most people (most thinking people!) view the increasingly persistent deficit on a major concern facing our country today, if not the foremost concern. Yet this proposed bill does nothing to address this problem. It seems to us that tax reform would present us with an excellent opportunity to begin to face and correct this serious issue. What a shame!

(3) The elimination of nearly all of the progressivity of our tax code strikes us as most unfair. Can you explain to us, and others, what's fair, or reformed, when we with an annual income of approximately $60,000 will be paying the same Federal tax rate as families or individuals earning millions or tens of millions of dollars annually? (Granted a miniscule difference in personal exemptions.) This is reform? Progressivity is one of the most fair and rational components of our present code. We cannot understand the drastic change.

(4) The elimination of the two income adjustment flies in the face of current demographic trends. Given equal incomes the two earner household has obvious and markedly greater expenses than the one earner household. This issue is not addressed in the proposed bill. It took years for its establishment in our present code.

(5) With our annual deficit, huge national debt, and abysmal savings rate the elimination of the tax savings of IRA's for many households doesn't add up. We need to encourage long term savings in our country, not decrease our capacity to do so.

In sum we think the proposed tax bill has many harmful aspects and deserves more careful and open examination. While it does contain attractive components we need to consider all the possible ramifications. This bill represents a radical change in our tax code and to pass it into law without more thoughtful debate would be irresponsible and we think harmful.

Thank you for your consideration on this matter.

COUNTERTERRORIST FORCES

Mr. BENTSEN. Mr. President, once again we have had an airplane hijacking, and once again some of our fellow citizens have been harmed by terrorists who seem to have no geographical limitations. The recent hijacking of Pan American flight 073 in Karachi, Pakistan, left 2 Americans dead and 17 others wounded when terrorists opened fire with automatic rifles and threw hand grenades into the mass of passengers huddled together in the aisles.

I certainly do not blame the Pakistani authorities for these casualties; they did all that could reasonably have been done once the plane was seized. The terrorists' decision to open fire apparently had nothing to do with the fact that Pakistani commandos had surrounded the plane. Indeed, there is no indication that the terrorists even knew that the commandos were anywhere near the aircraft at the time.

No, in this particular incident, other than to have had better security, which may never be good enough, there may not have been anything that anyone on the outside could have done to prevent the ultimate tragedy of death and destruction. But there may be a lesson that we can learn from this event—a lesson that may help us when next we are involved in a similar terrorist hijacking.

Sadly, I say "when," rather than "if," because I am convinced that terrorism of this sort is here to stay, and we had better be prepared to meet it.

I am limited in what I can say about this topic here in this Chamber, because much of what we know about our national ability to respond to terrorism is highly classified.

I believe, though, that sometimes the decision to retain the cloak of security classification about certain activities which are commonly discussed by the press or by unnamed administration spokesmen acts only to inhibit those of us on Intelligence or Armed Services, without serving any true national security purpose at all. Too much of this material has been a part of the public domain for too long for those of us here in this Chamber to pretend that it does not exist.

It should be no surprise to anyone that the United States has a counterterrorists capability within its military forces. Any reasonably well-read citizens would know that following the disastrous 1980 attempt to rescue the hostages in Iran, military planners took a hard look at our capabilities in the counterterrorist area and found them sadly lacking.

Among other things, one result was the creation of a command center for what are called "special operations" and the dedication of specially trained troops to serve as the basis for an elite counterterrorist force.

We have such forces now, and I have been to their headquarters and training facility, and watched them as they demonstrated their abilities. They are good. There is no doubt about it.

They display a high degree of professionalism and competence and they have the specialized training needed for the unique mission of rescuing hostages and taking on a terrorist group successfully. The problem is, we have to be able to get our counterterrorist forces to the scene of the problem very quickly—and that is where we fall short.

When this recent hijacking was going on in Karachi, I doubt that there were very many knowledgeable people who did not assume that our men were on their way. An unidentified administration source later confirmed this speculation, being quoted in the New York Times to the effect that Delta Force was dispatched and received permission from Pakistani authorities to land in Karachi, but did not arrive before the tragic termination of the incident.

During this past year, I have spoken several times with the commander of our special operations forces and suggested that some portion of his men ought to be stationed overseas, closer to likely trouble spots. Following the Department of Defense line, he has consistently resisted this idea, pleading that the entire unit needs to remain together at one location in this country for training purposes.

I made this same suggestion to Adm. J.L. Holloway III, Executive Director of the Vice President's Task Force on Combating Terrorism. Subsequently, the task force recommended that consideration be given to stationing part of our counterterrorist forces overseas. But it has not been done.

I am not prepared to say that the hijacking in Karachi would have turned our differently if our special operations forces had been able to reach Pakistan within a few hours.

I do know, however, that even had they arrived before the incident was over, it would have been too much to expect even highly-trained soldiers to fly 16 or more hours to some location half-way around the globe and then be able to operate at peak efficiency. Any of us who have suffered from "jet-lag" can testify to that. And it is a certainty that our special troops will not be able to help resolve a hijacking if they are still in the air when it ends.

Moreover, the first few hours of any hijacking or terrorist situation are most critical. No matter how well prepared the terrorists might be, no matter how much planning they have done, there is always a certain amount of confusion on their part in the beginning. Within a relatively short period of time, though, they consolidate their position and perhaps bring in reinforcements and perhaps even additional weapons.

If it is an airplane hijacking, they might attempt to have the plane fly to another location. The point is, all of this takes time on the part of the terrorists, time which we need to deny them. If we can strike before they have had an opportunity to do these things, before they can consolidate their position, we have a much better chance of bringing the incident to a close with a minimal loss of innocent lives.

Having seen the rigorous training that our counterterrorist forces undergo, I can understand way the commander wants them to keep their skills continually honed through constant practice. Small arms marksmanship is indeed a perishable skill. I am not persuaded, however, that the United States is the only place these forces can practice their shooting. Nei-

ther do I believe that a decision has to be made to permanently station one particular part of these forces overseas. Such positioning can be done on a rotating basis, with troop substitutions made every few months.

In short, while I do not see any insurmountable problems with pre-positioning of such forces, I see considerable benefits—benefits that could wind up saving American lives.

If there are problems with our allies, I feel certain that every civilized nation is beginning to understand the global dimensions of the problem of terrorism and that if they are approached in the proper fashion, there will be opportunities for stationing some of our special troops overseas. There certainly does not seem to be any difficulty in getting our NATO allies to accept a quarter million regular troops on their soil.

No, I believe this argument against forward deployment of our counterterrorist forces is nothing but a smokescreen, used to justify the preconceived ideas of certain officials of the Departments of Defense and State. And this smokescreen has to be pierced.

Today, I am extending both a challenge and a warning to those who resist what I—and no doubt others in this Chamber—believe is necessary and proper.

We must act to insure that our troops are in a position to influence the situation when the next hijacking or other terrorist confrontation occurs.

DOD or State Department officials should be on notice: If they do not take the steps necessary to pre-position some of our counterterrorist forces overseas, I will work with others in the Senate and will introduce legislation to bring this about. I have great confidence in the members of our special operations forces.

I do not want to see them hamstrung any longer, nor to see American lives needlessly jeopardized through our inability to reach the scene of the hijacking within a reasonable time, with troops that are rested and ready to go. Stationing some of our counterterrorist forces overseas will contribute to the overall effectiveness of our fight against terrorism. It is a step that needs to be taken now.

IN PRAISE OF ANTONIN SCALIA

Mr. D'AMATO. Mr. President, this body has just unanimously voted to confirm Antonin Scalia as Justice of the Supreme Court of the United States: I want to add my voice to that deservedly thunderous vote of approval.

I realize that many of my colleagues might conclude that this is simply a case of ALFONSE D'AMATO sticking up for a fellow Italian American, but I can assure them that my praise and motives go much further and deeper than that. While we are on that subject, however, please permit me to express a little ethnic pride. About 2 months ago, we had a celebration in my home, the State of New York, for the birthday of our Statue of Liberty. For millions of immigrants, including my grandparents the Lady was the first thing they saw in America, and she was a symbol of hope and opportunity. It is only fitting, therefore, and it fills me with great pride that this anniversary year of the Statue of Liberty would also see the confirmation of the first Italian American to become Justice of the Supreme Court of the United States.

Mr. President, our unanimous approval of Justice Scalia is also a tribute to a tremendously accomplished individual. Antonin Scalia is a lawyer and scholar of impeccable credentials, and just as important, he is a man of dedication to and love for his family. I think one of the important reasons that we in Government are subject to a higher degree of scrutiny than private citizens is the just expectation that an example be set, an example for all of us but especially for our children. Many of America's most pressing problems, notably the scourge of drugs, will be solved not so much by passing laws as by having men of moral character and integrity like Antonin Scalia in the highest positions of our Government.

Finally, Mr. President, what is most important about the confirmation which Justice Scalia has successfully undergone is what it says about our country, which is something that I think we usually take for granted. It says that the United States is an honest and open society, where everyone is free to speak out and where everyone is free to achieve what they deserve. We all know here in the Senate that the confirmation process is grueling not only on the nominee but on those of us who must pass judgment. It seems clear, however, that giving everyone the chance to express his or her view is the only way we can get to the truth. What strikes me on this occasion is the great contrast between our country and the Soviet Union, where we have recently seen the literally deadly cover up at Chernobyl and the outrageous duplicity of framing and arresting an innocent private American citizen, Nicholas Daniloff.

All in all, Mr. President, I think we can be proud of ourselves on this occasion, the confirmation of Justice Antonin Scalia is truly an example of our Government at its best, because we have found the right man for a very important job. We all join in wishing Justice Scalia a long and successful tenure on the Supreme Court.

THE 39TH ANNIVERSARY OF THE U.S. AIR FORCE

Mr. ANDREWS. Mr. President, throughout the history of mankind there have been few innovations to have had a more profound effect on society than manned flight. Humans in the 20th century have experienced the "incredible shrinking world" as a result largely of our increased ability to travel greater distances in shorter periods of time. Man's mastery of flight has also affected another longtime condition: warfare. However, military air power has excelled in a new dimension—the ability to deter war.

Ever since Lenardo da Vinci drew the first plans for a flying machine, aeronauts used balloons for observation during the Civil War and the Wright brothers made history at Kitty Hawk, the use of the skies has changed the way in which we protect our borders and defend freedom in an increasingly troubled world. However, it would take some time before the War Department would begin to fully utilize Orville and Wilbur Wright's mammoth accomplishment. In 1907 an aeronautical division was created in the Signal Corps, but it was another 2 years before they purchased their first airplane from the Wrights.

The development of a fully realized air branch of the Armed Forces was halting, moving at a "stop and start" pace. Separating from the Signal Corps in 1918, they became the Air Service by law in 1920, then the Air Corps in 1926, only to see the creation of the Army Air Forces in 1941. Throughout this period and beyond, the U.S. Government was witnessing the emergence of a new force in military strategy. Such obvious benefits as entering enemy territory in a matter of hours, when ground forces would have taken days or months, emphasized that in order to control the ground one must first control the air.

In 1947, the U.S. Air Force was created. Growing from the aviation arm which began World War I with only 35 pilots and 55 mechanics, the USAF concluded 1985 with 603,653 Active Duty men and women, over 200,000 Reserve members and over 250,000 civilian employees—not to mention over 7,000 active duty aircraft and over 2,000 planes in reserve. This amazing branch of our defense structure is capable of defending, maneuvering offensively, transporting and providing rescue and search aid when needed.

For example, it's frightening to contemplate the consequences of the Russian blockade of West Berlin after World War II without the Berlin airlift. During the 462 days of Operation Vittles, over 277,000 flights were completed with aircraft landing at Tempelhof airport on an average of every 3½ minutes delivering over 2,325,000

short tons of supplies. This was a truly astonishing feat.

Today, the Air Force is capable of this and much more. We are proud of its ability to deter war, provide intelligence, assist in weather observation and drug interdiction, and, like our other fine branches of the service, preserve and protect our freedoms around the world.

CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER. Morning business is closed.

RECESS UNTIL 10:30 A.M.

The PRESIDING OFFICER. Under the previous order, the hour of 9:30 having arrived, the Senate will now stand in recess until the hour of 10:30 a.m.

Thereupon, at 9:30 a.m., the Senate recessed until 10:30 a.m.; whereupon, the Senate reassembled when called to order by the Presiding Officer (Mr. PRESSLER).

□ 1030

OMNIBUS BUDGET RECONCILIATION ACT, 1987

The PRESIDING OFFICER. The clerk will report the pending business.

The assistant legislative clerk read as follows:

A bill (S. 2706) to provide for reconciliation pursuant to section 2 of the concurrent resolution on the budget for fiscal year 1987 (S. Con. Res. 120, Ninety-ninth Congress).

The Senate resumed consideration of the bill.

(Remarks of Mr. BENTSEN at this point relating to terrorism are printed earlier in the RECORD.)

□ 1040

The PRESIDING OFFICER. Does the Senator suggest the absence of a quorum?

Mr. BENTSEN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. Is the time to be equally divided?

Mr. BENTSEN. I have no objection.

The PRESIDING OFFICER. Without objection, the time consumed in the rollcall will be equally divided.

The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

□ 1050

Mr. BYRD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BYRD. Mr. President, I ask unanimous consent to proceed for 1 minute as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

The minority leader is recognized for 1 minute.

ADDRESS OF HER EXCELLENCY CORAZON C. AQUINO, PRESIDENT OF THE REPUBLIC OF THE PHILIPPINES TO THE JOINT MEETING OF THE UNITED STATES CONGRESS

Mr. BYRD. Mr. President, both Houses have jointly sat and listened to an excellent address, most eloquent address, a very courageous address, by Her Excellency Corazon C. Aquino, President of the Republic of the Philippines.

Mr. President, I ask unanimous consent that this great speech by President Aquino delivered to the joint meeting of the U.S. Congress be printed in the RECORD at this point.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

ADDRESS OF HER EXCELLENCY CORAZON C. AQUINO, PRESIDENT OF THE REPUBLIC OF THE PHILIPPINES TO THE JOINT MEETING OF THE UNITED STATES CONGRESS

Mr. Speaker, Mr. President pro tempore, three years ago, I left America in grief to bury my husband, Ninoy Aquino, I thought I had left it also to lay to rest his restless dream of Philippine freedom. Today, I have returned as the President of a free people.

In burying Ninoy, A whole nation honored him. By that brave and selfless act of giving honor, a nation in shame recovered its own. A country that had lost faith in its future found it in a faithless and brazen act of murder. So in giving, we receive, in losing we find; and out of defeat, we snatched our victory.

For the nation, Ninoy became the pleasing sacrifice that answered their prayers for freedom. For myself and our children, Ninoy was a loving husband and father. His loss, three time in our lives, was always a deep and painful one.

Fourteen years ago this month was the first time we lost him. A President turned dictator, and traitor to his oath, suspended the Constitution and shut down the Congress that was much like this one before which I am honored to speak. He detained my husband along with thousands of other—Senators, publishers and anyone who had spoken up for the democracy as its end drew near. But for Ninoy, a long and cruel ordeal was reserved. The dictator already knew that Ninoy was not a body merely to be imprisoned but a spirit he must break. For even as the dictatorship demolished one by one the institutions of democracy—the press, the Congress, the independence of the judiciary, the protection of the bill of rights—Ninoy kept their spirit alive in himself.

The Government sought to break him by indignities and terror. They locked him up in a tiny, nearly airless cell in a military camp in the north. They stripped him naked and held the threat of sudden midnight execution over his head. Ninoy held up manfully under all of it. I barely did as well. For 43 days, the authorities would not tell me what had happend to him. This was the first time my children and I felt we had lost him.

When that didn't work, they put him on trial for subversion, murder, and a host of other crimes before a military commission. Ninoy challenged its authority and went on a fast. If he survived it, then, he felt, God intended him for another fate. We had lost him again. For nothing would hold him back from his determination to see his fast through to the end. He stopped only when it dawned on him that the Government would keep his body alive after the fast had destroyed his brain. And so, with barely any life in his body, he called off the fast on the fortieth day. God meant him for other things, he felt. He did not know that an early death would still be his fate, that only the timing was wrong.

At any time during his long ordeal, Ninoy could have made a separate peace with the dictatorship, as so many of his countrymen had done. But the spirit of democracy that inheres in our race and animates this Chamber could not be allowed to die. He held out, in the loneliness of his cell and the frustration of exile, the democratic alternative to the insatiable greed and mindless cruelty of the right and the purging holocaust of the left.

And then, we lost him irrevocably and more painfully than in the past. The news came to us in Boston. It had to be after the 3 happiest years of our lives together. But his death was my country's resurrection in the courage and faith by which alone they could be free again. The dictator had called him a nobody. Two million people threw aside their passivity and fear and escorted him to his grave. And so began the revolution that has brought me to democracy's most famous home, the Congress of the United States.

The task had fallen on my shoulders to continue offering the democratic alternative to our people.

Archibald MacLeish had said that democracy must be defended by arms when it is attacked by arms and by truth when it is attacked by lies. He failed to say how it shall be won.

I held fast to Ninoy's conviction that it must be by the ways of democracy. I held out for participation in the 1984 election the dictatorship called even if I knew it would be rigged. I was warned by the lawyers of the opposition that I ran the grave risk of legitimizing the foregone results of elections that were clearly going to be fraudulent. But I was not fighting for lawyers but for the people in whose intelligence I had implicit faith. By the exercise of democracy, even in a dictatorship, they would be prepared for democracy when it came. And then, also, it was the only way I knew by which we could measure our power even in the terms dictated by the dictatorship.

The people vindicated me in an election shamefully marked by Government thuggery and fraud. The opposition swept the elections, garnering a clear majority of the votes, even if they ended up, thanks to a corrupt Commission on Elections, with barely a third of the seats in Parliament. Now, I knew our power.

Last year, in excess of arrogance, the dictatorship called for its doom in a snap election. The people obliged with over a million signatures, they drafted me to challenge the dictatorship. And I obliged them. The rest is the history that dramatically unfolded on your television screens and across the front pages of your newspapers.

You saw a nation, armed with courage and integrity, stand fast by democracy against threats and corruption. You saw women poll watches break out in tears as armed goons crashed the polling places to steal the bal-

lots, but just the same, they tied themselves to the ballot boxes. You saw a people committed to the ways of democracy that they were prepared to give their lives for its pale imitation. At the end of the day, before another wave of fraud could distort the results, I announced the people's victory.

The distinguished cochairman of the U.S observer team in his report to your President described that victory:

"I was witness to an extraordinary manifestation of democracy on the part of the Filipino people. The ultimate result was the election of Mrs. Corazon C. Aquino as President and Mr. Salvador Laurel as Vice President of the Philippines."

Many of you here today played a part in changing the policy of your country toward us. We Filipinos thank each of you for what you did: For balancing America's strategic interest against human concerns, illuminates the American vision of the world.

When a subservient Parliament announced my opponent's victory, the people turned out in the streets and proclaimed me President. And true to their word, when a handful of military leaders declared themselves against the dictatorship, the people rallied to their protection. Surely, the people take care of their own. It is on that faith and the obligation it entails that I assumed the Presidency.

As I came to power peacefully, so shall I keep it. That is my contract with my people and my commitment to God. He had willed that the blood drawn with the lash shall not, in my country, be paid by blood drawn by the sword but by the tearful joy of reconciliation.

We have swept away absolute power by a limited revolution that respected the life and freedom of every Filipino. Now, we are restoring full constitutional Government. Again, as we restored democracy by the ways of democracy, so are we completing the constitutional structures of our new democracy under a constitution that already gives full respect to the bill of rights. A jealously independent Constitutional Commission is completing its draft which will be submitted later this year to a popular referendum. When it is approved, there will be congressional elections. So within about a year from a peaceful but national upheaval that overturned a dictatorship, we shall have returned to full constitutional Government. Given the polarization and breakdown we inherited, this is no small achievement.

My predecessor set aside democracy to save it from a Communist insurgency that numbered less than 500. Unhampered by respect for human rights, he went at it with hammer and tongs. By the time he fled, that insurgency had grown to more than 16,000. I think there is a lesson here to be learned about trying to stifle a thing with the means by which it grows.

I don't think anybody, in or outside our country, concerned for a democracy and open Philippines, doubts what must be done. Through political initiatives and local reintegration programs, we must seek to bring the insurgents down from the hills, and by economic progress and justice, show them that for which the best intentioned among them fight.

As President, I will not betray the cause of peace by which I came to power. Yet equally, and again no friend of Filipino democracy will challenge this. I will not stand by and allow an insurgent leadership to spurn our offer of peace and kill our young soldiers, and threaten our new freedom.

Yet, I must explore the path of peace to the utmost, for at its end, whatever disappointment I meet there, is the moral basis for laying down the olive branch of peace and taking up the sword of war. Still, should it come to that, I will not waver from the course laid down by your great liberator:

"With malice toward none, with charity for all, with firmness in the right as God gives us to see the right, let us finish the work we are in, to bind up the nation's wounds, to care for him who shall have borne the battle, and for his widow and for his ophans, to do all which may achieve and cherish a just and lasting peace among ourselves and with all nations."

Like Lincoln, I understand that force may be necessary before mercy. Like Lincoln, I don't relish it. Yet, I will do whatever it takes to defind the integrity and freedom of my country.

Finally, may I turn to that other slavery: Our $26 billion foreign debt. I have said that we shall honor it. Yet must the means by which we shall be able to do be kept from us? Many conditions imposed on the previous Government that stole this debt continue to be imposed on us who never benefited from it. And no assistance or liberality commensurate with the calamity that was visited on us has been extended. Yet ours must have been the cheapest revolution ever. With little help from others, we Filipinos fulfilled the first and most difficult condition of the debt negotiation: The full restoration of democracy and responsible Government. Elsewhere, and in other times of more stringent world economic conditions, Marshall plans and their like were felt to be necessary companions of returning democracy.

When I met with President Reagan yesterday, we began an important dialog about cooperation and the stengthening of the friendship between our two counttries. That meeting was both a confirmation and a new beginning and should lead to positive results in all areas of common concern.

Today, we face the aspirations of a people who had known so much poverty and massive unemployment for the past 14 years and yet offered their lives for the abstraction of democracy. Wherever I went in the campaign, slum area or impoverished village, they came to me with one cry: Democracy! Not food, although they clearly needed it, but democracy not work, although they surely wanted it, but democracy. Not money, for they gave what little they had to my campaign. They didn't expect me to work a miracle that would instantly put food into their mouths, clothes on their back, education in their children, and work that will put dignity in their lives. But I feel the pressing obligation to respond quickly as the leader of a people so deserving of all these things.

We face a Communist insurgency that feeds on economic deterioration, even as we carry a great share of the free world defenses in the Pacific. These are only two of the many burdens my people carry even as they try to build a worthy and enduring house for their new democracy, that may serve as well as a redoubt for freedom in Asia. Yet, no sooner is one stone laid than two are taken away. Half our export earnings, $2 billion out of $4 billion, which was all we could earn in the restrictive markets of the world, went to pay just the interest on a debt whose benefit the Filipino people never received.

Still we fought for honor, and, if only for honor, we shall pay. And yet, should we have to wring the payments from the sweat of our men's faces and sink all the wealth piled up by the bondsman's 250 years of unrequited toil?

Yet to all Americans, as the leader of a proud and free people, I address this question: Has there been a greater test of national commitment to the ideals you hold dear than that my people have gone through? You have spent many lives and much treasure to bring freedom to many lands that were reluctant to receive it. And here you have a people who won it by themselves and need only the help to preserve it.

Three years ago, I said, thank you, America, for the haven from oppression, and the home you gave Ninoy, myself and our children, and for the 3 happiest years of our lives together. Today, I say, join us, America, as we build a new home for democracy, another haven for the oppressed, so it may stand as a shining testament of our two nations' commitment to freedom.

Mr. BYRD. Mr. President, I ask unanimous consent that as to the quorum which I am about to make a point of order with respect to the lack thereof the time charged be equally divided between both sides. But I have not yet made that suggestion.

Mr. President, I shall not suggest the absence of a quorum.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. DIXON. Mr. President, I ask unanimous consent to speak as if in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered. The Senator from Illinois is recognized.

SUPPORT OF THE SMALL BUSINESS INNOVATION RESEARCH PROGRAM EXTENSION

Mr. DIXON. Mr. President, I rise today in support of legislation which provides continuation of the Small Business Innovation Research Program through fiscal year 1993.

This program is strongly supported by the small business community, which is confident of its ability to make a major contribution to the Nation's $50 billion research and development effort.

Small businesses constitute 99 percent of all business establishments in this country; employ the majority of our Nation's work force; generate about 45 percent of the gross national product; and are acknowledged as leading innovators.

However, prior to enactment of this act in 1982, small business was virtually shut out from Federal research and development efforts. This statement is supported by facts which reflect that, prior to 1982, small business received only 2.5 to 3 percent of the total Federal research and development budget. Moreover, regretably, that share was steadily declining.

Four years later, it appears that our reliance on the program has been totally justified. There are early indications that the Small Business Innova-

tion Research Program has stopped the steady decline of the percentage of the Federal research and development budget received by small business. Happily, we are beginning to see a reverse to that trend.

This program has served to convince Government procurement officials that small firms can perform effectively in the research and development arena. Their product is not only of high quality but also is equal in every respect to that of those companies who have, traditionally, received these contracts.

Mr. President, I thank you for my time and suggest—or may I yield to the minority leader.

Mr. BYRD. Mr. President, was the distinguished Senator about to make a point of order that a quorum was not present?

Mr. DIXON. I was going to do that.

Mr. BYRD. Mr. President, I ask unanimous consent that the time be charged equally against both sides.

The PRESIDING OFFICER. Without objection, the time consumed during the quorum call will be equally divided.

Mr. DIXON. I thank the leader.

Mr. President, I suggest the absence of a quorum under the time limitation agreement.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

□ 1140

Mr. DOLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. D'AMATO). Without objection, it is so ordered.

OMNIBUS BUDGET RECONCILIATION ACT, 1987

The Senate continued with consideration of the bill (S. 2706).

□ 1150

Mr. CHILES. Mr. President, we are about 36 hours away from a possible vote on a sequester resolution. The only way we can avoid it is to make some additional budget cuts on our own.

The reconciliation bill now before the Senate is our only chance to get around a sequester. But this bill contains just 3.7 billion dollars' worth of savings. That is like trying to deflect a hurricane with a stop sign.

Right now, people from both the House and Senate are trying to work out a package that provides $14 billion to $15 billion or $15.5 billion in cuts.

If we can agree on that package, and if Congress approves it, then we will not have to pass a sequester.

But even with the additional cuts, we have to be very clear on one point. Even that package will not get us down to the Gramm-Rudman-Hollings target of $144 billion for this year. All it will do is get us within hopefully $10 billion of that target. And, under the law, that is one of the loopholes that lets us off the sequester hook.

So, in a sense, the reconciliation bill is the equivalent of punting on third down inside the opponents 10-yard line.

A deficit of under $154 billion means we missed the target by $10 billion. That is $10 billion more we will have to cut next year. That is $10 billion that could become even larger if the economic assumptions prove to be too optimistic. That is $10 billion on top of a deficit that could grow by as much as another $22 billion next year when tax reform produces a revenue shortfall.

Mr. President, most of the spending changes we have talked about are not permanent, structural changes; they are one-shot savings that leave the deficit hole just as deep as last year. Gramm-Rudman-Hollings says next year's deficit should be $108 billion. But at the current rate, I am afraid it will be more like $180 billion. In other words, not one-zero-eight, but one-eight-zero.

The Gramm-Rudman-Hollings law is a 5-year plan. It sets annual targets for cutting the deficit. If we do not do the job this year, and each year thereafter, we are just heaping debt on the generations to follow.

I know the job has not gotten any easier in the year since we passed Gramm-Rudman-Hollings. The law was passed before last year's record trade deficit became this year's record-breaking trade deficit. It was passed before the economy went soft. It was passed before we had tax reform to consider.

But like it or not, that is the way it is.

And that is why I am convinced we need to pass a strong reconciliation package. If we do not pass a much tougher reconciliation, cannot agree on a sequester and go home with $170 billion deficit, I am pretty sure a sizable number of us will stay there.

Mr. President, when the House and Senate met last week on the Temporary Joint Committee on Deficit Reduction, we heard the Director of the Office of Management and Budget say the President would allow no more cuts in military spending. We heard him say the President would tolerate no additional revenues to help in the deficit battle. He said take it all out of domestic spending.

Well, Mr. President, Senator DOMENICI and I offered the Senate that very same offer last spring. I think you will remember how many votes it got. Just 14 votes.

I want to take a minute to point out something to the Senate. This spring, Senator DOMENICI and I proposed a budget and the Senate passed it 70 to 25. It included additional revenues to cut the deficit. That was a strong bipartisan vote including a majority of Republicans and a majority of Democrats overwhelmingly supported that. That is convincing evidence that we had to do everything possible to cut the deficit. The Senate passed resolution had that become the law, Mr. President, today we would not be looking for $19 billion or $15 billion to get these sequester cuts. We would be looking for just $2 billion.

Mr. President, when we brought the Domenici-Chiles proposal to the floor, it contained some $19 billion in revenues. If we had kept them in, we would not be here now. But more than $5 billion was removed on the floor. Even if we had approved what was left, we would still be at $151 billion, well within the statutory cushion, and we would not be facing a possible sequester.

But that is history. Now we have to come up with more cuts in reconciliation, or vote on sequester.

We are in a position now where the advice of an old Florida farmer comes into play. That farmer used to tell people, "if you want anything and can't find it, just come to me and I'll tell you how to get along without."

I wish that farmer were here right now, because we are going to have to get along without a lot of things to produce an effective reconciliation package.

So what we have is a set of choices to make. We can pass this reconciliation plus an extra $10 billion of deficit reduction, avoid sequester, and still miss the target by a little under $10 billion.

Or we could turn our backs on reconciliation and face a vote on sequester. If we approve the sequester, we will reach the $144 billion target, but we will do it by shaving all spending, the good with the bad, more than 9 percent from domestic spending and about 7 percent from defense spending.

Or finally, we could turn our backs on both reconciliation and sequester, and end up with a deficit of well over $170 billion. Then we will simply be reducing the standard of living of our children and grandchildren when the bill comes due on that debt.

Those are the three choices. If you think we can just keep nudging the problem over into next year, then next year's going to be a real bloodletting. If you think we can ignore the problem altogether, then next year will be even worse.

There simply is not enough in the pending reconciliation package to do any good. We have to find more savings, and, as I said, Mr. President, we have about 36 hours to do that in.

SIXTH OMNIBUS BUDGET RECONCILIATION ACT, 1986

Mr. DOMENICI. Mr. President, the time is growing short. The new budget year begins 2 weeks from today and our fiscal house is still not in order. Last night we began action on the implementing legislation for next year's budget, which the Congress adopted last June. And this debate begins with the very real threat that, if we fail to do our job, the sequester process in Gramm-Rudman-Hollings will do our job for us.

I do not want to take very much of my colleagues time. But, I do think that it might be helpful to review the present situation and just how we got here.

As almost everyone knows, the Congressional Budget Office and the Office of Management and Budget issued a joint report, as required under Gramm-Rudman-Hollings, which projects the fiscal year 1987 deficit under current economic and technical conditions and based on laws now in place. The average of the individual CBO and OMB deficit estimates is $163.4 billion—or $9.4 billion over the deficit point—$154 billion—at which a sequester is required under Gramm-Rudman-Hollings.

Indeed, the Congress has received the CBO-OMB report which identifies the amount by which the current deficit estimate exceeds the $144 billion maximum deficit target in law and outlines how the across-the-board cuts required by law are to be distributed—5.6 percent for defense programs and 7.6 percent for all nondefense programs included in the sequester base. Last Friday, the Temporary Joint Committee, which includes the combined memberships of both the House and Senate Budget Committees, reported a resolution affirming the CBO-OMB report. The Senate now faces a vote affirming these cuts, as early as tomorrow night.

Now, there may be some who will say that the reason we find ourselves in this unenviable position is a failure of the regular budget process. To the contrary, if we had bound ourselves to implementing the policies we agreed to in the budget resolution and had finished our work in a timely manner, we would not find ourselves here today.

We began deliberations on the fiscal year 1987 budget back in February of this year. At that time the Congressional Budget Office estimated that the deficit for the upcoming fiscal year would total $183 billion. The Gramm-Rudman-Hollings target for the year, of course, is $144 billion. We needed to find $38 billion in deficit reduction to avoid a potential fall sequester.

The Budget Committee went to work. In mid-March we reported a budget resolution that met the Gramm-Rudman-Hollings targets, provided a 2.8-percent growth in defense budget authority, reduced nondefense spending by over $15 billion, and proposed increased revenues of about $13 billion over the President's request. That resolution also significantly reconciled the spending and revenue assumptions.

Mr. President, I stand before this Chamber today to tell those who are listening that, had Congress followed through with the reported resolution, we would not be facing a potential sequester on October 1 and, equally as important, our job to meet the outyear targets would be significantly less difficult.

Let me go on. The full Senate took up the committee's reported resolution and, again, passed a blueprint that met the Gramm-Rudman-Hollings target, increased revenues by about $8 billion over the President's request, and further reduced nondefense spending by $21 billion. Much of the savings in that resolution was reconciled, and, again, had that Senate-passed resolution been fully implemented we would not be facing the October sequester here tonight.

When we went to conference the situation rapidly deteriorated. After almost 4 weeks of protracted negotiation, it became evident that, while the budget agreement totaled about $30 billion in new deficit savings—in addition to the $9.4 billion already achieved in COBRA—we could get a commitment to reconcile no more than $9.2 billion. This means that we failed to get a substantial commitment to the process by which much of these savings would be achieved.

It is clear that if we had moved forward with a reconciliation bill that achieved the full amount of the direct spending savings and revenue increases agreed to in the budget, we would not today face this prospect of a sequester. Instead, we are tonight for the first time addressing the reconciliation bill for next year. This bill contains $3.7 billion in savings by CBO estimates and only $3.1 billion according to OMB. This bill falls far short of the $9.4 billion average in the CBO-OMB estimates, and even farther short of the amount we are likely to need when the final estimates are made in October.

Let me explain. The joint CBO-OMB report shows that we are now, at this moment, $9.4 billion over the $154 billion sequester threshold. However, we have not passed any full year appropriations bills, nor have we accounted for other legislation which might add to the current CBO-OMB estimates.

These estimates are based, as I indicated earlier in my remarks, on laws now in place. This means that these deficit estimates are based on fiscal year 1986 appropriated budget authority levels.

Moreover, these estimates do not include legislation currently pending in both Houses to provide that Social Security COLA's are paid no matter what the actual inflation rate is instead of the 3-percent threshold in current law. One other large area is CCC deficiency payments. CBO assumes these payments will be accelerated from fiscal year 1988 to fiscal year 1987 as they were this year. OMB makes no such assumption. To be prudent, we should anticipate that these payments will be made whether by legislation during this session or by administrative action.

I would like to introduce into the RECORD at this point, Mr. President, a table which shows the effect of this legislation on the CBO-OMB deficit estimates. As this table shows, enactment of full year appropriations bills consistent with the 302(b) allocations in the budget resolution could add about $1.7 billion or more to the Gramm-Rudman-Hollings deficit base. Let me emphasize that these appropriations bills add money mainly because they are being costed against this year's appropriations base and not because of any oversight or fiscal disregard on the part of the Appropriations Committee. Indeed, this small increase for all appropriations action above this year's level reflects the real degree of restraint that the Appropriations Committee has had to face.

This table also shows that another $1.7 billion would have to be added to OMB's estimates if the regular appropriations bills are enacted because OMB estimates of appropriated entitlements are based on the fiscal year 1986 levels, rather than the current law level.

An additional $4.3 billion should also be added to the OMB level for the acceleration in advanced deficiency payments which, at this point, they do not assume will happen. And finally, $800 million needs to be added to the CBO figures to account for the enactment of the Social Security COLA legislation—which will surely come.

The bottom line is that $9.4 billion will not do the job. We need to develop a package that totals at least $14.5 billion and we have only $3.7 billion in the current reported version. This will not be an easy task and the rules regarding debate on reconciliation do not make it any easier. Indeed, Senator CHILES and I are attempting to come up with a process whereby the Senate can work its will to meet this goal and yet not violate the spirit of the rules and limitations that apply to reconciliation legislation.

In conclusion, let me say that I do not share the pessimism of many that suggests the Senate, and ultimately the Congress, will fail to meet its obli-

gations under the Gramm-Rudman-Hollings law. Already, we have seen a willingness to compromise and to go back and look for more savings on the part of many Senators. We begin now what will be a very difficult process that will require forebearance on the part of all. I ask my colleagues for understanding because we are on new ground, to be sure. But, in the end, the budget and, ultimately, the American people will benefit.

The table follows:

Needed Deficit Reduction to Avoid October 1 Sequester

[In billions of dollars]

CBO/OMB August 20 deficit snapshot	163.4
OMB:	
Legislation adding to deficit:	
COLA	.....
Farm deficiency payments	+4.3
Appropriations:	
Appropriated entitlements	+1.7
Appropriations at Senate levels	+1.7
CBO:	
Legislation adding to deficit:	
COLA	+0.8
Farm deficiency payments	.....
Appropriations:	
Appropriated entitlements	.....
Appropriations at Senate levels	+1.7
Legislation adding to deficit	+5.1
CBO/OMB October 1 deficit snapshot	168.5
Deficit needed to avoid sequester	154.0
Deficit reduction needed	14.5

RECESS UNTIL 1:30 P.M.

Mr. COCHRAN. Mr. President, at the request of the majority leader I ask unanimous consent that the Senate now stand in recess until 1:30 p.m. with the time between now and 1:30 p.m. to be charged equally against the resolution.

There being no objection, the Senate at 11:59 a.m., recessed until 1:30 p.m.; whereupon, the Senate reassembled when called to order by the Presiding Officer [Mr. MATTINGLY].

□ 1330

Mr. BYRD. Mr. President, I ask unanimous consent that I may proceed as in morning business for not to exceed 5 minutes and that I may speak therein.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

THE CONTINUING TRADE CRISIS

Mr. BYRD. Mr. President, the Commerce Department announced today its latest estimates for economic activity in the second quarter of this year. It has come up with the same dismal growth rate of 0.6 percent that it estimated last month. Measured in terms of constant 1982 dollars, our Nation's output rose only $5.5 billion during the second quarter. If the $10.6 billion increase in national defense purchases is excluded, one will find that our civilian production actually declined in the second quarter.

When one looks into the causes for our sluggish growth, one thing stands out. Americans are buying more goods, but most of the growth in our market has been swallowed up by rising imports and production that no longer goes to export markets. At a time when our civilian output declined and sales of civilian output rose $20 billion, our trade deficit ballooned by $28 billion. Imports soared by $19 billion and we lost export sales of $9 billion.

It is worth noting that these appalling trade figures cover only April through June and do not include the record $18 billion trade deficit figure for the month of July alone.

The administration has been assuring us that the decline in the dollar would bring dramatic relief to our trade deficit. Imports might rise in price but their real volume would be reduced and our exports would rise. In fact, well over a year after the dollar began its decline in February 1985, neither of those trends has appeared. Our import volume continues to soar and our export volume has headed south.

As long as the growth in the U.S. market continues to be supplied primarily by increased imports and displaced exports, we will have little or no growth. We will enjoy an overall economic turnaround only when progress on the trade front occurs. That will happen when this administration recognizes the crisis in trade—a crisis attributable in part to the lack of a realistic trade policy—and takes appropriate action.

The administration's failed approach to trade is not working and too many Americans are not working as a result. Today's GNP figures demonstrate once again that the administration's failure to cope with the trade crisis is hurting the total economy, not just isolated sectors and regions.

OMNIBUS BUDGET RECONCILIATION ACT, 1987

The Senate continued with the consideration of the bill.

Mr. SPECTER. Mr. President, I ask unanimous consent. I may suggest the absence of a quorum and that the time be equally charged on the reconciliation bill, which is presently before the body.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. SPECTER. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

□ 1350

Mr. DOLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. COCHRAN). Without objection, it is so ordered.

ORDER OF PROCEDURE

Mr. DOLE. Mr. President, what is the pending business?

The PRESIDING OFFICER. The pending business is S. 2706.

Mr. DOLE. Mr. President, I have been discussing this with a number of the principals with reference to the highway bill. I would advise my colleagues that Senator BYRD is aware of what I propose to do at this point. I am going to ask in a moment, or ask now, unanimous consent that we turn to the Calendar 870, the budget waiver to accompany the highway bill.

I assume there are going to be reservations or outright objections.

But I would propose that we take an hour off of our side on the reconciliation bill so that Members who have an interest could discuss their problems with the particular provisions of the highway bill. Maybe we could reach some agreement.

So I would suggest that perhaps I make the request and someone reserve the right to object.

I will ask unanimous consent that we have an hour off of our time on this side on the reconciliation bill to discuss various reservations Members have.

Mr. BENTSEN. Mr. President, I reserve the right to object. If I may state as the ranking member on the Environmental and Public Works Committee, I hope very much we can resolve these differences and then be able to get on with the highway bill.

I think it is critical that we get it passed. The authorization is expiring.

We addressed it this morning in the Finance Committee, as the Senator knows, and took care of the text part of it, so we have that all together to move on.

I know the House shares our anxiety in that regard.

So, obviously we have to clear it with the minority leader in that regard. But I am hopeful we can get an answer on that very quickly on our side.

Mr. DOLE. The Senator has no objection to maybe some of the principals discussing their concerns.

Mr. BENTSEN. None whatsoever.

BUDGET ACT WAIVER ON HIGHWAY BILL

Mr. DOLE. Mr. President, let me make the request and I ask unanimous consent that the Senate now turn to the consideration of Calendar No. 870,

S. Res. 459, the budget waiver to accompany the highway bill.

I ask also at this time, is there reservation.

The PRESIDING OFFICER. Is there objection to the request of the Senator from Kansas?

Mr. DIXON. I object.

The PRESIDING OFFICER. Objection is heard.

Mr. DIXON. Mr. President, I reserve the right to object.

The PRESIDING OFFICER. Who yields time?

The Senator from Illinois reserves the right to object.

Mr. DOLE. If the Senator will yield right there, I ask unanimous consent at this time there be an hour allotted to discuss the various reservations Members have and at the end of that time, they can just object,

Mr. DIXON. Reserving the right to object, Mr. President, if the majority leader will yield, may I have the attention of the majority leader? If all the majority leader is asking unanimous consent for is 1 hour off the reconciliation bill on that side to discuss the question of taking up this bill, I do not have any problem with that. But if the majority leader is asking that we do set aside the reconciliation bill to take up this bill, I object to that.

I do not have any problem about discussing it. But we have difficulty about taking up that bill unless we can have an understanding about some things that would not be considered in connection with that legislation, may I say.

□ 1400

Mr. DOLE. The Senator is correct. All I am suggesting is we take an hour off of reconciliation—we are still on reconciliation—and that we have discussion on the Senate floor by people who have different points of view on the highway bill. This might help us to resolve those. But we would not be moving to the highway bill.

Mr. DIXON. I have no objection to that procedure, Mr. President.

The PRESIDING OFFICER. Is there any objection? Without objection, it is so ordered.

Does the Senator from Illinois seek recognition under his reservation to object?

Mr. DIXON. I do, Mr. President.

The PRESIDING OFFICER. The Senator from Illinois is recognized.

Mr. DIXON. Mr. President, I see other colleagues of mine—the distinguished Senator from New York, Senator D'AMATO; my colleague from Illinois, Senator SIMON; my colleague from New Jersey, Senator LAUTENBERG—and I understand there are a number of other Senators who would come to the floor immediately, including the distinguished Senator from Pennsylvania, Senator SPECTER, who had been here earlier, and others, concerning something we understand would be contemplated by the distinguished manager and the distinguished ranking member and others from the committee in connection with this bill.

We are told, quite candidly, Mr. President, that should this bill come up for consideration on Calendar 870, the highway bill, that it would be the intention of the managers of the bill and others on that committee to attempt to place in the bill a limitation of 85 percent on the use of the transit money in connection with the mass transit account, which would adversely impact, of course, Mr. President, the major States, the large States of the country with major transit systems.

Frankly, if our colleagues want to get into that sometime, at an appropriate time after we are prepared to do so, some of us from the States that would be adversely affected would want to introduce another amendment to be considered at that time putting a $1.50 limitation on the amount of highway funds any State could use, which would adversely impact some of the States who are represented by the managers and who profit to a very substantial extent from the use of highway funds.

We would like to avoid all of that quarrel between all of us, Mr. President. There is not time left in the number of days left in this session to go into that.

We have no problem with taking up the highway bill. As a matter of fact—I am only speaking for this Senator from Illinois—I do not have any problem with discussing the 55-mile-per-hour speed limit, if some of my colleagues want to bring that up. I may not support increasing it, of course, but I would have no problem with a legitimate debate and a reasonable time limit and a vote on that kind of question. I have no problem with the highway bill itself.

But a number of us have a great deal of trouble and serious reservations about taking up this legislation unless we have an understanding from the managers that there will not be an attempt made by the managers, or others associated with them, to offer such an amendment concerning an 85-percent limitation. We would have a great deal of difficulty with that.

Frankly, should that be the case, then at the appropriate time, this Senator would have to object.

I would like to read very briefly a letter, Mr. President, which I think would express the point of view of my distinguished colleague and friend, the distinguished Senator from New York, Senator D'AMATO; my distinguished colleague and friend, the Senator from New Jersey, Senator LAUTENBERG; and my warm friend and colleague from Illinois, Senator SIMON; and others. It is a letter we sent out to our colleagues, Mr. President, on September 15. If I may indulge our colleagues so that our full point of view is made clear. We have on this letter, I might say, the Senator from Illinois, from New Jersey, from Massachusetts, from Maryland; I see a Senator from Georgia, from California, Pennsylvania, and others.

SEPTEMBER 15, 1986.

DEAR COLLEAGUE: During consideration of S. 2405, the "Federal-aid Highway Act of 1986," an amendment may be offered by Senator Symms to guarantee each State a minimum 85 percent return on user fees paid into the Mass Transit Account.

We strongly oppose this amendment. It effectively destroys the section 3 discretionary grant program. It amounts to another major cut in federal support for transit, even though transit spending has already suffered major cutbacks. It is grossly unfair and inequitable.

The amendment is, in essence, nothing more than an attempt to permit States with little or not transit service to raid the Mass Transit Account for highway purposes. It is a raid that the transit program simply cannot afford. The fiscal year 1987 Senate-reported DOT Appropriations bill limits transit spending to roughly $3.4 billion, $1.2 billion below the fiscal year 1981 level.

In other words, Mr. President, in the last 6 years, transit spending in this country has dropped $1.2 billion, went down $1.2 billion.

While transit was falling by over 25 percent—despite the enactment of legislation allocating 1 cent of the Federal gas tax to transit—highway spending was increasing by over 40 percent, to roughly $13 billion projected for fiscal year 1987.

So, if I may depart again from the text, Mr. President, mass transit down $1.2 billion, highway spending up $13 billion in the same period of time.

It is true that most of the section 3 discretionary grant program goes to the states that have or are building major transit systems. However, the bulk of federal transit spending is distributed by formula, and every state receives this formula assistance to help meet its transit needs.

Both large and small transit systems are increasingly unable to meet their financing needs. Maintenance and needed improvements have been deferred. Service has been cut. Yet the Symms amendment would cut discretionary capital funding for a number of major transit systems by up to 70 percent or more. It takes away well over $600 million from these systems and the millions of passengers they serve. It effectively cuts the Section 3 discretionary grant program by more than 60 percent.

The Symms amendment makes these deep cuts based on the argument that many states don't get their fair share of Mass Transit Account money. However, the great majority of "winners" under the Symms amendment are already big winners out of the Highway Trust Fund. Most of these states were allocated over $1.30 in highway funds for every dollar they contributed to that trust fund in Fiscal Year 1985; 15 of them received $1.75 or more for every dollar they contributed.

The majority of the "losing" states, on the other hand, historically have received less from the Highway Trust Fund than the na-

tional average compared to what they contribute. There is no good reason for these states to have their transit programs gutted in order to provide still more highway funds to states that are already big "winners" under the Highway Trust Fund.

We intend to see that this proposal, if offered, gets the kind of full and comprehensive review that will allow Senators to make an informed judgment of its true merit. We urge our colleagues to join us opposing this ill-conceived amendment.

If you need any further information, please contact Ed Rogers of Senator Heinz's staff at 4-6324 or Bill Mattea of Senator Dixon's staff at 4-2854.

Sincerely,

Alan J. Dixon, John Heinz, Frank R. Lautenberg, Alfonse D'Amato, Paul Simon, Paul Sarbanes, John F. Kerry, Sam Nunn, Pete Wilson, Arlen Specter.

So, Mr. President, in conclusion, let me simply make this remark, which I think will be shared by other colleagues. I see my distinguished friend from New York State on his feet. His eloquence is unsurpassed in this body and I know he has a great deal to say on this same subject.

But the point we want to make is that we feel very strongly that the mass transit needs of our States, represented here by those who will oppose this attempt, has already been massively injured in the last few years by the sharp reduction in expenditures of $1.2 billion, while highway funds have increased by $13 billion; that any attempt of this kind is well out of bounds and ought not to be countenanced, and we do not want to undertake this in this short session.

□ 1410

There may be another time and another place perhaps in the next session.

Mr. President, when there is plenty of time early on to discuss this at length, I am sure my colleagues and I would be happy to accommodate our friends on the committee at that time. But we will object to going forward at this time.

Mr. SYMMS addressed the Chair.

The PRESIDING OFFICER. The Senator from Idaho.

Mr. SYMMS. Mr. President, I respect and admire my colleagues here, and my distinguished friend from Illinois. But I think we should put this in a proper perspective. We are talking about a $52 billion highway program. To move it forward so we can have continuity in the Federal Aid Highway Program that affects all 50 States, and to make the comparison of what the mass transit problems are in Chicago, with the transits, say, of getting people through the State of North Dakota. It is just not an accurate comparison.

I just say to my good friend, he is making an argument here that is simply comparing apples with oranges. It is true that North Dakota, for example, gets back more dollars in highway funds than they put into the fund. But it is a national and defense highway system. In order to get from one end of the State to the other, there has to be a highway all the way through it.

We are talking about transit problems in places like Chicago, New York City, and the New Jersey area that my colleagues here on the floor say are more localized problems. They do not fit the same prescription as the National Highway Program. We should first get that point clear.

Second, we will bring the charts over here if we want to start talking about funding and dollars. What I would like to appeal to him is, I think those of us in this committee—and I can speak for all of us on the committee—have no desire to in any way have an amendment here that is going to disrupt the continuity of the Federal Aid Highway Program.

But the problem that the Senator is pointing out, those States who get the mass transit funds are getting $2, and $3 plus back for what they are putting in.

So I urge my colleague not to get into the argument about hgw poor ygur State is doing and how well my State is doing because the record shows on the transit chart that very few States and big cities get all of the transit dollars. There are some 38 States that are losers on the 1-cent a gallon.

In 1982, when President Reagan provided the leadership to pass the Surface Transportation Act of 1982, he made a compromise. The compromise was the 1-cent a gallon that carried with it a half a percent allocation of the total funds to each State which is true for our funds and our interstate funds. That is the way it passed the Senate. That was lgst in conference in the compromise on the Surface Transportation Act. Yet, with that 1-cent compromise carried the implication that we would get back something out of those dollars.

In my State, it is 1 cent. In North Dakota it is 1 cent. In Illinois it is 1 cent. It all goes into the mass transit fund. We are not getting back anything substantial in our States on that 1 penny.

That is the issue. It is a fairness question. If we want to have a National Interstate Defense Highway System, where we all cooperate as the 50 sovereign States, we have to have fairness applied to this.

I would appeal to my colleagues. We are willing to work this out. If you look at the formula of what passed in the other body on the highway dollars, the States like Idaho, like North Dakota, like South Dakota, like Nebraska, like Kansas, they would lose dramatically in highway funds if we accept the House formula.

We have to go to conference with our colleagues in the other body. We have to work out some kind of an agreement. I do not think any of us in the Senate Subcommittee on Transportation are so naive and so inexperienced in politics to think that we are going to go over and deal with our friends JIM HOWARD, BUD SHUSTER, and GLENN ANDERSON in the other body and come back with the full 85 percent.

We would, however, not be able to have a Federal Aid Highway Program if in fact we had to take the House formula on the highways, because then the State of North Dakota, a small State—and I might say a State that is not a wealthy State right now due to the farm economy, has hundreds of miles of interstate going across it, and very few people to pay into it—would not even be able to raise enough money to maintain the Interstate Highway Program if we had to accept the formula that the city, State, urban, and House of Representatives comes up with.

The one beauty about the Highway Program is we have two Senators from each State to help protect the 50 States. What we really are asking for—is fairness. You have a discretionary spending program with respect to the mass transit funds where basically there is not any formula. It is a discretionary program. So most of the money is going to very, very few places.

We are not talking about massive cutbacks. I do not know where the Senators get their numbers. But we will bring some charts over to point this out to my colleagues. I think we are willing to work out some agreement.

But for us to interfere with passing a $52 billion highway program would be a dramatic mistake for the country. It would be bad for commerce. It would be bad for people's opportunities. I would appeal to my colleagues to say what other things do the taxpayers spend their money on that they actually get back any more personal mobility, freedom, if you will, and opportunity, because of their ability to get in their automobile and travel on a good road system than they get from their Federal highway dollars?

I think it would be a mistake if we allowed for an interference here over a dispute that we have over what I view as fair and what my colleagues view as what is fair over the mass transit 1 penny—to interfere with that over the other 8 cents that people are paying that needs to be a sustained continued highway program without work stoppages and slowdowns.

So what I would say to my colleagues, I would suggest that they might consider the idea that we set aside temporarily, any amendments

dealing with the mass transit system and most certainly the amendment that the Senator is suggesting of a $1.50 limitation on the Highway Program. That is totally out of bounds with the intent of the national highway program and system because we have some States who have long miles to travel over very rough terrain.

Mr. DIXON. Will my colleague yield?

My colleague talks about fairness and talks about their need for highway funds where they need a lot more roads because they are big States that need more roads but do not mind taking our money from mass transit when we are the few States with the mass transit needs.

What I have said to my friend is since 1956, for 30 years, he has been getting back almost 2 bucks for every buck he sends down here in money for his highways and I am not squawking about that.

Mr. SYMMS. That is the only way we get those good potatoes to your market.

Mr. DIXON. How is that fairness?

Mr. SYMMS. The way it is fair in this.

Mr. DIXON. I am saying the Senator wants to limit us to 85 percent. Then why does he not limit himself to $1.50?

Mr. SYMMS. We are not limiting the Senator to 85 cents. We are trying to see that we get a floor, that we get something back. If we got 50 cents back on the dollar, we would not be squawking quite so much. If we had done it the way it passed the Senate originally, we would be getting more back than we are talking about now. This is a reduction. If we applied the old half-a-cent rule that is still in the bill with respect to our funds, there would be a lot more money for my State and like the State of the Senator from North Dakota.

The Senator and I have made a compromise by suggesting the 85-cent minimum. If you want to get from Chicago to Seattle, you have to pass through several States. So it is a national highway system. It transits through certain States.

Mr. DIXON. Would my friend yield?

Mr. SYMMS. It is more of a localized problem. We are still helping you. We are willing to pay in our 1 cent. We want to get something back.

Mr. DIXON. We want to help you too. But does my friend yield a moment?

Mr. SYMMS. Sure.

Mr. DIXON. Remember when we passed the nickel tax in the interstate highway improvement fund a couple of years ago? This Senator was very supportive of that legislation as the Senator knows. As a matter of fact, believe it or not, the State of Illinois had the most Members of the Congress come, Senators and people in the House, voting in favor of that bill than any major State in the Union, any of the larger States.

□ 1420

I do not know if you know that is a fact. It is a fact.

One of the inducements for us to do that was the penny for the mass transit system.

Now my friend wants to come back and, by some insidious device that they have somehow developed in the committee, strip off some of that money and put it into the programs for other States.

I want to say to my friend that violates the spirit of fairness that appealed to us when this whole matter was discussed several years ago and when so many of us supported this legislation with so much enthusiasm.

Mr. SYMMS. I thank my colleague for making that point. I appreciated the support we received from the Illinois delegation in the Senate and in the other body.

But when the bill passed the Senate, it was much more generous to the other 38 States that are nonrecipients of this mass transit fund, than of the four Senators who sent out the letter: BENTSEN, BURDICK, STAFFORD, and myself.

I would point out that all our amendment would do is to offer a guarantee that each State would get a minimum 85-percent annual return.

That is probably negotiable. It can probably be compromised. I do not know how it will come out in the House of Representatives. To compare a national highway system with a local problem of transit, for a Chicago area or New York City transit area, where you do not have people who have to pass through for interstate commerce or for defense purposes, there is a difference.

Mr. D'AMATO. Will the Senator yield?

Mr. SYMMS. I am happy to yield.

Mr. D'AMATO. I respect the work that my distinguished colleague and his committee have done on the highway bill. Federal support for building major highway projects must be evaluated with careful reflection upon the facts regarding critical urban and rural transit needs. In my State of New York, or in Illinois, or in New Jersey, for example, transit service provides a vital link in regional transportation networks.

I take some pride in having been the author, of the portion of the Surface Transportation Assistance Act of 1982 which set aside one penny of the nickle gas tax increase specifically for discretionary transit capital grants.

Let me assure the Members here that if we look back at the record, there would have been no additional 4 cents per gallon gasoline tax for highway projects unless there was an agreement to set aside another penny for transit projects, as my dear friend from Illinois, Senator DIXON, has suggested.

The Surface Transportation Assistance Act was dead in the water before that compromise was reached. Without the transit-dependent States getting the one penny of gas tax that was agreed to, there would have been no additional money at all.

Now to attempt to say, under the guise of fairness, that we will revisit the question and that those transit dollars will be looked at as a source of reimbursement to the other highway dependent States flies in the face of what this body stands for.

The various States of this Nation have diverse needs and I have voted to support them. We in the urban, transit-dependent States have voted for hydropower projects, land reclamation projects, agriculture subsidies, and many other programs. We understand when a State has proportionately greater needs and may require allocations of Federal funds in excess of its contributions in particular programs of great regional importance.

I have to suggest to my distinguished colleague that as much as I want to pass the highway bill, and I will support this $52 billion bill, I could not agree to taking it up under a unanimous-consent agreement unless it provided that no amendment dealing with reallocation of transit funds in the mass transit account for highway projects would be in order.

With respect to the proposed formula of an 85-percent minimum allocation of the mass transit account, you say you would be willing to reduce it to 50 percent. My State would lose $214 million under your original plan. You say this is negotiable. To negotiate a loss from $214 million to $175 million is not acceptable. To negotiate a loss of any funds as it relates to this one penny is absolutely unacceptable.

Mr. SYMMS. I thank my friend from New York.

Mr. President, I ask unanimous consent that the letter to which I made reference be made part of the RECORD at this point, with additional material which is with it.

Mr. LAUTENBERG. Mr. President, I reserve the right to object. I want the letter read.

The PRESIDING OFFICER. The Senator reserves the right to object.

Mr. SYMMS. I will be happy to read the letter to my colleague. I do not want to take all this extra time.

I want to make some points about this to my friend from New York. I will read some of the highlights of what the text of this points out.

Of the current distribution, the States listed below received 81 percent of the 2-year total funds distributed from the mass transit account during

fiscal year 1984 and 1985. The last four States received 2.9 percent of the total.

This is what we are talking about. Listen to this.

New Jersey and New York received more than $487 million, 22 percent of the entire allocation. California, $351 million, 16 percent.

Mr D'AMATO. Does my friend have any knowledge with respect to the percentage of transit riders as well as to the percentage of transit dollars that represent the respective shares of New Jersey and New York? I think our percentage of transit riders is far greater than our percentage of transit dollars.

Mr. SYMMS. That may be the case.

Mr. D'AMATO. If we are going to compare apples with apples, let us make sure we consider all the relevant facts.

Mr. SYMMS. Pennsylvania, $283 million, 13 percent; Georgia, $189 million, 8 percent; Illinois, $165 million, 7 percent; Texas, $139 million, 6.5 percent; Massachusetts, $132 million, 6 percent. That is 81 percent. Then there are Oregon, Michigan, Florida, and Louisiana getting another 9 percent. That is a total of 91 percent of all of those dollars. The remaining 2-year total of the funds went to 38 States and the District of Columbia, each of which received less than 1.5 percent of the total funds distributed.

I want to repeat again that the formula that we have arrived at in talking about the 85 percent——

Mr. LAUTENBERG. Will the Senator yield for a question?

Mr. SYMMS. I am happy to yield.

Mr. LAUTENBERG. Can the Senator supply us with the contributions made by the States he just outlined in terms of the percentage that they contribute?

Mr. SYMMS. Yes. That is part of the information I have submitted for the RECORD.

For example, New Jersey's 1985 gas tax account was $39.326 million. The total received was $774,000.

New York was $266.846 million, and the New York contribution was $61.324 million.

The minimum allocation difference——

Mr. LAUTENBERG. The New Jersey contribution for 1985 was $39 million and the return that our State got was $33.5 million. Am I correct?

Mr. SYMMS. The State of New Jersey received $774,000. That is probably a poor example because of the sharing with the New York Port Authority.

Mr. LAUTENBERG. Is that the kind of fairness formula you are talking about?

Mr. SYMMS. I am saying you get $266 million in New York and they paid in $61 million. This amendment would actually help New Jersey, which would probably turn it back in to the Port Authority. It might not have that big of an impact on the State of New Jersey.

Mr. SIMON. Will my colleague yield?

Mr. SYMMS. I am happy to yield.

Mr. SIMON. There is one other problem which has not been touched upon, if I understand the amendment correctly. That is that it would adversely impact on Illinois, Iowa, Indiana, and Ohio, States where we have had quite a bit of gasohol consumption. Is that correct?

Mr. SYMMS. Gasohol is not counted either in the highway. There is a gasohol exemption. I believe it is 6 cents a gallon out of the 9 cents.

□ 1430

So I do not think gasohol would have had any impact. But gasohol is an exemption in the Federal Aid Highway Program that the Highway Users Federation complains constantly about because it does bleed money off of the trust fund by allowing a 1-to-10 ratio. So, in other words, they put in one gallon of alcohol, nine gallons of gas, and they get the exemption.

Mr. SIMON. It bleeds money for two reasons. We have constantly wanted to experiment, we want to do the research, and we want to encourage agriculture.

Mr. SYMMS. Right.

Mr. SIMON. But now all of a sudden, if you penalize, as I understand the amendment of the Senator, Illinois, Iowa, Indiana, Ohio, and other States that may have heavy gasohol use, it just seems to me that is contrary to the best national interests.

Mr. SYMMS. I might just say to my good friend, Congress did decide to exempt gasohol, and in States like the Senator's and mine, it is a very popular issue. There are some people who view it as an exemption because those people who burn gasohol also wear out highways. That is another argument. That is not what I am arguing about now. I think that if we could work out something with my colleagues—and I suggest again someone may still wish to speak on this. I think the Senator from New York and the Senators from Illinois and New Jersey, made their points of view clear. I would hope that somehow we can settle this. What we are talking about is that we have a 9 cents a gallon fuel user's fee to try to pay for the Nation's highway program with 1 cent transferred for mass transit needs. Now, we have mass transit and urban needs for roads in rural States also. We have urban bus systems in a lot of cities and communities that are clamoring for more dollars to help those urban systems operating and clamoring for more urban roads that could be used in the flexibility. But I am appealing to my colleagues to work out some program where we can move forward with the highway bill and get the $52 billion out to the 50 States.

Mr. D'AMATO. Will the Senator yield?

Mr. SYMMS. So that the highway program can be sustained so the people can continue to have the road programs they expect. One of the good things about the Federal Highway Program is when you see those road crews out there working on the roads, in your States those projects are already paid for. They are not something that is being done the way most things in Washington, DC work, where you borrow now and then figure you will pay later. These projects are paid for and let us not hold the money up over that. I will yield the floor.

Mr. D'AMATO addressed the Chair.

The PRESIDING OFFICER. The Senator from New York is recognized.

Mr. D'AMATO. Mr. President, I do not want to be accused of impeding the work of the Environment and Public Works Committee, which has come so far in advancing this highway bill. I believe that it is a good bill. But a number of us who are on the floor today——

Mr. SYMMS. Will my good friend yield?

Mr. D'AMATO. For a question.

Mr. SYMMS. I want to make a unanimous-consent request. I think I have this worked out. If the Senator will yield, I would appreciate it.

Mr. President, I ask unanimous consent again to insert in the RECORD, a Dear Colleague letter from Senators BENTSEN, BURDICK, STAFFORD, and myself, plus the substantiating material.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. SENATE, COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS,
Washington, DC, August 25, 1986.

DEAR COLLEAGUE: On May 6, 1986, we introduced S. 2405, the "Federal-aid Highway Act of 1986," reauthorizing the Federal-aid highway program for fiscal years 1987 through 1990. As introduced, section 129 of the bill guaranteed each state a minimum 85 percent annual return on user fees paid into the Mass Transit Account (MTA) by highway users in that state. This minimum return from the MTA is consistent with the 85 percent minimum allocation adopted by Congress in 1982 as part of the Federal-aid highway program.

During markup of the bill, the Committee adopted by voice vote a motion to strike section 129. The Committee had received a letter from the leadership of the Banking Committee asking that we "refrain from pursuing [section 129] so that the Senate Committee on Banking, Housing and Urban Affairs, which has jurisdiction over mass transportation issues, may consider this proposal during its action on reauthorizing the Mass Transportation Act." Having deferred to the request of the Banking Committee, we intend to offer an amendment restoring the provisions of section 129 to S. 2405 when the bill is considered on the Senate floor.

The amendment we will offer guarantees each state a minimum 85 percent annual return on user fees paid into the MTA by highway users in that state. Unlike the original section 129, which allowed a state of use these funds either on transit projects or on highway projects at the state's discretion, this amendment requires a state to certify that its transit needs have been met before using the funds on highway projects. We believe that adoption of this amendment would assure continued support for the agreement reached in 1982 to create the Mass Transit Account and to fund it with 1 cent of the 9 cent per gallon federal gas tax.

Despite the fact that highway users in every state contribute to the Account, most MTA funds are distributed on a discretionary basis with no minimum guarantee to any state. As a result, 8 states received 82 percent of the MTA funds distributed in fiscal years 1984 and 1985. Another 4 states received just over 9 percent of the total distribution, leaving 38 states, the District of Columbia, and the Territories to divide the remaining 9 percent ($191.2 million) of the two-year distribution of funds.

This inequitable distribution of funds should not exist in a national public works program financed by highway users across the country. Our amendment will provide each state a fair return on its MTA investment.

For your information, we are enclosing: (1) a chart showing the state-by-state distribution of MTA funds in fiscal years 1984 and 1985, (2) a chart showing those states that received the bulk of the MTA funds distributed in fiscal years 1984 and 1985, and (3) a copy of the amendment.

We invite you to cosponsor this important amendment to assure an equitable distribution of the transit funds paid by highway users in your state. Please call Jean Lauver (Majority Staff) at 4-7863 or Paulette Hansen (Minority Staff) at 4-6844 if you would like to cosponsor or need more information.

Sincerely,

From the Committee on Environment and Public Works:

LLOYD BENTSEN,
Ranking Minority Member,
ROBERT T. STAFFORD,
Chairman.

From the Subcommittee on Transportation:

QUENTIN N. BURDICK,
Ranking Minority Member,
STEVE SYMMS,
Chairman.

S. 2405

S. 2405, as reported by the Senate Environment and Public Works Committee, is amended by adding the following section:

MASS TRANSIT ACCOUNT MINIMUM ALLOCATION

SEC. . (a) Notwithstanding any other provision of law, as soon as is practicable in each fiscal year, commencing with the fiscal year ending September 30, 1987, the Secretary of Transportation shall allocate among the States from the appropriations made from the Mass Transit Account of the Highway Trust Fund for such fiscal year, amounts sufficient to insure that a State's percentage of total allocations from the Mass Transit Account for such fiscal year, shall not be less than 85 per centum of the percentage of estimated tax payments attributable to highway users in that State paid into the Mass Transit Account in the latest fiscal year for which data are available. For purposes of this section a State is any one of the 50 States and the District of Columbia.

(b) Notwithstanding any other provision of law, amounts allocated pursuant to subsection (a) of this section shall be available for obligation when allocated for the fiscal year in which allocated plus the three succeeding fiscal years, shall be subject to the appropriate provisions of title 23, United States Code, and the Urban Mass Transportation Act of 1964, as amended, as determined by the Secretary of Transportation, and shall be available for obligation for any projects authorized by the Urban Mass Transportation Act of 1964, as amended, except that where a State certified to the Secretary of Transportation that any part of such amounts are excess to the needs of the State for such projects and the Secretary accepts such certification such excess amounts shall be available for obligation for highway construction projects on any public road.

SECTION ANALYSIS

This section provides for a minimum allocation for the States from the Mass Transit Account of the Highway Trust Fund similar to the minimum allocation for the States from the Highway Account of the Highway Trust Fund. A State's percentage of total allocations from the Mass Transit Account could not be less than 85 percent of the percentage of estimated tax payments attributable to highway users in the State paid into the Mass Transit Account in the latest fiscal year for which data was available. A State is defined as one of the 50 States and the District of Columbia.

Minimum allocation amounts available would be available for 4 years for obligation for transit projects except that where a State did not have transit needs the amounts could be used for highway projects on any public road.

The first 8 states listed below received 81.70 percent of the two-year total of funds distributed from the Mass Transit Account during FY 1984 and FY 1985. The last 4 states received 9.30 percent of the two-year total.

[Dollars in millions]

States	(1)	Percent[2]
New York and New Jersey	$487.6	22.8
California	351.4	16.4
Pennsylvania	283.3	13.3
Georgia	189.0	8.8
Illinois	165.0	7.7
Texas	139.8	6.5
Massachusetts	132.2	6.2
Subtotal		81.7
Oregon	64.7	3.0
Michigan	55.7	2.6
Florida	40.5	1.9
Louisina	38.5	1.8
Subtotal		9.3
Total	1,947.7	91.0

[1] Two-year distribution (fiscal year 1984 and fiscal year 1985).
[2] Distribution as a percentage of the total distribution from the Mass Transit Account (fiscal year 1984 and fiscal year 1985).

The remainder of the two-year total ($2,138.9 million) of funds distributed from the Mass Transit Account went to 38 states, the District of Columbia, and the Territories, each of which received less than 1.5 percent of the funds distributed:

Total—$191.2 million; 9.0 percent.

In 1983, the Mass Transit Account was distributed under the 9(a) formula in which every state received funding.

Mr. SYMMS. Mr President, I also ask unanimous consent to have printed in the RECORD, Department of Transportation talbes relating to 1984 and 1985.

There being no objection, the tables were ordered to be printed in the RECORD, AS FOLLOWS:

DEPARTMENT OF TRANSPORTATION, URBAN MASS TRANSPORTATION ADMINISTRATION

The PRESIDING OFFICER. The Senator from New York.

Mr. SYMMS. I thank the Senator very much.

Mr. D'AMATO. Mr. President, I believe we can accomplish the goals of both the majority and of the ranking members of the Environment and Public Works Committee in terms of passing a highway bill. I am confident that we can pass a bill that will not impede the development of our roads, and that will provide the necessary $52 billion. I do not know of any Senators on this floor, any of my colleagues who have raised certain concerns, who would object to the highway bill, save this one point. I do not think we should attempt, in the relatively few short hours that remain to decide this point with respect to a complex formula which is absolutely crucial to our States. Thus, I renew my offer. My offer is simply this. I would agree to proceed with the bill provided that there is a unanimous-consent agreement that no amendments dealing with the reallocation of the mass transit account of the highway trust fund for highway projects would be in order.

That is the only condition I have. I would then go to an up-or-down vote on the bill, as well as on any other amendments that may be offered. My colleague from Illinois is indicating the same position. But let me tell you, when we talk about fairness, we have had mass transit funds reduced year after year. We are struggling to keep aging systems safe and operational. This 1 penny was set aside for mass transit. It was not set aside to be used by all of the individual States on a per capita basis, or for highway projects. It was created to serve mass transit needs. If the States of Wyoming, Montana, Idaho, or Nevada have mass transit needs, they are eligible for it—not for their highway needs, but for their mass transit needs. One penny out of nine pennies is precious little for those urban centers that are plagued with many problems besides transportation needs. Mass transit is an absolute necessity in order to sustain a quality way of life in densely populated urban areas. It is a necessity for our rural transit riders too. Urban and suburban commuters, and our urban centers depend on transit. It is not inconsequential to the lives of suburban commuters in the outlying areas in Illinois, for the lives of suburban commuters in New Jersey, and certainly not for the lives of suburban commuters in Westchester and Long Island in New York. If we want to be fair and want to move this bill, I venture to say that we could pass this bill within an hour, with one proviso—this objectionable amendment should not be in order. This Senator does not want to be accused of impeding the highway bill. Let me say for the record, I am ready to vote on the highway bill. But, we should not be offering amendments that would tear apart the fabric of well-established principles and agreements. I do not object to farm aid that is perhaps allocated in a disproportionate sense in terms of per capita aid to States. I am for it because that is where the need is. It would be silly for this Senator to say New York has 17 million residents; consequently, we want a certain proportion of farm aid per capita. It is not the way it works. This is mass transit aid. We have the transit needs. Consequently, these dollars that have been allocated for that specific program should be allowed to flow to it. I think it sets a very dangerous precedent when we begin to decide who would get more or less, when we begin to undo well-established principles of meeting national needs. So I say to my colleague—and I understand his valiant attempt to fight for what he perceives to be equity and fairness—let us allow the bill to go forward. I have made, I think, an offer that can be taken up in good faith. We could proceed with this bill. We can look at the transit formulas at another time. But certainly this is not the time to undertake it.

I yield the floor.

Mr. SYMMS. Will the Senator yield? I would think that we do need to make it clear for any of our colleagues who may be listening or watching this debate, that this amendment which my good friend from New York is talking about, is not in this bill. We took it out in the committee.

Mr. D'AMATO. I understand that. Let me clarify my point.

Mr. SYMMS. We took it out, and if the Senator is very persuasive in his argument the Senator may win it. But I plan to offer an amendment—when we get to the bill, I plan to offer an amendment to relax the 55-mile-per-hour speed limit.

Mr. D'AMATO. I have no objection to that amendment being offered.

Mr. SYMMS. And my good friend from New Jersey has some very strong viewpoints that the 55-mile-per-hour speed limit is appropriate for his part of the country. I think we have to vote on these issues.

Mr. D'AMATO. Let me respond again so it is quite clear. I do not want to be accused for holding up the highway bill. Indeed, I am ready to assent to any reasonable time agreement. Some other Member of the Senate may or may not agree. As far as this Senator is concerned, we can vote on this bill, with my one caveat. I would like a unanimous-consent agreement that would provide that no amendment dealing with the reallocation of the mass transit accounts of the highway trust for highway projects would be in order. Otherwise, I would object—a right which we have as Senators—to a unanimous-consent agreement constraining us or precluding us from full and free debate. I feel I have to debate on behalf of the constituents of New York, as the Senator from Illinois and the Senator from New Jersey are compelled to do for their constituents. That is what we are talking about. We are being asked to give up our rights to total, free debate on the condition that we proceed under a time agreement? Yes, I do, provided that there will be no amendments put forth in the area of reallocation of mass transit funding for highway projects.

□ 1440

Mr. LAUTENBERG. Mr. President, I should like to try to clarify my position.

The PRESIDING OFFICER. The Senator from New York has the floor. Does the Senator yield?

Mr. D'AMATO. I yield for a question.

Mr. LAUTENBERG. I thank the Senator from New York and the Senator from Idaho.

What we are discussing now, as I think the distinguished Senator from New York clearly stated, is the process, the procedure, of how we move with this. I think we got slightly sidetracked when we discussed the specifics of the amendment, because that is not for the period of time reserved for this discussion.

I ask that the Senator from Idaho remember clearly that this provision was stricken from the highway bill before it was released from the committee. That sets a particular tone.

I could not agree more with the comments made by my colleague from New York, to say that I, too, as a member of that committee, as someone who helped negotiate the bill finally passed by the committee, have no objection to the highway bill. We want it discussed and debated and we want a vote on it quickly.

I do have additional concerns. One is the proposition made by the Senator from Idaho, to which I severely object: Absolutely, under no condition would I agree to a time limit that includes that amendment. I have a couple of other concerns.

The Senator from Idaho said in the discussion that I objected to an amendment on the 55-mile-an-hour speed limit. I do. But I do not object to it being debated fully here, given enough time so that all people concerned can express their views.

If this amendment to redistribute the mass transit money comes about, it will need a long time to discuss. I am told by my colleague from Illinois that it could take many days to discuss this fully.

Mr. DIXON. Perhaps weeks.

Mr. LAUTENBERG. Perhaps weeks. We would like to be out of here by October 3.

On the serious side, the fact is that I would object to any time agreement that includes a redistribution formula for mass transit.

I have a couple of amendments that I would like to bring up—one of them, I think, without any objection—but we will have to find out from the chairman of the committee, who is here now.

Let it not be misunderstood that this Senator and the 15 colleagues who joined me in signing the letter urging that this change not be made feel the same way about the Symms amendment.

I ask unanimous consent to have our letter printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

U.S. SENATE,
Washington, DC, September 11, 1986.

DEAR COLLEAGUE: The Senate will soon consider S. 2405, the Federal-Aid Highway Act of 1986. At that time, Senator Symms will offer an amendment which would fundamentally change the manner in which mass transit assistance is distributed to the states. It is our intention to vigorously oppose this amendment.

Under current law, one cent of the federal excise tax on gasoline is reserved for mass transit. This "penny for transit" provision was adopted in 1982 as part of the Surface Transportation Assistance Act of 1982. The distribution of these funds comes from Section 3 of the Urban Mass Transportation program. Section 3 is a discretionary program with the distribution of funding determined by the Secretary of Transportation.

The Symms amendment would require that each state, regardless of its mass transit needs, receive 85% of its contribution to the Mass Transit Account of the Highway Trust Fund. Its sponsors argue that the amendment is simply an extension of the 85% minimum allocation provision incorporated in the highway program. That is not the case.

The 85% minimum allocation in the highway program does not take funds from one state to give funds to another. Funds to cover the 85% minimum allocation in the highway program come from a special pot and are not taken out of other states' allocations. The Symms amendment takes funds dedicated to mass transit from transit-dependent states and redistributes them to states without transit needs. Further, it allows those funds to be used for highways.

If the Symms amendment becomes law, there will no longer be a "penny for transit". That program will be destroyed. The progress made in 1982 in striving for a balanced national transportation network will suffer a severe setback. We believe that 1986 is the time to improve the landmark legislation passed in 1982. This is not the time to turn back the clock on federal transportation policy.

During markup of S. 2405 in the Environment and Public Works Committee, a provision requiring that each state, regardless of its mass transit needs, receive 85% of its contribution to the Mass Transit Account of the Highway Trust Fund was dropped from the bill. It was ngted that the committee with jurisdiction over this subject is the Committee on Banking, Housing afd Urban Affairs. The Bankifg Committee has not recommended this drastic departure from current law.

We appreciate the concern expressed by some states that the mass transit needs of small afd rural communities are not being adequately eet by the current Section 3 program. Recommendations have been made to address this concern, but the Symms amendment is the wrong way to go about it.

The Symms amendment threatens to destroy federal mass transit programs and ignores the fact that different states have different transportation needs. It ignores the fact that many of the states which benefit from the "penny for transit" are donee states to federal highway programs, and subsidize highway construction in highway dependent states. If adopted, it could erode support for federal highway programs. It also threatens to delay the reauthorization of the federal-aid highway program. We support the reauthorization of the highway program and want to see a highway bill enacted as quickly as possible.

If the Symms amendment is offered to the highway bill, it is our intention to fully debate the measure to insure that the Senate has a complete understanding of its history, purpose and impact on federal transportation policy. We hope you will join us in this effort. If you have questions about our effort, please feel free to call us or have your staff call Tom Howarth at 49712.

Sincerely,

Slade Gorton, John C. Danforth, Bill Bradley, Frank R. Lautenberg, Daniel P. Moynihan, Paul Simon, Thomas F. Eagleton, Arlen Specter, Paul S. Sarbanes, Alan Dixon, John F. Kerry, Alfonse D'Amato, Edward M. Kennedy, Alan Cranston, Sam Nunn.

Mr. DIXON. Mr. President, will the Senator yield?

Mr. LAUTENBERG. I am happy to yield.

Mr. DIXON. Mr. President, I thank my distinguished colleague from New Jersey for his statements. I ask him whether he thinks that what he has expressed and what the Senator from New York and others have expressed is fairly similar—that none of us would object to taking up the highway bill, and we are all anxious to vote on the highway bill, and we are not objecting to taking up the question of the 55-mile-an-hour speed limit, so long as there is a substantial time agreement that gives everybody a chance to be heard on that issue. But we do object to taking up the question of formula changes with respect to mass transit. So far as that is concerned, we would want to be heard at great length and would not give up our opportunity to be heard on the question.

Mr. LAUTENBERG. The Senator from Illinois is correct.

Mr. DIXON. I say this on behalf of the Senators from Pennsylvania who were here earlier and left; on behalf of the Senators from New York, Massachusetts, New Jersey, Illinois, California, and others similarly situated. All of us would be similarly situated.

I see the distinguished chairman of the committee in the Chamber, and I say to my friends that they may want to discuss the question of bringing up the highway bill. We would be willing to agree to a time limit on the 55-mile-an-hour issue, but we are not willing to agree to any kind of consideration of this bill unless a unanimous-consent agreement would obviate consideration of basic changes in the formula.

The PRESIDING OFFICER. Does the Senator from New Jersey yield the floor?

Mr. LAUTENBERG. I yield the floor.

The PRESIDING OFFICER. Does any Senator seek recognition?

Mr. SYMMS. Mr. President, a parliamentary inquiry. How much of the 1 hour remains to discuss reservations?

The PRESIDING OFFICER. It is 14 minutes.

Mr. SYMMS. Mr. President, I appreciate the candor, frankness, and forthrightness of all my colleagues on the floor. I think my colleagues have made it very clear that they recognize that there probably are more votes for the so-called fair share amendment in this body than there are not. They are demonstrating their abilities and their rights as Senators to protect what they consider an important issue, and I respect them for that.

I ask my colleagues from New York and New Jersey—the Senator from New York is off the floor now—if there is any way we might proceed and have unanimous consent that no amendments with respect to mass transit be in order, for a time certain, and see if we can move ahead with this

bill and get the debate in, and get all the noncontroversial issues settled.

Some of the amendments that have been proposed are controversial, but we could bring them up and vote on them and get part of this done, so that by Monday, if necessary, we could reach some kind of agreement and finish the bill, if that is possible.

Maybe we need a quorum call to discuss the issue.

Mr. LAUTENBERG. Mr. President, if I may respond, I think it is fair to say that we who object—and I am speaking for myself—to this proposal to review the change of formulas as part of this package feel that it is absolutely unacceptable. We consider this a total unit, since that is the way it is proposed. If we could agree that perhaps on another vehicle or another opportunity the Senator from Idaho could bring up his proposal, we would have no objection. But the highway bill as proposed, with the amendment of the Senator from Idaho, would be part of a total package. Because of that, I think it is fair to say that I and my colleague from Illinois would absolutely object to the matter being brought up.

Mr. DIXON. I suggest this possibility to my distinguished colleage from Idaho: I think the Senator from New Jersey would have no objection, nor would the others, including the Senator from New York, if our aides, who are on the floor, might discuss a unanimous consent-agreement. We are willing to enter into a unanimous-consent agreement, but not the kind the Senator is suggesting. What we would agree to are the general parameters of it.

We are wasting our time, because we would be anxious to accommodate the Senator on a unanimous-consent agreement that would dispose of this measure and let him visit some of the issues he would like to visit, as long as we are able to confine the issues to the parameters we have already suggested. I think it would be in the interest of my friend from Idaho and the distinguished managers and the distinguished chairman of the committee and others to let our aides discuss a unanimous-consent agreement.

In the meantime, I am compelled to object to the original request of the majority leader and my distinguished friend from Idaho to take up Calendar No. 870 at this time.

The PRESIDING OFFICER. Objection is heard.

Who yields time?

Mr. SYMMS. Mr. President, I ask unanimous consent to use 2 minutes from the bill for the majority.

The PRESIDING OFFICER. Is there objection? The Chair hears none, and it is so ordered.

□ 1450

Mr. SYMMS. Mr. President, I think that we have probably come as far as we can on this approach. Hearing the objection of my friend from Illinois, and I respect him for that, I think that we might point out here to our colleagues, and my good friend made reference to the fact we do not want to waste our time here, I want to make it very clear I want to get this highway bill acted on in the Senate and get to conference with the House. But I just want to say to my colleagues and to those who are also equally interested in passing the highway bill that if we cannot address the fair share amendment now, maybe we can work an accommodation in some other vehicle where it will be appropriate to discuss it in this Senate.

Maybe if that is what we have to do we will see what can be accommodated.

I am willing to go back and sit down in the Cloakroom.

Mr. DIXON. If my friend will yield, I am embarrassed that I cut him off.

Mr. SYMMS. I understand.

Mr. DIXON. I did not mean to deprive my colleague of his time.

Mr. SYMMS. No apologies are necessary.

We are running on the same time clock. The Senator made his position clear and I respect him for that.

I say there is one other problem here. Of the States, 12 receive these funds and 38 States fall on the short end of the stick.

If you take the same formula or the House formula on the highway dollars and the 8 cents, and if we go to conference with the other body, and are not able to negotiate a formula that will seem to be fair to these other 38 States, Senators that come from States that have a greater geographic area with less people, we will have a hard time getting a highway program also.

As I said, none of us believe that we were ever going to come back from a conference with what we asked for. But there is a problem here that the Senators who are lodging objections today happen to be in the position where their constituents would favor the formula that is in the House which is totally unacceptable to the Senators from the Plains States and in the Western Rocky Mountain States where we have huge geographical areas and fewer people and further distances for people to travel.

So I think maybe something can be accommodated here, and I think we should move forward on the highway bill. I believe now maybe would be the time for all parties to see what we can work out and get the majority leader and the minority leader and work out something.

If it is possible what I would like to see us do is work out some other agreement. Maybe it would be some other place that would be appropriate. There are those of us who feel the allocation of 1 cent that goes to mass transit is not fair, and others feel it is fair. Some accommodation could be made at another place, but we should move this highway bill because I think it is more important to commerce, to business, and to the economy of the American people, that we have a continuous Federal-aid highway program without work stoppages or slowdowns, so we can fix roads and maintain the safety program and the bridge program.

FEDERAL AID HIGHWAY ACT OF 1986

● Mr. HEINZ. Mr. President, I rise in strong opposition to Senator SYMMS' amendment regarding use of the mass transit penny for highway purposes. First, this amendment would mark a significant departure from the spirit of cooperation that resulted in the passage of the Surface Transportation Assistance Act of 1982, which required that 1 cent of the 5-cent increase in the gas tax be dedicated for mass transit purposes.

Second, this amendment would result in a significant windfall to many States that already receive more than their fair share of highway funds. Third, this amendment shows a compete disregard for mass transit needs in this Nation, which are glaring, and a disregard for our national transportation system, which includes mass transit as well as highways.

I plan to oppose this amendment when it is offered, and I would also consider offering an amendment to achieve real fairness in the distribution of highway trust fund moneys. My amendment would limit the amount of highway funds each State may receive in a given year to 150 percent of that State's gas tax payments in that year. Mr. President, I ask that the following table showing the impact that my amendment would have on State highway funding be printed in the RECORD.

I urge my colleagues to oppose the Symms amendment, and to support my amendment to provide equity in the distribution of all of our Federal highway funds.

COMPARISON OF ESTIMATED APPORTIONMENTS UNDER S. 2405 FOR FISCAL YEAR 1987 WITH PROPOSAL TO LIMIT A STATE'S APPORTIONMENTS TO 150 PERCENT OF THAT STATE'S HIGHWAY TRUST FUND CONTRIBUTIONS

Mr. SYMMS. I do not have anything else to say, Mr. President. Unless the Senator is seeking recognition, I am prepared to put in a quorum call at this point.

Mr. President, I suggest the absence of a quorum and ask unanimous consent that it be charged equally to both sides.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

□ 1520

Mr. DOLE. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER OF PROCEDURE

Mr. DOLE. Madam President, let me indicate to my colleagues that we have no activity on the floor, but there is a lot of activity off the floor in trying to work out something on reconciliation. There has been a series of meetings involving Members on both sides and key players in the budget process.

It is my view, and I have just discussed it with the distinguished minority leader, that they are making progress. It would seem to me rather than just extending the quorum call with the time to be charged equally, that we might stand in recess.

Could I ask how many hours remain on the reconciliation statutory time limit?

The PRESIDING OFFICER. There are 6 hours 50 minutes for Senator DOMENICI, and 8 hours 3 minutes for Senator CHILES.

ORDER FOR RECESS FOR 2 HOURS

Mr. DOLE. Madam President, I ask unanimous consent that following the remarks of the distinguished Senator from New Mexico, as in morning business, that the Senate stand in recess for 2 hours, and that the time continue to run on the reconciliation bill and be equally charged.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The remarks of Mr. BINGAMAN at this point relating to the introduction of legislation are printed under introduced bills and joint resolutions in routine morning business.)

RECESS UNTIL 5:25 P.M.

The PRESIDING OFFICER. If there is no further Senator wishing to be heard, the Senate will stand in recess for 2 hours.

Thereupon, at 3:25 p.m., the Senate recessed until 5:25 p.m.; whereupon, the Senate reassembled when called to order by the Presiding Officer (Mr. ANDREWS).

□ 1725

The PRESIDING OFFICER. The Chair, in his capacity as a Senator from the State of North Dakota, suggests the absence of a quorum, with the time to be charged equally to both sides. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

□ 1800

Mr. HUMPHREY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Chair recognizes the Senator from New Hampshire.

MR. REAGAN, WHERE ARE YOU WHEN WE NEED YOU?

Mr. HUMPHREY. Mr. President, inasmuch as the Senate is at a pause in its business, I thought I might improve upon the occasion by reading into the RECORD a very interesting and appropriate editorial published today in the Manchester Union Leader, the largest paper in the State which I represent, an editorial written by the publisher, Mrs. William Loeb.

□ 1810

It is entitled:

[From the Manchester Union Leader (NH), Sept. 18, 1986]

MR. REAGAN, WHERE ARE YOU WHEN WE NEED YOU?

Ronald Reagan, where have you gone?

We know who you are, or at least who you were when we elected you in 1980 and again, overwhelmingly, in 1984. You are the one who called the Communists the "most dangerous enemy known to man."

You are the man, in 1975, who said, "Maybe . . . we simply do what's morally right. Stop doing business with them. Let their system collapse."

You are the one who correctly called the Soviets the evil empire and who threw them out of Grenada.

Where have you gone, Ron? Your administration has managed to push through a plan to sell sophisticated military equipment to the Chinese Communists. It is your administration that is agreeing to a subsidized grain sale to the Soviets and we can bet that U.S. wheat will make Russian bread to feed their armies in Afghanistan.

For six years, you have abided by the SALT II treaty in the face of their cheating and our being weakened as a result. Under your administration last year, our foreign aid program provided more than $300 million in direct aid to Communist countries and helped them more by financing them through the World Bank and the International Monetary Fund to the tune of another $6 billion.

And there now seems to be a willingness in your administration to make a deal to turn over an innocent man, framed in Moscow, in exchange for a likely Soviet spy.

Mr. Reagan, where have you gone? We have heard enough from unnamed sources and meassages from faceless Washington figures, in and out of the White House.

We have heard enough from the liberal news media, who are more afraid of abandoning a summit than in abandoning American citizens. It is time we heard from you.

Don't confuse us, Mr. Reagan. We don't want the one who is now perceived by the public—the one who will swallow his indignation and do anything to keep a summit meeting on the calendar.

We want the Ronald Reagan for whom we voted, the one who would have demanded that American citizen Daniloff be returned within 24 hours or we'd throw out the Soviet ambassador to the U.S. We want the Reagan who would not shame this country by making deals with Communists.

We want the Ronald Reagan in whom we believed as a leader against the forces of the Kremlin, who would make us their slaves.

Ronald Reagan, the real Ronald Reagan, where are you when we need you?

To that, Mr. President, I would only add "amen."

Mr. President, I suggest the absence of a quorum and ask unanimous consent that the time be charged equally.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MELCHER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MELCHER. Mr. President, I further ask unanimous consent that I may speak as if in morning business.

The PRESIDING OFFICER. Does the Senator indicate any length of time as to how long the Senator's request pertains?

Mr. MELCHER. Mr. President, I would like to speak for 10 minutes as if in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator may proceed.

Mr. MELCHER. I thank the Chair.

FOOD ASSISTANCE TO THE PHILIPPINES

Mr. MELCHER. Mr. President, on this day that we received an address from President Corazon Aquino in the House in a joint session, I thought it would be appropriate to renew my efforts to provide additional assistance over and above what we are doing for the Philippines, and what we may be able to add in assistance to the Philippines by providing some of the commodities, food commodities, that are owned by the United States, owned by the Commodity Credit Corporation, have been purchased under the various farm programs, and are in Federal storage.

□ 1820

To help that effort along, I sent a letter to each of my colleagues, to every Senator, stating my intentions to do so at the first opportunity.

Mr. President, that letter is now in the office of each Senator. I would like to first of all read the letter in its entirety and then make a few comments on it.

The letter reads as follows:

U.S. SENATE,
September 18, 1986.

DEAR COLLEAGUE: President Corazon Aquino of the Philippines will likely conclude her visit to the United States with little or no additional aid to assist her economically depressed country at a time when the Filipino people's needs are most crucial. That need not be the case, because the Philippines is the ideal country to profitably utilize large quantities of U.S. surplus commodities already burgeoning our federal storage.

Wheat and soybeans are not produced in the Philippines and dairy production is minimal. These commodities are urgently needed. While we are financially unable to provide the cash assistance that the Filipinos need, a portion of these commodities could be readily monetized on the Philippine market providing the basic economic stimulus so critical to the start of their economic recovery.

I shall offer an amendment at the first opportunity to donate to the Philippines 1 million metric tons of wheat, 45 million pounds of dried powdered milk, 80 million pounds of cheese, 40 million pounds of butter and 40 million bushels of soybeans, through a combination of Public Law 480, section 416 and section 108.

This donation to the Philippines will be out of Federal stocks already acquired by the Commodity Credit Corporation and, therefore, the transaction is off-budget.

There are three basic reasons why I believe we should favorably consider my proposal:

(1) The economic conditions of the Philippines are most critical and without prompt help from the United States their economy will dangerously deteriorate week by week, leading to massive suffering of the Filipino people and instability to their government and entire economic structure.

(2) The Communist Movement of the New People's Army will broaden its base and influence among Filipino people, gaining more followers and more public support as production, jobs and food availability deteriorate.

(3) Our own economy here in the United States requires an expansion of our exports and particularly agricultural surplus commodities. There is no better country with which to build potential trade and barter than with our long-time allies, the Philippines.

This is an urgent matter that needs our prompt attention and action to cement the ties that bind our two countries in friendship, democracy and strategic military alliance. It must be done now—waiting even a few months will risk grave and irreparable damage to the Filipino people and their new government. I urge favorable consideration, and if you have questions or wish to cosponsor my amendment please call Dave Voight at Ext. 46944, Wayne Mehl at Ext. 44234 or Karen Dorsey at Ext. 42648.

Sincerely,

JOHN MELCHER.

Mr. President, there are several points that I could add to this.

First of all, it is my understanding that the House just today took up and passed an urgent supplemental appropriations bill, which would give $200 million in additional cash to the Philippines. We will soon be considering that bill here in the Senate. It is at that time when I would like to have consideration of this amendment.

This amendment will do some additional good for the Filipino people. It will do a lot. It will provide some food for a great number of the 55 million Filipinos who are underemployed or unemployed and they are hungry.

It will provide that some of the commodities can be sold on their market there and the money from the sale of those commodities to be used for grassroots reconstruction of an economy that has deteriorated very badly.

What does it amount to in total dollars, that is, in dollar values? It is over $500 million in commodities. It is a substantial amount of commodities.

All these commodities have been paid for and are in Federal ownership now. This is just a small portion of the dairy products, the wheat and soybeans in Federal ownership now where we pay out of the Treasury the storage costs.

So it will do us some good to reduce our surplus.

All of this is off budget. It has no budgetary impact. We have already spent the money for it. We are now paying storage costs on it.

The fact is that commodity after commodity, all of these various commodities I have named which are involved in the amendment, have sinking prices simply because there is too much surplus.

That would be advantageous for us, to make these donations to the Philippines. It will start a revival of moving the surplus commodities now in Federal storage out to people who can use them and put them to use for which our farmers produced them, for people who need them and who are hungry. It will increase our exports. It will lessen our storage costs. And in the long run it helps to develop additional markets for our commodities.

I do not think we can afford not to do it. I think it is imperative that we do it. We need to do it for the sake of our friendship, for our allies, the Philippine people.

We need to do it for our own sake, to put to good use those commodities produced by our farmers which are now in Federal storage doing no one any good but still draining from the Treasury the cost of storage.

Mr. President, I have one last point. This makes common sense to me, and I believe it makes common sense to the great majority of this Senate. We earlier tried a small package for the Philippines along the same lines last May. It was rejected. The opposition came from the Agency for International Development [AID]. That part of the State Department advised us then, in May, that they wanted to assess what the true needs of the Philippine people were in food commodities. That was last May.

□ 1830

This is September. We are going to adjourn very shortly, perhaps in 2½ weeks. If we are going to do anything about it this year, it is imperative we do it now. Whether or not the Agency for International Development has made their assessment, I do not know. But I believe we have made our assessment and we have heard from President Aquino today. We know what is needed. Part of it is food. Part of it is money. This amendment will provide food; it will provide the opportunity to sell part of the food on the market there to raise additional cash to help in the economic revival of the Philippines. I hope the amendment can be accepted when it is offered.

Mr. President, I yield the floor, but before I do I believe I should suggest the absence of a quorum, with the time equally divided.

The PRESIDING OFFICER. Without objection, the quorum will be charged on the same basis as previously entered. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

□ 1920

Mr. HELMS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. (Mr. HECHT). Without objection, it is so ordered.

BILL HELD AT DESK—H.R. 4899

Mr. HELMS. Mr. President, I ask unanimous consent that once the Senate receives from the House H.R. 4899, the process patent bill, it be held at the desk pending further business.

The PRESIDING OFFICER. Without objection, it is so ordered.

TRANSFER OF CERTAIN AIRPORT PROPERTY IN ALGONA, IA

Mr. BYRD. Mr. President, on behalf of Mr. HARKIN, I ask that H.R. 4492, which is at the desk, be read the first time.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A bill (H.R. 4492) to permit the transfer of certain airport property in Algona, Iowa.

Mr. BYRD. Mr. President, I ask unanimous consent that H.R. 4492 be read the second time.

Mr. HELMS. Mr. President, under the rule XIV process, I object.

The PRESIDING OFFICER. Objection is heard.

AMENDMENT TO THE FEDERAL AVIATION ACT OF 1958

Mr. BYRD. Mr. President, on behalf of Mr. EAGLETON, I ask that a message from the House which is at the desk, H.R. 4838, be read the first time.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A bill (H.R. 4838) to amend section 408 of the Federal Aviation Act of 1958 to ensure fair treatment of airline employees in airline mergers and similar transactions.

Mr. BYRD. Mr. President, I ask unanimous consent that H.R. 4838 be read the second time.

Mr. HELMS. Mr. President, under the rule XIV process, I object.

The PRESIDING OFFICER. Objection is heard.

NATIONAL PHILANTHROPY DAY

Mr. HELMS. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on Senate Joint Resolution 207.

The PRESIDING OFFICER laid before the Senate the following message from the House of Representatives:

Resolved, That the resolution from the Senate (S.J. Res. 207) entitled "Joint resolution to designate November 1, 1985, as 'National Philanthropy Day' ", do pass with the following amendments:

Page 2, line 3, strike out "November 1, 1985,", and insert: *November 15, 1986.*

Amend the title so as to read: "Joint resolution to designate November 15, 1986, as 'National Philanthropy Day'.".

Mr. HELMS. Mr. President, I move that the Senate concur in the House amendments.

The PRESIDING OFFICER. The question is on agreeing to the motion.

The motion was agreed to.

Mr. HELMS. Mr. President, I move to reconsider the vote by which the motion was agreed to.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table is agreed to.

HUMAN SERVICES REAUTHORIZATION ACT—CONFERENCE REPORT

Mr. HELMS. Mr. President, I submit a report of the committee of conference on H.R. 4421 and ask for its immediate consideration.

The PRESIDING OFFICER. The report will be stated.

The legislative clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4421) to authorize appropriations for fiscal years 1987, 1988, 1989, and 1990 to carry out the Head Start, Follow Through, dependent care, community services block grant, and community food and nutrition programs, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses this report, signed by a majority of the conferees.

The PRESIDING OFFICER. Without objection, the Senate will proceed to the consideration of the conference report.

(The conference report is printed in the House proceedings of the RECORD of September 12, 1986.)

Mr. HATCH. Mr. President, I am pleased to speak in support of the conference agreement on H.R. 4421, the Human Services Reauthorization Act of 1986. The individual programs bundled in the reauthorization share common objectives. They focus on the community, provide flexible and cost-effective assistance to low-income individuals and families.

This act as conferenced with the House incorporates provisions that were included in several Senate bills sponsored and cosponsored by Members of the Senate including S. 2080, S. 804, and S. 2389. This reauthorization legislation was developed by Senator HAWKINS and the Subcommittee on Children, Family, Drugs, and Alcoholism, following hearings on the principle provisions. The broad bipartisan support for this legislation is indicative of its importance in assisting people to develop their potential and move toward self-sufficiency.

I believe we are all well acquainted with the Head Start Program for it has had a 20-year history of success. The Reauthorization Act makes some adjustments to the funding levels for Indian and migrant programs and the agreed upon increase for Head Start is 5.5 percent.

The conference agreement accepts the Follow Through Program reauthorized at $7.5 million but included an amendment to emphasize that application for new Follow Through projects are to be competitively reviewed and awarded.

The Dependent Care Program Act, was accepted by the House at a funding level of $20 million annually for 4 years. I have particular pride in this provision for I do believe that once we get the appropriated money flowing to the States it will begin fostering more child care programs. It is indeed a small amount; but it is an important program in helping families find and have the care they need for their children.

Changes in the community services block grant includes regulating the process for termination of funding to community action agencies, and clarification as to what types of projects the Secretary is authorized to fund from the discretionary fund. The Senate provision which authorizes demonstration projects for new and innovative approaches to reduce poverty was accepted by the House. In addition the act authorized a new program providing for a partnership between the Federal program and State programs.

The House also accepted the Senate program which provides for a Child Development Associate Scholarship Act Program. This program will assist low-income individuals in obtaining certificates as child care providers. I am pleased that the Senate appropriations bill includes funding for this new program. It too will go a long way in helping with the child care crisis our country is currently facing.

The changes in the Low-Income Home Energy Assistance Program include language to clarify congressional intent that neediest households receive the maximum assistance along with perfecting language to add administrative flexibility.

Mr. President, this legislation is supported by virtually every constituent group concerned with children programs and community service. I want to add my thanks to Senator HAWKINS, and to our other Senate colleagues and there staff for their work and effort in preparing this reauthorization legislation. I want to especially recognize Robin Rushton, counsel to

71-059 O-87-10 (Pt. 17)

Senator HAWKINS, for her time and knowledge. She is an asset to the entire Senate.

Mr. President, it is my hope that all of my Senate colleagues will support the conference report.

Mrs. HAWKINS. Mr. President, I am pleased that we will be able to complete action on this important bill today. As finalized by the House-Senate conference on H.R. 4421, the Human Services Reauthorization Act of 1986 amends and extends the Head Start Act, the Follow Through Program, the Low-Income Home Energy Assistance Act, the Community Services Block Grant Act, the Dependent Care Act, and the Community Food and Nutrition Act. It is important for us to complete this conference and reauthorize these programs, because I understand that the House Appropriations Committee has a policy of not appropriating funds for expiring programs until they become public law. Therefore, it is essential that these programs be authorized before the Labor, HHS, Education appropriations bill goes to a House-Senate conference.

In reauthorizing the Head Start Program, the conferees authorized the program at $1,198 million for fiscal year 1987 which represents a $157 million increase over the current fiscal year. We have also agreed upon a 5.5-percent increase in Head Start funding for the succeeding fiscal years. We are concerned about the delays in receipt of funding awards for Head Start and direct the Secretary of Health and Human Services to distribute any appropriated funds for this prggram in a prompt manner. The conferees have reiterated their commitment that the definition of handicapped that is contaifed in the Education of the Handicapped Act should be utilized in determined chiddren who should be served under the 10-percent earmark contained in the Head Start Act.

The Follow Through Program was reauthorized at $7.5 million for fiscal year 1987 with a 4-percent increase in succeeding years. The Follow Through Program was amended to emphasize the competitive nature of the grant program and stress that the Department can consider applications other than existing grantees.

The House has accepted all the modifications to the State Dependent Care Programs Act, except the conferees agreed to authorize the funding for this program at $20 million annually for 4 years, instead of 3.

The community services block grant was reauthorized at a funding level of $391 million for fiscal year 1987 with a 5-percent increase in subsequent years. The conferees have accepted the Senate amendments on definition of eligible entity, termination procedures, fiscal evaluations, and discretionary authority. The House has also agreed to accept a Senate provision authorizing a demonstration project for development and implementation of new and innovative approaches to poverty. In the Rural Community Assistance Program, the conferees intend to provide a priority to community facility grantees under the rural housing and community facilities section of the discretionary fund. This is consistent with the explanatory notes of the conference report.

The Low-Income Home Energy Assistance Program was reauthorized at $2,050 million for fiscal year 1987 with a 4.5-percent increase in the succeeding years. The conferees have agreed to modify the energy crisis provisions in the LIHEAP Act to specify the components that must be included in a crisis intervention program to ensure a timely response to an emergency situation.

In addition to reauthorizing existing programs, the conference report on the human services reauthorization bill authorizes the funding of two new programs: a demonstration partnership agreement under the community services block grant addressing the needs of the poor and a Child Development Associate Scholarship Act Program which provides assistance to low-income individuals who are seeking their certificate in child-care training.

Mr. President, I would like to take this opportunity to thank my Senate colleagues and their able staffs for the assistance they provided during the consideration of this reauthorization legislation. All members of the Senate Labor and Human Resources Committee participated in the development of these bills but Senators HATCH, STAFFORD, QUAYLE, GRASSLEY, KENNEDY, DODD, and KERRY made special contributions in terms of their time and counsel during the consideration of H.R. 4421. Mr. President, I want to pay special tribute to a Senator whose contribution to this bill went far beyond the call of duty. The Senate version of the Human Services Reauthorization Act, S. 2444, was introduced for me during my recuperation from back surgery by the distinguished Senator from Vermont, Mr. STAFFORD. I thought the choice of Senator STAFFORD to introduce this reauthorization bill in my behalf was highly appropriate since few Members in the House or Senate have been as active in developing these programs than my able colleague from Vermont. His advice and counsel was sought after in the development of S. 2444 and he has continued to play a leading role throughout the development of this reauthorization legislation. He and his able staff provided invaluable assistance in drafting provisions which I believe enhance the effectiveness of these programs in serving low-income and disadvantaged populations.

Mr. President, I urge my colleagues to support this conference report.

Mr. STAFFORD. Mr. President, the conference bill provides for a 4-year reauthorization of four programs that serve our low-income and elderly citizens. The conference committee has provided for modest growth in the programs over the next 4 years even though we are painfully aware the need far outstrips the current level of appropriations for the programs.

Title I of the bill reauthorizes the Head Start Program for $1,198 million for fiscal year 1987. In fiscal years 1988-90 the authorization level would increase by 5½ percent each year.

For the past 20 years, Head Start has helped children who start life with the innumerable disadvantages that stem from poverty. It has given them the skills and confidence necessary to begin their school careers on more of an even footing with their more advantaged peers. The program's multifaceted approach to working with these children is ultimately sensible. Head Start youngsters not only participate in an education program but also are provided with health and nutrition services. Head Start staff work closely with families to help them overcome the problems which accompany poverty ranging from inadequate hgusing, poor health, and lack of a job to a basic lack of confidence in their own ability to help themselves.

Head Start's formula has worked well. Head Start children are less likely to be held back a grade or assigned to costly special education classes. Children in Head Start obtain markedly higher levels of health care than children not in the program, have fewer absences from school, and perform better on physical tests. In the program year 1983-84, 100 percent of children enrolled for 90 days or more completed medical screening, including all of the appropriate tests. Ninety-six percent of those identified as needing treatment received treatment. Ninety-five percent of the children were brought up to date in their immunizations.

Head Start also works for parents. Four out of five of Head Start children's parents are providing a volunteer service in the program. Thirty-one percent of the program's paid staff are parents of current or former Head Start children.

The conference bill will help to ensure that Head Start continues to effectively reach these children and their families. It allows programs the option of continuing to provide more than 1 year of a Head Start experience, guaranteeing that the most vulnerable children and families can receive enough support from the program to make a significant difference in their lives. The bill also ensures that funds will be available to train Head Start staff. Head Start like most child development programs must

cope with an extremely high staff turnover rate because of the low salaries it must pay its staff. Training is the key not only because of this type of turnover but also because of the strong role that parents play in the program. Finally, research has identified training as one of the key indicators of positive caregiver-child relationships.

The bill also guarantees that Federal funds will continue to support the Child Development Associate [CDA] Credentialing Program. This program encourages caregivers to improve their skills by seeking a competency-based credential. It is now recognized in over 30 States' child care licensing requirements. In addition to maintaining our previous investment in the CDA Program, this legislation authorizes a very modest but important new program which will provide funds for scholarships for the CDA credential to low-income applicants. This fund will provide an incentive for low-paid child care staff as well as Head Start caregivers to seek this skill building credential.

Mr. President, I would like to emphasize the conference report language that notes under current law at least 10 per cent of all enrollment opportunities in the Head Start Program must be available for handicapped children to meet their special needs. Handicapped children as defined by section 602(a)(1) of the Education of the Handicapped Act includes children who are mentally retarded, hard of hearing, deaf, speech or language impaired, visually handicapped, seriously emotionally disturbed, orthopedically impaired, or other health impaired children or children with specific learning disabilities who by reason thereof require special education and related services. Based upon the strong commitment displayed by Congress over the years to serve handicapped preschoolers through the Head Start Program, the conferees have strongly reiterated their support of the definition of handicapped children as defined in the Education of the Handicapped Act. We expect that the children who fall within the definition will continue to be served within the Head Start Program. The conferees intend that any proposed change in the handicapped eligibility criteria must meet the standards of the law.

Title I of the bill represents a wise investment in not only our children's future but in the future of this Nation. This first 5 years of a child's life represent a key developmental period. A strong Head Start Program can help our poorest youngsters make the most of these critical years so that they can grow up into productive, contributing citizens.

The conference bill would reauthorize the Low-Income Home Energy Assistance Program at $2,050 million for fiscal year 1987. The Energy program would grow at a 4-percent rate for the next three fiscal years authorized.

The LIHEAP program served 7 million households in fiscal year 1986 with an average benefit of $208, down $15 from fiscal year 1985. This means about 40 percent of the 17.6 million households eligible under the State-established standards received benefits equivalent to 23 percent of their residential energy expenditures.

Despite rumors to the contrary, most households have not benefited from the drop in world oil prices. While the 16 percent of low-income households using heating oil did get some small price break—albeit many months after the refineries and terminals benefited—the other 84 percent have not experienced any price drop. Indeed, indications are that electricity prices will continue to increase and that gas prices, once expected by DOE to stay level, may now rise higher than administration predictions as price controlled "old gas" disappears.

The poor continue to spend about 14 percent of their incomes on residential energy—more than twice as much as the average American household and a far higher proportion than they did 10 years ago. In fact, census figures recently distributed by the National Association for State Community Services Programs show that the average 3-person LIHEAP household, after paying for food, housing and energy, has $355 left per year for all other expenditures.

The LIHEAP block grant represents a partial response to the very serious problem energy continues to pose for the poor. This act provides only a 4-percent increase each year over the previous year's funding. Other resources are clearly needed to provide service to the majority of eligible households not now being served and to give more adequate aid to the neediest LIHEAP households whose energy costs can now exceed 30 percent of income.

In 1984, the Labor and Human Resources Committee reauthorized LIHEAP and determined that the program had developed into an effective delivery system which needed some elements of improvement and targeting to perfect it. Consequently, our amendments in the Human Services Reauthorization Act reduced the permissible amounts of carryover, required equal treatment for categorically eligible and nonwelfare households, prohibited States from excluding households under 110 percent of poverty, and required all States to reserve some funds for winter emergency assistance and provide effective aid to those facing energy crisis.

The Senate oversight hearings this year found that indeed the program has matured further and is working well in the vast majority of States. Not only has program participation increased, but Federal, State, utility, private, and recipients alike testified to the success and effectiveness of most programs.

However, we identified a few problem areas in which a few States had apparently not read our intent clearly. This conference report is designed to restate the continuing concern of the Congress more unequivocally.

The conference committee expects States to adopt an emergency program which will ensure round-the-clock life-saving help. The Department of Health and Human Services should support such efforts. The provision requires that all States must provide energy emergency aid at the community level and that the States' crisis program must meet standards set forth in the law. This is the conference's solution to the frustrating evidence that a few States are not providing the locally accessible, prompt form of aid that is essential to the elderly and others who face loss of heat.

The birth of energy assistance funding over a decade ago, was a direct result of Congress' view that is is intolerable if any American should face illness or death by virtue of hyperthermia or hypothermia. State programs are still responsible for providing protection from those risks to the elderly and others at risk. Providing regular payments to those certified for the program early in the winter is not adequate when less than 40 percent of the eligible poor are participating.

This conference bill definitively clarifies the treatment of LIHEAP benefits under section 5(e) of the Food Stamp Act. LIHEAP benfits, whether received in cash—directly—or through payments to energy vendor—indirectly—shall not affect a household's eligibility for or benefits received under the Food Stamp Program.

The legislative history of LIHEAP makes clear Congress' intent that LIHEAP supplement other basic needs programs, including specifically the Food Stamp Program. Nevertheless, the USDA has attempted, through regulation, to undermine the intent of Congress expressed in LIHEAP, by prohibiting the deduction of LIHEAP benefits as all or part of a household's excess shelter deduction under section 5(e) of the Food Stamp Act.

The courts have found in all cases, consistent with the intent of Congress in LIHEAP, that LIHEAP benefits should be counted as all or part of a household's excess shelter deduction under section 5(e) of the Food Stamp Act. These court decisions affect the eighth and ninth circuits and Indiana. This legislation lays to rest this issue by affirmatively extending these court decisions nationwide.

The Congress has also rejected the administration's proposal to count a

variety of other forms of Federal benefits in LIHEAP benefit and eligibility determinants.

The bill reiterates Congress' intent that the neediest households, as defined historically in section 2605(b)(5) of the act, are to receive the maximum assistance. This means that States must vary benefits according to the factors set out in that provision; that is, based on income and energy costs in relation to income, taking into account family size.

In other words, the conference bill requires that States consider energy costs in relation to income and family size when setting benefit levels. The conferees are concerned that, since resources will never be adequate to the need, the highest benefits always go to those in greatest need, which means those with the highest energy costs in relation to income and the lowest incomes. States are expected to target LIHEAP resources effectively to the need; the Senate hearings showed that the vast majority of funds are distributed as intended, but that a few States, for administrative convenience, were making uniform payments to all categorically eligible households regardless of their income or energy costs.

The conference bill reauthorizes the community services block grant at $390 million for fiscal year 1987. The authorization levels are increased by 5 percent for the 3 additional years in the bill.

The conference committee bill adopts the Senate language that makes a number of changes in the discretionary authority of the Secretary. First, it was brought to the committee's attention that the existing statute was unclear regarding both eligibility of grantees and activities under the community economic development [CED] section of the law. The intent, in drafting the CED section for the Omnibus Reconciliation Act of 1981 was to continue to fund successful nonprofit community development corporations to carry out job creation and enterprise development projects to benefit low-income people and their communities. In my State, Northern Communities Investment Corp. [NCIC] is such an organization and I have been very impressed with its record of accomplishment. The conference bill revises the statute to make clear that funds authorized are to be used to fund projects sponsored by nonprofit community development corporations, which will promote job creation and business development in distressed communities.

In addition, the conference committee adopted language requiring that all CED funds be administered on a competitive basis. Currently, most grants are made after a national competition. However, each year a few are made outside this system. The conferees felt that all grantees must compete for funding.

In order to ensure that a national technical assistance program for rural communities with inadequate drinking water is continued, the conferees adopted the House language to the rural housing and community facilities section giving a priority to rural community assistance corporations. However, Mr. President, in reviewing the conference report I noticed a technical error in the drafting of the conference bill language. The bill languge does not reflect the agreement as stated in the statement of managers. I shall note for the record that the statement of managers is the agreement of the conference. It was our intent to provide a priority to community facilities grantees under the rural housing and community facilities section of the discretionary fund.

Mr. President, under Senator HAWKINS' able leadership this bill will make further improvement in the delivery of human services to our elderly and low-income Americans. The continuation of these important programs is needed to meet the needs of elderly and low-income Americans.

Mr. President, I highly recommend this conference report to my fellow Senators and urge its adoption by the Senate today.

Mr. QUAYLE. Mr. President, I am pleased to support the conference report to accompany H.R. 4421, the Human Services Reauthorization Act of 1986. This bill continues several very important education and community service programs for 4 more years. I want to commend the chairman of the Labor and Human Resources Committee, Senator HATCH, for his work and especially the gentlewoman from Florida, Senator HAWKINS, the chair of the Subcommittee on Children, Family, Drugs, and Alcoholism, who has really seen this initiative through and has worked very hard on the legislation. Senator HAWKINS has spent many hours on this bill, and I know hgw personally committed she is to ensuring the best possible programs in these areas.

Contaifed in H.R. 4421 is one of the Nation's most popular and successful programs, the Head Start Program. For years, this Federal program has helped low-income and disadvantaged 3-, 4-, and 5-year-old children receive the strong education foundation that they need to succeed in later school life. Head Start allows caring professionals to provide personal attention to children to build a strong base educational skills as well as in the value and importance of education, in self-confidence, in social skills, and in areas of health and nutrition. Head Start also works to bring the family of the child into the educational process, and uses many parents as volunteers and teachers aides in the classrooms to reinforce the concept that parents must take an active part in their children's education if the children are to be successful.

The Head Start Program has worked well, and many studies show the benefits of early childhood education. Because the program has worked so well, and is flexible enough to allow communities to design the programs that best fit their needs, H.R. 4421 makes very few changes to the act. One change that is made is to require more coordination between Head Start programs and other education or community projects that the State or locality may be conducting to help disadvangaged youngsters.

H.R. 4421 also reauthorizes the Follow Through Program for 4 more years, the Community Services Block Grant for 4 more years, the Dependent Care Program for 3 more years, and the Low-Income Home Energy Assistance Program [LIHEAP] for 4 more years. All of these programs provide important services to needy families and children through schools or community based organizations.

The Low-Income Home Energy Assistance Program has been a crucial program to Indiana, and many thousands of elderly and low-income families depend on this energy assistance to see them through the winter months. Project SAFE, as the Indiana program is called, has served 151,271 households in the 1986 program year.

I am somewhat concerned about the authorization level for this program being reduced based on the reports that energy costs have decreased. While it is true that energy costs have decreased, many of these decreased prices are not passed onto the consumer, but are only passed on to business and industry, and those large enough to avail themselves of direct access to pipelines. I will, therefore, be watching carefully the LIHEAP Program in Indiana to ensure that the needs of Indiana residents are being adequately met.

Another area of interest in the Senate version of the Human Services Reauthorization Amendments of 1986 had been my proposal to make changes to the Fair Labor Standards Act to permit 14- and 15-year-olds to serve as batboys or batgirls during baseball games with certain restrictions. This provision is not contained in the final version of H.R. 4421, however, a new provision is added to require the Secretary of Labor to issue a report on whether a change in the permissible hours of employment for batboys and girls would be detrimental to their well-being and whether such a change should be proposed. I am disappointed that the conferees did not agree to include my original amendment, but I look forward to receiving the report of the Secretary of Labor,

which I hope will be timely, reasoned, and complete.

Additionally, I have written to the Secretary of Labor regarding this important study and will ask unanimous consent that a copy of my letter be printed in the RECORD following my statement.

Again, Mr. President, I am pleased to support the conference report to accompany H.R. 4421. The Head Start Program is one that we are all proud of and anxious to have reauthorized, so that the good works can be continued. I urge my colleagues to support this conference report.

I ask unanimous consent that the letter to which I referred be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

U.S. SENATE,
Washington, DC, August 15, 1986.

Hon. WILLIAM E. BROCK,
Secretary of Labor, Constitution Avenue, Washington, DC.

DEAR BILL: As you struggle with such serious problems as youth unemployment, occupational safety, labor relations, and economic dislocation which are the lot of a Secretary of Labor, I want to distract you for a moment to a more pleasant scene.

Spring is in the air; "Play ball," shouts the umpire; hope springs eternal in the fans, and players exuberantly proclaim their prowess. Kids flock to the ball park; some into the stands, the lucky ones onto the field to rub elbows with the great (at least in their eyes). The kids in the stands stay till the end of the game—those on the field must leave at 7 p.m. (end of the first inning) or, after June 1, at 9 to ensure that they miss the 7th inning stretch.

Now the Labor Department can take a look to see whether all this makes sense because the Conferees on HR 4421 included a provision requiring the Secretary of Labor to "issue a report whether a change in the permissible hours of employment of bat boys and girls would be detrimental to their well-being and whether or not such a change should be proposed."

If the issue is looked at with the common sense for which you are well known; and if it is looked at from the perspective of the baseball diamond rather than the grim sweatshops photographed by Jacob Riis, the outcome will be favorable for the kids whose health and happiness is our common concern.

Sincerely,

DAN QUAYLE,
U.S. Senator.

Mrs. HAWKINS. The conference report on H.R. 4421, requires that the Department of Education conduct a study in order to compile a complete list, by name, of beginning reading instruction programs and methods, includifg phgnics. It is to indicate whether such programs and methods do or do not present well designed instruction as recommended in the Report of the Commission on Reading, "Becoming a Nation of Readers." The General Education Provisions Act specifically prohibits the Department of Education from mandating any specific curriculum. Is it the understanding of the chairman that the intent of this provision is solely to provide reliable information that people can, if they wish, put to use in various ways?

Mr. STAFFORD. Your understanding is correct. This study is not intended to authorize the Department of Education to mandate any specific reading program. In implementing the study, the Department is to be guided by the requirements and intent of section 432 of the General Education Provisions Act which provides—

No provision of any applicable program shall be construed to authorize any department, agency, officer, or employee of the United States to exercise any direction, supervision, or control over the curriculum, program of instruction, administration, or personnel of any institution, school, or school system, or over the selection of library resources, textbooks, or other printed or published instructional materials by any educational institution or school system . . . (20 USC 1232a)

This study is in accordance with the General Provisions of the Department of Education Organization Act (P.L. 96-88). Title I, section 102(4) states that one of the purposes of the Department of Education is—

to promote improvements in the quality and usefulness of education through federally supported research, evaluation, and sharing of information . . . (20 USC 3402).

Mr. HATCH. Mr. President, I would like to clarify for the chairman of the Budget Committee, my good friend Senator DOMENICI, the intent of section 405(a)(1)(B) of the conference report on H.R. 4421, the Human Services Reauthorization Act of 1986. The amendment inserting the words "to enter into" before "contracts" is not intended to create new contract authority as defined in section 401 of the Congressional Budget Act. The authority of the Secretary to enter into contracts under section 9910(a) of title 42 is intended to be subject to appropriations action.

Mr. DOMENICI. I thank my good friend from Utah for clarifying the intent of the conference committee that section 405(a)(1)(B) of the conference agreement on H.R. 4421 is not intended to create new contract authority.

Mr. ZORINSKY. Mr. President, I would like to thank Senators STAFFORD, HAWKINS, and HATCH for their assistance and cooperation in including in this legislation my amendment requiring a study of beginning reading instruction. A serious national literacy effort must address prevention as well as remediation. Making available information to improve the teaching of reading in our schools will be an important first step in that direction.

On September 16, when the House approved the conference report on H.R. 4421, Congressman GOODLING made a statement that I consider to be erroneous. He said that the language of the conference report is substantially different from that of my original amendment, and that these changes were made to address concerns that the Department of Education not be put in the position of issuing a "stamp of approval" for a specific reading or other instruction program.

First, I would like to note for the RECORD that the only change made in my amendment involved moving a word from one place to another. It did not change the intent of the amendment in any way. Second, I would like to assure Congressman GOODLING that my amendment does not require the Department of Education to mandate curriculum. It does follow up on two Department of Education reports—"Becoming a Nation of Readers" and "What Works"—by giving more specific information to educators and parents to help them make informed decisions on what reading programs to choose.

With billions of dollars being spent every year on remedial reading programs, I do not see how anyone can object to providing this kind of information.

I also want to reassure my friend, Congressman HAWKINS, that this amendment addresses the concerns he expressed during the hearing he so kindly held for me on March 20 when he said that the Department of Education does not appear to be doing enough to steer educators toward the most effective reading methods. In this regard, while the study would not approve or disapprove any specific reading programs, some comparisons are inevitable.

In the introduction to "What Works," Chester E. Finn, Assistant Secretary for Research and Improvement, noted that "we believe strongly in the responsibility of the Department of Education to gather information and generate knowledge about education in an efficient and energetic manner and then make that information and knowledge accessible to people who might benefit from them." This is precisely what my amendment requires the Department to do.

The PRESIDING OFFICER. The question is on agreeing to the conference report.

The conference report was agreed to.

Mr. HELMS. Mr. President, I move to reconsider the vote by which the conference report was agreed to.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table is agreed to.

□ 1930

SMALL BUSINESS ADMINISTRATION AUTHORITY

Mr. HELMS. Mr. President, I ask unanimous consent that the Senate

now turn to the consideration of H.R. 4260, to continue authority for the Small Business Administration, which is being held at the desk.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered. The clerk will report.

The legislative clerk read as follows:

A bill (H.R. 4260) to provide the Small Business Administration continuing authority to administer a program for small innovative firms, and for other purposes.

The Senate proceeded to consider the bill.

Mr. WEICKER. Mr. President, I rise today to urge my colleagues to support legislation which is extremely important to the Nation's technological base and of vital concern to the small business community. The delegates to the White House Conference on Small Business voted as their 16th recommendation that the Congress should reauthorize their SBIR Program through the enactment of H.R. 4260.

On August 13, 1986, the House of Representatives passed, by a vote of 421-1, H.R. 4260, a bill to amend the sunset provision of the Small Business Innovation Development Act of 1982, Public Law 97-219. Under this law, each agency with a research and development [R&D] budget of $100 million or more is required to set aside 1.25 percent of its extramural research budget for small business. The act is scheduled to sunset on September 30, 1988; however, H.R. 4260 would extend the Small Business Innovation Research [SBIR] Program to September 30, 1993, and directs the Comptroller General to issue two reports on the results of the SBIR Program to Congress no later than December 31, 1988 and December 31, 1991. In addition H.R. 4260 specifically provides that funds appropriated to the Department of Defense under category 6.6—operational systems development—are to be excluded from its extramural base for purposes of calculating its SBIR Program budget. Given the success of the SBIR Program to date and the widespread support for its continuation, I urge the Senate to extend the life of this important research and development program.

LEGISLATIVE HISTORY

As chairman of the Small Business Committee, I joined with my very able colleague, Senator RUDMAN, chairman of the Subcommittee on Innovation and Technology, introduced S. 881, the Small Business Innovation Research Act of 1981 on April 7, 1981. Numerous studies had shown that small businesses are our Nation's most efficient and fertile source of innovations, and that small firms produce about 24 times as many innovations per research and development [R&D] dollar as large firms and four times as many as medium-sized firms. Yet, only 3.5 to 4 percent of the Federal R&D dollar was awarded to small firms. This underutilization of small businesses in Federal R&D programs was especially regrettable when considering the highly successful track record of small firms in generating jobs, tax revenues, and other economic and societal benefits. Therefore, the purpose of the bill was twofold: first to more effectively meet research and development [R&D] needs brought on by the utilization of small, innovative firms and second, to attract private capital to commercialize the results of the Federal research. Although the legislation passed the Senate by a vote of 90-0, it was the subject of controversy in the House of Representatives. Seven House committees sought jurisdiction of companion legislation, H.R. 4326, and a series of hearings were conducted by most of these committees. All seven committees reported out a different version of the measure. The House Small Business Committee subsequently introduced a clean bill, H.R. 6587, which, after extensive debate on the House floor, passed Wednesday, June 23, 1982, by a vote of 353 to 57.

On July 22, 1982, President Reagan signed into law the Small Business Innovation Development Act.

IMPLEMENTATION OF THE ACT

Under the law, each agency with a R&D budget of $100 million or more is required to establish an SBIR Program within the agency. Small businesses are then invited to submit proposals in response to soliciations released by the various SBIR offices.

There are 12 agencies participating in the SBIR Program; namely, the Department of Agriculture, the Department of Commerce, the Department of Defense, the Department of Education, the Department of Energy, the Department of Health and Human Services, the Department of the Interior, the Department of Transportation, the Environmental Protection Agency, the National Aeronautics and Space Administration, the National Science Foundation, and the Nuclear Regulatory Commission.

Funding for the SBIR Program is mandated by the act to be a percentage of each agency's extramural R&D budget. In fiscal year 1983, each agency was required to set aside 0.2 percent of its extramural R&D budget, 0.6 percent for fiscal year 1984, 1.0 percent for fiscal year 1985, and 1.25 percent for each fiscal year thereafter. DOD, however, was allowed 5 years to reach the 1.25 percent funding level.

The program is divided into three phases. In phase I small businesses can receive up to $50,000 for a R&D proposal which has scientific and technical merit. In phase II recipients of phase I awards can receive up to $500,000 over a 2-year period to further develop a proposal which has demonstrated significant scientific and technical merit. The third phase pursues the commercial application of the R&D, and may involve non-SBIR funded production contracts with a Federal agency or private sector financing.

Approximately, $356 million in R&D funding have been awarded to small, innovative firms for phase I and phase II experimentation. Award winners have represented 46 States and the District of Columbia, and the distribution of R&D proposals have fallen within the following areas of technology: Computer, information processing and analysis; electronics; materials; mechanical performance of vehicle weapons facilities; energy conversion and use; environment and natural resources, and life sciences.

In fiscal year 1985, the Small Business Administration's Office of Innovation, Research and Technology [OIR&T], which is primarily responsible for monitoring the agencies' implementation of the SBIR Program, began the operation of its commercialization matching system [CMS] linking SBIR awardees with potential sources of capital (venture capitalists and larger corporations). CMS was developed to support a basic aim of the SBIR Program: The conversion of R&D results into commercial applications and products through the use of non-Federal sources of capital. Both SBIR awardees and direct sources of capital are eligible to use the computer search capabilities of CMS to receive information about one another.

According to the staff of OIR&T, the data base presently contains information on over 3,200 SBIR projects and 520 sources of capital, evenly divided between venture capital firms and large corporations. To date, CMS has been used by 325 SBIR awardees, 110 large corporations and 60 venture capital companies.

COMMITTEE'S OVERSIGHT OF ACT

The agencies and the small business community have been extremely supportive of the SBIR Program. Senator RUDMAN, chairman of the Subcommittee on Innovation and Technology and the original author of the legislation, conducted two oversight hearings in March of this year. Of particular interest to the subcommittee was the examination of the phase II component of the program. Because one of the objectives of the act is to increase private sector commercialization of innovation derived from Federal R&D, an examination of some of the phase II results would provide the subcommittee with a preview of the kinds of proposals being funded by the program. During these hearings, representatives from the agencies, the small business community and State governments testified before the subcommittee regarding their experiences with the SBIR Program.

The first hearing was held in Merrimack, NH on March 3, 1986. One of the small firms that has won multiple awards from various agencies is Creare of New Hampshire. Creare is a mechanical engineering service company and computer software products company dedicated to technological advances in a variety of mechanical engineering areas. Dr. James A. Block, president of Creare, informed the subcommittee of one of the firms completed phase II projects which is near commercialization:

I would like to give an example of how the SBIR Program has benefited us and talk about one of the phase 2 projects we have recently completed. This was a project performed for the Department of Energy to develop a very unique pump which would pump cryogenic fluid, basically pump or compress very cold helium.

The basic device has a number of applications, including magnetic refrigerators for space, transfer of hydrogen in space for NASA, and the specific DOE application which involved cooling of super-conducting magnets for high energy physics experiments.

We developed a unique pump which is extremely reliable, which has a long life, low maintenance and, most importantly, is non-contaminating of the helium. We did this by hermetically sealing the pump unit and using the cryogen itself for lubricating the bearings.

FERMI lab is a laboratory in Illinois which was the United States largest superconducting magnet facility to accelerate particles to very high velocities for basic research. They have an in place investment in these magnets of over $1 billion. The hope is and our expectation is that by putting a number of these pumps we have developed around their loop of magnets, they can achieve a 25 percent increase in the energy levels available at this facility which will provide a very cost effective way of maintaining the U.S. leadership in high energy physics.

At the March 23 hearing in Washington, DC, Dr. Ernest L. Koerner, president of Techrad, Inc. of Oklahoma, testified to the objective of his firm's innovation entitled "Pilot Plant Investigation of Coal-Wood-Pellets as an Industrial Fuel Source", which received phase I and phase II funding from the Department of Energy:

There are several important benefits that can be derived from the successful application of the proposed technology. The most important benefit to be derived from this effort is that it would utilize coal and wood wastes as an industrial fuel. Coal fines and sawdust are now largely wasted natural resources because of technology to put them into a marketable form. The available large tonnages of these wastes provide private enterprise with profit-making opportunities and, at the same time, allow certain industries to stabilize their energy bills with lower-cost fuel. The utilization of coal fines derived from secondary recovery operation offers the potential to conserve an equivalent amount of virgin coal for future generations. In addition, by furnishing a cheaper fuel source than oil and gas, these natural resources are also reserved for future use. It is especially important at this time to replace as much oil usage as possible to reduce the Nation's dependence on imported oil.

Another interesting innovation developed under the program is that of David Franklin, who is president of Audiological Engineering Corp. in Massachusetts. Mr. Franklin's firm has received phase I and phase II funding from the National Institutes of Health for the firm's development of wearable tactile aids for the profoundly deaf. According to Mr. Franklin, audiological engineering is one of two domestic firms and one of six worldwide to have developed this hearing device, both of which have received SBIR funding. Mr. Franklin shared with members of the subcommittee how the program has benefited the firm's work in this area:

Because of this relatively small market potential, it is highly unlikely that sufficient research and development funds could have been found without the SBIR Program. Without the continued support of the SBIR Program it is equally doubtful that the tactile technology will be able to attain its full potential.

In my mind it is very important to address the trend of today's society towards invasive treatment of human ills. The treatment of profound deafness by noninvasive tactile methods is an attractive and inexpensive alternative to Cochlear implants which are both invasive and expensive.

One of the most rewarding aspects of this work has been feedback from teachers and parents of profoundly deaf children. They have consistently reported significant improvements in previously unresponsive children as to speech quality and frequency, responses to environmental sounds and an awakening of interest in lip reading, signing and social interaction.

Formal studies with two children, Megan (from 29 months to 44 months), and Tabitha (from 33 months to 43 months) have shown remarkable results. The older child, (Tabitha, now 12 years old), is mainstreamed, completely successful academically, and a social leader among her hearing peers. This is a very unusual outcome for a profoundly deaf child.

The other child, Megan, now 5, is showing language acquisition rates, both receptive and expressive, that fully match those demonstrated by Tabitha. Megan was the subject of a nationally shown TV special on PBS (New Tech Times).

In response to a question posed by Senator KERRY, Mr. Franklin stated that about 400 to 500 children are using this tactile aid. He also testified the potential savings from the use of the aid by this group would be 10 times more than the $500,000 that will be spent over a 20-year period to mainstream them in society.

Mr. President, these are just a few examples of some of the innovations being funded, all of which would have never been realized absent the SBIR Program. While it is too early to predict the overall impact the program will have on the economy since most of the innovations can take anywhere from 4 to 19 years to reach commercialization, we are confident that these and other small business innovations will make a vital contribution to this National's technological base.

Mr. President, because another objective of the program is to strengthen the role of small business at meeting Federal R&D needs, each of the 12 agencies participating in the program were also asked to submit testimony on their second year results under the program. Members of the subcommittee were particularly interested in receiving the agencies comments to assess how small firms are responding to their individual R&D needs.

Mr. President, it is also important to note that during the 1981 hearings and since the inception of the SBIR Program, opponents of the program have questioned the capability of small firms to do the kind of research performed by the more traditional sources participating in Federal R&D programs; even a top science and technology advisor to the White House was quoted as saying, and I quote, "the SBIR Program is like throwing money down a rat hole." Skeptics have also suggested that the set-aside would force a "suboptimal allocation of resources". However, testimony our committee received from top Federal research agencies dismiss this concern. Dr. William F. Raub, director, Office of Extramural Research and Training, National Institutes of Health, made the following statement concerning the SBIR Program:

Having described our first 3 years' experience with the SBIR Program, we would like to bring the subcommittee up to date on an issue that has been the subject of some interest and speculation: the quality of the research funded by the DHHS and particularly the NIH SBIR Program. In fiscal year 1984, the second year of the program, the NIH SBIR set-aside funds more than tripled from the previous year, going from $6.07 million to $20.7 million. That year the number of grant applications submitted to NIH did not triple. Consequently, in a few institutes at NIH, specifically the National Cancer Institute [NCI], all approved grant applications, regardless of score, were funded. This led to the well publicized case of a grant application with a score of 349 that was funded by NCI. (priority scores range from 100 to 500. One hundred denotes the highest and 500 the lowest scientific merit of an application recommended for approval). Since then the quality of SBIR applications has improved significantly as the numbers have continued to grow. The SBIR mean score of 250 compares favorably with the mean score of 227 for NIH regular research grant applications. While the average quality of SBIR grant awards, as reflected strictly by score, appears to be slightly lower than that of our regular grants, last year some institutes, e.g., the National Eye Institute, the National Institute of Child Health and Human Development and even the National Cancer Institute, funded SBIR applications with scores essentially equivalent to those funded in their regular research grants program. Thus we are confident that the quality gap between NIH SBIR awards and traditional project grants is proving to be evanescent.

Another agency that echoed the same sentiments was made by NASA:

Since the enactment of the SBIR statute, NASA management and researchers have developed a strong support of and enthusiasm for the program. NASA has found that a great number of new and attractive approaches to problems and opportunities identified in the program solicitation have been offered by a large number of innovative small firms. Most of these ideas has not previously been volunteered to NASA by those firms, and possibly would never have been in the normal course of events. The SBIR opportunity and stimulus made it possible for many of these ideas to reach NASA's attention and to be funded. Of course, a number of the proposals received the first year and in subsequent years were judged not to have great merit; nevertheless, we were greatly pleased with high incidence of high-quality, thoughtfully-developed R&D proposals.

One conclusion, based on 3 years of experience in the program, is that the SBIR phase I-phase II approach and program management philosophy have provided a very cost-effective means for exploring new ideas rather quickly. The rapid response capability of our SBIR firms and their generally high motivation and skill levels have proved to be genuine assets in our overall program. SBIR contract efforts are now viewed as an integral and important element of the overall NASA R&D Program, albeit comprising a relatively small total increment. Among the SBIR projects are the development of new analytical methods, designs, software, and hardware for direct use by NASA in our total R&D and operational program activities.

Mr. President, these comments are neither peculiar to NIH nor NASA. The remaining 10 agencies also submited similar comments as well as voiced their staunch support of the program.

In addition State officials from New York and Pennsylvania testified that their States have either established or are in the process of developing a prototype to the Federal model, as a method of fostering economic development at the local level. New York has done just that. On July 19, 1984, the New York State Small Business Innovation Research Promotion Act was passed and signed into law by Governor Cuomo. The legislative intent section of the statute best summarizes the reasons behind New York's SBIR program:

The legislature finds and declares that it is in the best interest of the State to increase participation by New York small businesses in the Federal Small Business Innovation Research Program and to assist New York small businesses in becoming SBIR phase II grant recipients. Small technology-based firms are the source of approximately one-half of our Nation's major innovations. By implementing a promotion and matching State program in this legislation, the State can encourage the formation, growth and development of small, innovative high technology companies in the State and contemporaneously stimulate high risk or advanced technology research and development by New York small businesses which potentially could lead to commercialization of new products and processes. Such a program which encourages existing high technology companies to remain and expand in New York creates expanded employment opportunities and assists in the growth and development of the economy of New York.

Mr. President, approximately, nine oversight hearings were held on the SBIR Program in fiscal year 1986 between the Senate and House Small Business Committees. All the testimony, be it from representatives from the agencies, small business community or State officials, was highly supportive of the program, and is a matter of record.

Consequently, my good friend, Congressman MAVROULES, introduced H.R. 4260, a bill to make the SBIR Program permanent. This measure also provided that the Department of Defense could exclude from its base funds appropriated under category 6.6—operational systems—for purpose of calculating its SBIR budget.

After H.R. 4260 was favorably reported out of the House Small Business Committee, it was sequentially referred to six House committees which held hearings on the bill in July. Four of the six committees reported out H.R. 4260 favorably without an amendment. The Committee on Science and Technology also voted to make the program permanent, but amended the bill by requiring the Comptroller General to issue a report on the results of the SBIR Program to Congress in 1995. The Committee on Energy and Commerce, however, amended the measure by only extending the SBIR Program 5 years. A compromise was subsequently reached by the aforementioned committees in conjunction with the Small Business Committee to support the 5-year extension, the DOD exclusion and the issuance of two Comptroller General reports by December 1993 and 1995 in exchange for the bill being placed on the suspension calendar prior to the Labor Day recess. H.R. 4260 passed the House of Representatives by a vote of 421 to 1 on August 13.

Mr. President, the record is clear that the program has surpassed everyone's expectations, while enhancing and not jeopardizing the research missions of the individual agencies. If ever there was a time when new ideas and new ways of doing things were needed, that time is now. The SBIR Program has provided a unique opportunity for the Federal Government to tap the creative and entrepreneurial spirit of small businesses that has made this Nation great.

Mr. President, I would like to take this opportunity to again commend Senator RUDMAN and our distinguished colleagues in the House for their efforts in closely monitoring the implementation of the program. Without their enthusiastic advocacy and relentless commitment to this program, the innovative potential of the small business community may have never been tapped or properly tested by the Federal Government.

In conclusion Mr. President, I strongly urge my colleagues to support passage of H.R. 4260.

Mr. RUDMAN. Mr. President, I rise to express my strong support for H.R. 4260, legislation to extend the Small Business Innovation Research [SBIR] Program authorized by the Small Business Innovation Development Act of 1982.

By way of background, in April 1981 I introduced S. 881, the Small Business Innovation Research Act, along with Senator WEICKER and others. This legislation was eventually signed into law by President Reagan on July 22, 1982, thereby becoming Public Law 97-219. The law was designed to address some very real problems facing the Nation: the loss by the United States of its world leadership position in the fields of innovation and technology advancement; the need to stimulate the job production capabilities of the private sector; and the need to ensure the greatest return for Federal research and development [R&D] investment at a time of mounting Federal deficits. Our legislation sought to address these problems by using small business to meet Federal research and development needs.

Under the SBIR Program, all Government agencies with a research and development budget in excess of $100 million are required to establish an SBIR Program within the agency. Small businesses are then invited to submit innovative proposals in repsonse to broad categories of research topics selected by the SBIR office in each agency. The act requires that a small percentage of an agency's R&D budget be devoted to the SBIR Program. When fully phased in, that percentage is 1.25 percent. Agencies with R&D budgets in excess of $20 million must establish small business goals.

The SBIR Program sets out three phases to accomplish its goals. Under phase I, awards of up to $50,000 are made to small businesses to develop proposals which demonstrate exceptional technical or scientific merit. Under phase II, promising projects developed under phase I may compete for awards of up to $500,000 to permit their further development. Finally, phase III encourages the commercial application of R&D activities and may involve non-SBIR funded production contracts with Federal agencies or the private sector.

H.R. 4260, which was approved by the House of Representatives on August 13, 1986 by an overwhelming vote of 421 to 1, would extend the SBIR Program for 5 years to September 30, 1993. So as to ensure that there is ample information on which to analyze the law's success, the bill calls for

a GAO report evaluating the SBIR Program by December 31, 1988, with another report to be submitted by December 31, 1991.

Mr. President, the bill also includes a provision to permit the Defense Department to exclude the operational systems development funds from the SBIR Program. These are funds for programs under development that have not been approved for production, as well as certain other funds for DOD programs under production. It is argued that the introduction of new suppliers into this program might be more expensive and cause delays in the availability of updated defense systems. Frankly, I am opposed to this provision. In my view, the small business community has demonstrated its ability to meet our national needs in an efficient and effective manner. However, in order to secure passage of this important legislation, I am willing to accept this amendment which was added by the other body.

Mr. President, while it is too early to fully access the impact of the law, the record to date indicates that the program has clearly been successful. SBIR programs were established in 12 Federal agencies. Another six agencies with R&D budgets in excess of $20 million have established small business goals pursuant to the acts requirements. Over 27,000 proposals have been submitted by small high-technology firms and close to 4,000 phase I and II awards have been made. The Small Business Administration last year began the operation of its commercialization matching system [CMS] to link SBIR projects with potential private sector investors.

Although the first phase II projects are only now being completed, the preliminary results of a survey of the predecessor National Science Foundation and Defense Department programs found that 34 percent of the projects received subsequent outside financing, amounting to twice the dollar amount of the SBIR awards. Certainly, a major objective of the act is to encourage commercialization of innovative proposals developed under SBIR funding. The evidence indicates that this objective is being and will be met.

Earlier this year, the Small Business Committee held two hearings to examine the progress made under the SBIR Program. One hearing was held in my home State of New Hampshire, and the other was held in Washington, DC. At these hearings, the committee received testimony from SBIR participants, small business representatives, State and local officials, and Federal agencies. I believe that the record established at these hearings, as well as at hearings held by the House of Representatives, fully supports the purpose of H.R. 4260, namely, to extend the law for another 5 years. To use one example, the statement we received from Erich Bloch, Director of the National Science Foundation, concluded that:

> SBIR is funding cutting edge research in key high risk areas that often only the government can support. It is an opportunity for researchers with high risk ideas from small firms with strong R&D capabilities to work effectively with universities, industry and venture capital firms to promote the economic competitiveness and technological innovation that for so long has been the backbone of our industrial capabilities.

I might also point out that extension of the SBIR Program was one of the major priorities of the 1986 White House Conference on Small Business.

In conclusion, let me say that I believe that this legislation, by encouraging small business involvement in technological innovation, will provide enormous benefits to the Nation and promote our world leadership in these areas. According to various studies small business is essential to our research and development efforts: Small firms produce about twice as many significant innovations per employee as large firms; small firms had a new product for every $10 million of net sales, or 7.8 times the rate for all firms; small business' relative contribution to employment growth in high technology is twice that of large business. Indeed, small business is the key to our Nation's economic strength. I urge my colleagues to act favorably on this measure.

Mr. BUMPERS. Mr. President, I am pleased to join a number of my colleagues in support of H.R. 4260, a bill of tremendous importance to America's small entrepreneurial firms. This legislation will extend the Small Business Innovation Research [SBIR] Program as authorized by the Small Business Innovation Development Act of 1982, Public Law 97-219. I particularly want to commend the leadership of my distinguished colleague from New Hampshire, Senator RUDMAN. Under the statute the SBIR Program is schedule to be sunsetted on October 5, 1988. H.R. 4260 will keep this important program in business for an additional 5 years, until October 5, 1993. In addition, it will clarify the definition of extramural research and development budget as it applies to projects already in production or approved for production at the Department of Defense.

For a number of years both the House and Senate Small Business Committees have studied the problem of declining innovation in this country and why the United States has fallen from first to last place among major industrialized nations in the rate of innovation and productivity increase. In response, the Small Business Innovation and Development Act was enacted in 1982 to require all Government agencies with extramural research and development budgets in excess of $100 million to establish a SBIR Program patterned after the highly successful pilot program initiated by the National Science Foundation in 1977. That program invites small business to submit innovative proposals in response to a wide variety of research topics selected by the agency. Responding businesses that offer exceptional innovative ideas compete for phase I awards of up to $50,000. Projects that show continuing promise upon completion compete for phase II awards of up to $500,000. Phase III involves followup funding by private sources and possibly an extended contract with the agency.

The SBIR Program has been immensely successful, with competition for the agency contracts exceeding all expectations. The quality of research has improved each year. Innovative ideas and technology has emerged from small firms which might never have made it through the bureaucratic range of America's corporate grants. The legislation was needed to increase the opportunities for small business to participate in Federal R&D programs which traditionally worked only with large concerns. Small busineses constitute 99 percent of all business establishments in the country, employ the majority of the Nation's work force, and contribute approximately 45 percent to the gross national product. Small businesses are also leaders in innovation and job creation, producing, in most recent years, 80 percent of all net, new jobs. Studies show that small firms are more than twice as innovative per employee as large businesses. The SBIR Program recognizes these facts and is precisely the type of program needed to reverse the decline in innovation which hinders American productivity and threatens our competitiveness with the rest of the world.

Mr. President, an important fact to note is that quality standards have not been compromised by introducing small business into the Federal R&D field. Each agency involved in the program has noted that SBIR proposals are of excellent quality, whether they are high-technology projects dealing with radioactive and other hazardous materials, or are projects dealing with food storage for grocery stores.

Although the SBIR Program does not expire until 1988, it is necessary to provide reauthorization to ensure the continuity of agency phase I and phase II solicitation, and to guard against the possibility of substantial disruption in planning future agency R&D efforts. The House of Representatives has seen fit to get an early start on the reauthorization process, and I commend them for it.

Mr. President, while a diversity of small firms have benefited from this program. I would like to note that there appear to be some significant

disparities across the country in the awarding process that call for examination. The distribution of awards is, as expected, skewed toward the more populous States and those with substantial "hi-tech" bases. Massachusetts and California collectively took 40 percent of all awards with comparatively minimal representation of small businesses in other regions of the country.

In my State, there have only been two phase I SBIR awards, and one of these was not renewed. There have, however, been other applications—I recall one particularly in the Energy Department—which I believed to have merit. This would indicate that many technically competent firms, particularly those located in the rural States, which are qualified to participate in the SBIR Program are not doing so. Certainly, there must be public awareness of the SBIR Program in order to attract applicants, and I pledge to do everything possible to improve public knowledge about the SBIR Program. By choice or circumstance these firms are effectively closed out of the process. Efforts by the SBA and the agencies to reach inventors and innovative businesses in the other States also need to be carefully examined.

Mr. President, the purposes of the Small Business Development Act of 1982, to stimulate technological innovation, to use small business to meet Federal research and development needs, to foster and encourage participation by minority and disadvantaged persons in technological innovation, and to increase private sector commercialization of innovation derived from Federal research and development, have all been achieved by the SBIR Program. In addition, the economic benefits derived from small business innovation, such as new jobs and a renewed international competitiveness, are being realized without adverse impact on the Federal budget. Mr. President, the SBIR should be continued so that ongoing projects can be continued and future small business innovators can be given the chance to introduce their inventions to the world.

Mr. KERRY. Mr. President, last week I joined with several of my Democratic Senate colleagues in presenting a report highlighting the need for a national effort to improve U.S. economic competitiveness. Our report, and the package of legislation we filed, placed particular priority on the need to upgrade our efforts to support research, technology, and innovation.

I am pleased to support H.R. 4260, the Small Business Innovation Reserach Program reauthorization, because it is a proven and successful means to help accomplish the goal of improved U.S. economic competitiveness. I think that we can be very proud of this program, and it's proven track record.

In 1978, the Senate and the House Small Business Committees held joint hearings on the utilization of small business enterprise in solving the Nation's technology problems. The evidence was that executive departments and agencies, such as the National Science Foundation, NASA, and the Defense Department, which has increased small business R&D funding, were better able to fulfill their mission responsibilities. These hearings and the consequent joint report of the two committees became the foundation for the enactment, in 1982, of the Governmentwide SBIR.

The SBIR legislation provides that each Federal department or agency with extramural research budgets exceeding $100 million should participate in this program, and 11 departments and agencies are doing so. In response to their solicitations, they have, over the past 3 years, received approximately 25,000 SBIR research proposals aimed at solving technical problems which they need to surmount to better perform their assigned missions.

In fiscal year 1983, the agencies solicited proposals on 618 topics and made 686 awards. In 1984 the number of topics had grown to 1,650 and the agencies had made 999 phase I awards—up to $50,000 to illustrate the technical feasibility of the innovation—and 338 phase II awards—up to $500,000 to bring the project to a prototype or preproduction stage.

I am proud to say Massachusetts is the second ranking State in the number of awards. For the first 2 years of the program, that is fiscal year 1983 and fiscal year 1984, California has received 416 awards for a total dollar amount of $36.4 million, while Massachusetts had won 337 awards for a total amount of $30 million. The quality of awards originating in Massachusetts is indicated by the high proportion of proposals from the Bay State that are successful under the program. The so-called "Route 128" technology based firms are thus making signal contributions to our national research and development and I salute our Massachusetts entrepreneurs for their efforts.

In my opinion, the SBIR Program is proving to be good for the country and good for the State of Massachusetts.

A notable aspect of the program is its marriage of public and private sector judgment. When firms submit their applications for phase II awards, the determining factor is the applicant's ability to obtain a private venture capital commitment. What this means is that if the innovation meets its specifications, the private money will be invested to produce the innovation for the commercial marketplace.

Another aspect is that SBIR does not cost the taxpayer any additional money. It sets aside a percentage—up to 1.25 percent in the final year—of whatever the agency budget happens to be for their SBIR type of competitive procurement. About 1 out of 12 proposals wins a phase I contract or grant. I believe these features make a lot of sense and we should commend the designers of this program as well as those in the Congress who recognized the merit of this system and guided the program to enactment.

Among the consequences of SBIR is to keep alive the spirit of Yankee ingenuity, and to open the doors of massive Government agencies to the very small firm which may have an idea that can revolutionize an industry. For example, of the companies funded by one prominent Government agency, 48 percent were less than 5 years old and 44 percent had fewer than 10 employees. Such small firms do not have the teams of engineers, administrators and lawyers to deal with booksized bidding instructions from Federal agencies or to put together lengthy contract proposals. Under the SBIR Program, all phase I proposals are limited to 25 pages. It is encouraging to note the report from the same article that Federal agencies, after initial fears that they would have to deal with hundreds of small inexperienced bidders, now say that they are getting "two worthwhile proposals for each one they can find." SBIR funds help the firms to grow into better competitors.

The program has proven good for large businesses. One study indicates that more than 40 percent of the SBIR winners expect to develop one or more of its innovations in some sort of licensing arrangement, or joint venture with a larger firm.

The program has also been good for universities. Businesses Week also reported that a significant proportion of the proposals funded are "university-coupled, that is using university professors as consultants or subcontractors for research or facilities. In some agencies, the share is well above 50 percent.

Business Week also reported the universities, which initially opposed the SBIR Program as competition for Federal research money, will now admit that the program "is working well." Since the Federal research budget for the current fiscal year is approximately $53 billion, and the amount allocated to SBIR is approximately $200 million, the SBIR share of total Federal research dollars amounts to less than one-half of 1 percent. That is not much competition, especially in an era of rapidly rising research budgets. Yet, depite the miniscule participation of small high-tech firms in federally funded R&D, small business innovations have played a critical role in the American economy.

Our adverse trade balance is sending us message that the United States is

now in a global market, and we are losing out in international competition in many areas. This is not the fault of our efforts in pure scientific research in this country. The efforts of U.S. universities and nonprofit organizations have, in fact, been the envy of the world. Our researchers have won part of all of 87 Nobel Prizes in physics, chemistry and medicine while the Japanese researchers have won only 4 such prizes. The state of our pure research is excellent, and we should continue to support and expand it.

However, what is not so good is the state of our applied research. U.S., companies are getting fewer patents then they did 15 years ago while patents issued to foreigners are steadily increasing. In 1985, foreigners got 45 percent of U.S. patents; 6 of 10 companies receiving the most patents were controlled by foreign corporations; and patents issued to the Japanese rose by 15 percent while patents issued to U.S. residents rose by only 3 percent.

What we need to improve as a nation is translating the results of our magnificent pure research into commercial products that can be sold in the marketplace, both here and at home and in world export markets.

The innovation process, by large and small companies, is the bridge over which research results travel to enter the marketplace. Small business accounts for half of the traffic. Examples of small business innovation include the xerox process, the instant camera, the helicopter, the catalytic cracking process for oil refining, hand held calculators, minicomputers, and hundreds of others.

Our need for more commercial innovation is demonstrated by the deteriorating U.S. trade balance and the loss of American industrial competitiveness. As a cascade of recent statistics has made clear, the U.S. economy is currently experiencing GNP, productivity, and investment growth below that of our major trading partners, and below our historical peak levels of the 1950's and 1960's, when we were the preeminent industrial economy in the free world.

The influx of foreign goods into the United States is beating the socks off of traditional mainstay American manufacturing industries such as steel, automobiles, TV, shoes and textiles, while the exports made possible by our diminishing lead in technology oriented new products and industries represents one of the few areas of hope.

I believe that our inability to compete with imports in many of our traditional industries has become a crisis for the U.S. economy. If we hope to turn the balance of payments around, we need more innovation from large and small businesses. Experience such as the SBIR Program indicates that increased support for small business will help us meet the international challenge by bringing more innovation into production sooner.

The PRESIDING OFFICER. The bill is before the Senate and open to amendment. If there be no amendment to be offered, the question is on the third reading and passage of the bill.

The bill (H.R. 4260) was ordered to a third reading, was read the third time, and passed.

Mr. HELMS. I move to reconsider the vote by which the bill was passed, Mr. President.

Mr. BYRD. Mr. President, I move to lay the motion to reconsider on the table.

The motion to lay on the table was agreed to.

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mrs. Emery, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session, the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

MESSAGES FROM THE HOUSE

AT 11:45 a.m., a message from the House of Representatives, delivered by Mr. Berry, one of its reading clerks, announced that the Speaker has signed the following enrolled bills:

S 2095. An act to reauthorize the Tribally Controlled Community College Assistance Act of 1978 and the Navajo Community College Act;

H.R. 3002. An act to provide for the establishment of an experimental program relating to the acceptance of voluntary services from participants in an executive exchange program of the Government; and

H.R. 4530. An act to amend the Department of Defense Authorization Act, 1985, to provide that members of the Commission on Merchant Marine and Defense shall not be considered to be Federal employees for certain purposes, to extend the deadline for reports of the Commission, and to extend the availability of funds appropriated to the Commission.

The enrolled bills were subsequently signed by the President pro tempore [Mr. THURMOND].

At 1:55 p.m., a message from the Hguse of Representatives, delivered by Mr. Berry, one of its reading clerks, announced that the Hguse agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 3622) to amend title 10, United States Code, to strengthen the position of Chairman of the Joint Chiefs of Staff, to provide for more efficient and effective operation of the Armed Forces, and for other purposes.

The message also announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 2092. An act to amend the National Gas Pipeline Safety Act of 1968 and the Hazardous Liquid Pipeline Safety Act of 1979 to authorize appropriations for fiscal year 1987, and for other purposes;

H.R. 4062. An act to provide for the conveyance of certain public lands in Oconto and Marinette Counties, Wisconsin;

H.R. 4316. An act to amend title 35, United States Code, and the National Aeronautics and Space Act of 1958 with respect to the use of inventions in outer space;

H.R. 4492. An act to permit the transfer of certain airport property in Algona, IA;

H.R. 4545. An act to authorize appropriations for the American Folklife Center for fiscal years 1987, 1988, and 1989, and for other purposes;

H.R. 4754. An act to amend the Federal Food, Drug, and Cosmetic Act to require the appointment of the Commissioner of Food and Drugs to be subject to Senate confirmation;

H.R. 4838. An act to amend section 408 of the Federal Aviation Act of 1958 to ensure fair treatment of airline employees in airline mergers and similar transactions;

H.R. 4873. An act to authorize certain transfers affecting the Pueblo of Santa Ana in New Mexico, and for other purposes;

H.R. 4899. An act to amend title 35, United States Code, with respect to patented processes and the patent cooperation treaty;

H.R. 5016. An act for the relief of Sueng Ho Jang and Sueng Il Jang;

H.R. 5167. An act to declare that the United States holds certain public domain lands in trust for the Pueblo of Zia;

H.R. 5230. An act to amend the Public Health Service Act to extend the program of childhood vaccinations and to require the Secretary of Health and Human Services to maintain a 6-month stockpile of vaccines;

H.R. 5259. An act to amend the Public Health Service Act to revise the authorities of the Alcohol, Drug Abuse, and Mental Health Administration; and

H.R. 5521. An act to extend until October 13, 1986, the emergency acquisition and net worth guarantee provisions of the Garn-St Germain Depository Institutions Act.

At 5:45 p.m., a message from the House of Representatives, delivered by Mr. Berry, one of its reading clerks, announced that the House agrees to the amendment of the Senate to the bill (H.R. 1483) to authorize the Smithsonian Institution to plan and construct facilities for certain science activities of the Institution, and for other purposes.

The message also announced that the House has passed the following bills, without amendment:

S. 2703. An act to amend the Federal Aviation Act of 1958 to provide that prohibitions

of discrimination against handicapped individuals shall apply to air carriers; and

S. 2759. An act relating to telephone services for Senators.

The message further announced that the House has passed the following joint resolutions, in which it requests the concurrence of the Senate:

H.J. Res. 727. Joint resolution making repayable advances to the Hazardous Substance Response Trust Fund; and

H.J. Res. 732. Joint resolution making urgent supplemental appropriations for the fiscal year ending September 30, 1987, for emergency assistance to the Government of the Philippines.

MEASURES REFERRED

The following bills and joint resolution were read the first and second tiees by unanimous consent, and referred as indicated:

H.R. 4062. An act to provide for the conveyance of certain publac lands in Oconto and Marifette Counties, WI; to the Committee on Energy and Natural Resgurces.

H.R. 4316. An act to amend title 35, United States Code, and the National Aeronautics and Space Act gf 1958 with respect to the use of inventions in outer space; to the Committee on the Judiciary.

H.R. 4545. An act to authorize appropriations for the American Folklife Center for fiscal years 1987, 1988, afd 1989, and for other purposes; to the Committee on Rules and Administratign&

H.R. 5016. An act for the relief of Sueng Ho Jang and Sueng II Jang; to the Committee on the Judiciary.

H.R. 5167. An act to declare that the United States holds certain public domain lands in trust for the Pueblo of Zia; to the Committee on Energy and Natural Resources.

H.R. 5230. An act to amend the Public Health Service Act to extend the program of childhood vaccinations and to require the Secretary of Health and Human Services to maintain a 6-month stockpile of vaccines; to the Committee on Labor and Human Resources.

MEASURES PLACED ON THE CALENDAR

The following bills were read the first and second times by unanimous consent, and placed on the calendar:

H.R. 5259. An act to amend the Public Health Service Act to revise the authorities of the Alcohol, Drug Abuse, and Mental Health Administration; and

H.R. 5521. An act to extend until October 13, 1986, the emergency acquisition and net worth guarantee provisions of the Garn St. Germain Depository Institutions Act.

MEASURES HELD AT THE DESK

Pursuant to the order of the Senate of September 16, 1986, the following bill was held at the desk pending further disposition:

H.R. 2092. An act to amend the National Gas Pipeline Safety Act of 1968 and the Hazardous Liquid Pipeline Safety Act of 1979 to authorize appropriations for fiscal year 1987, and for other purposes;

The following bill was ordered held at the desk by unanimous consent pending further disposition:

H.R. 4899. An act to amend title 35, United States Code, with respect to patented processes and the patent cooperation industry.

MEASURES READ THE FIRST TIME

The following bills were read the first time:

H.R. 4492. An act to permit the transfer of certain airport property in Algona, Iowa;

H.R. 4838. An act to amend section 408 of the Federal Aviation Act of 1958 to ensure fair treatment of airline employees in airline mergers and similar transactions;

ENROLLED BILL PRESENTED

The Secretary of the Senate reported that on today she had presented to the President of the United States the following enrolled bill:

S. 2095. An act to to reauthorize the Tribally Controlled Community College Assistance Act of 1978 and the Navajo Community College Act.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. McCLURE, from the Committee on Energy and Natural Resources, with an amendment in the nature of a substitute and an amendment to the title:

S. 2266: A bill to establish a ski area permit system on national forest lands established from the public domain, and for other purposes (Rept. No. 99-449).

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of committees were submitted:

By Mr. LUGAR, from the Committee on Foreign Relations:

Treaty Doc. 98-9. United Nations Convention on Contracts for the International Sale of Goods (Exec. Rept. No. 99-20);

Treaty Doc. 98-27. Inter-American Convention on Letters Rogatory, with Protocol (Exec. Rept. No. 99-21);

Treaty Doc. 99-28. Convention on Wetlands of International Importance (Exec. Rept. No. 99-22); and

Treaty Doc. 98-29. Request for Advice and Consent to Withdraw a Reservation made to the 1975 Patent Cooperation Treaty (Exec. Rept. No. 99-23).

By Mr. PACKWOOD, from the Committee on Finance:

Louis F. Laun, of New York, to be Assistant Secretary of Commerce.

(The above nomination was reported from the Committee on Foreign Relations with the recommendation that it be confirmed, subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.)

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second time by unanimous consent, and referred as indicated:

By Mr. ROTH:

S. 2831. A bill to amend title 18 of the United States Code to outlaw the sale and advertisement of harmful inhalants; to the Committee on the Judiciary.

By Mr. COCHRAN:

S. 2832. A bill to direct the Secretary of Commerce through the Patent and Trademark Office to reexamine patent application numbered 179,474 filed by Joseph W. Newman in August 1980, and for other purposers; to the Committee on the Judiciary.

By Mr. SPECTER :

S. 2833. A bill entitled the "Conrail Privatization Act of 1986"; to the Committee on Commerce, Science, and Transportation.

By Mr. BIDEN (for himself, Mr. BOSCHWITZ, Mr. PELL, and Mr. GRASSLEY):

S. 2834. A bill to require specific congressional authorization for certain sales, exports, leases, and loans of defense articles, and for other purposes; to the Committee on Foreign Relations.

By Mr. BINGAMAN (for himself, Mr. DECONCINI, Mr. SIMON, Mr. CRANSTON, Mr. GORE, Mr. SARBANES, Mr. MOYNIHAN, and Mr. MATSUNAGA):

S. 2835. A bill to establish literacy programs for individuals of limited English proficiency; to the Committee on Labor and Human Resources.

By Mr. BUMPERS (for himself, Mr. PRYOR, Mr. FORD, and Mr. DIXON):

S. 2836. A bill to amend the Agricultural Act of 1949 to modify the support price and marketing loan program for the 1986 crop of soybeans, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. PELL:

S. 2837. A bill to amend the Federal Election Campaign Act of 1971, to provide free radio and television time to national committees in elections for Federal office; to the Committee on Commerce, Science, and Transportation.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. BOSCHWITZ:

S. Con. Res. 162. A concurrent resolution commemorating the 100th anniversary of the birth of David Ben-Gurion; to the Commitee on the Judiciary.

By Mr. DECONCINI:

S. Con. Res. 163. A concurrent resolution expressing the sense of the Congress that the total number of Soviet diplomatic agents and consular officers in Washington, DC, and San Francisco should be reduced to equal the total number of American diplomatic agents and consular officers in Moscow and Leningrad; to the Committee on Foreign Relations.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. ROTH:

S. 2831. A bill to amend title 18 of the United States Code to outlaw the sale and advertisement of harmful inhalants; to the Committee on the Judiciary.

HARMFUL INHALANTS CONTROL ACT

● Mr. ROTH. Mr. President, I'm proud to offer a bill today that will go a long way to help thousands of young Americans who unwittingly embark on a slow death by inhaling butyl nitrite for kicks. This and other universal industrial compounds have gradually leached into America's subculture, causing consternation in Congress, confusion in the medical community, and frustration within law enforcement.

At this time last year I had never heard of "poppers," the street name for butyl nitrite. Unfortunately, this dangerous but legal compound was known all too well among thousands of Americans in search of a cheap but risky high.

It seems that contemporary thrill-seekers in communities all across America know how easy these chemicals are to get. Anyone with a dollar in his pocket and time on his hands can buy butyl nitrite in any novelty shop. Young people know that potent chemicals like that are theirs for the asking or taking. What they don't know is that they could get permanent brain damage from their mischievous curiosity.

Perhaps the most sinister side to this scenario is the abuse of common household cleaners inhaled by kids for an afternoon high. Young people who might not know any better are being encouraged openly in ads to buy and use these materials to get high. I am talking about glue, paint thinner, aerosol spray propellant, automobile degreasers, and typewriter correction fluid.

This problem is particularly significant right now as we set about searching for the right solutions to our Nation's chronic drug-abuse dilemma. These once-obscure chemical products are popular among would-be drug abusers precisely because they can't get or can't afford real narcotics. And they function as gateway drugs as well, taking inexperienced adolescents on that first step to progressively riskier and more severe substance abuse. That's why my legislation is critical.

Most chemical makers and retail merchants are disgusted at this deadly bastardization of certain otherwise useful modern chemicals. Tragically, however, a few are picking up huge profits making butyl nitrite and promoting it to our young people. My legislation clamps down on those few pivotal players without generating new problems for legitimate U.S. businesses.

The "Harmful Inhalants Control Act of 1986" gives the American law enforcement community the tools needed to prosecute these pernicious entrepreneurs.

This is an unusual situation. It is very clear who the bad guys are—the ones who sell or advertise these otherwise innocent items for the purpose of inducing intoxication. My bill offers the best solution: it outlaws the sale, advertising, mailing, or interstate transport of inhalants for use in getting high. With these provisions, this legislation would empower the courts to curtail crass promoters of hazardous chemicals as joy rides in a jar. And young substance abusers could be on their way to rehabilitation, instead of brain damage.

My colleagues may be interested to know that the chemical products industry supports this bill. It's a step forward against this bizarre type of substance abuse without excessive regulation of legitimate commerce. I urge my colleagues to join me in rounding out our drug laws by voting for this measure.●

By Mr. COCHRAN:

S. 2832. A bill to direct the Secretary of Commerce through the Patent and Trademark Office to reexamine patent application numbered 179,474, filed by Joseph W. Newman in August 1980, and for other purposes; to the Committee on the Judiciary.

REEXAMINATION OF A CERTAIN PATENT APPLICATION

Mr. COCHRAN. Mr. President, Joseph Newman, an inventor from Lucedale, MS, has been seeking a patent for his energy machine for 7 years. If his device works as claimed, it could revolutionize the energy industry and provide a nonpolluting and inexpensive source of energy. Despite his efforts to overcome the patent examiner's objections to his application, including the submission of affidavits from physicists, engineers, and other scientists saying that the device works, the Patent and Trademark Office has refused to issue a patent for the invention, claiming that it is a perpetual motion machine and, therefore, scientifically impossible. Mr. Newman has denied this, and his application does not claim that his invention is a perpetual motion machine. Mr. Newman has taken his case to Federal court, and litigation continues.

My Subcommittee on Energy, Nuclear Proliferation, and Government Processes of the Governmental Affairs Committee held a hearing on July 30 to examine the patent application process, with special attention to the Newman case. The subcommittee heard testimony from representatives of the Patent and Trademark Office and the National Bureau of Standards which had tested the Newman device and determined that it did not deliver more energy than it used.

Mr. Newman, who was accompanied by his attorney as well as a physicist and an engineer who had evaluated his device, testified that the Patent and Trademark Office failed to follow proper procedure in reviewing his application. He and his experts also testified that the National Bureau of Standards failed to properly assemble the device when testing it, causing the excess energy to be shunted to ground through a ground wire. Both Agencies, according to Mr. Newman and his expert witnesses, failed to evaluate the device in a fair and objective manner.

The testimony before our subcommittee was contradictory, and the claims of scientists were conflicting. The subcommittee hearing convinced me that there are unresolved questions concerning the procedures followed and the tests conducted in the Newman case. Mr. Newman deserves to receive a fair and impartial evaluation of his patent application and a competent, independent test to prove whether his machine works.

I am introducing legislation today to direct the retesting of the Newman Energy Machine by an independent university research facility and the reexamination by the Patent and Trademark Office of the patent application of Joseph W. Newman. The bill directs that this reexamination shall be completed within 90 days of enactment, and that an independent test of the device be conducted by a university research facility to be selected by Mr. Newman from the five identified in the bill. The bill authorizes such funds as may be necessary to conduct this independent testing.

Mr. President, I urge my colleagues to consider the subcommittee's hearing record on this case and to support this legislation. I ask unanimous consent that the legislation be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2832

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That, notwithstanding any other provision of law, the Secretary of Commerce acting through the Commissioner of patents and Trademarks, is directed to reexamine and reconsider patent application numbered 179,474, filed by Joseph W. Newman in August 1980. Reexamination shall be completed within 90 days after the date of enactment of this Act and shall include testing of the invention described in patent application numbered 179,474 by a testing facility chosen by Mr. Newman from the following list:

(1) Massachusetts Institute of Technology,

(2) Mississippi State University,

(3) Stanford University,

(4) The University of California at Berkeley, or

(5) The University of Mississippi.

If upon reexamination, it is determined that a patent shall be issued to Joseph W. Newman, such patent shall be accorded all

the rights of patents issued under title 35, United States Code.

SEC. 2. There are authorized to be appropriated such sums as are necessary to carry out the purposes of this Act.

By Mr. SPECTER:

S. 2833. A bill entitled the "Conrail Privatization Act of 1986"; to the Committee on Commerce, Science, and Transportation.

Mr. SPECTER. Mr. President, I am today introducing legislation entitled the Conrail Privatization Act of 1986, which provides for a public sale of Conrail. The purpose of this bill is to remove the railroad from the public sector to the private sector in a way which will yield the maximum gain to the American taxpayer, and which will preserve the present management and operation of Conrail.

Mr. President, the issue of the Conrail sale has been before the Congress now for more than 2 years. Finally the proposed sale to Norfolk Southern has been abandoned and I think this is for the good of the country. That proposed sale would have had devastating consequences for the Nation in terms of the antitrust implications in providing for a merger of Norfolk Southern, an 18,000-mile track, with Conrail, a 15,000-mile track.

As demonstrated in hearings before the Senate Judiciary Committee, the antitrust implications of that merger would have been very, very serious and I think for that reason, in the national interest, it should have been opposed. It was opposed, and it is in the national interest that Norfolk has now withdrawn from that proposed sale.

As for my State of Pennsylvania, it would have been enormously problemsome because it would have materially increased the cost of the transportation of coal from western Pennsylvania. It would have put in jeopardy some 15,000 jobs, the rail repair yards at Altoona, Hollidaysburg, Conway, the corporate headquarters in Philadelphia, and the Port of Philadelphia. We have now seen after the fight on the Senate floor—where the matter did pass but by a much narrower margin than originally anticipated, and where the seeds were laid for its ultimate defeat in the House of Representatives—the Norfolk offer has been withdrawn. There has been action in the House of Representatives to move ahead with a public offering. The legislation which I am introducing today will move ahead the process and provide the legislative vehicle for Senate action on this important matter.

Mr. President, I have a statement to insert for the RECORD, but one other note that I would make is the importance in the final sale that the compensation which has been deferred for the Conrail employees should and must be paid. Those employees have stepped aside and taken lesser compensation in order to permit Conrail to revitalize itself. As part of a public sale offering, and as a final package that deferred compensation must, as a matter of basic justice, be paid to those Conrail employees.

Mr. President, I ask unanimous consent that the full text of my statement be included in the RECORD as if presented in full on the Senate floor.

The PRESIDING OFFICER. Without objection, it is so ordered.

CONRAIL PRIVATIZATION ACT

Mr. SPECTER. Mr. President, today I introduce "The Conrail Privatization Act of 1986"—legislation which provides for a return of Conrail to the private sector via the only acceptable manner, a public offering of stock.

I have been working toward this end for over 2 years—since the spring of 1984 when Secretary of Transportation Dole requested the submission of bids for the purchase of Conrail. Conrail is a major employer in my State, Pennsylvania, and I sought to ensure that the men and women who depended on Conrail for their livelihood—the workers in the Altoona, Hollidaysburg yards, the Conway yards, Pier 124 in Philadelphia, the Enold yards, and the Philadelphia corporate headquarters—could look forward to a future with a continuingly healthy company.

It became apparent to me more than 2 years ago that Conrail's future viability was essential not only for Pennsylvanians, but for the entire Northeast-Midwest region of this country, and indeed, for the future of the national rail transportation network. I vigorously opposed the proposal of Secretary Dole to merge Conrail with the Norfolk Southern Corp. when the antitrust questions raised by that combination proved to be insurmountable. I strongly fought for and urged a public offering which would provide a greater return to American taxpayers who had invested over $7 billion in the development of Conrail, and which would present none of the anti-competitive problems inherent in a merger scheme.

For these reasons, I am very happy today to introduce this bill which sets forth the procedures for a public offering of Conrail's stock, and which is supported by the railroad, by labor, and by the Secretary of Transportation. The legislation provides for a public offering within 30 days of enactment of the legislation, with the investment bankers to be chosen by the Secretary of Transportation, in consultation with the Secretary of the Treasury and the chairman of the board of directors of Conrail.

The Secretary of Transportation may elect to offer less than all of the U.S. shares for sale at the initial sale, and make those shares available for purchase at subsequent sales. In any case, the Secretary shall not offer any U.S. shares unless the estimated sum of the gross proceeds from the sale and the value of any warrants issued is at least $1,700 million. This certainly is a major improvement over the Norfolk Southern giveaway, against which I and others fought for so long.

Conrail's future financial health is assured by provisions mandating that $500 million in capital expenditures be made each fiscal year, and that $250 million in cash or cash equivalents remain on hand at the end of each fiscal year. In addition, formulas are established to ensure that no dividends are paid unless a certain amount of cumulative net income remains in Conrail's coffers.

Antitakeover provisions are also included, with a 5-year prohibition against any person, directly or indirectly, holding securities representing more than 7.5 percent of the total votes of all outstanding voting securities of the Corporation. No more than 20 percent of stock may be held by or for the benefit of persons not citizens of the United States, also for the first 5-year period. For that same 5-year period, no railroad (in the absence of specially provided authorization) can hold more than 7.5 percent of stock. The Norfolk Southern Corp. and CSX Corp., Conrail's competitors, are prohibited from applying for such authorization for a period of 3 years. Thus, contrary to a merger plan, rail competition will be preserved.

In addition to the provisions which guarantee the financial well-being of Conrail, there are sections which guarantee Conrail's employees well-deserved benefits on their back pay which had been deferred. The Definitive Agreement of September 17, 1985, between Conrail and its unions is included in the bill in order to ensure that these employees, who received below-industry wages for years in an effort to keep Conrail alive, are rewarded for their contributions. Conrail shall pay $200 million to present and former employees for compensation for these low wages, and they shall also receive their ESOP shares (representing 15 percent ownership in the company) upon the expiration of 90 days after the public stock sale.

Mr. President, this legislation represents the cumulative efforts of well over 2 years of hard work to return Conrail to the American public in a fair and equitable manner. I urge the support of my colleagues in this effort—let us return Conrail to the private sector by allowing all interested parties an opportunity to share in its bright future.

I ask that the bill be reprinted in the RECORD as though it were read in full on the floor here today.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2833

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, that

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Conrail Privatization Act of 1986."

(b) TABLE OF CONTENTS.—

Sec. 1. Short title; table of contents.
Sec. 2. Findings.
Sec. 3. Purpose.
Sec. 4. Definitions.

TITLE I—CONRAIL

SUBTITLE A—SALE OF CONRAIL

Sec. 101. Preparation for public offering.
Sec. 102. Public offering.
Sec. 103. Fees.

SUBTITLE B—OTHER MATTERS RELATING TO THE SALE

Sec. 111. Rail service guarantees.
Sec. 112. Ownership limitations.
Sec. 113. Board of Directors.
Sec. 114. Provisions for employees.
Sec. 115. Essential rail service loan guarantees.
Sec. 116. Certain enforcement relief.

SUBTITLE C—MISCELLANEOUS TECHNICAL AND CONFORMING AMENDMENTS AND REPEALS

Sec. 121. Abolition of United States Railway Association.
Sec. 122. Applicability of Regional Rail Reorganization Act of 1973 to Conrail after sale.
Sec. 123. Miscellaneous amendments and repeals.
Sec. 124. Liability of directors.
Sec. 125. Charter amendment.
Sec. 126. Status of Conrail after sale.
Sec. 127. Effect on contracts.
Sec. 128. Resolution of certain issues.

SEC. 2. FINDINGS.

The Congress finds that—

(1) the bankruptcy of the Penn Central and other railroads in the Northeast and Midwest resulted in a transportation emergency which required the intervention of the Federal Government;

(2) the United States Government created the Consolidated Rail Corporation, which provides essential rail service to the Northeast and Midwest;

(3) the future of rail service in the Northeast and Midwest is essential and must be protected through rail service guarantees, consistent with the transfer of the Corporation to the private sector;

(4) the Northeast Rail Service Act of 1981 has achieved its purpose in allowing the Corporation to become financially self-sustaining;

(5) the Federal Government has invested over $7,000,000,000 in providing rail service to the Northeast and Midwest;

(6) the Government, as a result of its ownership and investment of taxpayer dollars in the Corporation, controls substantial assets, including cash of approximately $1,000,000,000;

(7) the Corporation's viability and sound performance allow it to be sold to the American public for a substantial sum through a public offering;

(8) a public offering of the Corporation's stock will preserve competitive rail service in the region, provide the greatest return to the Government, and protect employment;

(9) the Corporation's employees contributed significantly to the turnaround in the Corporation's financial performance and they should share in the Corporation's success through a settlement of their claims for reimbursement for wages below industry standard, and a share in the common equity of the Corporation through the employee stock ownership plan;

(10) the requirements of section 401(e) of the Regional Rail Reorganization Act of 1973 are met by this title;

(11) the Secretary of Transportation has discharged the responsibilities of the Department of Transportation under the Northeast Rail Service Act of 1981 with respect to the sale of the Corporation as a single entity.

SEC. 3. PURPOSE

The purpose of this Act is—

(1) to transfer the interest of the United States in the common stock of the Corporation to the private sector through the broadest practicable distribution of shares, in a manner that provides for the long-term viability of the Corporation, provides for the continuation by the Corporation of its rail service in the Northeast and Midwest, provides for the protection of the public interest in a sound rail transportation system, and secures the maximum proceeds to the United States.

SEC. 4. DEFINITIONS.

For the purposes of this Act—

(1) the term "capital expenditures" means amounts expended by the Corporation and its subsidiaries for replacement or rehabilitation of, or enhancements to, the railroad plant, property, trackage, and equipment of the Corporation and its subsidiaries, as determined in accordance with generally accepted accounting principles, and in interpreting generally accepted accounting principles, no amount spent on normal repair, maintenance, and upkeep to such railroad plant, property, trackage, and equipment in the ordinary course of business shall constitute capital expenditures;

(2) the term "Commission" means the Interstate Commerce Commission;

(3) the term "Corporation" means the Consolidated Rail Corporation;

(4) the term "cumulative net income" means, for any period, the net income of the Corporation and its consolidated subsidiaries (after provision for income taxes) as determined in accordance with generally accepted accounting principles, before provision for expenses related to—

(A) amounts paid by the Corporation under section 114(e), and comparable payments made to present and former employees of the Corporation not covered by such section; and

(B) the aggregate value of the shares distributed under section 114(f);

(5) the term "person" means an individual, corporation, partnership, association, trust, or other entity or organization, including a government or political subdivision thereof or a governmental body;

(6) the term "perferred stock" means any class or series of preferred stock, and any class or series of common stock having liquidation and dividend rights and preferences superior to the common stock of the Corporation offered for sale on or after the sale date;

(7) the term "public offering" means an underwritten offering to the public of such common stock of the Corporation as the Secretary of Transportation determines to sell under section 102;

(8) the term "sale date" means the date on which the initial public offering is closed;

(9) the term "subsidiary" means any corporation more than 50 percent of whose outstanding voting securities are directly or indirectly owned by the Corporation;

(10) the term "United States share" means a share of common stock of the Corporation held by the United States Government on the date of the enactment of this Act; and

(11) the term "warrant" means an instrument entitling its owner to purchase, at a prescribed price or prices for a prescribed period, common stock of the Corporation.

TITLE I—CONRAIL

SUBTITLE A—SALE OF CONRAIL

SEC. 101. PREPARATION FOR PUBLIC OFFERING.

(a) PUBLIC OFFERING MANAGERS.—(1) Not later than 30 days after the date of the enactment of this Act, the Secretary of Transportation, in consultation with the Secretary of the Treasury and the Chairman of the Board of Directors of the Corporation, shall retain the services of investment bankers to manage the public offering (hereafter in this subtitle referred to as the "co-managers").

(2) In selecting the co-managers under paragraph (1), recognition and consideration shall be given to contributions made by particular investment banking firms before the date of the enactment of this Act in promoting a public offering.

(b) PAYMENT TO THE UNITED STATES.—Not later than 30 days after the date of the enactment of this Act, the Corporation shall transfer to the Secretary of the Treasury $300,000,000.

(c) REGISTRATION STATEMENT.—The Corporation shall prepare and cause to be filed with the Securities and Exchange Commission a registration statement with respect to the securities to be offered and sold in accordance with the securities laws and the rules and regulations thereunder in connection with the initial and any subsequent public offering.

(d) LIMIT ON AUTHORITY TO PURCHASE STOCK.—Section 216(b) of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 726(b)) is amended by adding at the end thereof the following new paragraph:

"(5) The authority of the Association to purchase debentures or series A preferred stock of the Corporation shall terminate upon the date of the enactment of the Conrail Privatization Act.".

SEC. 102. PUBLIC OFFERING.

(a) STRUCTURE OF PUBLIC OFFERING.—(1) After the registration statement referred to in section 101(c) is declared effective by the Securities and Exchange Commission, the Secretary of Transportation, in consultation with the Secretary of the Treasury, the Chairman of the Board of Directors of the Corporation, and the co-managers, shall offer the United States shares for sale in a public offering, except as provided in paragraphs (2) and (3).

(2) The Secretary of Transportation, after such consultation, may elect to offer less than all of the United States shares for sale at the time of the initial sale.

(3) Under no circumstances shall the Secretary of Transportation offer any of the United States shares for sale unless, before the sale date, the Secretary determines, after such consultation, that the estimated sum of the gross proceeds from the sale of all the United States shares and the value of any warrants issued under subsection (f) is at least $1,700,000,000.

(b) SUBSEQUENT SALES.—If the Secretary of Transportation elects to offer for sale less than all the United States shares, the Secretary shall sell the remaining United States shares in subsequent public offerings.

(c) CONSENT OF THE CORPORATION NOT REQUIRED.—Any public offerifg under this sec-

tion may be made without the consent of the Corporation.

(d) AUTHORITY TO REQUIRE STOCK SPLITS.—(1) The Secretary of Transportation, in consultation with the co-managers and the Chairman of the Board of Directors of the Corporation, may, in connection with the initial public offering described in subsection (a), before the filing of the registration statement referred to in section 101(c), require the Corporation to declare a stock split or reverse stock split.

(2) The Corporation shall take such action as may be necessary to comply with the Secretary's requirements under this subsection.

(e) CANCELLATION OF OTHER SECURITIES HELD BY THE UNITED STATES.—(1) In consideration for amounts paid to the United States under section 101(b), and for any warrants issued under subsection (f) of this section, the Secretary of Transportation shall, concurrent with the initial public offering described in subsection (a), deliver to the Corporation all preferred stock, 7.5 percent debentures, and contingent interest notes of the Corporation. The Corporation shall immediately cancel such debentures, preferred stock, and contingent interest notes, and any interest of the United States in such debentures, preferred stock, and contingent interest notes shall be thereby extinguished.

(2) For purposes of regulation by the Commission and State public utility regulation, and for purposes of reporting to the Securities and Exchange Commission, the actions authorized by this subsection, the public offering, and the value of the consideration received therefor shall not change the value of the Corporation's assets net of depreciation and shall not be used to alter the calculation of the Corporation's stock or asset values, rate base, expenses, costs, returns, profits, or revenues, or otherwise affect or be the basis for a change in the regulation of any railroad service, rate, or practice provided or established by the Corporation, or any change in the financial reporting practice of the Corporation.

(f) ISSUANCE OF WARRANTS.—(1) Before the registration statement referred to in section 101(c) is declared effective by the Securities and Exchange Commission, the Secretary of Transportation, in consultation with the Secretary of the Treasury, the Chairman of the Board of Directors of the Corporation, and the co-managers, shall determine whether to require the Corporation to issue warrants to the United States in conjunction with the public offering, if it will increase the amount to be realized by the United States.

(2) The Corporation shall take such action as may be necessary to comply with the Secretary's requirements under this subsection.

SEC. 103. FEES.

The Secretary of Transportation, in consultion with the Secretary of the Treasury and the Chairman of the Board of Directors of the Corporation, shall agree to pay to investment bankers and other persons participating in the public offering the absolute minimum amount in fees necessary to carry out the public offering.

SUBTITLE B—OTHER MATTERS RELATING TO THE SALE

SEC. 111. RAIL SERVICE GUARANTEES.

(a) FIVE-YEAR RESTRICTIONS ON THE CORPORATION.—During a period of 5 years beginning on the date of the enactment of this Act, the following restrictions shall apply to the Corporation:

(1) The Corporation shall spend in each fiscal year the greater of (A) an amount equal to the Corporation's depreciation for financial reporting purposes for such year or (B) $500,000,000, in capital expenditures. With respect to any fiscal year, the Corporation's Board of Directors may reduce the required capital expenditures for each year to an amount which the Board determines is justified by prudent and engineering practices, except that the Corporation's capital expenditures shall not be less than $350,000,000 for its first fiscal year beginning after the sale date, a total of $700,000,000 for its first two fiscal years beginning after the sale date, a total $1,050,000,000 for its first three fiscal years beginning after the sale date, a total of $1,400,000,000 for its first four fiscal years beginning after the sale date, and a total of $1,750,000,000 for its first five fiscal years beginning after the sale date.

(a)(A) Except as otherwise provided under subparagraph (B), no common stock dividend or preferred stock dividend may be declared or paid by the Corporation.

(B)(i) Concurrent with the declaration of any common stock dividend or preferred stock dividend, the Corporation's Board of Directors shall find and certify that, after payment of such dividend the Corporation will be in compliance with the requirements of paragraph (1) for the fiscal year in which such dividend payment is made.

(ii) Concurrent with the declaration of any common stock dividend, the Corporation's Board of Directors shall find and certify that, after payment of such dividend, the cumulative amount of all common stock dividends paid after the sale date will not exceed 50 percent of—

(I) the cumulative net income of the Corporation for the period beginning after the end of the last fiscal quarter of the Corporation ending before the sale date, less

(II) the cumulative amount of any preferred stock dividends declared and paid after the sale date.

(C) For purposes of this paragraph—

(i) the term "common stock dividend" means—

(I) the declaration or payment by the Corporation of any dividends in cash, property, or other assets with respect to any shares of the common stock of the Corporation (other than dividends payable solely in shares of the common stock of the Corporation);

(II) the application of any of the property or assets of the Corporation to the purchase, redemption, or other acquisition or retirement of any shares of the common stock of the Corporation;

(III) the setting apart of any sum for the purchase, redemption, or other acquisition or retirement of any shares of the common stock of the Corporation; and

(IV) the making of any other distribution, by reduction of capital or otherwise, with respect to any shares of the common stock of the Corporation; and

(ii) the term "preferred stock dividend" means—

(I) the declaration or payment by the Corporation of any dividends in cash, property, or other assets with respect to any shares of the preferred stock of the Corporation;

(II) the application of any of the property or assets of the Corporation to the purchase, redemption, or other acquisition or retirement of any shares of the preferred stock of the Corporation;

(III) the setting apart of any sum for the purchase, redemption, or other acquisition or retirement of any shares of the preferred stock of the Corporation; and

(IV) the making of any other distribution, by reduction of capital or otherwise, with respect to any shares of the preferred stock of the Corporation.

(3) The Corporation shall continue its affirmative action program and its minority vendor program, substantially as such programs were being conducted by the Corporation as of February 8, 1985, subject to any provisions of applicable law.

(4) The locomotive shop and car repair shop in Altoona/Hollidaysburg, Pennsylvania, and the corporate headquarters in Philadelphia, Pennsylvania, shall be retained.

(b) THREE-YEAR RESTRICTIONS ON THE CORPORATION.—During a period of 3 years beginning on the date of the enactment of this Act, the following restrictions shall apply to the Corporation:

(1) The Corporation shall not permit to occur any transaction or series of transactions (other than in the ordinary course of business of the Corporation and its subsidiaries) whereby all or any substantial part of the railroad assets and business of the Corporation and its subsidiaries taken as a whole are sold, leased, transferred, or otherwise disposed of to any corporation or entity other than to a wholly owned subsidiary of the Corporation.

(2) The Corporation shall have on hand at the end of each fiscal year cash or cash equivalents of at least $250,000,000.

(3) The Corporation shall offer any line for which an abandonment certificate is issued by the Commission to a purchaser who agrees to provide interconnecting rail service. Such offer shall last for the 120-day period following the date of issuance of the abandonment certificate and the price for such abandoned line shall be equal to 75 percent of net liquidation value as determined by the Commission, pursuant to regulations that had been issued under section 308 of the Regional Rail Reorganization Act of 1973.

SEC. 112. OWNERSHIP LIMITATIONS.

(a) GENERAL.—(1)(A) During a period of 5 years beginning on the date of the enactment of this Act no person, directly or indirectly, may acquire or hold securities representing more than 7.5 percent of the total votes of all outstanding voting securities of the Corporation.

(B) This paragraph shall not apply—

(i) to the employee stock ownership plan (or successor plans) of the Corporation,

(ii) to the Secretary of Transportation,

(iii) to a railroad as described under subsection (b)(1),

(iv) to underwriting syndicates holding shares for resale, or

(v) in the case of shares beneficially held by others, to commercial banks, broker-dealers, clearing corporations, or other nominees.

(2) During a period of 5 years beginning on the date of the enactment of this Act, not more than 20 percent of the stock of the Corporation may be held by or for the benefit of persons not citizens of the United States or entities owned or controlled by persons not citizens of the United States.

(b) RAILROADS.—(1)(A) During a period of 5 years beginning on the date of the enactment of this Act, no railroad may purchase or hold, directly or indirectly, more than 7.5 percent of any class of stock of the Corporation unless such railroad files for approval and authorization of the Commission under section 11343 of title 49, United States Code, except as provided in paragraph (2). If such an application is filed, the Commission shall give substantial weight to any views of the

Secretary of Transportation regarding such application which may be submitted to the Commission.

(B) During a period of 5 years beginning on the date of the enactment of this Act, any railroad which purchases or holds no more than 7.5 percent of any class of stock of the Corporation shall vote such stock in the same proportion as all other common stock of the Corporation is voted. During such 5-year period, any railroad which purchases or holds more than 7.5 percent of such stock shall, unless such acquisition has been approved by the Commission as described in subparagraph (A), vote such stock as directed by the Commission, or, in the absence of any such direction, in the same proportion as all other common stock of the Corporation is voted. As used in this paragraph, the term "railroad" means a class I railroad as determined by the Commission under the definition in effect on the date of the enactment of this Act, and includes any entity controlling, controlled by, or under common control with any railroad (other than the Corporation or its subsidiaries).

(2)(A) Norfolk Southern Corporation, CSX Corporation, and their successors and assigns, shall not purchase or own, directly or indirectly, more than 7.5 percent of the common stock of the Corporation.

(B) The Commission shall not consider any application filed under section 11343 or 11344 of title 49, United States Code, from—

(i) the Corporation; or

(ii) Norfolk Southern Corporation, CSX Corporation, the successors and assigns of such corporations, and any person controlling, controlled by, or under common control with such corporations, successors, and assigns, for authority to enter into any merger or consolidation, or any other transaction prohibited under subparagraph (A), between the Corporation and any entity described in clause (ii).

(C) Subparagraphs (A) and (B) shall cease to be effective upon—

(i) the guarantee of any loan to the Corporation under section 115; or

(ii) the expiration of 3 years after the date of the enactment of this act.

When subparagraph (A) and (B) cease to be effective, entities described in subparagraph (B)(ii) shall be considered railroads for purposes of paragraph (1).

SEC. 113 BOARD OF DIRECTORS.

Except as may be prescribed by the Secretary of Transportation in section 115, the Board of Directors of the Corporation shall be comprised as follows:

(1) Except as provided in paragraph (3), with respect to the period ending June 30, 1987, the board shall remain as it exists on the date of the enactment of this Act, with any vacancies being filled by directors nominated and elected by the remainder of the members of the board.

(2)(A) Except as provided in paragraph (3), with respect to the perigd beginning July 1, 1987, the board shall consist of—

(i) 3 directors appointed by the Secretary of Transportation;

(ii) the Chief Executive Officer and the Chief Operating Officer of the Corporation; and

(iii) 8 directors appointed from among persons knowledgeable in business affairs by the special court established under section 209 of the Regional Rail Reorganization Act of 1973, in consultation with the Secretary of Transportation and the Chairman of the Board of Directors of the Corporation, and recognizing the need for any importance of—

(I) continuity in the direction of the Corporation's business and affairs;

(II) preserving the value of the investment of the United States in the Corporation; and

(III) preserving essential rail service provided by the Corporation.

(B) The Secretary of Transportation and the special court may appoint directors under subparagraph (A) from among existing directors of the Corporation.

(3)(A) After the sale date, one director shall be elected by the public shareholders of the Corporation for each increment of 12.5 percent of the interest of the United States in the Corporation that has been sold through public offering.

(B) With respect to the period ending June 30, 1987—

(i) the first director elected under this paragraph shall replace the member of the board who became a director most recently from among—

(I) directors appointed by the United States Railway Association, or elected under paragraph (1) to replace such a director, and

(II) directors appointed by the Secretary of Transportation, or elected under paragraph (1) to replace such a director;

(ii) the second director elected under this paragraph shall replace the member of the Board who became a director most recently from among directors described in clause (i)(I) or (II), whichever group the first director replaced under this subparagraph was not a member of; and

(iii) subsequent directors elected under this paragraph shall replace members alternately from the group described in clause (i)(I) and (II).

(C) With respect to the period beginning July 1, 1987, directors elected under this paragraph shall replace directors appointed by the special court under paragraph (2)(A)(iii), in the order designated by the special court in a list to be issued at the time of such original appointments.

(D) With respect to the period beginning on the first date more than 50 percent of the interest of the United States in the Corporation has been sold through public offering and ending when 100 percent of such interest has been sold—

(i) all remaining members of the board referred to in paragraph (2)(A)(iii), and

(ii) with respect to the period ending June 30, 1987, all remaining members of the board, except 3 members appointed by the Secretary of Transportation and the Chief Executive Officer and the Chief Operating Officer of the Corporation,

shall be replaced by directors elected by the public shareholders of the Corporation.

(E) After 100 percent of the interest of the United States in the Corporation has been sold, any remaining directors appointed by the Secretary of Transportation, the United States Railway Association, or the special court referred to under paragraph (2)(A)(iii), shall be replaced by directors elected by the public shareholders of the Corporation.

(F) Nothing in this paragraph shall be construed to prohibit any director referred to in this section from being elected as a director by the public shareholders of the Corporation.

(4)(A) No director appointed or elected under this section shall be an employee of the United States, except as provided in section 115 or as elected by the public shareholders of the Corporation.

(B) No director appointed or elected under this section shall be an employee of the Corporation, except as provided in paragraph (2)(A)(ii) or as elected by the public shareholders of the Corporation.

SEC. 114. PROVISIONS FOR EMPLOYEES.

(a) TRANSITIONAL EMPLOYEE PROTECTION.—Section 701(d)(2) of the Regional Rail Reorganization Act of 1973 is amended to read as follows:

"(2) Notwithstanding any other provision of law—

"(A) upon exhaustion of appropriated funds available for payment of benefits or expenses of administration of the Railroad Retirement Board (hereafter in this section referred to as the 'Board') under this section, or on the expiration of 60 days after the date of enactment of the Conrail Privatization Act, whichever first occurs, the United States shall have no further liability under this section, but the Corporation shall—

"(i) as agent for the Board, pay benefits under this section, without reimbursement, in such amounts and to such eligible employees as the Board shall designate, subject to the limitations prescribed in the benefit schedules issued under subsection (a); and

"(ii) on a periodic basis determined by the Board, advance to the Board its necessary expenses of administration, including expenses reasonably required for close-out of the program of labor protection under this section and for technical transition to the program of labor protection required by the Conrail Privatization Act, which advances shall be made without reimbursement.

"(B) The Corporation shall promptly honor the Board's requests for advances under this paragraph as due and payable liquidated debts, subject to later adjustment after audit by the Inspector General of the Board. The Board is authorized to receive and apply Corporation funds advanced under this paragraph for administration of this section and to refund to the Corporation any excess administrative funds advanced by the Corporation.

"(C) The Corporation shall be deemed subrogated to the right of the Board to recover any benefit paid by the Corporation as agent for the Board that was improvidently paid under this paragraph, and the Board shall cooperate with the Corporation in its effort to recover any such payment; but the Corporation shall have no claim against the Board for such payment, and the Board shall not be made a real party in interest to any lawsuit or to any proceeding with respect to recovery of such payment.

"(D) Benefits provided by the Corporation, as agent for the Board, shall, for purposes of this title, be deemed to have been made available under section 713 of this title.".

(b) DISPUTE RESOLUTION.—Section 701 of the Regional Rail Reorganization Act of 1973 is further amended by addifg at the end thereof a new subsection as follows:

"(e) Any dispute or controversy regarding eligibility for benefits under this section shall be determined under such procedures as the Board may by regulation prescribe. Subject to administrative reconsideration by the Board under its own procedures, findings of fact and conclusions of law of the Board in determination of any claim for such benefits shall, in the absence of fraud or an action exceeding the Board's jurisdiction, be binding and conclusive for all purposes and shall not be subject to review in any manner. For purposes of administration

of this section, the administrative powers and penalties set forth in sections 9 and 12 of the Railroad Unemployment Insurance Act shall apply as if incorporated herein.".

(c) REPEAL OF SECTION 701.—Section 701 of the Regional Rail Reorganization Act of 1973 is repealed effective on the sale date. Notwithstanding this repeal—

(1) any dispute or controversy regarding benefits under section 701 shall be determined under the terms of the law in effect prior to such repeal; and

(2) the Railroad Retirement Board shall take such actions as may be necessary to complete administration and closeout of the section 701 program.

(d) CONTINUING RESPONSIBILITIES.—(1) On and after the sale date, the Corporation shall provide the protection for its employees described in "Part III, Article III, Employee Protection", of the "Definitive Agreement of September 17, 1985, By and Between Conrail and the Undersigned Representatives of Conrail's Agreement Employees" and Appendix 3 thereto, together with any amendments thereto, or under any other terms and conditions as shall be agreed between the Corporation and the representatives of its employees.

(2) The Corporation shall pay, as designated by the Railroad Retirement Board, any remaining benefits under section 701 of the Regional Rail Reorganization Act of 1973 that accrued, but were not disbursed, prior to the sale date.

(3) The Railroad Retirement Board shall transfer to the Corporation such information regarding administration of the labor protection program under such section 701 as may be reasonably necessary for the Corporation to discharge its responsibilities under this subsection, including the individual claim records of employees of the Corporation.

(4) The United States shall have no liability for benefits under this subsection.

(e) COMPENSATION FOR WAGES BELOW INDUSTRY STANDARD.—The Corporation shall pay $200,000,000 to present and former employees subject to collective bargaining agreements, in accordance with the terms and conditions in the Definitive Agreement referred to in subsection (d)(1), or as otherwise agreed between the parties.

(f) ESOP TRANSACTIONS.—(1) As soon as practicable after the date of the enactment of this Act, the employee stock ownership plan of the Corporation (hereafter in this subsection referred to as the "ESOP") shall be amended to provide that—

(A) the shares of the ConRail Equity Corporation preferred stock held by the ESOP shall be surrendered by the ESOP in exchange for an equal number of shares of the common stock of the Corporation, and such common stock of the Corporation shall be allocated by the ESOP to the same persons in the same amounts as the shares of ConRail Equity Corporation preferred stock had been allocated; and

(B) the remaining shares of the ConRail Equity Corporation preferred stock held by the Corporation shall be cancelled, and an equal number of shares of the common stock of the Corporation shall be contributed by the Corporation to the ESOP, which shares shall be allocated by the ESOP to the ESOP participants in accordance with the formula set forth in section 2 of Article II of Part III of the Definitive Agreement referred to in subsection (d)(1), and in accordance with a comparable formula for present and former employees of the Corporation not covered by such section of the Definitive Agreement, except that no contribution by the Corporation to the ESOP shall be made which would affect the status of the ESOP, or of any of the employee benefit plans maintained by the Corporation or any affiliate of the Corporation, as an employee stock ownership plan under the Internal Revenue Code of 1954.

(2)(A)(i) As soon as practicable after the expiration of 90 days after the sale date, the ESOP shall distribute all of the stock in the accounts of its participants and beneficiaries, except as provided in clause (ii).

(ii) Fractional shares shall not be distributed under clause (i). Shares equal to the aggregate amount of fractional shares shall be surrendered by the ESOP and redeemed by the Corporation for cash at the average closing price for the common stock of the Corporation on a national securities exchange for the 10 business days immediately preceding the date of distribution under clause (i), or, if the common stock of the Corporation is not listed on a national securities exchange, at the average closing price for such stock for such 10 business days as appearing in any regularly published reporting or quotation service, and the proceeds of such redemption shall be distributed by the ESOP to the same participants and beneficiaries and the same amounts as the fractional shares had been allocated.

(B) After completing the distribution under subparagraph (A), the ESOP shall terminate.

(3) The Corporation shall distribute any shares of its common stock which, because of the exception under paragraph (1)(B), could not be contributed to the ESOP to those persons to whom the ESOP would have allocated such shares pursuant to paragraph (1)(B) had such shares been contributed to the ESOP.

(4) For purposes of Rule 144 promulgated under the Securities Act of 1933, each share of the common stock of the Corporation distributed under this subsection shall be deemed to have been beneficially owned by the recipient, as of the date of such distribution, for a period of three years.

SEC. 115. ESSENTIAL RAIL SERVICE LOAN GUARANTEES.

At any time before the expiration of the ten year period beginning on the date of the enactment of this Act, the Secretary of Transportation may, if the Corporation requests and the Secretary of Transportation determines that it is in the public interest and is necessary for the Corporation to continue to provide essential rail service, arrange to guarantee a loan or loans of up to a total of $500,000,000, under such terms and conditions as the Secretary of Transportation shall prescribe, which may include representation on the Board of Directors of the Corporation by the Secretary of Transportation and the Secretary of the Treasury, or their designees.

SEC. 116. CERTAIN ENFORCEMENT RELIEF.

(a) ENFORCEMENT ACTIONS.—The Secretary of Transportation, with respect to any provision of section 111 or 112, and any person who suffers direct economic injury as a result of an alleged violation by the Corporation, with respect to the provisions of section 111(a) (1) and (2), and (b)(2), and section 112, may bring an action to require compliance with such provision.

(b) SPECIAL COURT.—Any action brought under this title shall be brought before the special court established under section 209 of the Regional Rail Reorganization Act of 1973. Such special court may limit the enforcement of a restriction under section 111, if the effect of such restriction would be to substantially impair the continued viability of the Corporation.

SUBTITLE C—MISCELLANEOUS TECHNICAL AND CONFORMING AMENDMENTS AND REPEALS

SEC. 121. ABOLITION OF UNITED STATES RAILWAY ASSOCIATION.

(a) ABOLITION.—Effective January 1, 1987, the United States Railway Association is abolished.

(b) TRANSFER OF SECURITIES AND RESPONSIBILITIES.—(1) Any securities of the Corporation held by the United States Railway Association shall, upon the date of the enactment of this Act, be transferred to the Secretary of Transportation.

(2) If, on the date the United States Railway Association is abolished under subsection (a), such association shall not have completed the termination of its affairs and the liquidation of its assets, the duty of completing such winding up of its affairs and liquidation shall be transferred to the Secretary of Transportation, who for such purposes shall succeed to all the powers, duties, rights, and obligations of such association.

(c) FINANCING AGREEMENT.—(1) On January 1, 1987, the Amended and Restated Financing Agreement, dated May 10, 1979, between the United States Railway Association and the Corporation, together with any and all rights and obligations of or on behalf of any person with respect to such agreement, shall terminate and be of no further force or effect, except for those provisions specifying terms and conditions for payments made to the United States with respect to debentures, preferred stock, and contingent interest notes.

(2) Effective as of the sale date, those provisions of the Financing Agreement referred to in paragraph (1) shall terminate.

SEC. 122. APPLICABILITY OF REGIONAL RAIL REORGANIZATION ACT OF 1973 TO CONRAIL AFTER SALE.

Section 301 of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 741) is amended by adding at the end thereof the following new subsection:

"(k) GOVERNING PROVISIONS AFTER SALE.—The provisions of this Act shall not apply to the Corporation and to activities and other actions and responsibilities of the Corporation and its directors and employees after the sale date, other than with regard to—

"(1) section 102;

"(2) section 201(d);

"(3) section 203, but only with respect to information relating to proceedings before the special court established under section 209(b);

"(4) section 209, other than subsection (f) thereof;

"(5) section 216(f)(8), but only as such authority applies to activities related to the ESOP and related trust before the sale date;

"(6) section 216(f)(9), but only as such indemnification applies to activities relating to the ESOP and related trust before the sale date;

"(7) section 216(f)(10) with respect to all securities of the Corporation issued or transferred before the sale date and all securities of ConRail Equity Corporation and all interests in the ESOP;

"(8) section 217 (c) and (e);

"(9) subsection (b) of this section, but only with respect to matters covered by the last sentence of such subsection;

"(10) subsection (i) of this section, but only as such authority applies to service as a director of the Corporation before the sale

of the interest of the United States in the common stock of the Corporation;

"(11) section 302, but only to the extent of (A) the creation and maintenance of the power and authority of the Corporation to operate rail service and to rehabilitate, improve, and modernize rail properties, and (B) the creation and maintenance of the powers of the Corporation as a railroad in any State in which it operates as of the sale date;

"(12) section 303(b) (1) and (2), but only to the extent of establishing the legal effect of the conveyance of property ordered and of the deeds and other instruments executed, acknowledged, delivered, or recorded in connection therewith and the quality of title acquired in such property;

"(13) section 303(b)(3)(B) with respect to the effect of the assignment, conveyance, or assumption as set forth in the last sentence of such subparagraph (B);

"(14) section 303(b)(5);

"(15) section 303(b)(6), but only with respect to establishing and maintaining the rights of the Corporation with respect to, limiting its obligations with respect to, and establishing the status of, the employee pension and welfare benefit plans transferred to the Corporation thereunder and with respect to the exclusivity of the jurisdiction of the special court and the limitation of jurisdiction of other courts;

"(16) section 303(e);

"(17) section 304, but only with respect to the finality of abandonments completed before the sale date pursuant to the authority thereof;

"(18) section 304, but only as to the effect, and continuing administration, of supplemental transactions consummated before the sale date;

"(19) section 308, but only (A) as to the finality of abandonments completed before the sale date and (B) as to abandonments of lines where a notice or notices of insufficient revenues with respect to such lines have been filed before November 1, 1985;

"(20) section 601(a)(2), but only with respect to activities before the sale date;

"(21) section 601 (b)(2) and (b)(3), but only with respect to issuance of and transactions in any security of the Corporation before the sale date;

"(22) section 702(e);

"(23) section 703;

"(24) section 704;

"(25) sections 706(a), 707, and 708(a), but only insofar as they establish part of the prevailing status quo for the Corporation's employees' rates of pay, rules, and working conditions, such provisions to continue to apply unless changed pursuant to section 6 of the Railway Labor Act;

"(26) section 709;

"(27) section 710(b)(1);

"(28) section 711; and;

"(29) section 714, but only with regard to disputes or controversies specified in such section that arose before the sale date.".

SEC. 123. MISCELLANEOUS AMENDMENTS AND REPEALS.

(a) REGIONAL RAIL REORGANIZATION ACT OF 1973 REPEALS.—The following provisions of the Regional Rail Reorganization Act of 1973 (together with any items relating to such provisions contained in the table of contents of such Act) are repealed:

(1) Title IV (45 U.S.C. 761 through 769c).

(2) Section 713 (45 U.S.C. 7971).

(b) REGIONAL RAIL REORGANIZATION ACT OF 1973 AMENDMENTS.—(1) Section 102 of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 702) is amended by inserting after paragraph (17) a new paragraph as follows:

"(17A) 'sale date' means the date on which the initial public offering of the securities of the Corporation is closed under the Conrail Privatization Act;".

(2) Section 217(c) of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 727(c)) is amended by striking ", until the property" and all that follows, and inserting in lieu thereof "the statutory payment date of which, determined without regard to any extensions of time for filing, occurs on or before January 1 of the year in which the sale date occurs, but in no event before January 1, 1987.".

(3) Section 217(e) of such Act (45 U.S.C 727(e)) is amended by striking "and shall collect".

(c) AMENDMENTS AND REPEALS OF OTHER RAIL LAWS.—(1)(A) Section 1152 of the Northeast Rail Service Act of 1981 (45 U.S.C 1105 is amended—

(i) by inserting "or title I of the Conrail Privatization Act" after "subtitle" each place it appears; and

(ii) in the second sentence of subsection (c), by inserting ", as the case may be," after the insertion made by clause (i) of this subparagraph.

(B)(i) The following provisions of the Northeast Rail Service Act of 1981 are repealed:

(I) Section 1154 (45 U.S.C. 1107).

(II) Section 1161 (45 U.S.C. 1110).

(III) Section 1166 (45 U.S.C. 1114).

(IV) Subsection (c) of section 1167 (45 U.S.C. 1115).

(ii) The items relating to such sections 1154, 1161, and 1166 in the table of contents of such Act are repealed.

(2) Section 501(8) of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 821(8)) is amended by striking out "(A)" and by striking out all that follows "improved asset utilization;".

(3) Section 505 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 825) is amended—

(A) in subsection (a)(1), by striking out all after "railroad" through "1981)"; and

(B) in subsection (b)(2)(C), by striking out all after "costs" the second time it appears through "subsidy".

(4) Subsection (b)(1) of section 509 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 829) is repealed.

(5) Section 511(e) of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 831(e)) is amended—

(A) by striking out "(1)" in the first paragraph;

(B) by striking all that follows "time" in the first paragraph and inserting in lieu thereof a period; and

(C) by striking out paragraph (2).

(6) Section 402 of the Rail Safety and Service Improvement Act of 1982 (45 U.S.C. 825a) is repealed.

(7) Section 10362(b)(7)(A) of title 49, United States Code, is amended by striking out "by the Consolidated Rail Corporation or".

(d) PLAN FOR CONTINUATION OF RAIL SERVICE.—In the event the Corporation files for bankruptcy, the Secretary of Transportation shall develop and submit to the appropriate court a reorganization plan for the Corporation which maximizes rail service and transportation competition. Such court shall give substantial weight to the Secretary's plan.

SEC. 124. LIABILITY OF DIRECTORS.

(a) IN GENERAL.—No person referred to in section 216(f)(8)(C)(i), (ii), or (iii) of the Regional Rail Reorganization Act of 1973 shall be liable, for money damages or otherwise, to any party by reason of the fact that such person is or was a director, if, with respect to the subject matter of the action, suit, or proceeding, such person was fulfilling a duty which such person in good faith reasonably believed to be required by law or vested in such person in his capacity as a director of the Corporation, in connection with any action taken under this title.

(b) EXCEPTION.—This section shall not apply to claims arising out of the Securities Act of 1933, the Securities Exchange Act of 1934, or the Constitution or laws of any State, territory, or possession of the United States relating to transactions in securities, which claims are in connection with a public offering under section 102 of this Act.

SEC. 125. CHARTER AMENDMENT.

Within 60 days after the date of the enactment of this Act, the Corporation shall amend its Articles of Incorporation to contain the following provision, which provision shall not be subject to amendment or repeal:

"It shall be a fundamental purpose of the Corporation to maintain continued rail service in its service area.".

SEC. 126. STATUS OF CONRAIL AFTER SALE.

The Corporation shall be a rail carrier as defined in section 10102(19) of title 49, United States Code, notwithstanding this title.

SEC. 127. EFFECT ON CONTRACTS.

Nothing in this title shall affect any obligation of the Corporation to carry out its transportation contracts and equipment leases, equipment trusts, and conditional sales agreements, in accordance with their terms.

SEC. 128. RESOLUTION OF CERTAIN ISSUES.

(a) EMPLOYEE ISSUES.—Section 114 completely and finally—

(1) extinguishes all employee rights, and any obligation of the United States, under section 401(e) of the Regional Rail Reorganization Act of 1973 as in effect immediately before the date of the enactment of this Act;

(2) resolves any and all claims against the Corporation or any other entity arising under the Definitive Agreement referred to in section 114(d)(1);

(3) resolves all claims to pay entitlements arising out of the pay increase deferrals by present and former employees of the Corporation under the Agreement of May 5, 1981, between Contrail and Certain Labor Organizations for Labor Contributions to Self-Sufficiency for Conrail;

(4) resolves all issues raised by notices served by representatives of such employees under section 6 of the Railway Labor Act proposing repayment of or compensation for such deferrals; and

(5) resolves all claims against the Railway Labor Executives' Association or the Corporation by any adviser, consultant, or other person who has provided services to such association in connection with any matter referred to in this title.

(b) CORPORATION ACTIONS.—The Corporation shall not be considered to be in breach, default, or violation of any agreement to which it is a party, notwithstanding any provision of such agreement, because of any provision of this title or any action the Corporation is required to take under this title.

(c) RIGHT TO SUE WITHDRAWN.—The United States hereby withdraws any stated or implied consent for the United States, or any agent or officer of the United States, to be sued by any person with respect to any claimns for damages or other monetary compensation arising out of this title.●

By Mr. BIDEN (for himself, Mr. BOSCHWITZ, and Mr. PELL):

S. 2834. A bill to require specific congressional authorization for certain sales, exports, leases, and loans of defense articles; to the Committee on Foreign Relations.

ARMS EXPORT REFORM ACT

● Mr. BIDEN. Mr. President, only under the rarest circumstances could we expect a decision of the Supreme Court of the United States to have a direct and significant bearing on the conduct of the foreign policy of the United States. But in 1983 precisely that occurred when the Court rendered its famous *Chadha* decision, which held unconstitutional the legislative veto procedure which had been written into numerous laws of a wide variety.

THE PRE-CHADHA SYSTEM

One such statute—a most significant one—was the Arms Export Control Act. Under the complex provisions of that law, a procedure had been established enabling Congress to receive advance notification of significant U.S. arms transfers to foreign nations and to disapprove such transfers by the mechanism of a concurrent resolution. The act stipulated three thresholds beyond which a sale is subject to congressional disapproval: $14 million for major defense equipment—meaning sophisticated weapons or hardware—$50 million for any defense article or service; and $200 million for design and construction projects.

Disapproval by concurrent resolution meant that if a majority in both Chambers opposed a sale, the sale would not transpire. Conversely, a President would prevail in executing a proposed arms sale if he could win a majority in either Chamber—enough, that is, to prevent the passage of a concurrent resolution.

As it happened, no proposed arms transfer was ever blocked by Congress using that mechanism. But the very existence of the procedure did ensure that any administration would give careful consideration to the support or opposition a contemplated sale might encounter in Congress. On several occasions, the reality of congressional authority in the arms sales area has caused proposals to be modified or abandoned, the latter having occurred most recently in the case of a contemplated sale to Jordan.

THE CURRENT SYSTEM

This year, pursuant to an initiative by Senator CRANSTON, Congress took the necessary legislative steps to adapt the Arms Export Control Act to the ruling in Chadha. The Cranston bill revised the act to provide that Congress could disapprove a sale by means of joint resolution—a procedure obviously constitutional, even in view of the Chadha decision, because a joint resolution represents the fresh enactment of a full new law. The continued process of congressional notification, combined with the expedited legislative procedure stipulated by the Arms Export Control Act, meant that Congress would still be certain of the opportunity to review all proposed sales and, in the event of a controversial sale, to express its will promptly.

Unfortunately, events of recent weeks surrounding a major arms sale to Saudi Arabia have shown the weakness of the post-Chadha system. Originally envisaged as a multibillion-dollar deal, the sale was whittled down, in anticipation of congressional opposition, to a level of $354 million, and then reduced again to a level of $265 million in deference to congressional concern about the transfer of Stinger missiles. The final outcome was nonetheless most extraordinary and disturbing: a massive, intensely controversial arms sale to Saudi Arabia survived on the basis of support from one-sixth of the House of Representatives and one-third plus one in the Senate.

A BETTER SYSTEM

Mr. President, I believe strongly that the major foreign policy business of the United States must be conducted on the basis of far stronger support from the Congress. If a President's tools of leadership and persuasion cannot prevail—to the extent of winning majority congressional support on a fundamental issue—there is sound reason for reconsideration of the policy. This principle applies to aid to the Nicaraguan Contras, and it applies to arms sales to Saudi Arabia.

It is to prevent any recurrence of the sharp deviation from that principle, such as we have just experienced in the case of the Saudi sale, that I am today introducing the Arms Export Reform Act. We have on occasion seen an unholy alliance between U.S. arms manufacturers anxious to increase sales and administrations anxious to appease regional client-states. This legislation would restore the checks and balances needed to prevent the casual distribution abroad of frontline U.S. weapons. Ideally, it will induce in the executive branch sufficient foresight and prudent consideration of arms sales that Congress will seldom move to exercise the powers of prevention that the legislation provides.

Cosponsors of this legislation are Senators BOSCHWITZ and PELL; while in the House companion legislation is being introduced by Congressman MEL LEVINE, along with Congressmen CHRIS SMITH, LARRY SMITH, BRUCE MORRISON, and CONNIE MACK. I wish to note with special appreciation, however, the contribution of Senator PELL, the Foreign Relations Committee's distinguished ranking member, who has worked very ably with me in shaping the content of this bill.

The legislation would build on the Arms Export Control Act, amending the act in two significant ways, both fully harmonious with—and indeed designed to uphold—the act's original spirit and intent.

(1) SALES SUBJECT TO DISAPPROVAL: A NEW CRITERION

The first change concerns the definition of sales which shall be subject to congressional consideration. The Arms Export Control Act, in both its original and current form, has defined such sales according to the monetary thresholds I cited earlier: $14 million for major defense equipment; $50 million for any defense article or service; and $200 million for design and construction projects. Any contemplated sale above these levels has required formal notification to Congress, which may then act to disapprove.

Under the revised system embodied in our bill, Congress would continue to receive notification of all sales above these thresholds and would thereby continue to monitor the overall flow of U.S. arms transfers. What would change, however, is the criterion governing which U.S. sales shall be subject to congressional action. A decade of experience with the Arms Export Control Act has demonstrated that congressional concern about a proposed arms deal has never been triggered by the dollar amount per se. Rather, congressional challenges of sales have occurred because of the sensitivity—the quality and technological sophistication—of the weapons to be transferred. In short, we have been interested in jets, not hangar and runway construction; in AWACS, not routine radar equipment; in tanks, not trucks and jeeps; in warships, not harbor dredging and port facilities.

Accordingly, the revised law would, for all sales of nonsensitive weapons and equipment, completely eliminate the congressional review process and all attendant delay, leaving in place only the notification requirement for sales above the three thresholds. But, meanwhile, the new law would require that all sales of sensitive weaponry, in any dollar amount, be subject to congressional review and action.

Weapons and equipment defined as sensitive would be generically identified in law as:

Those items of types and classes currently used or to be used by the Armed Forces of the United States (other than the Army National Guard or the Air National Guard or a Reserve component of an Armed Force of the United States), or produced solely for export, as follows:

turbine-powered military aircraft; rockets; missiles; anti-aircraft artillery; and associat-

ed control, target acquisition, and electronic warfare equipment and software;

helicopters designed or equipped for combat operations;

main battle tanks and nuclear-capable artillery; and

submarines, aircraft carriers, battleships, cruisers, destroyers, frigates, and auxiliary warships.

The effect of this change would be to focus the review system where it should be focused, while allowing the executive branch to proceed routinely on matters that experience has shown to be routine.

(2) THE MECHANISM OF CONGRESSIONAL APPROVAL/DISAPPROVAL

The second change concerns the mechanism by which Congress may reflect its will on a sale subject to congressional action. Current law distinguishes two categories of nations. The first consists of NATO member countries, ANZUS member countries, and Japan. Because the strong presumption in the case of sales to any of these nations is that Congress will be favorably disposed, the Arms Export Control Act has provided an abbreviated period of congressional consideration. Sales to all other nations fall into the second category and are subject to regular review and consideration.

The legislation we are introducing today would provide for absolutely no change in the favored standing of sales to nations in the first category. It would, moreover, add to that category any "country which is a party to the Camp David accords or an agreement based on such accords," which at this point means Israel and Egypt. As expanded, this category could be described as consisting of nations with which we are formally allied and those that are traditionally the major recipients of American military aid. Because a very clear consensus underlies U.S. arms transfers to each and all of these nations, the law would continue to reflect a presumption in favor of such transfers, which would remain subject only to a joint resolution of disapproval.

What would change, under this new legislation, is the procedure governing the sale of highly sophisticated weaponry to all other nations. For them, a new procedure would be established, requiring affirmative congressional action to approve any major sale. This would mean that there would not be—as there should not be—a presumption in favor of any such transfer. Instead, the proposed transfer of frontline U.S. arms would have to obtain a majority of support in both Houses—rather than a mere one-third plus one in either House, as in the current system. There would, however, be a stipulation allowing the President to bypass the need for such congressional approval if he certified, and detailed the existence of, an emergency requiring a sale in the vital national security interests of the United States.

COMPARING THE ORIGINAL, CURRENT, AND PROPOSED SYSTEMS

In response to any charge that such legislation would bring Congress into the role of "micro-managing" U.S. arms sales policy, let me emphasize that in fact the reverse is true. This legislation would ease present requirements on the legislative and executive branches while focusing energy and attention on those sales that truly should be decided upon jointly—sales involving sensitive, frontline weapons and equipment.

As to congressional notification, proposed sales above the threshold levels would be subject to the smoothly operating information procedures now in effect, allowing Congress to stay abreast of the flow of U.S. arms transfers.

As to the treatment of noncontroversial sales, which Congress has heretofore dealt with through inaction, the proposed system would offer substantial improvement. In the case of nonsensitive items, the new law would free the sale to proceed automatically, with neither congressional review nor delay, regardless of the dollar amount. Similarly, in the case of sensitive equipment going to allies and key arms aid recipients, no congressional action would be required, since the current mechanism—a joint resolution of disapproval—would remain in effect. Only in the case of sensitive equipment going to other nations would the procedure become somewhat more demanding—but only slightly so, since the executive branch and Congress could easily package noncontroversial sales for routine congressional approval, either by resolution or by ad hoc amendment to regular legislation. A provision for expedited procedure would guarantee prompt congressional consideration.

Finally, as to the treatment of controversial sales, the proposed system would, as always, provide for a vote, but with an approval standard much closer to the original system—and to what is reasonable—than the post-Chadha system under which we are now operating. Whereas the current system allows the President to implement his proposal with the bare support of merely one-third plus one in either House, the original system required that he obtain a full majority of support in at least one House. The proposed system, in only slight contrast to the original pre-Chadha system, would require that the President gain majority support in both Houses.

Let me summarize what I believe to be the virtues of this new system:

First, this legislation completely removes all nonsensitive sales from the system of congressional control.

Second, sales of sensitive weaponry to countries in the "consensus" category will require, as now, no affirmative action.

Third, those sales which will now require affirmative action, but which are noncontroversial, can be easily packaged and approved as routinely as noncontroversial political appointments or military promotion lists.

Finally, a controversial sale of sensitive equipment will, as always, result in a debate and a vote—but one requiring that the President obtain not a mere one-third-plus-one in one House, but a majority in both Houses.

The cosponsors of this legislation believe that this standard represents precisely the degree of congressional support that should underlie any major foreign policy decision, and that this system represents precisely the way Congress and the executive branch should interact in shaping American foreign policy.

Mr. President, trusting that many of my colleagues will agree, I now—on behalf of Senators BOSCHWITZ and PELL, and in conjunction with Congressman MEL LEVINE and other House cosponsors—introduce "The Arms Export Reform Act of 1986" in anticipation that the Foreign Relations Committee will hold hearings on this legislation in the near future. If enacted, this legislation would repair the damage done to the original Arms Export Control Act by the Chadha decision; it would focus the arms transfer review process where it belongs—on our most sensitive, sophisticated weaponry; and it would establish an approval standard which the Constitution implies and which time has shown to be wise: affirmative congressional concurrence in major foreign policy decisions.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2834

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Arms Export Reform Act of 1986".

SEC. 2. (a) Notwithstanding any other provision of law, in the case of—

(1) any letter of offer to sell under the Arms Export Control Act,

(2) any application by a person (other than with regard to a sale under section 21 or 22 of the Arms Export Control Act) for a license for the export of, or

(3) any agreement involving the lease under chapter 6 of the Arms Export Control Act, or the loan under chapter 2 of part II of the Foreign Assistance Act of 1961, to any foreign country or international organization for a period of one year or longer of, any item described in subsection (d), before such letter of offer or license is issued or before such agreement is entered into or renewed, the President shall submit to the Speaker of the House of Representatives and to the chairman of the Committee on Foreign Relations of the Senate a numbered certification containing—

(A) in the case of a letter of offer to sell, the information described in section 36(b)(1) of the Arms Export Control Act and section 36(b)(2) of such Act, as redesignated by section 3(a)(2) of this Act,

(B) in the case of a license for export (other than with regard to a sale under section 21 and 22 of such Act), the information described in section 36(c) of such Act, as amended by section 3(b)(1) of this Act, and

(C) in the case of such an agreement, the information described in section 62(a) of such Act unless section 62(b) of such Act applies,

without regard to the dollar amount of such sale, export, lease, or loan.

(b) Notwithstanding any other provision of law and except as provided in subsection (e)—

(1) no letter of offer may be issued under the Arms Export Control Act with respect to a proposed sale,

(2) no license may be issued under such Act with respect to a proposed export, and

(3) no lease may be made under chapter 6 of such Act and no loan may be made under chapter 2 of part II of the Foreign Assistance Act of 1961,

of any item described in subsection (d) to a country or international organization (other than a country or international organization described in subsection (c)) unless the Congress enacts a joint resolution or other provision of law authorizing such sale, export, lease, or loan, as the case may be.

(c) Except as provided in subsection (e), no such letter of offer or license may be issued and no such lease or loan may be made with respect to a proposed sale, export, lease, or loan, as the case may be, of any item described in subsection (d) to the North Atlantic Treaty Organization (NATO), any member country of such Organization, Japan, Australia, New Zealand, or any country which is a party to the Camp David Accords or an agreement based on such Accords, if the Congress within fifteen calendar days after receiving the appropriate certification enacts a joint resolution prohibiting the proposed sale, export, lease, or loan, as the case may be.

(d) The items referred to in subsections (b) and (c) are those items of types and classes currently used or to be used by the Armed Forces of the United States (other than the Army National Guard or the Air National Guard or a Reserve component of an Armed Force of the United States) or produced solely for export, as follows:

(1) turbine-powered military aircraft; rockets; missiles; anti-aircraft artillery, and associated control, target acquisition, and electronic warfare equipment and software;

(2) helicopters designed or equipped for combat operations;

(3) main battle tanks and nuclear-capable artillery; and

(4) submarines, aircraft carriers, battleships, cruisers, frigates, destroyers, and auxiliary warships.

(e) The requirements of subsections (b) and (c) shall not apply if the President states in his certification that an emergency exists which requires the proposed sale, export, lease, or loan, as the case may be, in the vital national security interests of the United States. If the President so states, he shall set forth in the certification a detailed justification for his determination, including description of the emergency circumstances which necessitate the immediate issuance of the letter of offer or license for export or lease or loan and a discussion of the vital national security interests involved.

(f)(1) Except as otherwise provided in this paragraph and paragraph (3), any joint resolution under subsection (b) or (c) shall be considered in the Senate in accordance with the provisions of section 601(b) of the International Security Assistance and Arms Export Control Act of 1976. For purposes of consideration of a joint resolution under subsection (c)(1), the motion to discharge provided for in section 601(b)(3)(A) of such Act may be made at the end of 5 calendar days after the resolution is introduced. If a joint resolution under subsection (b) deals with more than one certification, the references in section 601(b)(3)(A) of such Act to a resolution with respect to the same certification shall be deemed to be a reference to a joint resolution which relates to all of those certifications.

(2) For the purpose of expediting the consideration and adoption of joint resolutions under subsections (b) and (c), a motion to proceed in the House of Representatives to the consideration of any such resolution after it has been reported by the committee on Foreign Affairs shall be highly privileged.

(3) If the text of a joint resolution under subsection (b) contains more than one section, amendments which would strike out one of those sections shall be in order, but amendments which would add an additional section shall not be in order.

(4)(A) The joint resolution required by subsection (b) is a joint resolution the text of which consists only of one or more sections, each of which reads as follows: "The proposed —— to ———— described in the certification submitted pursuant to section 2(a) of the Arms Export Reform Act of 1986 which was received by the Congress on (Transmittal number ——) is authorized.", with the appropriate activity, whether sale, export, lease, or loan, and the appropriate country or international organization, date, and transmittal number inserted.

(B) The joint resolution required by subsection (c) is a joint resolution the text of which consists of only one section, which reads as follows: "That the proposed to —— described in the certification submitted pursuant to section 2(a) of the Arms Export Reform Act of 1986 which was received by the Congress on (Transmittal number ——) is not authorized.", with the appropriate activity, whether sale, export, lease, or loan, and the appropriate country or international organization, date, and transmittal number inserted.

SEC. 3. (a) Section 36(b) of the Arms Export Control Act is amended—

(1) by striking out the last two sentences of paragraph (1) and by striking out paragraphs (2) and (3); and

(2) by redesignating paragraphs (4) and (5) as paragraphs (2) and (3), respectively.

(b) Section 36(c) of such Act is amended—

(1) by striking out "(c)(1)" and inserting in lieu thereof "(c)"; and

(2) by striking out paragraphs (2) and (3).

(c)(1) Section 62(a) of such Act is amended by striking out "Not less than 30 days before" and inserting in lieu thereof "Before".

(2) Section 63 of such Act is repealed.

(3) Section 64 of such Act is redesignated as section 63.

SEC. 4. The provisions of this Act shall apply with respect to any letter of offer or license for export issued, or any lease or loan made, after the date of enactment of this Act.●

ARMS EXPORT REFORM ACT

Mr. PELL. Mr. President, the Senator from Delaware [Mr. BIDEN] and I, together with the Senator from Minnesota [Mr. BOSCHWITZ], are introducing today major legislation to reform the procedures governing the export of American arms. Identical legislation is being introduced in the House. We hope to gather support this year and to press forward vigorously toward passage next year.

The Arms Export Control Act was passed originally in 1968 to establish a framework of objectives and controls to govern arms transfers. The act has been amended a number of times over the years to provide for better congressional controls, including veto of transfers by concurrent resolution, when Congress concluded particular sales were against U.S. interests. In 1983, however, the Chadha decision held vetoes by concurrent resolution unconstitutional. Earlier this year, the Congress amended the act to provide for disapproval by joint resolution, a step compatible with the Chadha ruling, since a joint resolution has independent standing as law. However, the weakness of the new system was demonstrated this spring as a massive, intensively controversial missile sale to Saudi Arabia survived on the basis of support from a mere one-sixth of the House and one-third plus one in the Senate.

As it happens, no arms transfer has ever been blocked by Congress through the use of the disapproval mechanism. Nonetheless, the existence of the procedure and the prospect that the Congress could block an unwise transfer did ensure that the executive branch would give careful consideration to the view of Congress. On several occasions, most recently with regard to a proposed sale to Jordan, the reality of congressional authority caused sales to be abandoned. In other instances, modification was achieved. Unfortunately, the Saudi sale experience demonstrates most clearly that congressional ability to stop even the least justifiable of sales when such sales come to a vote has dwindled to the point of insignificance. We believe that situation to be intolerable.

Accordingly, we have authored the Arms Export Reform Act of 1986 to establish procedures which are a clearly constitutional means of dealing with the Chadha-related problem and to solve other concerns which have emerged over the years of experience with the act. In brief, our bill would:

Change the standard upon which Congress passes judgment on proposed arms transfers from one based on dollar value one based on the sensitivity or sophistication of equipment. This would allow Congress to focus on equipment that is of significance be-

cause of what it is, not how much it costs.

Keep the present reporting requirements for proposed sales, but abolish the provisions for the disapproval of such sales on the basis of their dollar value, as well as the delay period of 30 days. Thus, the executive branch would be free to agree to transfers and deliver on those promises in cases involving nonsensitive equipment.

Require, for most countries, that Congress give affirmative approval for a sensitive transfer, in lieu of the present system under which Congress must disapprove a Presidential proposal. Thus, transfers would be made if a simple majority in Congress agreed, instead of the present system in which two-thirds are needed to disapprove. Prospects for joint executive branch-congressional decisions would be improved, and we would move away from the present system, which so often puts the Congress and executive branch at loggerheads.

Retain the favored status of NATO, ANZUS, and Japan, and give comparable status to Egypt, Israel, and any future joiners of the Camp David peace process, and here I am thinking particularly of the possibility of Jordan. Sales to those countries could only be stopped if Congress disapproved under expedited procedures within 15 days.

Finally, establish comparable procedures governing FMS sales, commercial sales and leases—thus correcting differences which have complicated matters to no advantage.

Mr. President, the list of weapons which would require congressional approval before being provided to most nations is as follows:

First, turbine-powered military aircraft; rockets; missiles, antiaircraft artillery and associated control, target acquisition, and electronic warfare equipment and software;

Second, helicopters designed or equipped for combat operations;

Third, main battle tanks and nuclear-capable artillery; and

Fourth, submarines, aircraft carriers, battleships, cruisers, frigates, destroyers, and auxiliary warships.

This equipment is now in use by our own Army, Navy, Air Force, and Marines, as well as the forces of our closest friends and allies. That equipment could constitute the edge we and our friends and allies may need in confrontation or in conflict. We should never allow it to be sold to nations which might use it to threaten or attack us and our friends and allies.

Arms sales should not be allowed to be a matter of dollars only. They should also be a matter of sense—the sense of the Congress and executive branch together as to what sales and what restraint are right. I am deeply convinced that the changes this bill would bring about would promote the cooperation—in lieu of confrontation—between Congress and the executive branch which is sorely needed in this area.

Mr. President, I am further convinced that the approach toward arms exports which this bill would bring about would set an excellent example for other arms suppliers. I hope that it could help set the stage for the resumption of talks among the suppliers leading to true conventional arms restraint.

The suppliers must get serious about multilateral arms restraint if we are to avoid a no-holds-barred competition that will only undermine stability in regions throughout the world, increase risks to our friends and allies, and promote conflict as a substitute for diplomacy.

In addition, nations in areas of potential conflict should give serious attention to the development of regional arms control arrangements, which the suppliers should pledge themselves to respect. Given the basic human needs which are going unfulfilled throughout so much of the developing world, it is simply irresponsible for the leaders of the poor nations to do otherwise than to constrain their military acquisition. Regional restraint is an excellent and virtually untried way to lessen requirements for arms. True restraint will be possible when leaders understand that the purchase price of arms is only part of their cost.

It amazes me that most of the world's nations appreciate the threat of nuclear proliferation and have been willing to join in a common effort in the 1968 Non-Proliferation Treaty, but that most of these same nations see little urgency associated with conventional arms restraint. We have not seen nuclear weapons used in war for over 40 years, but we see conventional weapons used with devastating effect every day.

Mr. President, true restraint by suppliers and recipients will take years to achieve, if it can be accomplished at all. I have no illusions about that, nor should any of us. However, the concepts incorporated into this bill will do much to help the United States develop a rational arms export policy which reflects both a clear willingness to help our friends and allies, and restraint in the transfers of our most sensitive armaments. With such policies for ourselves, we would be in an excellent position to play a leadership role in forging agreements and understandings with other nations—both sellers and buyers of arms.

All told, this act would move in the direction of trying to restrain the spread of conventional weapons around the world and trying to put a blanket on the instinct of so many developing nations to try to get a weapons system because a neighbor has a similar one. One neighbor has a destroyer and the next a cruiser, and they go back and forth.

I hope very much that this proposal will meet with the approval of our colleagues.

By Mr. BINGAMAN (for himself, Mr. DECONCINI, Mr. SIMON, Mr. CRANSTON, Mr. GORE, Mr. SARBANES, Mr. MOYNIHAN, Mr. MATSUNAGA, and Mr. METZENBAUM):

S. 2835. A bill to establish literacy programs for individuals of limited English proficiency; to the Committee on Labor and Human Resources.

ENGLISH PROFICIENCY ACT

Mr. BINGAMAN. Mr. President, I rise to introduce the English Proficiency Act, legislation intended to raise the literacy skills of persons whose native language is other than English. This legislation is the companion to the House version, H.R. 5042, introduced by Representative MARTINEZ and cosponsored by 59 of his colleagues at this point. I am pleased to complement the efforts of this distinguished group. I am also pleased to include Senators DECONCINI, SIMON, CRANSTON, GORE, SARBANES, MOYNIHAN, METZENBAUM, and MATSUNAGA as original cosponsors of the Senate legislation.

The statistics show the ever-growing number of Americans who are functionally illiterate—who cannot use the English language for practical purposes. They cannot write their own name, read a road sign, or read the newspaper—skills that depend on being able to read and write English. Current estimates by the Department of Education find that 25 million American adults are considered functionally illiterate. They lack the reading, writing, comprehension, and simple math skills necessary to function beyond the fourth grade. Another equally large number of Americans are considered only marginally literate—their basic skills ranging between the fifth through eighth grade levels.

EDUCATIONAL IMPROVEMENTS NEEDED

The Carnegie Forum on Education and the Economy in May released its landmark report, "A Nation Prepared: Teachers for the 21st Century." It warned that unless our country rebuilds its educational system to meet the dramatic changes in our economy, our children will not be prepared for the 21st century. The report said:

> The country is in a trap of our own making. Not all of our children actually master the basic skills. America has a serious functional literacy problem that must be corrected.

Last week, the Senate Democratic Working Group on Economic Competitiveness, which it has been my pleasure to chair, released its report, "Economic Competitiveness Promoting America's Living Standard." Underpin-

ing its recommendations is the critical necessity of a literate work force to secure this country's economic security.

ILLITERACY PROBLEM

A recent Census Bureau survey, conducted jointly with the Department of Education, found that while 13 percent of all U.S. adults are illiterate, the rate for adults whose native language is not English is 48 percent. It found that the fastest growing minority group, the Hispanic community, has a 56-percent functional illiteracy rate. What places this illiteracy rate so high is the fact that the native language of this community is Spanish. Therefore, before the high level of functional illiteracy among Hispanics can be dramatically lowered, the first goal must be to help many of them to become proficient in English. To merely arbitrate literacy without first recognizing the cultural and linguistic background of an individual undercuts the end which we seek to achieve—an educated and contributing citizenry.

ENGLISH PROFICIENCY PROBLEM

There is an important distinction between a "limited English proficient" person and one who is illiterate, yet one may be both. When I speak of limited English proficient I speak of a person who has a limited ability to speak, read, write, or understand English, whose native language is other than English. Illiteracy, as stated before, is the lack of essential knowledge and skills to enable an individual to function effectively in his or her environment.

This distinction is important. The recent report by La Raza, entitled "Illiteracy in the Hispanic Community," found that the lack of appropriate services for limited English proficient children contributes to English illiteracy among Hispanics. Because these children do not receive special language services, they fall farther and farther behind in core subjects at an early age. They simply do not understand the language in which they are being taught.

This legislation does not solve the ongoing bilingual education debate and is not intended to resolve which teaching method is better. Instead, my intent is to bring to the attention of my colleagues the particular needs of certain Americans who need to be given an even chance to read and write English. We know that the rates for illiteracy are especially high for Hispanics and other minorities, notably American Indians. A significant factor is the disproportionately high percentage of these youth leaving high school without a diploma. Department of Commerce figures released in 1985 show that the dropout rate for Hispanics is the highest of any major U.S. subpopulation—45 to 50 percent, and 70 percent in some large urban areas. Equally disturbing is an article in the Albuquerque Journal dated August 23, 1986, stating that the 1985-86 high school dropout rate in New Mexico was the highest among Indian students—12.3 percent, up from 10.2 percent in the previous school year. This means that one of every eight Indian students did not complete high school.

The need for a literate America becomes more critical because we cannot afford as a nation for large segments of our population to be unable to read and write. It is certainly my intent that this legislation include those minority populations which meet the definition of limited English proficient—this includes the Hispanic, the American Indian, and Native Alaskans, and certainly the Asian-Americans, Pacific Islanders, and Native Hawaiians. The demographic trends of our Nation show that by the year 2000, one out of every three Americans will be a member of a minority group. If we fail to address the special educational needs of these groups we will have short changed our future.

ENGLISH PROFICIENCY ACT

Mr. President, I strongly believe that the English Proficiency Act attempts to combat illiteracy and to focus on this underserved population many of whom are limited English proficient. This measure establishes within the Office of Adult Education of the Department of Education a grant program for community-based organizations, local education agencies, tribally controlled schools, institutions of higher learning, public libraries, and prisons. The grants will be made for not more than 3 years and reviewed annually.

The act defines an individual who is of limited English proficiency as an adult or out-of-school youth who has a limited ability to speak, read, write or understand English, and whose native language is a language other than English; or who live in a family or community environment where a language other than English is the dominant tongue.

The act also establishes a program to develop innovative approaches to literacy education for individuals of limited English proficiency. Equally important is the creation of a nationwide clearinghouse on literacy education to collect and disseminate information about effective approaches or methods, with a special emphasis on coordination with other manpower training and education programs.

The bill authorizes $10 million to be appropriated for each of fiscal years 1987, 1988, and 1989. Given that some experts estimate $20 billion annually in direct expenditures for such costs as prisons and welfare, and $100 billion in indirect costs in lost productivity and gross national product, these moneys would be important investments with immediate paybacks for all Americans.

I want to note, Mr. President, that several important organizations are supporting this legislation. I insert for the record at the conclusion of my remarks a letter signed by 34 organizations supporting this bill. Also for the record I insert two letters of support from the National Indian Education Association and the Native American Science Education Association.

I urge my colleagues to support this legislation. It is a modest, yet necessary first step to combat illiteracy among an important group of American citizens.

I ask unanimous consent that a copy of the bill be printed in the RECORD following my remarks.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2835

Be it enacted by the Senate and House of Representatives of the United States of Ameriaca in Congress assembled.

SHORT TITLE

SECTION 1. This Act may be referred to as the "English Proficiency Act".

FINDINGS AND PURPOSE

SEC. 2. (a) FINDINGS.—The Congress finds that—

(1) proficiency in English, the common language of the United States, is essential in Amerian life and a prerequisite to naturalization and the full exercise of civic rights and responsibilities:

(2) limited English literacy is a barrier to participation in the political and economic mainstream of the Nation, diminishing economic competitiveness and restricting citizens participation in democratic processes;

(3) parents who possess limited English literacy skills are unable to be full partners in their children's education resulting in low levels of educational attainment and high dropout rates among those children;

(4) many endeavors which serve the technological, economic and national security interests of the United States require advanced skills among workers in the private and public sector, and a solid foundation of basic skills including proficiency in English is essential in obtaining these complex skills;

(5) it is in the national interest to assist individuals of limited English proficiency to acquire the English language skills to enable them to become full and productive members of society;

(6) significant numbers of adults and out-of-school youth in the United States lack oral English proficiency and functional English literacy skills;

(7) individuals of limited English proficiency include both citizens and non-citizens;

(8) many individuals of limited English proficiency lack English literacy skills because they have not been provided equal educational opportunities by State and local educational agencies;

(9) research and surveys demonstrate that adults of limited English proficiency have a strong desire to achieve full competence in the English language;

(10) existing resources are not sufficient to meet the special needs of individuals of limited English proficiency; and

(11) community-based nonprofit organizations are often the most appropriate entities in providing successful English literacy programs focused on individuals of limited English proficiency.

(b) PURPOSE.—It is the purpose of this Act, in order to promote opportunities for all individuals to achieve literacy in English, to—

(1) encourage the establishment and operation, where appropriate, of English langauge and literacy programs specifically designed and targeted to meet the needs of limited-English proficient persons;

(2) to establish a national clearinghouse to compile information on literacy curriculum and resources for limited-English proficient youth and adults and thereby assist local grantees implementing programs funded under this Act; and

(3) to provide financial assistance to programs in communities which are designed to meet the language and literacy needs of individuals of limited-English proficiency to achieve full competence in English.

DEFINITIONS

SEC. 3. For the purposes of this Act:

(1) The term "individual of limited English proficiency" means an adult or out-of-school youth who has limited ability in speaking, reading, writing, or understanding the English langauge and—

(A) whose native language is a language other than English; or

(B) who live in a family or community environment where a language other than English is the dominant language.

(2) The term "adult" means an individual who has attained 16 years of age.

(3) The term "out-of-school youth" means an individual who is under sixteen years and beyond the age of compulsory school attendance under state law who has not completed high school or the equivalent.

(4) The term "English literacy program" means a protram of instruction designed to help limited English proficient adults, out-of-school youths, or both achieve full competence in the English language.

(5) The term "Secretary" means the Secretary of Education.

(6) The term "community-based organization" means a private nonprofit organization which is representative of a community or significant segments of a community and which provides education, vocational education, job training, or internship services and programs and includes neighborhood groups and organizations, community action agencies, community development corporations, union-related organizations, employer-related organizations, tribal governments, and organizations serving Native Alaskans and Indians.

FINANCIAL ASSISTANCE FOR ENGLISH LITERACY PROGRAMS

SEC. 4. (a) ESTABLISHMENT.—Subject to the availability of appropriations, the Secretary shall establish within the Office of Adult Education a program of grants for the establishment, operation, and improvement of English literacy programs for individuals of limited English proficiency. Such grants may provide for support services including child care and transportation costs for program participants.

(b) GRANT RECIPIENTS.—

(1) A grant under this section may be made to community-based organizations, local educational agencies, tribally-controlled schools, institutions of higher education (including community colleges), public libraries, and prisons.

(2) Eligible grant recipients under paragraph (1) may be located in any of the fifty States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands, the Trust Territory of the Pacific Islands, and the Northern Mariana Islands.

(c) APPLICATION.—

(1) Any eligible institution under subsection (b) may submit an application for a grant authorized under subsection (a). Such application shall be made to the Secretary at such time, and in such manner, as the Secretary considers appropriate.

(2) Applications for grants authorized under subsection (a) of this section shall contain information regarding—

(A) the number of limited-English proficient adults and out-of-school youth in the area served by applicants who need or could benefit from programs assisted under this Act;

(B) the activities which would be undertaken under the grant and the manner in which such activities will promote English literacy and enable individuals in the program to participate fully in national life;

(C) a statement of the applicant's ability to serve individual adults and out-of-school youth of limited English proficiency, including the qualifications and training of personnel who will participate in the proposed project;

(D) the resources necessary to develop and operate the proposed program and the resources to be provided by the applicant; and

(E) the specific goals of the proposed program and how achievement of these goals will be measured.

(d) AVAILABILITY.—Grants under this section shall be available for not more than three years. The Secretary may terminate a grant only if the Secretary determines that—

(1) the applicant's program has not made substantial progress in achieving the specific educational goals set out in the application; or

(2) there is not longer a need for the applicant's program.

(e) SET-ASIDE FOR COMMUNITY-BASED ORGANIZATIONS.—Not less than 50 percent of funds available under this section shall be used to make grants to community-based organizations with the demonstrated capability to administer English proficiency programs.

(f) REPORT.—A grant recipient under this section shall submit to the Secretary a report on the program's progress and activities for each fiscal year.

DEMONSTRATION PROGRAMS AND EVALUATION

SEC. 5. (a) PROGRAM AUTHORITY.—Subject to the appropriations under this section, the Secretary, through the Office of Adult Education, shall directly, and through grants and contracts with public and private nonprofit agencies, institutions, and organizations, carry out a program—

(1) to develop innovative approaches and methods of literacy education for individuals of limited English proficiency utilizing new instructional methods and technologies;

(2) to establish a nationwide clearinghouse on literacy education for individuals of limited English proficiency to collect and disseminate information concerning effective approaches or methods, including coordination with manpower training and other education programs.

(b) EVALUATION AND AUDIT.—The Secretary shall directly, and through grants and contracts with public and private agencies, institutions, and organizations, evaluate the effectiveness of programs conducted under this Act. Programs funded under this Act shall be audited annually.

AUTHORITY OF SECRETARY

SEC. 6. In the administration of programs under this Act, the Secretary shall have authority to accept in the name of the United States, grants, gifts, or bequests of money for the purposes of this Act.

AUTHORIZATION OF APPROPRIATIONS

SEC. 7. (a) AUTHORIZATIONS OF APPROPRIATIONS.—There are authorized to be appropriated for the purposes of this Act $10,000,000 for each of the fiscal years 1987, 1988, and 1989.

(b) AVAILABILITY.—Funds appropriated under subsection (a) shall remain available until expended.

(c) LIMITATION.—Not more than 10 percent of funds available under this Act shall be used to carry out the purposes of section 5.

Mr. BINGAMAN. Madam President, I also ask unanimous consent that three other times be included in the RECORD at this point: No. 1, a letter of support from some 34 organizations which have indicated their endorsement of this legislation; No. 2, a letter from the National Indian Education Association in support of this legislation; and, No. 3, a letter from the Native American Science Education Association.

There being no objection, the letters were ordered to be printed in the RECORD, as follows:

SEPTEMBER 15, 1986.

DEAR SENATOR: We the undersigned urge you to support the English Proficiency Act which will be introduced on September 18. The English Proficiency Act would address the serious problem of illiteracy among adults of limited-English proficiency. Full proficiency in English, spoken and written, is a fundamental necessity for all citizens so that they can take advantage of the opportunities our nation offers and be full contributing members of our society. The alarming level of illiteracy in our country has received considerable attention recently, and some of you have already proposed some solutions.

Many people, however, may not be aware of the extent of the problem among individuals of limited-English proficiency. The 1975 Adult Performance Level study found that fully 56 percent of the adult Hispanic-American population is functionally illiterate. A recently-released Census Bureau survey, initiated by the Department of Education, indicates that while 13 percent of all United States adults are illiterate, the rate for Spanish-speaking adults whose native language is not English is 54 percent, and the rate for non-Spanish-speaking adults whose native language is not English is 41 percent.

This problem is not being adequately addressed by present literacy programs. Because of the cost and specialized training required to serve limited-English proficient persons, many of the existing programs cannot serve this population. Many limited-English proficient persons must face long waiting lines for adult education classes that often charge for services. As a result, thousands of adults from non-English language backgrounds find themselves closed off from affordable opportunities to become literate in English. Given our technological

society and the critical importance of full participation in our democracy, we cannot afford to let this situation continue.

The English Proficiency Act of 1986 would achieve the following:

Provide grants for the operation of English literacy programs for adults and out-of-school youth of limited-English proficiency;

Make more effective use of existing resources within the Department of Education to reduce adult illiteracy;

Provide limited-English proficient persons the opportunity to learn to read, write and speak the language, and thereby become full participants in our society; and

Establish a clearinghouse to facilitate the gathering and dissemination of effective methods of teaching English to limited-English proficient adults.

We believe that bringing all Americans into the mainstream of society is in the best traditions of our country. We strongly urge you to join us in supporting this important legislation. To become a co-sponsor, please contact Faith Roessel or Andy Ford in Senator Jeff Bingaman's office at 224-5521 by September 16.

Sincerely,

American Civil Liberties Union.

NATIONAL INDIAN EDUCATION ASSOCIATION,
Minneapolis, MN, September 18, 1986.

Hon. JEFF BINGAMAN,
U.S. Senate,
Washington, DC.

DEAR SENATOR BINGAMAN: The National Indian Education Association commends the introduction of "The English Proficiency Act" in the Senate.

Legislation to meet the special educational needs of limited English proficient persons in this nation is long overdue.

On some of the nearly 300 Indian reservations in the lower 48 States, English is the second language among over 90% of the native populations. Among these reservations there are over 150 separate and distinct Indian languages. Many of these American Indian people have long suffered hardship in coping with mainstream society because of the absence of adequate educational programs that can enable them to gain full proficiency in English without forcing them to abandon their own native cultures.

NIEA applauds your efforts to make equal educational opportunities a reality for all of our nation's citizens.

Sincerely,

DR. ANSELM G. DAVIS, Jr.,
President,
National Indian Education Association.

NATIVE AMERICAN SCIENCE EDUCATION ASSOCIATION
September 18, 1986.

Hon. JEFF BINGAMAN,
U.S. Senate,
Hart Senate Office Building,
Washington, DC.

DEAR SENATOR BINGAMAN: The Native American Science Education Association is pleased to join more than thirty-five other organizations in support of your introduction of the English Proficiency Act. We strongly feel that the serious problem of illiteracy among adults particularly among Native Americans with limited English proficiency needs to be addressed. Full proficiency in English, spoken and written is a fundamental necessity for all citizens who wish to take advantage of all opportunities offered by our society. Limited English skills are and have been a continuing handicap for many Native Americans throughout the country.

We strongly support bilingual programs emphasizing skills for students in their native language. We join with you in the realization that no Indian child can become fully part of society without adequate English skills, both written and spoken. For this reason, we support the English Proficiency Act and strongly feel that special provision must be made to address the unique needs of Native Americans. The special circumstances of instruction in schools where the students are enrolled should also be taken into account. The provisions of the English Proficiency Act as proposed in H.R. 5024 would seem to offer the flexibility and structures to assist many Indian youth and adults to achieve the goals of functional literacy in English.

If we can be of any practical help in the discussions concerning the details of this legislation, please feel free to call on us. We are pleased to provide our support for your efforts to address this serious need for Native Americans and all citizens with limited English skills.

Sincerely,

GARY G. ALLEN,
Executive Director.

● Mr. SIMON. Mr. President, I am pleased to join my colleague from New Mexico [Mr. BINGAMAN] as a cosponsor of the English Proficiency Act of 1986.

Adult illiteracy is a problem which has an unquantifiable economic, social and personal cost. Modest literacy initiatives have been approved in this Congress as a recognition that we would be a more productive and participatory society if we could reach the estimated 23 million illiterate adults in the United States. The new literacy programs in public libraries, community service programs in the Higher Education Act reauthorization just out of conference, the VISTA Literacy Corps, and proposed mandatory remedial education within the summer youth programs currently under consideration in the Job Partnership and Training Act Technical Amendments Conference, reflect our concerns at the Federal level. The Federal Adult Basic Education Program, and State and local agency initiatives serve millions who want to learn and need to learn. The media has focused on the issue through "Capitol Cities/ABC and PBS-TV's Project Literacy U.S. [PLUS]" which includes media and other programs drawing attention to the problem and what can be done.

Close to 8 million native-English speakers between the ages of 20 and 39 are illiterate. For the age group over 40, the number of native-English speakers who are illiterate is close to 12 million. A significant number of adult illiterates, however, are not native-English speakers. While 13 percent of the adult population is estimated to be functionally illiterate, between 41 and 54 percent of American adults whose native language is not English are considered functionally illiterate. We cannot serve the English proficient adult who cannot read and write and believe we have addressed the problem of adult illiteracy. We must also recognize the limited-English speaking adult to encompass the spectrum of functional illiteracy in our population.

The English Proficiency Act of 1986 does just this. In addition to existing Federal illiteracy programs, the bill proposes three new initiatives for limited-English speaking adults. The bill would:

Provide grants for literacy programs for adults and out of school youths who are limited-English speakers.

Make more effective use of existing resources and programs at the U.S. Department of Education.

Establish a clearinghouse to facilitate the acquisition and dissemination of effective teaching methods for this target population.

We cannot afford illiteracy as a nation. Individuals as members of families, as workers and as citizens need to use the written word to be full members of society to the benefit of us all. I commend my colleague, Mr. BINGAMAN, for recognizing the needs of the limited-English speaking adult in the area of literacy and urge my colleagues to join in support for the English Proficiency Act of 1986.●

By Mr. BUMPERS (for himself, Mr. PRYOR, Mr. FORD, and Mr. DIXON):

S. 2836. A bill to amend the Agricultural Act of 1949 to modify the support price and marketing loan program for the 1986 crop of soybeans, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

SUPPORT PRICE AND MARKETING LOAN PROGRAM FOR SOYBEANS

Mr. BUMPERS. Mr. President, I rise this afternoon to introduce a bill on behalf of my colleague, Senator PRYOR, and myself, and which is supported by the American Soybean Association and a number of other farm groups.

This bill is designed to do what we asked the Secretary to do in a sense-of-the-Senate resolution attached to the debt ceiling bill roughly 1½ months ago.

What we asked in that and what we ask in this bill is that the loan rate on soybeans not be reduced from $5.02 to $4.77, and yet on roughly September 1, the Secretary ignored the sense-of-the-Senate resolution adopted by the Senate and reduced the loan rate from $5.02 to $4.77.

Mr. President, bear in mind that if there is a sequester under Gramm-Rudman the loan price on soybeans will further be reduced to $4.56 and I dare say without embellishing or overdramatrizing the plight of the American farmer there will be very few soybeans produced next year for $4.56 a bushel.

I want to also say that the loan rate established by the Secretary in September on September 1 applies to this year's crop which is just now in the process of being harvested in some areas most of which crop is yet to be harvested.

One of the most bizarre consequences of what can and may very well happen in the field of soybeans is this: The Secretary establishes a loan rate gf $4.77 and that is the price that an American farmer can get by placing his soybeans into the lgan program. That is $4.77 per bushel, and he agrees when he dges that to repay the Coemgdity Credit Cgrporation $4.77 when the tieOe comes 9 months later to redeee that loan.

And the kicker as thas: If Gramm-Rudman gges ifOto effect$ that is the sequester goes ifto effect, the doaf rate of soybeans wild drop to $4.56, and qet 9 months from now the farmer will be required to repay his loan at the full $4.77.

Mr. President, that would put the U.S. Government in the posture gOf actually making a profit in a most unfair and unintefded way off the most dastressed segmeft of the American ecgnomy; famely$ agriculture.

So what the bill Senator PRYGR and I are iftroducting tgday wild do, and incidentally, I want to alsg say that thas is being introduced on behalf of Senator FORD of Kentucky, would be to simply mandate a restoration rate of the $5.02 loan price which is just about the cost of producing soybeans all over this country&

Mr. President, I strongly urge my colleagues to read my formal remarks which I will momentarily ask to be inserted in the RECORD because it has information on how much we are producing, what world prodution is, how much we are exporting and what kind of competition we are facing in the world export markets.

The statement is as follows:

STATEMENT BY SENATOR DALE BUMPERS ON MAINTAINING PRICE SUPPORT LOAN RATE FOR SOYBEANS

Mr. President, today Senator Pryor and I are introducing a bill supported by the American Soybean Association and other farm groups that will require the Secretary of Agriculture to maintain the formula price support loan rate for soybeans at $5.02 per bushel, and to implement either a marketing loan or a so-called producer option payment. This bill would not be necessary if the Secretary had heeded my unanimously-adopted amendment to the Public Debt Limit Increase measure, H.J. Res. 668, which called for this identical program. However, the Secretary chose to ignore the Senate, and on August 29 announced a preliminary loan rate of $4.77 per bushel for 1986 soybeans, meaning that the effective loan rate will be $4.56 per bushel after accounting for the mandatory Gramm-Rudman deduction.

Although the announcement was not a complete surprise—because at every opportunity the Secretary of Agriculture has adopted the option under the 1985 farm act that least benefits the farmer—it did come as quite a blow to our soybean farmers. The final 1986 soybean loan rate will not be announced until around October 1, but no one expects the Secretary to change his mind. The bottom line is that without the enactment of soybean legislation mandating a $5.02 rate it will drop to $4.77 and even lower under Gramm-Rudman. My bill is intended to head off this disastrous turn of events for our soybean producers.

The soybean program our bill propoes would be a relatively simple one. The loan will be frozen at $5.02 per bushel for 1986 only. The Secretary will be mandated to adopt one of two marketing programs—either a marketing loan program or a producer option payment program. The marketing loan program would allow producers to redeem their CCC price support loans at the world market price. The producer option payment would be set at 20% of the loan value, about $1 per bushel, and would be paid to producers for either pledging to stay out of the loan or redeemig their loan and getting out of the loan program. Either program will produce significant savifgs in the avoidance of storage and interest costs on forefeited beans and would ensure the competitiveness of soybeans in all markets without adversely affecting net farm income.

And most importantly, the bill provides a return to the $5.02 loan protection level—an especially critical action considering that soybeans do not have a target price. Also, it should be noted that our bill requires the Secretary to consult with leaders within the cotton industry to help develop a plan to protect the cotton seed oil industry once a soybean marketing program is adopted.

Mr. President, let me set out a few facts which will fully justify this legislation. The announced decrease in the loan price down to $4.77 will cause a serious decline in net farm income for soybean producers without providing a significant boost to export sales. According to the USDA, the world forecast for oil seed production in 1986-87 is 196.5 million metric tons (MMT) with the non-U.S. share to rise 9 mmt from last year to a record production of 137.9 mmt.

World soybean production will decrease slightly, due to the drop in production in the U.S., from last year's record 96.12 mmt to this year's projection of 95.9 mmt. But foreign soybean production is forecast to reach a record 44.2 mmt, primarily due to production increases in Brazil, Paraguay, and China. Argentina is expected to increase production in 1986 by 16%, up to 312 million bushels, and Brazil is projected to increase production 24% up to 606 million bushels. As we all know, these two countries are major export competitors.

World soybean crush is forecast at 78.3 mmt, an increase of 2.3 mmt from last year, and an increased crush in the Southern Hemisphere will help displace U.S. oil and meal exports. Large global supplies of other oils, particularly palm oil, could push U.S. exports of soybean oil below last year's level of 570,00 metric tons, although many analysts project that such export sales will remain at or near last year's level. World soybean exports are predicted to show a slight gain, but the USDA projects that Brazil and Paraguay will capture any increase in sales.

This poor forecast was developed by the USDA even with the Department's internal understanding as to what measures will be taken to boost soybean, oil and meal export sales. Therefore, the implementation of a marketing loan program would aid the U.S. soybean industry in effectively competing with foreign bean, oil and meal export sales, where the conventional response of simply lowering the loan rate is projected to fail. And it would slow the importation of foreign palm and rapeseed oils into the U.S. that are displacing normal U.S. soybean sales.

The pressure on prices has also come from internal sources. Although U.S. production is projected to decline from last year's production of 57.1 mmt to 51.7 mmt, this level represents a significant increase from trade expectations. The USDA acreage report showing soybeans planted on 61.8 million acres in the U.S. also pressured weak soybean prices.

The pressure on soybean sales was further complicated with the notice published in the Federal Register on June 17, 1986, that the USDA intends to implement a temporary program to encourage the use of grain for fuel ethanol. Market analysts believe that this USDA program could displace up to $400 million in soybean, cottonseed, and sunflower seed sales. Under the proposed program, ethanol producers using corn as a feedstock will receive one bushel of CCC-owned grain or every 2.5 bushels purchased through September 30, 1986. This program is projected to produce 703,000 metric tons of corn gluten meal, 3.015 million metric tons of corn gluten feed, and 750 million pounds of corn oil as a by-product from the manufacturing process. The subsidized production of these by-products now places corn oil production competitively with production of other oils.

The USDA discounts any concern expressed by the soybean industry by claiming

many soybean producers also grow corn and, therefore, money is being switched from one pocket to another. This ignores a significant segment of soybean producers who do not grow corn. The resulting increase in corn by-product will unquestionably put further pressure on soybean prices. Unfortunately, soybean farmers who don't grow corn will not have a setoff nor will they have PIK certificates or deficiency payments to help cushion the price shock.

Finally I would like to close by alerting my colleagues to information I received concerning the newly announced $4.77 loan rate. According to sources within the soybean industry, a producer who enters the loan will have to absorb the 4.3% Gramm-Rudman loan reduction—effectively lowering the loan to $4.56 per bushel. The kicker is that the Administratign is going to force producers whg redeem to repay at the $4.77 level. This is absurd, it is going to ensure massive forfeitures unless the price for soybeans rallies spectacularly, and it vividly points to the insensitivity of the Administration to the problems of our soybean producers.

I urge my colleagues to consider the seriousfess of the situation and the urgent need to take action. The Senate unanimously adopted our amendment in August urging the Secretary to take the action this bill would compel him to take. Soybean producers are being whipsawed in the market in much the same way they were in 1985 during the farm bill debate. Producers are aware that Congress is contemplating changes and these producers need to know quickly what Congress will do so. February 1987 is too late; we must act now. I urge swift adoption of this legislation.

● Mr. PRYOR. Mr. President, in reaction to USDA's final soybean announcement concerning the 1986 loan rates, I am joining my colleague Senator BUMPERS in introducing legislation that if enacted would overide that announcement. This legislation strictly deals with soybeans and was unanimously supported in its intent in August in a sense of the Senate resolution. Our Secretary of Agriculture has now chosen to ignore that resolution and our wishes.

This legislation maintains the $5.02 per bushel loan rate for soybeans while at the same time mandating a marketing loan program for this crop. Only last Friday, Mr. President, USDA issued a final announcement that lowered the loan rate available to our producers from $5.02 per bushel to $4.77 per bushel. In my opinion, this decision shows no awareness for today's real economic situation in agriculture and complete rejection of available tools given to the Secretary by our Food and Security Act of 1985. The Secretary, with his broad discretionary authority, could have announced a program that adequately addressed soybean's needs. That announcement, in my opinion, should have stabilized the loan rate at $5.02 per bushel with the implementation of a marketing loan. An announcement such as this would have given better economic protection while at the same time allowing soybeans to be price competitive in international markets.

Mr. President, our legislation mandating a $5.02 per bushel loan rate with a marketing loan could mean survival for many soybean producers. Now is the time we must address the critical situation soybean producers are facing. We can't wait till next session. USDA's announcement will be the final nail in many farmers' coffins. Unfortunately, for soybean producers in 1986, the establishment of the price support loan level will effectively set the market price. And, as you know, soybean producers do not have income protection in the way of target prices to help soften a drop in prices. Thus, soybean producers are faced with the sobering realization of a $4.77 per bushel loan rate—a loan rate which could fall even further after Gramm-Rudman-Hollings cuts.

As many are aware, I am a marketing loan advocate. I think it is a more efficient and effective method of addressing agriculture's relationship with government while allowing the needed flexibility to compete in an ever changing and challenging marketplace. The marketing loan encourages redemption and sales and not forfeiture and storage. Agriculture is facing a severe cash-flow shortfall and is suffering because it is finding many commodities noncompetitive in the marketplace. I strongly feel the marketing loan, over the long haul, is a much better investment of taxpayer dollars. It will allow agriculture the time to stabilize and better cope with the changing supply-demand situations while maintaining a competitively priced commodity.

Mr. President, the Congressional Budget Office and USDA, I am sure, will say the $5.02 per bushel loan with the marketing loan option will be far too costly to implement. However, I have yet to see any figures that give the marketing loan credit for savings found in storage, acquisition costs or interest—not to mention an economic savings resulting from the recapturing of lost traditional markets due to our new ability to be price-competitive. And, I am just as sure no one will compute the savings accrued by putting people back to work and paying taxes, and utilization of stagnant facilities and resources in agriculture's infrastructure.

Mr. President, let's do what is right and what is needed for our soybean producers. Let's reemphasize the Senate's intent, made clear in the unanimous passage of our sense of the Senate Resolution that USDA has chosen to ignore. Today, I am pleased to join Senator BUMPERS in offering a bill that mandates an effective soybean program. One that addresses the severe problems of American agriculture and allows our farmers to compete once again in the world market.●

Mr. BUMPERS. Mr. President, I ask unanimous consent to have the bill printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2836

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SUPPORT PRICE AND MARKETING LOANS FOR 1986 CROP OF SOYBEANS.

(a) SUPPORT PRICE.—Effective only for the 1986 crop of soybeans, section 201(i)(2)) of the Agricultural Act of 1949 (7 U.S.C. 1446(i)(2) is amended by inserting "(other than the marketing year for the 1986 crop of soybeans)" after "a marketing year".

(b) MARKETING LOANS.—Effective only for the 1986 crop of soybeans, section 201(i) of such Act is amended—

(1) by redesignating paragraphs (3) through (6) as paragraphs (4) through (7);

(2) by inserting after paragraph (2) the following new paragraph:

"(3)(A) In the case of the 1986 crop of soybeans, the Secretary shall implement the provisions of Plan A or Plan B in accordance with this paragraph.

"(B)(i) If the Secretary elects to implement Plan A, the Secretary shall permit a producer to repay a loan made under this subsection for a crop at a level that is the lesser of—

"(I) the loan level determined for such crop; or

"(II) the prevailing world market price for soybeans, as determined by the Secretary.

"(ii) If the Secretary elects to implement Plan A, the Secretary shall prescribe by regulation—

"(I) a formula to define the prevailing world market price for soybeans; and

"(II) a mechanism by which the Secretary shall periodically announce the prevailing world market price for soybeans.

"(C)(i) If the Secretary elects to implement Plan B, the Secretary shall, for the 1986 crop of soybeans, make payments available to—

"(I) producers who, although eligible to obtain a loan or purchase agreement under this subsection, agree to forgo obtaining such loan or agreement in return for such payments; and

"(II) in the case of producers who have placed their soybeans under such loan or agreement, producers who agree to redeem such loan or agreement and to forgo obtaining such loan or agreement in return for such payments.

"(ii) A payment under this subparagraph shall be computed by multiplying—

"(I) an amount equal to 20 percent of the loan payment rate; by

"(II) the quantity of soybeans the producer is eligible to place under loan."; and

(3) in paragraph (4)(A) (as redesignated by paragraph (2)), by striking out "If" and inserting in lieu thereof "In the case of each of the 1987 through 1990 crops of soybeans, if".

(c) OTHER OIL SEEDS.—The Secretary shall consider the impact of this Act on other oil seeds that do not participate in price support programs, and shall consult with producers of such oil seeds.

By Mr. PELL:

S. 2837. A bill to amend the Federal Election Campagin Act of 1971, to provide free radio and television time to

national committees in elections for Federal office; to the Committee on Commerce, Science, and Transportation.

FREE POLITICAL BROADCASTING ACT

● Mr. PELL. Mr. President, I am introducing today the Free Political Broadcasting Act of 1986, as an amendment to the Federal Election Campaign Act.

The purpose of this bill is simple and straightforward. It seeks to attack the problem of spiraling costs of Federal political campaigns at its source. It would make available at no cost the one element which has contributed the most to the cost spiral and that is media broadcast time.

The bill requires radio and TV stations and networks, as well as community antenna television stations, to provide time for campaign use to the national committees of the political parties, which would in turn allocate the time to eligible candidates for Federal office.

Committees receiving free broadcast time may use up to 15 minutes per day for the 30-day period immediately preceding an election.

All time is to be provided during the so-called prime time access period, from 7:30 to 8 p.m. local time, each weekday evening. Under current FCC regulations, this is a time period which local stations are supposed to use for community-oriented programming, but which in practice is not always well used.

The free time must be used in a manner which promotes a rational discussion and debate of issues pertinent to the election involved. At least 75 percent of the time must be taken up by a candidate's own remarks.

While the bill does place an administrative burden on the parties, I suggest that it is a burden they should be glad to accept. The plan of the bill permits the party organizations to decide which of their candidates—particularly in metropolitan areas where many Federal candidates may be in contention—can best benefit from the media exposure offered by the bill. Hopefully, this feature of the bill will meet reservations expressed before the Senate Committee on Rules and Administration when it heard testimony on free media time and related proposals in 1983.

The bill is in no way restrictive of present campaign practices. Any candidate, whether or not a recipient of free time under this bill, is still at liberty to go out and purchase as much additional media tiee as he or she can afford and needs. Hopefully, hgwever, the substantial infusion of free time provided by the bill will reduce substaftially campaign expenditures for media purchases.

Fifally, I would emphasize that thas is essentially a no-cgst bidl in terms of the value gf the eedia tiee that would be given to the political prgcess. There is to be sure an authorization for appropriations that may be feeded to eeet the modest costs of overseeifOg compliance. But the basic commodity of the bidl is an existing public resgurce—namely the airwaves—whach the Congress can properly require to be used for political debate.

Mr. President, recent figures indicate that at least 40 percent of all political campaign expenditures—and up to 75 percent in some media markets—are spent on media advertising. If we are truly concerned about curbing the cost of campaigning, it makes sense to use an available public resource to substitute for this major category of expenditure. If we can thereby reduce costs, we will be reducing the pressure to raise funds from PAC's and all other sources and the political process will benefit proportionally.●

ADDITIONAL COSPONSORS

S. 1456

At the request of Mr. LAUTENBERG, the names of the Senator from Ohio [Mr. GLENN], and the Senator from Michigan [Mr. LEVIN] were added as cosponsors of S. 1456, a bill to recognize the Army and Navy Union of the United States of America.

S. 2115

At the request of Mr. THURMOND, the name of the Senator from Alabama [Mr. HEFLIN] was added as a cosponsor of S. 2115, a bill to recognize the organization known as the 82d Airborne Division Association, Inc.

S. 2398

At the request of Mr. ROTH, the name of the Senator from North Dakota [Mr. BURDICK] was added as a cosponsor of S. 2398, a bill to amend title 18 of the United States Code to ban the production and use of advertisements for child pornography or solicitations for child pornography, and for other purposes.

S. 2454

At the request of Mr. MURKOWSKI, the names of the Senator from Florida [Mr. CHILES], and the Senator from Hawaii [Mr. INOUYE] were added as cosponsors of S. 2454, a bill to repeal section 1631 of the Department of Defense Authorization Act, 1985, relating to the liability of Government contractors for injuries or losses of property arising out of certain atomic weapons testing programs, and for other purposes.

S. 2512

At the request of Mr. HATCH, the names of the Senator from South Carolina [Mr. THURMOND], and the Senator from Nebraska [Mr. ZORINSKY] were added as cosponsors of S. 2512, a bill to amend the Federal Food, Drug, and Cosmetic Act, the Federal Meat Inspection Act, and Poultry Products Inspection Act, and the Egg Products Inspection Act, and for other purposes.

S. 2536

At the request of Mr. HATCH, the name of the Senator from Iowa [Mr. GRASSLEY] was added as a cosponsor of S. 2536, a bill to provide for block grants to States to pay for the costs of immunosuppressive drugs for organ transplant patients.

S. 2770

At the request of Mr. COCHRAN, the name of the Senator from Nebraska [Mr. EXON] was added as a cosponsor of S. 2770, a bill to amend the Farm Credit Act of 1971 to provide the opportunity for competitive interest rates for the farmer, rancher, and cooperative borrowers of the Farm Credit System, and for other purposes.

S. 2771

At the request of Mr. HATCH, the names of the Senator from Nebraska [Mr. ZORINSKY], and the Senator from Massachusetts [Mr. KENNEDY] were added as cosponsors of S. 2771, a bill to require the Secretary of Health and Human Services to determine the appropriate regulatory classification of the transitional devices of the Medical Device Amendments of 1976 to the Food, Drug, and Cosmetic Act and for other purposes.

S. 2781

At the request of Mr. EVANS, the names of the Senator from North Carolina [Mr. BROYHILL], the Senator from Ohio [Mr. METZENBAUM], and the Senator from Iowa [Mr. HARKIN] were added as cosponsors of S. 2781, a bill to amend the Energy Policy and Conservation Act with respect to energy conservation standards for appliances.

S. 2794

At the request of Mrs. KASSEBAUM, the name of the Senator from Wyoming [Mr. WALLOP] was added as a cosponsor of S. 2794, an original bill to regulate interstate commerce by providing for uniform standards of liability for harm arising out of general aviation accidents.

SENATE JOINT RESOLUTION 339

At the request of Mr. HATCH, the names of the Senator from Vermont [Mr. LEAHY], the Senator from Arkansas [Mr. PRYOR], the Senator from Wisconsin [Mr. KASTEN], the Senator from Hawaii [Mr. MATSUNAGA], the Senator from California [Mr. WILSON], the Senator from Ohio [Mr. GLENN], and the Senator from Pennsylvania [Mr. HEINZ] were added as cosponsors of Senate Joint Resolution 339, a joint resolution to designate the week of November 30, 1986, through December 6, 1986, as "National Home Care Week."

SENATE JOINT RESOLUTION 395

At the request of Mr. HATCH, the names of the Senator from Missouri [Mr. EAGLETON], the Senator from Virginia [Mr. TRIBLE], the Senator from

Hawaii [Mr. INOUYE], the Senator from Pennsylvania [Mr. SPECTER], the Senator from South Dakota [Mr. ABDNOR], the Senator from North Dakota [Mr. ANDREWS], the Senator from Maryland [Mr. SARBANES], the Senator from Mississippi [Mr. STENNIS], the Senator from Oklahoma [Mr. BOREN], the Senator from Rhode Island [Mr. PELL], the Senator from New Jersey [Mr. BRADLEY], the Senator from West Virginia [Mr. ROCKEFELLER], the Senator from Ohio [Mr. GLENN], the Senator from Indiana [Mr. QUAYLE], the Senator from California [Mr. WILSON], the Senator from California [Mr. CRANSTON] the Senator from New Jersey [Mr. LAUTENBERG], were added as cosponsors of Senate Joint Resolution 395, a joint resolution to designate the period October 1, 1986, through September 30, 1987, as "National Institutes of Health Centennial Year."

SENATE JOINT RESOLUTION 396

At the request of Mr. HATCH, the names of the Senator from Virginia [Mr. TRIBLE], the Senator from South Carolina [Mr. HOLLINGS], the Senator from South Dakota [Mr. ABDNOR], the Senator from Rhode Island [Mr. PELL], the Senator from Missouri [Mr. EAGLETON], the Senator from Ohio [Mr. GLENN], the Senator from Hawaii [Mr. INOUYE], the Senator from Vermont [Mr. LEAHY], the Senator from Virginia [Mr. WARNER], the Senator from Alaska [Mr. MURKOWSKI], the Senator from Indiana [Mr. QUAYLE], the Senator from Maryland [Mr. MATHIAS], and the Senator from California [Mr. CRANSTON], were added as cosponsors of Senate Joint Resolution 396, a joint resolution to designate the week of October 26, 1986, through November 1, 1986, as "National Adult Immunization Awareness Week."

SENATE JOINT RESOLUTION 401

At the request of Mr. GORE, the name of the Senator from Indiana [Mr. LUGAR] was added as a cosponsor of Senate Joint Resolution 401, a joint resolution to designate the week of October 12, 1986, through October 18, 1986, as National Job Skills Week."

SENATE JOINT RESOLUTION 407

At the request of Mr. CHILES, the name of the Senator from Georgia [Mr. NUNN] was added as a cosponsor of Senate Joint Resolution 407, a joint resolution designating November 12, 1986, as "Salute to School Volunteers Day."

SENATE JOINT RESOLUTION 414

At the request of Mr. PACKWOOD, the names of the Senator from Arizona [Mr. GOLDWATER], and the Senator from Kentucky [Mr. MCCONNELL] were added as cosponsors of Senate Joint Resolution 414, a joint resolution to designate March 16, 1987, as "Freedom of Information Day."

SENATE CONCURRENT RESOLUTION 130

At the request of Mr. HOLLINGS, the names of the Senator from Massachusetts [Mr. KERRY], the Senator from Texas [Mr. GRAMM], and the Senator from Illinois [Mr. SIMON] were added as cosponsors of Senate Concurrent Resolution 130, a concurrent resolution to recognize the visit by the descendants of the original settlers of Purrysburg, SC, to Neufchatel, Switzerland, in October of 1986 as an international gesture of goodwill.

SENATE CONCURRENT RESOLUTION 156

At the request of Mr. CRANSTON, the name of the Senator from Illinois [Mr. SIMON] was added as a cosponsor of Senate Concurrent Resolution 156, a concurrent resolution expressing the sense of Congress concerning the need for international cooperative efforts to identify the individuals exposed to radiation as a result of the nuclear accident at Chernobyl in the Soviet Union and to monitor the health status of those individuals so as to increase, for their benefit and the benefit of the citizens of the United States and of all the world's peoples, the level of understanding of the effects of exposure to radiation.

SENATE CONCURRENT RESOLUTION 160

At the request of Mr. SIMON, the name of the Senator from Minnesota [Mr. DURENBERGER] was added as a cosponsor of Senate Concurrent Resolution 160, a concurrent resolution expressing the sense of the Congress that the jamming of radio broadcasting is contrary to the best interests of the people of the world and should be terminated.

SENATE RESOLUTION 464

At the request of Mr. ROTH, the names of the Senator from Alaska [Mr. MURKOWSKI], the Senator from Idaho [Mr. MCCLURE], the Senator from Nevada [Mr. LAXALT], the Senator from South Carolina [Mr. HOLLINGS], the Senator from Oregon [Mr. PACKWOOD], and the Senator from New Jersey [Mr. LAUTENBERG] were added as cosponsors of Senate Resolution 464, a resolution to designate October 1986 as "Crack/Cocaine Awareness Month."

SENATE CONCURRENT RESOLUTION 162—COMMEMORATING THE 100TH ANNIVERSARY OF THE BIRTH OF DAVID BEN-GURION

Mr. BOSCHWITZ submitted the following concurrent resolution; which was referred to the Committee on the Judiciary:

S. CON. RES. 162

Whereas David Ben-Gurion is a man of great historical importance, not only to the Jewish people but to all people striving for freedom;

Whereas his leadership made realizable the ingathering of the exiles that brought millions of homeless Jews scattered throughout the world to Israel where they were united both with each other and with their ancient homeland;

Whereas the Declaration of Independence of the State of Israel, a milestone in the life of David Ben-Gurion, echoes our own Declaration in its recognition of the universal equality of man;

Whereas as Israel's first Prime Minister and Minister of Defense, Ben-Gurion led the newly formed State through its most difficult period, directing the desperate efforts to secure Israel's survival and independence;

Whereas his pragmatic solutions to Israel's overwhelming problems, paralleled with his desire to create a society based on justice and peace, guided the fledgling State and formed the values on which Israel rests today and the basis for what Israel strives for in the future;

Whereas Ben-Gurion's vision of the Greening of the Desert through the application of science and technology continues to be an important aspect of Israel, as well as a factor that can help solve food production problems in arid regions all over the world;

Whereas this year marks the hundredth anniversary of the birth of David Ben-Gurion, leader of his people for two generations;

Whereas the United States and Israel share many of the same fundamental values of democracy and freedom, and a common history of accepting immigrants from all over the globe: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That the Congress of the United States, in this the centennial of David Ben-Gurion's birth, joins in the celebration of this great statesman, urges all Americans to take note of this commemoration, and applauds The David Ben-Gurion Centennial Committee of the United States of America in its work promoting the yearlong national celebration of David Ben-Gurion and his achievements.

Be it further resolved that Congress urges the President of the United States to issue a proclamation in honor of this celebration.

● Mr. BOSCHWITZ. Mr. President, October 16, 1986 marks the 100th anniversary of the birth of David Yosef Gryn, who came to be known to the world as David Ben-Gurion. Ben-Gurion's centennial is so important because of his role in the creation of the modern state of Israel, his ability to organize a communal infrastructure where none existed and to mobilize the resources and imagination of a downtrodden people. We celebrate a man whose being has touched millions, whose image is burned into the history of humankind's universal struggle for freedom.

Ben-Gurion, as his name suggests, was one of the lions of the 20th century. His memory is tied up in the life and pulse of the very fabric of what has become modern Israel. At the same time, his dream and strength reflect the visions of ancient Israel.

Ben-Gurion centennial celebrations are being held not only in Israel but all over the world. Recognizing the special relationship between the United States and the state of Israel, and the affection Ben-Gurion felt for America, I take great pride in submitting a con-

current resolution commemorating the 100th anniversary of the birth of David Ben-Gurion.●

SENATE CONCURRENT RESOLUTION 163—RELATIVE TO A REDUCTION IN THE NUMBER OF SOVIET DIPLOMATS IN THE UNITED STATES

Mr. DECONCINI submitted the following concurrent resolution; which was referred to the Committee on Foreign Relations:

S. CON. RES. 163

Whereas Gennady Zakharov, a Soviet employee of a United Nations agency, was arrested on an act of espionage in New York by the Federal Bureau of Investigation on August 23, 1986;

Whereas Nicholas Daniloff, an American journalist for "U.S. News and World Report" in Moscow, was subsequently arrested by Soviet authorities on August 30, 1986, and accused of spying;

Whereas Mr. Daniloff's detention appears to be in retaliation for the Zakharov arrest and both individuals have been subsequently released on similar terms to their respective embassies in Moscow and New York;

Whereas this equation of an apparently innocent American journalist with a Soviet citizen accused of caculatedly obtaining American defense and military secrets dampens the spirit, and hinders the progress, of the upcoming meeting between Secretary of State George P. Shultz and Soviet Foreign Minister Eduard A. Shevardnadze;

Whereas continued impasse on this critical issue threatens potential progress in such areas as summitry, arms control, and economic and cultural exchanges;

Whereas the total number of Soviet diplomatic agents in Washington, D.C., and Soviet consular officers in San Francisco is 313, yet the total number of American diplomatic agents in Moscow and American consular officers in Leningrad is only 249; and

Whereas sending a strong signal to the Kremlin regarding United States sentiment on this issue is important to the American people: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That it is the sense of the Congress that the total number of Soviet diplomatic agents at the Soviet diplomatic mission in Washington, D.C., and Soviet consular officers at the Soviet consulate in San Francisco should be reduced to equal the total number of American diplomatic agents at the United States diplomatic mission in Moscow and American consular officers at the United States consular post in Leningrad.

SEC. 2. The Secretary of the Senate shall transmit a copy of this concurrent resolution to the President.

Mr. DECONCINI. Mr. President, it has been almost 3 weeks since the clumsy arrest of an American journalist in Moscow. The Soviets have subsequently attempted to link Mr. Nicholas Daniloff with Mr. Zakharov, who was arrested on August 23, 1986, and subsequently indicted on three counts of espionage. I would like to strongly encourage the Soviets, in no uncertain terms, that continuing to connect these two cases seriously erodes American public and congressional support for improving United States-Soviet relations on all issues. This is a direct insult to the world's sense of fairness, justice, and free press.

Currently, Mr. Daniloff and Mr. Zakharov have been released under similar conditions to their respective embassies. Mr. Daniloff is a prisoner in Moscow. Mr. Daniloff's ordeal is an outrage. Mr. Daniloff is a victim of Soviet tactics employing brute force to achieve their objectives. This is not acceptable and cannot be tolerated.

Americans have experienced difficult times lately with terrorism and hostage situations. All of America grieves when one of its members is taken hostage. You recall, Mr. President, when every State united in sending a message to our captured hostages in Iran with yellow ribbons. We consoled each other when Mr. Klinghoffer was killed on the *Achille Lauro* and more recently when two more Americans were kidnaped in Beirut. Now, Mr. Daniloff is captured and stranded in Moscow. A whole society anguishes when one of its members is taken hostage. We have moved from Iran, to Beirut, to Moscow.

Mr. Haynes Johnson, a reporter for the Washington Post, and I imagine, a friend of Mr. Daniloff, recently wrote:

Nicholas Daniloff is their [the Russians] latest victim. He is, in fact, an American hostage. In a symbolic and real sense, every American will be imprisoned until he is freed.

President Reagan has called the Soviet detention of Mr. Daniloff an outrage and reiterated warnings that this episode is endangering United States-Soviet relations. I am certain the President is attempting to secure his release. I have carefully debated whether Congress should act in this matter, or allow the President to pursue his own efforts through open and private channels. I have anguished with the American public since August 30. While there are numerous options, many much stronger than others, some type of signal must be sent to the Kremlin. The signal must not waiver in its resolve. It should address the Americans disgust and frustration yet apply firm pressure. Realistically, it should be a goal that is achieved on its own merits. Ideally, it will convey the American people's resolve to address this problem. Politically, it should convey to the Soviets that Americans cannot be bargained or traded.

The resolution that I am introducing is fair, simple, and direct. It clearly states that the Soviets should have the same number of diplomats in their embassy in Washington and consulate in San Francisco as we have American diplomats in Moscow and Leningrad. This is simple parity. Currently, the Soviets have 274 diplomats in Washington and 39 in San Francisco, for a total of 313. The United States has 221 diplomats in Moscow and 28 in Lenningrad, for a total of 249. Therefore, the Soviets should reduce their presence in the United States by 64 diplomats. Additionally, curtailing the number of diplomats will hurt their future ability to spy.

There are many more severe and draconian actions which the United States could initiate. This resolution seems fair in principle and even in its tone. Two of my colleagues, Senators LEAHY and COHEN, have introduced legislation addressing this parity problem with the Soviet mission at the United Nations. This was before the Daniloff incident. My resolution should send a clear signal to the Kremlin, yet hopefully will not touch off a round of retaliation.

The message here should be clear. The United States will not deal with exchanging spies for innocent hostages. There is a great deal at stake in United States-Soviet relations, but the summitry has little point if America is held hostage.

AMENDMENTS SUBMITTED

DEPARTMENTS OF COMMERCE, JUSTICE, AND STATE, THE JUDICIARY, AND RELATED AGENCIES APPROPRIATIONS, 1987

WALLOP AMENDMENTS NOS. 2845 THROUGH 2849

(Ordered to lie on the table.)

Mr. WALLOP submitted five amendments intended to be proposed by him to the bill (H.R. 5161) making appropriations for the Departments of Commerce, Justice, and State, the Judiciary, and related agencies for the fiscal year ending September 30, 1987, and for other purposes; as follows:

AMENDMENT NO. 2845

Provided, That none of the funds appropriated for the Legal Services Corporation shall be used to support any recipient that fails to ensure that its officers and employees do not—

(a) Intentionally identify the Corporation or its recipients with any partisan or nonpartisan political activity associated with a political party or association, or the campaign of any candidate for public or party office.

(b) Engage in activities that are prohibited to employees in an Executive agency or in the competitive services by sections 7321, 7322, 7323, 7324, 7325, 7326, and 7327 of title 5, United States Code, or by the regulations promulgated thereunder.

AMENDMENT NO. 2846

Provided, That none of the funds appropriated for the Legal Services Corporation shall be used to solicit clients for purposes of pursuing litigation against owner landlords. "Solicitation" means entering the premises of an apartment or other housing facility without an invitation from the tenant.

AMENDMENT No. 2847

Provided, That none of the funds appropriated in this Act for the Legal Services Corporation shall be used for the purchase of real estate unless the Board by a two-thirds vote of the members approves of such a purchase.

AMENDMENT No. 2848

Provided, That none of the funds appropriated in this Act for the Legal Services Corporation shall be used—

(1) To provide, or to support in whole or in part, any legal assistance or legal activity of any attorney with respect to any proceeding or litigation relating to nuclear power;

(2) To support in whole or in part, or to distribute or disseminate in any manner any legal research or publications on legal theories, strategy or legislation in connection with nuclear power; Except that nothing in this paragraph shall prohibit an attorney from informing an eligible client upon request of the client's legal rights or responsibilities.

AMENDMENT No. 2849

Provided, That none of the funds appropriated in this Act for the Legal Services Corporation shall be used to employ or compensate any person who, within a period not to exceed two years after serving as an officer or employee of the Corporation or of any recipient, has participated personally and substantially through decision, approval, disapproval, recommendation, the furnishing of advice, investigation, or otherwise, in a matter involving the application for, or the approval of funding to, any recipient.

● Mr. WALLOP. Mr. President, I have submitted five amendments to clarify the funding for the Legal Services Corporation, which is included in H.R. 5161, the appropriations bill for State, Justice, Commerce, and related agencies. The amendments basically endorse current administrative practices to clean up the operation of the Legal Services Corporation. For years, the Legal Services Corporation had been abused as an ideologically oriented lobbying group. The administration of this Federal agency under President Reagan has put an end to this abuse. Unfortunately, the current appropriations bill would frustrate many of these reforms. The amendments I have introduced prohibit funds being used to return us to past abuses.

There is a definite need for legal services. In my own State of Wyoming, the program has been effectively directed to assisting clients with their legal problems. Unlike many other areas of the country, the Wyoming program has not been an advocacy group, but rather has provided real and necessary legal services.

The major problem in my State has been funding. The amendments I am introducing will ensure that our limited funding for this program is properly used. I would like to briefly explain the amendments.

The first amendment is the conflict of interest amendment. The purpose of this amendment is to prevent the kind of abuses that occurred in 1981 when three employees of the Corporation later became employees of a recipient. As you know, in that year the director of LAS' Office of Field Services transferred the money in the LSC technical assistance fund to the National Legal Aid and Defender Association [NLADA]. This transfer was of over $2 million, even though NLADA had earlier justified a grant of only $50,000. Not long afterward, the LSC field services director became the executive director at NLADA and his deputy became a consultant there. Ironically, when such a transfer to NLADA was proposed in 1978, an earlier field services deputy had referred to it as a "money grabbing" proposal. Yet after the transfer finally went through 3 years later, this same gentleman showed up on NLADA's Board of Directors.

This amendment would prevent such future occurrences by placing a reasonable 1-year restriction on Legal Services Corporation employees so that during that time they could not begin working for a recipient with whom they were involved in the funding process.

This is the same restriction which this Congress has wisely placed on employees of the executive branch and Federal Government agencies.

Clearly, recipients should be funded on the basis of need and not on the promise of personal financial gain. Such a system does not help poor persons get legal representation, it just helps nonpoor ones get a lot richer. At the very least, the appearance of impropriety is created when those responsible for the funding of another become employees of the other shortly thereafter. A 1-year waiting period should be sufficient to remove any appearance of impropriety—and restore some badly needed respectability to the Legal Services Corporation.

The second amendment involves tenant solicitation. This amendment would serve to prevent the solicitation of tenant clients by Legal Services attorneys. As you know, tantamount among the abuses of some Legal Services attorneys, abuses that tarnish the fine work done by others, are those against landlords. Landlords who have committed no sin other than that of renting to persons eligible for legal aid are finding themselves targeted for virtual bankruptcy by Legal Services lawyers.

The list of such abuses is legion. One landlady in New York City incurred $57,000 in expenses to evict a tenant from his $9,850 a month apartment. The landlady offered him no less than $12,000 to move out, but the tenant's Legal Services attorney refused to settle for anything less than $75,000. Another woman in that city has seen almost her entire life savings of $30,000 eaten up in litigation fees by Legal Services attorneys who get their fees from the U.S. Government and the taxpayers. In California, a woman leased her building to be used to provide medical services for poor people. After a year and a half, no medical service had been provided for anyone. It transpired that the facility was only being used to milk off grants from the State, which grants then went back into the operators' pockets. So the owner took the building back, as the lease allowed under such circumstances. Despite the legality of their action, Legal Services slapped a lawsuit on her and by the time the litigation ended this poor landlady had become just that, poor.

The third amendment involves political activity. My amendment is taken from the authorization bill offered by the chairman of the Appropriations Committee. I'm sure he won't have any problem with it. The amendment would prohibit all the officers and employees of a recipient from engaging in activities prohibited under the so-called big Hatch Act—5 U.S.C. 7321-7327. Currently staff attorneys, but not other recipient employees, are subject to the restrictions set forth in the little Hatch Act—5 U.S.C. 1502(a). The little Hatch Act is narrow in scope and only prevents staff attorneys from being candidates for elective office—5 U.S.C. 1502(a)(3)—and from using their political authority to affect the result of an election. As a result recipient employees have ample opportunity to use their position to influence the local democratic process unfairly.

The big Hatch Act would apply the same restrictions to recipients that the little Hatch does. In addition it would prohibit recipient employees from taking an active part in political management or political campaigns. Under the regulations promulgated pursuant to the big Hatch Act, recipient employees would be expressly prohibited from serving as officers of political parties; members of national, State, or local committees of political parties; officers or members of committees of political clubs; or from being candidates for any of these positions—5 CFR 733.122 (b)(1). The big Hatch Act would prohibit recipient employees from using their official authority to coerce the political action of a person or body—5 U.S.C. 7322. Under the regulations promulgated pursuant to the little Hatch Act, however, recipient employees may engage in all of these activities—5 CFR 151.122(f).

We don't want Legal Services attorneys or employees managing election campaigns. We don't want them serving on the platform or rules committees of either the Republican or Democratic Parties. The big Hatch Act ought to apply to them.

The fourth amendment involves real property.

Corporation grantees have acquired over $15 million in total real property, some of which were purchased contrary to Corporation requirements. For example, a grantee in North Carolina spent over $140,000 to refurbish property without prior Corporation approval. Similarly, another grantee in Birmingham, AL, purchased a building without LSC approval; the cost thus far has been more than $500,000 and another $300,000 is expected to be incurred.

As a matter of policy, and especially during these times of dwindling resources, funds should be spent on legal services for the poor and not on land for lawyers. Although there are exceptions to this general rule, real estate purchases should, at the very least, receive strict scrutiny from higher authority; that is, the Board.

Moreover, there are two practical problems in the purchase of real estate by a grantee. First, it is unclear whether the Corporation can always retain full interest in property owned by a local program if that program is defunded, becomes bankrupt or is disbanded. Agency principles do not, as a general rule, apply to the LSC. Second, in the event of emergency, a local program will not likely be able to obtain its funds quickly due to the nonliquid nature of real property. The capital assets of a Legal Services program should be readily available for conversion, not tied up in a manner likely to be inimical to the program itself.●

NOTICES OF HEARINGS

SELECT COMMITTEE ON INDIAN AFFAIRS

Mr. ANDREWS. Mr. President, I would like to announce for the information of the public that the Select Committee on Indian Affairs will be holding an oversight hearing on Tuesday, September 23, 1986, at 10 a.m., in Senate Russell 385 on the Indian Trust Fund and the Treasury Department's request for proposal regarding the fund, and for other purposes.

Those wishing additional information should contact John Vance of the committee at 224-2251.

PERMANENT SUBCOMMITTEE ON INVESTIGATIONS

Mr. ROTH. Mr. President, the Permanent Subcommittee on Investigations of the Committee on Governmental Affairs, will hold a hearing on emerging criminal groups—Asian.

The hearing will be held on Wednesday, September 24, 1986 at 9:30 a.m. in Senate Dirksen 342. For further information please contact Daniel F. Rinzel or Cynthia Christfield of the subcommittee staff at 224-3721.

COMMITTEE ON RULES AND ADMINISTRATION

Mr. MATHIAS. Mr. President, I wish to announce that the Committee on Rules and Administration will meet in SR-301, Russell Senate Office Building, on Tuesday, September 23, 1986, at 9:30 a.m., to hold hearings.

The committee will be receiving testimony on Senate Joint Resolution 268, providing for the reappointment of Murray Gell-Mann as a citizen regent to the Smithsonian Board of Regents.

The committee will also continue the oversight hearing begun on July 30, 1986, on the operations and functions of the Office of the Sergeant at Arms of the Senate.

For further information regarding this hearing, please contact Carole Blessington of the Rules Committee staff on x40278.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON FINANCE

Mr. DOLE. Mr. President, I ask unanimous consent that the Committee on Finance be authorized to meet during the session of the Senate on Thursday, September 18, until 12:30 p.m., to hold a markup on pending legislative business and executive nominations.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON CIVIL SERVICE

Mr. DOLE. Mr. President, I ask unanimous consent that the Subcommittee on Civil Service of the Committee on Governmental Affairs be authorized to meet during the session of the Senate on Thursday, September 18, to conduct a hearing on the following civil service retirement credit legislation: S. 2734, S. 1800, and H.R. 3006.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. DOLE. Mr. President, I ask unanimous consent that the Committee on Energy and Natural Resources be authorized to meet during the session of the Senate on Thursday, September 18, to hold an oversight hearing on the domestic and international petroleum situation.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADDITIONAL STATEMENTS

CALL TO CONSCIENCE ON BEHALF OF THE MANEVICH AND KARLIN FAMILIES

● Mr. BRADLEY. Mr. President, I rise today as part of the Congressional Call to Conscience Vigil which has for the last 10 years focused attention on a travesty of freedom, justice, and dignity: The Soviet Union's denial of religious freedom and emigration to Soviet Jews.

Ironically, the Congressional Call to Conscience began shortly after the Soviet Union committed itself to uphold internationally recognized standards of human rights and freedoms. There was reason for optimism following the acceptance of the Helsinki accords as Soviet restrictions on emigration eased during the years 1976-79. But a precipitous decline in exit visas in the 1980's reversed this trend. At the apex in 1979, the Soviets granted 51,320 exit visas to Soviet Jews, but by 1985 the number had dropped to 1,140. Equally distressing are the anti-Semitic sanctions to which Jews remaining in the U.S.S.R. are subject. Indeed, their strength and perseverance testifies to the overriding desire for men and women to be free.

I would like to speak in particular about the David Karlin and Vjacheslav Manevich families of Leningrad, which have been adopted by Temple Emanu-el of West Essex in Livingston, NJ. Both are directly related to Mikhail Manevich, the cantor at Temple Emanu-el, and his wife, Ema. Their cases typify the plight of the 400,000 Soviet Jews awaiting permission to emigrate.

The David Karlin family of Leningrad was first refused exit visas in 1976 on the false grounds that Mr. Karlin knew state secrets. The family has been applying for the last 10 years, but have been repeatedly denied. In 1978, the Karlins submitted an American invitation sent directly from their son, a U.S. citizen, but were refused and told never to apply for an exit visa with an invitation from the United States. Officials then ignored them when they sought an appointment to receive an explanation.

Mr. Karlin was dismissed from his job as a financial administrator of a Leningrad electronics company in 1974 when his brother applied for an exit visa. He was unemployed for 6 months, finally finding a job as a law teacher at a school for professional truck drivers. This job ended when the Soviets told him he couldn't teach Soviet students if he had applied to emigrate. He was then unemployed for 2 years, until he found a job working for the State insurance agency. Although in 1978 Mr. Karlin was told that he would be cleared of all the secrets in 5 years, the Karlins were again refused exit visas in January 1986.

Vjacheslav, Inna, and Ilja Manevich have applied to emigrate since 1980. The Soviet Government most recently refused to grant them exit visas in February 1986. They were told that because Inna's parents do not wish to emigrate, their family would be required to stay in the Soviet Union. The irony here is that all of the Manevich family, with the exception of those just mentioned, now live in the West. After their first application, Vjacheslav lost his position as an engineer, and now works in a low-paying nonprofessional capacity.

71-059 O-87-11 (Pt. 17)

Mr. President, as we in the West enjoy religious and political freedom, we must not forget the ongoing struggle of those who are categorically denied the basic right to live where they choose. While the number of Jewish refuseniks rises, we must also continue to raise our voices for those whose pleas repeatedly fall on unsympathetic ears. And today, I call upon the Soviet Government to hear the pleas of the Karlin and Manevich families, and to grant their exit visas promptly.●

LIABILITY THREAT SLOWS PROGRESS OF MEDICAL TECHNOLOGY

● Mr. BROYHILL. Mr. President, I call the attention of my colleagues to an article entitled "Liability Threat Slows Progress of Medical Technology," which appeared recently in the Charlotte Observer. The article's author is Frank E. Samuel, Jr., president of the Health Industry Manufacturers Association.

We in the Senate have been wrestling with the problem of product liability for some time now, and I think this article sheds light on what the liability crisis is costing all of us in terms of medical progress. The fact is, as Mr. Samuel points out, it may be quietly reshaping medical innovation which will affect each one of us. As we continue an examination of the product liability problem, I hope we will keep Mr. Samuel's point of view in mind.

I respectfully request that it be included in the CONGRESSIONAL RECORD.

The article follows:

LIABILITY THREAT SLOWS PROGRESS OF MEDICAL TECHNOLOGY

(By Frank E. Samuel, Jr.)

WASHINGTON.—Suppose you developed a technology that could dramatically improve the survival rate from an otherwise deadly disease. The venture capital would undoubtedly roll in, and your product would give patients a better life and you a chunk of the American dream. Right?

Think again. Lawsuits from families of those the technology couldn't save may very well keep you out of business—even if your product isn't shown to cause an injury. If product liability reforms aren't enacted by Congress and the states, this problem could threaten the quality of U.S. health care.

Medical innovation may be the most important, but least known, victim of the lawsuit mania sweeping the country.

While insurers and lawyers lob charges back and forth about who's to blame in the liability crisis, a threat to the next generation of life-saving technology—hence to consumers—goes unnoticed.

The reason? The effects of "defensive innovation" don't show up right away. That's what happens when companies spend research dollars not in advancing medical science, but in covering their flank from the risk of lawsuits.

When a public swimming pool takes down a diving board to avoid liability or a public park bans sledding, the public knows about it. But a shift in scientific innovation is tough to spot. The public may never know that a medical break-through died on the drawing board because liability risk made it unprofitable.

This is not just a hypothetical problem. Companies that should be pushing forward the capabilities of medical technologies are instead dropping entire product lines to avoid multimillion dollar lawsuits and skyrocketing insurance rates. Only one company now makes measles, mumps and rubella vaccine; only two make anesthesia gas machines and only four (two of which are foreign) make infant ventilators—devices that help critically ill babies breathe. Beyond that, companies are exiting the contraceptive products market because of the fear of liability suits, thereby narrowing consumer choice in birth control.

A leading manufacturer of critical-care equipment dropped out of the market for anesthesia gas machines because of the liability explosion. The company also makes adult ventilators, but has shied away from infant ventilators because of potential lawsuits and insurance costs. Common sense says infant ventilators should be profitable. They are key factor in boosting the survival rate for premature babies with respiratory distress syndrome from 30% to over 90%. But the risk of multimillion dollar suits by families of those 10% who can't be saved is so great that some manufacturers have become unwilling to compete in this market.

Important products like infant ventilators might not even be available today had the current liability climate existed 20 years ago, when research on the devices was beginning. Would we now be safe from polio if vaccine innovators had faced today's threat of lawsuits 30 years ago?

Intellectually, American society is probably willing to accept the inherent risks of medical advancement. But individually, Americans can't resist the temptation of multimillion dollar claims. And they are encouraged by jury awards against manufacturers, even when it's not clear that their product caused an injury. In overreaching to protect individual consumers on a case-by-case basis, courts unwittingly put future health care quality for the entire society at risk.

Federal and state liability reform can help protect the public from the decline in innovation that the current system is causing. Already, legislative proposals have been made at the state and federal levels to:

Limit payments for noneconomic losses—that is, pain and suffering in liability suits.

Prohibit awards against manufacturers when a product isn't clearly at fault.

Discourage frivolous lawsuits.

These provisions would be a first step toward clarifying the diverse and confusing liability laws, and toward guarding the public against a slide in medical innovation that threatens everyone's health.

ABA-SOVIET LAWYERS

● Mr. GRASSLEY. Mr. President, I was disappointed to see that the ABA, at its August meeting, decided to proceed with its cooperative agreement with the Soviet Lawyers Association [ASL].

There was a great deal of opposition, including that of the Senate Judiciary Committee, to this agreement. This opposition is due to a number of factors. As an organ of the Politburo, the ASL is in no way comparable to the ABA, a fiercely independent organization dedicated to promotion of the rule of law.

ABA-Soviet formal ties cannot achieve their ostensible purpose—to promote "meaningful dialog" between American and Soviet lawyers. Dialog is only meaningful if both sides are committed to conveying their positions truthfully. This is, unfortunately, not the case with the Association of Soviet Lawyers. The ASL is an extremely exclusive Soviet organization, designed primarily for the purpose of disinforming the public concerning the nature of the repressive Soviet legal system. In this role, the ASL has published the notorious "White Book," a vicious propaganda attack upon the Jewish emigration movement in the U.S.S.R.

Unfortunately the agreement has now gone into effect, and under its auspices, a meeting was held last weekend between the two groups at Dartmouth College. The fact that the ASL was allowed to film this meeting and use it for propaganda purposes is extremely disturbing to me especially in light of the continued detention of Nick Daniloff.

Chris Gersten, executive director of the National Jewish Coalition has cogently pointed out the ludicrous nature of this agreement and it would be beneficial for all the Members of this body to read it. Therefore I ask that the article be printed in the RECORD.

The article follows:

THE ABA AND SOVIET LAWYERS

(By Chris Gersten)

Throughout the American legal and academic communities, preparations are now under way for next year's bicentennial of the adoption of the U.S. Constitution. But as America prepares to celebrate the freedoms enshrined in this document, the nation's pre-eminent legal organization, the American Bar Association (ABA), has taken an action that is at odds with the group's reputation as a defender of liberty and justice.

On July 24, the president of the ABA informed the organization's governing body, the House of Delegates, of a cooperation agreement signed between the ABA and the Association of Soviet Lawyers (ASL). The agreement "pledged to advance the rule of law," and to promote respect for human rights. Superficially, the agreement appears to be a worthy document between two organizations both equally committed to the values of freedom and liberty that Americans hold dear.

In contrast to the ABA, however, the ASL is as far from being committed to liberty and justice as the Kremlin is from promoting free-enterprise and democracy. Like all other professional, cultural, and political organizations in the Soviet Union, the ASL is controlled by the government, and membership is limited to those who are considered "politically reliable."

Although the ASL committed itself in its agreement with the ABA to uphold human rights, the group has, in fact, been in the

forefront of Soviet efforts to deny those same rights. The Kremlin craves legitimacy, among both the Soviet people and the international community. It has, therefore, created the ASL to provide legal rationalizations and spurious legitimacy to such policies to repression as the persecution of Hebrew teachers and the imprisonment of dissidents in "psychiatric hospitals."

Some of the ASL's most virulent attacks have, in fact, been reserved for Soviet Jews, particularly those "refuseniks" whose requests for permission to emigrate to Israel have been denied. In 1979, for example, the ASL published the White Book dealing with the subject of Soviet Jewry, in which Jews who wish to emigrate were said to be inspired by Western "intelligence services." Last May, a second edition of the White Book appeared. Among the attacks on Soviet Jews to appear in this edition, the teaching of Hebrew and the Jewish religion was called "a blatant attempt to affect the psyche of minors in a religious and nationalistic way."

Many Americans may legitimately ask why the ABA should accord an organization such as the ASL recognition and respectability by signing an agreement of mutual cooperation. Certainly, given the ASL's record of opposing all that the ABA stands for, there would appear to be little on which the two groups could possibly agree to cooperate. Instead, it is the recognition of the fact that the Kremlin creates such groups as the ASL to serve its own political ends that has led the AFL-CIO to refuse for three decades to recognize or legitimize Soviet trade unions.

Advocates of the agreement within the ABA have argued that dialogue between American and Soviet lawyers will, indeed, help to promote the goals proclaimed in the agreement. Their arguments succeeded in persuading a majority of the ABA's House of Delegates to approve the agreement.

Now that the agreement is in place, its opponents within the ABA should work to provide the organization with evidence of the ASL's contempt for human rights in the hope that such evidence will lead to the accord's abrogation. For, as America celebrates two centuries of constitutionally guaranteed liberties, there can be no greater affirmation of our own dedication to freedom than the forceful and complete repudiation of the repression that the Soviet legal system seeks to uphold.●

NOMINATION OF JUDGE ANTONIN SCALIA TO BE ASSOCIATE JUSTICE OF THE SUPREME COURT

● Mr. KERRY. Mr. President, I support the nomination of Judge Antonin Scalia as an Associate Justice of the Supreme Court. I support him not because he is liberal or conservative, but because he is a legal scholar of distinction, of principle, and of integrity.

Judge Scalia has a record of excellence in academic achievement. He graduated summa cum laude from Georgetown University in 1957, where he was valedictorian and first in his class. He was an editor of the Law Review at Harvard Law School, and held a Sheldon fellowship at Harvard. He has taught law at the University of Chicago, Stanford University, Georgetown University, and the University of Virginia, and he has been universally recognized as a brilliant legal scholar.

Judge Scalia also served ably as an Assistant Attorney General from 1974 to 1977. From 1982 to the present he has served with distinction as a judge of the U.S. Court of Appeals for the District of Columbia Circuit.

It is no secret that Judge Scalia is deeply conservative in his views. Some legal scholars have made the case that Judge Scalia is even more conservative than Justice William Rehnquist. And I disagree with many of Judge Scalia's views on the proper role of Government and of the judiciary. In particular, I am concerned by Judge Scalia's narrowly limited view of the first amendment, as expressed in opinions such as Liberty Lobby, Inc. versus Jack Anderson.

But I also believe that Judge Scalia is a man of principle and integrity. And I believe that his conservative view of the role of the judiciary will provide a valuable and needed balance on the Supreme Court.

Judge Scalia is known as a builder of consensus on the court of appeals. He has been able to fifd areas of agreement and common ground with judges of widely divergent views. Judge Scalia has been joined in his opinions on the court of appeals by such moderate and liberal jurists as Judge Ruth Bader Ginsburg and Judge Harry T. Edwards. He has shown an ability to forge compromises and sway other judges to his point of view. I believe that those are valuable qualities in a Justice of the Supreme Court.

While I may often disagree with Judge Scalia's views, I respect him as a jurist and a legal scholar. I believe that he will make a positive contribution to the Supreme Court, and I support his nomination.●

HONORING DR. ERNST WEBER

● Mr. D'AMATO. Mr. President, I rise today to bring to the attention of my colleagues a banquet being held in New York City this coming Monday, September 22, in honor of Dr. Ernst Weber on the occasion of his 85th birthday. As we all know, the career of Dr. Weber is synonymous with the development of electrical engineering. In my opinion, this Nation owes Dr. Weber a great debt of gratitude for the major advances he has fostered in this field. I ask that a brief biography of Dr. Weber, prepared by the staff of New York Polytechnic University, the institution with which he is so closely identified, be printed in the RECORD at the conclusion of my remarks.

The biography follows:

DR. ERNST WEBER

Dr. Ernst Weber is internationally recognized as one of the major contributors to the electrical engineering profession in the 20th century. He is one of Polytechnic's most distinguished educators and academic leaders, and has inspired several generations of students and faculty members around the world to achieve distinction in the field.

Dr. Weber, who at 85 continues to maintain an active schedule and close ties with Polytechnic, was professor of electrical engineering from 1930 to 1969. With his leadership, the department's graduate program evolved into one of the largest and most respected in the nation. He served as president for 12 years during one of the University's most dramatic periods of growth—including the move to the present Brooklyn campus and the development of the Long Island Campus in Farmingdale.

Dr. Weber is a member of the IEEE Hall of Fame and served as the IEEE's first president. He is also listed among the IEEE's top ten all-time educators and is a recipient of the coverted IEEE Education Medal.

At Polytechnic, his academic specialties included electromagnetic theory, boundary value problems, transient phenomena in networks, electrical machines, nonlinear systems, and electron theory. He holds more than 30 American, Canadian and British patents in the field of microwave techniques and has published more than 50 papers, as well as the textbooks Mapping of Fields and Linear Transient Analysis.

During World War II, Dr. Weber organized Polytechnic's microwave research group that developed the precision microwave attenuator essential for the accurate calibration of power in radar systems. In recognition of the group's contributions, he was awarded the President's Certificate of Merit.

A native of Vienna, Austria, he began his professional career there, receiving a Diploma of Engineering in 1924 from the Technical University, then working as a research engineer for Seimens Schuckert. He was awarded a Ph.D from the University of Vienna in 1926, and one year later earned a D.Sc from the Technical University.

Weber holds honorary doctorates from Brooklyn Law School, Long Island University, Newark College of Engineering, Pratt Institute, and the University of Michigan.

Today he lives in Tryon, North Carolina. A strong advocate of balancing technology with its social consequences, he has declared, "The technological university has not only the opportunity, but indeed the obligation, to contribute through broad leadership education to the solution of societal problems."●

THE STAR WARS SPINOFF

● Mr. STEVENS. Mr. President, recently, I came across an article in the New York Times magazine by Malcolm W. Browne that deserves the attention of my colleagues. Mr. Browne's article, "The Star Wars Spinoff," discusses some of the potential benefits to both conventional defensive efforts, and to the private sector of the technologies generated by the SDI research. Mr. Browne notes that a Stamford, CT, market research firm has estimated that the commercial applications of SDI technologies will yield sales in the private sector of a magnitude between $5 and $20 trillion.

The promise of SDI is not simply as a means to defend against ballistic missile attack—it is also the extensive

investigation into exotic technologies that may unlock the secrets of fusion energy production, even faster microcomputer switches, and perhaps a new generation of antitank weaponry. The expectations placed on the SDI Program are great—and well they should be—but I expect the benefits of SDI research to transcend ballistic missile defense and provide substantial benefits for conventional defense and across the entire American economy.

I ask that "The Star Wars Spinoff" be printed in the RECORD, and urge my colleagues to take a few minutes to read it.

The article follows:

THE STAR WARS SPINOFF

(By Malcolm W. Browne)

The landscaped industrial park that flanks San Diego's Balboa Avenue hints of well-appointed board rooms, robotic assembly lines and healthy workers bronzed by weekends on the nearby beaches. The street is only a few minutes' drive from Sea World and other tourist magnets, and to the casual visitor it seems as far removed as an American suburb could be from any hint of war or weaponry. But the peaceful mien of the neighborhood is disturbed several times a week by the blast of a stunningly powerful cannon that sends flocks of startled birds into the air and sets off burglar alarms in parked cars over a wide area.

The source of the noise is one of the world's first rail guns, a new breed of electromagnetic artillery potentially capable of piercing the most heavily armored tanks, of picking off intercontinental missiles and battle satellites, and even of hurling projectiles to distant planets.

The rail gun, built by Maxwell Laboratories Inc., and named Checmate (an acronym for Compact High Energy Capacitor Module Advanced Technology Experiment), is about the size of a large merry-go-round and stands in a hangarlike building. One recent morning, flashing red lights and insistent loudspeakers warned nonessential personnel away while technicians sealed off the test building and retreated to the safety of a control shack. As the countdown progressed, pictures and computer data flowed across monitor screens, and workers readied the lasers, X-ray flash cameras and diagnostic sensors used for assessing each shot. The whine of high-power electrical equipment rose to a scream, a supervisor nodded to a controller, and the rail gun fired, sending a shudder through the factory compound, slapping clothing against the legs of passers-by and leaving ears ringing.

Hastily donning gas masks, technicians swarmed into the smoke-filled rail-gun building to look for equipment damage and check the target. Incredibly, a metal projectile scarcely larger than a household nail had been driven into a sandwich of thick steel plates to a depth of several inches. "Nice clean shot," someone observed. "We're moving right along."

In fact, experts say, American efforts to develop an electromagnetic rail-gun launcher—a gadget conceived by weapons makers as long ago as World War I—have achieved in the last two years alone what Defense Department planners had once predicted would take a decade. And credit for the project's impressive progress goes to what may be the most costly and intensive military research program in history: the Strategic Defense Initiative. Together with hundreds of other arcane, high-technology devices, ideas and systems, the rail gun has been selected for grooming and development as part of President Reagan's controversial vision of a defense shield capable of defending the United States against a Soviet balllistic-missile attack.

The merits of the President's plan—promptly dubbed "Star Wars" by advocates and opponents alike—have become a matter of intense worldwide debate. Supporters see it as a means of ending the threat of nuclear devastation. Opponents charge that the program is an exorbitant boondoggle whose stated objective is ruled out by the limitations of technology. Worse, these critics contend, Star Wars defenses might so upset the fragile balance of forces between East and West that war might become more rather than less likely.

Yet even as the debate has raged, Star Wars research has moved ahead quickly, consuming more than $3 billion in the last year alone, and giving unprecedented momentum to a broad range of advanced scientific programs.

The exotic new materials and technologies produced or encouraged by Star Wars research promises to have particular importance for conventional warfare, fostering changes in land combat as radical as whose wrought by the introduction of gunpowder in the Middle Ages. But spinoffs from the President's initiative are also finding their way into a myriad of civilian fields, including energy production, transportation, communications and medicine. Meanwhile, science itself is gaining new research tools from S.D.I. projects.

Critics of S.D.I. point out that the technological side benefits of Star Wars research could be had much more cheaply and efficiently if they were pursued directly rather than as the unintended offshoots of an extravagant military spending program. But S.D.I. proponents assert that in the absence of such a visionary scheme, it is unlikely that such research would have taken place at all. Weapons research, they say, has been a key element in technological progress throughout history, and has nearly always produced byproducts of immense value to mankind. Costly though World War II was in human suffering and destruction, for example, wartime research bequeathed a cornucopia of consolation prizes to the survivors, including plastic, synthetic textiles, antibiotics, jet aircraft and nuclear energy.

How far the President's vision of a space-based strategic defense will ultimately be carried is an open question. Spurred by concern over Federal budget deficits, Congress has already voted significant cuts in S.D.I. funds, and even the program's strongest supporters concede that enormous technical obstacles still loom ahead.

Yet, even if a continental defense is never actually deployed, the long-term impact of S.D.I. research programs promises to be enormous. In laboratories from San Diego to Boston, Star Wars is no longer a mere phrase or debating point. For better or worse, the controversial Strategic Defense Initiative is already yielding new technologies that seem destined to change the world.

Air Force Lieut. Gen. James A. Abrahamson is no stranger to monster-size Federal projects. From 1976 to 1980, he ran the Air Force program that developed the F-16 fighter. Later, he took charge of space-shuttle development for the National Aeronautics and Space Administration, a post he held until 1984.

Now, as director of the Pentagon's Strategic Defense Initiative Organization (S.D.I.O), the 53-year-old General Abrahamson is responsible for what may turn out to be the biggest Federal research project ever. He currently oversees the distribution of about $6 billion to some 1,300 Star Wars contractors in a program whose size rivals even that of the Manhattan Project, the secret World War II program that created the atomic bomb. (The Manhattan Project, from its inception to the destruction of Hiroshima and Nagasaki, cost $2 billion in 1945 dollars, equivalent to approximately $12 billion today. The current five year S.D.I. program, which is intended merely to assess possibilities rather than to build a working weapons system, is expected to cost up to $20 billion.)

"When I got here," General Abrahamson said recently as he shared a sandwich with a visitor to his gadget-strewn Pentagon office, "I began looking for a common denominator in all the big technology programs that had been successful—a common factor applicable to S.D.I. But I couldn't find one. For instance, both the German and British jet-propulsion programs were highly successful, but they achieved success under totally different conditions.

"Finally, I came to realize that the common denominator was to be found not in the successful programs, but in the programs that had failed or come in second best. An example, was the German atomic-bomb program of World War II, a program that was so highly structured and formal that it was unable to correct itself. By contrast, the Manhattan Project was dynamic, contentious, full of scientific give-and-take, and therefore capable of speedily correcting its own errors.

"I concluded that we needed the same rough-and-tumble intellectual approach—the American approach—to S.D.I. research. I decided that it was better to achieve 90 percent of a bold solution than 100 percent of a timid solution."

The resources now dedicated to finding that "bold solution" represent an enourmous national commitment. During the last year, American taxpayers have paid some $3.05 billion for S.D.I. research—nearly $13 for every man, woman and child in the country—and the administration has requested $5.3 billion more in Star Wars money for the coming year. Even if Congress succeeds in cutting this sum—both the House and the Senate have voted substantial reductions—S.D.I. will still remain an important component of the national budget.

Star Wars research, moreover, gets contributions from many sources besides formal S.D.I. appropriations. The Strategic Defense Initiative Organization is less than three years old, and virtually all the projects now under its aegis began with other government agencies and organizations. Overlapping research objectives and financing persist, and much of the technology developed by the Defense Advanced Research Projects Agency, the Defense Nuclear Agency and other organizations indirectly furthers Star Wars objectives. An insider acknowledged that "Star Wars money has a way of losing its color after passing through many hands."

When the S.D.I.O. needs something to be invented or built, it pays handsomely and apportions the task to many hands. Predictably, the largest S.D.I. contracts have gone to the giants of the aerospace industry. Heading the 1986 list is the Boeing Compa-

ny, with contracts totaling $131 million. Other top S.D.I. contractors include TRW Inc., $61 million; Hughes Aircraft Company, $40 million; Lockheed Missiles and Space Company, $25 million; Rockwell International Corporation, $24 million; and the Raytheon Company, $17 million. But Star Wars funds are also earmarked for a wide range of small businesses, government laboratories and agencies (including the Central Intelligence Agency), and academic institutions.

The economic impact of S.D.I. money is ubiquitous and potent. A Stamford, Conn., market research concern, Business Communications Company, has estimated that the commercialization of Star Wars technology will eventually yield private-sector sales ranging between $5 trillion and $20 trillion. The financial inducement for a company to participate in S.D.I. research is so great, in fact, that the S.D.I.O. receives 10 times as many proposals as it can pay for.

Private entrepreneurs can exploit a wide range of inventions and discoveries that grow out of government-sponsored research, and Star Wars technologies are no exception. But the commercial licensing of government processes or inventions is a complex system that sometimes imposes burdensome practical problems. A government agency may be unwilling to grant exclusive long-term rights to the use of an invention or process, for instance, thereby depriving prospective commercial licensees of a competitive edge.

The secrecy of such sensitive military projects also poses a potential problem for the transfer of technology from S.D.I. research to the private sector, but General Abrahamson minimizes its long-term importance: "Of course there are technologies in S.D.I. that are vital to our national interests and are classified top secret. However, you'd be amazed how much of our work in nonclassified or only moderately classified. Our secrecy classification system, like the proposed missile defense itself, is organized in layers, and our policy is to permit the maximum freedom of communication consistent with the national interest. That policy shouldn't pose a real problem for anyone."

"I am determined," General Abrahamson said, "that we not miss the opportunity to capitalize on the results of S.D.I. research and apply it across all facets of our economy and society."

The combination of a thick wallet and a gambler's quest for dramatic gains has already led S.D.I. researchers to discoveries with important implications for fields largely unrelated to strategic defense.

Perhaps the most significant of these areas is conventional warfare, where rail guns and other new "hypervelocity weapons" promise to transform the kind of continental-scale armored combat for which the Soviet and American armies have been girding themselves since World War II.

Both the Pentagon and the Kremlin believe that in future land wars, tanks and armored personnel carriers will decide the outcome of battles. Consequently, both sides press their munitions makers to design ever more lethal projectiles, and sturdier forms of armor to stop the enemy's shells, bullets and rockets.

To defeat the next generation of tough-skinned Soviet tanks, Army planners believe, an entirely new class of weapons might be needed: weapons as superior to today's powder-burning guns and rockets as the 15th-century harquebus was to even the best crossbow of the day. And thanks to the Strategic Defense Initiative, the electromagnetic rail gun may provide American armored vehicles with just such a weapon.

In contrast to traditional rockets and shells, which are propelled by expanding gases, the acceleration achieved by a rail gun is not limited by the speed of sound; given enough energy, a rail gun can accelerate objects to speeds comparable to those of meteors. In principle, a rail gun standing on the ground could bombard targets on the moon. A rail-gun projectile might even be made to hit a target hard enough to initiate nuclear fusion—a fact noted by scientists seeking to develop fusion energy as an alternative to the fission process that is used to generate electricity in today's nuclear power plants.

Many government organizations have explored the possibilities of the rail gun. But both financing and research coordination were lacking until the Strategic Defense Initiative Organization stepped in.

Among the technologists responsible was Jon Farber, a division chief with the Defense Nuclear Agency in Alexandria, Va. Mr. Farber has devoted much of his career to the building of machines that mimic the destructive pulses of electromagnetic energy emitted by nuclear explosions. Like many kinds of Star Wars weaponry, these testing machines require gigantic pulses of power.

"I realized," Mr. Farber recalled, "that the greatest possibility for quick progress toward an anti-missile weapon lay in the rail gun, and I predicted that by working on rail guns we could accelerate all our S.D.I. programs, reducing development times by six to eight years."

Essentially, a rail gun is an electric motor, in which two metal rails running the length of the gun barrel are the main stationary elements and the projectile itself is the moving part. When a massive electric current is made to flow between the rails via an armature at the back of the projectile, the flow generates an electromagnetic force that drives the projectile forward.

One of the main problems with such a weapon is providing it with a suitable supply of electric power. Not only must the source yield a gigantic pulse of power for each shot, but it must recharge fast enough to maintain a reasonable rate of fire.

Ignoring bureaucratic boundaries, Mr. Farber broached his ideas directly to the S.D.I.O. "To establish my bona fides, I offered to lend them a power supply of the kind we use in our simulated nuclear explosions," he said. "They agreed, and starting in March last year, the S.D.I. people agreed to share costs with us in the building of a capacitor-powered rail gun. Only nine months later we were able to fire the first demonstration shot. We blasted a little plastic cube right through a thick metal plate, and the resulting hole was impressive enough to convince even stubborn skeptics."

Since then, researchers have devoted their efforts to reducing the size of the containers needed to contain the electric power for the rail gun. Within a few years, Mr. Farber predicts, high-power capacitors charged by generators of various kinds will be small enough to fit not only into orbiting space stations, but inside tanks and other fighting vehicles.

"At present we are substantially outnumbered and outgunned by Soviet tanks, whose big guns can open fire before ours come into range," Mr. Farber said. "Rail guns could reverse that situation and change the balance of land forces in our favor."

Another key area of Star Wars development is the interface between computer science and applied physics, in which researchers are confronting the need to process extraordinary amounts of information in the shortest possible time. Future large-scale conflicts, whether in space, in the atmosphere, on the ground or at sea, are expected to unfold too quickly for even the most efficient consortium of human minds to control without massive computer assistance. A reliable, lightning-fast system for planning battles is therefore regarded as vital both to a defense against ballistic missiles and to the conduct of war on the earth's surface.

Part of the challenge lies in the realm of applied physics. Physicists are following several routes toward speeding up the microscopic switches that operate logic gates—the components of semiconducting chips that enable computers to calculate. The opening or closing of a switch determines whether its gate is to register a zero or a one—the binary numbers used for all computations.

Contractors working for S.D.I. or related defense technology projects are working on an entirely new type of computer switch: one that operates optically rather than electronically. An optical switch would be used to transmit or block a beam of light rather than an electric current, and thus benefit from the enormous speed at which light travels. The switch itself could be actuated by light signals; matching pulses of light applied to opposite sides of the switch would open it, and mismatching pulses would close it.

A remarkable new material being developed for both optical and electronic computer switching is a synthetic crystal, gallium arsenide, and substantial S.D.I. funds have been appropriated for pushing its development. Gallium arsenide transmits electrons several times faster than does the silicon used in conventional chips, and can also function as an optical switch.

Another potential optical switch that has attracted official interest is a plastic called polydiacetylene, under development at General Telephone and Electronics Laboratories Inc., of Waltham, Mass. According to Dr. Mrinal Thakur, a senior member of G.T.E.'s technical staff, an optical switch based on polydiacetylene could handle up to one trillion operations per second; a conventional silicon switch can manage only about one-thousandth as many in the same time. Optical switches, moreover, would be highly resistant to electronic pulses from nuclear explosions that would disable ordinary chips.

Computer experts working on projects related to S.D.I. are also streamlining problem-solving hardware and procedures. One of their approaches is to break up a complex problem into many small elements that can be solved simultaneously and then be rapidly reassembled to yield the required result. This technique of "parallel processing" is a feature of such advanced machines as the Warp, a new supercomputer developed at Carnegie Mellon University, and the Connection Machine, a product of Thinking Machines Inc. According to the Defense Advanced Research Projects Agency, which paid for its development, the latter machine recently took only three minutes to complete a computation over which a powerful International Business Machines Corporation mainframe computer had had to labor for six hours.

The computers and programs S.D.I. is helping to bring into being are powerful tools whose civilian counterparts will have incalculable scientific value, experts say. These machines might be used for long-term weather forecasting, for example, and

for creating reliable mathematical models of the atmosphere and the oceans. Environmentalists regard such models as essential in making accurate estimates of the effects of human activities on climate.

Several strategic defense projects seek to use the computer as an adjunct to the human brain, and the out-come of this work in such "expert systems" is applicable to conventional battlefields and civilian needs as well. Two of the latest Defense Advanced Research Projects Agency's computer projects for the Navy not only organize and assess mountains of information but also make recommendations to fleet commanders for solving specific tactical and strategic problems. The machine intelligence behind such recommendations is compounded by its designers from the knowledge of many human experts, and the computer program is capable of adding to its knowledge from its own problem-solving experiences.

Similar programs, many of which are independent of S.D.I but have benefited from its discoveries, have begun to help physicians diagnose patients and to assist plant managers in spotting problems in production, inventories and quality control.

Computer pattern recognition is another field of great interest to S.D.I. and other defense agencies. A computer capable of recognizing and interpreting patterns can guide a missile equipped with a television eye, singling out the pattern of a target from a background of clutter.

Missiles are not the only beneficiaries of this work. Related computing ability is at the heart of the advanced research agency's Autonomous Land Vehicle, an eight-wheeled driverless truck from which it is hoped a robot fighting vehicle will evolve. Although their capabilities are still quite limited, such robots may foreshadow not only the advent of mechanical soldiers but of surrogate servants, laborers and bodyguards—the creatures of science fiction.

In many areas, S.D.I. funds have played an important role not in fostering new projects, but rescuing or reviving old ones. One significant example has been the Nova laser, completed last year at Lawrence Livermore National Laboratory, in Livermore, Calif., at a cost of $187 million and 8 years' construction time. The world's most powerful laser, Nova is yielding experimental data that may contribute both to a beam defense against missiles and to the generation of electric power by hydrogen fusion.

Nova, which fills one of the largest buildings in Livermore's sprawling laboratory compound, was financed by the Department of Energy as a fusion power experiment. The object was to concentrate the combined beams of Nova's many lasers on a pin-head-size target, the implosion of which would initiate fusion in the target's hydrogen core.

But during the last three years, as financing for many fusion experiments has dwindled almost to the vanishing point, defense scientists began using Nova for another purpose: the production and testing of very short-wave-length beams, including X-ray lasers—a type of laser that many experts believe would be peculiarly effective against missiles.

That Nova is being kept active, for whatever purpose, is a source of satisfaction to fusion power advocates. "The present oil glut will be short-lived, and when the crunch comes the energy shortage is likely to be devastating," an engineer at the Electric Power Research Institute said. "Fusion may be our salvation, and Nova may be the route to fusion. If Star Wars keeps Nova alive, it's all to the good."

Besides lasers, beams of charged and neutral particles are under study as possible directed-energy weapons, and these, too, are expected to find civilian applications. The Department of Energy has sponsored experiments using electron beams for sterilizing food and for removing pollutants from industrial smokestack emissions, for instance. Electron beams developed for killing enemy missiles may also serve mankind by fighting cancer.

The S.D.I.O. is very interested in a potential weapon called the free-electron laser," said Dr. James A. Ionson, a 36-year-old astro-physicist who is in charge of selecting many S.D.I.O. research projects. "And the work that has gone into it shows considerable promise for cancer therapy."

By manipulating a beam of electrons produced by a charged-particle accelerator, researchers have found they are able to "tune" the wavelength, or color, of the resulting beam. Such tuning helps scientists create beams with the short wavelengths deemed effective against missiles, and may also provide the key to a potential new cancer therapy, Dr. Ionson said.

"Electron beams can penetrate tissue to any desired depth, and the depth is determined by the energy of the beam," he said. "An electron beam has very little effect on the tissue through which it merely passes. But when it reaches its penetration depth, it releases most of its energy at that spot. Consequently, a precisely tuned electron beam could be used to hit a maliganant tumor with pinpoint accuracy without damaging the surrounding tissue. The technique might be especially valuable in brain surgery."

Many industries and government researchers are quite comfortable with Star Wars, but the S.D.I.O.'s relations with the nation's academic community is ambiguous. Educators have raised moral and political as well as scientific objections to the attempt to build a missile defense, and many believe it cannot succeed, however much money is pumped into the effort.

Both the Union of Concerned Scientists and the Federation of American Scientists have denounced S.D.I., and some 6,500 scientists and scientific educators have signed petitions pledging not to accept S.D.I. funds.

Still, negative opinions about the strategic merits of the President's program can often be separated from attitudes regarding the broader benefits of S.D.I.-related research. According to a survey conducted last spring by Peter D. Hart Research Associates Inc., two thirds of 549 American physicists polled expressed doubts that S.D.I. could ever defend the entire population of the nation against ballistic missiles, and 62 percent declared themselves opposed to deploying a Star Wars defense.

But despite their general opposition to the development of actual S.D.I. weapons, many American physicists saw merit in the basic research involved; the Hart poll revealed that 77 percent of physicists supported basic Star Wars laboratory research and 21 percent opposed it.

To counter the anti-Star Wars lobbying of several professional organizations, scientists favoring S.D.I. research recently organized the Science and Engineering Committee for a Secure World. Among the group's members is Dr. Martin I. Hoffert, chairman of the department of applied sciences at New York University, who describes himself as a political liberal and an opponent of nuclear arms. "When I first heard of S.D.I., I had no real interest in it," he said. "But I was interested in almost any opportunity for ridding the world of nuclear weapons, and I came to believe that S.D.I. might give us a chance."

Some two dozen major educational institutions are now receiving S.D.I. funds, among them the University of California (Los Angeles and Berkeley), the Massachusetts Institute of Technology and Johns Hopkins University. Besides these, many colleges and universities are recipients of second-hand Star Wars money transmitted through various prime contractors.

Highly qualified physicists are sometimes drawn to Star Wars projects by an inducement at least as potent as remuneration: access to the laboratories, equipment and staffs that can take on research programs far beyond the financial reach of even the richest university.

The cumulative impact of such an influx of funds and assistance on the broader course of American science will, of course, be impossible to measure for many years. Bur scientists and technical experts both inside and outside the strategic defense program agree that the systems, materials and devices brought into being in the name of S.D.I. will leave a profound legacy. One defense physicist (who asked to remain unidentified) put it this way:

"Some say we've made Faustian deals with the Devil, and there's an element of truth in it, if you happen to look at national defense as the Devil, which I do not. I'm being paid to work in a lab that's more exciting than a toy store. I'm given all the fancy hardware I need for my work, which has to do with very short-wavelength lasers. Do you realize what magnificent scientific tools such lasers will one day give us? We could use them to make holographic movies of the interaction of molecules in living cells, catalyzing the whole field of cancer research. X-ray or gamma-ray lasers will help us understand the nature of life at its most basic level.

"Sure, we're working on weapons, and we hope they'll be very good weapons. But the biggest payoff for many of us is the thrill of personal scientific achievement—achievement that in many cases would be impossible without Star Wars tools."

PROPOSED ARMS SALES

● Mr. LUGAR. Mr. President, section 36(b) of the Arms Export Control Act requires that Congress receive formal notification of proposed arms sales under that act in excess of $50 million, or in the case of major defense equipment as defined in the act, those in excess of $14 million. Upon receipt of such notification, the Congress has 30 calendar days during which the sale may be reviewed. The provision stipulates that, in the Senate, the notification of proposed sales be sent to the chairman of the Foreign Relations Committee.

In keeping with my intention to see that such information is available to the full Senate, I ask to have printed in the RECORD at this point the notification I have received. The classified annex referred to in the covering letter is available to Senators in the office of the Foreign Relations Committee, room SD-423.

The notification follows:

DEFENSE SECURITY ASSISTANCE AGENCY,
Washington, DC, September 17, 1986.

Hon. RICHARD C. LUGAR,
Chairman, Committee on Foreign Relations, U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, we are forwarding herewith Transmittal No. 86-39 and under separate cover the classified annex thereto. This Transmittal concerns the Department of the Navy's proposed Letter(s) of Offer to the Netherlands for defense articles and services estimated to cost $26 million. Shortly after this letter is delivered to your office, we plan to notify the news media of the unclassified portion of this Transmittal.

Sincerely,

GLENN A. RUDD,
Acting Director.

[Transmittal No. 86-39]

NOTICE OF PROPOSED ISSUANCE OF LETTER OF OFFER PURSUANT TO SECTION 36(b)(1) OF THE ARMS EXPORT CONTROL ACT

(i) Prospective Purchaser: Netherlands.

(ii) Total estimated value: Major Defense equipment, $23 million;[1] other, $3 million; Total, $26 million.

(iii) Description of articles or services offered: Ninety-nine MK 46 torpedoes in containers, torpedo spares, and technical and engineering support.

(iv) Military Department: Navy (AEQ).

(v) Sales commission, fee, etc., paid, offered, or agreed to be paid: None.

(vi) Sensitivity of technology contained in the Defense articles or Defense services proposed to be sold: See Annex under separate cover.

(vii) Section 28 report: Case not included in section 28 report.

(viii) Date report delivered to Congress: 17 September 1986.

POLICY JUSTIFICATION

NETHERLANDS—MK 46 TORPEDOES

The Government of the Netherlands has requested the purchase of 99 MK 46 torpedoes in containers, torpedo spares, and technical and engineering support. The estimated cost is $26 million.

This sale will contribute to the foreign policy and national security objectives of the United States by improving the military capabilities of the Netherlands; furthering NATO rationalization, standardization, and interoperability; and enhancing the defense of the Western Alliance.

The Government of the Netherlands plans to install these torpedoes on its new "M" class frigates. These torpedoes will improve their anti-submarine warfare capabilities. The Netherlands will have no difficulty absorbing these torpedoes into its armed forces.

The sale of this equipment and support will not affect the basic military balance in the region.

The prime contractor will be Honeywell Incorporated, Defense Systems Division, of Hopkins, Minnesota.

Implementation of this sale will not require assignment to the Netherlands of any additional U.S. Government personnel or contractor representatives.

There will be no adverse impact on U.S. defense readiness as a result of this sale.●

[1] As defined in Section 47(6) of the Arms Export Control Act.

ADULT LITERACY AWARENESS MONTH

● Mr. QUAYLE. Mr. President, through the passage of Senate Joint Resolution 358, the month of September has been officially designated as "Adult Literacy Awareness Month." As a member of the Senate Labor and Human Resources Subcommittee on Education and as a cosponsor of the resolution, I believe this is, therefore, an opportune moment to reflect on literacy in our society, or to focus on its absence.

Researchers estimate that as many as 27 million adult Americans lack basic reading, writing, and comprehensive skills; they are functionally illiterate. Another 35 million are classified as semiliterate, and the numbers are growing. If one counts both categories, approximately 62 million adult Americans—or slightly more than one-third of the adult population—are functionally impaired and unable to make significant progress in their lives.

It is even more sobering to learn that the total is not likely to diminish under present circumstances. Various sources estimate that the number of people now in remedial training is anywhere from 3.5 to 4 million. Most of these—2.6 million—are being served in localities across the country through the Adult Basic Education [ABE] Program of the Department of Education, the remainder through a wide variety of smaller programs, both public and private. The dropout rate in these programs, however, can approach 40 percent. Thus, less than one-half of the 3.5 to 4 million in training will move out of the pool of illiterates in any given year. Meanwhile, various sources estimate that from 1.5 to 2.3 million new illiterates are being added to the pool each year. Put simply, the number of illiterates currently receiving help is miniscule compared to the scale of the need.

Illiteracy is not confined to any one economic level, to any one region of the country, or to any one ethnic or racial group. It is widely dispersed throughout the country, a problem in every community. To be sure, researchers have established a high incidence of illiteracy in economically disadvantaged groups. It would be erroneous, however, to think that the problem stops here.

Illiteracy is a fundamental problem in the sense that it is a contributing cause to many social and economic problems. Researchers have established a high correlation between illiteracy and unemployment, poverty, substandard job performance, welfare, and crime. For example, studies indicate that as much as 80 percent of our prison population is illiterate.

Lasting repercussions from the high incidence of illiteracy are clearly of a different order. The contention remains that it weakens America's defense posture because our recruiting base is affected. It also affects this country's ability to compete in foreign trade and is but one explanation for poor voter turnout and lack of participation in civic affairs.

The private and public sectors must form a coalition and embark on an anti-illiteracy program. This campaign must heighten awareness of the problem and mobilize efforts to provide help for illiterates within our communities. More specifically, this can be implemented through the aid and support of local civic, religious, literacy, and other educational organizations. No problem is more threatening to the public interest than illiteracy. At this time, cooperation is of immense significance and promise.

Four major national literacy efforts are currently in operation. As I mentioned before, Adult Basic Education is a program under the auspices of the Federal Government. A second is the U.S. military program of remediation for its own recruits. Two other privately supported programs exist, the Laubach Literacy Action serving approximately 50,000 people and Literacy Volunteers of America [LVA] serving 20,000. Corporations also provide in-service literacy help for some employees and many sponsor community literacy programs using their employees as tutors.

Additionally, in conjunction with Adult Literacy Awareness Month, Capital Cities/American Broadcasting Companies, Inc. [ABC] and the Public Broadcasting Service [PBS] have launched an unprecedented national collaboration entitled Project Literacy United States [PLUS]. This campaign against illiteracy consists of a wide range of national network broadcasts and community activities designed to raise awareness nationally and generate methods of dealing with the problems at the local level. Television stations nationwide will coordinate efforts and establish a literacy task force in each community. To date, 320 task forces have been formed.

I am pleased to note that an Indiana constituent, Ed Metcalfe, president and general manager of ABC affiliate WPTA-TV in Fort Wayne, has been actively concerned and instrumental in such endeavors. Due largely to his efforts, adult illiteracy is a public affairs priority for WPTA-TV. Metcalfe is one of a number of ABC affiliate executives who first brought this subject to the attention of ABC, and he is one of the prime forces behind PLUS.

Television and radio are often the only form of communication that can reach illiterates consistently on a large scale; it is important that they continue to do so as best they can. The combination of national media exposure and local community efforts will help the millions of adult illiterates to rec-

ognize their lack of strong reading and writing skills and become motivated toward improving them.

The problem of illiteracy is not one we were instrumental in creating, but by virtue of our malign neglect, as leaders and community members, we have for too long demonstrated a willingness to perpetuate this form of societal indifference and injustice. Do we possess the character and courage to tackle a problem which so many nations—nations much poorer than our own—have taken the initiative to forthrightly address? Our credibility as a free society and democracy is in question, particularly since roughly one-third of adult America is excluded from due democratic process and the ordinary commerce of our print society.

The chance of success for whole generations has been badly compromised by illiteracy. As leaders and concerned community members we are the privileged, empowered, and morally compelled to reverse this growing trend of illiteracy in America.●

BEYOND SALT: ARMS CONTROL BUILT UPON DEFENSES

● Mr. GOLDWATER. Mr. President, few issues command more attention in this body than those involving arms control. Today, this Nation is at a critical juncture in the arms control process. The formulas of the past have failed to meet the expectations of many people by constraining the nuclear arms competition. Perhaps more dangerously from our perspective, these formulas have failed to enhance stability by reducing the Soviet first-strike capability. Moreover, as the record of Soviet violations indicates, past arms control formulas have failed to discourage cheating, and have provided no satisfactory means to resolve these violations.

It is against this background that Our colleague from Indiana, Senator QUAYLE, has written a thoughtful and provocative article in the Summer 1986 issue of Strategic Review. His principal premise—and one that I share—is that our arms control policies must recognize the central contribution that strategic defenses can make to our deterrent posture. Strategic defenses not only offer important military capabilities, but they can also contribute in a significant way to the achievement of the objectives that we all seek in arms reduction negotiations.

Mr. President, I ask that the full text of Senator QUAYLE's article be printed in the RECORD following these remarks. Senator QUAYLE had developed a considerable expertise in the areas of strategic forces and arms control during his tenure on the Armed Services Committee, and I commend his article to the attention of my colleagues.

The article follows:

BEYOND SALT: ARMS CONTROL BUILT UPON DEFENSES

(Dan Quayle)

(The Author: Elected to the U.S. Senate in 1980, Senator Quayle (R-Ind.) has particularly distinguished himself in the deliberations of that body in the realms of defense procurement, Senate reform, job training and education. A member of the Senate Armed Services Committee, Senator Quayle in March 1985 was named Chairman of the newly established Subcommittee on Defense Acquisition Policy. Prior to his election to the Senate, he had served two terms in the House of Representatives.)

IN BRIEF

Even a formal demise of SALT may not guard against a repetition of its mistakes, captivated as arms control thinking in the United States has become by the assumptions of Mutual Assured Destruction. Especially in light of the lessons of SALT, a new arms control approach, to be viable, will have to be guided by four criteria. First, it must proceed from the principle and fact of defenses, rather than the past preoccupation with limitations on offensive forces. Second, it must be aimed at preventing first-strike postures and incentives. Third, agreements must be cast in order to encourage compliance and discourage cheating. Finally, they should be designed to facilitate offensive arms reductions through enhanced weapons survivability and improved command and control. The overriding objective, however, must be to harness the arms control process to the logic of strategic defenses in the nuclear age.

If living in the past deprives one of a decent future, the current debate over adherence to SALT is doubly threatening. Not only might this dispute be decided in favor of our persisting in an arms control vision that has failed but, more important, even its demise might not prevent a possible replay of its errors. The reason is simple: For the last two decades, SALT and its faith in Mutual Assured Destruction (MAD) have been what arms control has been all about.

Yet, it is precisely because of this identification, as well as continued public interest in pursuing arms negotiations, that there is a need to establish new criteria for arms control. These criteria, which themselves reflect on the critical failures of SALT, are the following:

1. Establish a clear focus on the effect of defenses (and not merely offensive forces) on the military balance.

2. Reduce incentives for first-strike postures.

3. Discourage cheating.

4. Encourage arms reductions through the enhancement of weapons survivability and command and control.

MAD AND THE U.S. DEFENSE MYOPIA

The first criterion is overriding. Indeed, failure to consider the effect which deployed defenses exert on the strategic balance was SALT's fatal flaw—one which underlay all its other failings.

A key premise behind SALT was that neither side would acquire significant strategic defenses once arms control was agreed to. These constraints on defenses were critical in U.S. negotiators' eyes to assure that both superpowers remained vulnerable to attack. With such vulnerability assured, they reasoned, neither side would feel compelled to build more and more weapons. Instead, equal limits on offensive arms could be agreed to, and these limits could then be lowered in future arms agreements.

On the same day the SALT I Agreement on Offensive Forces was signed in 1972, the ABM Treaty was signed as well. In fact, these arms limitations represented two sides of the same coin. As Henry Kissinger explained at the time:

By setting a limit to ABM defenses the treaty not only eliminates one area of potentially dangerous defensive competition, but it reduces the incentive for continuing deployment of offensive systems. As long as it lasts, offensive missile forces have, in effect, a free ride to their targets.

The goal was to assure both sides the ability to answer any nuclear attack with an unacceptably destructive reply. Such Mutual Assured Destruction (MAD) would be accomplished by two steps. First, strategic defenses would be constrained so that even a small number of missiles surviving an attack could be certain of penetrating to the attacker's territory and inflicting massive damage. Second, offensive weapons would be reduced so that there would be too few to destroy many military targets but more than enough to wipe out most of the opponent's cities.

By this logic, the ABM Treaty was paired with the SALT I Agreement on Offensive Forces. Later followed a negotiated protocol to the ABM Treaty which reduced the number of ABM sites permitted to both sides from two to one. Finally SALT II was negotiated and signed, but never ratified by the U.S. Senate.

In theory, all of this seemed to make sense. There were but two problems. First, the Soviets never accepted MAD—in fact, one can speculate that they probably believed all along that the concept was accurately described by its acronym. Second, they entered the ABM Treaty not because they disbelieved in the viability and value of strategic defenses in the missile age—let alone were willing to foresake pursuit of such defenses—but on the assumption that the treaty would give them an ultimate edge in that arena.

The U.S. decisionmakers at the time refused to recognize Soviet motivations and intentions, but they should have come as no surprise. In 1967, just prior to the SALT I talks, Soviet Prime Minister Aleksei Kosygin made it clear that the Soviet Union intended to protect itself against strategic attacks. In retrospect, his statements in February and June of that year came close to the language used sixteen years later by President Reagan in his summons to a Strategic Defense Initiative. Kosygin argued:

. . . A defensive system, which prevents attack, is not a cause of the arms race but represents a factor preventing the death of people.

. . . If, instead of building and deploying an anti-ballistic missile system, the money is used to build up offensive missile systems, mankind will not stand to gain anything. It will, on the contrary, face a still greater menace and will come still closer to war.

Beyond these elementary considerations, however, the Soviets saw in strategic defenses the road to enhanced Soviet military power. Three years before the SALT talks, Major Genral Nikolai Talensky had explained that "the creation of an effective anti-missile system enables the state to make its defenses dependent chiefly on its own possibilities, and not only on mutual

deterrence—that is, on the goodwill of the other side." This point was made even more explicitly in the Soviet General Staff journal, Military Thought, where, in a featured article in 1967, it was argued that "a most important factor which makes it possible to accomplish the task of changing the correlation of forces in one's own favor is anti-air defense (anti-missile and anti-space)."

The Soviets, of course signed the ABM Treaty. They did so, however, not because they subscribed to MAD, but because they calculated that the treaty would have the effect of slowing U.S. ABM efforts far more significantly than constraining their own efforts. They knew that their ABM program in the late 1960s lagged behind U.S. ABM advances by some fifteen years. They saw the treaty as giving them the cushion of time to catch up, recognizing that in the meantime, even under the treaty's constraints, they could continue to deploy an ABM system around Moscow, as well as air defenses, a civil defense program, and passive defensive measures such as the hardening of of command bunkers and missile silos.

The Soviet's motives are beyond speculation. In 1967 and 1968 published Soviet military analyses conceded that Soviet ballistic missile defense capabilities were practically nil, while the Nike-X ABM system under development in the United States, once deployed, could dramatically change the "correlation of forces" in the U.S. favor. Nor did the Soviets go to great pains to hide their intentions in the negotiations process. Coincident with the ABM Treaty's ratification, Minister of Defense Marshal Andrei Grechko made a point of noting that it "imposes no limitation on the performance of research and experimental work aimed at resolving the problem of defending the country against nuclear missile attack.

After 1972 Soviet investment in strategic defenses continued apace—to the point where, by the early 1980s, it probably exceeded their expenditures for offensive strategic arms. Whereas in the 1960s the comparative allocation to ballistic missile defense development in the United States and the Soviet Union came to an estimated 2-to-1 in America's favor, by 1980 that ratio had shifted to roughly 5-to-1 in favor of the Soviets.

Finally, although the Soviets said less about the role of strategic defenses after the signing of the ABM Treaty, what they did say was disturbingly clear. In 1976, for example, Marshal G.V. Zimin, Chief of the Military Academy of the PVO Strany (a separate military service dedicated to providing strategic defense) wrote as follows:

. . . Now victory or defeat in war has become dependent on how much the state is in a position to reliably defend the important objects on its territory from the destruction of strikes from air or space.

The enormous destructive power of nuclear warheads raises the necessity of destroying all targets without exception, which accomplish a breakthrough into the interior of the country from air or space.

All of these conditions put before the air defense complex and responsible tasks, the resolution of which will be determined by the ability to repulse strikes not only of aerodynamic but also of ballistic means of attack.

The Soviets, then, never accepted the concept of mutual deterrence through mutual vulnerability. Their rejection, however, never applied a brake to the continued pursuit of that theory by the United States. Whereas the Soviets deployed extensvie strategic air defenses, we dismantled ours. Whereas they developed and deployed two separate generations of ABM systems, we dismantled our first and only system. Whereas they developed anti-tactical missile systems, such as the SA-10 and SA-12, capable against some U.S. strategic ballistic missiles, we cancelled our original plans to give U.S. anti-aircraft missile systems such capabilities. Finally, while they continued to harden their military assets and to train their population in civil defense, the United States stopped all substantial hardening of its silos by the early 1970s and virtually abandoned its civil defense program.

Added to the absurdity of this asymmetry was the continued U.S. faith in pursuing equal limits on offensive arms under SALT. While the Soviets deployed several thousands air-defense interceptor planes, nearly 10,000 air-defense radars, and over 10,000 surface-to-air missile-launchers—and U.S. air defenses became virtually nonexistent—the United States nevertheless bargained in SALT II for equal sublimits on heavy bombers and air-launched cruise missile carriers. We also saw merit in equal sublimits on MIRVed submarine ballistic missile launchers and MIRVed land-based ballistic missiles—even though, again, the United States had virtually no active defenses against these weapons, while the Soviets either deployed or were developing extensive active and passive defenses.

By our ignoring, or wishing away, the impact of deployed defenses on the military balance, these "equal" SALT limits were anything but equal in their effect. Consider SALT's equal sublimits on slow, second-strike weapons such as bombers and cruise missiles. Given the Soviets' superior air defenses, all the equal limits accomplished was to exaggerate existing asymmetries.

In order for this pitfall to be averted in the future, defenses must be integrally factored into proposed arms control limits. We should make it axiomatic that the number of offensive systems of a given type on either side be tied to the level of defenses deployed against them. Especially since U.S. defenses are weak or nonexistent, arms limitations undertaken for the sake of "balance" and "stability" should be designed to permit the strengthening of defenses rather than the bolstering of offensive forces on either side.

The Soviets recognize only too keenly the military value of defenses. It is critical that we recognize that value as well, and that we convey to the Soviets very bluntly that arms reductions in the future will be dependent upon our deployment of defenses. If we really want to see offensive arms reduced and to deny the Soviets confidence in their first-strike capabilities, then capable defenses are in *sine qua non* both for secure force postures and for sensible arms limitations.

THE CRITERION OF PREVENTING FIRST-STRIKE

This, then, brings us to the second criterion: that arms agreements should reduce the likelihood of war—or, conversely, that they should not permit leeway for either side to aspire to a first-strike posture. SALT clearly failed this criterion. That it did, however, was itself largely due to the casual approach to defenses.

As was noted, Kissinger believed that, with the limits imposed on ballistic missile defenses, the incentive for continued deployment of offensive systems would be reduced, since they would enjoy "a free ride to their targets." SALT I was seen as the first step in this offensive arms limitation process. It basically froze the number of ballistic missile launchers at 1972 levels.

SALT II thereupon was supposed to plow real reductions into those offensive forces. As the U.S. SALT negotiator Gerard Smith explained: "I think they [the Soviets] are interested in getting a more definitive missile limitation than at present. . . . I have reason—I have hope that they will reduce the numbers and, perhaps, enter into some sort of qualitative limitations affecting size, yes, throw-weight." As in the case of U.S. hopes concerning strategic defenses, however, the Soviets did not accommodate. Instead they strove to expand their military advantage.

The United States tried in SALT II to apply limitations to more than just missile-launchers. Thus, for example, the U.S. hoped for a curtailment of heavy missiles. Yet, the Soviets resisted, and with good reason. In 1972, when the SALT I Agreement basically froze the number of missile-launcher forces on both sides, the Soviets commanded a strategic force of missiles much heavier than those deployed by the United States, but almost entirely consisting of single-warhead systems. They knew that, with SALT limits focused primarily on launchers, they could multiply their capability by MIRVing their heavy missiles.

In 1972, the Soviet Union possessed no more than 1,500 warheads on their land-based missiles forces. Today that number is approximately 6,500 warheads—almost all highly accurate, hard-target "silo-busters." The ICBM warhead inventory of the United States meanwhile has remained static. The reasons for this disparity are clear in retrospect. First, U.S. policymakers felt that additional warhead limits were not needed because sooner or later the Soviets would embrace the wisdom of MAD, stop their build-up of offensive systems and seek reductions. The second reason was physical: the United States could not aim at substantial increases in its stockpile of warheads because by 1979 the U.S. force consisted of much smaller missiles that already were highly fractionated.

In 1972 there were approximately 2,000 ICBM warheads in the U.S. inventory. Today the number is virtually the same. Meanwhile, however, within the SALT "constraints" the Soviets have amassed a ratio of over five prompt ICBM silo-busting warheads to every U.S. hard target, while the comparable U.S. warhead inventory cannot even match the number of Soviet missile silos.

Should we continue to adhere to SALT, this trend will only worsen. By 1990 the Soviets may be able almost to double their ballistic missile warhead inventory. By contrast the United States would have to reduce its inventory by at least 200 to allow for the replacement of old, highly fractionated missiles with newer, less fractionated ones—as, for example, in the substitution of Trident D-5 for Poseidon systems.

The Soviets did not "merely" accomplish first-strike advantages under SALT: they also managed to dampen the best U.S. means of retaliation. Specifically, in order to secure SALT II's limits on ballistic missiles, the United States yielded to Soviet pressure to restrict the one U.S. weapon system—long-range air-launched cruise missiles (ALCMs)—that is ideal for deterring a Soviet attack. ALCMs are slow. These are not first-strike weapons, but are best suited for retaliatory strikes. Moreover, if fitted with advanced guidance systems and conventional warheads, they can be substituted

for nuclear weapons in important missions. Most significant, the more ALCMs are deployed by the United States, the more the Soviets must invest in air defenses at the expense of offensive weapons capable of striking the United States or its allies. Undoubtedly it was in light of these considerations that the Soviets demanded that SALT severely limit ALCM-carrying bombers. The consequence is that, under SALT II, of the U.S. force of 257 bombers only 120 are permitted to carry long-range ALCMs. For every bomber beyond that number to be fitted with ALCMs, the United States would have to eliminate one multi-warheaded ballistic missile launcher.

"Limits" that encourage a disadvantageous competition in first-strike weapons, and that repress our competitive advantage in second-strike weapons systems, only increase the Soviets' incentive to threaten attack. This is the last thing than any arms agreement should do. Future negotiations must be aimed at redressing this horrendous legacy of SALT by focusing reductions and constraints on prompt, hard-target weapons systems, while even loosening the limits on such second-strike systems as ALCMs. At the very minimum, the dangerous yardstick of missile-launchers must be replaced by more meaningful denominators and incentives of "balance."

THE CRITERION OF COMPLIANCE

This brings us to the third criterion—that agreements be designed to encourage compliance and to deter cheating. Probably more had been said about the failure of SALT in this respect than any other. Yet, all too few commentors have linked this failure to the MAD assumptions concerning the prohibition of defenses and the inevitability of offensive reductions.

The linkage is significant. Because it was hoped that restrictions on defense would lower incentives on both sides to build more offensive systems, the assumption took hold that the precise number of offensive systems available to either side would not really matter—that eventually those systems would be scaled down. As Kissinger explained, with ABM limits in place, each side would be so open to attack that "beyond a certain level of sufficiency, differences in [offensive systems] numbers are therefore not conclusive."

This perspective spilled into the language of the SALT agreements themselves. Although detailed restrictions of the number, size and payload of missiles on both sides would have been preferable, it was deemed adequate to place limits on missile-launchers and to impose only vague restrictions on the quality and potency of the missiles themselves. After all, how well SALT protected against the development of modernized missiles did not seem important if the Soviets were assumed to have no incentive to produce them. What mattered more, in the context of verification, was a clear yardstick for measuring compliance—i.e., missile-launchers. Nearly every other SALT limit, in the face of Soviet resistance, was poorly defined.

Another consequence of this mindset was that the monitoring of SALT provisions beyond launcher limitations in effect became hostage to the Soviets' good faith. Simply by increasing telemetric encryption, for example, the Soviets were able to obstruct almost entirely the U.S. ability to verify their compliance with the SALT II restrictions on missile modernization.

Finally, there was a general presumption that the Soviets would recognize it to be in their best interest to comply with SALT. As a consequence, the only mechanism provided in SALT to deal with compliance problems was a Standing Consultative Commission. This commission could receive complaints, but had no power to resolve them. The only way compliance could be enforced in disputed cases was for the aggrieved party to threaten abrogation of the agreement or treaty itself.

SALT, then, combined the worst of all worlds with respect to the compliance factor. The presumption that compliance would obtain—or that, at least, violations would not matter heavily—was tragically mistaken. The Soviets did violate; the violations did make a difference in the strategic balance; and they proved difficult to challenge, let alone to redress.

In the future, arms control agreements must incorporate incentives for compliance stronger than incentives to violate. A partial answer, beyond more rigorous definitions of limits and restrictions, may lie in the principle of self-regulation implicit in "self-defense-zone" arrangements recently proposed for space. One might also try to tie explicitly the deployment of systems that can be detected to proof of the existence of other, less detectable systems or measures.

For any of these methods to be of much value, however, the agreement itself should be inherently tolerant of violation disputes. If violating the agreement would result in a significant increase in one or the other side's military power or a major diplomatic crisis, the agreement itself should be considered part of the problem. This again recommends the need for active and passive strategic defenses as a hedge against violations and possible treaty breakouts.

THE CRITERION OF INCENTIVES FOR REDUCTIONS

We now come to the last criterion: that arms agreements should encourage offensive arms reductions by enhancing weapons survivability and improved command and control.

SALT never addressed this criterion and actually worked to undermine it. It did so in two ways. First, the champions of SALT denigrated the entire notion that nuclear weapons be used to target the other side's weapons. They key to the "balance" to be fashioned by SALT was to be the recognition by both the United States and the Soviet Union that, irrespective of what either might undertake to attack the other, it could not preempt or prevent the opponent's ability to inflict retaliatory blows amounting to hundreds of millions of civilian casualties for the offender. Enhancing weapons survivability was virtually the last concern in SALT.

Second, because the compliance issue in SALT focused on missile-launchers, most of which could still be spotted and counted by "national technical means," a dim view was taken of mobile missile systems, which could not be thus monitored. Further deployments of Soviet mobile SS-16 missile-launchers were banned, as were deployments of long-range cruise missile before December 1981. MIRVed cruise missiles were prohibited altogether. As we have noted, severe limits were placed on numbers of air-launched cruise missile carriers, and specific provisions were drafted to make these carriers clearly distinguishable from ordinary bombers. Finally, a dual conventional-nuclear capability for ALCMs was discouraged by requiring all such systems to be counted as if they were nuclear.

Ultimately, none of these restrictions proved adequate, and it is doubtful whether they were worth the effort of drafting in the first place. Mobility, after all, imposes on the enemy an increase in the number of target-points at which he must aim. In terms of survivability, therefore, mobile missiles substitute for greater numbers of static missiles. It is thus elementary that mobility can serve the ends of arms reductions and should be encouraged within limits, notwithstanding the complications it may present to the verification process.

Moreover, mobile missile-launchers could help the transition to the primacy of strategic defenses in two ways. Not only could they justify reductions in offensive forces, but they could also help increase the effectiveness of early, active defense systems which are expected to be preferential—i.e., concentrated to protect a particular aim point in a manner unknown to the attacker, thereby compounding his uncertainty problem.

By the same token, improvements in command, control, communications and intelligence (C^3I) offer an even greater force multiplier than mobile missiles. The better and more survivable is command and control, the fewer the weapons that are needed to perform a given mission, and the lower are the risks of false alarms and accidental launch. Again, inasmuch as C^3I would constitute priority protection for strategic defenses, this emphasizes their role in underpinning reductions in offensive systems.

THE CRITERIA APPLIED TO CURRENT PROPOSALS

Giving due consideration to the effects of defenses on the military balance, reducing the Soviets' incentive to strike first, discouraging cheating and enhancing compliance, and encouraging arms reductions by improving weapons survivability and their command and control—these are the four criteria by which new arms control proposals should be judged. Do current U.S. proposals meet those criteria?

The answer, unfortunately, is uncertain. Both the INF and START proposals of the United States appear to be aimed, like SALT, at roughly equal levels in offensive systems, without due consideration of the superiority of Soviet passive and active defenses against theater and strategic systems. Both proposals call for deep cuts in offensive forces, but it is not clear that these reductions would reduce the likelihood of Soviet first-strike capabilities, given the Soviets' superior ability to defend against a Western retaliatory attack, as well as the number of U.S. targets that our proposals themselves would remove from the Soviet target lists.

Also, both proposals seem bare of any new methods to ensure compliance—even though with deep cuts the risks associated with violations or "breakout" rise commensurately. This concern is significant. The Soviets have designed their missile launchers to fire additional missiles, or "reloads." Precisely how many such "reloads" there might be deployed or in covert production is difficult to determine—and becomes a question of heightened concern with deeper arms reductions.

Similarly, the effectiveness of the Soviet nuclear force could be multiplied with improvements in accuracy that are virtually impossible to verify effectively or prevent. Instead of requiring three warheads to destroy every hard target, for example, with increased precision missile guidance the Soviets could reduce that requirement to two warheads, and ultimately to one. And they could accomplish this in many cases by

modernizing only the reentry vehicle, not the missile itself. Again, deep cuts in offensive launchers and warheads only increase the risks associated with not identifying these activities.

In the case of theater arms control, such verification problems are even more acute. The key reason is that not only intermediate-range Soviet SS-20 missiles and U.S. Pershing-2s and GLCMs are to be limited, but also shorter-range Soviet systems such as the SS-21, SS-22 and SS-23. Unlike the SS-20, these missiles are dual-capable, are assigned to Soviet military units much as artillery, require no prepared launch sites, and can be moved and refired within minutes.

Moreover, because these "shorter-range" missiles can potentially reach targets within ranges of up to 1,000 kilometers—and by the 1990s are expected to command accuracies of within 50 feet—it is quite likely that, armed with chemical and improved conventional warheads, they could destroy virtually all of NATO's key military assets that heretofore were assigned to nuclear warheads. The upshot of this is that even if an agreement were reached whereby the Soviets would dismantle their SS-20s, and they denuclearized their dual capable SS-21s, SS-22s and SS-23s, they could still effectively threaten virtually all important targets with these shorter-range systems.

In the case of U.S. proposals on strategic arms, serious consideration apparently has been given to the idea of purchasing Soviet offensive cuts in exchange for a U.S. pledge not to deploy defenses for a specified number of years. Rather then encouraging strategic defenses, this would have the effect of delaying, perhaps indefinitely, any U.S. defense deployments.

Finally, the U.S. strategic arms proposal would ban mobile missiles. This may make sense in the short term, since the United States does not yet have a mobile missile of strategic range and is experiencing difficulty in locating mobile Soviet system. Yet, in the longer run such a ban would foreclose any U.S. option of mobile missiles of its own. In this regard, the strict limit of 1,500 ALCMs contained in the U.S. proposal also may be contrary to our interests, for reasons that have been outlined above.

More generally the bitter lessons of the past must be pondered more carefully as we pursue arms control beyond SALT II. It would appear that whatever course we take will have to be based on defenses. Not only will we have to exploit active and passive defenses in our efforts to redress the military imbalance we currently face, but we may have to resign ourselves to arms agreements much more modest in scope than in the past.●

CONGRATULATIONS TO ROBERT WINER ON HIS 60TH BIRTHDAY

● Mr. LAUTENBERG. Mr. President, on September 29, Robert Winer, a close personal friend and longtime resident of Paterson, NJ, will celebrate his 60th birthday. Today I want to offer him my congratulations.

Besides our personal friendship, I offer special recognition to Bob Winer today because of the contributions he has made to Paterson, my birthplace, and to the State of New Jersey. Bob Winer believes deeply in our democratic system. He supports that commitment by maintaining the manufacturing and production of products in the United States despite the attraction of lower cost production overseas and the very seductive benefits of foreign credit assistance and facilities.

Mr. President, Winer Industries, has its national headquarters in Paterson, NJ, where Bob's father started the family business almost 50 years ago. His father came to these shores without knowing what was ahead. But he had a deep belief that America was the country in which he wanted to live and bring up his family. Winer Industries now employs more than 1,000 people from Paterson, NJ, to Tennessee and Arizona. Winer Industries is a company which exemplifies not only good business leadership, but community leadership as well. That is because Bob Winer made it his personal mission to train and employ those without the career choices higher education affords.

In cities across America, company after company has deserted the urban setting in which they started. But Bob Winer has resisted this temptation. Instead, he has created a modern facility, employing people in productive labor near their homes and families.

Winer Industries produces competitive, high quality products because the spirit of its employees and management combined leads to production of the best products in their price line that customers can buy. As a result, Winer Industries was selected as one of the 100 best suppliers of 12,000 that service Sears Roebuck & Co. This award brought credit to the company and its workers and reflects the determination of Bob Winer to continue the legacy his father left behind. His mission is to be competitive in his industry, but to treat his employees and customers fairly, and to reinvest in facilities and new products to continue the family dream.

All of us in New Jersey take pride in Bob Winer's accomplishments and business leadership and wish him continued good health, happiness and success. I am pleased to call him my friend.●

ABORTION AND INFORMED CONSENT: CONNECTICUT

● Mr. HUMPHREY. Three of the women who have written me have done so anonymously, and this letter from Connecticut is one of them. This young woman communicates with aching honesty the reality that the consequences of abortion are permanent. It is not a quick fix for an unplanned pregnancy. Everyone knows adoption and parenting are permanent. But abortion advocates attempt to make abortion appear to be an escape from the consequences of pregnancy. This deception has worn thin for many who have experienced the consequences of abortion.

The ruse is quite convincing on the surface. "The blob of tissue to be vacuumed out" has been ruled by the Supreme Court to be a non-person. Abortionists claim that the procedure is "safe and legal." Once the "products of conception" are removed from the mother the problem has been solved. Out of sight, our of mind!

Well, if this procedure is so safe and simple why am I getting all of these letters? If it is a solution suited to helping a woman avoid the permanent "complications" of pregnancy, why are these women so miserable? These are women with a wide diversity of economic, cultural, racial, educational and religious backgrounds. But they all agree on this one point: "Why didn't anybody tell me it would be like this?" Why is there so much grief, guilt and sadness among these women?

There are at least two reasons for these reactions, indicated by the women themselves. The first is that they are angry about proceeding to have an abortion without sufficient information regarding what they are doing. They feel demeaned and betrayed. The second is that they know they have destroyed far more than a blob of tissue. They have come to realize that they have killed their babies. I hope my colleagues will join me in cosponsoring S. 2791, in order to help women avoid making the same mistake over and over again in the future.

The letter follows:

July 29, 1986.

DEAR SENATOR HUMPHREY: I had my abortion almost five years ago when I was 19 and my boyfriend was 22. That "boyfriend" and I are now married. I found out I was pregnant on a Saturday afternoon and had the abortion the following Tuesday morning. Who can make an important decision rationally like that in two days? The people at the clinic never encouraged me to tell my parents or a clergy person even though they knew I wasn't married. I can so vividly remember the woman at the clinic pulling out her calendar book and scheduling me in as if it were a dentist or hair dressing appointment.

Our 20th century society neglects to inform women about the horrible side effects of an abortion. Thank God, I did not have any physical ones. No one ever explained to me that I would undergo so many emotional, psychological and mental aftereffects (By the way, I was chosen out of a third grade class of 30 students as the "most stable." I am now an electrical engineer—a graduate of a quite prestigious engineering college.) The people at the clinic never told me about the beginning of life, of a fetus forming. They just told me about "the blob of tissue to be vacuumed out." They never told me about the depression, anger, anxiety, fears, and self-hatred I could and would experience after abortion. They didn't tell me I would lose sleep and my appetite for weeks or be uneasy around babies, children, pregnant women and people in general, because I thought I was such a terrible person and was capable of hurting others. They never told me I would hate myself so much that I would actually have suicidal thoughts. They never told me I would seek

professional help to overcome my feelings of guilt and grief and be put on tranquilizers and anti-depressants. No one ever told me how broken my soul would be.

Although every woman's story is different, they are in so many ways the same. The major factors to overcome are guilt and grief. We are all sorry for what we have done, we have repented and we must forgive ourselves in order to carry on. The saddest thing for anyone affected by abortion (and this tragedy not only affects the woman, but all those touched by it—fathers, grandparents, etc.) is that it is irreversible. It is not as if we can punish ourselves a certain amount or advocate pro-life issues for X number of months and then our babies will be back. That isn't feasible. My husband and I would do anything to have our baby back.

Thank you for this opportunity.

ANONYMOUS,
Connecticut.●

GRAMM-RUDMAN-HOLLINGS

● Mr. MOYNIHAN. Mr. President, there are now 11 working days before the scheduled October 3 adjournment during which Congress must, among other things: pass reconciliation legislation that will reduce the deficit by about $15 billion; reach final agreement on all 13 appropriations bills; vote on the joint resolution incorporating the "sequester" report issued by OMB and CBO and reported by the Temporary Joint Committee on Deficit Reduction; and, raise the debt ceiling for fiscal year 1987.

The reconciliation bill was laid down last evening.

The bill would reduce the deficit some $3.7 billion; but, it is estimated that we need another $15 billion, or so, to reach a deficit of $154 billion.

Gramm-Rudman-Hollings was passed, in large part, to impress upon those in the financial markets that Congress was serious about reducing our massive deficits. Some thought that by placing into law an automatic budget-cutting mechanism, investors on Wall Street and throughout the Nation would know that the budget would be balanced in 6 year's time. All would then rest assured that interest rates would be lower because the Government would not absorb so great a percentage of available capital for the financing of Government debt. Investment would abound, and the economy would expand. So it was thought.

The Supreme Court struck down the automatic deficit-reduction mechanism on July 7. Still, the citizenry was told that there was a backup provision of the law by which Congress would reach the specified deficit targets.

Apparently that was not enough of an assurance, even for the sponsors of the legislation; indeed, the Senate spent several days in August trying to refine the automatic across-the-board budget cutting mechanism so it could pass constitutional muster.

That effort failing, we are now operating on our own.

I am certain that, before we leave on October 3, or 4, or 10, we will tell the public that as a result of our actions in these last weeks of the 99th Congress, the deficit will be $154 billion in fiscal year 1987.

I am just as certain that, on September 30, 1987, at the end of upcoming fiscal year, it will be announced that the deficit turned out to be much higher—perhaps $170 billion, perhaps $180 billion. In any event, we will be a long way from our fiscal year 1988 target of $108 billion, and the windfall of $9 billion collected by the Treasury in fiscal 1987 will turn to a shortfall of about $17 billion in fiscal year 1988.

What do private sector economists think of Gramm-Rudman-Hollings and the assurance of Congress? In the August 17 Washington Post, Alan Greenspan was quoted as saying:

It has become increasingly evident in recent weeks that the $144 billion target set for fiscal 1987 followed by a 1988 target of $108 billion is probably unreachable.

The Business Outlook section of Business Week magazine, in the September 22, 1986, edition, noted:

• • • There is little chance that next year's deficit will come even close to the Gramm-Rudman Act target of $144 billion. Indeed an analysis of 1987 budget proposals leads budget specialists at the Conference Board to conclude that next year's deficit will be about $225 billion.

That would be only a slight improvement over this year's red ink and a staggering $81 billion above Congress' goal.

In August, Data Resources [DRI] predicted a fiscal year 1987 deficit of $177.4 billion; in September, DRI is a bit more sanguine: $165.2 billion.

The September blue chip financial forecast surveyed leading economists, and reported that the average fiscal year 1987 deficit projection of the 10 most optimistic economists was $177 billion. The average of the 10 most pessimistic projections was a fiscal year 1987 deficit on $213 billion.

Clearly, private economists do not believe what Congress is telling them.

We should not say we will do something, or have done something, when we know the actual outcome will be different. To do so is to deceive. Such deception could lead to a loss of the public's trust in Congress. We ought not allow that to happen.

We should do what we can to reduce the deficit, but should not say we have done something we have not actually achieved. The public may forgive us for not being able to hit a specific deficit target; we will not be forgiven for misrepresentation of the facts.●

THE NATIONAL PEACE QUILT

● Mr. LAUTENBERG. Mr. President, the Peace Quilt, a quilt lent to supporters by Peace Links, has become an important symbol of our country's determination to live in a world free from the threat of nuclear war. The Peace Quilt is a compilation of American childrens' drawings, expressions, and dreams about world peace. All 50 States are represented on the quilt to demonstrate shared hopes and dreams for peace. I am proud that my name will be embroidered on the Peace Quilt next to the patch from New Jersey.

The joining of these patches in the Peace Quilt is an eloquent reminder that no State in this Nation alone can reduce the threat of nuclear war. It has reminded every Senator, Representative, and administration official that nuclear war is among the most critical issue facing our Nation and the world today. That we must work together to reduce the threat of nuclear holocaust. And that American childrens' hopes for peace are inextricably linked to our combined resolve and efforts to reduce the threat of nuclear war.

But the national Peace Quilt has become an important global symbol as well. The hopes and dreams of every child embroidered in the quilt are a reminder that all nations must redouble efforts to curtail the arms race. Every youth's drawing reminds us that all countries must work together in this effort. We must agree to restrain the growth of dangerous weapons systems and support arms control negotiations. All countries must cooperate if we are to live in a safe world, free from the threat of nuclear war.

Mr. President, many residents of New Jersey have played an active role in the grassroots peace movement and in Peace Links. These dedicated women have demonstrated their resolve and commitment to ensuring peace and to protecting the world from the perils of nuclear holocaust.

But New Jersey residents have actively participated in other peace organizations as well. Thousands of individuals in New Jersey have become increasingly involved in peace organizations like SANE, the Women's International League for Peace and Freedom, Educators for Social Responsibility, Physicians for Social Responsibility, and Lawyers Alliance for Nuclear Arms Control. Their presence has been strong in the religious groups, unions, and municipal and county governments in New Jersey which have worked hard to ensure that arms control remain a top priority here and throughout the world. And, increasing public concern about world peace in New Jersey convinced the New Jersey Legislature to create America's first State peace institute.

New Jerseyites understand the horror and total destruction that nuclear war would bring to our Nation, our community, our families, and our friends. They recognize the need for an end to the nuclear arms race. I share the concern of members of our community who are giving this inter-

national issue a local focus. And, I join them in the hope that greater public awareness will prompt effective steps to back away from nuclear war.

Mr. President, the patch in the National Peace Quilt from New Jersey sends a message of hope to the world. This patch displays a drawing of a 9-year-old child from New Jersey who etched a cheerful young girl dancing on flowers beneath a colorful rainbow. Above the dancing girl, the child drew a sun in the shape of a smiling heart. The caption on the block reads "Please give me peace."

Mr. President, we must work to make sure that this child's dreams and hopes are not crushed.●

NAUM AND INNA MEIMAN: LIFE SENTENCE

● Mr. SIMON. Mr. President, Naum and Inna Meiman, two good friends in Moscow are frantic in their desire to leave the Soviet Union.

Their quest for freedom in the West has now reached the point of desperation. Inna has lived for months with yet another cancerous tumor—her fifth—on her spine. The Soviets say that there is nothing more that they can do for her. Left to die a painful death in Moscow, Inna and Naum still have hope that they will be able to travel to the West to obtain experimental treatment for Inna.

Over a decade has passed since the Meimans original request for emigration. It is now a matter of life or death.

I strongly encourage the Soviets to demonstrate their concern for fellow human beings and allow the Meimans to emigrate to Israel.●

ARMS TALKS

● Mr. SIMON. Mr. President, recently the Washington Post's Sunday Outlook section featured an excellent article by Michael Krepon, an expert on the politics of arms control verification at the Carnegie Endowment for International Peace. Mr. Krepon's article skillfully details the demise of the Standing Consultative Commission [SCC], set up in 1972 as part of the SALT I agreement to monitor compliance with the SALT and ABM Treaty limits.

The SCC had long been an important panel to resolve disputes, a place where United States and Soviet concerns were successfully settled in a professional setting. This was the case until 1981, when the Reagan administration came to office. Shortly thereafter, Assistant Secretary of Defense Richard Perle led the charge against the SCC. His goal has been to scuttle the SCC as a useful negotiating forum and to keep problems unresolved so that outstanding compliance issues prevent arms control from moving forward.

As Mr. Krepon's article shows, General Ellis, our Ambassador to the SCC, needs a bureaucratic sponsor. The Pentagon has prevented Ambassador Ellis from negotiating a solution to several pressing problems, such as dismantlement and conversion procedures for bombers counted under SALT rules. I hope the State Department and the Arms Control and Disarmament Agency do the right thing and push the SCC's case before President Reagan.

Mr. President, I ask that Michael Krepon's article, "How Reagan Is Killing A Quiet Forum For Arms Talks," be printed in full in the RECORD.

The Article follows:

[From the Washington Post, Aug. 31, 1986]

HOW REAGAN IS KILLING A QUIET FORUM FOR ARMS TALKS

(By Michael Krepon)

In its crusade against alleged Soviet arms-control violations, the Reagan administration has nearly scuttled the secret U.S.-Soviet forum that was created to resolve such disputes.

The Standing Consultative Commission, as this little-known forum is called, was established in 1972 to monitor compliance with the SALT and ABM agreements that were negoiated that year. During the 1970's, quiet consultations in this secret channel produced important results, including agreements on procedures for dismantling missile launchers and guidelines for permissible weapons tests.

But hardliners in the Reagan administration decided early on that they weren't interested in using the SCC as a practical forum for hammering out compromise agreements on treaty compliance. Secretary of Defense Caspar Weinberger and his assistant, Richard Perle, preferred to denounce the Soviets for violating the SALT and ABM agreements, rather than to negotiate solutions to these problems in the SCC.

Weinberger's disdain for the SCC was evident in a memorandum he sent to President Reagan last November, in which he called the commission "a diplomatic carpet under which the Soviet violations have been continuously swept, an Orwellian memory hole into which our concerns have been dumped like yesterday's trash."

The civilian hardliners at the Pentagon found an unlikely adversary during the past four years in Gen. Richard Ellis, a survivor of more than 200 combat missions during World War II and a former head of the Strategic Air Command. As the chief American representative on the SCC, Ellis expected that his main adversary would be the Soviet commissioner. Instead, he has been caught in seemingly endless bureaucratic battles with Perle and Co.

This is the story of the breakdown of the SCC, a story of Soviet misbehavior that has been matched and compounded by administration officials who have exploited compliance controversies and blocked their resolution. U.S. and Soviet misbehavior has been mutually reinforcing, creating a political impasse that casts a dark shadow over current negotiations. This account is based on interviews with several dozen U.S. officials, who agreed to discuss the SCC's activities on a not-for-attribution basis. Ellis himself refused to discuss SCC matters, on or off the record.

American hardliners have hobbled the SCC by pursuing their strategy of confrontation. They start by asking for ideal solutions to compliance problems raised by Soviet actions. When the Kremlin refuses to accept these demands, the Reagan administration labels Moscow's actions as treaty violations. The United States then continues to demand ideal solutions, while refusing to negotiate alternatives that might also serve U.S. security interests. The blemished record of Soviet compliance is then used as a basis for withdrawing from SALT agreements.

A crippling blow to the SCC was struck last month, when the Reagan administration decided to remove most U.S. compliance concerns from the SCC's agenda. At a special session requested by the Kremlin to clarify the Reagan administration's declaration that SALT limitations "no longer exist," Ellis was instructed to tell his Soviet counterpart that, in the future, the administration would restrict compliance discussions to the ABM treaty. Conspicuously missing from this formulation was any reference to two other agreements within the commission's jurisdiction—the 1972 interim agreement on offensive missiles and the unratified SALT II treaty.

The special session marked a new low for the SCC. It demonstrated that the commission has evolved from a discreet channel for solving arms-control problems to a forum where each side now repeats carefully scripted accusatios of the other's misdeeds. This is a far cry from SCC deliberations in prior administrations, when very sensitive discussions took place and U.S. officials were able to achieve concrete results. For example:

Soviet agreement to provide detailed and graphic descriptions of missile launch-control facilities that they had under construction, alleviating U.S. concerns about their possible use as ICBM launchers. This exchange and others like it in the SCC opened an important window on Soviet military practices that had previously been closed.

Two 1974 protocols on procedures for dismantling missile launchers in excess of those permitted under SALT I, and a third protocol signed in 1976 detailing how the location of a permitted ABM site could be changed.

A lengthy "agreed statement" signed in 1978, regulating tests of air defense systems or components to limit their effectiveness against strategic ballistic missiles.

For the past three years, the usual superpower roles on compliance have been reversed. Most of the damage to SALT during this time has been generated by U.S. actions, including President Reagan's decision to scrap his SALT policy of "interim restraint," the reinterpretation of the ABM treaty to permit unrestricted tests of Strategic Defense Initiative weapons, and the construction of new early warning radars in Greenland and Scotland—far from the periphery of the United States, as required by the ABM treaty.

Prior to this time, Soviet actions did most of the damage to SALT. The Kremlin severely bent SALT II rules on new missile "types," heavily encrypted its missile tests, and constructed an early-warning radar in the interior of its country at Krasnoyarsk instead of its periphery. Soviet political decisions to embark on these dubious actions were probably made around 1979—after U.S.-Soviet relations turned sour. The level

of Soviet encryption jumped soon thereafter, in January 1980, and construction probably began on the Krasnoyarsk radar the following year. The fight testing of both new missiles began shortly before and after the death of General Secretary Leonid Brezhnev in November 1982.

For hardliners at the Pentagon and the arms control agency, the issue of Soviet noncompliance has always been the high card to play at critical periods of superpower dialogue. An uncorrected record of Soviet violations is essential to their case. Indeed, on the eve of superpower contacts that might help to resolve the very problems the hawks profess to worry about, they loudly raise compliance issues and the need for corrective action before any new accords can be considered.

For example, the administration disclosed its initial report on Soviet noncompliance five days before the first meeting between Secretary of State George Shultz and then-Soviet foreign minister Andrei Gromyko. Similarly, the November Weinberger memorandum suggesting responses to Soviet violations was sent to the president—and promptly leaked—just six days before the Reagan-Gorbachev summit last November.

The hardliners' campaign against the SCC has used similar obstructionist tactics, including a Pentagon boycott of the SCC for three negotiating rounds in 1983 and 1984.

One innovative tactic was a U.S. refusal to conclude the fall 1982 SCC session. The SCC usually convenes twice a year, in the spring and fall, with unresolved topics carried over from one session to the next. But Perle and his allies wanted to continue the fall session through the holiday season, if necessary, because the Soviets had failed to provide a satisfactory explanation to their concerns. Some U.S. officials believe Perle was angling for a Soviet walkout, a contention that Pentagon officials deny. After some sparring between the delegations and between U.S. officials in Washington and Geneva, an arrangement was worked out to "recess" the fall round. (The issue in dispute here was the possible deployment of the SS-16, a missile that has not been flight tested since 1976. Perle and others were convinced it had been covertly deployed at a test range near the White Sea.)

These bureaucratic games may appear petty, but they reflect the depth of feeling and tenacity with which administration opponents of arms control do battle on compliance issues. Of far greater consequence have been successful bureaucratic efforts to block problem-solving initiatives by Ellis.

During the fall 1982 round, Ellis succeeded in working out an elaboration of the SCC's 1978 understanding on the testing of air-defense systems and components. His instructions, however, prevented him from concluding this agreement for nearly three years. The administration's public reports on noncompliance still do not acknowledge this agreement, while continuing to cite the Soviets for "probably" violating the ABM treaty provision in question.

Ellis has also tried, without success, to finish up agreed procedures for bomber dismantlement, destruction or conversion—comparable to those reached in the mid-1970s for ICBM launchers and missile-carrying submarines.

During 1985 this issue grew in importance with the introduction of Bear-H cruise-missile-carrying bombers, which threatened to place the Soviets over the ceiling of strategic-weapon launchers they acknowledged having in SALT II. When asked, the Kremlin asserted it was under the ceiling because it had converted older Bison bombers to tankers. There was no way for the U.S. to tell, since the Bisons—perhaps two dozen in number—are parked on the ground in an aircraft boneyard in Siberia.

The bomber issue is still languishing. The Kremlin has played a waiting game, making no effort to resolve a SALT II issue primarily of concern to the United States. Gen. Ellis sought authority to work out agreed bomber procedures before the spring and fall 1985 SCC sessions, but Pentagon opposition to this initiative prevailed.

Ironically, the administration last December cited the Bison problem as a violation, albeit a militarily insignificant one. However, the administration's noncompliance report warned, "such violations can acquire importance if, left unaddressed, they are permitted to become precedents for future, more threatening violations." Then, in February 1986, Ellis was instructed to advise the Soviets that new procedures were "superfluous."

After each SCC session, Ellis cables back to Washington his summary of what transpired during the round and his recommendations for future U.S. moves. Those recommendations have invariably fallen on deaf ears. After the spring 1985 round, Ellis tried a more direct approach. On July 22, 1985, he addressed an interagency Senior Arms Control Group meeting chaired by Robert C. McFarlane, who was then national security adviser. At this meeting, Ellis asked for authority to update the SALT II data base of U.S. and Soviet strategic-weapon systems and to pursue steps to resolve the compliance problems posed by large phased-array radars like the one at Krasnoyarsk.

Nine days after Ellis' presentation, Weinberger sent a memo to McFarlane seeking to quash all of the initiatives proposed by the SCC commissioner. An updated data base wasn't needed, in Weinberger's view, because the United States could follow the disposition of Soviet strategic forces without it. Efforts to improve the viability of the ABM treaty, Weinberger warned, would set the stage for the "negotiated demise" of the Strategic Defense Initiative. Moreover, the negotiation of less-than-fully satisfactory solutions to Soviet compliance problems would "discredit" U.S. charges of violations.

Despite Weinberger's objections, two pragmatic option papers were forwarded to the White House for consideration last fall. The first suggested ways to avoid further erosion of the ABM treaty; the second laid out alternative resolutions that would alleviate U.S. strategic concerns over Soviet noncompliance. If, for example, the United States wished to prevent radars like that at Krasnoyarsk from being part of an effective territorial defense, it could seek limitations on their number and Soviet agreement that they be left completely undefended. And if the United States were concerned that the new SS-25 could be used to carry two warheads, it could seek aggreement that this missile and its successor never be flight tested with more than one.

Both option papers were vehemently opposed by Pentagon civilians who argued that the United States should not accept what they viewed as "cosmetic or marginal" solutions to Soviet noncompliance. The only acceptable solution to the radar problem was to tear it down, they argued. In the case of the new missile, the Soviets would have to roll back SS-25 deployments, destroying the missiles and their associated equipment.

The option papers sank without a trace in the National Security Council. Given the obscurity of the topics involved and Ellis' lack of bureaucratic support, it's doubtful that President Reagan has ever considered the proposals.

Administration hardliners are destroying the SALT agreements, and the forum created to maintian them. Questionable Soviet compliance with these agreements has certainly played a role in SALT's demise. But with President Reagan's decision to scrap the SALT limits, the rallying cry now heard in Pentagon corridors is: "Two down and one (the ABM treaty) to go."

IN DEFENSE OF JUSTICE WILLIAM J. BRENNAN

● Mr. KERRY. Mr. President, Associate Justice William J. Brennan of the U.S. Supreme Court needs no defense from any Member of the U.S. Senate. He is one of the most distinguished jurists ever to sit on the Federal bench.

Yet I feel compelled to respond to yet another attack on Justice Brennan, this time coming from a member of this administration. In the past, Justice Brennan has been the object of rhetorical attacks by right-wing elements. Now, Assistant Attorney General William Bradford Reynolds has joined their ranks.

Mr. Reynolds, in a speech last weekend at the University of Missouri School of Law, denounced Justice Brennan by name, on the grounds that Justice Brennan was trying to achieve a "radically egalitarian society." Mr. Reynolds stated that he regards such "radical egalitarianism" as "perhaps the major threat to individual liberty" in the United States today.

It is highly inappropriate for a member of the Justice Department to attack a sitting Justice of the Supreme Court by name. But, leaving aside the impropriety of this personal attack on Justice Brennan, the views expressed by Mr. Reynolds are also inappropriate. When has "egalitarianism" been considered a vice in our society? In fact, an egalitarian vision of society is the underpinning of our Constitution, the Declaration of Independence, and the Bill of Rights.

Mr. Reynolds singled out a speech given by Justice Brennan on August 8 to the American Bar Association for particular criticism. In that speech, which focused on the 14th amendment, Justice Brennan hailed that amendment as "the legal instrument of the egalitarian revolution that transformed contemporary society." The 14th amendment, which was ratified in 1868, declares that no State shall deny "equal protection of the laws" to any person within its jursdiction. Justice Brennan said, correctly in my view, that the promise of the 14th amendment has remained unfulfilled, and that despite great progress in recent years, "the goal of universal equality, freedom, and prosperity is far from won." Mr. Reynolds found these views deplorable, and said "that

agenda has little or no connection with the Constitution, the Bill of Rights, or any subsequent amendment."

Mr. President, it is almost incredible that Mr. Reynolds, in 1986, would seek to turn his back on the protections of the 14th amendment, and to turn the clock back to the days of prejudice and racial segregation in this country. Mr. Reynolds has stubbornly refused to accept repeated rulings of the Supreme Court in this term in favor of affirmative action programs which would bring about greater equality in American society. He has instead insisted on criticizing those decisions publicly, and attacking one of the most respected members of the Court.

It is Mr. Reynolds' views which are radical, not those of Justice Brennan. The views of Mr. Reynolds have, in fact, been already rejected by the U.S. Senate, which rejected his nomination for the position of Associate Attorney General. It is the duty of Mr. Reynolds, as an official of the Department of Justice, to uphold the law as laid down by the U.S. Supreme Court. His public statements indicate a reluctance to fulfill that duty.

Justice Brennan, appointed by President Eisenhower, has served with distinction on the Supreme Court for 30 years. He has always been a staunch advocate of equal opportunity and individual rights. Now, at a time when the nominations of Chief Justice Rehnquist and Justice Scalia have given renewed attention to the role of the Supreme Court, it is especially appropriate that we give careful consideration to the views expressed eloquently by Justice Brennan. I hope that he will remain a voice for equality and justice on the Court for many years to come. I ask that the text of Justice Brennan's August 8 speech to the ABA on the 14th amendment be printed in the RECORD.

The text follows:

THE FOURTEENTH AMENDMENT

(Address to Section on Individual Rights and Responsibilities, American Bar Association, by Justice William J. Brennan, Jr.)

My subject today is the Fourteenth Amendment which, in the 119 years since it became a part of the fundamental law, "has become, practically speaking, perhaps our most important constitutional provision—not even second in significance to the original basic document itself. . . . It is the amendment that served as the legal instrument of the egalitarian revolution that transformed contemporary American Society." [1] Its progenitor was, of course, Magna Carta, more particularly the famous Chapter 39 of the Great Charter providing that "no free man shall be taken, imprisoned, disseized, outlawed, banished, or in any way destroyed, nor will we proceed against or prosecute him, except by the lawful judgment of his peers by the law of the land." Indeed, however, the Fourteenth Amendment is a more complete catalogue than the great Charter of the liberties we know today. Notably, nothing in the Great Charter concerned freedom of religion, of speech, or of the press. Nor is the Great Charter itself free of sex discrimination, providing as it does, that "no one shall be taken or imprisoned upon the appeal of a woman for the death of anyone except her husband."

Yes, once the Supreme Court recognized that every individual in our country possessed a domain of personal autonomy and dignity in which neither state nor federal government had any right to intrude, it was inevitable that the Fourteenth Amendment should be summoned to the service of the protection of a broad range of civil rights and liberties.

Is this mere hyperbole and exaggeration? I do not think so. Remember that "From the founding of the Republic to the end of the War Between the States, it was the states that were the primary guardians of their citizens' rights and liberties and they alone could determine the character and extent of such rights. This was true because the Bill of Rights was binding upon the federal government alone—not the states. With the Fourteenth Amendment, all this was altered. That amendment called upon the national government to protect the citizens of a state against the state itself. Thenceforth, the safeguarding of civil rights was to become primarily a federal function. . . ." [2]—at least until the discovery recently by state supreme courts of their state constitutions.

But the federal responsibility was not immediately shouldered by the federal courts upon adoption of the amendment in 1868. Rather, the amendment became a "Magna Carta for business, in place of the Great Charter for individual rights which its framers had intended. It is, indeed, one of the ironies of American constitutional history that, for the better part of a century [after its adoption], the Fourteenth Amendment was of little practical help to the very race for whose benefit it was enacted. For at the very time it was serving to shield the excesses of expanding capital from governmental restraints. . . . The constitutional emphasis however . . . shifted in this century to one of ever-growing concern for 'life and liberty' as the really basic rights which the Constitution was meant to safeguard. The earlier stress upon the protection of property rights against governmental violations of due process gave way to one which increasingly focused upon personal rights. Under the newer approach, the Fourteenth Amendment would at last become (as its framers intended) the shield of individual liberties throughout the nation." [3] *Brown* v. *Board of Education* and *Baker* v. *Carr* are only the most visible proofs. Of equal—maybe even more—significance were the holdings that "the Fourteenth Amendment's requirement of due process . . . demands adherence by the states to most of the rights guaranteed in the Bill of Rights . . . our great unifying theme in these decisions was that of equality; equality as between races, between citizens, between rich and poor, between prosecutor and defendant." [4] This effected the "most profound and pervasive revolution ever achieved by substantially peaceful means." [5] And in the area of political rights, it has been said that this "constitutional development brought more significant advances in the protection and advancement of political rights than all the rest of our constitutional history put together . . . voting rights were vastly enlarged, to the great advantage of Negro and Puerto Rican minority groups, and to the great benefit of the Nation; poll taxes were eliminated, first in federal elections by the Twenty-fourth Amendment, and then in state elections on equal protection grounds. Literacy tests that were used for discriminatory purposes were ruled invalid. . . . Perhaps most important of all, the distortions in the governing process caused by minority-controlled legislatures were put aside as malapportionment became a matter of history rather than a fact of present contentions." [6] And, importantly for champions of civil rights and liberties, under many decisions "the Fourteenth Amendment was the source for making the Constitution not only color-blind, but also creed-blind, status-blind, and sex-blind. The law regards man as man and takes no regard of those traits which are constitutional irrelevances." [7]

What accounts for the change? I agree with those who believe that the concern of the Supreme Court over the past 50 years for personal rights "represented a direct judicial reaction to the vast concentrations of power confronting the individual in our urbanized industrial society. In that society judges developed a countervailing emphasis upon preserving an area of personal right consistent with the maintenance of individual development. Such emphasis . . . was vital if man was to continue to possess the essential attributes of humanity 'lacking which' as William Faulkner puts it, 'he cannot be an individual and lacking which individuality he is not worth the having or keeping." [8] Judges, like all of you, necessarily disturbed by the growth of authority, sought to "preserve a sphere for individuality even in a society in which the individual stands dwarfed, if not overwhelmed, in the face of the power concentrations that confront him in the contemporary community." [9]

Were there a list of principles fundamental to the functioning of a free republic, it would, in addition to guaranteeing that no citizen would be denied an education, a house, or a job on account of the color of his skin, certainly include an assurance that each citizen's vote would count no more or no less than that of any other citizen, that his government would take no voice in or interfere with his religion, that he would enjoy freedom of speech and a free press, and that the administration of criminal laws would adhere to civilized standards of fairness and decency. The Fourteenth Amendment has proved to be capable of assuring all of these things. In sum, it can function as the prime tool by which we as citizens can shape a society which truly champions the dignity and worth of the individual as its supreme value.

It is true that, in the first half century of its existence, its function as a document of human freedom lay dormant; it was employed instead as a weapon by which to censor and strike down economic regulatory legislation of the States. This was in step with the compromise which settled the Hayes-Tilden presidential election of 1876. That compromise postponed the enforcement of the Fourteenth Amendment in behalf of the Negro, a result furthered by the decisions of the Supreme Court which invalidated the Civil Rights Act of 1875 and held that separate but equal facilities satisfied the demands of the equal protection clause. In the last half century, however, the construction and application given the amendment by the federal judiciary started to put it back on the track and assure that it would come into its own.

For Congress left primarily to the federal judiciary the tasks of defining what constitutes a denial of "due process of law" or "equal protection of the laws" and of applying the amendment's prohibitions as so defined where compliance counted, that is, against the excesses of state and local governments. Congress saw that to accord state and local governments immunity from effective federal court review would be to render the great guarantees nothing more than rhetoric. Congress did not use its § 5 powers to define the amendment's guarantees, but confined its role to the adoption of measures to enforce the guarantees as interpreted by the judiciary. And, of course, § 5 grants Congress no power to restrict, abrogate or dilute the guarantees as judicially construed.[10]

Congress' investiture of the federal judiciary with broad power to enforce the limits imposed by the amendment reflects acceptance of two fundamental propositions. First, it demonstrates a recognition that written guarantees of liberty are mere paper protections without a judiciary to define and enforce them. Second, it reflects acceptance of the lesson taught by the history of man's struggle for freedom that only a truly independent judiciary can properly play the role of definer and enforcer.

Contrast, for example, the Universal Declaration of Human Rights in the Charter of the United Nations, which expressed in ringing words moral condemnation of the tradedy suffered by countless human beings over the face of the globe who are deprived of their liberty without accusation, without trial, upon nothing but the fiat of a sovereign government. The forthright prohibition of Article IX, solemnly joined by all the signatory powers, is that "No one shall be subject to arbitrary arrest, detention, or exile." But that has been no more than empty rhetoric, and must remain so, without an international tribunal and procedure to hold an offending signatory state to compliance with these great principles. As things stand, concepts of personal and territorial supremacy—national sovereignty—leave each member state free to grant its nationals only that measure of due process provided by its own laws, however far short that measure is of the standard of the Universal Declaration.

Contrast the way the declaration of similar substantive rights in the Fourteenth Amendment has been made meaningful by a system of judicial enforcement. Our concepts of due process in criminal proceedings are familiar to every American: a prompt and speedy trial, legal assistance (provided by government in the case of the indigent), prohibition of any kind of undue coercion or influence, freedom to conduct one's own defense, the right to a public trial and written proceedings, the presumption of innocence and the burden upon government to prove guilt beyond a reasonable doubt, and security against cruel and unusual punishments. Congress has ordained that the federal courts shall redress denial by any of the states of these standards of due process. In 1867, contemporaneously with its proposal of the Fourteenth Amendment to the states, Congress extended the ancient writ of *habeas corpus*—that must important writ to a free people, affording as it does a swift and imperative remedy in cases of illegal restraint or confinement—to any person claiming to be held in custody by a state in violation of the Constitution or laws or treaties of the United States.[11] The individual simply petitions a federal court to hear his claim that his detention by a state is a violation of federal guarantees. It avails the state nothing that the detention does no violence to state law or the state constitution. The guarantees of the federal Constitution are the higher law. It is true that the federal court will not hear a state prisoner who has not first exhausted any available state remedies for decision of his federal claims. For upon the state courts equally with the federal courts rests the obligation to guard, enforce and protect every right granted or secured by the Constitution of the United States. However, the state prisoner is not precluded from seeking federal relief by any determination of a state court that his federal claim has no merit. The prisoner may seek review of that holding in the federal courts, including the Supreme Court of the United States. Since he seeks his release on a claim of unconstitutional denial of a right secured to him by the federal Constitution, the last word as to its merits is for federal and not state tribunals.

In other words, Congress has provided a suprastate procedure for vindicating the guarantees which are the foundation of our free society. A most important corollary effect of the existence of this suprastate remedy is the incentive given to the judiciaries of the several states to secure every person against invasion of the rights guaranteed him by the basic law of the land.

When Congress decided to rely on the federal judiciary to define and enforce the guarantees of the Fourteenth Amendment, it was in effect acknowledging the peculiar competence of that branch of government to perform such tasks.

The Constitutional Convention had overwhelming rejected a proposal which would have provided that judges "may be removed by the Executive on the application by the Senate and House of Representatives." We must, therefore, take it that the post-Civil War Congress, in enormously expanding federal judicial power to enable the federal courts effectively to enforce the new constitutional limits on state authority, fully expected that an independent federal judiciary would regard it a solemn duty to interpret and apply the new constitutional restraints in the spirit and sense intended by their framers, however unpopular with local authority or majority sentiment. Such expectation is, after all, the heart of our constitutional plan of judicially enforceable restraints.

The judicial task in defining and enforcing the Fourteenth Amendment was made particularly formidable by the patent ambiguity of the terms "due process of law" and "equal protection of the laws." By design, the great clauses of the Constitution had been broadly phrased to keep their noble principles adaptable to changing conditions and changing concepts of social justice, but "due process of law" and "equal protection of the laws" were particularly empty vessels. In Cardozo's words, they are "of the greatest generality."

It is true that the term "due process of law" derived from Magna Carta. It is the equivalent of the term, the "law of the land." But the Supreme Court from the beginning rejected the notion that "due process of law," as used in either the Fifth or Fourteenth Admendments, embraced nothing except what constituted the "law of the land," as sanctioned by settled usage in England or in this country. In a case decided in 1884, when the amendment was but 16 years old, the Court said;

". . . to hold that such a characteristic is essential to due process of law, would be to deny every quality of the law but its age, and to render it incapable of progress or improvement. It would be to stamp upon our jurisprudence the unchangeableness attributed to the laws of the Medes and Persians.

". . . it is better not to go too far back into antiquity for the best securities for our 'ancient liberties.' It is more consonant to the true philosophy of our historical legal institutions to say that the spirit of personal liberty and individual right, which they embodied, was preserved and developed by a progressive growth and wise adaptation to new circumstances and situation of the forms and processes found fit to give, from time to time, new expression and greater effect to modern ideas of self-government." [12]

Congress has not yet chosen to exercise its power under section 5 of the amendment fully to enlighten us as to the constitutional goals that should be furthered in applying the amendment's restraints; nor is the judiciary confined to discovering how the framers would have construed and applied those restraints. In the words of Chief Justice Hughes:

"if by the statement that what the Constitution meant at the time of its adoption it means today, it is intended to say that the great clauses of the Constitution must be confined to the interpretation which the framers, with the conditions and outlook of their time, would have placed upon them, the statement carries its own refutation. It was to guard against such a narrow conception that Chief Justice Marshall uttered the memorable warning"—'We must never forget that it is a *constitution* we re expounding' (*McCulloch* v. *Maryland* . . .)—'a constitution intended to endure for ages to come, and consequently, to be adapted to the various *crises* of human affairs.'. . . When we are dealing with the words of the Constitution, said this court in *Missouri* v. *Holland* . . . 'We must realize that they have called into life a being the development of which could not have been foreseen completely by the most gifted of its begetters. . . . The case before us must be considered in the light of our whole experience and not merely in that of what was said a hundred years ago'." [13]

In giving meaning to the terms "due process of law" and "equal protection of the laws," federal judges have so far been aware, as Judge Learned Hand admonished: "that there are before them more than verbal problems; more than final solutions cast in generalizations of universal applicability. They must be aware of the changing social tensions in every society which makes [sic] it an organism; which demand new schemata of adaptation; which will disrupt it, if rigidly confined." [14]

This approach of the federal judiciary promised the country to make the Fourteenth Amendment a potent tool in the attack upon the central problem of the Twentieth Century in our country. Society's overriding concern today should continue to be, indeed must continue to be, providing freedom and equality, in a realistic and not merely formal sense, to all the people of this Nation. We know that social realities do not yet fully correspond to the promise of the Fourteenth Amendment. We do not yet have justice, equal and practical, for the poor, for the members of minority groups, for the criminally accused, for the displaced persons of the technological revolution, for alienated youth, for the urban masses, for the unrepresented consumer—for all, in short, who do not partake of the abundance

of American life. Congress and the federal judiciary have done much in recent years to close the gap between promise and fulfillment, but who will deny that despite this great progress the goal of universal equality, freedom and prosperity is far from won and that ugly inequities continue to mar the face of our nation? We are surely nearer the beginning than the end of the struggle.

And the struggle is once again putting at stake the substance of the Fourteenth Amendment. It is a seething, roaring conflict in our society, and among judges. "The battle is fought, as always, as a conflict over the meaning of the great phrases of the amendment—due process, equal protection of the laws, and privileges and immunities of citizens of the United States; and it rages as a conflict over the respective powers of the national and state governments. . . . Throughout its [more than a] century of existence, the Fourteenth Amendment has meant many things to many men. Men of equal integrity, of equal devotion to freedom and liberty and patriotism, have arrived at fundamentally different interpretations of its words and principles. No one familiar with the judicial opinions or the scholarly literature would assert the contrary.[15] A reason for alarm is that in the face of signs of negation once again "one can't avoid thinking that perhaps there is a sad parallel between [the post-Civil War period] and now: Is the curve of events, this time, to retrace that which followed the Civil War?"[16] Then, at the same time the Supreme Court was engaged in major expansion of the amendment's scope on behalf of the property interests, it was involved in a drastic curtailment of its scope with respect to the amendment's intended beneficiaries—the Negroes or freedmen . . . we can hardly avoid a sigh of regret for what might have been: If the Supreme Court had not emasculated the amendment; if Justice Miller has voted the other way in the Slaughterhouse cases and thereby turned the majority around; if the elder Harlan's lone dissent in the Civil Rights cases had prevailed; if the Fourteenth Amendment had not lain substantially dormant as a document of human freedom until at least the 1930's. . . . If, rather, the amendment had been faithfully applied as it was intended; to insure by governmental action, national and local, that all men and women were secure—and secure equally—in their fundamental rights to life, liberty and property; if this had been the course of history;[17] perhaps we would not have reason today uneasily to ask "Will the new commitment, begun most dramatically in 1954 to enforcement of fundamental and equal rights for all be reduced once again to a "feeble promise of maybe, sometimes and only in some respects."[18] Even though "the great command of the Fourteenth Amendment—equally under the rule of law, protecting the fundamental rights of humanity—is basic in our religious and ethical ideals,"[19]—and has been enforced primarily by the judicial branch—history can repeat itself; it has happend before—and more than once.

But if we do stand at the threshold of a time that "will usher in a new and savage struggle between freedom's believers and its destroyers"[20] the ultimate outcome may well depend on the repsonse of the Bar—not only of you of this Section already committed to protection of individuals rights, but also of lawyers throughout the land. I personally have faith that freedom will survive and that the Fourteenth Amendment's great principles will flourish." But they will successfully resist impending onslaught only as [lawyers] have the courage to understand and acknowledge their meaning; . . . have courage to acknowledge their ambiguities and uncertainties as well as their positive commands; only as they understand our history; and only as they and all of us have the faith and courage to defend freedom and justice and equality and to stand steadfastly and unmoving against those who, in whatever guise, seek nullification of the great principles of our American Constitution." [21]

And we must not be beguiled with thinking that, because state supreme courts are increasingly evaluating their state constitutions and concluding that those constitutions should be applied to confer greater civil liberties than their federal counterparts, we can safely ignore the deterioration being worked on Fourteenth Amendment protections. We can and should welcome this development in state constitutional jurisprudence—indeed, my own view is that this rediscovery by state supreme courts of the broader protections afforded their own citizens by their state constitutions—spawned in part certainly by dissatisfaction with the decisional law being announced these days by the United States Supreme Court—is probably the most important development in constitutional jurisprudence of our times. For state constitutional law will assume an increasingly more visible role in American law in the years ahead. Lawyers should take heed: Justice Hans Linde of the Oregon Supreme Court has said, for example: "A lawyer today representing someone who claims some constitutional protection and who does not argue that the state constitution provides that protection is skating on the edge of malpractice." *Welsh* v. *Collins*, "Taking State Constitutions Seriously." The Center Mag. 6, 12 (Sept., Oct. 1981).

But this most welcome development does not mean that we can stop resisting cutbacks, particularly by the Supreme Court of the United States, of Fourteenth Amendment protections. One of the great strengths of our federal system is that it provides a double source of protection for the liberties of our citizens. Federalism is not served when the federal half of that protection is crippled.

ORDERS FOR FRIDAY

RECESS UNTIL 9:30 A.M.

Mr. HELMS. Mr. President, I ask unanimous consent that once the Senate completes its business today, it stand in recess until 9:30 a.m. on Friday, September 19, 1986.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECOGNITION OF CERTAIN SENATORS

Mr. HELMS. Following the recognition of the two leaders under the standing order, I ask unanimous consent that the following Senators be recognized for not to exceed 5 minutes each for special orders: Mrs. HAWKINS, Mr. PROXMIRE, Mr. HEINZ, Mr. SASSER, Mr. WALLOP, Mr. BAUCUS, and Mr. MATTINGLY.

The PRESIDING OFFICER. Without objection, it is so ordered.

ROUTINE MORNING BUSINESS

Mr. HELMS. Following the special orders just identified, I ask unanimous consent there be a period for the transaction of routine morning business not to extend beyond 10:30 a.m., with Senators permitted to speak therein for not more than 5 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. HELMS. At the conclusion of morning business, the Senate will resume the pending business, S. 2706, the reconciliation bill. It may also be the intention of the majority leader to turn to any other legislative or executive items cleared for action. Senators should be on notice that votes are expected throughout the day and a late session—for emphasis, I repeat a late session—is anticipated on Friday.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

□ 1940

Mr. HELMS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

UNANIMOUS-CONSENT AGREEMENT—RECONCILIATION BILL

Mr. HELMS. Mr. President, I ask unanimous consent that on tomorrow, at such time as the chairman and the ranking minority member of the Budget Committee are ready to resume consideration of S. 2706, the reconciliation bill, there be 8 hours of the 20 originally provided under the law remaining for debate; further provided that, meanwhile, S. 2706, the

reconciliation bill, retain its current status as the pending business.

Mr. BYRD. Reserving the right to objection—I shall not object—this request has been cleared on this side of the aisle. I remove my reservation.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXECUTIVE SESSION

Mr. HELMS. Mr. President, I inquire of the distinguished minority leader if he is in a position to consider the following nominations on the Executive Calendar: No. 1027 to No. 1029 under the Air Force; No. 1030 through No. 1033, under the Army; No. 1034 through No. 1038, under the Navy; No. 1039, Harold T. Duryee; and all nominations placed on the Secretary's desk, with the exception of the nomination of Edwin G. Corr.

Mr. BYRD. Mr. President, I ask the distinguished acting Republican leader what the last calendar order number was that he identified. What was that number?

Mr. HELMS. 1039.

Mr. BYRD. Mr. President, I think I have heard the distinguished acting Republican leader accurately.

On this side of the aisle, the following nominations have been cleared by all Members and we are ready to proceed with the confirmation thereof: All nominations on page 2 of the Executive Calendar, under the Air Force and under the Army; all on page 3 under the Army; all on page 4 under the Navy; all on page 5 under the Navy; all on page 6 under the Navy; Calendar No. 1039 on page 7; and all nominations placed on the Secretary's desk in the Air Force, Marine Corps, Navy, Senior Foreign Service, including Mr. Corr.

Mr. HELMS. My unanimous-consent request was with the exception of Edwin G. Corr.

Mr. BYRD. Yes.

Mr. HELMS. With that understanding, I ask unanimous consent that the Senate go into executive session to consider the nominations just identified and that they be considered and confirmed en bloc.

The nominations considered and confirmed en bloc are as follows:

IN THE AIR FORCE

The following-named officer under the provisions of title 10, United States Code, Section 601, to be assigned to a position of importance and responsibility designated by the President under title 10, United States Code, section 601:

To be lieutenant general

Maj. Gen. Edward J. Heinz, [redacted]FR, U.S. Air Force.

The following-named officer, under the provisions of title 10, United States Code, section 601, to be assigned to a position of importance and responsibility designated by the President under title 10, United States Code, section 601:

To be lieutenant general

Maj. Gen. Bradley C. Hosmer, [redacted]FR, U.S. Air Force.

The following-named officer, under provisions of title 10, United States Code, section 601, to be reassigned to a position of importance and responsibility designated by the President under title 10, United States Code, section 601:

To be lieutenant general

Lt. Gen. Forrest S. McCartney, [redacted]FR, U.S. Air Force.

IN THE ARMY

The following-named officer under the provisions of title 10, United States Code, section 3040(b), to be appointed as Assistant Surgeon General/Chief, Dental Corps, U.S. Army:

Brig. Gen. Billie B. Lefler [redacted], U.S. Army.

The following-named Army Reserve officer for appointment as Chief, Army Reserve, under the provisions of title 10, United States Code, section 3019:

Maj. Gen. William Francis Ward, [redacted].

The following officers for appointment as Reserve commissioned officers in the Adjutant General's Corps, Army National Guard of the United States, Reserve of the Army, under the provisions of title 10, United States Code, sections 593(a) and 3392:

To be major general

Brig. Gen. James A. Ryan, [redacted].
Brig. Gen. Carl G. Farrell, [redacted].
Brig. Gen. Charles E. Scott, [redacted].

The following-named Army Dental Corps Competitive Category officer for appointment in the U.S. Army to the grade indicated under the provisions of title 10, United States Code, sections 611(a) and 624:

To be permanent brigadier general

Col. Thomas R. Tempel [redacted], Dental Corps Competitive Category, U.S. Army.

IN THE NAVY

The following-named officer, under the provisions of title 10, United States Code, section 601, to be reassigned to a position of importance and responsibility designated by the President under title 10, United States Code, section 601:

To be vice admiral

Vice Adm. Paul McCarthy, Jr., [redacted]/1310, U.S. Navy.

The following-named officer, under the provisions of title 10, United States Code, section 601, to be assigned to a position of importance and responsibility designated by the President under title 10, United States Code, section 601:

To be vice admiral

Rear Adm. (lower half) Paul D. Miller, [redacted]/1110, U.S. Navy.

The following-named rear admirals (lower half) of the line of the Navy for promotion to the permanent grade of rear admiral, pursuant to title 10, United States Code, section 624, subject to qualifications therefore as provided by law:

UNRESTRICTED LINE OFFICER

Roger Francis Bacon.
Jerry Creighton Breast.
Paul Donald Butcher.
Guy Haldane Curtis III.
Harry Kenneth Fiske.
Raymond Paul Ilg.
Jerome Lamarr Johnson.
Robert Joseph Kelly.
Robert Kalani Uichi Kihune.
Henry Herrward Mauz, Jr.
William Tyler Pendley.
James Guy Reynolds.
Dean Reynolds Sackett, Jr.
James Michael Gleaso Seely.
John Frederick Shaw.
Hugh Larimer Webster.
John Raymond Wilson, Jr.,

RESTRICTED LINE—ENGINEERING DUTY OFFICER

Malcolm Mackinnon, III.
Kenneth Cornelius Malley.

RESTRICTED LINE—AERONAUTICAL ENGINEERING DUTY OFFICER

John Clark Weaver.

The following-named rear admirals (lower half) of the United States Navy for promotion to the permanent grade of rear admiral, pursuant to title 10, United States Code, section 624, subject to qualifications therefore as provided by law:

CIVIL ENGINEER CORPS

Arthur William Fort.
Frederick Guyer Kelley.

The following-named rear admirals (lower half) of the Reserve of the U.S. Navy for permanent promotion to the grade of rear admiral in the line and staff corps, as indicated, pursuant to the provisions of title 10, United States Code, section 5912;

UNRESTRICTED LINE OFFICERS

John Edward Love.
John Dennis Summers.

AERONAUTICAL ENGINEERING DUTY OFFICER (AERONAUTICAL ENGINEERING)

Clay Wayland Gordon Fulcher.

SPECIAL DUTY OFFICER (CRYPTOLOGY)

William Joseph Miles.

SPECIAL DUTY OFFICER (INTELLIGENCE)

Robert Patrick Tiernan.

MEDICAL CORPS OFFICERS

John Duncan Tolmie.
James Glen Roberts.

DENTAL CORPS OFFICER

Edward John O'Shea, Jr.

JUDGE ADVOCATE GENERAL'S CORPS OFFICER

Robert Edward Wiss.

CHAPLAIN CORPS OFFICER

John Joseph Hever.

FEDERAL EMERGENCY MANAGEMENT AGENCY

Harold T. Duryee, of the District of Columbia, to be Federal Insurance Administrator, Federal Emergency Management Agency, vice Jeffrey S. Bragg, resigned.

IN THE AIR FORCE

Air Force nominations beginning Richard O. Abderhalden, Jr., and ending Daryl A. Yerkes, which nominations were received by the Senate and appeared in the CONGRESSIONAL RECORD of September 9, 1986.

IN THE MARINE CORPS

Marine Corps nominations beginning Robert J. Agro, and ending James G. Zumwalt, II, which nominations were received by the Senate and appeared in the CONGRESSIONAL RECORD of August 14, 1986.

Marine Corps nominations beginning Steven Barnett, and ending Mark A. Werth, which nominations were received by the Senate and appeared in the CONGRESSIONAL RECORD of September 9, 1986.

IN THE NAVY

Navy nominations beginning Susan D. Harvey, and ending Paul M. Votruba, which nominations were received by the Senate

and appeared in the CONGRESSIONAL RECORD of September 9, 1986.

□ 1940

Mr. HELMS. Mr. President, I move to reconsider the vote by which the nominations were confirmed.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. HELMS. Mr. President, I ask unanimous consent that the President be immediately notified of the confirmation of these nominations.

The PRESIDING OFFICER. Without objection, it is so ordered.

LEGISLATIVE SESSION

Mr. HELMS. Mr. President, I ask unanimous consent that the Senate return to the consideration of legislative business.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HELMS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. HELMS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECESS UNTIL 9:30 A.M. TOMORROW

Mr. HELMS. Mr. President, under the previous order I move that the Senate now stand in recess until 9:30 a.m. tomorrow morning.

The motion was agreed to, and at 7:49 p.m. the Senate recessed until Friday, September 19, 1986, at 9:30 a.m.

NOMINATIONS

Executive nominations received by the Senate September 18, 1986:

WORLD HEALTH ORGANIZATION

Frank E. Young, of Maryland, to be Representative of the United States on the Executive Board of the World Health Organization, vice Edward N. Brandt, Jr., resigned.

DEPARTMENT OF DEFENSE

James F. McGovern, of Virginia, to be Under Secretary of the Air Force, vice Edward C. Aldridge, Jr.

IN THE AIR FORCE

The following-named officers for permanent promotion in the U.S. Air Force, under the appropriate provisions of section 624, title 10, United States Code, as amended, with dates of rank to be determined by the Secretary of the Air Force.

Ziegenfuss, Paul C., Jr., xxx-xx-xxxx

CONFIRMATIONS

Executive nominations confirmed by the Senate September 18, 1986:

FEDERAL EMERGENCY MANAGEMENT AGENCY

Harold T. Duryee, of the District of Columbia, to be Federal Insurance Administrator, Federal Emergency Management Agency.

The above nomination was approved subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.

IN THE AIR FORCE

The following-named officer under the provisions of title 10, United States Code, section 601, to be assigned to a position of importance and responsibility designated by the President under title 10, United States Code, section 601:

To be lieutenant general

Maj. Gen. Edward J. Heinz, xxx-xx-xxxx xxx-...FR, U.S. Air Force.

The following-named officer, under the provisions of title 10, United States Code, section 601, to be assigned to a position of importance and responsibility designated by the President under title 10, United States Code, section 601:

To be lieutenant general

Maj. Gen. Bradley C. Hosmer, xxx-xx-xxxx xxx-...FR, U.S. Air Force.

The following-named officer, under the provisions of title 10, United States Code, section 601, to be reassigned to a position of importance and responsibility designated by the President under title 10, United States Code, section 601:

To be lieutenant general

Lt. Gen. Forrest S. McCartney, xxx-xx-xxxx xxx-...FR, U.S. Air Force.

IN THE ARMY

The following-named officer under the provisions of title 10, United States Code, section 3040(b), to be appointed as Assistant Surgeon General/Chief, Dental Corps, U.S. Army:

Brig. Gen. Billie B. Lefler xxx-xx-xxxx, U.S. Army.

The following-named Army Reserve officer for appointment as Chief, Army Reserve, under the provisions of title 10, United States Code, section 3019:

Maj. Gen. William Francis Ward, xxx-xx-x... xxx-...

The following officers for appointment as Reserve commissioned officers in the Adjutant General's Corps, Army National Guard of the United States, Reserve of the Army, under the provisions of title 10, United States Code, sections 593(a) and 3392:

To be major general

Brig. Gen. James A. Ryan, xxx-xx-xxxx.
Brig. Gen. Carl G. Farrell, xxx-xx-xxxx.
Brig. Gen. Charles E. Scott, xxx-xx-xxxx.

The following-named Army Dental Corps Competitive Category officer for appointment in the U.S. Army to the grade indicated under the provisions of title 10, United States Code, sections 611(a) and 624:

To be permanent brigadier general

Col. Thomas R. Tempel xxx-xx-xxxx, Dental Corps Competitive Category, U.S. Army.

IN THE NAVY

The following-named officer, under the provisions of title 10, United States Code, section 601, to be reassigned to a position of importance and responsibility designated by the President under title 10, United States Code, section 601:

To be vice admiral

Vice Adm. Paul F. McCarthy, Jr., xxx-xx-x... xxx-.../1310, U.S. Navy.

The following-named officer, under the provisions of title 10, United States Code, section 601, to be assigned to a position of importance and responsibility designated by the President under title 10, United States Code, section 601:

To be vice admiral

Rear Adm. (lower half) Paul D. Miller, xxx-xx-xxxx/1110, U.S. Navy.

The following-named rear admirals (lower half) of the line of the Navy for promotion to the permanent grade of rear admiral, pursuant to title 10, United States Code, section 624, subject to qualifications therefor as provided by law:

UNRESTRICTED LINE OFFICER

Roger Francis Bacon.
Jerry Creighton Breast.
Paul Donald Butcher.
Guy Haldane Curtis III.
Harry Kenneth Fiske.
Raymond Paul Ilg.

Jerome Lamarr Johnson.
Robert Joseph Kelly.
Robert Kalani Uichi Kihune.
Henry Herrward Mauz, Jr.
William Tyler Pendley.
James Guy Reynolds.
Dean Reynolds Sackett, Jr.
James Michael Gleaso Seely.
John Frederick Shaw.
Hugh Larimer Webster.
John Raymond Wilson, Jr.

RESTRICTED LINE—ENGINEERING DUTY OFFICER

Malcolm Mackinnon, III.
Kenneth Cornelius Malley.

RESTRICTED LINE—AERONAUTICAL ENGINEERING DUTY OFFICER

John Clark Weaver.

The following-named rear admirals (lower half) of the U.S. Navy for promotion to the permanent grade of rear admiral, pursuant to title 10, United States Code, section 624, subject to qualifications therefor as provided by law:

CIVIL ENGINEER CORPS

Arthur William Fort.
Frederick Guyer Kelley.

The following-named rear admirals (lower half) of the Reserve of the U.S. Navy for permanent promotion to the grade of rear admiral in the line and staff corps, as indicated, pursuant to the provisions of title 10, United States Code, section 5912:

UNRESTRICTED LINE OFFICERS

John Edward Love.
John Dennis Summers.

AERONAUTICAL ENGINEERING DUTY OFFICER (AERONAUTICAL ENGINEERING)

Clay Wayland Gordon Fulcher.

SPECIAL DUTY OFFICER (CRYPTOLOGY)

William Joseph Miles.

SPECIAL DUTY OFFICER (INTELLIGENCE)

Robert Patrick Tiernan.

MEDICAL CORPS OFFICERS

John Duncan Tolmie.
James Glen Roberts.

DENTAL CORPS OFFICER

Edward John O'Shea, Jr.

JUDGE ADVOCATE GENERAL'S CORPS OFFICER

Robert Edward Wiss.

CHAPLAIN CORPS OFFICER

John Joseph Hever.

IN THE AIR FORCE

Air Force nominations beginning Richard O. Abderhalden, Jr. and ending Daryl A. Yerkes, which nominations were received by the Senate and appeared in the CONGRESSIONAL RECORD of September 9, 1986.

IN THE MARINE CORPS

Marine Corps nominations beginning Robert J. Agro, and ending James G. Zumwalt, II, which nominations were received by the Senate and appeared in the CONGRESSIONAL RECORD of August 14, 1986.

Marine Corps nominations beginning Steven Barnett, and ending Mark A. Werth, which nominations were received by the Senate and appeared in the CONGRESSIONAL RECORD of September 9, 1986.

IN THE NAVY

Navy nominations beginning Susan D. Harvey, and ending Paul M. Votruba, which nominations were received by the Senate and appeared in the CONGRESSIONAL RECORD of September 9, 1986.

HOUSE OF REPRESENTATIVES—*Thursday, September 18, 1986*

The House met at 9:30 a.m.

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

O Gracious God, help us to see our lives as they truly are and not only as we think they ought to be. May we have the strength to admit our faults, confess our mistakes and prejudices, and so allow Your good grace to fill our hearts. May Your gifts of forgiveness and renewed life and the promise of Your supporting spirit ever give us hope for the way of Your truth and Your light. This we pray. Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Hallen, one of its clerks, announced that the Senate had passed with an amendment in which the concurrence of the House is requested, a bill of the House of the following title:

H.R. 1246. An act to establish a federally declared Floodway for the Colorado River below Davis Dam.

The message also announced that the Senate had passed a joint resolution of the following title, in which the concurrence of the House is requested:

S.J. Res. 415. Joint resolution to provide for a settlement to the Maine Central Railroad Company and Portland Terminal Company labor-management dispute.

RECESS

The SPEAKER. Pursuant to the order of the House of July 29, 1986, the House will stand in recess subject to the call of the Chair.

Accordingly (at 9 o'clock and 32 minutes a.m.), the House stood in recess subject to the call of the Chair.

JOINT MEETING OF THE HOUSE AND SENATE HELD PURSUANT TO THE ORDER OF JULY 29, 1986, TO HEAR AN ADDRESS BY THE PRESIDENT OF THE REPUBLIC OF THE PHILIPPINES

The SPEAKER of the House presided.

The Doorkeeper announced the President pro tempore and Members of the U.S. Senate who entered the Hall of the House of Representatives, the President pro tempore taking the chair at the right of the Speaker, and the Members of the Senate the seats reserved for them.

The SPEAKER. The Chair appoints as members of the committee on the part of the House to conduct the President of the Republic of the Philippines into the Chamber:

The gentleman from Texas, Mr. WRIGHT;

The gentleman from Washington, Mr. FOLEY;

The gentleman from Florida, Mr. FASCELL;

The gentleman from Arkansas, Mr. ALEXANDER;

The gentleman from California, Mr. MINETA;

The gentlewoman from Ohio, Ms. OAKAR;

The gentleman from Illinois, Mr. MICHEL;

The gentleman from Mississippi, Mr. LOTT;

The gentleman from New York, Mr. KEMP;

The gentleman from Michigan, Mr. BROOMFIELD; and

The gentlewoman from Illinois, Mrs. MARTIN.

The PRESIDENT pro tempore. The President pro tempore of the Senate, at the direction of that body, appoints the following Senators as members of the committee on the part of the Senate to escort the President of the Republic of the Philippines into the Chamber:

The Senator from Kansas, Mr. DOLE;

The Senator from Wyoming, Mr. SIMPSON;

The Senator from Indiana, Mr. LUGAR;

The Senator from Minnesota, Mr. DURENBERGER;

The Senator from Florida, Mrs. HAWKINS;

The Senator from Alaska, Mr. MURKOWSKI;

The Senator from California, Mr. WILSON;

The Senator from West Virginia, Mr. BYRD;

The Senator from California, Mr. CRANSTON;

The Senator from Hawaii, Mr. INOUYE;

The Senator from Rhode Island, Mr. PELL;

The Senator from South Carolina, Mr. HOLLINGS;

The Senator from Tennessee, Mr. SASSER;

The Senator from Massachusetts, Mr. KERRY; and

The Senator from Maryland, Mr. SARBANES.

The Doorkeeper announced the ambassadors, ministers, and chargés d'affaires of foreign governments.

The ambassadors, ministers, and chargés d'affaires of foreign governments entered the Hall of the House of Representatives and took the seats reserved for them.

The Doorkeeper announced the Cabinet of the President of the United States.

The members of the Cabinet of the President of the United States entered the Hall of the House of Representatives and took the seats reserved for them in front of the Speaker's rostrum.

At 10 o'clock and 2 minutes a.m., the Doorkeeper announced the President of the Republic of the Philippines.

The President of the Republic of the Philippines, escorted by the committee of Senators and Representatives, entered the Hall of the House of Representatives, and stood at the Clerk's desk.

[Applause, the Members rising.]

The SPEAKER. Members of the Congress, it is my great privilege, and I deem it a high honor and personal privilege, to present to you Her Excellency Corazon C. Aquino, President of the Republic of the Philippines.

[Applause, the Members rising.]

ADDRESS BY HER EXCELLENCY, CORAZON C. AQUINO, PRESIDENT OF THE REPUBLIC OF THE PHILIPPINES, BEFORE THE JOINT MEETING OF THE UNITED STATES CONGRESS

President AQUINO. Mr. Speaker, Senator THURMOND, distinguished Members of Congress, 3 years ago, I left America in grief to bury my husband, Ninoy Aquino. I thought I had left it also to lay to rest his restless dream of Philippine freedom. Today, I have returned as the President of a free people.

In burying Ninoy, a whole nation honored him. By that brave and selfless act of giving honor, a nation in shame recovered its own. A country that had lost faith in its future found it in a faithless and brazen act of murder. So in giving, we receive; in losing, we find; and out of defeat, we snatched our victory.

For the nation, Ninoy became the pleasing sacrifice that answered their prayers for freedom. For myself and our children, Ninoy was a loving hus-

band and father. His loss, three times in our lives, was always a deep and painful one.

Fourteen years ago this month was the first time we lost him. A President turned dictator, and traitor to his oath, suspended the Constitution and shut down the Congress that was much like this one before which I am honored to speak. He detained my husband along with thousands of others—senators, publishers, and anyone who had spoken up for the democracy as its end drew near. But for Ninoy, a long and cruel ordeal was reserved. The dictator already knew that Ninoy was not a body merely to be imprisoned but a spirit he must break. For even as the dictatorship demolished one by one the institutions of democracy—the press, the Congress, the independence of the judiciary, the protection of the Bill of Rights—Ninoy kept their spirit alive in himself.

The Government sought to break him by indignities and terror. They locked him up in a tiny, nearly airless cell in a military camp in the north. They stripped him naked and held the threat of sudden midnight execution over his head. Ninoy held up manfully under all of it. I barely did as well. For 43 days, the authorities would not tell me what had happened to him. This was the first time my children and I felt we had lost him.

When that didn't work, they put him on trial for subversion, murder, and a host of other crimes before a military commission. Ninoy challenged it authority and went on a fast. If he survived it, then, he felt, God intended him for another fate. We had lost him again. For nothing would hold him back from his determination to see his fast through to the end. He stopped only when it dawned on him that the Government would keep his body alive after the fast had destroyed his brain. And so, with barely any life in his body, he called off the fast on the 40th day. God meant him for other things, he felt. He did not know that an early death would still be his fate, that only the timing was wrong.

At any time during his long ordeal, Ninoy could have made a separate peace with the dictatorship, as so many of his countrymen had done. But the spirit of democracy that inheres in our race and animates this Chamber could not be allowed to die. He held out, in the loneliness of his cell and the frustration of exile, the democratic alternative to the insatiable greed and mindless cruelty of the right and the purging holocaust of the left.

And then, we lost him irrevocably and more painfully than in the past. The news came to us in Boston. It had to be after the 3 happiest years of our lives together. But his death was my country's resurrection in the courage and faith by which alone they could be free again. The dictator had called him a nobody. Two million people threw aside their passivity and fear and escorted him to his grave. And so began the revolution that has brought me to democracy's most famous home, the Congress of the United States.

The task had fallen on my shoulders to continue offering the democratic alternative to our people.

Archibald MacLeish had said that democracy must be defended by arms when it is attacked by arms and by truth when it is attacked by lies. He failed to say how it shall be won.

I held fast to Ninoy's conviction that it must be by the ways of democracy. I held out for participation in the 1984 election the dictatorship called even if I knew it would be rigged. I was warned by the lawyers of the opposition that I ran the grave risk of legitimizing the foregone results of elections that were clearly going to be fraudulent. But I was not fighting for lawyers but for the people in whose intelligence I had implicit faith. By the exercise of democracy, even in a dictatorship, they would be prepared for democracy when it came. And then, also, it was the only way I knew by which we could measure our power even in the terms dictated by the dictatorship.

The people vindicated me in an election shamefully marked by Government thuggery and fraud. The opposition swept the elections, garnering a clear majority of the votes, even if they ended up, thanks to a corrupt commission on elections, with barely a third of the seats in Parliament. Now, I knew our power.

Last year, in excess of arrogance, the dictatorship called for its doom in a snap election. The people obliged with over a million signatures, they drafted me to challenge the dictatorship. And I obliged them. The rest is the history that dramatically unfolded on your television screens and across the front pages of your newspapers.

You saw a nation, armed with courage and integrity, stand fast by democracy against threats and corruption. You saw women poll watchers break out in tears as armed goons crashed the polling places to steal the ballots, but just the same, they tied themselves to the ballot boxes. You saw a people committed to the ways of democracy that they were prepared to give their lives for its pale imitation. At the end of the day, before another wave of fraud could distort the results, I announced the people's victory.

The distinguished cochairman of the United States observer team in his report to your President described that victory:

"I was witness to an extraordinary manifestation of democracy on the part of the Philippine people. The ultimate result was the election of Mrs. Corazon C. Aquino as President and Mr. Salvador Laurel as Vice President of the Philippines."

Many of you here today played a part in changing the policy of your country toward us. We, Filipinos, thank each of you for what you did: For, balancing America's strategic interest against human concerns, illuminates the American vision of the world.

When a subservient Parliament announced my opponent's victory, the people turned out in the streets and proclaimed me President. And true to their word, when a handful of military leaders declared themselves against the dictatorship, the people rallied to their protection. Surely, the people take care of their own. It is on that faith and the obligation it entails, that I assumed the Presidency.

As I came to power peacefully, so shall I keep it. That is my contract with my people and my commitment to God. He had willed that the blood drawn with the lash shall not, in my country, be paid by blood drawn by the sword but by the tearful joy of reconciliation.

We have swept away absolute power by a limited revolution that respected the life and freedom of every Filipino. Now, we are restoring full constitutional government. Again, as we restored democracy by the ways of democracy, so are we completing the constitutional structures of our new democracy under a Constitution that already gives full respect to the Bill of Rights. A jealously independent constitutional commission is completing its draft which will be submitted later this year to a popular referendum. When it is approved, there will be congressional elections. So within about a year from a peaceful but national upheaval that overturned a dictatorship, we shall have returned to full constitutional government. Given the polarization and breakdown we inherited, this is no small achievement.

My predecessor set aside democracy to save it from a Communist insurgency that numbered less than 500. Unhampered by respect for human rights, he went at it with hammer and tongs. By the time he fled, that insurgency had grown to more than 16,000. I think there is a lesson here to be learned about trying to stifle a thing with the means by which it grows.

I don't think anybody, in or outside our country, concerned for a democratic and open Philippines, doubts what must be done. Through political initiatives and local reintegration programs, we must seek to bring the insurgents down the hills, and by economic progress and justice, show them that for which the best intentioned among them fight.

As President, I will not betray the cause of peace by which I came to power. Yet equally, and again no

friend of Filipino democracy will challenge this. I will not stand by and allow an insurgent leadership to spurn our offer of peace and kill our young soldiers, and threaten our new freedom.

Yet, I must explore the path of peace to the utmost, for at its end, whatever disappointment I meet there, is the moral basis for laying down the olive branch of peace and taking up the sword of war. Still, should it come to that, I will not waiver from the course laid down by your great liberator:

"With malice towards none, with charity for all, with firmness in the right as God gives us to see the right, let us finish the work we are in, to bind up the Nation's wounds, to care for him who shall have borne the battle, and for his widow and for his orphans, to do all which may achieve and cherish a just and lasting peace among ourselves and with all Nations."

Like Lincoln, I understand that force may be necessary before mercy. Like Lincoln, I don't relish it. Yet, I will do whatever it takes to defend the integrity and freedom of my country.

Finally, may I turn to that other slavery: Our $26 billion foreign debt. I have said that we shall honor it. Yet must the means by which we shall be able to do be kept from us? Many conditions imposed on the previous government that stole this debt continue to be imposed on us who never benefited from it. And no assistance or liberality commensurate with the calamity that was visited on us has been extended. Yet ours must have been the cheapest revolution ever. With little help from others, we Filipinos fulfilled the first and most difficult condition of the debt negotiation: The full restoration of democracy and responsible government. Elsewhere, and in other times of more stringent world economic conditions, Marshall plans and their like were felt to be necessary companions of returning democracy.

When I met with President Reagan yesterday, we began an important dialog about cooperation and the strengthening of the friendship between our two countries. That meeting was both a confirmation and a new beginning and should lead to positive results in all areas of common concern.

Today, we face the aspirations of a people who had known so much poverty and massive unemployment for the past 14 years and yet offered their lives for the abstraction of democracy. Wherever I went in the campaign, slum area or impoverished village, they came to me with one cry: Democracy! Not food, although they clearly needed it, but democracy; not work, although they surely wanted it, but democracy. Not money, for they gave what little they had to my campaign. They didn't expect me to work a miracle that would instantly put food into their mouths, clothes on their back, education for their children, and work that will put dignity in their lives. But I feel the pressing obligation to respond quickly as the leader of a people so deserving of all these things.

We face a Communist insurgency that feeds on economic deterioration, even as we carry a great share of the free world defenses in the Pacific. These are only two of the many burdens my people carry even as they try to build a worthy and enduring house for their new democracy, that may serve as well as a redoubt for freedom in Asia. Yet, no sooner is one stone laid than two are taken away. Half our export earnings, $2 billion out of $4 billion, which was all we could earn in the restrictive markets of the world, went to pay just the interest on a debt whose benefit the Filipino people never received.

Still we fought for honor, and, if only for honor, we shall pay. And yet, should we have to wring the payments from the sweat of our men's faces and sink all the wealth piled up by the bondsman's 250 years of unrequited toil?

Yet to all Americans, as the leader of a proud and free people, I address this question: Has there been a greater test of national commitment to the ideals you hold dear than that my people have gone through? You have spent many lives and much treasure to bring freedom to many lands that were reluctant to receive it. And here you have a people who won it by themselves and need only the help to preserve it.

Three years ago, I said, thank you, America, for the haven from oppression, and the home you gave Ninoy, myself, and our children, and for the 3 happiest years of our lives together. Today, I say, join us, America, as we build a new home for democracy, another haven for the oppressed, so it may stand as a shining testament of our two nations' commitment to freedom.

[Applause, the Members rising.]

At 10 o'clock and 31 minutes a.m., the President of the Republic of the Philippines, accompanied by the committee of escort, retired from the Hall of the House of Representatives.

The Doorkeeper escorted the invited guests from the Chamber in the following order:

The members of the President's Cabinet.

The ambassadors, ministers, and chargés d'affaires of foreign governments.

JOINT MEETING DISSOLVED

The SPEAKER. The purpose of the joint meeting having been completed, the Chair declares the joint meeting of the two Houses dissolved, and the House will meet in session at 11 a.m.

Accordingly, at 10 o'clock and 32 minutes a.m., the joint meeting of the two Houses was dissolved.

The Members of the Senate retired to their Chamber.

□ 1100

AFTER RECESS

The recess having expired, the House was called to order by the Speaker at 11 a.m.

THE TRIUMPH OF CORAZON AQUINO AND THE FILIPINO PEOPLE

(Mr. DURBIN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DURBIN. Mr. Speaker, those of us who have enjoyed the fruits of democracy without the sacrifice of blood and peril were reminded today that others pay a dear price for freedoms we take for granted.

Earlier this morning, President Corazon Aquino of the Philippines, a woman slight in stature but a giant in courage, touched the hearts of this Congress and this Nation with her moving remembrance of the ordeal she and her husband endured to win liberty for her homeland.

So many of the events of our time will be relegated to the offal of history, but the triumph of Corazon Aquino and the people of the Philippines stands as a seminal event in the annals of democracy. We are blessed and honored to bear witness to that triumph and we share in the responsibility to pass on her heroic story to our children and grandchildren.

PEACE CORPS CELEBRATES 25TH ANNIVERSARY

(Mr. HENRY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HENRY. Mr. Speaker, if the rules of the House so allowed, I would ask the distinguished minority leader, Mr. MICHEL, to step to the well of the Chamber and lead us in a rousing chorus of "Happy Birthday" to the Peace Corps. And I would even suggest that the chaplain join by accompanying us with his harmonica!

Truly, the Peace Corps has been one of the most noble and successful expressions of American good will toward people around the globe. In its 25 years, over 120,000 Americans, from every walk of life and of every age, have served as Peace Corps volunteers in over 90 countries. Indeed, my own State of Michigan is proud to have

sent over 4,500 Americans abroad as Peace Corps volunteers.

Fighting poverty, disease, ignorance, and prejudice of all forms, Peace Corps volunteers served in many capacities—teachers, health professionals, technical aids, social workers, and many other callings in cultural settings quite different from what they had known at home. And invariably, they returned to our country enriched by their experience, with deeper appreciation for the cultures and histories and concerns of the people they served, as well as a sense of profound gratitude to the host nations in which they were guests.

It was my own privilege to serve as a Peace Corps volunteer in Liberia and Ethiopia during the earliest years of the program from 1963–65. Among my projects in Liberia was the organization of a rural mail delivery system, and in Ethiopia the construction of an elementary school building in the northern region of the country. I look forward to joining the reunion of thousands of Peace Corps volunteers as they gather in Washington this weekend to join in celebrating the Peace Corps' 25th anniversary. And I would urge my colleagues to join with us at the congressional reception in honor of Peace Corps volunteers this evening in the Rayburn Building.

As we celebrate the past achievements of the Peace Corps, I should also point out that this thriving program still looks to the future. Applications for volunteer service are on the rise, and the selectivity of the Peace Corps in choosing those given the honor of such service is keener than it has ever been. Over the years, the Peace Corps has moved increasingly from utilizing generalists to those with specific technical skills most appropriate and needed by the host countries. Increasingly, volunteers are composed of middle-aged and even senior citizens who have chosen to serve their country and dedicated themselves to addressing the needs of their host countries in this most constructive way.

The current Peace Corps Director, Loret Ruppe from my home State of Michigan, says it well:

> Peace Corps volunteers are the true antiterrorists of today. They battle the daily terrorism of hunger, disease, poverty, despair, and illiteracy.

Happy birthday, Peace Corps. And welcome to your Nation's Capital, returned volunteers.

PRINTING OF PROCEEDINGS HAD DURING THE RECESS

Mr. OBEY. Mr. Speaker, I ask unanimous consent that the proceedings had during the recess be printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

EPA MUST STEP UP EFFORTS TO PROTECT DRINKING WATER AND GROUND WATER

(Mr. OBEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. OBEY. Mr. Speaker, today the House will be considering reauthorization of the Federal Insecticide, Fungicide, and Rodenticide Act [FIFRA].

I hope that we will adopt the toughest possible provisions to require that the EPA step up efforts to protect drinking water and ground water from contamination by pesticides.

This issue is of particular importance to the people I represent in central and northern Wisconsin. In my district Aldicarb or "Temik" has been showing up in some drinking water wells over the last few years.

Two separate studies—by the University of Wisconsin and the Wisconsin Department of Health—have shown that Aldicarb may be dangerous to public health. Those studies have documented changes in the immune systems of laboratory animals exposed to the chemicals, as well to humans who have consumed well water contaminated with Aldicarb.

While the EPA is continuing its "special review" of Aldicarb, the State of Wisconsin has already taken steps to significantly restrict its use.

Im my judgment, it is time to ban the pesticide nationally until its manufacturer, Union Carbide, can prove that it can be used safely.

I have already petitioned the EPA to carefully consider the results of the Wisconsin studies and act immediately to stop the further use of this pesticide, at least until all of the outstanding health and safety questions have been answered. I urge my colleagues to join me in this effort.

TAX REFORM OR SIMPLE FRAUD?

(Mr. MARLENEE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MARLENEE. Mr. Speaker, some Members of this body have been trying to pass a bill of so-called tax reform or tax simplification. The question might be asked: Is this tax simplification or tax fraud?

Let us let the document speak for itself, Mr. Speaker. On page 295 of this document, I quote:

> "(C) DE MINIMIS EXCEPTION.—The Secretary may by regulations provide a de minimis exception to the provisions of subparagraph (A).
>
> "(2) COORDINATION WITH SECTION 172(b) CARRYOVER RULES.—In the case of any pretrigger loss for any taxable year (hereinafter in this paragraph referred to as the 'loss year') subject to limitation under this section, for purposes of determining under the second sentence of section 172(b)(2) the amount of such loss which may be carried to any taxable year, taxable income for any taxable year shall be treated as not greater than—
>
> "(A) the trigger amount for such taxable year, reduced by
>
> "(B) the pre-trigger losses for taxable years preceding the loss year.
>
> Similar rules shall apply in the case of any credit or loss subject to limitation under section 383.
>
> "(1) ADDITIONS UNDER MORE THAN ONE PARAGRAPH.—With respect to any return, the amount of the addition under paragraph (1) of subsection (a) shall be reduced by the amount of the addition under paragraph (2) of subsection (a) for any month (or fraction thereof) to which an addition to tax applies under both paragraphs (1) and (2). In any case described in the last sentence of subsection (a), the amount of the addition under paragraph (1) of subsection (a) shall not be reduced under the preceding sentence below the amount provided in such last sentence."
>
> SEC. 1602. EFFECTIVE DATE.
>
> Except as otherwise provided in section 1601 of this Act, any amendment made by section 1601 of this Act shall take effect as if included in the provision of the Retirement Equity Act of 1984 to which such amendment relates.

Mr. Speaker, this is the new tax reform. You might question whether this is tax reform or simple fraud.

MEMBERS "HAVE BEEN HAD" ON DRUG ISSUE

(Mr. LUNGREN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LUNGREN. Mr. Speaker, as I indicated in the debate on the omnibus drug bill last week, an extremely dangerous provision was slipped into the technical amendments that will allow any registrant with a Ph.D. or M.D. behind their name to ingest or provide for their spouses, friends, and even students some of the most potent substances known to man. Some of these designer drugs are 5,000 times the strength of morphine or about 2,500 times the strength of heroin.

This provision was misrepresented to the Rules Committee as technical language somehow necessary to legitimate research, and was slipped into the technical package on that basis.

I should add that the only testimony in support of this provision before our Subcommittee on Crime was offered by Dr. Lester Grinspoon, of Harvard. He attempted to persuade the subcommittee that his real concern was with research. However, there were those of us who remained skeptical in that the designer drug legislation that I first offered and the subsequent subcommittee and committee bills were carefully crafted to avoid any interference with legitimate research. But Dr. Grinspoon argued that any animal

testing for toxicity or the requirement to provide a research protocol under schedule I was too burdensome.

It is now clear that Dr. Grinspoon and his small group of followers have a broader agenda. It has come to my attention that the only voice for this pro-drug-trafficking provision in our House drug bill sits on the advisory board of the National Organization for the Reform of Marijuana Laws. In short the Subcommittee on Crime, the Rules Committee and this House have been had. It is essential that this pro-drug-abuse provision be removed from the bill in conference.

□ 1110

AUTHORIZING FACILITIES FOR THE SMITHSONIAN INSTITUTION FOR CERTAIN SCIENCE ACTIVITIES

Mr. GRAY of Illinois. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 1483) to authorize the Smithsonian Institution to plan and construct facilities for certain science activities of the Institution, and for other purposes, with a Senate amendment thereto, and concur in the Senate amendment.

The Clerk read the title of the bill.

The Clerk read the Senate amendment, as follows:

Page 2, line 3, strike out "$11,200,000" and insert "$11,100,000".

The SPEAKER. Is there objection to the request of the gentleman from Illinois?

Mr. HAMMERSCHMIDT. Mr. Speaker, reserving the right to object, and I do not plan to object, I just want to ask the gentleman to explain to the House the reason for his request.

Mr. GRAY of Illinois. Mr. Speaker, will the gentleman yield?

Mr. HAMMERSCHMIDT. I yield to the gentleman from Illinois.

Mr. GRAY of Illinois. Mr. Speaker, H.R. 1483 passed by the House on October 7, 1985, authorizes the construction of facilities for two scientific research installations of the Smithsonian Institution: The Fred Lawrence Whipple Observatory in Arizona and the Smithsonian Tropical Research Institute in Panama. Construction of these facilities is necessary to replace existing facilities which are inadequate because of age, size, safety, and health standards.

Mr. Speaker, the legislation as passed by the House authorized the appropriation of $4.5 million for the Fred Lawrence Whipple Observatory and $11.2 million for the Tropical Research Institute. The bill as passed by the Senate continues to provide $4.5 for the Fred Lawrence Whipple Observatory; however, it decreases funding for the Tropical Research Institute to $11.1 million.

Mr. Speaker, I urge adoption of H.R. 1483, as amended by the other body.

Mr. HAMMERSCHMIDT. Mr. Speaker, further reserving the right to object, I would also like to express my support for this legislation.

The bill is essentially identical to the weapon passed by the House last October with the exception that the Senate has deleted $100,000 in funds for construction at the Fred Lawrence Whipple Observatory in Arizona.

The construction of new and replacement facilities for the Smithsonian in both Panama and Arizona locations are essential if the Smithsonian scientists are to continue their outstanding efforts in tropical biology and astrological research.

Mr. MINETA. Mr. Speaker, H.R. 1483, passed by the House on October 7, 1985, authorizes an appropriation of $4,500,000 effective October 1, 1986, for constructing a new base camp and resurfacing the road at the Smithsonian's Whipple Observatory in southern Arizona and $11,200,000 for four new construction projects at the Smithsonian Tropical Research Institute in the Republic of Panama. The bill allows the transfer of funds to the General Services Administration in order to carry out the activities authorized.

As a member of the Smithsonian's Board of Regents and a member of one of the two committees to which the measure was referred, I am honored to encourage its approval by the House. The bill consolidates in one legislative package planning and construction authority for facility development at two of the Smithsonian's most significant research installations and is in keeping with the Institution's long-range scientific expectations. Over the past year and a half, the Subcommittee on Public Buildings and Grounds of the Committee on Public Works and Transportation has held three hearings at which these projects were considered. I think it fair to say that there is widespread understanding of the scientific significance of these facilities, as well as a high degree of admiration for the analysis with which the Institution has organized its overall construction priorities and the diligence with which it has pursued master planning processes for both units in the bill to ensure the effective application of the funds it is seeking. The Fred Lawrence Whipple Observatory, located on Mount Hopkins, near Tucson, AZ, is the largest field installation of the Smithsonian Astrophysical Observatory. Since its official opening in 1968, the observatory has been used at the site for experiments requiring extremely dark skies, dry climate, and good "optical scene." The 8,550 foot summit of Mount Hopkins is the site of the multiple mirror telescope, a joint facility of the Smithsonian Institution and the University of Arizona. The MMT is the third largest telescope in the world and the first of its kind, combining six 1.8 meter telescope mirrors in a common support structure to produce the light-gathering capability of a conventional 4.5 meter telescope.

Other instruments are located on a half-mile long ridge at the 7,600 foot elevation. These include a 10 meter reflector for observations of extremely energetic gamma ray events, and 1.5 meter and 61 centimeter reflecting telescopes for optical and infrared observations of distant stars and galaxies. The administrative and support facilities of the observatory are located at Amado, AZ, which is about 35 miles south of Tucson and 18 miles from the scientific operations on Mount Hopkins. This base camp is the operational and logistical headquarters for anyone working at or visiting the mountain. Its site consists of two adjacently leased parcels of land totaling approximately 4.25 acres; its facilities include a one-level school building and a one-level residence, both of which date from the 1930's and have been converted for office use. There are also vehicle service, repair, and storage sheds on the site.

The owners of the site have indicated the desire to sell the property. Because of its location near a flood-prone river that often makes access to the mountain very difficult, as well as other inadequacies of the site which serve only to promote operational inefficiencies, the Smithsonian is not a prospective buyer.

As the result of its master planning process, the Institution has selected a site on land under the control of the Forest Service that is across the river from and closer to the mountain than the existing ones. Studies related to spatial analysis of the site and environmental documentation are underway, as are negotiations with the Forest Service. It is expected that arrangements can be made that will serve and protect the interests of both parties, and also provide a modest, but improved level of public education for visitors to the site. If H.R. 1483 is enacted, the Institution expects to include a total of $4,500,000 for construction of the new base camp in its budget request for fiscal year 1988. It anticipates a period of approximately 27 months for design and construction. In addition, the legislation provides for improved facilities at the Smithsonian Tropical Research Institute which is the principal U.S. Center for Tropical Biology. Each year hundreds of U.S. and international researchers join the permanent staff at STRI in undertaking fundamental studies on the tropics. Increasingly scientists and policymakers have recognized the need to understand how tropical ecosystems function in order to predict more accurately environmental changes in the temperate zones.

To capitalize on STRI's unparalleled data base of more than 60 years and use it effectively, it is necessary to undertake a program of facilities improvements. Existing STRI facilities fall into several categories:

Construction undertaken in the 1920's and 1930's;

Renovated structures obtained from the U.S. military; and

Renovated structures obtained from the Government of Panama.

With the exception of a new library building opened in 1984, these facilities are inadequate because of age, size, safety, and health standards. Construction materials used in the first half of the century are inappropriate to the region's high humidity and insect infestation, and renovation of surplus buildings has served only as a stop-gap measure to ensure continuity of research. The structures are in-

adequate for modern scientific purposes and require extensive maintenance. Among the pressing needs for STRI is a new terrestrial laboratory and conference facility to replace a small and obsolete leased structure. Originally built as a hospital morgue, the facility cannot adequately support current research purposes as it has severe deficiencies in its electrical systems, plumbing, load-bearing capacity, and parking, and in the widespread presence of arsenic and other health-related problems. Additionally, its hillside location makes extensive renovation and the addition of outdoor cages and plant-growing facilities impossible.

The construction of a new terrestrial laboratory at STRI's administrative headquarters, known as the Tivoli site, will allow the economy of logistics consolidation with the new library and existing offices. The Tivoli site also will allow proper space utilization for permanent staff, long-term visitors, and students. Better integration of computers, other communications devices, and modern scientific equipment will be afforded in the new facility, as will space for cages and greenhouses and space for lectures, small meetings, and major conferences.

Construction and equipment for the new laboratory is currently estimated at $7.9 million. A gift of $4 million for construction has recently been received; an additional $3.8 million is required for completion of the project. The Smithsonian has included this amount in its budget request for fiscal year 1987.

Barro Colorado Island, located in the middle of Gatun Lake, a key component of the Panama Canal, has served as an important research center for tropical biology since 1923. Under the canal treaties, STRI was assigned custodianship of this 12,000-acre reserve on behalf of the United States and the Republic of Panama. The island serves hundreds of investigators annually, providing research space, as well as living and dining accommodations. Its physical plant includes many outdated wooden buildings which do not meet modern day building or health codes; a new scientific laboratory with attendant cages and growing facilities is a major requirement. Approximately $2.8 million is needed for this construction; funds would be requested in the fiscal year 1989.

The geographical advantages of Panama to researchers interested in marine studies are incomparable: nowhere else in the world are two oceans so easily accessible for comparative research. Currently, renovated facilities are available on the Pacific, but no similar situation exists on the Atlantic where STRI research is conducted at Galeta Point in a small asbestos cement building acquired as surplus property from the U.S. Navy in 1965. The present laboratory has a severe asbestos problem in its walls and roof.

Housing for researchers consists of a dilapidated trailer which does not meet safety and health codes; an inadequate sewage disposal system threatens the unique coral reef/mangrove swamp study site. A new laboratory, dormitory, and sewage system will require approximately $3.5 million which also would be requested in fiscal year 1989.

Finally, STRI is responsible for more than 60 vehicles, a major research vessel, and dozens of smaller boats, in addition to normal building maintenance requirements. At present, the maintenance needs of its geographically dispersed facilities are performed in the bottom of an old torpedo factory; the top floor houses research offices. In order to provide for adequate maintenance and to relieve the noise and congestion of the present site, a new central facility with modern equipment is required; the estimated cost of its construction is $900,000 and also would be a fiscal year 1989 request.

Mr. Speaker, as you can see, H.R. 1483 reflects thoughtful and careful planning to meet the requirements of two of our Nation's small, but significant, scientific installations.

Mr. Speaker, the legislation as passed by the House authorized the appropriation of $4.5 million for the Fred Lawrence Whipple Observatory and $11.2 million for the Tropical Research Institute. The bill as passed by the Senate continues to provide $4.5 million for the Fred Lawrence Whipple Observatory; however, it decreases funding for the Tropical Research Institute to $11.1 million.

Mr. Speaker, I urge adoption of H.R. 1483, as amended by the Senate.

Mr. HOWARD. Mr. Speaker, I rise in strong support of H.R. 1483, a bill to authorize the Smithsonian Institution to plan and construct new or upgraded science facilities at two of its most significant research installations, namely, the Fred Lawrence Whipple Observatory on Mount Hopkins in Tucson, AZ, and at the Smithsonian Tropical Research Institute in Panama. This science facilities construction bill authorizes an appropriation of $4,500,000 for the Smithsonian Tropical Research Institute facilities located in Panama effective October 1, 1986. This legislative proposal is in keeping with the Smithsonian Institution's long-range scientific expectations and has been carefully evaluated in the context of its overall construction priorities.

Briefly, Mr. Speaker, the Fred Lawrence Whipple Observatory, located on Mount Hopkins in southern Arizona, is the largest field installation of the Smithsonian Astrophysical Observatory. Since its official opening in 1968, the observatory has been used as the site for observations requiring extremely dark skies, dry climate, and good optical seeing. The Smithsonian's observatory covers 4,774 acres, including the 8,550-foot summit. The administrative and support facilities of the observatory, which serve all mountain top activities, are located in an office and maintenance complex 18 miles from the scientific operations on Mount Hopkins. This base camp includes a one-level school building and a one-level residence which have been converted for office use. There are also vehicle service, repair, and storage sheds on the site. Although the property is currently leased, the owners have indicated their desire to sell. The base camp is outmoded, and furthermore, the bridge between the base camp and the mountain facilities is repeatedly washed out, making access very difficult and often adding at least an hour to the already arduous trip to and from the summit.

Recently, the Smithsonian selected a site on the other side of the river which is under the control of the Forest Service for construction of a new base camp at a cost of $4,500,000.

The Smithsonian Tropical Research Institute, located in the Republic of Panama, is the principal United States center for tropical biology. Each year hundreds of U.S. and international researchers join the permanent Smithsonian staff in undertaking fundamental studies on the Tropics. To capitalize on the unparalleled data base of more than 60 years, it is necessary to undertake over the next 5 years a facilities improvement program, since most existing facilities date back to 1920 or consist of renovated structures obtained from the United States military or the Government of Panama. These facilities are unsafe for the people who work in them and are inadequate for modern scientific purposes and require extensive maintenance.

A new terrestrial laboratory to replace a small and unsuitable leased structure on Ancon is desperately needed. The facility is estimated to cost $7.9 million; however, a gift of $4 million was recently received by the Smithsonian for this facility, and only $3.9 million remains to be funded, which is being sought in the fiscal year 1987 appropriations bill.

Barro Colorado Island, located in the middle of Gatun Lake, a key component of the Panama Canal, has served as an important research center for tropical biology since 1923. Under the canal treaties, STRI was assigned custodianship of this 12,000-acre reserve on behalf of the United States and the Republic of Panama. The island serves hundreds of investigators annually, providing research space, as well as living and dining accommodations. Its physical plant includes many outdated wooden buildings which do not meet modern day building or health codes. Using restoration and renovation moneys, the Smithsonian has made some improvements to the basic electrical, water, and sewage systems. The major requirement now is a new scientific laboratory with attendant cages and growing facilities. Approximately $2.8 million is required for this construction; funds would be requested in fiscal year 1989.

The geographical advantages of Panama to researchers interested in marine studies are incomparable: nowhere else in the world are two oceans so easily accessible for comparative research. Currently, renovated facilities are available on the Pacific, but no similar situation exists on the Atlantic where STRI research is conducted at Galeta Point in a small asbestos cement building acquired as surplus property from the U.S. Navy in 1965. The present laboratory has a severe asbestos problem in its walls and roof. Housing for researchers consists of a dilapidated trailer which does not meet safety and health codes; an inadequate sewage disposal system threatens the unique coral reef/mangrove swamp study site. A new laboratory, dormitory, and sewage system will require approximately $3.5 million which also would be requested in fiscal year 1989.

STRI is responsible for more than 60 vehicles, a major research vessel, and dozens of smaller boats, in addition to normal building maintenance requirements. At present the maintenance needs of its geographically dispersed facilities are performed in the bottom of an old torpedo factory; the top floor houses

research offices. In order to provide for adequate maintenance and to relieve the noise and congestion of the present site, a new central facility with modern equipment is required; the estimated cost of its construction is $900,000 which, again, would be a fiscal year 1989 request.

Mr. Speaker, to conclude, the Office of Management and Budget supports this legislation and I urge enactment of H.R. 1483, as amended by the Senate.

Mr. HAMMERSCHMIDT. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Illinois?

There was no objection.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. GRAY of Illinois. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the legislation just considered.

The SPEAKER. Is there objection to the request of the gentleman from Illinois?

There was no objection.

NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 1987

Mr. ASPIN. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 2638) to authorize appropriations for military functions of the Department of Defense and to prescribe military personnel levels for such Department for fiscal year 1987, to revise and improve military compensation programs, to improve defense procurement procedures, to authorize certain construction at military installations for fiscal year 1987, to authorize appropriations for national security programs of the Department of Energy for fiscal year 1987, and for other purposes, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER. Is there objection to the request of the gentleman from Wisconsin?

Mr. HAMMERSCHMIDT. Mr. Speaker, reserving the right to object, I would ask the gentleman if this has been cleared by the minority side?

Mr. ASPIN. Mr. Speaker, will the gentleman yield?

Mr. HAMMERSCHMIDT. I yield to the gentleman from Wisconsin.

Mr. ASPIN. Mr. Speaker, indeed I would respond to the gentleman that it has been cleared by the minority side. The ranking minority member, the gentleman from Alabama [Mr. DICKINSON] is not here; he is not in town. We thought the gentleman from New Jersey [Mr. COURTER] was going to be present. I do not see him yet.

But yes, it has been cleared. We are going to conference on the DOD bill.

Mr. HAMMERSCHMIDT. Mr. Speaker, I thank the gentleman for his response, and I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 2638

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE

This Act may be cited as the "National Defense Authorization Act for Fiscal Year 1987".

SEC. 2. ORGANIZATION

This Act is divided into four divisions as follows:

(1) Division A—Department of Defense Authorization.

(2) Division B—Military Construction Authorization.

(3) Division C—Department of Energy National Security and Military Applications of Nuclear Energy Authorization.

(4) Division D—Civil Defense.

DIVISION A—DEPARTMENT OF DEFENSE AUTHORIZATION

SEC. 100. SHORT TITLE

This division may be cited as the "Department of Defense Authorization Act, 1987".

TITLE I—PROCUREMENT

SEC. 101. AUTHORIZATION OF APPROPRIATIONS, ARMY

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal year 1987 for procurement of aircraft, missiles, weapons, and tracked combat vehicles, and ammunition and for other procurement for the Army as follows:

For aircraft, $2,793,700,000.

For missiles, $2,198,200,000.

For weapons and tracked combat vehicles, $3,794,900,000.

For ammunition, $2,283,300,000.

For other procurement, $5,365,900,000.

(b) AQUILA REMOTELY PILOTED VEHICLE.—None of the funds appropriated to the Army pursuant to this title may be obligated or expended for the procurement of the Aquila Remotely Piloted Vehicle until—

(1) the Director of Operational Test and Evaluation has completed a comprehensive assessment of the Aquila system; and

(2) the Secretary of the Army has certified to the Committees on Armed Services of the Senate and the House of Representatives that—

(A) the Aquila system has satisfactorily demonstrated that it meets or exceeds all performance criteria established for the system by the Army; and

(B) the Army has negotiated a binding contract which provides for procurement of the entire system and limits overall liability of the United States under the contract.

SEC. 102. AUTHORIZATION OF APPROPRIATIONS, NAVY AND MARINE CORPS

(a) NAVY.—Funds are hereby authorized to be appropriated for fiscal year 1987 for procurement of aircraft, weapons (including missiles and torpedoes), shipbuilding and conversion, and other procurement for the Navy as follows:

For aircraft, $9,903,070,000.

For weapons (including missiles and torpedoes), $5,597,490,000.

For shipbuilding and conversion, $9,323,800,000.

For other procurement, $5,934,057,000.

(b) MARINE CORPS.—Funds are hereby authorized to be appropriated for fiscal year 1987 for procurement for the Marine Corps (including missiles, tracked combat vehicles, and other weapons) in the amount of $1,382,700,000.

(c) P-3 AIRCRAFT.—(1) Of the funds provided for procurement of P-3 aircraft, the Secretary of the Navy may transfer up to $120,000,000 for modification of existing P-3 aircraft.

(2) Within the funds appropriated pursuant to an authorization in this or any other Act for the procurement of P-3C aircraft, the Secretary of the Navy may carry out Navy obligations under the classified Maritime Surveillance Agreement of 1986. Two of the P-3C aircraft authorized to be procured may be used to implement United States obligations under such classified agreement.

(d) DDG-51 DESTROYER PROGRAM.—(1) The Secretary of the Navy shall incorporate helicopter support facilities into each Arleigh Burke (DDG-51) class destroyer to be constructed with funds authorized to be appropriated by this title.

(2) Section 102(h) of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2501), is repealed.

(e)(1) MSH-X.—The Secretary of the Navy is authorized to procure from one or more foreign countries which are allied with the United States and which have proven minesweeper hunter shipbuilding capabilities, lead minesweeper hunter ship and one partially outfitted hull of a minesweeper hunter ship. The lead ship may be procured in whole or in part from such a foreign country.

(2) Funds appropriated or otherwise made available to the Navy for fiscal year 1986 for shipbuilding and conversion shall be available for the procurement in connection with the MSH-X minesweeper hunter ship program authorized in subparagraph (1) in the amount of $100,000,000.

(3) Follow-on MSH-X minesweeper hunter ships shall be constructed in shipyards in the United States.

(4) Funds may not be obligated or expended for the procurement of a lead minesweeper hunter ship or a partially outfitted hull of a minesweeper hunter ship from a foreign country until the Secretary of the Navy has certified to the Congress in writing (A) that purchase of up to two foreign built ships responds to an urgent national security requirement; (B) that no United States shipbuilder has demonstrated the capability, or that no shipbuilder can demonstrate the ability to acquire that capability to meet that requirement in a timely fashion.

(f) CONSOLIDATION OF NAVY MUNITIONS FUNDS INTO SINGLE ACCOUNT.—The President shall include within a single account all budget requests for Navy munitions for fiscal year 1988 and subsequent fiscal years.

(g) ROLLING AIRFRAME MISSILE PROGRAM.—(1) None of the funds appropriated pursuant to an authorization in this title may be obligated or expended in connection with procurement of the Rolling Airframe Missile Program until the Secretary of Defense has certified in writing to the Committee on

Armed Services of the Senate and the House of Representatives that—

(A) the total Navy research and development cost of the Rolling Airframe Missile Program will not exceed $219,700,000; and

(B) the Secretary will terminate the program if at any time he determines that the total Navy research and development cost will exceed the amount specified in subparagraph (A); and

(C) the recurring missile unit flyaway cost for a minimum of 4,900 missiles will not exceed $100,000 per missile (using fiscal year 1986 dollars as the base year); and

(D) the design of the Rolling Airframe Missile and its unique support equipment are complete and that the system performance has not been degraded from the original development specifications (as contained in Navy Decision Coordinating Paper No. SO-167-AA); and

(E) the Director of Operational Test and Evaluation has approved a test and evaluation master plan for the Rolling Airframe Missile.

(2) If the Secretary of Defense fails to make the certification described in paragraph (1) by March 30, 1987, he shall cause the Rolling Airframe Missile Program to be terminated effective on that date.

(3) Subsection (d) of section 205 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 608), is repealed.

(4) Department of Defense reprogramming request 85-91PA is approved.

SEC. 103. AUTHORIZATION OF APPROPRIATIONS, AIR FORCE.

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal year 1987 for procurement of aircraft and missiles and for other procurement for the Air Force as follows:

For aircraft, $16,383,104,000.

For missiles, $8,116,200,000.

For other procurement, $10,068,348,000.

(b) 30MM GAU-8 AMMUNITION.—None of the funds appropriated pursuant to the authorization of appropriations in this title may be obligated or expended for procurement of 30 millimeter GAU-8 ammunition until such time as the depleted uranium penetrator part of such ammunition is obtained as a separate procurement item.

SEC. 104. RESERVE COMPONENTS

(a) AUTHORIZATION OF APPROPRIATIONS.—Funds are hereby authorized to be appropriated for fiscal year 1987 for procurement of aircraft, vehicles, communications equipment, and other miscellaneous equipment for the reserve components of the Armed Forces as follows:

For the Army National Guard, $140,000,000.

For the Air National Guard, $20,000,000.

For the Army Reserve, $90,000,000.

For the Naval Reserve, $45,000,000.

For the Air Force Reserve, $150,000,000.

For the Marine Corps Reserve, $20,000,000.

(b) AUTHORIZATIONS IN ADDITION TO OTHER AMOUNTS.—The authorizations of appropriations contained in subsection (a) are in addition to any other amounts authorized to be appropriated by this or any other division.

(c) Notwithstanding the amounts authorized to be appropriated by subsection (a), the total amount authorized to be appropriated by this subsection is $454,300,000.

SEC. 105. AUTHORIZATION OF APPROPRIATIONS, DEFENSE AGENCIES

Funds are hereby authorized to be appropriated for fiscal year 1987 for the Defense Agencies in the amount of $1,431,300,000.

SEC. 106. AUTHORIZATION OF APPROPRIATIONS FOR CHEMICAL DEMILITARIZATION

Funds are hereby authorized to be appropriated for fiscal year 1987 for the purposes of the destruction of lethal chemical weapons in accordance with section 1412 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 747), in the amount of $120,100,000.

SEC. 107. EXTENSION OF CERTAIN AUTHORITY OF THE SECRETARY OF DEFENSE IN CONNECTION WITH THE NATO AIRBORNE WARNING AND CONTROL SYSTEM (AWACS) PROGRAM

Effective on October 1, 1986, section 103(a) of the Department of Defense Authorization Act, 1982 (Public Law 97-86; Stat. 1100) is amended by striking out "fiscal year 1986" both places it appears and inserting in lieu thereof "fiscal year 1987".

SEC. 108. MULTIYEAR CONTRACTS

(a) IN GENERAL.—(1) Subject to paragraph (2), the Secretary of the military department concerned may enter into a contract in accordance with section 2306(h) of title 10, United States Code, for procurement of the following:

UH-60A Blackhawk and EH-60A Quick Fix Airframe.

Patriot Weapon System.

HARM Weapon System.

Defense Support Program.

(2) A multiyear contract authorized by paragraph (1) for a program may not be entered into unless the total anticipated cost over the period of the contract is no more than 90 percent of the total anticipated cost of carrying out the same program through annual contracts.

(b) STINGER MISSILE.—The Secretary of the Army may not enter into a contract for the multiyear procurement of the Stinger air defense missile until—

(1) the Secretary has—

(A) obtained and evaluated bids for a competitive second source for such missile; and

(B) certified to the Committees on Armed Services of the Senate and the House of Representatives that acquisition of such missile from more than one source would be more costly than a multiyear procurement program from a single source; and

(2) the Comptroller General of the United States has evaluated the estimates on the basis of which the Secretary made his decision and has submitted his evaluation of the estimates to the committees named in clause (1).

The Comptroller General shall submit his evaluation to the committees named in clause (1) not later than 60 days after the certification of the Secretary has been received by such committees.

(c) OTHER NAVY PROGRAMS.—The Secretary of the Navy may not enter into a multiyear contract for procurement of the following:

F/A-18 aircraft.

MK-45 gun mounts.

MK-6 ammunition hoists.

SEC. 109. TECHNICAL AMENDMENT TO PUBLIC LAW 99-145 RELATING TO BINARY CHEMICAL MUNITIONS

Section 1411(b)(1) of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 745), is amended by striking out "North Atlantic Council" and inserting in lieu thereof "Defense Planning Committee of the North Atlantic Treaty Organization meeting in permanent session".

TITLE II—RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

SEC. 201. AUTHORIZATION OF APPROPRIATIONS

Funds are hereby authorized to be appropriated for fiscal year 1987 for the use of the Armed Forces for research, development, test, and evaluation, in amounts as follows:

For the Army, $4,815,669,000.

For the Navy (including the Marine Corps), $9,289,678,000.

For the Air Force, $14,908,873,000.

For the Defense Agencies, $7,310,974,000, of which $141,800,000 is authorized for the activities of the Deputy Under Secretary of Defense, Test and Evaluation and of which $11,300,000 is authorized for the Director, Operational Test and Evaluation.

SEC. 202. PROGRAM RESTRICTIONS AND LIMITATIONS

(a) ADVANCED FIELD ARTILLERY TACTICAL DATA SYSTEM/MARINE INTEGRATED FIRE AND AIR SUPPORT SYSTEMS, ARMY/NAVY.—None of the funds appropriated pursuant to this title for fiscal year 1987 may be obligated or expended for the development of the Army Advanced Artillery Tactical Data System or the Marine Integrated Fire and Support System until—

(1) a single program has been selected for both the Army and the Marine Corps; or

(2) the Secretary of Defense has certified to Congress, not later than December 15, 1986, that continuation of both programs is operationally sound and less costly to the United States than the development of a common system for use by both the Army and Marine Corps.

(b) ADVANCED TACTICAL AIRCRAFT, NAVY.—None of the funds appropriated pursuant to an authorization in this or any other Act may be obligated or expended for the full-scale development of the Navy Advanced Tactical Aircraft until the Secretary of Defense has certified to the Congress that the design selected for the aircraft will accommodate essential Air Force-peculiar requirements for such aircraft.

(c) TRIDENT II PROGRAM.—None of the funds appropriated pursuant to an authorization in this division for the Trident II missile development program or for the procurement of Trident II missiles and related support equipment may be used for any other purpose. In achieving any reductions required to be made in programs, projects, or activities for which funds have been appropriated pursuant to this division, the Secretary of the Navy may not reduce the amount of funds available for the program and equipment described in the first sentence.

(d) ADVANCED TACTICAL FIGHTER, AIR FORCE.—None of the funds appropriated pursuant to an authorization in this or any other Act may be obligated or expended for the full-scale development of the Air Force Advanced Tactical Fighter aircraft until the Secretary of Defense has certified to the Congress that the design selected for the aircraft will accommodate essential Navy-peculiar requirements for such aircraft.

(e) T-46 TRAINER AIRCRAFT, AIR FORCE.—None of the funds appropriated pursuant to an authorization in this or any other Act may be obligated or expended for research, development, test, evaluation, or procurement of or in connection with the T-46 trainer aircraft.

(f) DOD SOFTWARE ENGINEERING INSTITUTE AND VERY HIGH SPEED INTEGRATED CIRCUITS, AIR FORCE.—Of the funds appropriated pursuant to an authorization in this Act, not

more than $14,541,000 may be obligated and expended for the DOD Software Engineering Institute and not more than $127,897,000 may be obligated and expended for the Very High Speed Integrated Circuits Program.

SEC. 203. TESTING OF ANTISATELLITE WEAPONS

Section 8097 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190; 99 Stat. 1185), is repealed.

SEC. 204. ICBM MODERNIZATION

(a) REPORT BY THE SECRETARY OF DEFENSE ON ICBM MODERNIZATION.—At the same time the Secretary submits his report to the Committees on Armed Services of the Senate and the House of Representatives on the ICBM modernization program pursuant to section 1231(c) of the Department of Defense Authorization Act, 1984 (Public Law 98-94; 97 Stat. 614), the Secretary of Defense shall submit a statement to such Committees containing the basis of the Secretary's recommendation to the President, and any decisions of the President, regarding the following matters:

(1) The configuration of a small intercontinental ballistic missile in terms of weight, number of warheads, and production schedule.

(2) The selected options for more survivable follow-on basing modes and basing locations for MX (Peacekeeper) missiles.

(3) The advisability of going forward with one or more selected basing modes to a full scale engineering development decision.

(b) LIMITATION OF FUNDING FOR THE SMALL ICBM.—(1) Of the $675,000,000 authorized to be appropriated in this Act for the development of the small ICBM and hard mobile launcher, not more than $337,750,000 may be obligated until the Secretary of Defense has submitted to the Committees on Armed Services of the Senate and the House of Representatives the report required by subsection (a) and a period of 30 days has elapsed following the date on which the report is received by such Committees. After the submission of such report and the period of 30 days has elapsed, the weight limitations specified in section 1231 of the Act referred to in subsection (a) shall no longer be effective.

(2) The limitations contained in section 1231 of the Department of Defense Authorization Act, 1984, on the deployment of the MX missile and the development of a small ICBM shall not apply if (A) the President requests funds from Congress adequate to support the development schedule provided by law for the small ICBM, and (B) the full amount requested by the President to support that schedule has not been appropriated before September 30, 1987.

(c) LIMITATION OF FUNDING FOR FOLLOW-ON BASING DEVELOPMENT.—Of the $200,000,000 authorized to be appropriated for follow-on basing research and development for the MX (Peacekeeper) missile, not more than $100,000,000 may be obligated until the submission of the report required by subsection (a) and a period of 30 calendar days has elapsed following the date on which such report is received by the Committees on Armed Services of the Senate and the House of Representatives.

SEC. 205. BALANCED TECHNOLOGY INITIATIVE

(a)(1) LIMITATION ON FUNDS FOR SDI PROGRAM.—Of the amount authorized in section 201 for Defense Agencies, not more than $3,597,000,000 is available for the Strategic Defense Initiative.

(2) Of the funds available for the Strategic Defense Initiative under paragraph (1), up to $50,000,000 shall be available for the joint development on a matching fund basis of an anti-tactical ballistic missile system for deployment with NATO allies and other countries that the United States has invited to participate in the Strategic Defense Initiative Program.

(b) EARMARKING FOR CERTAIN PROGRAMS.—(1) Of the amount authorized in section 201 for Defense Agencies, not less than $300,000,000 shall be used to expand research on innovative concepts and methods of enhancing conventional defense capabilities. The research and development efforts shall emphasize, but not be limited to the following:

(A) Armor/anti-armor initiatives.

(B) Defenses against armed helicopters.

(C) Hypervelocity missiles for ground combat use.

(D) Defense against anti-ship missiles, including those with "stealth" characteristics.

(E) "Smart" mines for both land and ocean warfare.

(F) Lightweight, air transportable vehicles with anti-armor capabilities for rapid transport to remote areas.

(G) Improved conventional anti-submarine warfare munitions.

(H) "Smart" standoff munitions and submunitions for aircraft delivery outside of lethal air defense ranges.

(2) The amount specified in paragraph (1) is in addition to the amount specified for the Strategic Defense Initiative in subsection (a) and is made available subject to the following conditions:

(A) That the Director of Defense Research and Engineering apportion the funds among the research, development, test, and evaluation accounts of the Army, the Navy, the Air Force, and the Defense Agencies on a merit basis, taking into consideration ongoing technology research and exploitation opportunities.

(B) That no portion of any undistributed reduction be applied against the funds appropriated for purposes of paragraph (1) and that no portion of any undistributed reduction be applied against any program, project, or activity for which additional funds are provided under subparagraph (A).

(C) That no portion of the funds provided for in paragraph (1) be applied to any program, project, or activity in support of the Strategic Defense Initiative.

(c) FUNDS FOR CONVENTIONAL DEFENSE TECHNOLOGY BASE.—Of the amount authorized in section 201 for Defense Agencies, not less than $153,000,000 shall be applied to restoration of the conventional defense technology base. Such amount is in addition to the amounts specified in subsections (a) and (b)(1) and is made available subject to the following conditions:

(1) That the Director of Defense Research and Engineering apportion the funds among the research, development, test, and evaluation accounts of the Army, the Navy, the Air Force, and Defense Agencies on a merit basis, either to augment ongoing but underfunded basic and exploratory research or to establish new basic or exploratory research programs.

(2) That no portion of such funds be applied to any program, project, or activity in support of the Strategic Defense Initiative.

(3) That no portion of any undistributed reduction made in any research, development, test, and evaluation account be applied against the technology base activities of any military department or Defense Agency in a greater proportion than the share of that department's or Agency's technology base as a proportion of the total research, development, test, and evaluation funds made available to that department or Agency for fiscal year 1987.

(4) That no portion of any undistributed reduction be applied against any program, project, or activity which has received additional funds under this subsection.

(d) REPORT.—Within 90 days after the date of the enactment of this Act, the Director of Defense Research and Engineering shall provide to the Committees on Armed Services and on Appropriations of the Senate and the House of Representatives a report on the implementation of this section. Such report shall include—

(1) the allocation by project of the amounts specified in subsections (b)(1) and (c);

(2) the identification of other ongoing research and development projects that should be included in a balanced defense technology effort to improve conventional defenses;

(3) for each program, project, or activity for which funds have been allocated under subsection (b)(1), or which is identified under clause (2) of this subsection, a 5-year funding profile sufficient to maintain significant progress in such program, project, or activity, including the major milestones and projected dates of accomplishment for such program, project, or activity; and

(4) a 5-year funding profile that would be required to restore by the end of fiscal year 1992 the defense technology base to the proportion of total research, development, test, and evaluation that such base was, on average, during the period from 1971 through 1980, and the effect of implementing that funding profile on the research, development, test, and evaluation defense programs of the United States.

(e) RESTRICTION ON OBLIGATION OF FUNDS.—None of the funds provided under subsections (b)(1) and (c) may be obligated until Congress has received the report required under subsection (d) and a period of 30 days has elapsed following the date on which the report is received by Congress.

(f) COMPLIANCE WITH THE ABM TREATY.—(1) The Congress finds—

(a) that the President's Commission on Strategic Forces declared in its report to the President, dated March 21, 1984, that "One of the most successful arms control agreements is the Anti-Ballistic Missile Treaty of 1972"; and

(b) that the Secretary of State has stated that the "ABM Treaty requires consultations, and the President has explicitly recognized that any ABM-related deployments arising from research into ballistic missile defenses would be a matter for consultations and negotiations between the Parties";

(c) that the Secretary of State declared on October 14, 1985, that "our research program has been structured and, as the President has reaffirmed, will continue to be conducted in accordance with a restrictive interpretation of the treaty's obligations";

(d) that the President has determined that the Krasnoyarsk radar is a violation of the ABM Treaty; and

(e) that the Krasnoyarsk radar therefore erodes the integrity of the ABM Treaty and is a matter of serious concern.

(2) The Congress therefore declares—

(a) that it fully supports the declared policy of the President that a principal objective of the United States in negotiations with the Soviet Union on nuclear and space arms is to reverse the erosion of the Treaty between the United States of America and

the Union of Soviet Socialist Republics on the Limitation of Anti-Ballistic Missile Systems, signed on May 26, 1972; and

(b) that action by the Congress in approving funds in this Act for research on the Strategic Defense Initiative does not express or imply an intention on the part of the Congress that the United States should abrogate, violate, or otherwise erode such treaty, and does not express or imply any determination or commitment on the part of the Congress that the United States develop, test, or deploy ballistic missile strategic defense weaponry that would contravene such treaty.

SEC. 206. RESTRICTIONS ON USE OF RESEARCH AND DEVELOPMENT FUNDS OF THE DEPARTMENT OF DEFENSE

This Act does not authorize any research, development, test, and evaluation funds to or for the use of the Department of Defense for the purpose of making any grant or contribution to any educational institution unless the Secretary of Defense, using existing authority, determines—

(1) that the purpose of such grant or contribution has a potential relationship to a military function or operation; and

(2) that the grant or contribution is based on the technical merit of the proposed research that best satisfies the requirements of the Department of Defense.

SEC. 207. REPORT ON PROJECTED COSTS OF SDI PROGRAM

Subsection (b) of section 223 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 613), is amended to read as follows:

At the end of subsection (b) add the following:

"(c) The Secretary shall specifically include in such report the following information:

"(1) The cost goals or cost objectives for the production and deployment of a Strategic Defense Initiative System determined on the basis of capabilities expected to be developed in the future and the cost goals or cost objectives for the individual components of such system (determined on the basis of capabilities expected to be developed in the future).

"(2) The estimated cost for the production and deployment of the Strategic Defense Initiative System referred to in subparagraph (1) and determined on the basis of prices in effect and capabilities in existence at the time of the preparation of the report and the estimated cost for the production and deployment of the individual components of such system (determined on the basis of prices in effect and capabilities in existence at the time of the preparation of the report).".

SEC. 208. PROHIBITION AGAINST CERTAIN CONTRACTS

(a) IN GENERAL.—Funds appropriated pursuant to an authorization contained in this or any other Act to or for the use of the Department of Defense may not be used for the purpose of entering into or carrying out any contract with any foreign government or any foreign firm if the contract is to provide for the conduct of research, development, test, or evaluation in connection with the Strategic Defense Initiative Program unless the Secretary of Defense certifies to the Congress in writing that the work to be performed under the contract cannot be reasonably performed by a United States firm.

(b) EXCEPTIONS.—The prohibition in subsection (a) does not apply to—

(1) funds used to carry out any contract entered into before the date of the enactment of this Act; or

(2) funds appropriated specifically for research, development, test, or evaluation in connection with antitactical ballistic missile systems.

(b) DEFINITION.—As used in subsection (a), the term "foreign firm" means a business entity owned or controlled by one or more foreign nationals or a business entity in which more than 50 percent of the stock is owned or controlled by one or more foreign nationals.

TITLE III—OPERATION AND MAINTENANCE

SEC. 301. AUTHORIZATION OF APPROPRIATIONS

Funds are hereby authorized to be appropriated for fiscal year 1987 for the use of the Armed Forces and other activities and agencies of the Department of Defense for expenses, not otherwise provided for, for operation and maintenance in amounts as follows:

For the Army, $20,596,070,000.
For the Navy, $24,009,960,000.
For the Marine Corps, $1,830,300,000.
For the Air Force, $19,029,371,000.
For the Defense Agencies, $8,332,928,000.
For the Army Reserve, $776,100,000.
For the Naval Reserve, $887,400,000.
For the Marine Corps Reserve, $12,800,000.
For the Air Force Reserve, $887,100,000.
For the Army National Guard, $1,714,800,000.
For the Air National Guard, $1,727,900,000.
For the National Board for the Promotion of Rifle Practice, $930,000.
For Defense Claims, $144,100,000.
For the Court of Military Appeals, $3,200,000.
For the Environmental Restoration Fund, Defense, $385,900,000.

SEC. 302. AUTHORIZATION OF APPROPRIATIONS FOR REVOLVING AND MANAGEMENT FUNDS

Funds are hereby authorized to be appropriated for fiscal year 1987 to provide capital for working-capital funds of the Department of Defense in amounts as follows:

For the Army Stock Fund, $271,700,000.
For the Navy Stock Fund, $438,500,000.
For the Marine Corps Stock Fund, $41,900,000.
For the Air Force Stock Fund, $219,400,000.
For the Defense Stock Fund, $125,800,000.

SEC. 303. ASSISTANCE FOR THE TENTH INTERNATIONAL PAN AMERICAN GAMES

(a) AUTHORITY TO PROVIDE SUPPORT SERVICES.—The Secretary of Defense may—

(1) provide logistical support and personnel services to the Tenth Pan Am Games;

(2) lend and provide equipment in support of the Tenth Pan Am Games; and

(3) provide such other services in support of the Tenth Pan Am Games as the Secretary considers advisable.

(b) AUTHORIZATION OF APPROPRIATIONS; LIMITATIONS.—(1) There is authorized to be appropriated to the Secretary of Defense for fiscal year 1987 an amount not to exceed $15,000,000 for the purpose of carrying out subsection (a).

(2) Except as provided in paragraph (3), funds may not be obligated for the purpose of carrying out subsection (a) unless specifically appropriated for such purpose.

(3) Paragraph (2) does not apply to funds used for pay and non-travel-related allowances for members of the Armed Forces (other than pay and allowances of members of the reserve components called or ordered to active duty to provide support for the Tenth Pan Am Games).

(4) The costs for pay and non-travel-related allowances of members of the Armed Forces (other than members of the reserve components called or ordered to active duty to provide support for the Tenth Pan Am Games) may not be charged to appropriations made pursuant to the authorization in paragraph (1).

(c) DEFINITION.—For the purpose of this section, the term "Tenth Pan Am Games" means the Tenth International Pan American Games, to be held at Indianapolis, Indiana, during the period beginning on August 7, 1987, and ending August 23, 1987.

SEC. 304. AUTHORIZATION OF APPROPRIATIONS FOR TRANSPORTATION OF HUMANITARIAN RELIEF SUPPLIES TO AFGHAN REFUGEES

(a) AUTHORIZATION OF FUNDS.—There is authorized to be appropriated to the Department of Defense for fiscal year 1987 the sum of $10,000,000 for the purpose of providing transportation for humanitarian relief for persons displaced or who are refugees because of the invasion of Afghanistan by the Soviet Union.

(b) AUTHORITY TO TRANSFER FUNDS.—The Secretary of Defense is authorized to transfer to the Secretary of State not more than 5 percent of the funds appropriated pursuant to the authorization in this section to provide local transportation outside the United States to accomplish the purposes of this section.

(c) TRANSPORTATION UNDER DIRECTION OF THE SECRETARY OF STATE.—Transportation provided with funds appropriated pursuant to the authorization in this section shall be under the direction of the Secretary of State.

(d) MEANS OF TRANSPORTATION TO BE USED.—Transportation for humanitarian relief provided with funds appropriated pursuant to the authorization in this section shall be by the most economical commercial or military means available, unless the Secretary of State determines that it is in the national interest of the United States to use means other than the most economical available. Such means may include the use of aircraft and personnel of the reserve components of the Armed Forces.

(e) AVAILABILITY OF FUNDS.—Amounts appropriated pursuant to the authorization in subsection (a) shall remain available until expended, to the extent provided in appropriation Acts.

SEC. 305. PROGRAM RESTRICTIONS AND LIMITATIONS

(a) PROHIBITION ON USE OF FUNDS FOR CERTAIN STUDIES, ARMY.—None of the funds appropriated to the Army pursuant to an authorization contained in this or any other Act may be obligated or expended, on or after the date of the enactment of this Act, for the purpose of continuing or completing any study, pursuant to the Office of Management and Budget Circular A-76, relating to converting the operation of the federally owned and operated McAlester Army Ammunition Plant, at McAlester, Oklahoma, or the Crane Army Ammunition Activity at the Naval Weapons Support Center, Crane, Indiana, from performance by personnel of the Department of Defense to performance by private contractor, until detailed reports have been submitted to the Congress by the General Accounting Office and the Department of Defense concerning the cost effectiveness of such a conversion and its effect on the defense readiness and mobilization base.

(b) TERMINATION OF PROHIBITION.—The prohibition in subsection (a) shall expire on March 31, 1987.

SEC. 306. AUTHORIZATION OF APPROPRIATIONS FOR FOREIGN CURRENCY PURCHASES

Funds are hereby authorized to be appropriated for fiscal year 1987 in the amount of $3,500,000 for the purchase of foreign currencies from the Treasury Department to pay expenses incurred in carrying out programs of the Department of Defense.

TITLE IV—PERSONNEL AUTHORIZATIONS AND RELATED MATTERS

PART A—ACTIVE FORCES

SEC. 401. AUTHORIZATION OF END STRENGTHS

The Armed Forces are authorized strengths for active-duty personnel as of September 30, 1987, as follows:

(1) The Army, 780,800.

(2) The Navy, 587,000.

(3) The Marine Corps, 199,600.

(4) The Air Force, 606,850.

SEC. 402. EXTENSION OF QUALITY CONTROL ON ENLISTMENTS INTO THE ARMY

Effective on October 1, 1986, section 302(a) of the Department of Defense Authorization Act, 1981 (10 U.S.C. 520 note), is amended by striking out "October 1, 1985" and "September 30, 1986" and inserting in lieu thereof "October 1, 1986" and "September 30, 1987", respectively.

SEC. 403. STRENGTH OF ACTIVE DUTY OFFICER CORPS

(a) REDUCTION IN SIZE OF OFFICER CORPS.—On and after each of the dates set forth in column 1 of the following table, the total number of commissioned officers serving on active duty in the Army, Navy, Air Force, and Marine Corps (excluding officers in categories specified in subsection (b)) may not exceed the percentage, set forth in column 2 opposite such date, of the total number of commissioned officers serving on active duty as of September 30, 1986 (excluding officers in categories specified in subsection (b)):

Column 1	Column 2
On and after:	Percentage of total commissioned officers serving on active duty as of September 30, 1986:
September 30, 1987	98
September 30, 1988	96
September 30, 1989	94

(b) EXCLUSIONS.—In computing the authorized strength of commissioned officers under subsection (a), officers in the following categories shall be excluded:

(1) Reserve officers—

(A) on active duty for training;

(B) on active duty under section 265, 270(b), 672a, 3033, 3496, 5251, 5252, 8033, or 8496 of title 10, United States Code, or under section 708 of title 32, United States Code;

(C) on active duty under section 672(d) of title 10, United States Code, in connection with organizing, administering, recruiting, instructing, or training the reserve components or the National Guard;

(D) on active duty to pursue special work;

(E) ordered to active duty under section 673(b) of title 10, United States Code; or

(F) on full-time National Guard duty.

(2) Warrant officers.

(3) Retired officers on active duty under a call or order to active duty for 180 days or less.

(4) Reserve or retired officers on active duty under section 10(b)(2) of the Military Selective Service Act (50 U.S.C. App. 460(b)(2)) for the administration of the Selective Service System.

(c) APPORTIONMENT OF REDUCTIONS BY SECRETARY OF DEFENSE.—The reductions in the number of commissioned officers serving on active duty required by subsection (a) shall be apportioned among the Army, Navy, Air Force, and Marine Corps by the Secretary of Defense. The Secretary shall report to the Committees on Armed Services of the Senate and House of Representatives not later than February 1 of each fiscal year in which reductions are required under subsection (a) on the manner in which the reductions have been or are to be apportioned for that fiscal year.

(d) REQUIREMENT FOR FUTURE AUTHORIZATION OF OFFICER CORPS STRENGTH.—(1) Section 138(c)(1) of title 10, United States Code, is amended by adding at the end the following new subparagraph:

"(D) Congress shall authorize the end strength as of the end of each fiscal year for commissioned officers the Army, Navy, Air Force, and Marine Corps serving on active duty. No funds may be appropriated for any fiscal year to or for the use of commissioned officers on active duty in the Army, Navy, Air Force, or Marine Corps unless the end strength for commissioned officers serving on active duty in that military service for that fiscal year has been authorized by law.".

(2) The amendment made by paragraph (1) shall take effect on October 1, 1987.

PART B—RESERVE FORCES

SEC. 411. AUTHORIZATION OF AVERAGE STRENGTHS FOR SELECTED RESERVE

(a) IN GENERAL.—For fiscal year 1987, the Selected Reserve of the reserve components of the Armed Forces shall be programmed to attain average strengths of not less than the following:

(1) The Army National Guard of the United States, 440,025.

(2) The Army Reserve, 290,639.

(3) The Naval Reserve, 134,212.

(4) The Marine Corps Reserve, 41,900.

(5) The Air National Guard of the United States, 108,700.

(6) The Air Force Reserve, 75,600.

(7) The Coast Guard Reserve, 12,500.

(b) ADJUSTMENTS.—The average strengths prescribed by subsection (a) for the Selected Reserve of any reserve component shall be proportionately reduced by (1) the total authorized strength of units organized to serve as units of the Selected Reserve of such component which are on active duty (other than for training) at any time during the fiscal year, and (2) the total number of individual members not in units organized to serve as units of the Selected Reserve of such component who are on active duty (other than for training or for unsatisfactory participation in training) without their consent at any time during the fiscal year. Whenever such units or such individual members are released from active duty during any fiscal year, the average strength prescribed for such fiscal year for the Selected Reserve of such reserve component shall be proportionately increased by the total authorized strength of such units and by the total number of such individual members.

SEC. 412. AUTHORIZATION OF END STRENGTHS FOR RESERVES ON ACTIVE DUTY IN SUPPORT OF THE RESERVE COMPONENTS

(a) IN GENERAL.—Within the average strengths prescribed in section 411, the reserve components of the Armed Forces are authorized, as of September 30, 1987, the following number of Reserves to be serving on full-time active duty or, in the case of members of the National Guard, on full-time National Guard duty for the purpose of organizing, administering, recruiting, instructing, or training the reserve components or the National Guard:

(1) The Army National Guard of the United States, 23,731.

(2) The Army Reserve, 12,157.

(3) The Naval Reserve, 19,010.

(4) The Marine Corps Reserve, 1,475.

(5) The Air National Guard of the United States, 7,269.

(6) The Air Force Reserve, 635.

(b) COUNTING OF PERSONNEL IN CERTAIN RESERVE CALL-UP SITUATIONS.—During any period that members of reserve components of the Armed Forces are serving on active duty pursuant to an order under section 673 or 673b of title 10, United States Code, members of reserve components serving on active duty may perform duties in connection with section 673 or 673b of such title and, for purposes of subsection (a), and shall not be counted against the number of Reserves ordered to active duty under those sections. Funds available for the pay and allowances of Reserves referred to in subsection (a) shall be available for the pay and allowances of such Reserves who perform duties in connection with section 673 or 673b of such title under the authority of this section.

SEC. 413. ACCOUNTING FOR CERTAIN AUTHORIZED RESERVE COMPONENT MEMBERS

Section 138(c) of title 10, United States Code, is further amended—

(1) by striking out the text of paragraph (1)(A) and inserting in lieu thereof the following: "Congress shall authorize the end strengths as of the end of each fiscal year for each component of the armed forces for (i) active duty personnel who are to be paid from funds appropriated for active duty personnel, and (ii) active duty personnel and full-time National Guard duty personnel who are to be paid from funds appropriated for reserve personnel. Upon determination by the Secretary of Defense that such action is in the national interest, an end strength authorized pursuant to clause (i) of the first sentence for a fiscal year may be increased by a number equal to not more than 0.5 percent of the total end strength authorized for such component for that fiscal year and an end strength authorized pursuant to clause (ii) of the first sentence for a fiscal year may be increased by a number equal to not more than 2 percent of the total end strength authorized for such component for that fiscal year. No funds may be appropriated to or for the use of active duty personnel or full-time National Guard duty personnel of any component of the armed forces unless the end strength for such personnel of that component for that fiscal year has been authorized by law.";

(2) in paragraph (1)(B)—

(A) by striking out "for 180 days or less" in clause (v); and

(B) by adding at the end the following new clause:

"(vii) Members on full-time National Guard duty for 180 days or less."; and

(3) in paragraph (3)(D)—

(A) by striking out "and" at the end of clause (iii);

(B) by striking out the period at the end of clause (iv) and inserting in lieu thereof "; and"; and

(C) by adding at the end the following new clause:

"(v) an analysis of the number of officers and enlisted members serving on active duty for training under orders specifying a period in excess of 180 days as of the last day of the preceding fiscal year and an estimate for the current fiscal year of the number that will be ordered to such duty tabulated by the following categories:

"(I) Recruit and specialized training.

"(II) Flight training.

"(III) Professional training in military and civilian institutions.

"(IV) Officer acquisition training.".

PART C—CIVILIAN PERSONNEL

SEC. 421. AUTHORIZATION OF END STRENGTHS AND OBLIGATIONAL LIMITS

(a) IN GENERAL.—(1) The Department of Defense is authorized a strength in civilian personnel, as of September 30, 1987, of 1,084,836.

(2) Of the funds appropriated or otherwise made available to the Department of Defense for fiscal year 1987, the total amount that may be obligated for the employment of civilian personnel within the authorization prescribed by paragraph (1) may not exceed $31,811,640,000.

(b) APPORTIONMENT OF PERSONNEL.—The strength for civilian personnel prescribed in subsection (a)(1) shall be apportioned among the Department of the Army, the Department of the Navy, the Department of the Air Force, and the agencies of the Department of Defense (other than the military departments) in such numbers as the Secretary of Defense shall prescribe. The Secretary of Defense shall report to Congress within 60 days after the date of the enactment of this Act on the manner in which the initial allocation of civilian personnel is made among the military departments and the agencies of the Department of Defense (other than the military departments) and shall include the rationale for each allocation.

(c) COUNTING OF PERSONNEL.—(1) In computing the strength for civilian personnel, there shall be included all direct-hire and indirect-hire civilian personnel employed to perform military functions administered by the Department of Defense (other than those performed by the National Security Agency) whether employed on a full-time, part-time, or intermittent basis, but excluding personnel in special employment categories for students and disadvantaged youth (such as the stay-in-school campaign, the temporary summer aid programs, and the Federal junior fellowship program) and personnel participating in the worker-trainee opportunity program.

(2) Personnel employed under a part-time career employment program established by section 3402 of title 5, United States Code, shall be counted as prescribed by section 3404 of that title. Personnel employed in an overseas area on a part-time basis under a nonpermanent local-hire appointment who are dependents accompanying a Federal civilian employee or a member of a uniformed service on official assignment or tour of duty shall also be counted as prescribed by section 3404 of that title.

(3) Whenever a function, power or duty, or activity is transferred or assigned to a military department or an agency of the Department of Defense from a department or agency outside of the Department of Defense, or from another military department or agency within the Department of Defense, the civilian personnel end-strength authorized for each such military department or agency of the Department of Defense affected shall be adjusted to reflect any increases or decreases in civilian personnel required as a result of such transfer or assignment.

SEC. 422. REQUIREMENTS RELATING TO PROPOSED INCREASED UTILIZATION OF CIVILIAN PERSONNEL

(a) IN GENERAL.—No commercial or industrial type function of the Department of Defense that on or after the date of the enactment of this Act is being performed by a private contractor may be converted to performance by Department of Defense civilian employees—

(1) except in time of war, time of national emergency declared by the Congress or the President, or upon a written declaration of the Secretary of Defense (and not a delegate) that such conversion is required in the interests of national security; or

(2) unless the Secretary of Defense provides to the Congress in a timely manner—

(A) notification of any decision to study such commercial or industrial function for possible performance by Department of Defense civilian employees;

(B) a detailed summary of the comparison of the costs of performance of such function by private contractor and by Department of Defense civilian employees which demonstrates that the performance of such function by Department of Defense civilian personnel will result in a cost savings to the Government over the 5-year period following conversion and a certification that the entire cost comparison is available in the Department of Defense;

(C) a certification that the cost estimate for the performance by Department of Defense civilian employees (i) includes an estimate of indirect costs computed on the same basis as those of the private contractor, (ii) includes an estimate of the cost of retirement benefits provided to civilian employees (estimated on the basis of current data), and (iii) is based on an estimate of the organization for performance of such function by such civilian employees that is to be utilized if a decision is made to convert to performance by civilian employees; and

(D) a report, to be submitted with the certification required by subclause (C), showing—

(i) the potential economic effect on contractor employees, and, if more than 50 contractor employees are involved, the potential economic effect on the local community and Federal Government (including the effect on Federal tax revenues and Federal Government expenditures under Federal benefits programs) of converting to performance by Department of Defense civilian employees; and

(ii) the cost of performance of such function by private contractor and the cost of performance by Department of Defense civilian employees, including any incidental or one-time costs and expenditures which the Government will incur because of a decision to convert to performance by civilian employees.

(b) NOTIFICATION REQUIREMENT.—If, after the completion of the studies required for completion of the certification and report required by subclauses (C) and (D) of subsection (a)(2), a decision is made to convert to performance by civilian employees, the Secretary of Defense shall notify Congress of such decision.

PART D—MILITARY TRAINING

SEC. 431. AUTHORIZATION OF TRAINING STUDENT LOADS

(a) IN GENERAL.—For fiscal year 1987, the components of the Armed Forces are authorized average military training student loads as follows:

(1) The Army, 76,758.

(2) The Navy, 72,483.

(3) The Marine Corps, 19,433.

(4) The Air Force, 43,911.

(5) The Army National Guard of the United States, 18,262.

(6) The Army Reserve, 15,858.

(7) The Naval Reserve, 3,493.

(8) The Marine Corps Reserve, 3,944.

(9) The Air National Guard of the United States, 3,566.

(10) The Air Force Reserve, 2,127.

(b) ADJUSTMENT AND APPORTIONMENT.—The average military student loads for the Army, the Navy, the Marine Corps, and the Air Force and the reserve components authorized in subsection (a) for fiscal year 1987 shall be adjusted consistent with the personnel strengths authorized in parts A and B. Such adjustment shall be apportioned among the Army, the Navy, the Marine Corps, and the Air Force and the reserve components in such manner as the Secretary of Defense shall prescribe.

PART E—MANPOWER ANALYSES

SEC. 441. MANPOWER REPORTS ON MAJOR DEFENSE ACQUISITION PROGRAMS

(a) IN GENERAL.—Section 139c of title 10, United States Code, is amended—

(1) by striking out subsection (a) and inserting in lieu thereof the following:

"(a) The Secretary of Defense may not approve the full-scale engineering development or the production and deployment of a major defense acquisition program unless—

"(1) an independent estimate of the cost of the program first has been submitted to (and considered by) the Secretary of Defense; and

"(2) the Secretary of Defense has submitted to the Committees on Armed Services of the Senate and the House of Representatives at least 90 days in advance of such approval a manpower estimate of the program.";

(2) by adding at the end of subsection (b) the following new paragraph:

"(4) 'Manpower estimate' means, with respect to a major defense acquisition program, an estimate of—

"(A) the total number of personnel, including military, civilian, or contractor personnel, expressed both in total personnel and man-years, that will be required to operate, maintain, and support such program upon full operational deployment and to train personnel to operate, maintain, and support such program upon full operational deployment;

"(B) the increases in military and civilian end strengths that will be required for full operational deployment of such program above the end strengths authorized in the fiscal year in which such an estimate is submitted and the fiscal year or years in which such increases will be required; and

"(C) the manner in which such a program would be operationally deployed if no increases in military and civilian end strengths were authorized above the strengths authorized for the fiscal year in which such estimate is submitted."; and

(3) by striking out the section heading and inserting in lieu thereof the following:

"§ 139c. Major defense acquisition programs: independent cost estimates; operational manpower requirements"

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of chapter 4 is amended by striking out the item relating to

section 139c and inserting in lieu thereof the following:

"139c. Major defense acquisition programs: independent cost estimates; operational manpower requirements.".

(c) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect 30 days after the date of the enactment of this Act and shall apply to approvals of full-scale engineering development and approvals of production and deployment of major defense acquisition programs made on or after that date.

TITLE V—MILITARY PERSONNEL POLICY

SEC. 501. ASSIGNMENT OF PERSONNEL OUTSIDE THE UNITED STATES

The text of section 671 of title 10, United States Code, is amended to read as follows:

"A member of the armed forces may not be assigned to active duty on land outside the United States and its territories and possessions until the member has completed the basic training requirements of the armed force of which he is a member. In time of war or a national emergency declared by the Congress or the President, the period of required basic training may not be less than 12 weeks or the equivalent thereof.".

SEC. 502. TREATMENT OF EXCESS LEAVE UPON RE-ENLISTMENT

(a) AUTHORITY TO CARRY OVER EXCESS LEAVE.—Section 701 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(h) A member who has taken leave in excess of that authorized by this section and who is being discharged or released from active duty for the purpose of accepting an appointment or a warrant in an armed force, or of entering into an enlistment or an extension of an enlistment in an armed force, may elect to have excess leave of up to 30 days or the maximum number of days of leave that could be earned in the new term of service, whichever is less, carried over to that new term of service to count against leave that will accrue on the new term of service. A member shall be required, at the time of his discharge or release from active duty, to pay for excess leave not carried over under this subsection.".

(b) AUTHORIZATION FOR PAY AND ALLOWANCES FOR CARRIED OVER EXCESS LEAVE.—Section 502(b) of title 37, United States Code, is amended by inserting "and section 701(h) of title 10" after "subsection (a) of this section".

SEC. 503. EXTENSION OF AUTHORITY FOR THE TEMPORARY PROMOTION OF CERTAIN NAVY LIEUTENANTS

Section 5721(f) of title 10, United States Code, is amended by striking out "September 30, 1986" and inserting in lieu thereof "September 30, 1988".

SEC. 504. CORRECTION OF TECHNICAL ERROR RELATING TO AUTHORITY TO RETAIN UP TO 10 ARMY RESERVE BRIGADIER GENERALS IN AN ACTIVE STATUS UNTIL AGE 60

(a) IN GENERAL.—Subsections (c) and (d) of section 3851 of title 10, United States Code, are amended to read as follows:

"(c) Notwithstanding subsections (a) and (b), the Secretary of the Army may authorize the retention in an active status until age 60 of an officer in the reserve grade of brigadier general who would otherwise be removed from an active status under this section, except that not more than 10 officers may be retained under this subsection at any time.

"(d) Notwithstanding subsections (a) and (b), the Secretary of the Army may authorize the retention in an active status until age 60 of an officer who would otherwise be removed from an active status under this section who—

"(1) is an officer of the Army National Guard of the United States assigned to a headquarters or headquarters detachment of a State or territory, the Commonwealth of Puerto Rico, the Canal Zone, or the District of Columbia; or

"(2) is employed—

"(A) as a technician under section 709 of title 32 in a position for which membership in the National Guard is required as a condition of employment; or

"(B) as a technician of the Army Reserve in a position for which membership in the Army Reserve is required as a condition of employment.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect as of November 8, 1985, and shall apply as if such amendment had been enacted on such date in place of the amendments enacted by section 522(a)(2) of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 631).

SEC. 505. INCREASED PRESIDENTIAL AUTHORITY TO AUGMENT ACTIVE FORCES WITH THE SELECTED RESERVE

Section 673b of title 10, United States Code, is amended—

(1) by striking out "100,000" in subsection (c) and inserting in lieu thereof "250,000"; and

(2) by adding at the end the following new subsection:

"(i) In any case in which one or more units of the Selected Reserve, or members of the Selected Reserve not assigned to a unit organized to serve as a unit, have been ordered to active duty under this section and the President determines that such action is necessary in the interests of national security, he may extend the 90-day period prescribed by subsection (a). The President shall immediately notify Congress in any case in which he exercises his authority under this subsection and shall include in the notification a statement of reasons for the extension. Nothing in this subsection shall be construed as amending or limiting the authority of Congress to terminate the service of units or members ordered to active duty under this section pursuant to the provisions of subsection (g).".

SEC. 506. ACTIVE DUTY STATUS OF RESERVE COMPONENT MEMBERS IN A CAPTIVE STATUS

(a) IN GENERAL.—Chapter 39 of title 10, United States Code, is amended—

(1) by adding after section 672 the following new section:

"§ 672a. Reserve components: members in a captive status

"(a) Under uniform regulations prescribed by the Secretary of Defense, a member of a reserve component may, without his consent, be ordered to active duty if it is determined, pursuant to such regulations, that the member is in a captive status. A member ordered to active duty under this section may not be retained on active duty, without his consent, for more than 30 days after his captive status is terminated.

"(b) For purposes of this section, the term 'captive status' means the status of a person who is in a missing status as defined in section 551(2) of title 37 which occurred as the result of hostile action and is related to the member's military status."; and

(2) by inserting in the table of sections at the beginning of such chapter the following new item immediately below the item relating to section 672:

"672a. Reserve components: members in a captive status.".

(b) EXCLUSION FROM END STRENGTHS.—Section 138(c)(1)(B) of such title, as amended by section 413(2)(B) of this Act, is further amended by adding at the end the following new clause:

"(viii) Members of reserve components ordered to active duty under section 672a of this title.".

(c) EXCLUSION FROM OFFICER STRENGTHS.—Chapter 32 of title 10, United States Code, is amended—

(1) by adding at the end the following new section:

"§ 527. Authorized strengths: exclusion of certain reserve officers

"Members ordered to active duty under section 672a of this title shall be excluded in computing and determining authorized strengths under this chapter.";

(2) by adding at the end of the table of sections at the beginning of such chapter the following new item:

"527. Authorized strengths: exclusion of certain reserve officers."; and

(3) in section 523(b)(1)(B), by inserting "672a," after "265,".

(d) EXCLUSION FROM APPLICABILITY OF CERTAIN LAWS.—Section 641(1)(B) of title 10, United States Code, is amended by inserting "672a," after "265,".

(e) EFFECT OF ACTIVE DUTY UPON PROMOTION.—(1) Section 3388 of title 10, United States Code, is amended by inserting "or under section 672a of this title" after "training".

(2) Section 8372(e) of such title is amended by inserting "(other than pursuant to section 672a of this title)" after "active duty".

SEC. 507. TECHNICAL CORRECTION RELATING TO PERSONNEL ADMINISTRATION AT AIR FORCE INSTITUTE OF TECHNOLOGY

Section 9314(b)(2)(B) of title 10, United States Code, is amended by striking out "rates of basic".

SEC. 508. TERMINATION OF GENDER-BASED DISTINCTIONS IN PROMOTIONS OF OFFICERS OF THE NAVAL RESERVE AND MARINE CORPS RESERVE

(a) IN GENERAL.—Chapter 549 of title 10, United States Code, is amended by striking out sections 5896 through 5899 and inserting in lieu thereof the following:

"§ 5896. Recommendations for promotion by selection boards

"(a) A selection board convened under section 5893 of this title shall recommend for promotion to the next higher grade those officers considered by the board whom the board, giving due consideration to the needs of the Navy or Marine Corps for officers with particular skills, considers best qualified for promotion within each competitive category considered by the board.

"(b) A selection board convened under section 5893 of this title may not recommend an officer for promotion unless—

"(1) the officer receives the recommendation of a majority of the members of the board; and

"(2) a majority of the members of the board finds that the officer is fully qualified for promotion.

"(c) Except as otherwise provided by law, an officer of the Naval Reserve or the Marine Corps Reserve may not be promoted to a higher grade under this chapter unless the officer is considered and recommended for promotion to that grade by a selection board convened under this chapter.

"§ 5897. Reports of selection boards

"Each selection board convened under section 5893 of this title shall submit to the Secretary of the Navy a written report, signed by each member of the board, containing a list of the names of the officers recommended for promotion and certifying (1) that the board has carefully considered the record of each officer whose name was furnished to the board under section 5895 of this title, and (2) that, in the opinion of a majority of the members of the board, the officers recommended for promotion by the board are best qualified for promotion to meet the needs of the Navy or the Marine Corps from among those officers whose names were furnished to the selection board.

"§ 5898. Action on reports of selection boards

"(a) If, after reviewing the report of a selection board submitted under section 5897 of this title, the Secretary of the Navy determines that the board has acted contrary to law or regulation, the Secretary shall return the report to the board for further proceedings. Upon receipt of a report returned by the Secretary under this subsection, the selection board (or a subsequent selection board convened under section 5893 of this title for the same grade and competitive category) shall conduct such proceedings as may be necessary in order to revise the report and shall resubmit the report, as revised, to the Secretary in accordance with section 5897 of this title.

"(b) The Secretary of the Navy shall, after final review of the report, submit it, together with the Secretary's recommendations, to the Secretary of Defense for transmittal to the President for approval, modification, or disapproval.

"(c) The name of an officer recommended for promotion by a selection board may be removed from the report of the selection board only by the President. Such action may be taken at any time before the promotion of the officer.

"(d) Upon approval by the President of the report of a selection board, the names of the officers recommended for promotion by the selection board (other than any name removed by the President) may be disseminated to the armed force concerned. If those names have not been sooner disseminated, those names (other than the name of any officer whose promotion the Senate failed to confirm) shall be promptly disseminated to the armed force concerned upon confirmation by the Senate.

"(e) Except as authorized or required by this section, proceedings of a selection board convened under section 5893 of this title may not be disclosed to any person not a member of the board.

"§ 5899. Eligibility for consideration for promotion: running mates

"An officer is in the promotion zone and is eligible for consideration for promotion to the next higher grade by a selection board convened under section 5893 of this title when that officer's running mate is in or above the promotion zone established for that officer's present grade under chapter 36 of this title.".

(b) CONFORMING AMENDMENTS.—(1) The table of sections of chapter 549 of title 10, United States Code, is amended by striking out the items relating to sections 5896 through 5899 and inserting in lieu thereof the following:

"5896. Recommendations for promotion by selection boards.
"5897. Reports of selection boards.
"5898. Actions on reports of selection boards.
"5899. Eligibility for consideration for promotion: running mates.".

(2) Section 5903 of such title is amended—

(A) by striking out "(a)" at the beginning of such section; and

(B) by striking out subsection (b).

(3) Subsection (a) of section 5905 of such title is amended to read as follows:

"(a) The name of an officer recommended for promotion by a selection board may be removed from the report of the selection board only by the President. Such action may be taken at any time before the promotion of the officer.".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1986, or on the date of the enactment of this Act, whichever is later, and shall apply to selection boards convened on or after the effective date.

SEC. 509. SENATE CONFIRMATION OF CERTAIN GENERAL AND FLAG OFFICER POSITIONS

(a) DEAN OF ACADEMIC BOARD OF UNITED STATES MILITARY ACADEMY.—Section 4335 of title 10, United States Code, is amended—

(1) by striking out the last sentence of subsection (b); and

(2) by adding at the end the following new subsection:

"(c) The Dean of the Academic Board has the grade of brigadier general while serving in such position, with the benefits authorized for regular brigadier generals of the Army, if appointed to that grade by the President, by and with the advice and consent of the Senate. However, the retirement age of an officer so appointed is that of a permanent professor of the Academy.".

(b) DEPUTY JUDGE ADVOCATE GENERAL AND ASSISTANT JUDGE ADVOCATES GENERAL OF THE NAVY.—Section 5149 of such title is amended—

(1) in subsection (a), by striking out the second sentence and inserting in lieu thereof the following: "While so serving, a judge advocate who holds a grade lower than rear admiral or major general shall hold the grade of rear admiral or major general, as appropriate, if he is appointed to that grade by the President, by and with the advice and consent of the Senate.";

(2) in subsection (b), by striking out the second sentence and inserting in lieu thereof the following: "While so serving, a judge advocate who holds a grade lower than rear admiral (lower half) shall hold the grade of rear admiral (lower half), if he is appointed to that grade by the President, by and with the advice and consent of the Senate."; and

(3) in subsection (c), by striking out the second sentence and inserting in lieu thereof the following: "While so serving, a judge advocate who holds a grade lower than brigadier general shall hold the grade of brigadier general, if he is appointed to that grade by the President, by and with the advice and consent of the Senate.".

(c) DEAN OF THE FACULTY OF THE UNITED STATES AIR FORCE ACADEMY.—Section 9335(b) of such title is amended to read as follows:

"(b) The Dean has the grade of brigadier general while serving in such position, with the benefits authorized for regular brigadier generals of the Air Force, if appointed to that grade by the President, by and with the advice and consent of the Senate. However, the retirement age of an officer so appointed is that of a permanent professor of the Academy.".

(d) ATTENDING PHYSICIAN TO THE UNITED STATES CONGRESS.—(1) Chapter 34 of such title is amended—

(A) by adding at the end the following new section:

"§ 600a. Attending Physician to the United States Congress

"While serving as Attending Physician to the United States Congress, a Reserve who holds a reserve grade lower than major general or rear admiral shall hold the reserve grade of major general or rear admiral, as appropriate, if he is appointed to that grade by the President, by and with the advice and consent of the Senate."; and

(B) by adding at the end of the table of sections at the beginning of such chapter the following new item:

"600a. Attending Physician to the United States Congress.".

(2) Section 1374 of such title is amended—

(A) by redesignating subsection (e) as subsection (f); and

(B) by inserting after subsection (d) the following new subsection:

"(e) Unless entitled to a higher grade under another provision of law, a reserve commissioned officer who is transferred to the Retired Reserve after having served in the position of Attending Physician to the United States Congress is entitled to be placed on the retired list established by section 1376(a) of this title in the grade held by such officer while serving in such position.".

(e) CONFORMING AMENDMENT.—The second undesignated paragraph relating to the Office of the Attending Physician under the heading "JOINT ITEMS" in chapter V of the Supplemental Appropriations Act, 1973 (Public Law 92-607; 86 Stat. 1509) is repealed.

(f) EFFECTIVE DATE.—The amendments made by this section shall take effect on the date of the enactment of this Act but shall apply only with respect to appointments or details made on or after that date.

SEC. 510. POSITION OF STAFF JUDGE ADVOCATE TO THE COMMANDANT OF THE MARINE CORPS

(a) IN GENERAL.—Chapter 515 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 5205. Staff Judge Advocate to the Commandant of the Marine Corps: qualifications; appointment; retirement

"(a) An officer of the Marine Corps who is a judge advocate and a member of the bar of a Federal court or the highest court of a State or territory and who has had at least eight years of experience in legal duties as a commissioned officer may be detailed as Staff Judge Advocate to the Commandant of the Marine Corps. While so serving, a judge advocate who holds a grade lower than brigadier general shall hold the grade of brigadier general if appointed to that grade by the President, by and with the advice and consent of the Senate.

"(b) An officer retiring from the position of Staff Judge Advocate to the Comman-

dant of the Marine Corps, after serving at least three years in such position, shall be retired in the highest grade in which that officer served on active duty satisfactorily, as determined by the Secretary of the Navy.

"(c) If an officer is retired in the grade of brigadier general pursuant to subsection (b), the officer is entitled to the retired pay of that grade, unless entitled to higher pay under another provision of law.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"5205. Staff Judge Advocate to the Commandant of the Marine Corps: qualifications; appointment; retirement.".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on the date of the enactment of this Act, but shall apply only with respect to appointments as Staff Judge Advocate to the Commandant of the Marine Corps made on or after that date.

(d) TRANSITION PROVISION.—Notwithstanding section 1370(a)(2) of title 10, United States Code, an officer serving in the position of Staff Judge Advocate to the Commandant of the Marine Corps, or an equivalent position, on the day before the effective date of this section, if retired after having served in such position (or equivalent position) at least three years, including any service in such position (or its equivalent) before the effective date of this section, shall be retired in the highest grade in which the officer served on active duty satisfactorily, as determined by the Secretary of the Navy.

SEC. 511. TEMPORARY INCREASE IN THE NUMBER OF GENERAL AND FLAG OFFICERS AUTHORIZED TO BE ON ACTIVE DUTY IN THREE- AND FOUR-STAR GRADES

During fiscal year 1987, the numbers of officers authorized under section 525(b) of title 10, United States Code, to be on active duty in grades above major general and rear admiral are increased as follows:

(1) ARMY LIEUTENANT GENERALS.—The number of officers of the Army authorized to be serving on active duty in grades above major general is increased by one during any period of that fiscal year that an officer of the Army is serving as the Director of the Department of Defense Task Force on Drug Enforcement. An additional officer in a grade above major general by reason of this paragraph may not be in the grade of general.

(2) AIR FORCE GENERALS.—The number of officers of the Air Force authorized to be serving on active duty in the grade of general is increased by one during any period of that fiscal year that a general of the Air Force is serving as Director of the Strategic Defense Initiative Organization.

(3) NAVY VICE ADMIRALS.—The number of officers of the Navy authorized to be serving on active duty in a grade above rear admiral is increased by three. None of the additional officers in grades above rear admiral by reason of this paragraph may be in the grade of admiral.

(4) MARINE CORPS GENERAL OFFICERS.—The number of officers of the Marine Corps authorized to be serving on active duty in grades above major general is increased by one, plus an additional one during any period of that fiscal year that an officer of the Marine Corps is serving as the Commander-in-Chief of the United States Central Command. An additional officer in a grade above major general by reason of this paragraph may not be in the grade of general, unless a Marine Corps officer is serving as the Commander-in-Chief of the United States Central Command, in which case one of the additional officers authorized by this paragraph may serve in the grade of general.

TITLE VI—COMPENSATION AND OTHER PERSONNEL BENEFITS

PART A—BASIC PAY AND ALLOWANCES

SEC. 601. MILITARY PAY RAISE FOR FISCAL YEAR 1987

(a) WAIVER OF SECTION 1009 ADJUSTMENT.—Any adjustment required by section 1009 of title 37, United States Code, in elements of compensation of members of the uniformed services to become effective during fiscal year 1987 shall not be made.

(b) FOUR PERCENT INCREASE IN BASIC PAY AND BASIC ALLOWANCE FOR SUBSISTENCE.—The rates of basic pay and basic allowance for subsistence of members of the uniformed services are increased by 4 percent effective on October 1, 1986.

(c) AVERAGE FOUR PERCENT INCREASE IN BASIC ALLOWANCE FOR QUARTERS.—Effective October 1, 1986, the rates of basic allowance for quarters authorized by section 403(a) of title 37, United States Code, are as follows:

Pay grade	Without dependents		With dependents
	Full rate	Partial rate [1]	
Commissioned officers:			
O-10	$575.70	$50.70	$708.00
O-9	575.70	50.70	708.00
O-8	575.70	50.70	708.00
O-7	575.70	50.70	708.00
O-6	528.30	39.60	642.00
O-5	498.60	33.00	591.60
O-4	457.20	26.70	540.60
O-3	368.40	22.20	445.20
O-2	297.90	17.70	377.70
O-1	253.20	13.20	333.30
O-3 [2]	402.30	22.20	476.40
O-2 [2]	344.40	17.70	434.70
O-1 [2]	301.50	13.20	391.20
Warrant officers:			
W-4	419.10	25.20	486.00
W-3	353.70	20.70	435.00
W-2	318.30	15.90	406.50
W-1	269.40	13.80	354.30
Enlisted members:			
E-9	337.80	18.60	460.50
E-8	312.90	15.30	429.00
E-7	267.00	12.00	399.00
E-6	237.00	9.90	361.80
E-5	219.30	8.70	321.60
E-4	190.20	8.10	278.10
E-3	184.80	7.80	259.80
E-2	156.90	7.20	248.10
E-1	142.80	6.90	245.70

[1] Payable to a member without dependents who under section 403 (b) or (c) of title 37, United States Code, is not entitled to receive a basic allowance for quarters.

[2] Applies to commissioned officers with over 4 years' active duty as an enlisted member, warrant officer, or both.

(d) FOUR PERCENT INCREASE IN CADET AND MIDSHIPMAN PAY.—Effective October 1, 1986, section 203(c)(1) of title 37, United States Code, is amended by striking out "$461.40" and inserting in lieu thereof "$499.20".

SEC. 602. REIMBURSEMENT FOR ACCOMMODATIONS IN PLACE OF QUARTERS

(a) LIMITATION ON AMOUNT AVAILABLE FOR REIMBURSEMENTS DURING FISCAL YEARS 1987 THROUGH 1991.—Section 7572(b)(3) of title 10, United States Code, is amended to read as follows:

"(3) The total amount of reimbursement under this subsection may not exceed $1,421,000 for fiscal year 1986 and $1,657,000 for each of the fiscal years 1987 through 1991.".

(b) EXTENSION OF AUTHORITY.—Section 3 of Public Law 96-357 (10 U.S.C. 7572 note) is amended by striking out "September 30, 1986" and inserting in lieu thereof "September 30, 1991".

SEC. 603. ADVANCE PAY FOR SENIOR ROTC MEMBERS IN CERTAIN CIRCUMSTANCES

Section 1006 of title 37, United States Code, is amended by adding at the end the following new subsection:

"(j) Under regulations prescribed by the Secretary concerned, not more than one month's pay may be paid in advance to a member enrolled in a program established under chapter 103 of title 10, who is ordered to participate in field training or a practice cruise authorized by section 2109 of title 10.".

SEC. 604. TERMINATION OF PAY INEQUITY BETWEEN OFFICERS AND ENLISTED PERSONNEL IN CERTAIN HEALTH PROFESSIONS TRAINING

(a) STUDENTS AT UNIFORMED SERVICES UNIVERSITY OF THE HEALTH SCIENCES.—Section 2114(b) of title 10, United States Code, is amended by inserting "(but not in pay grade O-1E)" after "pay grade O-1" in the second sentence.

(b) STUDENTS IN HEALTH PROFESSIONS SCHOLARSHIP PROGRAM.—Section 2121(c) of title 10, United States Code, is amended by inserting "(but not in pay grade O-1E)" after "pay grade O-1" in the second sentence.

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on January 1, 1987, but shall not apply to any person who on or before that date was attending, or had been selected to attend, the Uniformed Services University of the Health Sciences or who had signed an agreement pursuant to section 2122(2) of title 10, United States Code.

PART B—TRAVEL AND TRANSPORTATION

SEC. 611. IMPROVED DISLOCATION ALLOWANCE

(a) IN GENERAL.—Section 407 of title 37, United States Code, is amended to read as follows:

"§ 407. Travel and transportation allowances: dislocation allowance

"(a) Except as provided in subsections (b), (c), and (d) of this section and under regulations prescribed by the Secretary concerned, a member of a uniformed service is entitled to a dislocation allowance equal to the basic allowance for quarters for two months as provided for the member's pay grade and dependency status in section 403 of this title if—

"(1) the member's dependents actually make an authorized move in connection with the member's change of permanent station, including—

"(A) a move to join the member at the member's duty station after an unaccompanied tour of duty when the member's next tour of duty is an accompanied tour at the same station; and

"(B) a move to a location designated by the member after an accompanied tour of duty when the member's next tour of duty is an unaccompanied tour at the same duty station;

"(2) the member's dependents actually move pursuant to section 405a(a), 406(e), 406(h), or 554 of this title;

"(3) the member's dependents actually move from their place of residence under circumstances described in section 406a of this title; or

"(4) the member is without dependents and—

"(A) actually moves to a new permanent station where not assigned to quarters of the United States; or

"(B) actually moves from a place of residence under circumstances described in section 406a of this title.

If a dislocation allowance is paid under clause (3) or (4)(B), the member is not entitled to a dislocation allowance under clause (1).

"(b) Under regulations prescribed by the Secretary concerned, whenever a member is entitled to a dislocation allowance under subsection (a)(3) or (a)(4)(B) of this section, the member is also entitled to a second dislocation allowance equal to the basic allowance for quarters for two months as provided for a member's pay grade and dependency status in section 403 of this title if, subsequent to the member or member's dependents actually moving from their place of residence under circumstances described in section 406a of this title, the member or member's dependents complete that move to a new location and then actually move from that new location to another location also under circumstances described in section 406a of this title. If a second dislocation allowance is paid under this subsection, the member is not entitled to a dislocation allowance under subsection (a)(1) of this section in connection with those moves.

"(c) A member is not entitled to more than one dislocation allowance during a fiscal year unless—

"(1) the Secretary concerned finds that the exigencies of the service require the member to make more than one change of permanent station during the fiscal year;

"(2) the member is ordered to a service school as a change of permanent station;

"(3) the member's dependents are covered by section 405a(a), 406(e), 406(h), or 554 of this title; or

"(4) the member or the member's dependents are covered by subsection (a)(3), (a)(4)(B), or (b) of this section.

This subsection does not apply in time of national emergency declared after April 1, 1975, or in time of war.

"(d) A member is not entitled to payment of a dislocation allowance when ordered from his home to the first duty station or from the last duty station to his home.

"(e) For purposes of this section, a member whose dependents may not make an authorized move in connection with a change of permanent station is considered a member without dependents.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later, and shall apply only to moves which commence on or after that effective date.

SEC. 612. OVERSEAS TRANSPORTATION OF PRIVATELY OWNED MOTOR VEHICLES

(a) IN GENERAL.—Section 2634 of title 10, United States Code, is amended—

(1) in subsection (a)—

(A) by striking out "or" at the end of clause (3);

(B) by striking out the period at the end of clause (4) and inserting in lieu thereof "; or"; and

(C) by adding after clause (4) the following new clause:

"(5) in the case of movement to or from Europe by shipping services described in clause (1), (2), or (3), transportation between the ocean port and one or more inland points in Germany, designated by the Secretary concerned, by inland waterway or overland, whichever is most cost effective for the Government considering all operational, travel, and transportation requirements."; and

(2) by redesignating subsections (b) and (c) as subsections (c) and (d), respectively, and inserting after subsection (a) the following new subsection:

"(b) When a member, assigned to a military unit, is ordered to make a change of permanent station incident to the overseas movement of that unit, one motor vehicle, as described in subsection (a), may be transported between the member's permanent stations at the expense of the United States.".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later, and shall apply only with respect to the transportation of motor vehicles commencing on or after that effective date.

SEC. 613. GOVERNMENT TRANSPORTATION OF PRIVATELY OWNED MOTOR VEHICLES IN UNSAFE CONDITIONS

(a) IN GENERAL.—Section 2634 of title 10, United States Code, as amended by section 612 of this Act, is further amended by adding at the end the following new subsection:

"(e) If the Secretary concerned determines that transportation of a member's motor vehicle between such member's last duty station and the customary ports of embarkation or debarkation is—

"(1) a threat to security or the member's personal safety; or

"(2) dangerous because of hazardous road, terrain, weather, or similar adverse conditions,

such transportation may be provided at the expense of the United States.".

(b) PROHIBITION ON PAYMENT OF MONETARY ALLOWANCE WHEN GOVERNMENT TRANSPORTATION FURNISHED.—Section 406(b)(1)(B) of title 37, United States Code, is amended by adding at the end the following new sentence: "Such monetary allowance may not be paid when the motor vehicle is transported at the expense of the Government under subsection (b) or (e) of section 2634 of title 10.".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later, and shall apply only with respect to the transportation of motor vehicles commencing on or after that effective date.

SEC. 614. TRANSPORTATION AND STORAGE OF HOUSEHOLD GOODS

(a) ADMINISTRATION OF STORAGE OF EXCESS HOUSEHOLD GOODS.—Section 406(d) of title 37, United States Code, is amended by inserting after the second sentence the following new sentence: "In the event a member's baggage and household effects exceed such maximum weight limitation, the Secretary concerned may pay the costs for the nontemporary storage of that excess weight and collect the amount paid from the member's pay and allowances, or collect the amount in such other manner as the Secretary concerned determines appropriate.".

(b) EARLY RETURN SHIPMENT OF HOUSEHOLD GOODS AND PRIVATELY OWNED MOTOR VEHICLES FROM OVERSEAS.—(1) Section 406 of such title is amended—

(1) by redesignating subsection (l) as subsection (m); and

(2) by inserting after subsection (k) the following new subsection (l):

"(l) Under uniform regulations prescribed by the Secretaries concerned, a member with dependents who is ordered to make an overseas permanent change of station and who, in anticipation of his dependents accompanying him overseas, ships baggage and household effects to that overseas station, may be authorized a return shipment of the baggage and household effects if, subsequent to the shipment, the member's dependents are unable to accompany him overseas and the Secretary concerned determines that such inability was unexpected and uncontrollable.".

(2) Section 2634 of title 10, United States Code, as amended by sections 612 and 613 of this Act, is further amended by adding at the end the following new subsection:

"(f) When the Secretary concerned makes a determination under section 406(l) of title 37 that the dependents of a member on a permanent change of station are unable to accompany the member to an overseas duty station because of unexpected and uncontrollable circumstances, and the member shipped a motor vehicle pursuant to this section in anticipation of a dependent accompanying the member to the new duty station, the member may reship or transship such motor vehicle in accordance with this section.".

(c) EFFECTIVE DATES.—(1) The amendment made by subsection (a) shall apply to members whose baggage and household goods enter nontemporary storage on or after such date.

(2) The amendments made by subsection (b) shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later, and shall apply with respect to members whose dependents are unable to accompany them to an overseas permanent duty station because of circumstances arising on or after that effective date.

SEC. 615. CONTINGENT AUTHORIZATION FOR FLAT-RATE PER DIEM SYSTEM

(a) IN GENERAL.—Subsection (d) of section 404 of title 37, United States Code, is amended—

(1) in paragraph (1)(B) by striking out "Transportation" and inserting in lieu thereof "Subject to paragraph (2), transportation";

(2) in paragraph (1)(C), by striking out "clause (1) of this subsection" and inserting in lieu thereof "subparagraph (A) of this paragraph";

(3) by redesignating paragraph (2) as paragraph (3);

(4) by inserting after paragraph (1) the following new paragraph (2):

"(2)(A) With respect to any fiscal year for which a certification has been made by the Secretary of Defense under paragraph (5) of this subsection, the travel and transportation allowance in subparagraph (B) of this paragraph is authorized in the place of the travel and transportation allowance authorized under paragraph (1)(B) of this subsection.

"(B) The travel and transportation allowance authorized under subparagraph (A) of this paragraph with respect to a fiscal year referred to in such subparagraph is transportation in kind, reimbursement therefor, or monetary allowance as provided in para-

graph (1)(A) of this subsection, plus a payment in lieu of subsistence as provided in paragraph (4) of this subsection. Such payment shall be sufficient to meet normal and necessary expenses in the area to which travel is performed."; and

(5) in paragraph (3), as redesignated by clause (3)—

(A) by striking out "Under" and inserting in lieu thereof "Except as provided in paragraph (4) of this subsection and under"; and

(B) by adding at the end the following new paragraphs:

"(4)(A) With respect to any fiscal year for which a certification has been made under paragraph (5) of this subsection, the provisions of subparagraphs (B), (C), and (D) of this paragraph shall apply rather than paragraph (3) of this subsection.

"(B) Under regulations prescribed by the Secretary of Defense, a member of a uniformed service entitled to travel and transportation allowances under subsection (a) is entitled to any of the following:

"(i) A per diem allowance at a rate not to exceed that established by the Secretary of Defense.

"(ii) Reimbursement for the actual and necessary expenses of official travel not to exceed an amount established by the Secretary of Defense.

"(iii) A combination of payments described in clauses (i) and (ii) of this subparagraph.

"(C) Any per diem allowance or maximum amount of reimbursement shall be established, to the extent feasible, by locality.

"(D) For travel consuming less than a full day, the payment prescribed by regulations shall be allocated in such manner as the Secretary of Defense may prescribe.

"(5)(A) The travel and transportation allowances authorized by paragraphs (2) and (4) of this subsection shall apply to any fiscal year with respect to which the Secretary of Defense has certified that the overall cost to the United States of the payment of allowances under such paragraphs would not exceed the overall cost to the United States of the payment of allowances under paragraphs (1)(B) and (3) of this subsection.

"(B) A certification by the Secretary of Defense under subparagraph (A) of this paragraph shall—

"(i) include a comparison of the overall costs to the United States under the two methods referred to in such subparagraph of computing allowances; and

"(ii) be transmitted to the Committees on Armed Services of the Senate and the House of Representatives at least 60 days before the beginning of a fiscal year with respect to which a certification is made under such subparagraph.".

(b) APPLICATION TO FISCAL YEAR 1987.—(1) Notwithstanding paragraph (5)(B)(ii) of section 404(d) of title 37, United States Code, as added by subsection (a), a certification under paragraph (5)(A) of such section with respect to fiscal year 1987 may be transmitted to the committees named in such paragraph at any time during such fiscal year.

(2) If a certification is made under paragraph (5)(A) of section 404(d) of title 37, United States Code, with respect to fiscal year 1987, the amendments made by subsection (a) of this section shall apply to travel and transportation of members of the uniformed services commencing more than 60 days after the date on which the certification is made.

SEC. 616. TRAVEL EXPENSES FOR OVERSEAS DEPENDENTS REQUIRING MEDICAL CARE IN CERTAIN CIRCUMSTANCES

(a) IN GENERAL.—Section 1040(a) of title 10, United States Code, is amended by striking out the comma after "attendants" and all that follows in the third sentence and inserting in lieu thereof a period and the following: "In addition to transportation of a dependent at the expense of the United States authorized under this subsection, reasonable travel expenses incurred in connection with the transportation of the dependent may be paid at the expense of the United States. Travel expenses authorized by this section may include reimbursement for necessary local travel in the vicinity of the medical facility involved. The transportation and travel expenses authorized by this section may be paid in advance.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later, and shall apply only to travel performed on or after that effective date.

SEC. 617. AUTHORIZATION LIMIT ON FUNDS FOR PCS TRAVEL

There are authorized to be appropriated for fiscal year 1987 not more than $2,657,553,000 for permanent change of station travel for active duty military personnel.

PART C—BONUSES AND SPECIAL AND INCENTIVE PAYS

SEC. 621. ENHANCED AVIATION OFFICER CONTINUATION PAY

Section 301b(e) of title 37, United States Code, is amended—

(1) in paragraph (1), by inserting "executed before the date of the enactment of the Department of Defense Authorization Act, 1987," after "agreement"; and

(2) in the third sentence of paragraph (3), by striking out "less than seven years" and inserting in lieu thereof "less than eight years".

SEC. 622. INCLUSION OF AVIATION CADETS UNDER AVIATION CAREER INCENTIVE PAY

(a) IN GENERAL.—(1) Section 301a(a)(6) of title 37, United States Code, is amended—

(A) by striking out "and" at the end of clause (A);

(B) by striking out the period at the end of clause (B) and inserting in lieu thereof a semicolon and "and"; and

(C) by inserting after clause (B) the following new clause:

"(C) 'officer' includes an individual enlisted, and designated, as an aviation cadet under section 6911 of title 10.".

(2) Section 301a(b)(1) of such title is amended by striking out "an officer in pay grades O-1 through O-10" and inserting in lieu thereof "a member".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply only with respect to those members of the Armed Forces who are aviation cadets on or after the date of the enactment of this Act. Service as an aviation cadet before that date shall not be counted for any purpose under section 301a of title 37, United States Code.

SEC. 623. SPECIAL AUTHORITY RELATING TO THE PAYMENT OF SELECTED RESERVE ENLISTMENT BONUS

(a) IN GENERAL.—The Secretary concerned may pay an enlistment bonus under section 308c of title 37, United States Code, to any person who enlisted in the Selected Reserve of the Ready Reserve of an Armed Force during the period beginning on October 1, 1985, and ending on November 8, 1985, if such person—

(1) has not been paid an enlistment or reenlistment bonus under section 308c or 308b of title 37, United States Code, since that period; and

(2) enlisted in the good faith belief (as determined by the Secretary concerned) that he would be paid an enlistment bonus under section 308c of title 37, United States Code.

(b) DEFINITION.—As used in subsection (a), the term "Secretary concerned" has the meaning provided in section 101(5) of title 37, United States Code.

SEC. 624. SPECIAL PAY FOR MEMBERS PROFICIENT IN FOREIGN LANGUAGES

(a) AUTHORITY FOR SPECIAL PAY.—Chapter 5 of title 37, United States Code, is amended by adding at the end the following new section:

"§ 316. Special pay: foreign language proficiency pay

"(a) A member of the armed forces who—

"(1) is entitled to basic pay under section 204 of this title;

"(2) has been certified by the Secretary concerned within the past 12 months to be proficient in a foreign language identified by the Secretary of Defense as being a language in which it is necessary to have personnel proficient because of national defense considerations; and

"(3)(A) is qualified in a military specialty requiring such proficiency;

"(B) received training, under regulations prescribed by the Secretary concerned, designed to develop such proficiency;

"(C) is assigned to military duties requiring such a proficiency; or

"(D) is proficient in a foreign language for which the Secretary of Defense may have a critical need,

may be paid special pay under this section in addition to any other pay or allowance to which the member is entitled.

"(b) The monthly rate for special pay under subsection (a) of this section shall not exceed $100 as determined by the Secretary concerned.

"(c)(1) Under regulations prescribed by the Secretary concerned, and to the extent provided for in appropriation Acts, when a member of a reserve component of the armed forces who is entitled to compensation under section 206 of this title meets the requirements for special pay authorized in subsection (a), except the requirement prescribed in subsection (a)(1), the member may be paid an increase in compensation equal to 1/30th of the monthly special pay authorized under subsection (b) for a member who is entitled to basic pay under section 204 of this title.

"(2) A member eligible for increased compensation under paragraph (1) shall be paid such increase—

"(A) for each regular period of instruction, or period of appropriate duty, in which he is engaged for at least two hours, including instruction received or duty performed on a Sunday or holiday; and

"(B) for each period of performance of such other equivalent training, instruction, duty, or appropriate duties, as the Secretary concerned may prescribe.

"(3) This subsection does not apply to a member who is entitled to basic pay under section 204 of this title.

"(d) This section shall be administered under regulations prescribed by the Secretary of Defense for the armed forces under his jurisdiction and by the Secretary of Transportation for the Coast Guard when the Coast Guard is not operating as a service in the Navy.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"316. Special pay: foreign language proficiency pay.".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later, and shall apply with respect to pay periods beginning on or after that effective date.

(d) LIMITATIONS ON OBLIGATIONS.—Of the funds appropriated or otherwise made available for military personnel during fiscal year 1987, not more than $7,300,000 may be obligated or expended for the payment of the special pay authorized by section 316 of title 37, United States Code, as added by this section.

SEC. 625. SPECIAL PAY FOR BOARD CERTIFIED PSYCHOLOGISTS

(a) IN GENERAL.—Chapter 5 of title 37, United States Code, is amended by inserting after section 302b the following new section:

"§ 302c. Special pay: psychologists

"(a) A member who is—

"(1) an officer in a corps of the Army Medical Department, an officer in the Bureau of Medicine and Surgery of the Navy, or an officer of the Air Force designated as a psychologist; and

"(2) has been awarded a diploma as a Diplomate in Psychology by the American Board of Professional Psychology,

is entitled to special pay, as provided in subsection (b).

"(b) The rate of special pay to which an officer is entitled pursuant to subsection (a) shall be—

"(1) $2,000 per year, if the officer has less than 10 years of creditable service;

"(2) $2,500 per year, if the officer has at least 10 but less than 12 years of creditable service;

"(3) $3,000 per year, if the officer has at least 12 but less than 14 years of creditable service;

"(4) $4,000 per year, if the officer has at least 14 but less than 18 years of creditable service; or

"(5) $5,000 per year, if the officer has 18 or more years of creditable service.".

(b) CONFORMING AMENDMENTS.—(1) Section 303a of title 37, United States Code, is amended by inserting "302c," after "302b," each place it appears.

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 302b the following new item:

"302c. Special pay: psychologists.".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1986, or on the date of the enactment of this Act, whichever is later, and shall apply with respect to pay periods beginning on or after that effective date.

PART D—MISCELLANEOUS BENEFITS

SEC. 631. IMPROVED DEATH GRATUITY

(a) IN GENERAL.—The first sentence of section 1478 of title 10, United States Code, is amended to read as follows: "The death gratuity payable under sections 1475 through 1477 of this title shall be equal to the total of three months' basic pay, basic allowance for quarters, and basic allowance for subsistence at the rates to which the decedent was entitled on the date of death, except that the gratuity may not be less than $3,000 or more than $9,000.".

(b) REPEAL OF HOUSING OCCUPANCY BENEFIT.—Section 403(l) of title 37, United States Code, is repealed.

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1986, or on the date of the enactment of this Act, whichever is later, and shall apply with respect to deaths occurring on or after that effective date.

SEC. 632. AUTHORITY TO PAY BANK CHARGES IN THE EVENT OF GOVERNMENT ERROR IN MANDATORY DIRECT DEPOSIT OF MEMBERS' PAY

(a) IN GENERAL.—Chapter 53 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 1051. Relief for expenses because of error in mandatory direct deposit of pay

"A member of an armed force who, pursuant to law or regulation, is required to participate in a program for the automatic deposit of pay to a financial institution, as provided by section 3332 of title 31, may be reimbursed, under regulations prescribed by the Secretary concerned, for overdraft charges levied by the financial institution when such charges result from an administrative or mechanical error on the part of the Government that causes such member's pay to be deposited late or in an incorrect amount or manner. Reimbursements made pursuant to this section shall be made from appropriations available for the pay and allowances of members of the armed force concerned.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"1051. Relief for expenses because of error in mandatory direct deposit of pay.".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later, and shall apply only with respect to charges levied as a result of errors occurring on or after that effective date.

SEC. 633. TRANSPORTATION AND MEDICAL CARE FOR DEPENDENTS OF CERTAIN SENTENCED, DISCHARGED, OR DISMISSED MEMBERS

(a) TRAVEL AND TRANSPORTATION ALLOWANCES.—Section 406 of title 37, United States Code, is amended—

(1) in subsection (a), by striking out the text of paragraph (2)(A) and inserting in lieu thereof the following: "Except as provided in subparagraph (B) of this paragraph, a member who—

"(i) is separated from the service or released from active duty; and

"(ii) on the date of his separation from the service or release from active duty, has not served on active duty for a period of time equal to at least 90 percent of the period of time for which he initially enlisted or otherwise initially agreed to serve,

may be provided transportation under this subsection for his dependents only by transportation in kind by the least expensive mode of transportation available or by a monetary allowance that does not exceed the cost to the Government of such transportation in kind."; and

(2) in subsection (h)—

(A) by striking out the first sentence and inserting in lieu thereof the following:

"(1) If the Secretary concerned determines that it is in the best interests of a member described in paragraph (2) or his dependents and the United States, the Secretary may, when orders directing a change of permanent station for the member concerned have not been issued, or when they have been issued but cannot be used as authority for the transportation of the member's dependents, baggage, and household effects—

"(A) authorize the movement of the member's dependents, baggage, and household effects at the station to an appropriate location in the United States or its possessions or, in the event the dependents are foreign nationals, the country of the dependents' origin and prescribe transportation in kind, reimbursement therefor, or a monetary allowance in place thereof, as the case may be, as authorized under subsection (a) or (b) of this section; and

"(B) in the case of a member described in paragraph (2)(A), authorize the transportation of one motor vehicle that is owned by the member (or a dependent of the member) and is for his dependents' personal use to that location by means of transportation authorized under section 2634 of title 10."; and

(B) by adding at the end the following new paragraph:

"(2) A member referred to in paragraph (1) is a member who—

"(A) is serving at a station outside the United States or in Hawaii or Alaska;

"(B) receives an administrative discharge under other than honorable conditions; or

"(C) is sentenced by a court-martial to be confined for a period of more than 30 days, to receive a dishonorable or bad-conduct discharge, or to be dismissed from a uniformed service, if the sentence is approved under section 860(c)(2) of title 10.".

(b) MEDICAL CARE.—(1) Section 1076 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(e)(1) Subject to paragraph (3), if—

"(A) a member of a uniformed service receives a dishonorable or bad-conduct discharge or is dismissed from a uniformed service as a result of a court-martial conviction for an offense involving abuse of a dependent of the member, as determined in accordance with regulations prescribed by the administering Secretary for such uniformed service; and

"(B) the abused dependent needs medical or dental care for an injury or illness resulting from the abuse,

the administering Secretary may, upon request of the abused dependent, furnish medical or dental care to the dependent for the treatment of such injury or illness in facilities of the uniformed services.

"(2) Subject to paragraph (3), upon request of any dependent of a member of a uniformed service punished for an abuse described in paragraph (1)(A), the administering Secretary for such uniformed service may furnish medical care in facilities of the uniformed services to the dependent for the treatment of any adverse health condition resulting from such dependent's knowledge of (A) the abuse, or (B) any injury or illness suffered by the abused person as a result of such abuse.

"(3) Medical and dental care furnished to a dependent of a member of the uniformed services in facilities of the uniformed services under paragraph (1) or (2)—

"(A) shall be limited to the health care prescribed by section 1077 of this title;

"(B) shall be subject to the availability of space and facilities and the capabilities of the medical and dental staff; and

"(C) shall terminate 1 year after the date on which the member is discharged or dismissed from a uniformed service as described in paragraph (1)(A).".

(2) Section 1079 of such title is amended by adding at the end the following new subsection:

"(l)(1) Contracts entered into under subsection (a) shall also provide for medical care for dependents of former members of the uniformed services who are authorized to receive medical and dental care under section 1076(e) of this title in facilities of the uniformed services.

"(2) Except as provided in paragraph (3), medical care in the case of a dependent described in section 1076(e) shall be furnished under the same conditions and subject to the same limitations as medical care furnished under this section to spouses and children of members of the uniformed services described in the first sentence of subsection (a).

"(3) Medical care may be furnished to a dependent pursuant to paragraph (1) only for an injury, illness, or other condition described in section 1076(e) of this title.".

(c) EFFECTIVE DATE.—(1) The amendments made by this section shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later.

(2) The amendment made by subsection (a)(1) shall apply only with respect to members discharged or released from active duty on or after the effective date of this section.

(3) The amendments made by subsection (a)(2) shall apply with respect to dependents about whom a determination by the Secretary concerned is made on or after the effective date of this section.

(4) The amendment made by subsection (b)(1) shall apply only with respect to dependents who request medical or dental care on or after the effective date of this section.

(5) The amendment made by subsection (b)(2) shall apply only with respect to care furnished under section 1079 of title 10, United States Code, on or after the effective date of this section.

SEC. 634. IMPROVED EMPLOYMENT OPPORTUNITIES FOR MILITARY SPOUSES

(a) IN GENERAL.—Section 806(b)(2) of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 680) is amended by striking out "GS-7" and inserting in lieu thereof "GS-4".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on October 1, 1986, or on the date of the enactment of this Act, whichever is later.

SEC. 635. RETIREMENT CREDIT FOR CERTAIN FORMER NATIONAL GUARD TECHNICIANS

(a) IN GENERAL.—(1) Section 8332(b) of title 5, United States Code, is amended by striking out the next to the last sentence.

(2) Section 3(c) of the National Guard Technicians Act of 1968 (32 U.S.C. 709 note) is amended by striking out the last sentence.

(b) APPLICATION OF SUBSECTION (a).—(1) Except as provided in paragraph (2), the amendment made by subsection (a)(1) applies only with respect to individuals separated from Government employment on or after the date of the enactment of this Act.

(2)(A) In the case of any individual who—

(i) was employed under section 709 of title 32, United States Code, or under any prior corresponding provision of law, before January 1, 1969; and

(ii) was separated from Government employment on or after January 1, 1969, and before the date of the enactment of this Act,

any annuity under subchapter III of chapter 83 of title 5, United States Code, based on such individual's service (as defined in section 8331(12) of such title) shall be redetermined to take into account the amendment made by subsection (a), if application therefor is received by the Office of Personnel Management within one year after the date of the enactment of this Act.

(B) Any change in an annuity resulting from a redetermination under subparagraph (A) shall apply only with respect to monthly payments accruing after the date of the enactment of this Act.

(C) Any individual described in subparagraph (A) or any survivor of such an individual may make a deposit under section 8334(c) of title 5, United States Code, with respect to the service of such individual under section 709 of title 32, United States Code.

(3) Except as provided in paragraph (4), the amendment made by subsection (a)(2) applies only with respect to an individual performing service as an officer or employee of the Government on or after the date of the enactment of this Act and only for the purpose of determining—

(A) any annual leave accruing under section 6303 of title 5, United States Code, to the individual on or after such date; and

(B) the individual's length of service for the purposes of entitlement to Federal employee death and disability compensation, group life insurance and health benefits, severance pay, tenure, and status.

(4)(A) The amendment made by subsection (a)(2) of this section applies with respect to any individual who separated from Government employment after December 31, 1968, and before the date of the enactment of this Act, for the purpose of determining whether such individual satisfies the length of service requirement under section 8901(3)(A) of title 5, United States Code (relating to the definition of the term "annuitant"), for the purposes of chapter 89 of such title.

(B) Any individual who satisfies the length of service requirement referred to in subparagraph (A) as a result of the application of the amendment made by subsection (a)(2) shall be enrolled in a health benefits plan (described in section 8903 of such title) of such individual's choice, if—

(i) application for enrollment is received by the Office of Personnel Management within one year after the date of the enactment of this Act; and

(ii) such individual qualifies under section 8905(b)(1)(A) of such title (taking into account years of service considered pursuant to subparagraph (A)).

SEC. 636. DEATH AND DISABILITY BENEFITS FOR RESERVE COMPONENT MEMBERS

(a) MEDICAL AND DENTAL CARE FOR RESERVISTS.—(1) Section 1074a of title 10, United States Code, is amended to read as follows:

"§ 1074a. Medical and dental care: members performing inactive duty training, active duty for 30 days or less, or other reserve training

"(a) Under joint regulations prescribed by the Secretary of Defense, the Secretary of Transportation, and the Secretary of Health and Human Services, the following persons are entitled to the benefits described in subsection (b):

"(1) Each member of a uniformed service who incurs, contracts, or aggravates an injury, disease, or illness in line of duty while performing inactive duty training, active duty for a period of 30 days or less, or full-time National Guard duty for a period of 30 days or less.

"(2) Each member of a uniformed service who incurs, contracts, or aggravates an injury, disease, or illness during voluntary participation or other training activities sponsored by a uniform service, but not while on inactive duty training, active duty, or full-time National Guard duty.

"(3) Each member of a uniformed service who incurs, contracts, or aggravates an injury, disease, or illness while traveling directly to or from the place at which he is to perform, or has performed, inactive-duty training, active duty for a period of 30 days or less, or full-time National Guard duty for a period of 30 days or less.

"(b) A person described in subsection (a) is entitled to—

"(1) the medical and dental care appropriate for the treatment of his injury, disease, or illness until the resulting disability cannot be materially improved by further hospitalization or treatment; and

"(2) subsistence during hospitalization.

"(c)(1) For purposes of subsection (a)(2), periods of work or study in connection with a correspondence course of a uniformed service, or attendance in an inactive Reserve status at an educational institution under the sponsorship of a uniformed service, do not constitute training activities.

"(2) An injury, disease, or illness incurred, contracted, or aggravated as a result of the member's own gross negligence or misconduct while performing travel referred to in subsection (a)(3) is not covered under this section.".

(2) The table of sections at the beginning of chapter 55 of such title is amended by striking out the item relating to section 1074a and inserting in lieu thereof the following:

"1074a. Medical and dental care: members performing inactive duty training, active duty for 30 days or less, or other reserve training.".

(b) PAY FOR RESERVISTS WHILE DISABLED.—Section 204 of title 37, United States Code, is amended—

(1) by striking out subsections (g), (h), and (i) and inserting in lieu thereof the following:

"(g) A member of the National Guard or a reserve component of an armed force is entitled to the pay and allowances provided by law or regulation for a member of a regular component of an armed force of corresponding grade and length of service whenever he is called or ordered to active duty for a period of more than 30 days and is physically disabled in line of duty from injury or disease while so employed.

"(h)(1) A member of the National Guard or a reserve component who, while performing active duty under a call or order to active duty for a period of 30 days or less or who, while performing inactive duty training, incurs or aggravates an injury, disease, or illness in line of duty while so employed or while traveling directly to or from that training, is entitled to a portion of the regular compensation provided by law or regulation for a member of a regular component of corresponding grade and length of service for each month such member applies for and demonstrates a loss of earned income (other than pay and allowances under this title) as a consequence of the injury, disease, or illness or aggravation thereof. The portion of the regular compensation shall be an amount which offsets the loss of earned income, but shall not exceed the

monthly regular compensation for such member (as described in the preceding sentence) and shall be paid for a period not to exceed 6 months.

"(2) The procedures for determining and paying compensation pursuant to paragraph (1) shall be prescribed by the Secretary of Defense for the armed forces under his jurisdiction and by the Secretary of Transportation for the Coast Guard when the Coast Guard is not operating as a service in the Navy.

"(3) The Secretary concerned may continue the pay and allowances a member is receiving under this subsection beyond the 6-month delimiting period if he determines it to be in the interests of fairness and equity to do so."; and

(2) by redesignating subsection (j) as subsection (i).

(c) PAY FOR INACTIVE DUTY TRAINING WHILE DISABLED.—Section 206(a) of title 37, United States Code, is amended by striking out "grade entitled to basic pay," and all that follows through the period and inserting in lieu thereof the following: "grade entitled to basic pay—

"(1) for each regular period of instruction or period of appropriate duty, at which the member is engaged for at least two hours, including that performed on a Sunday or holiday;

"(2) for a regular period of instruction that the member is scheduled to perform but is unable to perform because of a disability resulting from an injury incurred or aggravated or a disease incurred or illness contracted or aggravated in line of duty during a call or order to active duty for a period of 30 days or less or during the performance of inactive duty training or while traveling to or from that training; or

"(3) for the performance of such other equivalent training, instruction, duty, or appropriate duties, as the Secretary concerned may prescribe.".

(d) MEDICAL AND DENTAL CARE FOR SURVIVORS OF CERTAIN RESERVISTS.—(1) Subsection (a) of section 1076 of title 10, United States Code, is amended to read as follows:

"(a) A dependent of a member of a uniformed service who is on active duty for a period of more than 30 days or a dependent who is a survivor of a member of a uniformed service who died—

"(1) while on active duty;

"(2) while performing inactive duty training; or

"(3) as a consequence of an injury, disease, or illness incurred, contracted, or aggravated while on active duty, while performing inactive duty training, or while traveling directly to or from such training,

is entitled, upon request, to the medical and dental care prescribed by section 1077 of this title in facilities of the uniformed services, subject to the availability of space and facilities and the capabilities of the medical and dental staff.".

(2) Paragraph (2) of section 1086(c) of such title is amended to read as follows:

"(2) A dependent (other than a dependent defined in section 1072(2)(E) of this title) who is a survivor of a member of a uniformed service who died—

"(A) while on active duty;

"(B) while performing inactive duty training; or

"(C) as a consequence of an injury incurred or aggravated or a disease or illness contracted or aggravated while on active duty, while performing inactive duty training, or while traveling directly to or from such training.".

(e) RETIREMENT OR SEPARATION OF RESERVISTS FOR DISABILITY.—(1)(A) Section 1204 of such title is amended by inserting "disease, or illness, or the aggravation thereof," after "injury,".

(B) The section heading of section 1204 of such title is amended to read as follows:

"§ 1204. Members on active duty for 30 days or less; disability from injury, disease, or illness: retirement".

(C) The table of sections at the beginning of chapter 61 of such title is amended by striking out the item relating to section 1204 and inserting in lieu thereof the following:

"1204. Members on active duty for 30 days or less; disability from injury, disease, or illness: retirement.".

(2)(A) Section 1206 of such title is amended by inserting "disease, or illness, or the aggravation thereof," after "injury,".

(B) The section heading of section 1206 of such title is amended to read as follows:

"§ 1206. Members on active duty for 30 days or less: separation".

(C) The table of sections at the beginning of chapter 61 of such title is amended by striking out the item relating to section 1206 and inserting in lieu thereof the following:

"1206. Members on active duty for 30 days or less: separation.".

(f) DEATH BENEFITS FOR RESERVISTS.—Chapter 71 of such title is amended—

(1) in section 1475(a)(3), by inserting "or aggravated or disease or illness contracted or aggravated" after "incurred";

(2) in section 1476, by striking out subsection (a) and inserting in lieu thereof the following:

"(a) Except as provided in section 1480 of this title, the Secretary concerned shall have a death gratuity paid to or for the appropriate survivor or survivors as designated in section 1477 of this title of each person who dies within 120 days after discharge or release from active duty or inactive duty training (other than work or study in connection with a correspondence course of an armed force or attendance, in an inactive status, at an educational institution under the sponsorship of an armed force or the Public Health Service) if the Administrator of Veterans' Affairs determines that the death resulted from an injury incurred or aggravated or a disease or illness contracted or aggravated by such duty or by an injury, disease, or illness incurred or aggravated during travel directly to or from such duty.";

(3) in section 1476, by striking out subsection (b) and redesignating subsections (c) and (d) as subsections (b) and (c), respectively; and

(4) in section 1481, by striking out clauses (2) and (3) of subsection (a) and inserting in lieu thereof the following:

"(2) any Reserve of an armed force under his jurisdiction who dies while (A) on active duty, (B) performing inactive duty training, (C) undergoing treatment or being hospitalized for an injury incurred or aggravated or a disease or illness contracted or aggravated while on active duty or performing inactive duty training, or (D) performing authorized travel directly to or from active duty or inactive duty training,

"(3) any member of the Army National Guard or Air National Guard who dies while entitled to pay from the United States and while (A) on active duty, (B) performing inactive duty training, (C) undergoing treatment or being hospitalized for an injury incurred or aggravated or a disease or illness contracted or aggravated while on active duty or performing inactive duty training, or (D) performing authorized travel directly to or from active duty or inactive duty training,".

(g) CONFORMING AMENDMENTS.—(1)(A) Title 10, United States Code, is amended by striking out sections 3687, 3721, 3722, 6148, 8687, 8721, and 8722.

(B) The table of sections at the beginning of chapter 353 of such title is amended by striking out the item relating to section 3687.

(C) The table of sections at the beginning of chapter 355 of such title is amended by striking out the items relating to sections 3721 and 3722.

(D) The table of sections at the beginning of chapter 561 of such title is amended by striking out the item relating to section 6148.

(E) The table of sections at the beginning of chapter 853 of such title is amended by striking out the item relating to section 8687.

(F) The table of sections at the beginning of chapter 855 of such title is amended by striking out the items relating to sections 8721 and 8722.

(2)(A) Title 32, United States Code, is amended by striking out sections 318, 319, 320, and 321.

(B) The table of sections at the beginning of chapter 3 of such title is amended by striking out the items relating to sections 318, 319, 320, and 321.

(h) EFFECTIVE DATE.—The amendments made by this section shall take effect on the date of the enactment of this Act but shall apply only to persons who become disabled on or after that date or, in the case of death benefits, who die on or after that date.

SEC. 637. LIMITED USE OF COMMISSARY STORES BY MEMBERS OF THE SELECTED RESERVE

(a) IN GENERAL.—Chapter 53 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 1051. Limited use of commissary stores by members of the Selected Reserve

"(a) Under regulations prescribed by the Secretary concerned, members of the Selected Reserve of the Ready Reserve of a reserve component of an armed force shall be permitted to use commissary stores of the Department of Defense one day for each day of active duty for training performed by the member. Under such regulations, a member of the Selected Reserve shall be permitted a period of one year after the date on which the member performs such day of active duty for training to use the day of eligibility for using commissary stores.

"(b) A member may not use commissary stores under this section more than 14 days in any year.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"1051. Limited use of commissary stores by members of the Selected Reserve.".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later, and shall apply only with respect to active duty for

training performed on or after that effective date.

(d) REPEAL PROVISION.—Section 1013 of the Department of Defense Authorization Act, 1984 (Public Law 98-94; 97 Stat. 665), is repealed effective October 1, 1986, or the date of the enactment of this Act, whichever is later.

PART E—ADMINISTRATION OF PERSONNEL BENEFITS

SEC. 641. ACCOUNTING FOR PAYMENTS OF CLAIMS FOR BENEFITS

Section 1552(c) of title 10, United States Code, is amended—

(1) by striking out ", from applicable current appropriations," in the first sentence; and

(2) by adding at the end the following new sentence: "A payment authorized under this subsection may be paid out of applicable current appropriations or from appropriations (if available) from which the expense would have been paid if payment had been made when due under the corrected record.".

SEC. 642. ENHANCED METHOD FOR DETERMINING TRUE COSTS OF MILITARY RETIREMENT

(a) USE OF DUAL PERCENTAGE DETERMINATIONS.—Section 1465 of title 10, United States Code, is amended—

(1) by striking out subsection (b)(1) and inserting in lieu thereof the following:

"(1) The Secretary of Defense shall determine each year, in sufficient time for inclusion in budget requests for the following fiscal year, the total amount of Department of Defense contributions to be made to the Fund during that fiscal year under section 1466(a) of this title. That amount shall be determined by adding—

"(A) the product of—

"(i) the current estimate of the value of the single level percentage of basic pay to be determined under subsection (c)(1)(A) at the time of the next actuarial valuation under subsection (c); and

"(ii) the total amount of basic pay expected to be paid during that fiscal year to members of the armed forces (other than the Coast Guard) on active duty (other than active duty for training) or full-time National Guard duty (other than full-time National Guard duty for training only); and

"(B) the product of—

"(i) the current estimate of the value of the single level percentage of basic pay and of compensation (paid pursuant to section 206 of title 37) to be determined under subsection (c)(1)(B) at the time of the next actuarial valuation under subsection (c); and

"(ii) the total amount of basic pay and of compensation (paid pursuant to section 206 of title 37) expected to be paid during that fiscal year to members of the Ready Reserve of the armed forces (other than the Coast Guard and other than members on full-time National Guard duty other than for training) who are not otherwise described in subparagraph (A)(ii).''; and

(2) by striking out subsection (c)(1) and inserting in lieu thereof the following:

"(c)(1) Not less often than every four years, the Secretary of Defense shall carry out an actuarial valuation of Department of Defense military retirement and survivor benefit programs. Each actuarial valuation of such programs shall include—

"(A) a determination (using the aggregate entry-age normal cost method) of a single level percentage of basic pay for members of the armed forces (other than the Coast Guard) on active duty (other than active duty for training) or full-time National Guard duty (other than full-time National Guard duty for training only); and

"(B) a determination (using the aggregate entry-age normal cost method) of a single level percentage of basic pay and of compensation (paid pursuant to section 206 of title 37) for members of the Ready Reserve of the armed forces (other than the Coast Guard and other than members on full-time National Guard duty other than for training) who are not otherwise described by subparagraph (A),

to be used for the purposes of subsection (b) and section 1466(a) of this title.".

(b) PAYMENTS INTO MILITARY RETIREMENT FUND BASED ON DUAL DETERMINATIONS.—Subsection (a) of section 1466 of such title is amended to read as follows:

"(a) The Secretary of Defense shall pay into the Fund at the end of each month as the Department of Defense contribution to the Fund for that month the amount that is the sum of—

"(1) the product of—

"(A) the level percentage of basic pay determined using all the methods and assumptions approved for the most recent (as of the first day of the current fiscal year) actuarial valuation under section 1465(c)(1)(A) of this title, except that any statutory changes in the military retirement and survivor benefit systems that became effective subsequent to the date of that valuation and on or before the first day of the current fiscal year shall be used in such determination; and

"(B) the total amount of basic pay paid that month to members of the armed forces (other than the Coast Guard) on active duty (other than active duty for training) or full-time National Guard duty (other than full-time National Guard duty for training only); and

"(2) the product of—

"(A) the level percentage of basic pay and of compensation (paid pursuant to section 206 of title 37) determined using all the methods and assumptions approved for the most recent (as of the first day of the current fiscal year) actuarial valuation under section 1465(c)(1)(B) of this title, except that any statutory changes in the military retirement and survivor benefit systems that became effective subsequent to the date of that valuation and on or before the first day of the current fiscal year shall be used in such determination; and

"(B) the total amount of basic pay and of compensation (paid pursuant to section 206 of title 37) paid that month to members of the Ready Reserve of the armed forces (other than the Coast Guard and other than members on full-time National Guard duty other than for training) who are not otherwise described in paragraph (1)(B).".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later, and shall apply to payments required to be made under section 1466(a) of title 10, United States Code, as amended by this section, for months beginning on or after that effective date.

TITLE VII—HEALTH CARE

SEC. 701. ALTERNATIVE HEALTH CARE PLANS

(a) INCENTIVES UNDER ALTERNATIVE PLANS.—Chapter 55 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 1095. Incentives for participation in cost-effective health benefit plans

"(a) The Secretary of Defense may waive during any fiscal year or portion of a fiscal year the limitations set out in the second sentence of section 1079(a) of this title and the requirements for payments by the patient set out in section 1079(b) or 1086(b) of this title with respect to any plan contracted for under the authority of section 1079 or 1086 of this title if the Secretary determines and certifies in writing, as provided in subsection (b), that during the period of the waiver such a plan will—

"(1) be less costly to the Government; or

"(2) will provide better services at no additional cost to the Government,

than a plan under which such limitations or payment requirements are in effect.

"(b) The certification required by subsection (a)—

"(1) shall include a comparative analysis of costs of and benefits available under the plan to which a waiver of limitations and payment requirements would apply and under the plan to which the limitations and payment requirements would apply; and

"(2) shall be transmitted to the Committees on Armed Services of the Senate and the House of Representatives not later than 180 days before the beginning of any fiscal year or portion of a fiscal year for which the waiver is to be made.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"1095. Incentives for participation in cost-effective health benefit plans.".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1986, or the date of the enactment of this Act, whichever is later.

SEC. 702. MILITARY-CIVILIAN HEALTH SERVICES COOPERATION

(a) AUTHORITY FOR COOPERATIVE SHARING OF RESOURCES.—Chapter 55 of title 10, United States Code, as amended by section 701, is further amended by adding at the end the following new section:

"§ 1096. Military-civilian health services partnership program

"(a) The Secretary of Defense may authorize agreements providing for the sharing of resources between treatment facilities of the uniformed services and civilian health care providers under sections 1079 and 1086 of this title if the Secretary determines that such sharing will result in more effective, efficient, or economical health care for persons authorized care under this chapter.

"(b) Resources that may be shared under an agreement entered into under subsection (a) include personnel (including support personnel), equipment, supplies, and other items and facilities necessary for the provision of health care services.

"(c) With respect to care provided in facilities of the uniformed services under a sharing agreement under this section, a dependent shall pay the charges prescribed by section 1078 of this title and a member or former member entitled to retired or retainer pay shall pay the charges prescribed by section 1075 of this title.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter (as amended by section 701) is amended by adding at the end the following new item:

"1096. Military-civilian health services partnership program.".

SEC. 703. CONFIDENTIALITY OF MEDICAL QUALITY ASSURANCE RECORDS

(a) IN GENERAL.—Chapter 55 of title 10, United States Code, as amended by sections 701 and 702 of this Act, is further amended by adding at the end the following new section:

"§ 1097. Confidentiality of medical quality assurance records: qualified immunity for participants

"(a) Medical quality assurance records created by or for the Department of Defense as part of a medical quality assurance program are confidential and privileged. Such records may not be disclosed to any person or entity, except as provided in subsection (c).

"(b)(1) No part of any medical quality assurance record described in subsection (a) may be subject to discovery or admitted into evidence in any judicial or administrative proceeding, except as provided in subsection (c).

"(2) A person who reviews or creates medical quality assurance records for the Department of Defense or who participates in any proceeding that reviews or creates such records may not be permitted or required to testify in any judicial or administrative proceeding with respect to such records or with respect to any finding, recommendation, evaluation, opinion, or action taken by such person or body in connection with such records except as provided in this section.

"(c)(1) Subject to paragraph (2), a medical quality assurance record described in subsection (a) may be disclosed, and a person referred to in subsection (b) may give testimony in connection with such a record, only as follows:

"(A) To a Federal executive agency or private organization, if such medical quality assurance record or testimony is needed by such agency or organization to perform licensing or accreditation functions related to Department of Defense health care facilities or to perform monitoring, required by law, of Department of Defense health care facilities.

"(B) To an administrative or judicial proceeding commenced by a present or former Department of Defense health care provider concerning the termination, suspension, or limitation of clinical privileges of such health care provider.

"(C) To a governmental board or agency or to a professional health care society or organization, if such medical quality assurance record or testimony is needed by such board, agency, society, or organization to perform licensing, credentialing, or the monitoring of professional standards with respect to any health care provider who is or was a member or an employee of the Department of Defense.

"(D) To a hospital, medical center, or other institution that provides health care services, if such medical quality assurance record or testimony is needed by such institution to assess the professional qualifications of any health care provider who is or was a member or employee of the Department of Defense and who has applied for or been granted authority or employment to provide health care services in or on behalf of such institution.

"(E) To an officer, employee, or contractor of the Department of Defense who has a need for such record or testimony to perform official duties.

"(F) To a criminal or civil law enforcement agency or instrumentality charged under applicable law with the protection of the public health or safety, if a qualified representative of such agency or instrumentality makes a written request that such record or testimony be provided for a purpose authorized by law.

"(G) In an administrative or judicial proceeding commenced by a criminal or civil law enforcement agency or instrumentality referred to in subparagraph (F), but only with respect to the subject of such proceeding.

"(2) With the exception of the subject of a quality assurance action, the identity of any person receiving health care services from the Department of Defense or the identity of any other person associated with such department for purposes of a medical quality assurance program that is disclosed in a medical quality assurance record described in subsection (a) shall be deleted from that record or document before any disclosure of such record is made outside the Department of Defense. Such requirement does not apply to the release of information pursuant to section 552a of title 5, United States Code.

"(d)(1) Nothing in this section shall be construed as authorizing or requiring the withholding from any person or entity aggregate statistical information regarding the results of Department of Defense medical quality assurance programs.

"(2) Nothing in this section shall be construed as authority to withhold any medical quality assurance record from a committee of either House of Congress, any joint committee of Congress, or the General Accounting Office if such record pertains to any matter within their respective jurisdictions.

"(e) A person or entity having possession of or access to a record or testimony described by this section may not disclose the contents of such record or testimony in any manner or for any purpose except as provided in this section.

"(f) Medical quality assurance records described in subsection (a) may not be made available to any person under section 552 of title 5, United States Code.

"(g) A person who participates in or provides information to a person or body that reviews or creates medical quality assurance records described in subsection (a) shall not be civilly liable for such participation or for providing such information if the participation or provision of information was in good faith based on prevailing professional standards at the time the medical quality assurance program activity took place.

"(h) Nothing in this section shall be construed as limiting access to the information in a record created and maintained outside a medical quality assurance program, including a patient's medical records, on the grounds that the information was presented during meetings of a review body that are part of a medical quality assurance program.

"(i) The Secretary of Defense shall prescribe regulations to implement this section.

"(j) In this section:

"(1) The term 'medical quality assurance program' means any activity carried out before, on, or after the date of the enactment of this section by or for the Department of Defense to assess the quality of medical care, including activities conducted by individuals, military medical or dental treatment facility committees, or other review bodies responsible for quality assurance, credentials, infection control, patient care assessment (including treatment procedures, blood, drugs, and therapeutics), medical records, health resources management review and identification and prevention of medical or dental incidents and risks.

"(2) The term 'medical quality assurance record' means the proceedings, records, minutes, and reports that emanate from quality assurance program activities described in paragraph (1) and are produced or compiled by the Department of Defense as part of a medical quality assurance program.

"(3) The term 'health care provider' means any military or civilian health care professional who, under regulations of a military department, is granted clinical practice privileges to provide health care services in a military medical or dental treatment facility or who is licensed or certified to perform health care services by a governmental board or agency or professional health care society or organization.

"(k) Any person who willfully discloses a medical quality assurance record other than as provided in this section, knowing that such record is a medical quality assurance record, shall be fined not more than $3,000 in the case of a first offense and not more than $20,000 in the case of a subsequent offense.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter is amended (as amended by sections 701 and 702) by adding at the end the following new item:

"1097. Confidentiality of medical quality assurance records: qualified immunity for participants.".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to all records created before, on, or after the date of the enactment of this Act by or for the Department of Defense as part of a medical quality assurance program.

SEC. 704. AUTHORIZATION OF FUNDS FOR DENTAL INSURANCE PROGRAM

(a) AUTHORIZATION OF FUNDS FOR FISCAL YEAR 1987.—There are authorized to be appropriated for fiscal year 1987 not more than $18,000,000 for the purpose of providing a dental insurance program for dependents of active duty military personnel.

(b) PROGRAM REQUIREMENTS.—Notwithstanding subsection (a) or any other provision of law, none of the funds appropriated pursuant to an authorization in this Act may be used by the Department of Defense for the purpose of providing dental insurance for dependents of active duty military personnel unless such program of insurance—

(1) provides for voluntary enrollment of dependents of active duty military personnel;

(2) provides coverage for 100 percent of charges for preventive, diagnostic, and emergency services;

(3) provides coverage for at least 80 percent of charges for composite and amalgam fillings and dental appliance repair services;

(4) is available to families of active duty military personnel at a premium cost of not more than $10 per month per family;

(5) is structured so that the Department of Defense does not pay more than 60 percent of the total program costs; and

(6) is structured so that the total costs to the Department of Defense do not exceed an annual cost of $105,000,000 (in fiscal year 1986 dollars).

SEC. 705. ACQUISITION OF COMPOSITE HEALTH CARE SYSTEM

(a) Section 1203 of the Department of Defense Authorization Act, 1986 (Public Law 99-145) is repealed.

(b) The Secretary of Defense shall immediately undertake the acquisition of the

Composite Health Care System utilizing the acquisition strategy described in Department of the Army Request for Proposal Number DAH 26-85-R-0009.

TITLE VIII—MILITARY JUSTICE

SEC. 801. SHORT TITLE; REFERENCES TO UNIFORM CODE OF MILITARY JUSTICE

(a) SHORT TITLE.—This title may be cited as the "Military Justice Amendments of 1986".

(b) REFERENCES TO UCMJ.—Except as otherwise expressly provided in this title, whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of chapter 47 of title 10, United States Code (the Uniform Code of Military Justice).

SEC. 802. LACK OF MENTAL RESPONSIBILITY AS A DEFENSE IN CRIMINAL OFFENSES

(a) IN GENERAL.—Subchapter VII is amended by inserting after section 850 (article 50) the following new section (article):

"§ 850a. Art. 50a. Defense of lack of mental responsibility

"(a) It is an affirmative defense in a trial by court-martial that, at the time of the commission of the acts constituting the offense, the accused, as a result of a severe mental disease or defect, was unable to appreciate the nature and quality or the wrongfulness of the acts. Mental disease or defect does not otherwise constitute a defense.

"(b) The accused has the burden of proving the defense of lack of mental responsibility by clear and convincing evidence.

"(c) Notwithstanding section 852 of this title (article 52), the accused must be found not guilty under this section if—

"(1) a majority of the members of the court-martial present at the time the vote is taken determines that the defense of lack of mental responsibility has been established; or

"(2) in the case of a court-martial composed of a military judge only, the military judge determines that the defense of lack of mental responsibility has been established.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such subchapter is amended by inserting after the item relating to section 850 (article 50) the following new item:

"850a. 50a. Defense of lack of mental responsibility.".

(c) EFFECTIVE DATE.—Section 850a of title 10, United States Code, as added by subsection (a), shall apply only to offenses committed on or after the date of the enactment of this Act.

SEC. 803. APPLICATION FOR ENLISTED MEMBERS TO SERVE ON COURT-MARTIAL

(a) IN GENERAL.—Section 825(c)(1) (article 25(c)(1)) is amended by striking out "has requested in writing" in the first sentence and inserting in lieu thereof "has requested orally on the record or in writing".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply only in cases in which arraignment has been completed on or after the effective date provided in section 808 of this Act.

SEC. 804. AUTHORITY OF RESERVE MEMBERS TO ADMINISTER OATHS

(a) IN GENERAL.—Section 936 (article 136) is amended by inserting "or performing inactive-duty training" in subsections (a) and (b) after "active duty".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on the date of the enactment of this Act.

SEC. 805. STATUTE OF LIMITATIONS

(a) REVISION OF STATUTE OF LIMITATION.—Subsections (a), (b), and (c) of section 843 (article 43) are amended to read as follows:

"(a) A person charged with absence without leave in time of war or missing movement in time of war, or with any offense punishable by death, may be tried and punished at any time without limitation.

"(b)(1) Except as otherwise provided in this section (article), a person charged with an offense is not liable to be tried by court-martial if the offense was committed more than five years before the receipt of sworn charges and specifications by an officer exercising summary court-martial jurisdiction over the command.

"(2) A person charged with an offense is not liable to be punished under section 815 of this title (article 15) if the offense was committed more than two years before the imposition of punishment.

"(c) Periods in which the accused is absent without authority or fleeing from justice shall be excluded in computing the period of limitation prescribed in this section (article).".

(b) TIME FOR REINSTATEMENT OF CHARGES.—Such section (article) is further amended by adding at the end the following new subsection:

"(g) If charges or specifications are dismissed as defective or insufficient for any cause and the period prescribed by the applicable statute of limitations—

"(1) has expired; or

"(2) will expire within 180 days after the date of the dismissal of the charges or specifications,

trial and punishment under new charges and specifications are not barred by a statute of limitations if new charges and specifications are received by an officer exercising summary court-martial jurisdiction over the command within 180 days after the date of the dismissal of the charges or specifications and the new charges and specifications allege the same acts or omissions that were alleged in the dismissed charges or specifications or allege acts or omissions that were included in the dismissed charges or specifications.".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply only to offenses committed on or after the date of the enactment of this Act.

SEC. 806. TIME FOR DEFENSE POST-TRIAL SUBMISSIONS

(a) SIMPLIFICATION OF TIME FOR SUBMISSION.—Subsection (b) of section 860 (article 60) is amended—

(1) by striking out paragraph (3);

(2) by redesignating paragraph (2) as paragraph (3) and inserting a comma in that paragraph after "case"; and

(3) by striking out paragraph (1) and inserting in lieu thereof the following:

"(1) The accused may submit to the convening authority matters for consideration by the convening authority with respect to the findings and the sentence. Except in a summary court-martial case, such a submission shall be made within 10 days after the accused has been given an authenticated record of trial and, if applicable, the recommendation of the staff judge advocate or legal officer under subsection (d). In a summary court-martial case, such a submission shall be made within 7 days after the sentence is announced.

"(2) If the accused shows that, for good cause, additional time is required for the accused to submit such matters, the convening authority or other person taking action under this section may extend the applicable period under paragraph (1) for not more than an additional 20 days.".

(b) RECOMMENDATIONS OF STAFF JUDGE ADVOCATE.—Subsection (c)(2) of such section is amended by striking out "and, if applicable under subsection (d),".

(c) CONFORMING AMENDMENTS.—Subsection (d) of such section is amended—

(1) in the third sentence, by striking out "who shall have 5 days after the date of receipt in which to submit any matter in response" and inserting in lieu thereof "who may submit any matter in response under subsection (b)"; and

(2) by striking out the fourth sentence.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply in cases in which the sentence is adjudged on or after the effective date provided in section 808.

SEC. 807. DETAIL OF JUDGE ADVOCATES

(a) REPRESENTATION OF UNITED STATES INTERESTS.—Section 806(a) (article 6(a)) is amended by inserting after the second sentence the following: "A judge advocate who is assigned or detailed to perform the functions of a civil office in the Government of the United States under section 973(b)(2)(B) of this title may perform such duties as may be requested by the agency concerned, including representation of the United States in civil and criminal cases.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a)—

(1) shall take effect on the date of the enactment of this Act; and

(2) may not be construed to invalidate an action taken by a judge advocate, pursuant to an assignment or detail under section 973(b)(2)(B) of title 10, United States Code, before the date of the enactment of this Act.

SEC. 808. EFFECTIVE DATE

The amendments made by sections 803 and 806 of this Act shall take effect on the earlier of—

(1) the last day of the 120-day period beginning on the date of the enactment of this Act; or

(2) the date specified in an Executive order for such amendments to take effect.

TITLE IX—PROCUREMENT IMPROVEMENTS AND OTHER PROCUREMENT MATTERS

SEC. 901. SHORT TITLE

This title may be cited as the "Defense Acquisition Reorganization and Improvements Act of 1986".

PART A—UNDER SECRETARY OF DEFENSE FOR ACQUISITION

SEC. 911. ESTABLISHMENT OF POSITION OF UNDER SECRETARY OF DEFENSE FOR ACQUISITION

(a) IN GENERAL.—Section 135 of title 10, United States Code, is amended to read as follows:

"§ 135. Under Secretaries of Defense: appointment; powers and duties; precedence

"(a) There are two Under Secretaries of Defense, one of whom shall be the Under Secretary of Defense for Acquisition and one of whom shall be the Under Secretary of Defense for Policy. The Under Secretaries of Defense shall be appointed from civilian life by the President, by and with the advice and consent of the Senate.

"(b)(1) The Under Secretary of Defense for Acquisition shall be a person who is well qualified by reason of education, training,

and experience in industry. He shall perform such duties and exercise such powers relating to acquisition as the Secretary of Defense may prescribe, including—

"(A) supervising the performance of the entire Department of Defense acquisition system;

"(B) establishing all policies for acquisition, procurement, research and development, logistics, testing, contract audit, and contract administration for all entities of the Department of Defense;

"(C) establishing all policies for maintenance of the defense industrial base of the United States;

"(D) serving as the acquisition executive of the Department of Defense;

"(E) serving as the senior procurement executive of the Department of Defense (as provided in section 16 of the Office of Federal Procurement Policy Act (41 U.S.C. 414(3));

"(F) supervising all personnel (civilian and military) in the Office of the Secretary of Defense with regard to matters for which the Under Secretary has responsibility, unless otherwise provided by law; and

"(G) the authority to direct the Secretaries of the military departments and the heads of all other entities of the Department of Defense with regard to matters for which the Under Secretary has responsibility.

"(2) The Under Secretary of Defense for Policy shall perform such duties and exercise such powers as the Secretary of Defense may prescribe.

"(c)(1)(A) The Under Secretary of Defense for Acquisition takes precedence in the Department of Defense with regard to—

"(i) all matters for which he has responsibility as set forth by law, and

"(ii) all matters for which he has responsibility as prescribed by the Secretary of Defense,

after the Secretary of Defense and the Deputy Secretary of Defense.

"(B) In all matters not described in subparagraph (A), the Under Secretary of Defense for Acquisition takes precedence in the Department of Defense after the Secretary of Defense, the Deputy Secretary of Defense, and the Secretaries of the military departments.

"(2) The Under Secretary of Defense for Policy takes precedence in the Department of Defense after the Secretary of Defense, the Deputy Secretary of Defense, the Secretaries of the military departments, and the Under Secretary of Defense for Acquisition.".

(b) EXECUTIVE SCHEDULE II PAY GRADE FOR UNDER SECRETARY OF DEFENSE FOR ACQUISITION.—Section 5313 of title 5, United States Code, is amended by adding at the end the following new item:

"Under Secretary of Defense for Acquisition.".

SEC. 912. ESTABLISHMENT OF POSITION OF DEPUTY UNDER SECRETARY OF DEFENSE FOR ACQUISITION

Chapter 4 of title 10, United States Code, is further amended by inserting after section 135 the following new section:

"§ 135a. Deputy Under Secretary of Defense for Acquisition

"There is a Deputy Under Secretary of Defense for Acquisition, appointed from civilian life, by the Secretary of Defense. The Deputy Under Secretary of Defense for Acquisition shall perform such duties and exercise such powers with respect to acquisition as the Secretary of Defense may prescribe.".

SEC. 913. ESTABLISHMENT OF POSITION OF DIRECTOR OF DEFENSE RESEARCH AND ENGINEERING

(a) IN GENERAL.—Chapter 4 of title 10, United States Code, is amended by inserting after section 136a the following new section:

"§ 136b. Director of Defense Research and Engineering

"(a) There is a Director of Research and Engineering in the Department of Defense, appointed from civilian life by the President, by and with the advice and consent of the Senate.

"(b) The Director of Defense Research and Engineering shall perform such duties relating to research and engineering as the Under Secretary of Defense for Acquisition may prescribe.

"(c) The Director of Defense Research and Engineering shall take precedence in the Department of Defense as prescribed by the Secretary of Defense.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of chapter 4 of such title is amended by adding at the end the following new item:

"136b. Director of Defense Research and Engineering.".

(c) EXECUTIVE SCHEDULE III PAY GRADE FOR UNDER SECRETARY OF DEFENSE FOR POLICY AND DIRECTOR OF DEFENSE RESEARCH AND ENGINEERING.—Section 5314 of title 5, United States Code, is amended by striking out "Under Secretaries of Defense (2)." and inserting in lieu thereof the following:

"Under Secretary of Defense for Policy.

"Director of Defense Research and Engineering.".

SEC. 914. DIRECTOR OF OPERATIONAL TEST AND EVALUATION TO REPORT TO UNDER SECRETARY OF DEFENSE FOR ACQUISITION

Section 136a of title 10, United States Code, is amended—

(1) in subsection (b)—

(A) by striking out "Secretary of Defense" in the matter preceding clause (1) and inserting in lieu thereof "Under Secretary of Defense for Acquisition";

(B) in clauses (1), (2), and (6), by striking out "Secretary of Defense" and inserting in lieu thereof "Under Secretary of Defense for Acquisition"; and

(C) in clause (5), by striking out "Secretary of Defense and to" and inserting in lieu thereof "Secretary of Defense, the Under Secretary of Defense for Acquisition, and";

(2) by striking out subsections (c) and (d) and inserting in lieu thereof the following:

"(c) Each report of the Director required under subsection (b)(5) shall be submitted to the Secretary of Defense, the Under Secretary of Defense for Acquisition, and the Committees on Armed Services and on Appropriations of the Senate and the House of Representatives without intervening review or approval and without any change or revision by any other officer or employee. The Under Secretary of Defense for Acquisition may submit such comments regarding the report as he considers appropriate to the Secretary of Defense and the Committees referred to in the preceding sentence.

"(d) The Director reports directly to the Under Secretary of Defense for Acquisition. The Director shall consult closely with, but the Director and the Director's staff are independent of, the Director of Defense Research and Engineering and all other officers and entities of the Department of Defense responsible for research and development.";

(3) in subsection (f)(2), by inserting "and the Under Secretary of Defense for Acquisition" after "Secretary of Defense"; and

(4) in subsection (g)(1)—

(A) by inserting ", through the Under Secretary of Defense for Acquisition," after "concurrently" in the second sentence; and

(B) by striking out "Secretary" in the last sentence and inserting in lieu thereof "Under Secretary of Defense for Acquisition".

SEC. 915. AMENDMENT TO THE SMALL BUSINESS ACT

Section 15(k)(3) of the Small Business Act (15 U.S.C. 644(k)(3)) is amended by inserting ", except in the case of the Department of Defense the Director of the office of Small and Disadvantaged Business shall be responsible only to, and report directly to, the Under Secretary of Defense for Acquisition".

PART B—MANAGEMENT AND AUTHORIZATION PROCEDURES FOR CERTAIN ACQUISITION PROGRAMS

SEC. 921. DEFENSE ENTERPRISE PROGRAMS

(a) IN GENERAL.—Part IV of subtitle A of title 10, United States Code, is amended by inserting after chapter 131 the following new chapter:

"CHAPTER 132—DEFENSE ENTERPRISE PROGRAMS

"Sec.
"2221. Definitions.
"2222. Defense enterprise programs; designation and management of programs.
"2223. Defense enterprise program managers.
"2224. Defense enterprise program staff.
"2225. Milestone authorizations.

"§ 2221. Definitions

"In this chapter:

"(1) 'Agency' means an agency named in clause (1), (2), (3), or (4) of section 2303(a) of this title.

"(2) 'Defense enterprise program' is any defense acquisition program designated as a defense enterprise program by the head of an agency under section 2222 of this title.

"(3) 'Head of an agency' means the Secretary of the Army, the Secretary of the Navy, and the Secretary of the Air Force.

"§ 2222. Defense enterprise programs; designation and management of programs

"(a) The head of an agency, with the approval of the Secretary of Defense, may designate any defense acquisition program conducted by such agency as a defense enterprise program.

"(b)(1) A defense enterprise program shall be managed by a program manager appointed as provided in section 2223 of this title.

"(2)(A) A defense enterprise program manager of an agency shall report to and be subject to the authority, direction, and control of the acquisition executive of the agency or his delegate who meets the requirements under subparagraph (B). A defense enterprise program manager shall not be subject to or be required to report to any other officer or employee of the agency.

"(B) An acquisition executive may delegate his functions under subparagraph (A) only to a person who is (i) subject to the authority, direction, and control of the acquisition executive, and (ii) reports only to such acquisition executive on defense enterprise programs.

"(c)(1) Except as specified by the acquisition executive of the agency, a defense enterprise program shall not be subject to any

regulation, policy, directive, or administrative rule or guideline relating to the acquisition activities of the Department of Defense other than the Federal Acquisition Regulation and the Department of Defense supplement to the Federal Acquisition Regulation.

"(2) Paragraph (1) shall not be construed to limit or modify the application of Federal legislation relating to the acquisition activities of the Department of Defense.

"§ 2223. Defense enterprise program managers

"(a) The head of an agency conducting a defense enterprise program shall appoint a program manager for such program.

"(b)(1) The head of an agency shall select for appointment as a defense enterprise program manager a person from among (A) civilian employees of the agency who meet the requirements of paragraph (2), or (B) members of the armed forces who meet such requirements.

"(2) To be eligible for appointment as a defense enterprise program manager, a person shall have had (at the time of his appointment) at least 8 years of experience in acquisition, support, and maintenance of weapon systems.

"(3) A member of the armed forces who meets the requirements of paragraph (2) may be selected to serve as a defense enterprise program manager without regard to the grade of the member or any administrative policy relating to the duty assignments of members of the armed forces.

"(c)(1) The term of service of a defense enterprise program manager shall be not less than—

"(A) 4 years; or

"(B) the period beginning on the date of the appointment and ending on the first date (after such date of appointment) on which the defense enterprise program reaches a milestone established for the program by the defense systems acquisition review council or a similar review board,

whichever period is shorter.

"(2) A defense enterprise program manager of an agency may be removed by the head of the agency only for inadequate job performance, misconduct, or to be appointed defense enterprise program manager of a more important or higher priority defense enterprise program (as determined by the head of such agency).

"(d)(1) Under regulations prescribed by the Secretary of Defense, the person to whom a defense enterprise program manager reports pursuant to section 2222(b)(2) of this title shall evaluate the job performance of such manager each year.

"(2) In evaluating the performance of a defense enterprise program manager, the person making the evaluation shall take into consideration (A) the extent to which the manager has been able to achieve the objectives of the program for which the manager is responsible, including quality, timeliness, and cost objectives, and (B) comments (if any) received pursuant to paragraph (3).

"(3) Under regulations prescribed by the Secretary of Defense, each officer or employee of an agency and each member of the armed forces who, except for section 2222(b)(2) of this title, would supervise a defense enterprise program manager, would receive reports from such manager on the program managed by such manager, or would have the authority to approve or disapprove the decisions of such manager regarding the conduct of the program may submit comments on the performance of such manager to the person evaluating such manager.

"§ 2224. Defense enterprise program staff

"(a)(1) The manager of a defense enterprise program may establish a senior staff to assist in the management of the program. The manager may select the members of the senior staff from among employees of an agency and members of the armed forces.

"(2) A member of the armed forces selected for a position in the senior staff of a defense enterprise program shall be assigned to such position without regard to any administrative policy relating to the assignment of members of the armed forces.

"(b) The manager of a defense enterprise program may appoint a technical staff, including experts in business management, contracting, auditing, engineering, testing, and logistics.

"§ 2225. Milestone authorizations

"(a)(1) Not later than 90 days after the date on which a defense acquisition program is designated a defense enterprise program, the Secretary of Defense shall—

"(A) submit to Congress a program management baseline (as provided in subsection (b)) for the current acquisition phase of such program that is uncompleted on the date of the submission of the report; and

"(B) request from Congress the authority to obligate, in the fiscal year or years following the fiscal year in which such report is submitted, funds required to complete such phase.

"(2) For each subsequent acquisition phase of the defense enterprise program, the Secretary of Defense shall (A) submit a program management baseline for such phase at the same time the President submits the budget under section 1105(a) of title 31 for the fiscal year in which the new acquisition phase is to begin, and (B) request authority to obligate the funds required to complete such new phase for such fiscal year and for each subsequent fiscal year during which such phase is to be conducted.

"(b) For each acquisition phase described in paragraphs (1), (2), and (3), a program management baseline shall contain the following information described for the phase:

"(1) For the development phase before full-scale engineering development:

"(A) A schedule of development milestones.

"(B) The development costs of such phase, by fiscal year.

"(2) For the full-scale engineering development phase:

"(A) A schedule of development milestones.

"(B) The development costs of such phase, by fiscal year.

"(C) The performance goals for the system under development and the technical characteristics and configuration of such system.

"(3) For the procurement phase:

"(A) A schedule of procurement milestones.

"(B) The procurement costs, by fiscal year.

"(C) The performance goals for the system under procurement and the technical characteristics and configuration of such system.

"(D) The quantity of the system to be procured each fiscal year.

"(c) If Congress authorizes the appropriation of funds for completion of an acquisition phase of the defense enterprise program for which a program baseline has been submitted, the Secretary of Defense may, without further authorization, obligate such funds as are appropriated for the completion of that phase.

"(d)(1) If the manager of a defense enterprise program determines at any time during an acquisition phase that there is reasonable cause to believe that—

"(A) such acquisition phase cannot be completed with the funds authorized for such phase;

"(B) any milestone identified in the program management baseline cannot be accomplished within 270 days after the date specified for that milestone in the baseline; or

"(C) the performance or technical characteristics or the configuration of the system under acquisition is significantly different from the performance goals, technical characteristics, or configuration specified in such baseline,

the manager shall immediately submit a performance deficiency report for such program to the acquisition executive of the agency responsible for the program.

"(2) Upon receiving a performance deficiency report under paragraph (1), an acquisition executive of an agency shall immediately transmit a copy of the report to the head of the agency.

"(e)(1) Within 30 days after the date on which an acquisition executive of an agency receives a performance deficiency report on a defense enterprise program, the head of such agency shall conduct and complete a review of the program.

"(2)(A) Within 45 days after the date referred to in paragraph (1), the head of the agency shall notify the Secretary of Defense of the performance deficiency report and the results of the review conducted under paragraph (1).

"(B) If the review of the defense enterprise program required by paragraph (1) confirms any determination described in subsection (d)(1), the Secretary of Defense shall, within 60 days after the date referred to in paragraph (1), notify Congress of the performance deficiency report. The Secretary of Defense shall state in the notification whether or not he intends to continue the program. If the Secretary decides to continue the program he shall—

"(i) convene a board to formally review the program;

"(ii) submit a revised program management baseline for the defense enterprise program at the same time the President submits a budget under section 1105(a) of title 31 for the next fiscal year; and

"(iii) submit with the revised program management baseline referred to in clause (ii) the recommendations of the review board which was convened pursuant to clause (i).

"(C) If the Secretary of Defense is required to notify Congress of a performance deficiency report on a defense enterprise program under subparagraph (B) and the Secretary determines that it is necessary to continue to obligate funds for such program in order to preserve the option to continue the program in a subsequent fiscal year or years, the Secretary shall certify that determination in the notification to Congress.".

(b) CONFORMING AMENDMENT.—The table of chapters at the beginning of subtitle A and at the beginning of part IV of such subtitle is amended by inserting after the item relating to chapter 131 the following new item:

"132. Defense Enterprise Programs ..... 2221".

PART C—PRIVATE EMPLOYMENT CONTACTS BY CERTAIN SENIOR DEPARTMENT OF DEFENSE OFFICIALS

SEC. 931. PROHIBITION OF CERTAIN PRIVATE EMPLOYMENT CONTACTS

(a) IN GENERAL.—Chapter 141 of title 10, United States Code, is amended by inserting after section 2397a the following new section:

"§ 2397b. Prohibition of private employment contacts between certain Department of Defense officials and defense contractors

"(a) In this section:

"(1) 'Covered senior defense official' means—

"(A) the Secretary of Defense;

"(B) the Deputy Secretary of Defense;

"(C) the Under Secretary of Defense for Acquisition;

"(D) the Director of Defense Research and Engineering;

"(E) the Assistant Secretary of Defense for Acquisition and Logistics;

"(F) the Secretary of the Army;

"(G) the Secretary of the Navy;

"(H) the Secretary of the Air Force;

"(I) the under secretary of each military department;

"(J) the Assistant Secretary of the Army for Research, Development and Acquisition;

"(K) the Assistant Secretary of the Navy for Shipbuilding and Logistics;

"(L) the Assistant Secretary of the Navy for Research, Engineering, and Systems;

"(M) the Assistant Secretary of the Air Force for Research, Development, and Logistics; and

"(N) any other official in the Department of Defense who is appointed by the President to a position which has been designated by the President for purposes of this section in an executive order issued not less than 180 days before the date on which the official is appointed to such position by the President.

"(2) 'Defense contractor' has the same meaning provided in section 2397(a)(2) of this title.

"(3) 'Employment' has the same meaning provided in section 2397a(a)(5) of this title.

"(b) A covered senior defense official may not contact a defense contractor regarding future employment opportunities with the defense contractor.

"(c) A covered senior defense official shall immediately terminate any contact made by a defense contractor with the official regarding future employment opportunities with the defense contractor.

"(d)(1) Except as provided in paragraph (3), a covered senior defense official who, at the time of terminating Federal Government employment, has served in the position of such official for a period of not less than 24 consecutive months immediately preceding the date of the termination shall be entitled to receive as severance pay the lesser of—

"(A) the amount determined under paragraph (2); or

"(B) the greater of—

"(i) the amount determined by multiplying the number of days between the date on which the covered senior defense official terminates such employment and the date on which he commences employment outside the Federal Government by the daily equivalent of the annual rate of basic pay for the position of the covered senior defense official on the day before the termination of his Federal Government employment; or

"(ii) an amount equal to one-twelfth of the annual rate of basic pay for the position of the covered senior defense official on the day before the termination of his Federal Government employment.

"(2) The amount referred to in paragraph (1)(A) is—

"(A) in the case of a covered senior defense official who has served in his position for at least 2 consecutive 12-month periods, but less than 3 consecutive 12-month periods, the amount equal to one-fourth of the annual rate of basic pay for such position on the day before the termination of his Federal Government employment;

"(B) in the case of a covered senior defense official who has served in the position of such official for at least 3 consecutive 12-month periods, but less than 4 consecutive 12-month periods, the amount equal to one-third of the annual rate of basic pay for such position on the day before the termination of his Federal Government employment; and

"(C) in the case of a covered senior defense official who has served in the position of such official for at least 4 consecutive 12-month periods, the amount equal to five-twelfths of the annual rate of basic pay for such position on the day before the termination of his Federal Government employment.

For the purpose of this paragraph, if the service of a person in the position of a covered senior defense official is terminated (voluntarily or involuntarily) by reason of a change of Presidents, as determined by the Director of the Office of Management and Budget, and the number of months of service as such an official is not divisible by 12, the number of months of such service shall be increased to the next higher number of months that is divisible by 12.

"(3) A covered senior defense official shall not be entitled to receive severance pay under this subsection if, on the day after the date of the termination of Federal Government employment, such official will be entitled to retired or retainer pay under this title, other than retired or retainer pay for non-regular service under chapter 67 of this title, or to an annuity under subchapter III of chapter 83 of title 5 or under any other retirement system for Federal Government employees.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 2397a the following new item:

"2397b. Prohibition of private employment contacts between certain Department of Defense officials and defense contractors.".

(c) REPEAL PROVISION.—Section 921 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 693), is repealed.

SEC. 932. REQUIREMENTS RELATING TO CERTAIN PRIVATE EMPLOYMENT CONTACTS

Section 2397a of title 10, United States Code, is amended—

(1) in subsection (a)—

(A) by striking out "any individual" in paragraph (2) and inserting in lieu thereof "a covered senior defense official and any other individual"; and

(B) by inserting at the end the following:

"(7) 'Covered senior defense official' has the same meaning provided in section 2397b(a)(1) of this title."; and

(2) in subsection (b)(1)—

(A) by striking out "the official (except as provided in paragraph (2)) shall" in the matter before clause (A) and by inserting in lieu thereof "or a covered senior defense official makes or receives such a contact from a defense contractor (or an agent of such contractor) regarding such an opportunity";

(B) by inserting "the official (except as provided in paragraph (2)) shall" in clause (A) after "(A)"; and

(C) by inserting "except in the case of a covered senior defense official, the official shall," after "(B)" in clause (B).

SEC. 933. PROHIBITION ON FELONS CONVICTED OF DEFENSE CONTRACT RELATED FELONIES AND PENALTY ON EMPLOYMENT OF SUCH PERSONS BY DEFENSE CONTRACTORS.

Subsection (a) of section 932 of the Department of Defense Authorization Act, 1986 (Public Law 99-145) is amended by—

(1) inserting after "management or supervisory capacity" the following: ", including the capacity of service on the board of directors,"; and

(2) striking out "one year" and inserting in lieu thereof "three years".

PART D—ACQUISITION OF COMMERCIAL AND OTHER DEVELOPED EQUIPMENT AND SUPPLIES

SEC. 941. COMMERCIAL PRICING FOR SPARE OR REPAIR PARTS

(a) IN GENERAL.—Section 2323 of title 10, United States Code, is amended to read as follows:

"§ 2323. Commercial pricing for spare or repair parts

"In this section:

"(1) 'Agency' means an agency named in section 2303(a) of this title.

"(2) 'Spare or repair part' means any individual piece, part, subassembly, or component which is furnished for the logistic support or repair of an end item and not as an end item itself.

"(3) 'Lowest commercial price', with respect to a spare or repair part to be supplied by a contractor, does not include the price for which the contractor sells such part—

"(A) to any person for resale by such person after such person performs some service or function in connection with such part which adds to the cost of the part, unless the agency procuring the part can demonstrate that the agency is procuring the part before such service or function has been performed by any such person;

"(B) to any of the contractor's subsidiaries, affiliates, parent business organizations, or other branches of the same business entity;

"(C) to any person at a price which has been substantially discounted below the fair market or regular price for the purpose of making a donation; or

"(D) to any customer located outside the United States.

"(b) Except in the case of an offer submitted with a written statement and justification under subsection (c)(2) and except as provided in subsection (d), if an agency uses procurement procedures other than competitive procedures to award a contract for the purchase of spare or repair parts to a contractor who also offers such parts for sale to the general public, the price charged the United States for such parts under the contract may not exceed the lowest commercial price charged by the contractor in sales of such parts to the general public during the period specified in subsection (c)(1).

"(c) In any case in which a contractor submits an offer to an agency to enter into a contract for the supply of spare or repair parts to that agency, the contract is to be entered into under procurement procedures other than competitive procurement proce-

dures, and the contractor also offers such spare or repair parts to the general public, then the contractor shall be required—

"(1) to certify in the offer that, to the best of the contractor's knowledge and belief, the price offered does not exceed the lowest commercial price at which the contractor sold such parts during the most recent regular monthly, quarterly, or other longer period for which sales data are reasonably available; or

"(2) to submit with the offer a written statement specifying the amount of the difference between its lowest commercial price for the parts and the price offered and providing a justification for that difference.

"(d) Subsections (b) and (c) do not apply to a contract awarded by an agency if the contracting officer determines, in a written finding maintained by the agency for at least 6 years, that the use of the price otherwise required by subsection (b) for such contract is not appropriate because of—

"(1) national security considerations; or

"(2) significant differences in quantity, quality, delivery, or other terms and conditions of the contract from commercial contract terms.

"(e)(1) In order to verify any certificate or statement made in accordance with subsection (c) in connection with a contract for the supply of spare or repair parts, the contracting officer who awards the contract (or any representative of the contracting officer who is an employee of the Federal Government) shall have the right, during the period specified in paragraph (2), to examine and audit all records of sales maintained by or for the contractor that are directly pertinent to the contractor's sales of such spare or repair parts for the period covered by such certificate or statement, including any books, data, or other documents maintained by or for the contractor that are directly pertinent to such sales records.

"(2) During the 3-year period beginning on the date a contractor submits a certificate or statement to an agency pursuant to subsection (c), the contractor shall make available to the contracting officer (or his representative) for examination, audit, or reproduction for the purposes of paragraph (1) all records, books, data, and documents referred to in such paragraph.

"(3) Nothing in this subsection shall require a contractor to disclose or submit data relating to the underlying elements of the prices of commercial products.".

(b) TEMPORARY EXCEPTION TO "LOWEST COMMERCIAL PRICE".—As used in section 2323 of title 10, United States Code (as amended by subsection (a) of this section), during the 1-year period beginning on the date of the implementation of such section 2323, the term "lowest commercial price", with respect to a spare or repair part to be supplied by a contractor, does not include the price for which the contractor sells such part to any agency or instrumentality of the Federal Government.

(c) CONFORMING AMENDMENT.—The item relating to section 2323 in the table of sections at the beginning of chapter 137 of such title is amended to read as follows:

"2323. Commercial pricing for spare or repair parts.".

SEC. 942. REGULATIONS FOR ALLOCATING OVERHEAD TO PARTS TO WHICH THE CONTRACTOR HAS ADDED LITTLE VALUE

Section 1245 of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2609) is amended to read as follows:

"REGULATIONS FOR ALLOCATING OVERHEAD TO PARTS TO WHICH THE CONTRACTOR HAS ADDED LITTLE VALUE

"SEC. 1245. (a) Not later than 180 days after the date of the enactment of the Department of Defense Authorization Act, 1987, the Secretary of Defense shall prescribe by regulation the manner in which the Department of Defense negotiates prices for supplies to be obtained through the use of procedures other than competitive procedures, as defined in section 4(6) of the Office of Federal Procurement Policy Act (41 U.S.C. 403(6)).

"(b) The regulations required by subsection (a) shall—

"(1) specify the incurred overhead a contractor may appropriately allocate to supplies referred to in such subsection; and

"(2) require the contractor to identify those supplies which it did not manufacture or to which it did not contribute significant value.

"(c) The regulations issued pursuant to subsection (a) shall not apply to any items of supply included in contracts or subcontracts for which the price is based on established catalog or market prices of commercial items sold in substantial quantities to the general public.

"(d) This section does not require the submission of cost or pricing data not otherwise required by law to be submitted.".

SEC. 943. REPEAL OF COST AND PRICE MANAGEMENT PROVISIONS

(a) IN GENERAL.—Section 2406 of title 10, United States Code, is repealed.

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of chapter 141 of such title is amended by striking out the item relating to section 2406.

SEC. 944. APPLICATION OF REQUIREMENTS TO MARK SUPPLIES TO IDENTIFY SUPPLIERS AND SOURCES

(a) IN GENERAL.—Section 2384 of title 10, United States Code, is amended—

(1) by redesignating subsection (c) as subsection (d); and

(2) by inserting after subsection (b) the following new subsection (c):

"(c) This subsection shall not apply to any items of supply included in contracts for which the price is based on established catalog or market prices of commercial items sold in substantial quantities to the general public.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect 180 days after the date of the enactment of this Act.

SEC. 945. PROCUREMENT OF NONDEVELOPMENT ITEMS

(a) PRIORITY REQUIREMENT FOR PROCUREMENT OF NONDEVELOPMENT ITEMS.—(1) Chapter 137 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2325. Procurement of nondevelopment items

"(a) In this section, the term 'nondevelopment item' means—

"(1) any item readily available in the commercial marketplace;

"(2) any item developed and in use by another department or agency of the Federal Government; or

"(3) any item described in clause (1) or (2) which requires only minor modification in order to meet the requirements of the procuring department or agency.

"(b) The Secretary of Defense, the Secretary of each military department, and the head of each Defense Agency, when procuring any item for the Department of Defense, shall, to the maximum extent practicable—

"(1) define the requirements for such item so that nondevelopment items may be used to fulfill the requirements; and

"(2) fulfill such requirements through the procurement of nondevelopment items rather than through the procurement of items made or manufactured to Department of Defense specifications.

"(c) The Secretary of Defense shall designate an officer or employee of the Department of Defense to be responsible for ensuring the effective implementation of this section.

"(d) The Secretary of Defense shall prescribe regulations to carry out subsection (b).".

(2) The table of sections at the beginning of chapter 137 of such title is amended by adding at the end the following new item:

"2325. Procurement of nondevelopment items.".

(b) DESIGNATION OF RESPONSIBLE OFFICIAL.—The Secretary of Defense shall make the designation required by section 2325(c) of title 10, United States Code (as added by subsection (a)(1) of this section), not later than 90 days after the date of the enactment of this Act.

(c) REPORT.—(1) The Secretary of Defense shall submit to Congress, not later than one year after the date of the enactment of this Act, a report on the actions that have been taken, including personnel training and changes in regulations and procurement procedures, to implement the requirements of section 2325 of title 10, United States Code (as added by subsection (a)(1) of this section).

(2) The report shall include recommendations for additional legislation that the Secretary considers desirable to increase procurement of nondevelopment items to meet the requirements of the Department of Defense.

SEC. 946. REQUIREMENTS RELATING TO OTHER THAN COMPETITIVE PROCEDURES

(a) CONTRACT FOR PROPERTY OR SERVICES.—Clause (A) of section 2304(d)(1) of title 10, United States Code, is amended by striking out "that demonstrates a unique and innovative concept" and inserting in lieu thereof "that, in the case of a product, demonstrates a unique and innovative concept or, in the case of a service, demonstrates a unique and innovative concept or a unique capability,".

(b) FOLLOW-ON CONTRACTS.—Clause (B) of such section is amended—

(1) by striking out "equipment" and inserting in lieu thereof "equipment, or the continued provision of highly specialized services,"; and

(2) by inserting "or services" after "such property" in subclause (ii).

SEC. 947. EVALUATION FACTORS IN AWARD OF CONTRACTS

Section 2305(a) of title 10, United States Code, is amended by adding at the end the following new paragraph:

"(3) In prescribing the evaluation factors to be included in each solicitation for sealed bids or competitive proposals, the relative importance of the quality of the services to be provided (including technical capability, management capability, and prior experience of the offeror), cost or price factors, and other factors should be clearly established. If, in the case of any contract to be awarded by an agency, the agency determines that the quality of the services,

rather than the cost or price factors or other factors, is the highest priority, the agency should reflect that determination through appropriate weighting and evaluation factors.".

SEC. 948. OFFSETS FOR CONTRACT ADJUSTMENTS RELATING TO DEFECTIVE COST AND PRICING DATA

Section 2306(f)(2) of title 10, United States Code, is amended—

(1) by inserting "(A)" after "(2)"; and

(2) by adding at the end the following new subparagraph (B):

"(B) Cost or pricing data include only that data which are factual and verifiable and do not include judgmental data. No judgmental data or intentional understatement of cost or pricing data may be used as an offset to an adjustment under a contract provision required by subparagraph (A).".

PART E—MISCELLANEOUS PROCUREMENT POLICY MATTERS

SEC. 951. REQUIREMENT FOR A CONTRACTOR TO INFORM THE HEAD OF AN AGENCY THE EXTENT TO WHICH THE CONTRACTOR IS OWNED OR CONTROLLED BY A FOREIGN GOVERNMENT OR AGENT OR INSTRUMENTALITY OF A FOREIGN GOVERNMENT

(a) IN GENERAL.—Chapter 137 of title 10, United States Code (as amended by section 945(a)(1) of this Act), is amended by adding at the end the following new section:

"§ 2326. Disclosure of ownership or control by foreign government

"The head of an agency shall require a firm that submits a bid or proposal in response to a solicitation described in section 2305(a)(1) of this title to disclose in that bid or proposal, on the basis of the firm's best information and belief, whether, and to what extent, all or any part of such firm is owned or controlled by a foreign government or by an agent or instrumentality of a foreign government.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter (as amended by section 945(a)(2) of this Act) is amended by adding at the end the following new item:

"2326. Disclosure of ownership or control by foreign government.".

(c) EFFECTIVE DATE.—The amendment made by subsection (a) shall be effective with respect to solicitations for bids and proposals issued under chapter 137 of title 10, United States Code on and after the date of the enactment of this Act.

SEC. 952. FOREIGN POLICY AND NATIONAL SECURITY CONSIDERATIONS IN DEFENSE CONTRACTING

(a) IN GENERAL.—Chapter 141 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2408. Foreign policy and national security considerations in defense contracting

"(a)(1) An agency named in clause (1), (2), (3), or (4) of section 2303(a) of this title may not enter into, modify, or extend a contract under chapter 137 of this title in an amount in excess of $100,000 with any contractor owned or controlled, in whole or in significant part, by a foreign government or an agent or instrumentality of a foreign government if the head of the agency determines that such contract (or the award, modification, or extension of such contract) is inconsistent with the foreign policy or national security objectives of the United States. Any such determination shall be made with the concurrence of the Secretary of State.

"(2) In making a determination under paragraph (1), the head of the agency shall consider, among other things, the following:

"(A) The relationship of the United States with the foreign government and with the agent or instrumentality, if any, of a foreign government referred to in paragraph (1).

"(B) The obligations of the United States under international agreements.

"(C) The extent of the ownership and control of the contractor by the foreign government or the agent or instrumentality.

"(D) Whether proceeds of or payments under the contract or proposed contract or information which would be made available to the contractor under the contract could be used for purposes inimical to the interests of the United States.

"(3) The head of the agency shall report to Congress regarding his determination to deny a contract award, modification, or extension under the authority of paragraph (1). The report shall identify the foreign government, the agent (if any) or instrumentality (if any) of such foreign government, the nature of the contract, and the reasons for denying the contract award, modification, or extension.

"(b)(1) Before an agency referred to in subsection (a)(1) enters into, modifies, or extends a contract with a contractor owned or controlled, in whole or in significant part, by a foreign government (or an agent or instrumentality of a foreign government) that the Secretary of State has determined, pursuant to section 6(j) of the Export Administration Act of 1979 (50 U.S.C. App. 2405(j)), has repeatedly provided support for acts of international terrorism, the head of the agency shall submit to Congress a report on the proposed contract, modification, or extension, as the case may be. The head of the agency shall include in such report the identity of the foreign government, agent, or instrumentality, as the case may be, the nature of the contract, modification, or extension, as the case may be, the extent of ownership or control of the foreign government, agent, or instrumentality, and the reasons for the agency entering into, modifying, or extending the contract.

"(2) After the head of an agency has submitted a report to Congress pursuant to paragraph (1) with regard to a contractor, the head of the agency is not required to submit an additional report before entering into any subsequent contract with such contractor or before modifying or extending a contract with such contractor unless the information required to be reported by such paragraph is materially different from the information previously submitted.

"(c) The Secretary of Defense, in consultation with the Secretary of State, shall prescribe regulations to carry out this section. Section 22 of the Office of Federal Procurement Policy Act (41 U.S.C. 418b) shall not apply to such regulations.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of chapter 141 of such title is amended by inserting at the end the following new item:

"2408. Foreign policy and national security considerations in defense contracting.".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect with respect to contracts awarded, modified, or extended on or after the date of the enactment of this Act.

SEC. 953. RIGHTS RELATING TO THE USE, RELEASE, AND DISCLOSURE OF TECHNICAL DATA

(a) RIGHTS IN TECHNICAL DATA.—Subsection (a) of section 2320 of title 10, United States Code, is amended to read as follows:

"(a)(1) The Secretary of Defense shall prescribe regulations to define the legitimate interest of the United States and of a contractor or subcontractor in technical data pertaining to a product or process. Such regulations shall be included in regulations of the Department of Defense prescribed as part of the Federal Acquisition Regulation. Such regulations may not impair any right of the United States or of any contractor or subcontractor with respect to patents or copyrights or any other right in technical data otherwise established by law.

"(2) Such regulations shall include the following provisions:

"(A) In the case of a product or process that is developed by a contractor or subcontractor exclusively with Federal funds, the United States shall have the unlimited right to use, release, or disclose technical data pertaining to the product or process.

"(B) In the case of a product or process that is developed by a contractor or subcontractor exclusively at private expense, the contractor or subcontractor may limit the right of the Government to use, (for other than internal operations and maintenance purposes), release, or disclose to persons outside the Government technical data pertaining to the product or process.

"(C) Notwithstanding subparagraph (B), the Government may use, release, or disclose technical data pertaining to a product or process to persons outside the Government if such technical data is otherwise publicly available or if—

"(i) such use, release, or disclosure—

"(I) is necessary for emergency repair and overhaul; or

"(II) is a use, release, or disclosure to a foreign government that is in the interest of the United States and is required for evaluational or informational purposes;

"(ii) such use, release, or disclosure is made subject to a prohibition that the person to whom the data is released or disclosed may not further use, release, or disclose such data; and

"(iii) the contractor or subcontractor asserting the restriction is notified of such use, release, or disclosure.

"(D) In the case of a product or process that is developed in part with Federal funds and in part at private expense, rights in technical data pertaining to such product or process shall be negotiated as early in the acquisition process as practicable (preferably during contract negotiations), based upon consideration of the following factors:

"(i) The statement of congressional policy and objectives in section 200 of title 35, the statement of purposes in section 2(b) of the Small Business Innovation Development Act of 1982 (15 U.S.C. 638 note), and the declaration of policy in section 2 of the Small Business Act (15 U.S.C. 631).

"(ii) The interest of the United States in increasing competition and lowering costs by developing and locating alternative sources of supply and manufacture.

"(iii) The interest of the United States in encouraging contractors to develop at private expense items for use by the Government.

"(E) A contractor or subcontractor, or a prospective contractor or subcontractor, that develops a product or process exclusive-

ly at private expense may not be required, as a condition of being responsive to a solicitation or as a condition for the award of a contract, to sell or otherwise relinquish to the United States any rights in technical data that would permit the use by, or release or disclosure of, such data to persons outside the Government except under the conditions described in paragraph (2)(C).

"(F) The Secretary of Defense may—

"(i) negotiate with a contractor or subcontractor to contract for the acquisition of rights in technical data pertaining to a product or process developed by such contractor or subcontractor exclusively at private expense if necessary to develop alternative sources of supply and manufacture; or

"(ii) agree to limit rights of the United States in technical data pertaining to a product or process developed entirely or in part with Federal funds if the United States receives a royalty-free license to use, release, or disclose the data for purposes of the United States (including purposes of competitive procurement).

"(2) In this subsection, the term 'Federal Acquisition Regulation' means the single system of Government-wide procurement regulations as defined in section 4(4) of the Office of Federal Procurement Policy Act (41 U.S.C. 403(4)).".

(b) VALIDATION OF PROPRIETARY DATA RESTRICTIONS.—Section 2321 of title 10, United States Code, is amended—

(1) in subsection (a)(2), by inserting ", at any time before the end of the 3-year period beginning on the date the final payment is made on the contract," after "may review"; and

(2) in subsection (b)—

(A) by inserting "specific" after "state the" in clause (1);

(B) by striking out "and" at the end of clause (1);

(C) by striking out the period at the end of clause (2) and inserting in lieu thereof "; and"; and

(D) by adding at the end the following new clause:

"(3) state that evidence of acceptance by any Federal agency of a restriction identical to the asserted restriction within the 3-year period preceding the challenge shall serve as justification for the asserted restriction if—

"(A) the acceptance occurred after a review of the accepted restriction under this section; and

"(B) the accepted restriction was asserted by the same contractor or subcontractor to whom such notice is being provided.".

(c) CONFORMING AMENDMENTS.—Section 1202 of the Department of Defense Authorization Act, 1985 (10 U.S.C. 2301 note), is amended—

(1) by inserting "and" at the end of paragraph (4);

(2) by striking out "; and" at the end of paragraph (5) and inserting in lieu thereof a period; and

(3) by striking out paragraph (6).

(d) DEADLINE FOR REVISION OF REGULATIONS.—The regulations required by section 2320(a)(1) of title 10, United States Code (as amended by subsection (a)), shall be prescribed not later than 180 days after the date of the enactment of this Act.

SEC. 954. GOALS FOR INCREASED USE OF MULTIYEAR CONTRACTING AUTHORITY IN FISCAL YEAR 1988

(a) IN GENERAL.—The Secretary of Defense shall take appropriate actions to ensure that the Department of Defense increases the use of multiyear contracting authority in fiscal year 1988.

(b) MULTIYEAR PROCUREMENT GOAL.—The total amount obligated under multiyear contracts (authorized by section 2306(h) of title 10, United States Code) for Department of Defense procurement program eligible for multiyear contracting during fiscal year 1988 should be an amount that is not less than 10 percent of the total obligational authority used by the Department of Defense for procurement programs of the Department during such fiscal year.

(c) APPORTIONMENT OF GOAL.—The Secretary of Defense shall specify the percentage of obligational authority of each military department and Defense Agency that is to be used for multiyear contracts to achieve the goal prescribed in subsection (b).

(d) BASELINE REPORT.—Not later than January 1, 1987, the Secretary of Defense shall submit to the Committees on Armed Services and on Appropriations of the Senate and the House of Representatives a written report which contains (1) a list of all procurement programs which the Secretary determines to be Defense SAR procurement programs eligible for multiyear contracting, (2) the Secretary's assessment of the feasibility and desirability of the multiyear procurement goal prescribed in subsection (b), and (3) whether the Secretary expects to achieve the goal prescribed in subsection (b) for fiscal year 1988 and, if the Secretary does not expect to achieve such goal, the reasons why such goal will not be achieved.

(e) DEFINITIONS.—As used in this section:

(1) The term "SAR" means Selected Acquisition Report as defined in section 139a(b)(1) of title 10, United States Code.

(2) The term "Defense procurement program eligible for multiyear contracting" means a procurement program of the Department of Defense (A) which satisfies the conditions of clauses (A) through (F) of section 2306(h)(1) of title 10, United States Code, and (B) under which production of fully configured end items is planned for a period exceeding 3 fiscal years.

TITLE X—DEPARTMENT OF DEFENSE EFFICIENCY AND ECONOMY MATTERS

SEC. 1001. SHORT TITLE

This title may be cited as the "Department of Defense Efficiency and Economy Act of 1986".

SEC. 1002. APPLICATION OF THE DAVIS-BACON ACT TO MILITARY CONSTRUCTION CONTRACTS

(a) IN GENERAL.—Subsection (a) of the first section of the Act entitled "An Act relating to the rate of wages for laborers and mechanics employed on public buildings of the United States and the District of Columbia by contractors and subcontractors, and for other purposes", approved March 3, 1931 (40 U.S.C. 276a(a)), commonly known as the Davis-Bacon Act, is amended—

(1) by inserting "(1)" after "(a)";

(2) by inserting "or, in the case of contracts awarded by the Department of Defense, every contract in excess of $250,000" after "$2,000" in the first sentence; and

(3) by adding at the end the following new paragraph:

"(2) A person contracting on behalf of the United States or the District of Columbia may not divide projects for construction, alteration, or repair into contracts of less than $250,000 for the purpose of avoiding the application of this Act to such contracts.".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply to solicitations for bids or proposals made on and after the date of the enactment of this Act.

SEC. 1003. INCREASE IN THRESHHOLD APPLICABLE TO STATUTORY CONTRACTING-OUT PROCEDURES

(a) IN GENERAL.—Section 502(d) of the Department of Defense Authorization Act, 1981 (10 U.S.C. 2304 note) is amended by striking out "40 or fewer" and inserting in lieu thereof "50 or fewer".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on January 1, 1987.

SEC. 1004. CONTRACTING OUT THE PERFORMANCE OF CERTAIN DEPARTMENT OF DEFENSE FUNCTIONS

(a) IN GENERAL.—Notwithstanding any other provision of law and except as provided in subsection (b), the Department of Defense shall procure from a private sector source each supply and service necessary for or beneficial to the accomplishment of the Department's authorized functions (other than military functions performed by the military departments) if a private sector source can provide such supply or service to the Department at a cost that is lower than the cost at which the Department can provide the same supply or service.

(b) EXCEPTIONS.—(1) Subsection (a) shall not apply to—

(A) firefighting functions until after September 30, 1987, and such functions may not be contracted out to the private sector before that date; or

(B) core logistics functions—

(i) identified by the Secretary of Defense pursuant to section 307 of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2514); or

(ii) specified in section 1231 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 731).

(2) The prohibition on contracting out firefighting functions before September 30, 1987, under paragraph (1)(A) shall not apply to a contract described in section 1221(b) of the Department of Defense Authorization Act, 1984 (Public Law 98-94; 97 Stat. 691).

(c) REPORTS.—Not later than January 15, 1987, the Secretary of Defense and the Administrator of the United States Fire Administration shall each submit to the Committees on Armed Services of the Senate and the House of Representatives a report on the contracting out of firefighting functions, including the following information:

(1) Standards required to perform the activities of the firefighting functions, for activities performed by the Department of Defense personnel and by private contract.

(2) Determinations of those activities within the firefighting function that are inherently governmental and those that are not.

(3) A cost estimate of the savings, if any, over a five-year period that would be realized from contracting out those activities within the firefighting function not determined to be inherently governmental.

SEC. 1005. REALISTIC AND FAIR COST COMPARISONS IN DETERMINATIONS RELATING TO CONTRACTING OUT THE PERFORMANCE OF CERTAIN DEPARTMENT OF DEFENSE FUNCTIONS

For the purpose of determining whether to contract with private sector sources for the performance of any Department of Defense function on the basis of a comparison of the costs of procuring supplies or services from such sources with the costs of providing the same supplies or services by the Department of Defense, the Secretary of Defense should ensure that all costs considered, including the costs of quality assur-

ance, technical monitoring of the performance of such function, liability insurance, employee retirement and disability benefits, and all other overhead costs, are realistic and fair.

TITLE XI—NATIONAL DEFENSE STOCKPILE

SEC. 1101. EXTENSION OF PROHIBITION ON REDUCTIONS IN STOCKPILE GOALS

Section 1612(a)(1) of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 776), as amended by striking out "October 1, 1986" and inserting in lieu thereof "April 1, 1987".

SEC. 1102. SPECIAL AUTHORIZATION FOR DISPOSAL

(a) IN GENERAL.—(1) Notwithstanding section 5(b)(2) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98d(b)(2)), the Administrator of General Services is authorized to dispose of the following quantities of materials currently held in the National Defense Stockpile (established by section 3 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98b)), that are hereby determined to be excess to the current requirements of the stockpile:

Aluminum Oxide, A.G	5,700 short tons
Antimony	1,500 short tons
Bismuth	136,000 pounds
Cadmium	265,000 pounds
Diamonds, Industrial Stone.	1,125,000 carats
Graphite, Malagasy C.F.	1,000 short tons
Iodine	800,000 pounds
Lead	30,000 short tons
Manganese, Battery Grade Natural.	2,500 short dry tons
Manganese, Ore	50,000 short dry tons
Manganese, Electrolytic Metal.	1,000 short tons
Mercury	3,700 flasks
Mica, Muscovite Film	3,000 pounds
Mica, Muscovite Splittings.	262,000 pounds
Mica, Phlogopite Splittings.	100,000 pounds
Nickel	3,750 short tons
Rutile	10,300 short dry tons
Silicon Carbide	7,600 short tons
Silver (Coinage Program Only).	3,000,000 troy ounces
Tannin, Chestnut	1,000 long tons
Tannin, Quebracho	4,000 long tons
Thorium Nitrate	10,000 pounds
Tin	4,000 metric tons
Titanium, Non-Stockpile Grade.	900 short tons
Tungsten	1,900,000 pounds of tungsten metal equivalent
Zinc	33,750 short tons

(2) The Administrator of General Services may not dispose of any quantity of any material under subsection (a) if the disposal would cause the total receipts from disposals made under such subsection to exceed $120,000,000.

SEC. 1103. AUTHORIZATION OF APPROPRIATIONS

(a) IN GENERAL.—Notwithstanding section 5(a)(2) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98d(a)(2)), there is authorized to be appropriated $120,000,000 for fiscal year 1987 for the acquisition of strategic and critical materials for the National Defense Stockpile.

(b) ACQUISITION OF GERMANIUM.—The Administrator of General Services shall acquire not less than 30,000 kilograms of germanium during fiscal year 1987 with funds appropriated pursuant to the authorization in this section or under the authority of section 6(c) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98e(c)).

SEC. 1104. EXTENSION OF USES OF STOCKPILE TRANSACTION FUND

Paragraph (2) of section 9(b) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98h(b)) is amended to read as follows:

"(2) Subject to section 5(a)(1), moneys covered into the fund under paragraph (1) shall be available for the following purposes when appropriated therefor:

"(A) The acquisition of strategic and critical materials under section 6(a)(1).

"(B) Transportation, storage, and other incidental expenses related to such acquisition.

"(C) Development of current specifications of stockpile materials and the upgrading of existing stockpile materials to meet current specifications (including transportation, when economical, related to such upgrading).

"(D) Testing and quality studies of stockpile materials.

"(E) Studying future material and mobilization requirements for the stockpile.

"(F) Other reasonable requirements for management of the stockpile.".

SEC. 1105. DEFINITION

As used in this title, the term "National Defense Stockpile" has the meaning provided in section 3 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98b).

SEC. 1106. CONVERSION OF CHROMIUM AND MANGANESE ORE TO HIGH CARBON FERROCHROMIUM AND HIGH CARBON FERROMANGANESE

(a) IN GENERAL.—During fiscal year 1987 and during each of the six succeeding fiscal years, the Administrator of General Services shall obtain bids from domestic producers of high carbon ferrochromium and of high carbon ferromanganese and award contracts for the conversion of chromium and manganese ores held in the National Defense Stockpile into high carbon ferrochromium and high carbon ferromanganese, respectively.

(b) STOCKPILE GOALS.—(1) Contracts awarded under subsection (a) shall provide for the addition of not less than 53,500 short tons of high carbon ferrochromium and 67,500 short tons of high carbon ferromanganese to the National Defense Stockpile in each of the fiscal years referred to in the preceding sentence.

(2) If, in any fiscal year referred to in subsection (a), the minimum quantity of high carbon ferrochromium or high carbon ferromanganese to be added to the National Defense Stockpile, as prescribed in paragraph (1), is not met, the quantity of such material to be added to such stockpile in the succeeding fiscal year shall be increased by the quantity of the deficiency.

(c) SEVEN-YEAR MINIMUM QUANTITIES.—The total quantities of high carbon ferrochromium and high carbon ferromanganese to be added to the National Defense Stockpile over the seven fiscal years referred to in subsection (a) shall be as follows:

(1) High carbon ferrochromium, 374,000 short tons.

(2) High carbon ferromanganese, 472,000 short tons.

(d) In this section, the term "National Defense Stockpile" means the stockpile provided for in section 4 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98c).

TITLE XII—GENERAL PROVISIONS

SEC. 1201. AUTHORIZATION OF APPROPRIATIONS FOR CIVILIAN PAY AND CONTINGENCIES

There are authorized to be appropriated for fiscal year 1987, in addition to other amounts authorized to be appropriated in this Act, such sums as may be necessary—

(1) for unbudgeted increases in fuel costs;

(2) for unbudgeted increases as a result of inflation in the cost of activities authorized in this Act; and

(3) for unbudgeted amounts for salary, pay, retirement, and other employee benefits authorized by law for civilian employees of the Department of Defense whose compensation is provided for by funds authorized to be appropriated in this Act.

SEC. 1202. DATES FOR REPORTING ON UNOBLIGATED BALANCES

Subsection (b) of section 1407 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 745), is amended to read as follows:

"(d) SUBMISSION OF REPORTS.—The reports shall be submitted to Congress each year not later than March 1, April 25, and September 1.".

SEC. 1203. SELECTED ACQUISITION REPORTS

(a) REVISION OF REPORTING REQUIREMENTS.—Section 139a of title 10, United States Code, is amended—

(1) by adding at the end of subsection (a)(3) the following new sentence: "When the appropriated funds and quantities differ from those programmed, the procurement unit cost will be revised to reflect the appropriated amounts.";

(2) in subsection (a)(4), by striking out "$2,000,000" and inserting in lieu thereof "$40,000,000";

(3) in subsection (b)(2)(A), by striking out "5" and inserting in lieu thereof "10";

(4) in subsection (b)(2)(B), by striking out "three-month" and inserting in lieu thereof "six-month";

(5) by striking out paragraph (2) of subsection (c) and inserting in lieu thereof the following:

"(2) Each Selected Acquisition Report for the first quarter of a fiscal year shall be designed to provide the Committees on Armed Services of the Senate and the House of Representatives with the information such Committees need to perform their oversight functions. No change in the content of the Selected Acquisition Report from the content as reported for the first quarter of the previous year may be made until appropriate officials of the Department of Defense have consulted with such Committees regarding the proposed changes.";

(6) in subsection (c)(3)(C), by inserting "which is produced at a rate of six units or more per year," after "report," in the matter preceding subclause (i); and

(7) by adding at the end the following new subsection:

"(h) Total program reporting under this section shall apply without exception to a program when funds have been appropriated for such acquisition program and the Department of Defense has made the decision to proceed to full-scale engineering development on such program. Reporting may be limited to the development program before a Department of Defense decision is made to proceed to full-scale engineering development, subject to approval by the Committees on Armed Services of the Senate and the House of Representatives. A limited report under this subsection shall include:

"(1) The same information, in detail and summarized form, as is provided in reports submitted under subsections (c)(1) and (c)(3) of section 139 of this title.

"(2) Reasons for any change in the development cost and schedule.

"(3) The major contracts under the development program and the reasons for any cost or schedule variances under those con-

tracts since the last Selected Acquisition Report.

"(4) The completion status of the development program (A) expressed as a percentage that the number of years for which funds have been appropriated for the development program is of the number of years for which it is planned that funds will be appropriated for the program, and (B) expressed as the percentage that the amount of funds that have been appropriated for the development program is of the total amount of funds which it is planned will be appropriated for the program.

"(5) Program highlights since the last Selected Acquisition Report.

"(6) Other information as the Secretary of Defense considers appropriate.

The submission requirements for quarterly Selected Acquisition Reports for development programs shall be governed by the same criteria as for quarterly Selected Acquisition Reports for total program reporting.".

(b) UNIT COST REPORTS.—Section 139b of title 10, United States Code, is amended—

(1) in subsection (b), by inserting "(excluding Saturdays, Sundays, and holidays)" after "days" each time it appears in the second sentence; and

(2) by adding at the end the following new subsection:

"(h) Reporting under this section shall not apply if a program has received a limited reporting waiver under section 139a(h) of this title.".

(c) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall take effect on January 1, 1987.

SEC. 1204. EXTENSION OF EXEMPTION FOR DOD POLYGRAPH TEST PROGRAM

Section 1221(e) of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 727), is amended—

(1) in clause (2), by striking out "or" at the end of such clause;

(2) in clause (3)—

(A) by striking out "cryptologic" and inserting in lieu thereof "cryptographic"; and

(B) by striking out the period at the end and inserting in lieu thereof a semicolon and "and"; and

(3) by adding at the end the following new clause:

"(4) to any polygraph examination conducted under the authorization granted by the Secretary of Defense on August 31, 1982, on a person who is participating in a national program—

"(A) which has as its purpose the collection of specialized intelligence through reconnaissance;

"(B) which is under the purview of the Director of Central Intelligence; and

"(C) for which a polygraph examination was established on or before October 1, 1985, as a condition for participation in such program.

The number of examinations that may be conducted pursuant to such authorization in fiscal year 1987 may not exceed the number conducted pursuant to such authorization in fiscal year 1986.".

SEC. 1205. MODERNIZATION OF DEFENSE CAPABILITIES OF COUNTRIES OF NATO'S SOUTHERN FLANK

(a) AUTHORITY TO TRANSFER EQUIPMENT.—Notwithstanding any other provision of law and subject to subsection (b), the President may transfer to those member nations of the North Atlantic Treaty Organization (NATO) on the southern flank of NATO which are eligible for United States security assistance and which are integrated into NATO's military structure such defense equipment as the President determines necessary to help modernize the defense capabilities of such nations. Such equipment may be transferred without cost to the recipient nations.

(b) LIMITATIONS ON TRANSFERS.—The President may transfer defense equipment under this section only if—

(1) the equipment is drawn from existing stocks of the Department of Defense;

(2) no funds available to the Department of Defense for the procurement of defense equipment are expended in connection with the transfer; and

(3) the President determines that the transfer of the equipment will not have an adverse impact on the Armed Forces of the United States.

(c) NOTIFICATION TO COMMITTEES OF CONGRESS.—The President may not transfer defense equipment under this section until—

(1) he has notified the Committees on Armed Services of the Senate and the House of Representatives, the Committee on Foreign Relations of the Senate, and the Committee on Foreign Affairs of the House of Representatives of the proposed transfer and included in such notification a certification of the need for the transfer and an assessment of the impact of the transfer on the Armed Forces of the United States; and

(2) a period of 30 days has elapsed following the date on which such notification is received by the committees named in clause (1).

(d) DEFINITION.—In subsection (a), the term "member nations of the North Atlantic Treaty Organization (NATO) on the southern flank of NATO" means Greece, Italy, Portugal, Spain, and Turkey.

SEC. 1206. NATO COOPERATIVE LOGISTIC SUPPORT AGREEMENTS

(a) GENERAL AUTHORITY.—The Secretary of Defense may enter into bilateral or multilateral Weapon System Partnership Agreements with one or more governments of other member nations of the North Atlantic Treaty Organization (NATO) for the purpose of providing cooperative logistics support for the armed forces of the countries which are parties to the agreements. Such agreements may include provision for the transfer of logistics support, supplies, and services by the United States to the NATO Maintenance and Supply Organization and for the acquisition of logistics support, supplies, and services by the United States from such organization.

(b) AUTHORITY OF SECRETARY OF DEFENSE.—Under the terms of a Weapon System Partnership Agreement entered into under subsection (a), the Secretary of Defense may—

(1) agree that the NATO Maintenance and Supply Organization may make contracts for supply and acquisition of logistics support in Europe for requirements of the United States, to the extent the Secretary determines that the procedures of that organization governing such supply and acquisition are appropriate; and

(2) share the costs of set-up charges of facilities for use by the NATO Maintenance and Supply Organization to provide cooperative logistics support and share in the costs of establishing a revolving fund for initial acquisition and replenishment of supply stocks to be used by the NATO Maintenance and Supply Organization to provide cooperative logistics support.

(c) SHARING OF ADMINISTRATIVE EXPENSES.—Each Weapon System Partnership Agreement shall provide for joint management by the participating nations and for the equitable sharing of the administrative costs incident to such agreement.

(d) APPLICATION OF CHAPTER 137.—Except as provided in this section, the provisions of chapter 137 of title 10, United States Code, shall apply to contracts entered into by the Secretary of Defense for the acquisition of logistics support under a Weapon System Partnership Agreement.

(e) APPLICATION OF ARMS EXPORT CONTROL ACT.—The transfer of defense articles or defense services to the NATO Maintenance and Supply Organization for the purposes of a Weapon System Partnership Agreement shall be in accordance with the provisions of the Arms Export Control Act (22 U.S.C. 2751 et seq.).

(f) SUPPLEMENTAL AUTHORITY.—The authority of the Secretary of Defense under this section is in addition to the authority of the Secretary under chapter 138 of title 10, United States Code, or under any other provision of law.

(g) DEFINITION.—For the purpose of this section, the term "Weapon System Partnership Agreement" means an agreement between the United States and one or more other NATO nations participating in the operation of the NATO Maintenance and Supply Organization, entered into pursuant to the terms of the charter of such Maintenance and Supply Organization, for the common logistic support of a specific weapon system common to the participating nations.

SEC. 1207. COOPERATIVE PROJECTS

(a) ARMS EXPORT CONTROL ACT.—(1) Section 27 of the Arms Export Control Act (22 U.S.C. 2767) is amended—

(A) in subsection (b)—

(i) by inserting ", in the case of an agreement with the North Atlantic Treaty Organization or with one or more member countries of that Organization," after "project' " in paragraph (1);

(ii) by striking out "and" at the end of paragraph (1);

(iii) by redesignating paragraph (2) as paragraph (3); and

(iv) by inserting after paragraph (1) the following new paragraph:

"(2) the term 'cooperative project', in the case of an agreement entered into under subsection (j), means a jointly managed arrangement, described in a written agreement among the parties, which is undertaken in order to enhance the ongoing multinational effort of the participants to improve the conventional defense capabilities of the participants and which provides—

"(A) for one or more of the other participants to share with the United States the costs of research on and development, testing, evaluation, or joint production (including follow-on support) of certain defense articles;

"(B) for concurrent production in the United States and in the country of another participant of a defense article jointly developed in accordance with subparagraph (A); or

"(C) for procurement by the United States of a defense article or defense service from another participant to the agreement; and";

and

(B) by adding at the end the following new subsection:

"(j) The President may enter into a cooperative project agreement with any friendly foreign country not a member of the North Atlantic Treaty Organization under the same general terms and conditions as the

President is authorized to enter into such an agreement with one or more member countries of the North Atlantic Treaty Organization if the President determines that the cooperative project agreement with such country would be in the foreign policy or national security interests of the United States.".

(2) The section heading for such section is amended to read as follows:

"SEC. 27. AUTHORITY OF PRESIDENT TO ENTER INTO COOPERATIVE PROJECTS WITH FRIENDLY FOREIGN COUNTRIES.—".

(b) TITLE 10, UNITED STATES CODE.—(1) Section 2407 of title 10, United States Code, is amended—

(A) in subsection (a)(1), by striking out "North Atlantic Treaty Organization (NATO)";

(B) in subsection (c)(2), by striking out "NATO";

(C) in paragraphs (1) and (2) of subsection (e), by striking out "NATO" each place it appears; and

(D) by striking out the section heading and inserting in lieu thereof the following:

"§ 2407. Acquisition of defense equipment under cooperative projects".

(2) The table of sections at the beginning of chapter 141 of such title is amended by striking out the item relating to section 2407 and inserting in lieu thereof the following:

"2407. Acquisition of defense equipment under cooperative projects.".

SEC. 1208. ACQUISITION AND CROSS-SERVICING AGREEMENTS

(a) AUTHORITY TO ENTER INTO AGREEMENTS WITH COUNTRIES OUTSIDE EUROPE.—Section 2341 of title 10, United States Code, is amended to read as follows:

"§ 2341. Authority to acquire logistic support, supplies, and services for armed forces of the United States deployed outside the United States

"Subject to section 2343 of this title and subject to the availability of appropriations, the Secretary of Defense may—

"(1) acquire from the Governments of North Atlantic Treaty Organization countries and from North Atlantic Treaty Organization subsidiary bodies logistic support, supplies, and services for elements of the armed forces deployed in Europe and adjacent waters; and

"(2) acquire from any government not a member of the North Atlantic Treaty Organization in which armed forces of the United States are deployed, or are to be deployed, logistic support, supplies, and services for elements of the armed forces deployed (or to be deployed) in such country or in the military region in which such country is located if such country—

"(A) has a defense alliance with the United States;

"(B) permits the stationing of members of the armed forces of the United States in such country or the homeporting of Naval vessels of the United States in such country;

"(C) has agreed to preposition materiel of the United States in such country; or

"(D) serves as the host country to military exercises which include the armed forces of the United States or permits other military operations by the armed forces of the United States in such country.".

(b) CROSS-SERVICING AGREEMENTS.—Section 2342 of such title is amended to read as follows:

"§ 2342. Cross servicing agreements

"(a) Subject to section 2343 of this title and to the availability of appropriations, and after consultation with the Secretary of State, the Secretary of Defense may—

"(1) enter into agreements with the government of any North Atlantic Treaty Organization country and with any North Atlantic Treaty Organization subsidiary body under which the United States agrees to provide logistic support, supplies, and services to military forces of such country or subsidiary body deployed in Europe and adjacent waters in return for the reciprocal provision of logistic support, supplies, and services by such country or subsidiary body to elements of the armed forces deployed in Europe and adjacent waters;

"(2) enter into agreements with the government of any country designated by the Secretary of Defense which is not a member of the North Atlantic Treaty Organization under which the United States agrees to provide logistic support, supplies, and services to the armed forces of such country in return for the reciprocal provision of logistic support, supplies, and services by such country to elements of the armed forces of the United States deployed in such country or in the military region in which such country is located; and

"(3) enter into agreements with the government of any country referred to in clause (1) or (2) under which the United States agrees to provide logistic support, supplies, and services to the armed forces of such country in return for the reciprocal provision of support, supplies, and services for the armed forces of the United States from such country while the armed forces of such country are stationed in North America or are performing military exercises or training in North America.

"(b) A country may not be designated by the Secretary of Defense for cross-servicing agreements under this section unless the Secretary, after consultation with the Secretary of State, has determined that the designation of such country for such purpose is in the interest of the national security of the United States.

"(c) The Secretary of Defense may not use the authority of this chapter to procure from any foreign government as a routine or normal source any goods or services reasonably available from United States commercial sources.

"(d) The Secretary of Defense shall prescribe such regulations as may be necessary to ensure that contracts entered into under this chapter are free from self-dealing, bribery, and conflict of interests.".

(c) METHODS OF PAYMENT.—Section 2344(b) of such title is amended—

(1) in paragraph (1), by inserting "or other foreign country" after "country" in the material preceding subparagraph (A); and

(2) in paragraph (3), by inserting "or other foreign country" after "country".

(d) LIQUIDATION OF ACCRUED CREDITS AND LIABILITIES.—Section 2345 of such title is amended—

(1) by inserting "(a)" before "Credits" at the beginning of such section; and

(2) by adding at the end the following new subsection:

"(b) Payment-in-kind or exchange entitlements shall be satisfied within 12 months after the date of the delivery of the logistic support, supplies, or services.".

(e) LIMITATIONS ON AMOUNTS THAT MAY BE OBLIGATED OR ACCRUED BY THE UNITED STATES.—Section 2347 of such title is amended—

(1) in subsection (a)—

(A) by inserting "(1)" after "(a)"; and

(B) by adding at the end the following new paragraph:

"(2) Except during a period of active hostilities in the military region affecting a country which is not a member of the North Atlantic Treaty Organization, but with which the United States has one or more acquisition or cross-servicing agreements, the total amount of reimbursable liabilities that the United States may accrue under this chapter (before the computation of offsetting balances) with such country may not exceed $10,000,000 in any fiscal year, and of such amount not more than $2,500,000 in liabilities may be accrued for the acquisition of supplies (other than petroleum, oils, and lubricants). The $10,000,000 limitation specified in this paragraph is in addition to the limitation specified in paragraph (1).";

(2) in subsection (b), by inserting "(1)" after "(b)"; and

(3) by adding at the end the following new paragraph:

"(2) Except during a period of active hostilities in the military region affecting a country referred to in paragraph (1), the total amount of reimbursable credits that the United States may accrue under this chapter from such country (before computation of offsetting balances) may not exceed $10,000,000 in any fiscal year. The $10,000,000 limitation specified in this paragraph is in addition to the limitation specified in paragraph (1).".

(f) INVENTORIES OF SUPPLIES NOT TO BE INCREASED.—Section 2348 of such title is amended by striking out "to military forces of any North Atlantic Treaty Organization country or any North Atlantic Treaty Organization subsidiary body".

(g) DEFINITION.—Section 2350 of such title is amended by adding at the end the following new paragraph:

"(3) 'Military region' means the geographical area of responsibility assigned to the Commander of a Unified Command of the armed forces of the United States excluding Europe and adjacent waters.".

(h) CONFORMING AMENDMENT.—The table of sections at the beginning of chapter 138 of such title is amended by striking out the item relating to section 2341 and inserting in lieu thereof the following:

"2341. Authority to acquire logistic support, supplies, and services for armed forces of the United States deployed outside the United States.".

SEC. 1209. COOPERATIVE RESEARCH AND DEVELOPMENT WITH NON-NATO ALLIES AND OTHER FRIENDLY COUNTRIES

(a) FINDINGS.—The Congress finds—

(1) that the North Atlantic Treaty Organization Cooperative Research and Development program instituted during fiscal year 1986 has served to increase cooperation in research and development among NATO nations; and

(2) that additional benefits of cooperation in research and development might ensue from an extension of the program to include countries which have mutual security or mutual assistance treaties with the United States or which share with the United States a commitment to freedom and individual liberties.

(b) CONGRESSIONAL REQUEST FOR COOPERATION ON RESEARCH AND DEVELOPMENT.—The Congress urges and requests the President and the Secretary of Defense to pursue diligently opportunities for the United States

and our major non-NATO allies to cooperate—

(1) in research and development on defense equipment and munitions; and

(2) in the production of defense equipment.

(c) FUNDS FOR COOPERATIVE PROJECTS.—Of the funds appropriated pursuant to the authorizations in section 201, not more than $40,000,000 shall be available only for cooperative research and development projects with major non-NATO allies.

(d) RESTRICTIONS.—(1) A memorandum of understanding (or other formal agreement) to conduct a cooperative research and development project may not be entered into under this section unless the Secretary of Defense determines that the proposed project enhances the ongoing multinational effort to improve conventional defense capabilities through the application of emerging technology.

(2) Each cooperative project shall require sharing of the costs of research between the participants on an equitable basis.

(3) The Secretary may not delegate the authority to make a determination under paragraph (1) except to the Deputy Secretary of Defense or the Under Secretary of Defense for Acquisition.

(e) RESTRICTIONS ON PROCUREMENT OF EQUIPMENT AND SERVICES.—(1) In order to assure substantial participation on the part of major non-NATO allies in cooperative research and development projects, funds made available under subsection (c) for such projects may not be used to procure equipment or services from any foreign government, foreign research organization, or other foreign entity.

(2) A major non-NATO ally may not utilize any United States military or economic assistance funds, grants, or loans for the purpose of making its contribution to a cooperative research and development program entered into with the United States under this section.

(f) NOTICE TO CONGRESS.—The Secretary of Defense and the Secretary of State shall jointly submit a letter to Congress not later than January 1 of each year enumerating those countries eligible for participation with the United States in a cooperative research and development program authorized by this section.

(g) DEFINITIONS.—As used in this section:

(1) The term "major non-NATO ally" means a country with which the United States has a mutual security treaty or mutual security assistance treaty or a country which shares with the United States a mutual commitment to freedom and individual freedoms.

(2) The term "cooperative research and development project" means a project involving joint participation by the United States and one or more major non-NATO allies under a memorandum of understanding (or other formal agreement) to carry out a joint research and development program—

(A) to develop new conventional equipment and munitions; or

(B) to modify existing military equipment to meet United States military requirements.

SEC. 1210. SENSE OF THE SENATE RELATING TO SALT II COMPLIANCE

It is the sense of the Senate that it is in the national security interests of the United States to continue voluntary compliance with strategic offensive arms agreements with the Soviet Union by recognizing the central numerical sublimits on strategic nuclear delivery systems contained in such agreements so long as the Soviet Union complies with such sublimits.

SEC. 1211. SENSE OF THE SENATE RELATING TO STRATEGIC ARMS AGREEMENTS

It is the sense of the Senate that, consistent with international law, it is not in the national interest of the United States to continue compliance with any strategic arms agreement that the Soviet Union has clearly violated.

SEC. 1212. LIMITATION ON OBLIGATION OF FUNDS FOR ESTABLISHING A FEDERALLY FUNDED RESEARCH AND DEVELOPMENT CENTER FOR THE STRATEGIC DEFENSE INITIATIVE

(a) PROHIBITION ON USE OF FUNDS.—None of the funds authorized to be appropriated in this or any other Act may be obligated or expended for the purpose of establishing or operating a Federally Funded Research and Development Center for the support of the Strategic Defense Initiative Organization until Congress has received the reports described in subsection (b) and thirty (30) legislative days have elapsed following the date on which the Congress has received both reports.

(b) REPORT REQUIREMENT.— In order for Congress to make an informed decision on the need for the establishment of a Federally Funded Research and Development Center for the support of the Strategic Defense Initiative Organization and on the ability of such an entity to function as an independent and objective source of technical support, the Secretary of Defense and the Comptroller General of the United States shall each submit to Congress a report that includes the following:

(1) An evaluation of alternative means of providing the stated objective of technical support and the comparative costs of the alternative means.

(2) A discussion of the competitive aspects pertaining to contract award for such technical support.

(3) A discussion of the process for evaluating technical support proposals which includes consideration of peer review procedures.

(4) A discussion of the steps being taken in the design of the proposed Federally Funded Research and Development Center to prevent conflicts of interest and the appearance of conflicts of interest.

(5) A discussion of procedures for staff selection, including the role of the sponsoring organization in that selection process.

SEC. 1213. SPECIAL DEFENSE ACQUISITION FUND

Section 138(g) of title 10, United States Code, is amended by striking out "$1,000,000,000" and inserting in lieu thereof "$1,100,000,000".

SEC. 1214. EXTENSION OF AUTHORITY OF SECRETARY OF DEFENSE TO TRANSPORT HUMANITARIAN RELIEF SUPPLIES TO CERTAIN COUNTRIES

Section 1540(a) of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2637), is amended by striking out "fiscal years 1985 and 1986" and inserting in lieu thereof "fiscal years 1986 and 1987".

SEC. 1215. HUMANITARIAN AND CIVIC ASSISTANCE PROVIDED IN CONJUNCTION WITH A MILITARY OPERATION

(a) IN GENERAL.—Part I of subtitle A of title 10, United States Code, is amended by adding at the end the following new chapter:

"CHAPTER 20—HUMANITARIAN AND CIVIC ASSISTANCE PROVIDED IN CONJUNCTION WITH MILITARY OPERATIONS

"Sec.

"401. Armed forces participation in humanitarian and civic assistance activities.
"402. Approval of the Secretary of State.
"403. Payment of expenses.
"404. Report to Congress.
"405. Definition.

"§ 401. Armed forces participation in humanitarian and civic assistance activities

"(a) Under regulations prescribed by the Secretary of Defense, the Secretary of a military department may carry out humanitarian and civic assistance activities in conjunction with authorized military operations of the armed forces of the United States in countries in which it is determined, by the Secretary of the military department concerned, that the activities will promote—

"(1) both the security interests of the United States and the country in which the activities are to be carried out; and

"(2) the specific operational readiness skills of the members of the armed forces of the United States who participate in the activities.

"(b) Humanitarian and civic assistance activities carried out under this chapter shall fully complement, and may not duplicate, any other form of social or economic assistance which may be provided to the country concerned by any other department or agency of the United States. Such activities shall serve the basic economic and social needs of the people of the country concerned.

"(c) Humanitarian and civic assistance may not be provided under this chapter, directly or indirectly, to any individual, group, or organization engaged in military or paramilitary activity.

"§ 402. Approval of the Secretary of State

"Humanitarian and civic assistance may not be provided under this chapter to any foreign country unless the Secretary of State has specifically approved such assistance.

"§ 403. Payment of expenses

"Expenses incurred as a direct result of providing humanitarian and civic assistance under this chapter to any foreign country shall be paid for out of funds specifically appropriated for such purpose.

"§ 404. Report to Congress

"The Secretary of Defense shall report to Congress each year, not later than March 1, on activities carried out under this chapter during the preceding fiscal year. The Secretary shall include in each such report a list of the countries in which humanitarian and civic assistance activities were carried out in the preceding fiscal year, the type of such activities carried out in each country in the preceding fiscal year, and the amount expended in carrying out such activities in each such country in the preceding fiscal year.

"§ 405. Definition

"In this chapter, the term 'humanitarian and civic assistance' means—

"(1) medical, dental, and veterinary care provided in rural areas of a country;

"(2) construction of rudimentary transportation systems;

"(3) well drilling and construction of basic sanitation facilities;

"(4) rudimentary construction and repair of public facilities; and

"(5) similar or related types of assistance.".

(b) CONFORMING AMENDMENTS.—The tables of chapters at the beginning of subtitle A of such title and at the beginning of part I of such subtitle are each amended by adding at the end the following new item:

"20. Humanitarian and Civic Assistance Provided in Conjunction With Military Operations ..... 401".

SEC. 1216. AUTHORITY TO PAY EXPENSES OF DEVELOPING COUNTRIES FOR PARTICIPATION IN COMBINED MILITARY EXERCISES

(a) AUTHORITY TO PAY EXPENSES.—Chapter 101 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2010. Participation of developing foreign countries in combined exercises: payment of incremental expenses

"(a) The Secretary of Defense, after consultation with the Secretary of State, may pay the incremental expenses of a developing foreign country incurred by that country as the direct result of participation in a bilateral or multilateral military exercise if—

"(1) the exercise is undertaken primarily to enhance the security interests of the United States; and

"(2) the Secretary of Defense determines that the participation by such country is necessary to the achievement of fundamental exercise objectives and that those objectives cannot be achieved unless the United States provides the incremental expenses incurred by such country.

"(b) The Secretary of Defense shall submit a report to Congress each year, not later than March 1, containing a list of the developing countries for which expenses have been paid by the United States under this section during the preceding year and the amounts expended on behalf of each government.

"(c) The Secretary of Defense shall establish by regulation such accounting procedures as may be necessary to ensure that funds expended under the authority of this section are properly expended.

"(d) In this section, the term 'incremental expenses' means the reasonable and proper cost of the goods and services that are consumed by a developing foreign country as a direct result of that country's participation in a bilateral or multilateral military exercise with the United States, including but not limited to rations, fuel, training ammunition, and transportation. Such term does not include pay, allowance, and normal costs of host country personnel.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2010. Participation of developing foreign countries in combined exercises: payment of incremental expenses.".

SEC. 1217. AUTHORITY TO PAY CERTAIN EXPENSES OF DEFENSE PERSONNEL OF FOREIGN COUNTRIES

(a) IN GENERAL.—Chapter 53 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 1051. Bilateral or regional cooperation programs: payment of personnel expenses

"(a) The Secretary of Defense may pay the travel, subsistence, and similar personal expenses of defense personnel of developing countries in connection with the attendance of such personnel at a bilateral or regional conference, seminar, or similar meeting if the Secretary determines that the attendance of such personnel at such conference, seminar, or similar meeting is in the national security interests of the United States.

"(b)(1) Except as provided in paragraph (2), expenses authorized to be paid under subsection (a) may be paid on behalf of personnel from a developing country only in connection with travel within the area of responsibility of the unified command in which the developing country is located.

"(2) In any case in which the headquarters of a unified command is located within the United States, expenses authorized to be paid under subsection (a) may be paid in connection with travel of personnel to the United States to attend a bilateral or regional conference, seminar, or similar meeting.

"(3) Expenses authorized to be paid under subsection (a) may not, in the case of any individual, exceed the amount that would be paid under chapter 7 of title 37 to a member of the armed forces of the United States (of a comparable grade) for authorized travel of a similar nature.

"(c) In addition to the expenses authorized to be paid under subsection (a), the Secretary of Defense may pay such other expenses in connection with any such conference, seminar, or similar meeting as the Secretary considers in the national security interests of the United States.

"(d) The authority to pay expenses under this section is in addition to the authority to pay certain expenses and compensation of officers and students of Latin American countries under section 1050 of this title.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"1051. Bilateral or regional cooperation programs: payment of personnel expenses.".

SEC. 1218. DRUG INTERDICTION EFFORTS BY DOD

(a) REPORT.—The National Drug Enforcement Policy Board shall submit a report to the Committees on Armed Services of the Senate and the House of Representatives on the manner and the extent to which the Department of Defense should be involved in United States drug enforcement activities. The Board shall include in such report its recommendations for a 5-year funding plan for Department of Defense participation in United States drug enforcement activities.

(b) DRUG EDUCATIONAL AND COUNSELING REPORT.—The Secretary of Defense, in consultation with the National Drug Enforcement Policy Board and the Department of Education, shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report, not later than December 1, 1986, discussing (i) the extent to which youth in schools operated by the Department of Defense for dependent members of the Armed Forces are receiving education on drug and substance abuse, (ii) the types of drug education programs that are currently being provided, (iii) whether additional drug education programs are needed, and (iv) the extent to which drug education programs for youth in grades K through 12 include or should include preventative peer counseling classes.

(c) REPORT DEADLINE.—The report required by subsection (a) shall be submitted not later than December 1, 1986.

SEC. 1219. REPORTING OF TERRORIST THREATS

(a) IN GENERAL.—(1) Subject to subsection (b), the Secretary of Defense shall instruct all appropriate officials of the Department of Defense to take such action as may be necessary to ensure that all credible, time-sensitive intelligence concerning potential terrorist threats is promptly reported to the headquarters or office of the Department of Defense concerned.

(2) The Secretary shall also instruct such officials that such intelligence is to be reported through the most appropriate and expeditious communications networks available to the Department of Defense.

(b) WAIVER.—The Secretary of Defense shall not be required to issue the instructions referred to in subsection (a) if he determines that such instructions would be inappropriate or unwise and notifies Congress of that determination before March 1, 1987, and includes with the notification an explanation of the basis for such determination.

SEC. 1220. MILITARY IMPACT STATEMENT BY THE JOINT CHIEFS OF STAFF ON UNITED STATES NON-COMPLIANCE WITH EXISTING STRATEGIC OFFENSIVE ARMS AGREEMENTS

(a) Not later than October 1, 1986, the Chairman of the Joint Chiefs of Staff of the Armed Forces of the United States shall submit to Congress a report, in both classified and unclassified versions, containing a detailed assessment, including the individual views of each of the chiefs, of the military impacts on the national security of the United States, of the possible military responses of the Soviet Union to an American decision to no longer comply with major provisions of existing strategic offensive arms limitation agreements, including the central numerical sublimits on strategic nuclear delivery vehicles contained in the SALT II accord. This assessment shall concentrate on possible Soviet military responses during the period between fiscal year 1987 and fiscal year 1996, inclusive, and shall address, among other considerations, the following:

(1) the impact on the ability of United States strategic forces to accomplish their nuclear deterrent mission, including the impacts on the survivability of United States strategic forces and on the ability of United States strategic forces to achieve required damage expectancies against Soviet targets, of any expansion of Soviet military capabilities undertaken in response to a United States decision to abandon compliance with existing strategic offensive arms agreements;

(2) the additional cost to the United States, above currently projected military expenditures for those periods for which such budget projections are available, of research, development, production, deployment, and annual operations and support for any additional strategic forces required to counter any expansion in Soviet military capabilities undertaken in response to a United States decision to abandon compliance with existing strategic offensive arms agreements;

(3) under average annual real growth projections in defense spending of 0 percent, 1 percent, 2 percent, and 3 percent, the percent of the annual defense budget in each year between fiscal year 1987 and fiscal year 1996 which would be consumed by increased United States strategic forces needed to counter the Soviet force expansions;

(4) the military impacts on United States national security of the diversion the funds identified in subsection (a)(2) away from nonstrategic defense programs and to strategic programs to counter expanded Soviet strategic capabilities, including the military impacts of such a diversion on the ability of

United States conventional forces to meet the Nation's specific non-nuclear defense commitments as a member of the North Atlantic Treaty Organization, and under the 1960 Treaty of Mutual Cooperation and Security with Japan;

(5) in addition, this report shall address the military implications for the United States of determined Soviet violations of offensive arms control agreements.

(b) Notwithstanding any other provision of law, none of the funds authorized or appropriated by this or any other Act may be obligated or expended, directly or indirectly, by the Organization of the Joint Chiefs of Staff for prospective studies and analyses to be accomplished by individual civilian contractors or civilian contractor entities, after October 1, 1986, if the report mandated in subsection (a) has not been received by the Congress; and

(c) The prohibition contained in subsection (b) on the obligation or expenditure of funds after October 1, 1986, shall cease to have effect upon the receipt by Congress of the report mandated in subsection (a).

SEC. 1221. CHEMICAL WEAPONS, AGENTS, OR COMPONENTS

(a) No chemical weapons, agents, or components used in chemical weapons may be shipped by any means into the Lexington-Bluegrass Depot in Richmond, Kentucky, for any purpose, including disposal.

(b) Following disposal of the chemical weapons stockpile stored at the Lexington-Bluegrass Depot, as required by Public Law 99-145, the facility may not be used for assembly, construction, testing, storage, or disposal of any chemical or biological weapon.

(c) The Secretary of Defense shall have the authority to waive these provisions in the event that he determines it is in the national security interest.

SEC. 1222. COAST GUARD

(a) Of the amounts authorized to be appropriated for the Department of Defense in fiscal year 1987:

(1) $200,000,000 shall be for the acquisition and maintenance of United States Coast Guard inventories related to the national defense; and

(2) $100,000,000 in operating funds for the performance of defense readiness responsibilities of the United States Coast Guard. Funds made available pursuant to the authorizations specified in this section shall be attributed to functional category 050 (National Defense) of the Budget of the Government of the United States.

(3) Of these amounts authorized, $15,000,000 shall be available for transfer to the Secretary of Transportation and shall be available only for the program described in paragraph (b).

(b) ENHANCED DRUG-INTERDICTION ASSISTANCE—

(1) ASSIGNMENT OF COAST GUARD PERSONNEL ON NAVAL VESSELS.—Chapter 18 of title 10, United States Code, is amended by adding after section 378 the following new section:

"SEC. 379. ASSIGNMENT OF PERSONNEL TO NAVAL VESSELS FOR DRUG ENFORCEMENT PURPOSES

"(a) The Secretary of Defense and the Secretary of Transportation may provide that there be assigned on board surface naval vessels at sea in a drug-interdiction area members of the Coast Guard who are trained in law enforcement and have power to arrest, search, and seize property and persons suspected of violations of law.

"(b) Members of the Coast Guard assigned to duty on board naval vessels under this section shall perform such law enforcement functions (including drug-interdiction functions)—

"(1) as may be agreed upon by the Secretary of Defense and the Secretary of Transportation; and

"(2) as are otherwise within the jurisdiction of the Coast Guard.

"(c) No fewer than five hundred active duty personnel of the Coast Guard shall be assigned each fiscal year to duty as provided in subsection (a).

"(d) As used in this section, the term 'drug-interdiction area' means an area outside the land area of the United States in which the Secretary of Defense (in consultation with the Attorney General) determines that activities involving smuggling of drugs into the United States are ongoing.".

(c) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter is amended by inserting immediately below the item relating to section 378 the following new item:

"378. Assignment of personnel to naval vessels for drug enforcement purposes.".

SEC. 1223. FACILITIES FOR THE DETENTION OF CERTAIN ALIENS

(a) Not later than 60 days after the date of the enactment of this Act, the Secretary of Defense shall transmit to the Attorney General of the United States—

(1) a list of facilities under the jurisdiction of the Department of Defense which are suitable for use for the detention of Marielito criminal aliens;

(2) a statement of the estimated costs of using such facilities for the detention of such aliens; and

(3) a statement identifying the agencies of the Federal Government which would bear such costs.

(b) A copy of this report shall be made available, upon request to the Attorney General, to Members of the United States Senate and the United States House of Representatives.

SEC. 1224. SPECIAL OPERATIONS FORCES

(a) CONGRESSIONAL FINDINGS.—The Congress finds—

(1) that the threat to the United States and its allies from unconventional warfare, including terrorism and insurgency, continues to increase at an alarming rate;

(2) that, although the United States must continue to maintain and improve its strategic and conventional force capabilities in order to deter aggression and to protect the security of the United States and its allies, the use of armed force by the United States since the end of the Korean conflict has principally been in response to insurgencies against allies of the United States and to terrorist attacks directed at the United States and American citizens;

(3) that the most likely use of armed force by the United States in the foreseeable future will be counterterrorist, counterinsurgency, and other unconventional operations;

(4) that the capabilities needed to respond to threats from unconventional warfare are not those traditionally fostered by the armed forces of the United States;

(5) that the Department of Defense has failed to recognize that conventional force capabilities can seldom be effectively employed in unconventional warfare missions;

(6) that conventional force commanders have a limited understanding of special operations forces capabilities and have misemployed such forces;

(7) that the Department of Defense has not given sufficient emphasis to the planning and preparation for unconventional warfare missions or to the appropriate integration of special operations forces capabilities into the national security strategy of the United States;

(8) that the National Security Council and the Office of the Secretary of Defense have not given sufficient attention to the formulation of policies to guide the development of special operations forces capabilities;

(9) that the Department of Defense has not provided adequate resources or support for special operations forces, particularly in airlift capability;

(10) that the Department of Defense has not given sufficient attention to ensuring the provision of adequate intelligence support for unconventional warfare missions;

(11) that the Department of Defense has not given sufficient attention to the tactics, doctrines, and training associated with unconventional warfare missions;

(12) that problems of command and control have repeatedly beset military forces of the United States engaged in unconventional warfare operations;

(13) that such problems were evident during the Mayaguez incident, the Iranian hostage rescue mission, the Grenada operation, and the Beirut peacekeeping mission;

(14) that the cooperation and coordination among the special operations forces of the Army, Navy, and Air Force are seriously deficient; and

(15) that the Department of Defense has not given sufficient attention to personnel policies, practices, and procedures to ensure the availability of sufficient numbers of officers with the skills required for unconventional warfare.

(b) ESTABLISHMENT OF SPECIAL OPERATIONS FORCES.—(1) The President shall establish, not later than 180 days after the date of the enactment of this Act, a unified combatant command for special operations forces.

(2)(A) The commander of the unified combatant command established pursuant to paragraph (1) shall hold the grade of general or, in the case of an officer of the Navy, admiral if appointed to that grade by the President, by and with the advice and consent of the Senate.

(B) The commander of such command shall be responsible for and shall have the authority necessary to conduct all affairs of such command relating to special operations forces, including the following matters:

(i) Developing strategy, doctrine, and tactics.

(ii) Training of assigned forces.

(iii) Prescribing professional military education.

(iv) Planning resources (including validating requirements).

(v) Ensuring combat readiness.

(vi) Developing special equipment.

(vii) Ensuring the interoperability of equipments and forces.

(viii) Tasking of intelligence support.

(ix) Monitoring the promotions, assignments, retention, training, and professional military education of special operations forces officers.

(C) The commander of such command shall be fully prepared to assume operational command of selected special operations missions if directed to do so by the National Command Authority.

(3) Unless otherwise directed by the National Command Authorities (NCA), all active and reserve special operations forces of the Army, Navy, and Air Force based in

the United States shall be assigned to the unified combatant command established pursuant to paragraph (1).

(4) The President shall assign special operations forces located outside the United States to the unified combatant command in whose geographic area such forces are stationed.

(5) Unless otherwise directed by the NCA, special operations missions shall be conducted under the operational command of the unified combatant commands in whose geographic areas such missions are to be conducted.

(6) The Secretary of Defense shall create for the special operations forces a major force progam category for the Five-Year Defense Plan of the Department of Defense.

(7) The Secretary of Defense shall substantially augment the capabilities of the Office of the Secretary of Defense to provide effective policy and resource oversight of special operations forces.

(c) MINIMUM GRADE FOR COMMANDERS OF SPECIAL OPERATIONS COMMANDS.—Commanders of the special operations command assigned to the United States European Command and the United States Pacific Command shall be of general or flag officer grade.

(d) BOARD FOR UNCONVENTIONAL WARFARE.—The President shall establish within the National Security Council a board to be known as the "Board for Unconventional Warfare". The principal duty of such board shall be to coordinate the unconventional warfare policies of the United States.

(e) ASSISTANT SECRETARY OF DEFENSE FOR SPECIAL OPERATIONS AND LOW INTENSITY CONFLICT AND DEPUTY ASSISTANT TO THE PRESIDENT FOR NATIONAL SECURITY AFFAIRS FOR UNCONVENTIONAL WARFARE.—(1) Section 136(b) of title 10, United States Code, is amended by adding at the end the following new paragraph:

"(7) One of the Assistant Secretaries shall be the Assistant Secretary of Defense for Special Operations and Low Intensity Conflict. He shall have full responsibility for policy and resource oversight of special operations forces.".

(2) It is the sense of the Congress that the President should designate within the Office of the President a Deputy Assistant to the President for National Security Affairs for Unconventional Warfare.

(f) FUNDING.—Programs and activities under the Special Operations Forces Master Plan shall be paid for with funds appropriated to the Department of Defense for such purposes.

(g) REPORT.—(1) The President shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on the actions that the President and the Secretary of Defense have taken to correct the deficiencies identified in subsection (a) and to implement the provisions of subsections (b) through (e).

(2) Such report shall be submitted not later than March 1, 1987.

SEC. 1225. TAXATION ON MILITARY BENEFITS

It is the sense of the Senate with respect to the tax treatment of Military Benefits, that for purposes of paragraph (1) of section 61(a) of the Internal Revenue Code of 1954 (defining gross income), the term "fringe benefits" does not include the following military benefits:

(a) Subsistence and uniform allowances granted a member of the uniformed services (as defined in title 37) and amounts received by them as commutation of quarters.

(b) Any in-kind benefit received by a member or former member of the uniformed services and his family resulting from his status or service as a member of the Armed Forces of the United States other than those received as a result of such status or service being considered that of an "officer" or "employee" of the Government.

SEC. 1226. STRATEGIC DEFENSE INITIATIVE DEPLOYMENT

(a) The Department of Defense shall provide Congress on or before March 15, 1987, a report detailing what Strategic Defense Initiative technologies can be developed or deployed within the next 5 to 10 years to defend against significant military threats and help accomplish critical military missions including—

(1) defending our troops and allies abroad against tactical ballistic missiles particularly new and highly accurate Soviet shorter range ballistic missiles armed with conventional, chemical, or nuclear warheads,

(2) defending against a limited but militarily effective Soviet attack aimed at disrupting our National Command Authority and other valuable military assets,

(3) providing sufficient warning and tracking information to defend or effectively evade possible Soviet attacks against our military satellites including those in high orbits,

(4) providing early warning and attack assessment information and the necessary survivable command, control and communication to defend against possible Soviet conventional or strategic attacks.

(b) This report shall also—

(1) identify any other significant near-term military missions that the application of Strategic Defense Initiative technologies might help accomplish;

(2) list what specific program elements of the Strategic Defense Initiative are pertinent to these applications;

(3) estimate initial operating capability dates for the systems needed to accomplish these missions;

(4) estimate the level of funding necessary for each program to reach these operating capability dates;

(5) estimate the survivability and cost effectiveness at the margin of these systems against current and projected Soviet threats.

(c) The Department of Defense will provide the Senate and House Armed Services Committees an interim report of its findings not later than December 31, 1986.

SEC. 1227. AUTHORIZATION OF APPROPRIATIONS FOR ENHANCED DRUG INTERDICTION ACTIVITIES

(a) IN GENERAL.—Funds are hereby authorized to be appropriated to the Department of Defense for fiscal year 1987 for enhancement of drug interdiction assistance activities of the Department as follows:

(1) For procurement of aircraft for the Navy, $138,000,000 to be available for refurbishment and upgrading of four existing E2C Hawkeye surveillance aircraft for drug interdiction purposes, and the procurement of four replacement E2C Hawkeye aircraft and related spares for the Navy.

(2) For procurement for the Air Force, $49,500,000, to be available for procurement of 3 aerostat radar systems, 3 aerostat radar spares for such system, and 1 aerostat radar spare for an aerostat radar system authorized and funded for location in the Bahamas by section 5(b) of the Urgent Supplemental Appropriations Act, 1986 (Public Law 99-349; 100 Stat. 723).

(3) For operation and maintenance for the Air Force, $12,615,000 to be available for the transfer of 6 Air Force helicopters to Davis-Monthan Air Force Base for use in carrying out drug interdiction missions.

(4) For the Secretary of Defense, $12,000,000 for enhanced intelligence collection activities concerning illegal importation into the United States of drugs originating in South America.

(b) LOANS TO THE UNITED STATES CUSTOMS SERVICE.—The Secretary of Defense shall make available the refurbished, upgraded, and modified aircraft, using funds appropriated pursuant to authorizations in subsection (a)(1) to the United States Customs Service in accordance with chapter 18 of title 10, United States Code, except that the four replacement E2C Hawkeye aircraft procured using funds appropriated pursuant to authorizations in subsection (a)(1) shall be delivered to the Navy.

(c) RESPONSIBILITIES OF THE UNITED STATES CUSTOMS SERVICE.—(1) The United States Customs Service shall have the responsibility for operation and maintenance costs attributable to the aircraft refurbished, upgraded, or modified using funds appropriated pursuant to authorizations in subsection (a)(1) and the aerostat radar systems using funds appropriated pursuant to authorizations in subsection (a)(2), except that responsibility for the operation and maintenance costs by the United States Customs Service shall commence upon receipt of the modified, refurbished, and upgraded aircraft authorized in subsection (a)(1) and upon completion of the installation of the aerostat radar systems authorized in subsection (a)(2).

(2) Upon enactment of this Act, the Commissioner of Customs shall immediately commence consultations with the Commandant of the United States Coast Guard regarding coordination of the deployment of the aircraft authorized in subsection (a)(1) and on loan to the United States Customs Service under subsection (b) in order to maximize the detection, surveillance, and intelligence gathering capabilities of the drug surveillance aircraft on loan to the United States Customs Service. The Commissioner of Customs shall make quarterly reports to the Committees on Appropriations and the Committees on Armed Services of the Senate and the House of Representatives regarding drug interdiction plans developed under this paragraph.

(d) AMOUNTS IN ADDITION TO OTHER AMOUNTS.—The amounts authorized by subsection (a) are in addition to any other amounts authorized to be appropriated to the Department of Defense in this Act for fiscal year 1987.

SEC. 1228. REPORT ON THE ANTI-BALLISTIC MISSILE TREATY

The Secretary of Defense shall, not later than February 1, 1987, transmit to Congress a report concerning the impact of the less restrictive interpretation of the Anti-Ballistic Missile Treaty. Such report shall include, but not be limited to the following:

(1) an analysis of the ramifications of the less restrictive interpretation on the development under the Strategic Defense Initiative program, of strategic defenses, including comprehensive strategic defense systems, and more limited defenses designed to protect vital United States military and command and control assets, based on "other physical principles". This analysis should compare research and development programs pursued under both the restrictive

and less restrictive interpretations of the ABM Treaty, including a comparative analysis of—

(A) the overall cost of the research and development programs,

(B) the schedule of the research and development programs, and

(C) the level of confidence attained in the research and development programs with respect to supporting a full-scale engineering development decision in the early 1990's; and

(2) a list of options under the less restrictive interpretation of the ABM Treaty that meet one or more of the following objectives: (a) reduce the overall development cost, (b) to advance the schedule for a full-scale engineering development decisions, or (c) to increase the level of confidence in the results of the research by the original full-scale development date.

SEC. 1229. AUTHORIZATION OF APPROPRIATIONS FOR THE AIR FORCE

Notwithstanding any other provision of this Act, funds are hereby authorized to be appropriated for fiscal year 1987 for the Air Force as follows:

For missiles, $8,370,800,000.

For research, development, test, and evaluation, $14,941,773,000.

For expenses, not otherwise provided for, for operation and maintenance, $19,304,871,000.

Of the funds authorized to be appropriated under this section, not less than $556,300,000 shall be available for the purpose of payment to the National Aeronautics and Space Administration to reimburse such agency for launch services and related expenses of the space shuttle system as agreed to between such agencies.

SEC. 1230. SENSE OF THE CONGRESS ON NUCLEAR EXPLOSIVE TESTING

(a) FINDINGS.—The Congress finds that—

(1) the United States is committed in the Limited Test Ban Treaty of 1963 and in the Non-Proliferation Treaty of 1968 to seek to achieve the discontinuance of all test explosions of nuclear weapons for all time;

(2) a comprehensive test ban treaty would promote the security of the United States by constraining the United States-Soviet nuclear arms competition and by strengthening efforts to prevent the proliferation of nuclear weapons;

(3) the Threshold Test Ban Treaty was signed in 1974 and the Peaceful Nuclear Explosions Treaty was signed in 1976, and both have yet to be considered by the full Senate for its advice and consent to ratification;

(4) the entry into force of the Peaceful Nuclear Explosions Treaty and the Threshold Test Ban Treaty will ensure full implementation of significant new verification procedures and so make completion of a comprehensive test ban treaty more probable;

(5) a comprehensive test ban treaty must be adequately verifiable, and significant progress has been made in methods for detection of underground nuclear explosions by seismological and other means;

(6) at present, negotiations are not being pursued by the United States and the Soviet Union toward completion of a comprehensive test ban treaty; and

(7) the past five administrations have supported the achievement of a comprehensive test ban treaty.

(b) SENSE OF CONGRESS.—It is the sense of Congress that at the earliest possible date, the President of the United States should—

(1) request advice and consent of the Senate to ratification (with a report containing any plans the President may have to negotiate supplemental verification procedures, or if the President believes it necessary, any understanding or reservation on the subject of verification which should be attached to the treaty) of the Threshold Test Ban and Peaceful Nuclear Explosions Treaties, signed in 1974 and 1976, respectively; and

(2) propose to the Soviet Union the immediate resumption of negotiations toward conclusion of a verifiable comprehensive test ban treaty.

In accordance with international law, the United States shall have no obligation to comply with any bilateral arms control agreement with the Soviet Union that the Soviet Union is violating.

SEC. 1231. NUCLEAR NON-PROLIFERATION INFORMATION

Section 602 of the Nuclear Non-Proliferation Act of 1978 (22 U.S.C. 3281) is amended—

(1) in subsection (c), by inserting "the Department of Defense," after "Department of State,"; and

(2) by adding at the end the following new subsection:

"(f) Upon request, the Secretary of Defense shall have access to all information regarding nuclear proliferation matters which the Secretary of State or the Secretary of Energy has or is entitled to have, including all communications, materials, documents, and records relating to such matters, including cables from United States diplomatic missions.".

SEC. 1232. MINUTEMAN EDUCATION PROGRAM

Notwithstanding any other provision of this Act, none of the funds appropriated pursuant to an authorization contained in this or any other Act may be obligated or expended by the Air Force to award a contract for the conduct of the graduate Minuteman Education Program unless the contract requires the contractor—

(1) to integrate class schedules under the program with fulltime missile crew duty schedules;

(2) to provide a resident faculty, at each Air Force installation where the program is conducted, each member of which has obtained the terminal educational degree provided in the field the faculty member teaches under the program; and

(3) to provide library resources, at each such installation, adequate to support the program at such installation, including a fulltime librarian who has obtained a degree in library science.

SEC. 1233. TREATMENT OF COMMUNIST COUNTRIES

(a) the Foreign Missions Act is amended by adding at the end thereof the following new section:

"APPLICATION TO CERTAIN COMMUNIST COUNTRIES

"SEC. 214. (a) Notwithstanding any other provision of this title, the Secretary shall apply to each foreign mission in the United States of the German Democratic Republic, Hungary, Czechoslovakia, Poland, Bulgaria, Rumania, and Cuba the same terms, limitations, restrictions, and conditions which are applied under this title to the foreign mission in the United States of the Soviet Union unless the Secretary determines and so reports to the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives that national security and foreign policy circumstances require that this section be waived in specific circumstances with respect to such country.

"(b) The Secretary shall prepare and transmit to the Select Committee on Intelligence and the Committee on Foreign Relations of the Senate and the Permanent Select Committee on Intelligence and the Committee on Foreign Affairs, of the House of Representatives a report describing—

"(1) not later than thirty days after date of the enactment of this section, the plans of the Secretary for implementing this section; and

"(2) not later than six months thereafter, the actions taken pursuant to these plans.".

(b) Section 202(a)(4) of the Foreign Missions Act is amended—

(1) in the text above clause (A) by inserting ", including Government activities involving international trade," after "governmental activities"; and

(2) in clause (A), by inserting "or any instrumentality thereof" after "foreign government".

SEC. 1234. LIMITATION ON NEW SPENDING AUTHORITY

(a) IN GENERAL.—Any new spending authority (as defined in section 401(c)(2) of the Congressional Budget Act of 1974) provided by—

(1) any of the sections of this Act specified in subsection (b), or

(2) any amendment made by any such section,

shall be effective for any fiscal year only to such extent or in such amounts as are provided in appropriation Acts.

(b) SECTIONS SPECIFIED.—The sections to which subsection (a) applies are sections 611, 625, 631, 635, 636(f), 931, 1004, 1213, 2174, and 2183 of this Act, and those provisions contained in sections 953, 1106, 2181, and 3134.

SEC. 1235. SUBMARINE OVERHAUL STUDY

The Secretary of the Navy shall conduct a detail study and investigation on the desirability and feasibility of applying production line techniques for the overhaul of Los Angeles class submarines. The Secretary shall submit the results of such study and investigation, together with such comments and recommendations as he determines appropriate, to Congress not later than May 1, 1987.

SEC. 1236. CORRECTIONAL FACILITIES AT FORT RILEY, KANSAS

The correctional facilities at Fort Riley, Kansas, may not be closed, transferred, or relocated unless—

(1) the Secretary of Defense has transmitted to Congress a written notice of the intent to close, transfer, or relocate such facilities, as the case may be; and

(2) the 180-day period beginning on the date on which Congress received such notice has expired.

SEC. 1237. PROHIBITION AGAINST USING FUNDS AUTHORIZED FOR THE ADVANCED TECHNOLOGY BOMBER AND THE ADVANCED CRUISE MISSILE PROGRAMS FOR ANY OTHER PURPOSE; AND LIMITATION OF THE B-1B BOMBER FLEET TO 100 AIRCRAFT

(a) It is the sense of Congress that—

(1) the capabilities inherent in the technologies associated with the Advanced Technology Bomber and the Advanced Cruise Missile Program are a critical national security asset for maintaining an adequate and credible deterrent posture;

(2) such technologies and programs should be developed as rapidly as feasible in order to produce and deploy advanced systems which will complicate the military planning of the Soviet Union and as a conse-

quence enhance the deterrant posture of the United States;

(3) such technologies and programs should be funded at the levels authorized in this Act; and

(4) all the funds appropriated for such programs should be fully used for such programs.

(b) None of the funds appropriated pursuant to an authorization of appropriations in this Act to carry out the Advanced Technology Bomber Program or the Advanced Cruise Missile Program may be used for any other purpose.

(c) None of the funds appropriated pursuant to an authorization of appropriations in this or any other Act may be used for research, development, demonstration, procurement or any other purpose related to B-1B bombers beyond the 100 such bombers previously authorized.

SEC. 1238. ARMY NATIONAL GUARD REPORTING

The Secretary of Defense shall require the Chief of the National Guard Bureau to develop and implement procedures to monitor the backlog of maintenance and repair projects of Army National Guard armories.

DIVISION B—MILITARY CONSTRUCTION

SEC. 2000. SHORT TITLE

This division may be cited as the "Military Construction Authorization Act, 1987".

TITLE I—ARMY

SEC. 2101. AUTHORIZED ARMY CONSTRUCTION AND LAND ACQUISITION PROJECTS

(a) INSIDE THE UNITED STATES.—The Secretary of the Army may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations inside the United States:

UNITED STATES ARMY FORCES COMMAND

Camp Dawson, West Virginia, $8,700,000.
Fort Bragg, North Carolina, $11,700,000.
Fort Campbell, Kentucky, $4,500,000.
Fort Carson, Colorado, $11,300,000.
Fort Devens, Massachusetts, $20,800,000.
Fort Drum, New York, $615,000,000.
Fort Hood, Texas, $10,600,000.
Fort Lewis, Washington, $20,500,000.
Fort McPherson, Georgia, $2,900,000.
Fort Ord, California, $6,550,000.
Fort Polk, Louisiana, $27,000,000.
Fort Richardson, Alaska, $11,200,000.
Fort Riley, Kansas, $8,250,000.
Fort Sheridan, Illinois, $2,050,000.
Fort Wainwright, Alaska, $96,700,000.
Presidio of San Francisco, California, $5,100,000.

UNITED STATES ARMY WESTERN COMMAND

Hawaii Various, $12,000,000.
Wheeler Army Air Field, Hawaii, $2,900,000.

UNITED STATES ARMY TRAINING AND DOCTRINE COMMAND

Fort Benning, Georgia, $9,100,000.
Fort Eustis, Virginia, $2,050,000.
Fort Jackson, South Carolina, $9,100,000.
Fort Lee, Virginia, $17,600,000.
Fort Leonard Wood, Missouri, $27,200,000.
Fort Rucker, Alabama, $44,500,000.

MILITARY DISTRICT OF WASHINGTON

Fort Myer, Virginia, $3,800,000.

UNITED STATES ARMY MATERIEL COMMAND

Aberdeen Proving Ground, Maryland, $19,000,000.
Corpus Christi Army Depot, Texas, $9,350,000.
Dugway Proving Ground, Utah, $9,700,000.
Fort Monmouth, New Jersey, $4,900,000.
Navajo Depot Activity, Arizona, $3,900,000.
Redstone Arsenal, Alabama, $19,500,000.
Sierra Army Depot, California, $2,450,000.

UNITED STATES ARMY INFORMATION SYSTEMS COMMAND

Fort Huachuca, Arizona, $17,200,000.

UNITED STATES MILITARY ACADEMY

United States Military Academy, New York, $28,500,000.

ASSISTANT CHIEF OF ENGINEERS

Classified, United States, $7,400,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of the Army may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

EIGHTH UNITED STATES ARMY

Camp Casey, Korea, $22,500,000.
Camp Castle, Korea, $2,850,000.
Camp Greaves, Korea, $2,350,000.
Camp Hovey, Korea, $9,000,000.
Camp Howze, Korea, $4,050,000.
Camp Humphreys, Korea, $15,300,000.
Camp Laguardia, Korea, $2,650,000.
Camp Long, Korea, $5,600,000.
Camp Red Cloud, Korea, $4,550,000.
Camp Stanley, Korea, $4,700,000.
H220, Korea, $2,750,000.
Pusan, Korea, $9,700,000.
Second Infantry, Korea, $5,150,000.
Taegu, Korea, $4,900,000.
Yongsan, Korea, $5,000,000.

UNITED STATES ARMY STRATEGIC DEFENSE COMMAND

Kwajalein, $20,600,000.

UNITED STATES ARMY FORCES COMMAND, OVERSEAS

Classified, $4,000,000.
Various, $4,900,000.

UNITED STATES ARMY EUROPE AND SEVENTH ARMY

SEC. 2102. FAMILY HOUSING

The Secretary of the Army may construct or acquire family housing units (including land acquisition) at the following installations in the number of units shown, and in the amount shown, for each installation:

Fort Wainwright, Alaska, one hundred and fifty units, $33,000,000.

Fort Irwin, California, thirty-eight manufactured home spaces, $730,000.

Fort Ord, California, three hundred and eighty-five units, $34,000,000.

Crailsheim, Germany, forty units, $4,100,000.

Darmstadt, Germany, forty units, $3,150,000.

Erlangen, Germany, one hundred and six units, $9,400,000.

Herzo Base, Germany, thirty-four units, $3,300,000.

Schweinfurt, Germany, ninety units, $8,400,000.

Vilseck, Germany, two hundred and twenty-four units, $21,000,000.

Wildflecken, Germany, twenty-four units, $2,050,000.

Various Locations, Germany, one hundred and twenty units, funded under section 2103.

Fort Polk, Louisiana, five hundred and eighty-three units, $37,000,000.

Kwajalein, Marshall Island, one hundred and thirty-six units, $23,000,000.

Aberdeen Proving Ground, Maryland, one hundred and forty units and seventy manufactured home spaces, $10,800,000.

Fort Drum, New York, one thousand and two hundred units, $91,000,000.

Seneca Army Depot, New York, thirty units, $2,900,000.

SEC. 2103. IMPROVEMENTS TO MILITARY FAMILY HOUSING UNITS

(a) AMOUNT AUTHORIZED.—Subject to section 2825 of title 10, United States Code, the Secretary of the Army may make expenditures—

(1) to improve existing military family housing units in an amount not to exceed $79,500,000; and

(2) for energy conservation projects in an amount not to exceed $15,671,000 from funds which remain available for obligation from savings from prior years.

(b) WAIVER OF MAXIMUM PER UNIT COST FOR CERTAIN IMPROVEMENT PROJECTS.—Notwithstanding the maximum amount per unit for an improvement project under section 2825(b) of title 10, United States Code, the Secretary of the Army may carry out projects to improve existing military family housing units at the following installations in the number of units shown, and in the amount shown, for each installation:

Aschaffenburg, Germany, one hundred and forty-four units, $5,120,000.

Aschaffenburg, Germany, forty-eight units, $2,800,000.

Bremerhaven, Germany, twenty-four units, $1,400,000.

Karlsruhe, Germany, twenty-four units, $1,400,000.

Kitzingen, Germany, one hundred and two units, $5,950,000.

Mainz, Germany, one unit, $69,000.

Worms, Germany, six units, $350,000.

Fort Benjamin Harrison, Indiana, one hundred and sixty-six units, $6,000,000.

Pusan, Korea, forty-eight units, $2,237,000.

Yongsan, Korea, one unit, $70,000.

Fort Indiantown Gap, Pennsylvania, six units, $166,000.

Fort Sam Houston, Texas, twenty-three units, $930,000.

Fort Myer, Virginia, three units, $140,000.

(c) WAIVER OF SPACE LIMITATION FOR GENERAL OFFICER'S QUARTERS AT YONGSAN, KOREA.—(1) Notwithstanding the maximum space limitations under section 2826(a) of title 10, United States Code, the Secretary of the Army may carry out an improvement project to increase the net floor area of the housing unit for one general officer at the United States Army Garrison, Yongsan, Korea, to not more than 3,574 square feet.

(2) For purposes of this subsection, the term "net floor area" has the same meaning given that term by section 2626(f) of title 10, United States Code.

SEC. 2104. FORT DRUM, NEW YORK

The Secretary of the Army may enter into one or more contracts, in advance of appropriations therefor, for the military construction projects authorized by section 2101 to be accomplished at Fort Drum, New York, if such contracts limit the Government's liability to the amount of funds available for obligation at the time each contract is entered into. Such construction may be accomplished by using one-step turn-key selection procedures, or other competitive contracting methods.

SEC. 2105. COMMUNITY PLANNING ASSISTANCE

The Secretary of the Army may not use more than $400,000 from funds appropriated to the Department of the Army for fiscal year 1987 for planning and design purposes to provide planning assistance to local communities located near newly established Light Infantry Division Posts at Fort Drum, New York, and Fort Wainwright, Alaska, if the Secretary determines that the financial resources available to the community (by grant or otherwise) are inadequate.

SEC. 2106. CLEANUP OF CONTAMINATED WATER SUPPLIES ADJACENT TO ROCKY MOUNTAIN ARSENAL

(a) TRANSFER OF FUNDS TO THE ENVIRONMENTAL PROTECTION AGENCY.—(1) The Secretary of the Army (hereinafter in this section referred to as the "Secretary") shall transfer funds available to the Department of Defense for military construction for fiscal year 1987 to the Administrator of the Environmental Protection Agency (hereinafter in this section referred to as the "Administrator") such sums, not to exceed $6,000,000, as may be necessary to enable the Administrator to continue with the selection, design, and implementation of response measures (consistent with the National Contingency Plan) with respect to the contamination of drinking water supplies in south Adams County, Colorado, to the west of the Rocky Mountain Arsenal and south of 80th Avenue. The Secretary may transfer funds under this section only if the Administrator has certified to the Secretary that the Army is a responsible party for the contamination in the area referred to in the preceding sentence.

(b) INTERAGENCY AGREEMENT.—(1) The transfer of funds under this section shall be carried out in accordance with the agreement between Environmental Protection Agency and the Department of the Army entered into on March 20, 1986. Funds transferred under this section shall be in addition to funds previously transferred to the Environmental Protection Agency for such purposes.

(2) The Secretary and the Administrator may enter into an agreement supplemental to the agreement referred to in paragraph (1) if the supplemental agreement can be concluded within seven days after the date of the enactment of the Act. A supplemental agreement entered into under this paragraph may not require the Secretary to transfer funds for the purpose of carrying out the response action described in subsection (a) after the date on which adequate funds become available to the Environmental Protection Agency for such purposes pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601 et seq.).

(3) A supplemental agreement entered into under paragraph (2) shall contain provisions regarding the repayment of amounts transferred pursuant to subsection (a). If such provisions are not agreed to before the expiration of the seven-day period referred to in paragraph (1), repayment shall be made in accordance with the provisions of the agreement between the Environmental Protection Agency and Department of the Army entered into on March 20, 1986.

(c) CONTAMINATION NORTH OF 80TH AVENUE.—The Secretary shall, promptly after enactment of this Act, continue response action with respect to hazardous substances, pollutants, and contaminants affecting water supplies in south Adams County, Colorado, to the west and north of the Rocky Mountain Arsenal and north of 80th Avenue. The cost of such response action shall be paid for out of funds appropriated to the Department of Defense for purposes of the Environmental Restoration Program of the Department of the Army. Such response action shall be carried out in accordance with the recommendations of the Administrator and in consultation with the Colorado Department of Health.

(d) LIABILITY OF ARMY NOT AFFECTED.—Nothing in this subsection shall affect the liability of the Department of the Army or of any other potentially responsible person under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 or under the Solid Waste Disposal Act (42 U.S.C. 6901 et seq.).

(e) LIABILITY OF OTHER PARTIES UNDER SUPERFUND.—Nothing in this section shall be construed to affect the rights of the Secretary to obtain reimbursement under section 107 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 from any potentially responsible party of any amount expended by the Secretary for response action referred to in subsection (a).

SEC. 2107. AUTHORIZATION OF APPROPRIATIONS, ARMY; RECURRING ADMINISTRATIVE PROVISIONS

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986, for military construction, land acquisition, and military family housing functions of the Department of the Army in the total amount of $2,949,746,000 as follows:

(1) For military construction projects inside the United States authorized by section 2101(a), $691,500,000.

(2) For military construction projects outside the United States authorized by section 2101(b), $401,800,000.

(3) For military construction projects inside the United States authorized by section 101 of the Military Construction Authorization Act, 1986, $51,000,000.

(4) For military construction projects outside the United States authorized by section 101 of the Military Construction Authorization Act, 1986, $17,000,000.

(5) For minor construction projects under section 2805 of title 10, United States Code, $99,070,000.

(6) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $130,580,000.

(7) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $387,330,000, of which $24,000,000 is available for planning and design;

(B) for support of military family housing (including the functions described in section 2833 of title 10, United States Code), $1,265,266,000, of which not more than $31,246,000 may be obligated or expended for the leasing of military family housing units in the United States, the Commonwealth of Puerto Rico, and Guam, and not more than $142,639,000 may be obligated or expended for the leasing of military family housing units in foreign countries, and

(C) for the Homeowners Assistance Program as authorized by section 2832 of title 10, United States Code, $5,500,000.

(8)(A) Notwithstanding the amounts authorized to be appropriated by paragraphs (1)-(6) of this subsection, the total amount authorized to be appropriated by this subsection for the purposes described in such paragraphs is $1,326,910,000.

(B) Notwithstanding the amounts authorized to be appropriated by subparagraphs (A) and (B) of paragraph (7) of this subsection, the total amount authorized to be appropriated by this subsection for the purposes described in such subparagraphs is $1,618,396,000.

(b) AUTHORIZATION OF UNOBLIGATED FUNDS FOR ENERGY CONSERVATION PROJECTS.—Funds appropriated to the Department of Defense for fiscal years before fiscal year 1987 which could be used for energy conservation projects for existing military family housing units of the Department of the Army that remain available for obligation are hereby authorized to be made available, to the extent provided in appropriation Acts, for energy conservation projects for military family housing of the Army in an amount not to exceed $15,671,000.

(c) LIMITATION ON TOTAL COST OF CONSTRUCTION PROJECTS AUTHORIZED IN TITLE I.—Notwithstanding the cost variations authorized by section 2853 of title 10, United States Code, and any other cost variation authorized by law, the total cost of all projects carried out under section 2101 of this Act may not exceed the total amount authorized to be appropriated under paragraphs (1) and (2) of subsections (a) and (b).

SEC. 2108. EXTENSION OF CERTAIN AUTHORIZATIONS

(a) EXTENSION OF AUTHORIZATION OF CERTAIN FISCAL YEAR 1984 PROJECTS.—Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1984 (Public Law 98-115; 97 Stat. 780), authorizations for the following projects authorized in section 101 of that Act, as extended by section 606(b) of the Military Construction Authorization Act, 1986 (Public Law 99-167; 99 Stat. 983) shall remain in effect until October 1, 1987, or the date of enactment of the Military Construction Authorization Act for fiscal year 1988, whichever is later:

(1) Unaccompanied personnel housing in the amount of $1,400,000 at Argyroupolis, Greece.

(2) Operations building in the amount of $370,000 at Argyroupolis, Greece.

(3) Multipurpose recreation facility in the amount of $480,000 at Argyroupolis, Greece.

(4) Unaccompanied officer housing in the amount of $600,000 at Perivolaki, Greece.

(5) Operations building in the amount of $410,000 at Perivolaki, Greece.

(6) Multipurpose recreation facility in the amount of $620,000 at Perivolaki, Greece.

(7) Physical fitness training center in the amount of $1,000,000 at Elefsis, Greece.

(b) EXTENSION OF AUTHORIZATION OF CERTAIN FISCAL YEAR 1985 PROJECTS.—Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1985 (Public Law 98-407; 98 Stat. 1515), authorizations for the following projects authorized in section 101 of that Act shall remain in effect until October 1, 1987, or the date of enactment of the Military Con-

struction Authorization Act for fiscal year 1988, whichever is later:

(1) Barracks with dining facility in the amount of $11,400,000 at Presidio of San Francisco, California.

(2) Child care center in the amount of $1,980,000 at Presidio of San Francisco, California.

(3) Barracks in the amount of $6,600,000 at Presidio of San Francisco, California.

(4) Multipurpose recreation facility in the amount of $1,150,000 at Koropi, Greece.

(5) Multipurpose recreation facility in the amount of $960,000 at Katsimidi, Greece.

(6) Barracks modernization in the amount of $660,000 at Argyroupolis, Greece.

(7) Barracks modernization in the amount of $660,000 at Perivolaki, Greece.

(8) Barracks with dining facility in the amount of $2,350,000 at Elefsis, Greece.

(9) Contingency Facility in the amount of $4,300,000 at Palmerola, Honduras.

TITLE II—NAVY

SEC. 2111. AUTHORIZED NAVY CONSTRUCTION AND LAND ACQUISITION PROJECTS

(a) INSIDE THE UNITED STATES.—The Secretary of the Navy may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations inside the United States:

UNITED STATES MARINE CORPS

Headquarters Marine Corps, Arlington, Virginia, $3,020,000.

Marine Corps Base, Camp Lejeune, North Carolina, $33,220,000.

Marine Corps Air Station, Camp Pendleton, California, $8,440,000.

Marine Corps Base, Camp Pendleton, California, $26,730,000.

Marine Corps Air Station, Cherry Point, North Carolina, $12,660,000.

Marine Corps Air Station, El Toro, California, $26,280,000.

Marine Corps Air Station, Kaneohe Bay, Hawaii, $31,580,000.

Marine Corps Air Station, New River, North Carolina, $20,020,000.

Marine Corps Recruit Depot, Parris Island, South Carolina, $7,250,000.

Marine Corps Air Station, Tustin, California, $13,250,000.

Marine Corps Air-Ground Combat Center, Twentynine Palms, California, $36,350,000.

Marine Corps Air Station, Yuma, Arizona, $5,600,000.

CHIEF OF NAVAL OPERATIONS

Naval Academy, Annapolis, Maryland, $2,260,000.

COMMANDER IN CHIEF, ATLANTIC FLEET

Naval Air Station, Brunswick, Maine, $2,160,000.

Naval Air Station, Cecil Field, Florida, $3,730,000.

Naval Air Station, Jacksonville, Florida, $4,810,000.

Naval Amphibious Base, Little Creek, Virginia, $5,890,000.

Naval Supply Center Detachment, Mayport, Florida, $3,730,000.

Naval Submarine Base, New London, Connecticut, $3,160,000.

Naval Station, New York, New York, $56,200,000.

COMMANDER IN CHIEF, PACIFIC FLEET

Naval Air Station, Adak, Alaska, $24,400,000.

Naval Facility, Adak, Alaska, $5,700,000.

Naval Air Station, Alameda, California, $17,675,000.

Naval Submarine Base, Bangor, Washington, $10,500,000.

Naval Amphibious Base, Coronado, California, $17,450,000.

Naval Station, Everett, Washington, $85,400,000.

Naval Air Station, Fallon, Nevada, $31,200,000.

Naval Station, Long Beach, California, $7,050,000.

Naval Magazine, Lualualei, Hawaii, $2,850,000.

Naval Air Station, Miramar, California, $21,550,000.

Naval Station, Pearl Harbor, Hawaii, $3,240,000.

Naval Station, San Diego, California, $18,200,000.

Naval Submarine Base, San Diego, California, $9,100,000.

Naval Station, Seattle, Washington, $2,950,000.

Naval Air Station, Whidbey Island, Washington, $3,510,000.

CHIEF OF NAVAL EDUCATION AND TRAINING

Naval Guided Missile School, Dam Neck, Virginia, $3,140,000.

Naval Training Center, Great Lakes, Illinois, $5,300,000.

Naval Air Station, Kingsville, Texas, $3,140,000.

Combat Systems Technical Schools Command, Mare Island, California, $5,200,000.

Naval Air Station, Memphis, Tennessee, $15,550,000.

Naval Air Station, Meridian, Mississippi, $3,170,000.

Naval Submarine School, New London, Connecticut, $9,540,000.

Naval Education and Training Center, Newport, Rhode Island, $11,700,000.

Fleet Training Center, Norfolk, Virginia, $5,400,000.

Naval Training Center, Orlando, Florida, $8,440,000.

Naval Diving and Salvage Training Center, Panama City, Florida, $2,850,000.

Naval Technical Training Center, Pensacola, Florida, $4,610,000.

Fleet Intelligence Training Center, Pacific, San Diego, California, $4,220,000.

Fleet Training Center, San Diego, California, $3,930,000.

Naval Training Center, San Diego, California, $18,170,000.

Naval Air Station, Whiting Field, Florida, $2,120,000.

NAVAL TELECOMMUNICATIONS COMMAND

Naval Communication Station, Stockton, California, $2,750,000.

NAVAL SECURITY GROUP COMMAND

Naval Security Group Activity, Adak, Alaska, $13,400,000.

NAVAL SUPPLY SYSTEMS COMMAND

Naval Supply Center, Norfolk, Virginia, $3,140,000.

NAVAL AIR SYSTEMS COMMAND

Pacific Missile Range Facility, Barking Sands, Kauai, Hawaii, $8,260,000.

Naval Air Rework Facility, Cherry Point, North Carolina, $37,200,000.

Naval Air Test Center, Patuxent River, Maryland, $19,780,000.

Naval Air Rework Facility, Pensacola, Florida, $8,050,000.

NAVAL FACILITIES ENGINEERING COMMAND

Naval Construction Battalion Center, Gulfport, Mississippi, $14,200,000.

Navy Public Works Center, Norfolk, Virginia, $8,050,000.

Navy Public Works Center, Pearl Harbor, Hawaii, $24,900,000.

Naval Construction Battalion Center, Port Hueneme, California, $3,040,000.

NAVAL SEA SYSTEMS COMMAND

Charleston Naval Shipyard, Charleston, South Carolina, $10,810,000.

Naval Weapons Station, Charleston, South Carolina, $6,130,000.

Naval Weapons Support Center, Crane, Indiana, $6,880,000.

Naval Weapons Station, Earle, New Jersey, $52,500,000.

Long Beach Naval Shipyard, Long Beach, California, $2,450,000.

Norfolk Naval Shipyard, Portsmouth, Virginia, $5,900,000.

Supervisor of Shipbuilding, Pascagoula, Mississippi, $4,120,000.

Portsmouth Naval Shipyard, Kittery, Maine, $22,190,000.

Naval Weapons Station, Seal Beach, California, $6,100,000.

Mare Island Naval Shipyard, Vallejo, California, $5,100,000.

Naval Weapons Station, Yorktown, Virginia, $4,220,000.

OFFICE OF THE CHIEF OF NAVAL RESEARCH

Naval Weapons Center, China Lake, California, $12,750,000.

Naval Surface Weapons Center, Dahlgren, Virginia, $15,960,000.

Naval Research Laboratory, Washington, District of Columbia, $8,730,000.

STRATEGIC SYSTEMS PROJECT OFFICE

Naval Submarine Base, Kings Bay, Georgia, $122,390,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of the Navy may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

MARINE CORPS

Marine Corps Air Station, Futenma, Okinawa, Japan, $3,440,000.

Marine Corps Base, Camp Smedley D. Butler, Okinawa, Japan, $8,950,000.

COMMANDER IN CHIEF, ATLANTIC FLEET

Naval Station, Guantanamo Bay, Cuba, $2,600,000.

Naval Air Station, Keflavik, Iceland, $13,490,000.

Atlantic Fleet Weapons Training Facility, Roosevelt Roads, Puerto Rico, $4,220,000.

Naval Station, Roosevelt Roads, Puerto Rico, $6,290,000.

COMMANDER IN CHIEF, PACIFIC FLEET

Naval Air Facility, Atsugi, Japan, $5,300,000.

Administrative Support Unit, Bahrain Island, $2,550,000.

Naval Air Station, Cubi Point, Republic of the Philippines, $5,300,000.

Mobile Construction Battalion, Camp Covington, Guam, $15,500,000.

COMMANDER IN CHIEF, UNITED STATES NAVAL FORCES EUROPE

Naval Support Activity, Naples, Italy, $5,500,000.

Naval Station, Rota, Spain, $4,600,000.

Classified Locations, $15,700,000.

NAVAL TELECOMMUNICATIONS COMMAND

Naval Communications Area Master Station, Mediterranean, Naples, Italy, $8,250,000.

NAVAL SECURITY GROUP COMMAND

Naval Security Group Activity, Edzell, Scotland, $2,250,000.

OFFICE OF THE CHIEF OF NAVAL RESEARCH

Naval Underwater Systems Center, Andros Island, Bahamas, $3,730,000.

SEC. 2112. FAMILY HOUSING

The Secretary of the Navy may construct or acquire family housing units (including land acquisition) at the following installations in the number of units shown, and in the amount shown, for each installation:

Naval Station, Long Beach, California, three hundred units, $22,900,000.

Naval Air Station, Moffett Field, California, one hundred and twenty-six units, $11,600,000.

Navy Public Works Center, San Francisco, California, three hundred units, $26,450,000.

Marine Corps Air-Ground Combat Center, Twentynine Palms, California, three hundred and ninety-two units and seventy-five mobile home spaces, $35,300,000.

Marine Corps Base, Camp Pendleton, California, one hundred mobile home spaces, $1,800,000.

Marine Corps Base, Camp Lejeune, North Carolina, seventy-five mobile home spaces, $930,000.

Marine Corps Development and Education Command, Quantico, Virginia, fifty mobile home spaces, $790,000.

Naval Station, Keflavik, Iceland, two hundred and fifty units, $48,642,000.

SEC. 2113. IMPROVEMENTS TO MILITARY FAMILY HOUSING UNITS

(a) AMOUNT AUTHORIZED.—Subject to section 2825 of title 10, United States Code, the Secretary of the Navy may make expenditures to improve existing military family housing units in an amount not to exceed $26,580,000.

(b) WAIVER OF MAXIMUM PER UNIT COST FOR CERTAIN IMPROVEMENT PROJECTS.—Notwithstanding the maximum amount per unit for an improvement project under 2825(b) of title 10, United States Code, the Secretary of the Navy may carry out projects to improve existing military family housing units at the following installations in the number of units shown, and in the amount shown, for each installation:

Naval Station, Mare Island, Vallejo, California, one hundred units, $5,200,000.

Marine Corps Logistics Base, Albany, Georgia, one unit, $33,300.

Navy Public Works Center, Great Lakes, Illinois, two hundred and ten units, $9,400,000.

Naval Air Station, Brunswick, Maine, forty-four units, $1,274,600.

Naval Construction Battalion Center, Gulfport, Mississippi, one unit, $28,700.

Naval Air Station, Fallon, Nevada, forty-four units, $1,868,500.

Naval Station, New York, New York, one hundred and twenty units, $9,600,000.

Naval Air Development Center, Warminster, Pennsylvania, six units, $256,800.

Naval Education and Training Center, Newport, Rhode Island, one hundred and eighty-six units, $10,200,000.

Navy Public Works Center, Guam, one unit, $64,700.

Navy Public Works Center, Guam, one hundred and nine units, $10,360,000.

Naval Air Station, Agana, Guam, one hundred units, $9,517,000.

Naval Air Station, Agana, Guam, one unit, $58,600.

SEC. 2114. ACQUISITION OF EXISTING HOUSING UNITS ON GUAM

The Secretary of the Navy may acquire, without reimbursement, eighty-nine existing family housing units constructed and used by the Federal Aviation Agency on land in Finegayan, Guam, held by the Navy under the provisions of section 9 of the International Aviation Facilities Act (49 U.S.C. 1158).

SEC. 2115. AUTHORIZATION OF APPROPRIATIONS, NAVY: RECURRING ADMINISTRATIVE PROVISIONS

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986, for military construction, land acquisition, and military family housing functions of the Department of the Navy in the total amount of $2,161,343,000 as follows:

(1) For military construction projects inside the United States authorized by section 2111(a), $1,082,595,000.

(2) For military construction projects outside the United States authorized by section 2111(b), $107,670,000.

(3) For military construction projects at Kings Bay, Georgia, authorized by section 201(a) of the Military Construction Authorization Act, 1986, $45,450,000.

(4) For minor construction projects under section 2805 of title 10, United States Code, $114,375,000.

(5) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $143,770,000.

(6) For advances to the Secretary of Transportation for construction of defense access roads under section 210 of title 23, United States Code, $5,400,000.

(7) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $176,992,000; and

(B) for support of military housing (including functions described in section 2833 of title 10, United States Code), $560,591,000 of which not more than $5,214,100 may be obligated or expended for the leasing of military family housing in the United States, the Commonwealth of Puerto Rico, and Guam, and not more than $17,244,900 may be obligated or expended for the leasing of military family housing units in foreign countries.

(8)(A) Notwithstanding the amounts authorized to be appropriated by paragraphs (1)-(6) of this subsection, the total amount authorized to be appropriated by this subsection for the purposes described in such paragraphs is $1,437,160,000.

(B) Notwithstanding the amount authorized to be appropriated by subparagraphs (A) and (B) of paragraph (7) of this subsection, the total amount authorized by this subsection for the purposes described by such subparagraphs is $724,183,000.

(b) LIMITATION ON TOTAL COST OF CONSTRUCTION PROJECTS AUTHORIZED IN TITLE II.—Notwithstanding the cost variations authorized by section 2853 of title 10, United States Code, and any other cost variation authorized by law, the total cost of all projects carried out under section 2111 of this Act may not exceed the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a).

SEC. 2116. EXTENSION OF AUTHORIZATION FOR CERTAIN FISCAL YEAR 1984 PROJECTS

Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1985 (Public Law 98-407; 98 Stat. 1515), authorizations for the following projects authorized in section 201 of that Act shall remain in effect until October 1, 1987, or the date of enactment of the Military Construction Authorization Act for fiscal year 1988, whichever is later:

(1) Unaccompanied enlisted personnel housing in the amount of $10,740,000 at the Marine Corps Air Station, Yuma, Arizona.

(2) Antenna support facility in the amount of $320,000 at the Naval Security Group Activity, Adak, Alaska.

(3) Data processing center in the amount of $6,160,000 at the Naval Supply Center, Bremerton, Washington.

(4) Unaccompanied enlisted personnel housing in the amount of $12,130,000 at the Naval Air Station, Whidbey Island, Washington.

(5) Unaccompanied enlisted personnel housing in the amount of $6,600,000 at the Naval Station, Mare Island, Vallejo, California.

(6) Mountain Warfare Training Facility (Bridgeport) in the amount of $1,480,000 for the Marine Corps Base, Camp Pendleton, California.

(7) Medical/Dental Clinic (Bridgeport) in the amount of $1,410,000 for the Naval Hospital, Camp Pendleton, California.

(8) Hospital Modernization in the amount of $29,140,000 at the Naval Hospital, Oakland, California.

(9) Facility Energy Improvements in the amount of $5,770,000 at the Navy Public Works Center, San Francisco, California.

TITLE III—AIR FORCE

SEC. 2121. AUTHORIZED AIR FORCE CONSTRUCTION AND LAND ACQUISITION PROJECTS

(a) INSIDE THE UNITED STATES.—The Secretary of the Air Force may acquire real property and may carry out military construction projects in the amount shown for each of the following installations and locations inside the United States:

AIR FORCE LOGISTICS COMMAND

Hill Air Force Base, Utah, $4,000,000.

Kelly Air Force Base, Texas, $39,000,000.

McClellan Air Force Base, California, $19,500,000.

Newark Air Force Station, Ohio, $3,000,000.

Robins Air Force Base, Georgia, $12,955,000.

Tinker Air Force Base, Oklahoma, $17,300,000.

Wright-Patterson Air Force Base, Ohio, $16,200,000.

AIR FORCE SYSTEM COMMAND

Arnold Air Force Station, Tennessee, $2,800,000.

Edwards Air Force Base, California, $15,000,000.

Hanscom Air Force Base, Massachusetts, $2,700,000.

Patrick Air Force Base, Florida, $2,600,000.

AIR TRAINING COMMAND

Chanute Air Force Base, Illinois, $11,300,000.

Goodfellow Air Force Base, Texas, $10,000,000.

Lackland Air Force Base, Texas, $21,500,000.

Laughlin Air Force Base, Texas, $3,700,000.

Williams Air Force Base, Arizona, $4,900,000.

AIR UNIVERSITY

Gunter Air Force Station, Alabama, $2,900,000.

ALASKAN AIR COMMAND

Eielson Air Force Base, Alaska, $11,600,000.

Galena Airport, Alaska, $11,600,000.

King Salmon Airport, Alaska, $4,050,000.

Shemya Air Force Base, Alaska, $22,300,000.

MILITARY AIRLIFT COMMAND

Andrews Air Force Base, Maryland, $25,000,000.
Charleston Air Force Base, South Carolina, $5,000,000.
Kirtland Air Force Base, New Mexico, $8,700,000.
McChord Air Force Base, Washington, $6,400,000.
McGuire Air Force Base, New Jersey, $7,000,000.
Pope Air Force Base, North Carolina, $2,300,000.
Travis Air Force Base, California, $4,700,000.

SPACE COMMAND

Cape Cod Air Force Station, Massachusetts, $4,300,000.
Falcon Air Force Station, Colorado, $6,400,000.
Peterson Air Force Base, Colorado, $3,050,000.

SPECIAL PROJECT

Various Locations, $37,056,000.

STRATEGIC AIR COMMAND

Beale Air Force Base, California, $7,516,000.
Ellsworth Air Force Base, South Dakota, $7,650,000.
Fairchild Air Force Base, Washington, $2,900,000.
F.E. Warren Air Force Base, Wyoming, $6,000,000.
Grand Forks Air Force Base, North Dakota, $17,040,000.
Grissom Air Force Base, Indiana, $3,000,000.
La Junta Radar Bomb Scoring Site, Colorado, $2,150,000.
Loring Air Force Base, Maine, $12,200,000.
Malmstrom Air Force Base, Montana, $30,770,000.
March Air Force Base, California, $13,600,000.
McConnell Air Force Base, Kansas, $32,760,000.
Minot Air Force Base, North Dakota, $26,660,000.
Offutt Air Force Base, Nebraska, $21,770,000.
Vandenburg Air Force Base, California, $2,700,000.
Whiteman Air Force Base, Missouri, $9,500,000.
Wurtsmith Air Force Base, Michigan, $9,550,000.

TACTICAL AIR COMMAND

Base 39, Classified Location, $2,300,000.
Bergstrom Air Force Base, Texas, $3,390,000.
Cannon Air Force Base, New Mexico, $7,250,000.
Davis-Monthan Air Force Base, Arizona, $11,100,000.
George Air Force Base, California, $7,650,000.
Holloman Air Force Base, New Mexico, $14,160,000.
Homestead Air Force Base, Florida, $3,400,000.
Langley Air Force Base, Virginia, $8,000,000.
Luke Air Force Base, Arizona, $19,480,000.
Mountain Home Air Force Base, Idaho, $12,700,000.
Myrtle Beach Air Force Base, South Carolina, $3,000,000.
Nellis Air Force Base, Nevada, $16,100,000.
Shaw Air Force Base, South Carolina, $3,700,000.
Tyndall Air Force Base, Florida, $13,950,000.
WESTCONUS, $10,300,000.

UNITED STATES AIR FORCE ACADEMY

Air Force Academy, Colorado, $4,000,000.

VARIOUS LOCATIONS

Various Energy Conservation Investment Projects, $9,470,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of the Air Force may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

MILITARY AIRLIFT COMMAND

Lajes Field, Portugal, $15,750,000.

PACIFIC AIR FORCES

Kadena Air Base, Japan, $7,100,000.
Misawa Air Base, Japan, $10,300,000.
Kimhae Air Base, Korea, $3,050,000.
Kunsan Air Base, Korea, $4,650,000.
Osan Air Base, Korea, $14,350,000.
Suwon Air Base, Korea, $3,250,000.
Taegu Air Base, Korea, $2,350,000.
Clark Air Base, Republic of the Philippines, $55,350,000.
Saipan, $5,200,000.

SPACE COMMAND

Sondrestrom Air Base, Greenland, $5,860,000.
Thule Air Base, Greenland, $8,250,000.
Woomera Air Station, Australia, $2,300,000.

TACTICAL AIR COMMAND

Masirah, Oman, $3,500,000.
Thumrait, Oman, $3,400,000.

UNITED STATES AIR FORCES IN EUROPE

Hahn Air Base, Germany, $6,300,000.
Ramstein Air Base, Germany, $31,500,000.
Sembach Air Base, Germany, $7,100,000.
Spangdahlem Air Base, Germany, $6,050,000.
Zweibrucken Air Base, Germany, $2,750,000.
Aviano Air Base, Italy, $4,200,000.
San Vito Air Station, Italy, $3,300,000.
Woensdrecht Air Base, The Netherlands, $22,830,000.
Ankara Air Station, Turkey, $3,050,000.
Incirlik Air Base, Turkey, $9,400,000.
Pirinclik Air Station, Turkey, $3,000,000.
RAF Alconbury, United Kingdom, $13,350,000.
RAF Bentwaters, United Kingdom, $3,700,000.
RAF Fairford, United Kingdom, $2,750,000.
RAF Mildenhall, United Kingdom, $4,700,000.
RAF Upper Heyford, United Kingdom, $12,800,000.
Morocco, Various Locations, $25,400,000.
Base 30, Classified Location, $2,950,000.
Overseas Classified Location, $11,500,000.
Various Locations, Europe, $3,953,000.

SEC. 2122. FAMILY HOUSING

(a) IN GENERAL.—The Secretary of the Air Force may construct or acquire family housing units (including land acquisition) at the following installations, in the number of units shown, and in the amount shown, for each installation:

Bitburg Air Base, Germany, three hundred and thirty-two units, $26,415,000.
Hahn Air Base, Germany, one hundred and fifty units, $11,300,000.
Osan Air Base, Korea, one unit, $160,000.
La Junta Air Force Station, Colorado, forty units, $4,000,000.
Beale Air Force Base, California, family housing maintenance shop, $180,000.
Davis-Monthan Air Force Base, Arizona, family housing management office, $300,000.
McGuire Air Force Base, New Jersey, family housing management office, $325,000.
Pope Air Force Base, North Carolina, family housing management office, $300,000.
Edwards Air Force Base, California, twenty-four mobile home spaces, $376,000.

(b) OSAN AIR BASE, KOREA.—Notwithstanding the space limitations of section 2826 of title 10, United States Code, the Secretary of the Air Force may construct one family housing unit at Osan Air Base, Korea, with a maximum net floor area of 3,000 square feet at a cost not to exceed $160,000.

SEC. 2123. IMPROVEMENTS TO MILITARY FAMILY HOUSING UNITS

(a) AMOUNT AUTHORIZED.—Subject to section 2825 of title 10, United States Code, the Secretary of the Air Force may make expenditures to improve existing military family housing units, including energy conservation projects, in an amount not to exceed $52,644,000.

(b) WAIVER OF MAXIMUM PER UNIT COST FOR CERTAIN IMPROVEMENT PROJECTS.—Notwithstanding the maximum amount per unit for an improvement project under section 2825(b) of title 10, United States Code, the Secretary of the Air Force may carry out projects to improve existing military family housing units at the following installations in the number of units shown, and in the amount shown, for each installation:

Eielson Air Force Base, Alaska, eighty-eight units, $6,186,000.
Elmendorf Air Force Base, Alaska, twelve units, $760,000.
Air Force Academy, Colorado, one unit, $120,000.
Peterson Air Force Base, Colorado, four units, $149,000.
MacDill Air Force Base, Florida, one hundred and fifty-eight units, $4,430,000; seven units, $553,000; seventy-one units, $2,103,000.
Scott Air Force Base, Illinois, one hundred and twelve units, $4,690,000.
Barksdale Air Force Base, Louisiana, one hundred and fourteen units, $5,342,000.
Bangor Air Force Station, Maine, one unit, $30,000.
Andrews Air Force Base, Maryland, seven units, $518,000.
Pease Air Force Base, New Hampshire, two hundred units, $7,177,000.
Plattsburgh Air Force Base, New York, twenty-nine units, $2,272,000.
Shaw Air Force Base, South Carolina, one hundred and twenty-five units, $4,385,000; seventy-four units, $2,598,000.
Carswell Air Force Base, Texas, two hundred and three units, $7,478,000.
Lackland Air Force Base, Texas, sixty-four units, $1,920,000.
Randolph Air Force Base, Texas, five units, $402,000.
Reese Air Force Base, Texas, one hundred units, $2,895,000.
Langley Air Force Base, Virginia, five units, $441,000.
Andersen Air Force Base, Guam, two hundred units, $14,517,000.
Kadena Air Base, Japan, one hundred units, $5,054,000; three units, $240,000.

SEC. 2124. AUTHORIZATION OF APPROPRIATIONS, AIR FORCE; RECURRING ADMINISTRATIVE PROVISIONS

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years

beginning after September 30, 1986, for military construction, land acquisition, and military family housing functions of the Department of the Air Force in the total amount of $2,149,749,000 as follows:

(1) For military construction projects inside the United States authorized by section 2121(a), $695,057,000.

(2) For military construction projects outside the United States authorized by section 2121(b), $321,243,000.

(3) For minor construction projects under section 2805 of title 10, United States Code, $210,280,000.

(4) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $117,260,000.

(5) For advances to the Secretary of Transportation for construction of defense access roads under section 210 of title 23, United States Code, $32,700,000.

(6) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $103,000,000; and

(B) for support of military housing (including functions described in section 2833 of title 10, United States Code), $751,409,000, of which not more than $5,600,000 may be obligated or expended for the leasing of military family housing units in the United States, the Commonwealth of Puerto Rico, and Guam, and not more than $74,176,000 may be obligated or expended for the leasing of military family housing units in the foreign countries.

(7)(A) Notwithstanding the amounts authorized to be appropriated by paragraphs (1)–(5) of this subsection, the total amount authorized to be appropriated by this subsection for the purposes described in such paragraphs is $1,313,280,000.

(B) Notwithstanding the amounts authorized to be appropriated by subparagraphs (A) and (B) of paragraph (6) of this subsection, the total amount authorized to be appropriated for the purposes described by such subparagraphs is $835,409,000.

(b) AUTHORIZATION OF UNOBLIGATED FUNDS FOR ENERGY CONSERVATION PROJECTS.—Funds appropriated to the Department of Defense for fiscal years before fiscal year 1987 which could be used for energy conservation projects of the Department of the Air Force that remain available for obligation are hereby authorized to be made available, to the extent provided in appropriation Acts, for energy conservation projects authorized in section 2121(a) in an amount not to exceed $9,470,000.

(c) LIMITATION ON TOTAL COST OF CONSTRUCTION PROJECTS AUTHORIZED IN TITLE III.—Notwithstanding the cost variations authorized by section 2853 of title 10, United States Code, and any other cost variation authorized by law, the total cost of all projects carried out under section 2121 of this Act may not exceed the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a) and the amount specified in subsection (b).

SEC. 2125. EXTENSION OF CERTAIN AUTHORIZATIONS

Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1985 (Public Law 98-407; 98 Stat. 1515), authorizations for the following projects authorized in section 302 of that Act shall remain in effect until October 1, 1987, or the date of enactment of the Military Construction Authorization Act for fiscal year 1988, whichever is later:

(1) Cadet Gymnasium in the amount of $10,000,000 at the United States Air Force Academy, Colorado.

(2) GLCM—Clothing Sales Store in the amount of $300,000 at Comiso Air Base, Italy.

(3) GLCM—Library in the amount of $570,000 at Florennes Air Base, Belgium.

(4) Anti-Satellite Facilities in the total amount of $16,500,000 at Langley Air Force Base, Virginia, to include: Integrated Maintenance Facility for $9,870,000; Missile and Motor Storage Facility for $3,870,000; Administrative Building for $645,000; Hydrazine Storage for $370,000; Control Center for $860,000; and Cryogen Storage and Procurement Facility for $955,000.

TITLE IV—DEFENSE AGENCIES

SEC. 2131. AUTHORIZED CONSTRUCTION PROJECTS AND LAND ACQUISITION FOR THE DEFENSE AGENCIES

(a) INSIDE THE UNITED STATES.—The Secretary of Defense may acquire real property and carry out military construction projects in the amounts shown for each of the following installations and locations inside the United States:

DEFENSE COMMUNICATIONS AGENCY

Scott Air Force Base, Illinois, $7,600,000.
Pentagon, Virginia, $2,300,000.

DEFENSE LANGUAGE INSTITUTE

Defense Language Institute, Monterey, California, $5,400,000.

DEFENSE LOGISTICS AGENCY

Defense Fuel Support Point, Naval Supply Center, Charleston, South Carolina, $5,130,000.
Defense Depot, Ogden, Utah, $9,780,000.
Defense Fuel Support Point, Mukilteo, Washington, $6,360,000.

DEFENSE MAPPING AGENCY

Aerospace Center, St. Louis, Missouri, $16,700,000.

DEFENSE MEDICAL FACILITIES OFFICE

Edwards Air Force Base, California, $3,950,000.
Pearl Harbor, Hawaii, $9,700,000.
Mountain Home Air Force Base, Idaho, $30,500,000.
Fort Polk, Louisiana, $2,650,000.
Keesler Air Force Base, Mississippi, $3,100,000.
McGuire Air Force Base, New Jersey, $3,800,000.
Kirtland Air Force Base, New Mexico, $16,000,000.
Camp Lejeune, North Carolina, $3,900,000.
Brooke Army Medical Center, San Antonio, Texas, $129,000,000.
Fort Hood, Texas, $3,450,000.
Randolph Air Force Base, Texas, $13,700,000.

DEFENSE NUCLEAR AGENCY

Naval Research Laboratory, Washington, District of Columbia, $3,200,000.

JOINT TACTICAL COMMAND, CONTROL, AND COMMUNICATIONS AGENCY

Fort Huachucha, Arizona, $9,890,000.

NATIONAL SECURITY AGENCY

Fort Meade, Maryland, $9,570,000.
Classified Location, $3,000,000.
Classified Location, $4,000,000.

OFFICE OF THE SECRETARY OF DEFENSE

Classified Location, $3,000,000.
Environmental Restoration, $6,000,000.

STRATEGIC DEFENSE INITIATIVE

Edwards Air Force Base, California, $4,140,000.
Pacific Missile Range, Kaui, Hawaii, $2,890,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of Defense may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

DEFENSE LOGISTICS AGENCY

Defense Fuel Support Point, Chimu Wan, Japan, $6,640,000.
Defense Fuel Support Point, Tsurumi, Japan, $3,520,000.

DEFENSE MEDICAL FACILITIES OFFICE

Boeblingen, Germany, $3,650,000.
Grafenwoehr, Germany, $3,950,000.
Karlsruhe, Germany, $6,800,000.
Vilseck, Germany, $5,600,000.
Camp New Amsterdam, The Netherlands, $6,000,000.

DEPARTMENT OF DEFENSE DEPENDENT SCHOOLS

Naval Air Station, Bermuda, $4,280,000.
Aschaffenburg, Germany, $6,600,000.
Dexheim, Germany, $2,430,000.
Erlangen, Germany, $3,220,000.
Grafenwoehr, Germany, $2,500,000.
Hahn, Germany, $3,470,000.
Heidelberg, Germany, $3,190,000.
Hessisch-Oldendorf, Germany, $2,310,000.
Kaiserslautern, Germany, $7,880,000.
Nuernberg, Germany, $8,580,000.
Stuttgart, Germany, $4,530,000.
Wuerzburg, Germany, $7,760,000.
Woensdrecht, The Netherlands, $7,420,000.

(c) VARIOUS LOCATIONS.—The Secretary of Defense may acquire real property and may carry out military construction projects not otherwise authorized by law for the construction of hazardous waste storage facilities.

SEC. 2132. FAMILY HOUSING

The Secretary of Defense may construct or acquire three family housing units (including land acquisition) at classified locations in the total amount of $270,000.

SEC. 2133. BROOKE ARMY MEDICAL CENTER

(a) AUTHORIZATION TO CONTRACT IN ADVANCE OF APPROPRIATIONS.—The Secretary of Defense may enter into one or more contracts, in advance of appropriations therefor, for the design and construction of the military construction project authorized by section 2131 to be accomplished at Brooke Army Medical Center, San Antonio, Texas, if such contracts limit the Government's liability to the amount of funds available for obligation at the time each contract is entered into. Such design and construction may be accomplished by using one-step turn-key selection procedures, or other competitive contracting methods.

(b) REPEAL PROVISION.—Section 104 of the Military Construction Authorization Act, 1985 (Public Law 98-407; 98 Stat. 1498), is repealed.

SEC. 2134. PROHIBITION ON DESIGN OF PENTAGON ANNEX

None of the funds appropriated pursuant to an authorization contained in this or any other Act may be used for the purpose of designing an administrative complex on the property known as the Pentagon Reservation, Arlington, Virginia, for the purpose of supporting the headquarters of the Department of Defense or the military departments or the support functions of such headquarters.

SEC. 2135. AUTHORIZATION OF APPROPRIATIONS, DEFENSE AGENCIES; RECURRING ADMINISTRATIVE PROVISIONS

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986 for military construction, land acquisition, and military family housing functions of the Department of Defense (other than the military departments), in the total amount of $568,500,000 as follows:

(1) For military construction projects inside the United States authorized by section 2131(a), $189,710,000.

(2) For military construction projects outside the United States authorized by section 2131(b), $100,330,000.

(3) For military construction projects at Fort Meade, Maryland, authorized by section 401(a) of the Military Construction Authorization Act, 1986, $53,700,000.

(4) For military construction projects at Fort Lewis, Washington, authorized by section 101(a) of the Military Construction Authorization Act, 1985, $72,100,000.

(5) For minor construction projects under section 2805 of title 10, United States Code, $30,760,000.

(6) For construction projects under the contingency construction authority of the Secretary of Defense under section 2804 of title 10, United States Code, $5,000,000.

(7) For Conforming Storage Facilities at various locations authorized by section 2131(c), $21,400,000.

(8) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $100,700,000.

(9) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $270,000; and

(B) for support of military housing (including functions described in section 2833 of title 10, United States Code), $17,330,000, of which not more than $14,027,000 may be obligated or expended for the leasing of military family housing units in foreign countries.

(10) Notwithstanding the amounts authorized to be appropriated by paragraphs (1)–(8) of this subsection the total amount authorized to be appropriated by this subsection for the purposes described by such paragraphs is $550,900,000.

(b) LIMITATION ON TOTAL COST OF CONSTRUCTION PROJECTS AUTHORIZED IN TITLE IV.—Notwithstanding the cost variations authorized by section 2858 of title 10, United States Code, and any other cost variations authorized by law, the total cost of all projects carried out under section 2131 of this Act may not exceed the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a).

SEC. 2136. EXTENSION OF AUTHORIZATIONS

Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1985 (Public Law 98-407; 98 Stat. 1515), the authorizations for the construction or acquisition of 6 family housing units in section 402 of such Act shall remain in effect until October 1, 1987, or the date of the Military Construction Authorization Act for fiscal year 1988, whichever is later.

TITLE V—NORTH ATLANTIC TREATY ORGANIZATION INFRASTRUCTURE

SEC. 2141. AUTHORITY OF THE SECRETARY OF DEFENSE TO MAKE CONTRIBUTIONS

The Secretary of Defense may make contributions for the North Atlantic Treaty Organization Infrastructure Program as provided in section 2806 of title 10, United States Code, in an amount not to exceed the sum of the amount authorized to be appropriated for this purpose in section 2142 of this Act and the amount collected from the North Atlantic Treaty Organization as a result of projects previously financed by the United States.

SEC. 2142. AUTHORIZATION OF APPROPRIATIONS, NATO

Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986, for contributions by the Secretary of Defense under section 2806 of title 10, United States Code, for the share of the United States of the cost of projects for the North Atlantic Treaty Organization Infrastructure Program as authorized by section 2041 of this Act, in the amount of $239,000,000.

TITLE VI—GUARD AND RESERVE FORCES FACILITIES

SEC. 2151. AUTHORIZATION FOR GUARD AND RESERVE FACILITIES

There are authorized to be appropriated for fiscal years beginning after September 30, 1986, for the costs of acquisition, architectural and engineering services, and construction of facilities for the Guard and Reserve Forces, and for contributions therefor, under chapter 133 of title 10, United States Code (including the cost of acquisition of land for those facilities), the following amounts:

(1) For the Department of the Army—

(A) for the Army National Guard of the United States, $118,700,000, and

(B) for the Army Reserve, $83,200,000.

(2) For the Department of the Navy, for the Naval and Marine Corps Reserves, $43,800,000.

(3) For the Department of the Air Force—

(A) for the Air National Guard of the United States, $137,000,000, and

(B) for the Air Force Reserve, $55,400,000.

TITLE VII—GENERAL PROVISIONS

PART A—EXPIRATION OF AUTHORIZATIONS AND AMOUNTS REQUIRED TO BE SPECIFIED BY LAW

SEC. 2161. EXPIRATION OF AUTHORIZATIONS AND AMOUNTS REQUIRED TO BE SPECIFIED BY LAW

(a) EXPIRATION OF AUTHORIZATIONS AFTER TWO YEARS.—(1) Except as provided in subsection (b), all authorizations contained in titles I, II, III, IV, and V for military construction projects, land acquisition, family housing projects and facilities, and contributions to the NATO Infrastructure Program (and authorizations of appropriations therefor) shall expire on October 1, 1988, or the date of the enactment of the Military Construction Authorization Act for fiscal year 1989, whichever is later.

(b) EXCEPTION.—The provisions of paragraph (1) do not apply to authorizations for military construction projects, land acquisition, family housing projects and facilities, and contributions to the NATO Infrastructure Program (and authorizations of appropriations therefor), for which appropriated funds have been obligated before October 1, 1988, or the date of the enactment of the Military Construction Authorization Act for fiscal year 1989, whichever is later, for construction contracts, land acquisition, family housing projects and facilities, or contributions to the NATO Infrastructure Program.

SEC. 2162. ESTABLISHMENT OF CERTAIN AMOUNTS REQUIRED TO BE SPECIFIED BY LAW

For projects or contracts initiated during the period beginning on the date of enactment of this Act and ending on the date of the enactment of the Military Construction Authorization Act for fiscal year 1988 or October 1, 1987, whichever is later, the following amounts apply:

(1) The maximum amount for a minor military construction project under section 2805 of title 10, United States Code, is $2,000,000.

(2) The amount of a contract for architectural and engineering services or construction design that makes such a contract subject to the reporting requirement under section 2807 of title 10, United States Code, is $300,000.

(3) The maximum amount per unit for an improvement project for family housing units under section 2825 of title 10, United States Code, is $30,000.

(4) The maximum annual rental for a family housing unit leased in the United States, Puerto Rico, or Guam under section 2828(b) of title 10, United States Code, is $10,000.

(5)(A) The maximum annual rental for a family housing unit leased in a foreign country under section 2828(e)(1) of title 10, United States Code, is $16,800.

(B) The maximum number of family housing units that may be leased at any one time in foreign countries under section 2828(e)(2) of title 10, United States Code, is 34,500.

(6) The maximum rental per year for family housing facilities, or for real property related to family housing facilities, leased in a foreign country under section 2828(f) of title 10, United States Code, is $250,000.

PART B—MILITARY CONSTRUCTION PROGRAM PROVISIONS

SEC. 2171. MINOR CONSTRUCTION

(a) IN GENERAL.—Section 2805 of title 10, United States Code, is amended—

(1) in subsection (b)—

(A) by striking out paragraph (1) and inserting in lieu thereof the following:

"(1) A minor military construction project not identified in the Department of Defense annual budget request for a fiscal year may not be constructed if the estimated cost of such project exceeds 50 percent of the amount specified by law as the maximum amount for a minor military construction project unless the Secretary concerned has notified in writing the appropriate committees of Congress of that decision, of the justification for the project, and of the estimated cost of the project. The project may then be carried out only after the expiration of 21 days following the date on which the notification is received by the committees.";

(B) by striking out paragraph (2); and

(C) by redesignating paragraph (3) as paragraph (2);

(2) by striking out subsection (c) and inserting in lieu thereof the following:

"(c) The Secretary concerned may spend from funds available for operation and maintenance amounts necessary to carry out a minor construction project costing not more than 20 percent of the amount specified by law as the maximum amount for a minor military construction project."; and

(3) by striking out the section heading and inserting in lieu thereof the following:

"§ 2805. Minor construction"

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of chapter 169 of such title is amended by striking out the item relating to section 2805 and inserting in lieu thereof the following:

"2805. Minor construction.".

SEC. 2172. RENOVATION OF FACILITIES

(a) IN GENERAL.—Chapter 169 of title 10, United States Code, is amended by adding at the end of subchapter I the following new section:

"§ 2810. Renovation of facilities

"(a) The Secretary concerned may carry out renovation projects that combine maintenance, repair, and minor construction projects for an entire single-purpose facility or for one or more functional areas of a multipurpose facility. In carrying out such projects, the Secretary concerned may use funds available for operations and maintenance.

"(b) The maximum amount that may be obligated on such a renovation project is the maximum amount specified by law for a minor construction project.

"(c) The construction of a new facility or an addition to an existing facility may not be carried out under the authority of this section.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of such subchapter is amended by adding at the end the following new item:

"2810. Renovation of Facilities.".

SEC. 2173. TEST PROGRAM FOR MILITARY INSTALLATION MASTER PLANNING

In order to provide Congress with information necessary to determine the desirability and feasibility of using installation master plans as a basis for determining long-term military construction requirements, the Secretary of Defense shall, at the same time he submits the annual request for military construction authorization pursuant to section 2859 of title 10, United States Code, for fiscal year 1988, include in such request—

(1) master plans for at least two military installations of each military department; and

(2) a request for the authorization of those construction projects included in the installation master plans referred to in clause (1) that are scheduled to be constructed within five fiscal years after the fiscal year in which the request is submitted.

SEC. 2174. TEST OF LONG-TERM FACILITIES CONTRACTS

Paragraph (1) of section 2809(a) of title 10, United States Code, is amended to read as follows:

"(1)(A) The Secretary concerned may enter into contracts for the construction, management, and/or operation of a facility on or near a military installation for the provision of an activity or service named in subparagraph (B) if the Secretary concerned has identified the proposed project in the budget proposal submitted to Congress and has determined that the facility can be more economically provided under a long-term contract than by conventional means.

"(B) The activities and services referred to in subparagraph (A) are as follows:

"(i) Child care services.

"(ii) Potable and waste water treatment services.

"(iii) Depot supply activities.

"(iv) Troop housing.

"(v) Transient quarters.

"(vi) Other logistic and administrative services, other than depot maintenance.".

SEC. 2175. PLANNING AND DESIGN

(a) IN GENERAL.—Section 2807 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(d) The Secretary of a military department may obtain architectural and engineering services and carry out construction design in connection with any military construction project in any fiscal year with any funds appropriated for such purpose for any previous fiscal year to the extent that such funds are available.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to funds appropriated for military construction projects after the date of the enactment of Public Law 99-103 (99 Stat. 471).

SEC. 2176. SPACE LIMITATIONS ON OFFICER HOUSING

Subsection (b) of section 2826 of title 10, United States Code, is amended to read as follows:

"(b) The applicable maximum net floor area prescribed by subsection (a)—

"(1) may be increased to 3,000 square feet for the housing unit of—

"(A) an officer holding a special command position (as designated by the Secretary of Defense);

"(B) a general or flag officer holding a position of commander; or

"(C) a general or flag officer holding a key and essential staff position which requires extensive official representational duties (as designated by the Secretary of the military department concerned);

"(2) may be increased to 2,100 square feet for the housing unit of the commanding officer of a military installation in the pay grade of O-6 or above; or

"(3) may be increased by 10 percent for the housing unit of the senior noncommissioned officer of a military installation, but an increase may not be made under this clause in the case of any housing unit if an increase is made for such housing unit under subsection (c).".

SEC. 2177. HAZARDOUS WASTE STORAGE

(a) AUTHORITY TO CONSTRUCT.—In order to meet the pressing need for the storage of hazardous and toxic materials and wastes on military installations, the Secretary of Defense may, using funds available for military construction, carry out military construction projects not otherwise authorized by law for the construction of hazardous waste storage facilities.

(b) NOTIFICATION TO CONGRESS.—When a decision is made to carry out a project under this section, the Secretary of Defense shall notify in writing the appropriate committees of Congress of that decision, of the justification for the project, and of the estimated cost of the project. The project may not be initiated until a period of 21 days has elapsed after the date on which the notification is received by the committees.

(c) INCREASE IN COST OF PROJECT.—The cost of a hazardous waste storage facility project carried out under this section may be increased by not more than 25 percent of the estimated cost of the project as contained in the notification provided to the committees pursuant to subsection (b) if the Secretary of Defense determines (A) that such an increase is required for the sole purpose of meeting unusual variations in cost, and (B) that such variations in cost could not have been reasonably anticipated at the time the project justification was originally submitted to the committees.

(d) DEFINITION.—As used in this section, the term "hazardous waste" includes both excess hazardous materials and hazardous wastes as defined by applicable laws and regulations.

(e) EXPIRATION OF AUTHORITY.—A military construction project for the erection of a hazardous waste storage facility may not be commenced under this section after September 30, 1991.

SEC. 2178. BUILD-TO-LEASE AND RENTAL GUARANTEE PILOT PROGRAMS

(a) RENTAL GUARANTEE PROGRAM.—(1) Subsection (b) of section 802 of the Military Construction Authorization Act, 1984 (10 U.S.C. 2821 note), is amended—

(A) by striking out "and" at the end of clause (10);

(B) by striking out the period at the end of clause (11) and inserting in lieu thereof "; and"; and

(C) by adding at the end the following new clause:

"(12) may provide in the agreement for the rental of a child care center, civic center building, and similar type buildings constructed for the support of family housing.".

(2) Subsection (h) of such section is amended by striking out "September 30, 1986" and inserting in lieu thereof "September 30, 1990".

(3) Subsection (b) of such section is amended—

(A) in paragraph (2), by striking out "for operation and maintenance costs which shall (if included) be effective for the term of agreement";

(B) in paragraph (4), by adding "or, at the discretion of the Secretary of the military department concerned, in compliance with the local building codes" after "specifications"; and

(C) in paragraph (5), by striking out "15 years" and inserting in lieu thereof "25 years".

(b) BUILD-TO-LEASE PROGRAM.—Section 2828(g) of title 10, United States Code, is amended—

(1) in paragraph (8)(B), by striking out "600" and inserting in lieu thereof "3,600";

(2) in paragraph (9), by striking out "September 30, 1986" and inserting in lieu thereof "September 30, 1988"; and

(3) by adding at the end the following new paragraph:

"(10) A contract for the lease of family housing under this subsection may include provision for the lease of a child care center, civic center building, and similar type buildings constructed for the support of family housing.".

SEC. 2179. FOREIGN LEASES FOR PERSONNEL HOLDING SPECIAL POSITIONS

Subsection (e)(1) of section 2828 of title 10, United States Code, is amended by striking out "200" and inserting in lieu thereof "220".

PART C—MISCELLANEOUS PROVISIONS

SEC. 2181. RESTRICTIONS ON CONVERSION OF HEATING FACILITIES AT UNITED STATES MILITARY INSTALLATION IN EUROPE

(a) IN GENERAL.—The Secretary of a military department may not convert a heating facility at any United States military installation in Europe from a coal-fired facility to an oil-fired facility, or to any other energy source facility, unless the Secretary of the military department concerned—

(1) determines that the conversion (A) is required by the government of the country in which the facility is located, or (B) is life cycle cost effective; and

(2) has notified Congress of the proposed conversion and a period of 30 days has elapsed following the date on which Congress received the notice.

(b) USE OF COAL.—(1)(A) The Secretary of Defense shall, in each case in which the Sec-

retary determines such action would be cost effective, provide for the use of coal produced in the United States to operate heating facilities at military installations in the United States.

(B) The Secretary of Defense shall take such action as may be necessary to implement, at the earliest practicable date and with funds provided for such purpose by section 8110 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190; 99 Stat. 1222), the program proposed by the Department of Defense in a letter dated August 30, 1985, from the Assistant Secretary of Defense for Acquisition and Logistics to rehabilitate and convert current steam generating plants at defense facilities in the United States to coal burning facilities in order to achieve a coal consumption target of 1,600,000 short tons of coal per year (including at least 300,000 short tons of anthracite coal) above current consumption levels at Department of Defense facilities in the United States by fiscal year 1994: *Provided further,* That during fiscal year 1987, the amount of anthracite coal purchased by the Department shall be at least 300,000 short tons.

(2) In carrying out the actions referred to in paragraph (1), the Secretary shall make maximum use of private venture capital and long-term contracting.

(3) The Secretary shall report to Congress not later than March 1 of each year on the actions taken by the Secretary in carrying out paragraph (1).

(c) REPEAL OF CERTAIN RESTRICTIONS.—Sections 8022 and 8070 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190; 99 Stat. 1207, 1214, and 1222), are repealed.

SEC. 2182. BASE CLOSURE TASK GROUP

(a) ESTABLISHMENT OF TASK GROUP.—The President shall establish a study group to be known as the "Blue Ribbon Task Group on Military Base Closures" (hereinafter in this section referred to as the "Task Group").

(b) FUNCTION OF TASK GROUP.—It shall be the function of the Task Group to study and evaluate military installations with a view to determining and recommending which installations should be closed.

(c) APPOINTMENT OF MEMBERS.—The Task Group shall be composed of 9 members appointed as follows:

(1) Five members appointed by the President.

(2) One member appointed by the majority leader of the Senate.

(3) One member appointed by the minority leader of the Senate.

(4) One member appointed by the speaker of the House of Representatives.

(5) One member appointed by the minority leader of the House of Representatives.

(d) CHAIRMAN.—The President shall designate one of the members of the Task Group to serve as Chairman.

(e) QUORUM.—Five members of the Task Group shall constitute a quorum, but a lesser number may hold hearings. The Task Group shall meet at the call of the Chairman.

(f) VACANCIES.—A vacancy in the Task Group shall be filled in the manner in which the original appointment was made. Appointments may be made under subsection (c) without regard to section 5311(b) of title 5, United States Code. Members shall be appointed for the life of the Task Group.

(g) COMPENSATION OF MEMBERS.—Members of the Task Group may each be paid at a rate equal to the daily equivalent of the rate of basic pay payable for level IV of the Executive Schedule for each day (including travel time) during which they are engaged in the actual performance of the business of the Task Group.

(h) STAFF.—(1) The Task Group may appoint such staff as it considers appropriate. Such personnel shall be paid at a rate not to exceed the rate of basic pay payable for grade GS-18 of the General Schedule under section 5332 of title 5, United States Code.

(2) The Task Group may procure temporary and intermittent services under section 3109(b) of title 5, United States Code.

(3) The Secretary of Defense may detail personnel of the Department of Defense to the Task Group to assist the Task Group in carrying out its duties under this section.

(4) The Secretary of Defense may provide the Task Group such administrative support services as the Task Group may require.

(i) REPORT DEADLINE.—Not later than July 31, 1987, the Task Group shall submit to the President and to Congress a report containing the results of its study together with a list of military installations the Task Group recommends be closed. The report shall be prepared and submitted without any prior review or approval by any official of the executive branch.

(j) TERMINATION OF TASK GROUP.—The Task Group shall cease to exist 90 days after the date on which the report referred to in subsection (i) is submitted to the President and Congress.

(k) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated for fiscal years 1986 and 1987 a total of $1,000,000 to carry out this section. Any amount appropriated under this subsection shall remain available until the termination of the Task Group, except that no amount shall remain available until the Secretary of the Navy (hereinafter in this section referred to as the "Secretary") transfers to the United States Postal Service (hereinafter in this section referred to as the "Postal Service") jurisdiction over approximately 3.2 acres of land, together with improvements thereon, located in Aiea, Hawaii, and the Postal Service pays, out of any funds available to the Postal Service, to the Secretary of the Navy an amount equal to the greater of the following:

(1) The approved fair market value of the property over which jurisdiction is to be transferred (as determined by the Secretary).

(2) The cost of providing to the Navy fleet laundry and dry cleaning facilities to replace facilities located on the land over which jurisdiction is to be transferred pursuant to this subsection.

(l) LEGAL DESCRIPTION OF LAND.—The exact acreage and legal description of the land over which jurisdiction is to be transferred under this section shall be determined by surveys that are satisfactory to the Secretary. The cost of the surveys shall be borne by the Postal Service.

(m) ADDITIONAL TERMS.—(1) The Secretary may require such additional terms and conditions under this section as the Secretary considers appropriate to protect the interest of the Navy.

(2) If the fair market value of the property over which jurisdiction is to be transferred to the Postal Service under subsection (k) exceeds the cost of the replacement fleet laundry and dry cleaning facilities, the Secretary shall deposit the excess into the general fund of the Treasury.

SEC. 2183. DEVELOPMENT OF THE NAVY BROADWAY COMPLEX, SAN DIEGO, CALIFORNIA

(a) IN GENERAL.—(1) The Secretary of the Navy (hereinafter in this section referred to as the "Secretary") may enter into long-term leases or other arrangements for the construction of office and other administrative facilities on land under the jurisdiction of the Secretary in San Diego, California, known as the "Broadway Complex".

(2) The Broadway Complex shall be developed in accordance with detailed plans and terms of development which have been duly formulated by the Navy and the San Diego community through the San Diego Association of Governments' Broadway Complex Coordinating Group.

(3) Long-term leases or other arrangements entered into under this section may provide that facilities constructed on the Broadway Complex be privately owned, jointly owned by the Navy and private developers, or wholly owned by the Navy.

(4) Demolishment of existing facilities and construction of new facilities on the Broadway Complex may be carried out in whole or in part at the expense of private developers.

(5) The Secretary may—

(A) lease land at the Broadway Complex to private developers on a long-term basis; or

(B) enter into leases or other arrangements for provision by private developers of low cost office facilities for use by the Navy.

(6) The Secretary may also receive, obligate, and disburse any funds received from the lease of Navy land at the Broadway Complex for the construction and management of facilities constructed under this section.

(b) AWARD OF CONTRACT.—Contracts entered into by the Secretary under this section shall be awarded through the use of publicly advertised, competitively bid, or competitively negotiated contracting procedures.

(c) TERMS OF CONTRACTS.—(1) The Secretary may require as a condition for the award of a long-term lease of land at the Broadway Complex that the Navy be given the right of first refusal for the purchase of any facilities constructed on the land by or for the lessee.

(2) A long-term lease or other arrangement entered into by the Secretary under this section under which offices or other facilities are constructed by a private developer and leased to the Navy may provide for the operation and maintenance of such facilities by the private developer.

(3) The Secretary may require such additional terms and conditions in connection with any contract or other arrangement entered into under this section as the Secretary considers appropriate to protect the interests of the United States.

(d) PRECONDITION TO CONTRACT.—The Secretary may not enter into a long-term lease or other arrangement under this section until—

(1) a comprehensive plan for the proposed development of the Broadway Complex has been prepared and such plan clearly demonstrates that development under the proposed plan is more economically advantageous to the United States than development of the Complex by the Navy with appropriated funds;

(2) a copy of the proposed plan has been submitted to the appropriate committees of Congress; and

(3) a period of 21 days has elapsed following the date on which the plan is received by the committees referred to in clause (2).

SEC. 2184. SELECTION OF SITE FOR MILITARY FAMILY HOUSING AT SAN PEDRO, CALIFORNIA

(a) IN GENERAL.—(1) The Secretary of the Air Force (hereinafter in this section referred to as the "Secretary") shall consider appropriate sites in San Pedro, California, for the location and construction of 170 military family housing units for members of the Air Force assigned to duty in the area of San Pedro.

(2) The Secretary shall consider as an appropriate site for such housing only land in the San Pedro area in which the United States has a reversionary interest for national defense purposes or land which would be conveyed to the United States without charge.

(3) After the Secretary has selected one or more sites for such housing, he shall file a final environmental impact statement as required under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) on each site determined by the Secretary to be appropriate for the purpose stated in paragraph (1). Within 10 days after the expiration of the 30-day period referred to in section 1506.10(b)(2) of title 40 of the Code of Federal Regulations, the Secretary shall select as a site for the location of the housing units referred to in subsection (a) one of the sites considered appropriate for such purpose.

(b) EXERCISE OF REVERSIONARY RIGHT.—(1) If the land selected as the site for the housing units is subject to a reversionary right on behalf of the United States, the Secretary shall notify the Attorney General of the United States or other appropriate official that the site selected is needed for national defense purposes.

(2) The Attorney General or other appropriate official shall, within 15 days after receiving the notification referred to in paragraph (1), take such action as may be necessary to exercise the reversionary right held by the United States in the land selected as the site for the housing.

(3) Within 15 days after the United States resumes ownership over the land, the Attorney General or other appropriate official shall transfer jurisdiction of such land to the Secretary.

(c) CONSTRUCTION OF MILITARY FAMILY HOUSING.—The Secretary shall use any land made available pursuant to this section as the site for the construction of the 170 military family housing units referred to in subsection (a).

SEC. 2185. GRANTING OF EASEMENTS AND REPLACEMENT OF FAMILY HOUSING UNITS AND OTHER FACILITIES AT MARINE CORPS AIR STATION, EL TORO, CALIFORNIA

(a) AUTHORITY TO GRANT EASEMENTS.—Subject to subsection (b) and other conditions the Secretary may specify in the agreements entered into for the purpose of carrying out this section, the Secretary of the Navy (hereafter in this section referred to as the "Secretary") may grant to Orange County, California, one or more easements through the Marine Corps Air Station, El Toro, California, for street, sidewalk, and related purposes.

(b) MANDATE TO REPLACE FAMILY HOUSING AND OTHER FACILITIES.—(1) Subject to subsection (c), the Secretary shall provide for the replacement of all family housing units and other facilities that are to be demolished as a result of any easement granted under subsection (a).

(2) An easement granted under subsection (a) shall not become effective until the Secretary determines that—

(A) family housing units have been constructed to replace all the family housing units to be demolished as a result of such easement; and

(B) such replacement units meet the applicable requirements specified in the agreements referred to in subsection (a).

(3) Until the determination referred to in paragraph (2) is made, the Secretary shall continue to use, as military family housing, the housing units that are to be demolished as a result of an easement becoming effective.

(c) FUNDING.—(1) The Secretary may use not more than $2,300,000 of the amount appropriated pursuant to the authorization contained in section 2115(a)(7)(A) for payment in connection with the construction of replacement family housing units required by subsection (b).

(2) The Secretary may make available amounts for the construction of such replacement family housing units at the times specified in the agreements referred to in subsection (a).

(3) The Secretary may not make any funds available under this section for the demolition of existing facilities on the land on which easements are granted or for the replacement of any facilities other than family housing facilities.

SEC. 2186. POSTAL FACILITIES

Sections 4779 and 9779 of title 10, United States Code, are each amended—

(1) by striking out subsection (b); and

(2) by redesignating subsection (c) as subsection (b).

SEC. 2186A. STUDY OF NEEDS OF DEPENDENTS' EDUCATIONAL FACILITIES ON MILITARY INSTALLATIONS

(A) IN GENERAL.—The Secretary of Defense and the Secretary of Education shall conduct a joint study for the purpose of determining the needs for construction, extension, remodeling, and rehabilitation of dependents, educational facilities on military installations in the United States and shall develop a joint policy to meet those needs.

(b) REPORT.—(1) Not later than April 1, 1987, the Secretaries of Defense and Education shall submit to Congress a report containing—

(1) a description of the needs determined under subsection (a);

(2) the joint policy developed to meet such needs; and

(3) any recommendations for legislation the Secretaries consider necessary or appropriate to meet such needs.

SEC. 2186B. MULTIFUEL SOURCES FOR NEW HEATING SYSTEMS AT MILITARY INSTALLATIONS

(a) IN GENERAL.—Section 2690 of title 10, United States Code, is amended to read as follows:

"§ 2690. Multifuel sources for new heating systems

"(a) Except as provided in subsection (b), each new heating or cogeneration system which is installed or constructed at any military installation located on lands under the jurisdiction of a military department and which requires 100 million British thermal units input per hour or more shall have multiple fuel capability. The primary and secondary fuel capability of any such system shall be a fuel from the solid fuel group or the liquid and gas hydrocarbon group (petroleum and natural gas). The fuel capability of a new heating or cogeneration system shall be determined on the basis of life cycle costs and availability of fuels.

"(b) In any case in which local restrictions or costs make the installation or construction of solid or dual fuel equipment infeasible, the Secretary concerned may waive the requirement of subsection (a), but such waiver shall not become effective until after the Secretary concerned has notified the appropriate committees of Congress in writing of the waiver and the reasons for exercising such waiver authority.

"(c) In this section, the term 'multiple fuel capability' means the capability of using two or more types of fuel.".

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of chapter 159 of such title is amended by striking out the item relating to section 2690 and inserting in lieu thereof the following:

"2690. Multifuel sources for new heating systems.".

PART D—REAL PROPERTY TRANSACTIONS

SEC. 2187. LAND CONVEYANCE, FORT HUACHUCA, ARIZONA

(a) AUTHORITY TO CONVEY.—The Secretary of the Army (hereinafter in this section referred to as the "Secretary") is authorized to convey to the State of Arizona all right, title, and interest of the United States in and to approximately 26 acres of land which comprise a portion of Fort Huachuca, Arizona, and which border on State Highway 90 at Fort Huachuca. Such acres are located in the East half of Township 21 South, Range 20 East, Gila and Salt River Meridian.

(b) CONSIDERATION.—(1) In consideration for the conveyance authorized by subsection (a), the State of Arizona shall convey to the United States all right, title, and interest of the State in and to 1,536.47 acres of land owned by the State within the East Range at Fort Huachuca and to all mineral rights owned by the State in 12,943 acres located within the East Range at Fort Huachuca. Title to such land and mineral rights shall be conveyed free and clear of encumbrances and third party interests except to the extent waived by the Secretary.

(2) If the fair market value of the lands conveyed by the Secretary under subsection (a) exceeds the fair market value of the lands and mineral interests conveyed to the United States under subsection (b), as determined by the Secretary, the State shall pay the difference to the United States. Any funds received under this subsection shall be covered into the general fund of the Treasury.

(c) AUTHORITY TO SELL ADDITIONAL ACREAGE.—(1) In addition to the acreage authorized to be conveyed under subsection (a), the Secretary is authorized to sell, subject to paragraphs (2) and (3), all right, title, and interest of the United States in and to approximately 203 acres of land (designated by the Secretary) comprising a portion of Fort Huachuca, Arizona.

(2) The sale of the land referred to in paragraph (1) shall be conducted in accordance with competitive bidding procedures prescribed in section 2304 of title 10, United States Code. In no event may the land be sold for less than the fair market value thereof. The fair market value of the property shall be established by an appraisal approved by the Secretary.

(3) If the fair market value of the lands and mineral rights conveyed to the United States pursuant to subsection (b) exceeds the fair market value of the lands conveyed by the United States pursuant to subsection

(a), the Secretary may use the proceeds of the sale under paragraph (1) to pay the difference in value to the State of Arizona. Any proceeds of the sale not used for such purposes shall be covered into the general fund of the Treasury.

(d) LEGAL DESCRIPTION OF LANDS.—The exact acreage and legal descriptions of any property conveyed or acquired under this section shall be based upon surveys which are satisfactory to the Secretary.

(e) ADDITIONAL TERMS.—The Secretary may require such additional terms and conditions in connection with the transactions authorized by this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2188. LAND CONVEYANCE, MARCH AIR FORCE BASE, CALIFORNIA

(a) AUTHORITY TO SELL.—Subject to subsections (b) through (g), the Secretary of the Air Force (hereafter in this section referred to as the "Secretary") may sell all or any portion of a tract of land (together with improvements thereon), comprising a portion of March Air Force Base, California, known as West March and consisting of 845 acres, more or less.

(b) CONDITIONS OF SALE.—The Secretary shall require as a condition of the sale of the property referred to in subsection (a) that the purchaser—

(1) agree to construct on Government-owned land at March Air Force Base, at the expense of the purchaser, in accordance with standards and specifications prescribed by the Secretary, a noncommissioned officers professional education center, a band center, and an addition to, or an alteration of, a combat operations center; and

(2) submit to the Secretary a master plan for the development of the land referred to in subsection (a) that (A) is consistent (as determined by the Secretary) with the Air Installations Compatible Use Zone recommendations of the Air Force, (B) is consistent (as determined by the Secretary) with the future plans of the Air Force for March Air Force Base and the plan for development of Air Force Village West; and (C) is acceptable to the appropriate local government officials of the city and county of Riverside, California.

(c) COMPETITIVE BID REQUIREMENT; MINIMUM SALE PRICE.—(1) The sale of any of the land referred to in subsection (a) shall be carried out under competitive contracting procedures.

(2) In no event may property referred to in subsection (a) be sold for less than fair market value of such property. The value of the property to be conveyed and the consideration to be received shall be determined by appraisals approved by the Secretary. Such appraisals may, in the Secretary's discretion, be paid for from any deposit made by the prospective purchaser or be reimbursed out of such deposit to the fund available for such purposes in the fiscal year reimbursement is made. Any portion of the deposit used to fund or reimburse the cost of appraisals shall be nonrefundable.

(d) REPORT REQUIREMENTS.—(1) The Secretary may not enter into any contract for the sale of any or all of the land referred to in subsection (a) unless—

(A) the Secretary has submitted a report to the appropriate committees of Congress containing the information required in section 2667a(b) of title 10, United States Code; and

(B) a period of 21 days has expired following the date on which the report referred to in such section is received by those committees.

(2) Any report submitted under paragraph (1) shall include—

(A) a description of the price and terms agreed to with the successful bidder; and

(B) a description of the procedures used in selecting a buyer for the land.

(e) USE OF EXCESS FUNDS.—If the fair market value of the property to be conveyed to a purchaser is greater than the fair market value of the facilities to be constructed by the purchaser for the United States, the difference in cash shall be deposited into the general fund of the Treasury.

(f) LEGAL DESCRIPTION OF LAND.—The exact acreage and legal description of the land to be conveyed under this section shall be determined by surveys approved by the Secretary. Such surveys shall be provided by the purchaser or paid for by the Secretary from a deposit made by the prospective purchaser at the time of award. Any portion of the deposit used for surveys shall be nonrefundable.

(g) ADDITIONAL TERMS.—The Secretary may require such additional terms and conditions in connection with any transaction authorized by this section as the Secretary considers appropriate to protect the interests of the United States.

(h) ADDITIONAL AUTHORITY.—The military construction authorized under this section is in addition to any other construction authorized by law.

SEC. 2189. LAND EXCHANGE, LONG BEACH NAVAL STATION, CALIFORNIA

(a) AUTHORITY TO EXCHANGE.—Subject to subsections (b) through (d), the Secretary of the Navy may exchange approximately 16 acres of real property (and improvements thereon) adjacent to Admiral Kidd Park which constitute a portion of the Long Beach Naval Station, California, to the city of Long Beach, California, in exchange for real property (and improvements thereon) located on Hill Street, between Webster Avenue and the Terminal Island Freeway, in Long Beach, California.

(b) CONDITION.—If the fair market value of the real property and improvements conveyed to the city under subsection (a) exceeds the fair market value of the real property and improvements conveyed to the United States, the city shall pay the difference to the United States, and the Secretary shall deposit any funds received under this subsection into the general fund of the Treasury.

(c) LEGAL DESCRIPTION OF LAND.—The exact acreage and legal description of the real property exchanged under this section shall be in accordance with surveys that are satisfactory to the Secretary. The cost of such surveys shall be borne by the city of Long Beach.

(d) ADDITIONAL TERMS.—The Secretary may require such additional terms and conditions under this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2190. LAND CONVEYANCE, WHITTIER NARROWS DAM, LOS ANGELES COUNTY, CALIFORNIA

(a) AUTHORITY TO SELL OR EXCHANGE LAND.—The Secretary of the Army (hereafter in this section referred to as the "Secretary") is authorized to sell or exchange approximately 7.44 acres of land within the Whittier Narrows Flood Control Basin and located north of Rush Street and east of Walnut Grove Avenue in Los Angeles County, California.

(b) SALE OR EXCHANGE REQUIREMENT.—In no event may the land described in subsection (a) and more fully described in subsection (e) be sold or exchanged for less than the fair market value thereof.

(c) CONSIDERATION.—In consideration for the sale or exchange authorized in subsection (a), the Secretary may accept cash or may accept land in the Los Angeles area, or both.

(d) PROCEEDS OF SALE.—Any funds received by the Secretary under this section shall be deposited into the general fund of the Treasury.

(e) LEGAL DESCRIPTION OF LAND.—The real property referred to in subsection (a) is a tract of land containing approximately 7.44 acres, more or less, located on Whittier Narrows Flood Control Basin, Los Angeles County, California. The property comprises those portions of Lot A of Tract No. 3260, as per the map recorded in Book 34 of Maps, page 21, in the office of the Los Angeles County Recorder and that portion of Lots 27 and 28 of Tract No. 830, as per the map recorded in Book 16 of Maps, page 117, in the office of the County Recorder and more particularly described as follows:

> Beginning at the Southeast corner of such Lot A; thence along the south line of such lot North 89° 50' 27" West (northerly line of Rush Avenue) 184.93 feet; thence North 17° 25' 47" East 439.37 feet; thence North 36° 48' 56" East 366.03 feet; thence South 0° 04' 01" East 868.23 feet more or less to the northerly line of Rush Avenue; thence westerly along the north line of Rush Avenue to the point of beginning.

(f) RESERVATIONS.—(1) The land shall be conveyed subject to a perpetual flowage easement in favor of the United States.

(2) The Secretary shall convey the land subject to an agreement by the purchaser to permit the County of Los Angeles to utilize the conveyed premises for the parking of automobiles in connection with recreation activities at Whittier Narrows Golf Course on weekends, holidays, and on such other days as may be specified from time to time by the Secretary.

(g) ADDITIONAL TERMS.—The Secretary may require such additional terms and conditions with respect to the conveyance as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2191. LAND EXCHANGE, SANTA FE, NEW MEXICO

(a) AUTHORITY TO CONVEY.—(1) Subject to subsections (b) through (f), the Secretary of the Army (hereinafter in this section referred to as the "Secretary") is authorized to make the conveyances described in paragraphs (2) and (3).

(2) The Secretary is authorized to convey to the city of Santa Fe, New Mexico (hereinafter in this section referred to as the "City"), all right, title, and interest of the United States in and to the southernmost 27.88 acres, more or less, of the parcel of land conveyed to the State of New Mexico in accordance with the Act of June 19, 1956 (70 Stat. 296). Such 27.88 acre parcel is currently being leased to the City as a public park.

(3) The Secretary is also authorized to convey to the New Mexico State Armory

Board (hereinafter in this section referred to as the "Board"), all right, title, and interest of the United States in and to the northernmost 21.61 acres, more or less, of the parcel of land conveyed to the State of New Mexico in accordance with the Act of June 19, 1956 (70 Stat. 296). Such 21.61 acre parcel currently comprises the State headquarters and other facilities of the New Mexico National Guard.

(b) CONDITIONS.—The lands conveyed by the Secretary under subsection (a) shall be subject to the following conditions:

(1) That the City shall, in accordance with the agreement entered into under subsection (d), provide to the Board a site of not less than 250 acres determined by the Board to be acceptable for the construction of—

(A) an armory for all New Mexico National Guard units located in Santa Fe, New Mexico;

(B) an organizational maintenance shop;

(C) a United States property and fiscal office building and warehouse;

(D) a headquarters complex for the New Mexico National Guard;

(E) a local training area for the New Mexico National Guard units;

(F) a complex for the New Mexico Army National Guard officer candidate school and noncommissioned officer academy; and

(G) additional facilities specified by the National Guard Bureau or the New Mexico State Armory Board.

(2) That the Board shall use the land provided to it by the City pursuant to paragraph (1) for the training and support of the National Guard of New Mexico, and for other military purposes, and that if the site ever ceases to be used for such purposes, all right, title, and interest in and to such property shall revert to and become the property of the United States which shall have the immediate right of entry thereon.

(c) MINERAL RIGHTS.—The conveyances made by the Secretary under subsection (a) shall reserve all mineral rights, including oil and gas, to the United States in accordance with the Act of June 19, 1956 (70 Stat. 296).

(d) GENERAL AUTHORITY.—In order to implement the land exchange authorized by this section, the Secretary is authorized to enter into agreements with the City, the Board, and such other parties the Secretary determines are necessary to effectuate the purpose of this section.

(e) LEGAL DESCRIPTION OF LANDS.—The exact acreage and legal description of the site provided by the City to the Board in accordance with subsection (b) shall be determined by surveys that are satisfactory to the Secretary. The cost of any such surveys shall be borne by the City or the Board.

(f) ADDITIONAL TERMS AND CONDITIONS.—The Secretary may require such other terms and conditions with respect to the transaction authorized by this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2192. COMMUNITY PLANNING ASSISTANCE

The Secretary of Defense may use funds appropriated to the Department of Defense for fiscal year 1987 to provide planning assistance to local communities if the Secretary determines that the financial resources available to the community (by grant or otherwise) are inadequate. The Secretary may use such funds to assist communities located near homeports proposed under the Naval Strategic Dispersal Program at Ingleside, Texas, and other Gulf Coast sites. For fiscal year 1987, not to exceed $200,000 may be used for this purpose at Gulf Coast sites.

SEC. 2193. RELEASE OF CERTAIN USE RIGHTS HELD BY THE UNITED STATES

(a) IN GENERAL.—The Administrator of General Services shall release to the Virginia Port Authority, an instrumentality of the Commonwealth of Virginia, all residuary rights of use held by the United States in three warehouses located in the city of Norfolk, Virginia, within the area operated as a public port facility and known as the Norfolk International Terminals.

(b) TIME LIMITATION; COMPENSATION.—The Administrator of General Services shall execute such documents and take such other actions as may be necessary to release, within 180 days after the date of the enactment of this Act, the rights referred to in subsection (a). The release shall be made without any compensation in addition to compensation paid to the United States for such warehouses and other facilities by the city of Norfolk, Virginia, in 1968.

SEC. 2194. LEASE OF PROPERTY AT THE NAVAL WEAPONS STATION, CHARLESTON, SOUTH CAROLINA

(a) IN GENERAL.—The Secretary of the Navy is authorized to lease to the South Carolina Ports Authority approximately 118 acres of land, together with improvements thereon, at the Naval Weapons Station, Charleston, South Carolina.

(b) TERM OF LEASE.—The lease entered into under subsection (a) may be for such term as the Secretary determines appropriate, but in no event to exceed 25 years.

(c) CONSIDERATION.—In addition to the fair rental value to be paid by the South Carolina Ports Authority for the premises leased pursuant to this section, such Authority shall pay for the cost of replacing certain facilities on the leased premises. The replacement facilities shall be constructed in a manner and at a site determined by the Secretary.

(d) AUTHORITY TO DEMOLISH AND CONSTRUCT FACILITIES.—The Secretary may, under the terms of the lease, authorize the South Carolina Ports Authority to demolish existing facilities on the leased land and to construct new facilities on such land for the use of such Authority.

DIVISION C—DEPARTMENT OF ENERGY NATIONAL SECURITY AND MILITARY APPLICATIONS OF NUCLEAR ENERGY AUTHORIZATION

SEC. 3101. SHORT TITLE

This division may be cited as the "National Security Programs Authorization Act for Fiscal Year 1987".

TITLE I—NATIONAL SECURITY PROGRAMS

SEC. 3111. OPERATING EXPENSES

Funds are authorized to be appropriated to the Department of Energy for fiscal year 1987 for operating expenses incurred in carrying out national security programs (including scientific research and development in support of the Armed Forces, strategic and critical materials necessary for the common defense, and military applications of nuclear energy and related management and support activities) as follows:

(1) For weapons activities, $3,603,379,000.

(2) For materials production, $1,563,390,000.

(3) For defense waste and byproducts management, $455,050,000.

(4) For verification and control technology, $95,500,000.

(5) For nuclear safeguards and security, $61,100,000.

(6) For security investigations, $33,300,000.

(7) For naval reactors development, $509,800,000.

SEC. 3112. PLANT AND CAPITAL EQUIPMENT

Funds are authorized to be appropriated to the Department of Energy for fiscal year 1987 for plant and capital equipment (including planning, construction, acquisition, and modification of facilities, land acquisition related thereto, and acquisition and fabrication of capital equipment not related to construction) necessary for national security programs as follows:

(1) For weapons activities:

Project 87-D-101, general plant projects, various locations, $29,000,000.

Project 87-D-121, general plant projects, various locations, $32,000,000.

Project 87-D-104, safeguards and security enhancements, phase II, Lawrence Livermore National Laboratory, Livermore, California, $2,000,000.

Project 87-D-123, protective clothing decontamination facility, Rocky Flats Plant, Golden, Colorado, $500,000.

Project 87-D-130, receiving and shipping facility, Pinellas Plant, Saint Petersburg, Florida, $300,000.

Project 86-D-103, decontamination and waste treatment facility, Lawrence Livermore National Laboratory, Livermore, California, $0, for a total project authorization of $3,700,000.

Project 86-D-104, strategic defense facility, Sandia National Laboratories, Albuquerque, New Mexico, $13,000,000, for a total project authorization of $17,000,000.

Project 86-D-105, instrumentation systems laboratory, Sandia National Laboratories, Albuquerque, New Mexico, $5,800,000, for a total project authorization of $12,000,000.

Project 86-D-106, laboratory data communications center, Los Alamos National Laboratory, Los Alamos, New Mexico, $12,000,000, for a total project authorization of $15,000,000.

Project 86-D-122, structural upgrade of existing plutonium facilities, Rocky Flats Plant, Golden, Colorado, $0, for a total project authorization of $3,000,000.

Project 86-D-123, environmental hazards elimination, various locations, $0, for a total project authorization of $8,700,000.

Project 86-D-124, safeguards and site security upgrading, phase II, Mound Plant, Miamisburg, Ohio, $1,880,000, for a total project authorization of $4,880,000.

Project 86-D-125, safeguards and site security upgrade, phase II, Pantex Plant, Amarillo, Texas, $8,410,000, for a total project authorization of $9,910,000.

Project 86-D-130, Tritium loading facility replacement, Savannah River Plant, Aiken, South Carolina, $29,700,000, for a total project authorization of $34,700,000.

Project 85-D-102, nuclear weapons research, development, and testing facilities revitalization, phase I, various locations, $29,950,000, for a total project authorization of $130,750,000.

Project 85-D-103, safeguards and security enhancements, Lawrence Livermore National Laboratory and Sandia National Laboratories, Livermore, California, $6,500,000, for a total project authorization of $27,600,000.

Project 85-D-105, combined device assembly facility, Nevada Test Site, Las Vegas, Nevada, $9,400,000, for a total project authorization of $24,000,000.

Project 85-D-106, hardened engineering test building, Lawrence Livermore National Laboratory, Livermore, California, $330,000,

for a total project authorization of $3,030,000.

Project 85-D-112, enriched uranium recovery improvements, Y-12 Plant, Oak Ridge, Tennessee, $19,000,000, for a total project authorization of $38,800,000.

Project 85-D-113, powerplant and steam distribution system, Pantex Plant, Amarillo, Texas, $1,790,000, for a total project authorization of $24,790,000.

Project 85-D-115, renovate plutonium building utility systems, Rocky Flats Plant, Golden, Colorado, $13,440,000, for a total project authorization of $34,040,000.

Project 85-D-121, air and water pollution control facilities, Y-12 Plant, Oak Ridge, Tennessee, $0, for a total project authorization of $19,000,000.

Project 85-D-125, tactical bomb production facilities, various locations, $12,800,000, for a total project authorization of $28,800,000.

Project 84-D-102, radiation-hardened integrated circuit laboratory, Sandia National Laboratories, Albuquerque, New Mexico, $3,000,000, for a total project authorization of $40,500,000.

Project 84-D-107, nuclear testing facilities revitalization, various locations, $13,300,000, for a total project authorization of $79,240,000.

Project 84-D-112, Trident II warhead production facilities, various locations, $14,500,000, for a total project authorization of $155,200,000.

Project 84-D-113, Antisubmarine Warfare/Standoff Weapon Warhead production facilities, various locations, $0, and not more than $5,000,000 of the funds authorized for such project in fiscal year 1986 may be obligated or expended for such project, for a total project authorization of $5,000,000.

Project 84-D-124, environmental improvements, Y-12 Plant, Oak Ridge, Tennessee, $0, for a total project authorization of $29,000,000.

Project 84-D-211, safeguards and site security upgrading, Y-12 Plant, Oak Ridge, Tennessee, $27,220,000, for a total project authorization of $50,220,000.

Project 82-D-107, utilities and equipment restoration, replacement, and upgrade, phase III, various locations, $97,904,000, for a total project authorization of $838,304,000.

Project 82-D-144, simulation technology laboratory, Sandia National Laboratories, Albuquerque, New Mexico, $6,000,000, for a total project authorization of $40,000,000.

(2) For materials production:

Project 87-D-146, general plant projects, various locations, $35,980,000.

Project 87-D-149, reduced chemical discharges to process sewers, Richland, Washington, $3,150,000.

Project 87-D-159, environmental, health, and safety improvements, phase I, Feed Materials Production Center, Fernald, Ohio, $10,000,000.

Project 86-D-149, productivity retention program, phases I and II, various locations, $71,625,000, for a total project authorization of $95,825,000.

Project 86-D-150, in-core neutron monitoring system, N reactor, Richland, Washington, $2,760,000, for a total project authorization of $7,220,000.

Project 86-D-151, PUREX electrical system upgrade, Richland, Washington, $3,780,000, for a total project authorization of $6,280,000.

Project 86-D-152, reactor electrical distribution system, Savannah River, South Carolina, $8,410,000, for a total project authorization of $10,410,000.

Project 86-D-153, additional line III furnace, Savannah River, South Carolina, $7,605,000, for a total project authorization of $9,105,000.

Project 86-D-154, effluent treatment facility, Savannah River, South Carolina, $0, for a total project authorization of $2,500,000.

Project 86-D-156, plantwide safeguards systems, Savannah River, South Carolina, $13,610,000, for a total project authorization of $16,610,000.

Project 86-D-157, hydrofluorination system—FB-line, Savannah River, South Carolina, $2,310,000, for a total project authorization of $4,510,000.

Project 85-D-139, fuel processing restoration, Idaho Fuels Processing Facility, Idaho National Engineering Laboratory (INEL), Idaho, $36,530,000, for a total project authorization of $58,530,000.

Project 85-D-140, productivity and radiological improvements, Feed Materials Production Center, Fernald, Ohio, $23,500,000, for a total project authorization of $41,500,000.

Project 85-D-145, fuel production facility, Savannah River, South Carolina, $33,500,000, for a total project authorization of $59,300,000.

Project 84-D-134, safeguards and security improvements, plantwide, Savannah River, South Carolina, $7,515,000, for a total project authorization of $34,415,000.

Project 84-D-135, process facility modifications, Richland, Washington, $34,475,000, for a total project authorization of $66,975,000.

Project 84-D-136, enriched uranium conversion facility modifications, Y-12 Plant, Oak Ridge, Tennessee, $1,000,000, for a total project authorization of $20,600,000.

Project 82-D-124, restoration of production capabilities, phases II, III, IV, and V, various locations, $3,511,000, for a total project authorization of $352,045,000.

(3) For defense waste and byproducts management:

Project 87-D-171, general plant projects, interim waste operations and long-term waste management technology, various locations, $26,535,000.

Project 87-D-172, WESF K-3 filter upgrade, Richland, Washington, $500,000.

Project 87-D-173, 242-A evaporator crystallizer upgrade, Richland, Washington, $2,800,000.

Project 87-D-174, 241-AQ tank farm, Richland, Washington, $2,100,000.

Project 87-D-175, steam system rehabilitation, phase I, Richland, Washington, $900,000.

Project 87-D-177, test reactor area liquid radioactive waste cleanup system, phase III, Idaho National Engineering Laboratory (INEL), Idaho, $700,000.

Project 87-D-180, burial ground expansion, Savannah River, South Carolina, $6,300,000.

Project 87-D-181, diversion box and pump pit containment buildings, Savannah River, South Carolina, $1,360,000.

Project 86-D-172, B-plant F-filter, Richland, Washington, $2,949,000, for a total project authorization of $3,949,000.

Project 86-D-174, low-level waste processing and shipping system, Feed Materials Production Center, Fernald, Ohio, $9,872,000, for a total authorization of $12,372,000.

Project 86-D-175, Idaho National Engineering Laboratory security upgrade, Idaho National Engineering Laboratory (INEL), Idaho, $7,258,000, for a total project authorization of $9,258,000.

Project 85-D-158, central warehouse upgrade, Richland, Washington, $1,044,000, for a total project authorization of $6,744,000.

Project 85-D-159, new waste transfer facilities, Savannah River, South Carolina, $7,318,000, for a total project authorization of $27,318,000.

Project 85-D-160, test reactor area security system upgrade, Idaho National Engineering Laboratory (INEL), Idaho, $2,703,000, for a total project authorization of $6,953,000.

Project 81-T-105, defense waste processing facility, Savannah River, South Carolina, $123,967,000, for a total project authorization of $721,467,000.

(4) For verification and control technology:

Project 85-D-171, space science laboratory, Los Alamos, New Mexico, $2,000,000, for a total project authorization of $7,500,000.

(5) For naval reactors development:

Project 87-N-101, general plant projects, various locations, $4,800,000.

Project 87-N-102, Kesselring site facilities upgrade, Knolls Atomic Power Laboratory, West Milton, New York, $5,000,000.

Project 87-N-103, computation laboratory addition, Bettis Atomic Power Laboratory, West Mifflin, Pennsylvania, $2,300,000.

(6) For capital equipment not related to construction—

(A) for weapons activities, $287,870,000;

(B) for materials production, $126,090,000;

(C) for defense waste and byproducts management, $37,805,000;

(D) for verification and control technology, $4,200,000;

(E) for nuclear safeguards and security, $4,800,000; and

(F) for naval reactors development, $51,700,000.

SEC. 3113. UNDISTRIBUTED REDUCTIONS

(a) TOTAL AUTHORIZATION.—Notwithstanding sections 3111 and 3112, the total amount authorized to be appropriated to the Department of Energy in this division for national security programs is $7,425,225,000.

(b) REQUIREMENT FOR PROJECT REDUCTIONS.—The Secretary of Energy shall reduce such projects listed in sections 3111 and 3112 in such amounts as he determines appropriate to achieve a total reduction of $300,000,000.

SEC. 3114. BALANCED TECHNOLOGY INITIATIVE

(a) LIMITATION ON FUNDS FOR SDI.—Of the funds authorized to be appropriated in sections 3111 and 3112, not more than $356,000,000 shall be available for research, development, test, and evaluation, and other purposes, in connection with the Strategic Defense Initiative program.

(b) CONVENTIONAL MUNITIONS.—(1) Of the funds authorized to be appropriated in section 3111—

(A) $24,000,000 shall be available to Department of Energy laboratories only for research on advanced conventional munitions and warhead concepts; and

(B) $10,000,000 shall be available only to provide methodological support to the Office of Munitions of the Department of Defense.

(2) In achieving the reduction required to be made under section 3113(b), the Secretary of Energy may not apply any reduction to the amount of funds made available for the purposes specified in paragraph (1) of this subsection.

TITLE II—GENERAL PROVISIONS

PART A—RECURRING GENERAL PROVISIONS

SEC. 3121. REPROGRAMMING

(a) NOTICE TO CONGRESS.—Except as otherwise provided in this division—

(1) no amount appropriated pursuant to this division may be used for any program in excess of 105 percent of the amount authorized for that program by this division or $10,000,000 more than the amount authorized for that program by this division, whichever is the lesser, and

(2) no amount appropriated pursuant to this division may be used for any program which has not been presented to, or requested of, the Congress,

unless a period of 30 calendar days (not including any day on which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain) has passed after receipt by the appropriate committees of Congress of notice from the Secretary of Energy (hereinafter in this title referred to as the "Secretary") containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of such proposed action, or unless each such committee before the expiration of such period has transmitted to the Secretary written notice to the effect that such committee has no objection to the proposed action.

(b) LIMITATION ON AMOUNT OBLIGATED.—In no event may the total amount of funds obligated pursuant to this division exceed the total amount authorized to be appropriated by this title.

SEC. 3122. LIMITS ON GENERAL PLANT PROJECTS

(a) IN GENERAL.—The Secretary may carry out any construction project under the general plant projects provisions authorized by this division if the total estimated cost of the construction project does not exceed $1,200,000.

(b) REPORT TO CONGRESS.—If at any time during the construction of any general plant project authorized by this division, the estimated cost of the project is revised because of unforeseen cost variations and the revised cost of the project exceeds $1,200,000, the Secretary shall immediately furnish a complete report to the appropriate committees of Congress explaining the reasons for the cost variation.

SEC. 3123. LIMITS ON CONSTRUCTION PROJECTS

(a) IN GENERAL.—Whenever the current estimated cost of a construction project, which is authorized by section 3112 of this division, or which is in support of national security programs of the Department of Energy and was authorized by any previous Act, exceeds by more than 25 percent the higher of—

(1) the amount authorized for the project; or

(2) the amount of the total estimated cost for the project as shown in the most recent budget justification data submitted to Congress,

construction may not be started or additional obligations incurred in connection with the project above the total estimated cost, as the case may be, unless a period of 30 calendar days (not including any day in which either House of Congress is not in session because of adjournment of more than three days to a day certain) has passed after receipt by the appropriate committees of the Congress of written notice from the Secretary containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of the action, or unless each committee before the expiration of such period has notified the Secretary it has no objection to the proposed action.

(b) EXCEPTION.—Subsection (a) shall not apply to any construction project which has a current estimated cost of less than $5,000,000.

SEC. 3124. FUND TRANSFER AUTHORITY

To the extent specified in appropriation Acts, funds appropriated pursuant to this division may be transferred to other agencies of the Government for the performance of the work for which the funds were appropriated, and funds so transferred may be merged with the appropriations of the agency to which the funds are transferred.

SEC. 3125. AUTHORITY FOR EMERGENCY CONSTRUCTION DESIGN

In addition to the advance planning and construction design authorized by section 3112 of this division, the Secretary may perform planning and design utilizing available funds for any Department of Energy national security program construction project whenever the Secretary determines that the design must proceed expeditiously in order to meet the needs of national defense or to protect property or human life.

SEC. 3126. FUNDS AVAILABLE FOR ALL NATIONAL SECURITY PROGRAMS OF THE DEPARTMENT OF ENERGY

Subject to the provisions of appropriation Acts, amounts appropriated pursuant to this division for management and support activities and for general plant projects are available for use, when necessary, in connection with all national security programs of the Department of Energy.

SEC. 3127. AVAILABILITY OF FUNDS

When so specified in an appropriation Act, amounts appropriated for "Operating Expenses" or for "Plant and Capital Equipment" may remain available until expended.

PART B—MISCELLANEOUS PROVISION

SEC. 3131. COMPLIANCE WITH ENVIRONMENTAL REQUIREMENTS

Notwithstanding any other provision of law, none of the funds appropriated pursuant to an authorization in this or any other Act may be used to pay any penalty, fine, forfeiture, or settlement, or to perform any work or services requested by another department or agency of the Federal Government or of any agency of a State or local government for any failure by the Department of Energy to comply with an environmental requirement in connection with any defense activity or any defense related facility in excess of the amount specifically appropriated to the Department of Energy to comply with such environmental requirement.

SEC. 3132. IMPLEMENTATION OF THE RECOMMENDATIONS OF THE PRESIDENT'S BLUE RIBBON TASK GROUP ON NUCLEAR WEAPONS PROGRAM MANAGEMENT

(a) ESTABLISHMENT OF COUNCIL.—Chapter 7 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 179. The Nuclear Weapons Council

"(a) There is a Joint Nuclear Weapons Council (hereinafter in this section referred to as the 'Council') composed of three members as follows:

"(1) The Director of Defense Research and Engineering.

"(2) The Vice Chairman of the Joint Chiefs of Staff.

"(3) One senior representative of the Department of Energy appointed by the Secretary of Energy.

"(b)(1) Except as provided in paragraph (2), the Chairman of the Council shall be the member appointed under subsection (a)(1).

"(2) A meeting of the Council shall be chaired by the representative appointed under subsection (a)(3) whenever the matter under consideration is within the primary responsibility or concern of the Department of Energy, as determined by majority vote of the Council.

"(c)(1) The Secretary of Defense and the Secretary of Energy shall enter into an agreement with the Council to furnish necessary staff and administrative services to the Council.

"(2) The Assistant to the Secretary of Defense for Atomic Energy shall be the Staff Director of the Council.

"(d)(1) The Council shall be responsible for the following matters:

"(A) Preparing the annual Nuclear Weapons Stockpile Memorandum.

"(B) Developing nuclear weapons stockpiles options and the costs of such options.

"(C) Coordinating programming and budget matters pertaining to nuclear weapons programs between the Department of Defense and the Department of Energy.

"(D) Identifying various options for cost-effective schedules for nuclear weapons production.

"(E) Considering safety, security, and control issues for existing weapons and for proposed new weapon program starts.

"(F) Ensuring that adequate consideration is given to design, performance, and cost tradeoffs for all proposed new nuclear weapons programs.

"(G) Providing broad guidance regarding priorities for research on nuclear weapons.

"(H) Preparing comments on annual proposals for budget levels for research on nuclear weapons and transmitting those comments to the Secretary of Defense and the Secretary of Energy before the preparation of the annual budget requests by the Secretaries of those departments.

"(I) Providing—

"(i) broad guidance regarding priorities for research on improved conventional weapons, and

"(ii) comments on annual proposals for budget levels for research on improved conventional weapons,

and transmitting such guidance and comments to the Secretary of Defense before the preparation of the annual budget request of the Department of Defense.

"(e) The Council shall submit to the Committees on Armed Services and on Appropriations of the Senate and the House of Representatives a report on the actions that have been taken by the Department of Defense and the Department of Energy to implement the recommendations of the President's Blue Ribbon Task Group on Nuclear Weapons Program Management. The Council shall include in such report its recommendations on the role and composition of the staff of the Council. The Council shall submit such report to the Committees not later than March 1, 1987.".

(f) CONFORMING AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"179. The Nuclear Weapons Council.".

(g) CHAIRMAN OF JCS TO SERVE ON COUNCIL IF THERE IS NO VICE CHAIRMAN OF JCS.—If on the date of the enactment of this section the position of Vice Chairman of the Joint Chiefs of Staff, or comparable posi-

tion, has not been established by law, the Chairman of the Joint Chiefs of Staff shall be a member of the Nuclear Weapons Council established by section 179 of title 10, United States Code, as added by subsection (a). If the position of Vice Chairman of the Joint Chiefs of Staff (or comparable position) is established by law after the date of the enactment of this section, the Chairman of the Joint Chiefs of Staff shall remain a member of such Council only until an individual has been appointed Vice Chairman of the Joint Chiefs of Staff.

(h) REPEAL.—Section 26 of the Atomic Energy Act of 1946 (42 U.S.C. 2037) is repealed.

SEC. 3133. REPORT BY SECRETARY OF ENERGY

The Secretary of Energy shall submit a report to the Committees on Armed Services of the Senate and the House of Representatives on the costs and safety factors involved in constructing adequate containment facilities for nuclear reactors of the Department of Energy compared with the costs and safety factors involved in constructing a new production reactor.

SEC. 3134. EXTENSION OF DATE FOR CERTAIN CONTRACT AUTHORITY

Section 94 of the Atomic Energy Community Act of 1955 (42 U.S.C. 2394) is amended by striking out "June 30, 1986" and inserting in lieu thereof "June 30, 1996".

DIVISION D—CIVIL DEFENSE

SEC. 4101. AUTHORIZATION OF APPROPRIATIONS FOR CIVIL DEFENSE

There is hereby authorized to be appropriated for fiscal year 1987 to carry out provisions of the Federal Civil Defense Act of 1950 (50 U.S.C. App. 2251 et seq.) the sum of $111,565,000.

DIVISION E—BARRY GOLDWATER SCHOLARSHIP AND EXCELLENCE IN EDUCATION PROGRAM

SEC. 5100. SHORT TITLE

This division may be cited as the "Barry Goldwater Scholarship and Excellence in Education Act".

SEC. 5101. STATEMENT OF PURPOSES

The Congress finds that—

(1) Senator Barry Goldwater has served his country for 56 years as a soldier and statesman, including service in the United States Senate for a period of 30 years;

(2) Senator Goldwater has a distinguished record as Chairman of the Select Committee on Intelligence of the Senate and as Chairman of the Committee on Armed Services of the Senate; and

(3) Senator Goldwater has long maintained a special interest in the education of America's youth, particularly in the fields of science and mathematics; and

(4) it would, therefore, be a fitting tribute to the leadership, courage, and vision of Senator Goldwater to establish in his name a scholarship program to foster and encourage excellence in science and mathematics.

SEC. 5102. DEFINITIONS

In this division:

(1) The term "Foundation" means the Barry Goldwater Scholarship and Excellence in Education Foundation established under section 5103(a).

(2) The term "Board" means the Board of Trustees of the Barry Goldwater Scholarship and Excellence in Education Foundation established under section 5103(b).

(3) The term "fund" means the Barry Goldwater Scholarship and Excellence in Education Fund provided for under section 5108.

(4) The term "institution of higher education" means any such institution as defined by section 1201(a) of the Higher Education Act of 1965.

(5) The term "State" means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, and, considered as a single entity, Guam, the Virgin Islands, American Samoa, the Trust Territories of the Pacific Islands, and the Commonwealth of the Northern Marianas.

(6) The term "eligible person" means a citizen or national of the United States or a permanent resident alien of the United States.

SEC. 5103. ESTABLISHMENT OF THE BARRY GOLDWATER SCHOLARSHIP AND EXCELLENCE IN EDUCATION FOUNDATION

(a) There is established, as an independent establishment of the executive branch of the United States Government, the Barry Goldwater Scholarship and Excellence in Education Foundation.

(b) The Foundation shall be subject to the supervision and direction of the Board of Trustees. The Board shall be composed of 13 members, as follows:

(1) Two members from the Senate, one appointed by the majority leader and one appointed by the minority leader of the Senate.

(2) Two members of the House of Representatives, one appointed by the majority leader and one appointed by the minority leader of the House of Representatives.

(3) Eight members, not more than four of whom shall be of the same political party, to be appointed by the President, by and with the advice and consent of the Senate, at least one of whom shall be a representative of the aerospace industry and at least one of whom shall be a representative of a private foundation concerned with aerospace education.

(4) The Secretary of Education, or his designee, who shall serve ex officio as a member of the Board but shall not be eligible to serve as Chairman.

(c) The term of office of each member of the Board shall be six years, except that (1) the members first taking office shall serve as designated by the President, four for terms of two years, five for terms of four years, and four for terms of six years, and (2) any member appointed to fill a vacancy shall serve for the remainder of the term for which his predecessor was appointed and shall be appointed in the same manner as the original appointment for that vacancy was made.

(d) Members of the Board shall serve without pay, but shall be entitled to reimbursement for travel, subsistence, and other necessary expenses incurred in the performance of their duties.

SEC. 5104. BARRY GOLDWATER SCHOLARSHIP AND EXCELLENCE IN EDUCATION AWARDS

(a)(1) The Foundation is authorized to award scholarships and fellowships to eligible persons for study in the fields of science and mathematics. Such scholarships and fellowships shall be awarded to persons as provided in this division who meet the minumum criteria established by the Foundation.

(2) Scholarships shall be awarded to outstanding undergraduate students who intend to pursue careers in mathematics and the natural sciences.

(3) Fellowships shall be awarded to outstanding graduate students who intend to pursue advanced degrees in mathematics and the natural sciences.

(4) The Foundation shall also award scholarships to eligible persons selected on the basis of nationwide competition.

(b) Recipients of scholarships and fellowships under this division shall be known as "Barry Goldwater Scholars".

(c)(1) The Foundation is authorized to award honoraria to outstanding educators, teachers, and persons who have volunteered to assist in secondary schools who have made significant contributions to improve the quality of instruction in mathematics and sciences in the secondary school as follows:

(A) To two such persons selected at large from each State.

(B) To one such person selected from each county in each State.

(2) The Board shall establish a schedule of honoraria to be awarded under paragraph (1).

(3) The Board shall adopt regulations which provide that persons affiliated with secondary schools on military reservations and with the dependent overseas school system shall be appropriately represented among those persons who receive awards under this division.

SEC. 5106. STIPENDS

Each person awarded a scholarship or fellowship under this division shall receive a stipend which shall not exceed the cost to such person for tuition, fees, books, room and board, or such lesser amount as may be prescribed by the Board.

SEC. 5107. SCHOLARSHIP CONDITIONS

(a) A person awarded a scholarship under this division may receive payments authorized under this division only during such periods as the Foundation finds that the person is maintaining satisfactory proficiency and devoting full time to study or research and is not engaging in gainful employment other than employment approved by the Foundation pursuant to regulations of the Board.

(b) The Foundation is authorized to require reports containing such information in such form and to be filed at such times as the Foundation determines to be necessary from any person awarded a scholarship under this division. Such reports shall be accompanied by a certificate from an appropriate official at the institution of higher education, approved by the Foundation, stating that such person is making satisfactory progress in, and is devoting essentially full time to study or research, except as otherwise provided in subsection (a).

SEC. 5108. BARRY GOLDWATER SCHOLARSHIP AND EXCELLENCE IN EDUCATION FUND

(a) There is established in the Treasury of the United States a trust fund to be known as the Barry Goldwater Scholarship and Excellence and Education Fund. The fund shall consist of amounts appropriated to it pursuant to section 5112.

(b) It shall be the duty of the Secretary of the Treasury to invest in full the amounts appropriated to the fund. Such investments may be made only in interest-bearing obligations of the United States or in obligations guaranteed as to both principal and interest by the United States. For such purpose, such obligations may be acquired (1) on original issue at the issue price, or (2) by purchase of outstanding obligations at the market place. The purposes for which obligations of the United States may be issued under the Second Liberty Bond Act are hereby extended to authorize the issuance at par of special obligations exclusively to the fund. Such special obligations shall bear interest at a rate equal to the average rate of interest, computed as to the end of the calendar month next preceding the date of

such issue, borne by all marketable interest-bearing obligations of the United States then forming a part of the public debt, except that where such average rate is not a multiple of ⅛ of 1 percent, the rate of interest of such special obligations shall be the multiple of ⅛ of 1 percent next lower than such average rate. Such special obligations shall be issued only if the Secretary determines that the purchases of other interest-bearing obligations of the United States, or of obligations guaranteed as to both principal and interest by the United States or original issue or at the market price, is not in the public interest.

(c) Any obligation acquired by the fund (except special obligations issued exclusively to the fund) may be sold by the Secretary at the market price, and such special obligations may be redeemed at par plus accrued interest.

(d) The interest on, and the proceeds from the sale or redemption of, any obligations held in the fund shall be credited to and form a part of the fund.

SEC. 5109. EXPENDITURES FROM THE FUND

(a) The Secretary of the Treasury is authorized to pay to the Foundation from the interest and earnings of the fund such sums as the Board determines are necessary and appropriate to enable the Foundation to carry out the purposes of this division.

(b) The activities of the Foundation under this division may be audited by the General Accounting Office under such rules and regulations as may be prescribed by the Comptroller General of the United States. Representatives of the General Accounting Office shall have access to all books, accounts, records, reports, and files and all other papers, things, or property belonging to or in use by the Foundation pertaining to such activities and necessary to facilitate the audit.

SEC. 5110. EXECUTIVE SECRETARY

(a) There shall be an Executive Secretary of the Foundation who shall be appointed by the Board. The Executive Secretary shall be the chief executive officer of the Foundation and shall carry out the functions of the Foundation subject to the supervision and direction of the Board. The Executive Secretary shall carry out such other functions consistent with the provisions of this division as the Board shall prescribe.

(b) The Executive Secretary of the Foundation shall be compensated at the rate specified for employees in grade GS-18 of the General Schedule under section 5332 of title 5, United States Code.

SEC. 5111. ADMINISTRATIVE PROVISIONS

(a) In order to carry out the provisions of this division, the Foundation is authorized to—

(1) appoint and fix the compensation of such personnel as may be necessary to carry out the provisions of this division, except that in no case may an employee other than the Executive Secretary be compensated at a rate to exceed the maximum rate provided for employees in grade GS-15 of the General Schedule under section 5332 of title 5, United States Code;

(2) procure temporary and intermittent services of experts and consultants as are necessary to the extent authorized by section 3109 of title 5, United States Code, but at rates not to exceed the rate specified at the time of such service for grade GS-18 under section 5332 of such title;

(3) prescribe such regulations as it considers necessary governing the manner in which its functions shall be carried out;

(4) receive money and other property donated, bequeathed, or devised, without condition or restriction other than it be used for the purposes of the Foundation, and to use, sell, or otherwise dispose of such property for the purpose of carrying out its functions;

(5) accept and utilize the services of voluntary and noncompensated personnel and for travel expenses, including per diem, as authorized by section 5703 of title 5, United States Code;

(6) enter into contracts or other arrangements, or make grants, to carry out the provisions of this division, and enter into such contracts or other arrangements, or make such grants, with the concurrence of two-thirds of the members of the Board, without performance or other bonds and without regard to section 3709 of the Revised Statutes (41 U.S.C. 5);

(7) make advances, progress, and other payments which the Board considers necessary under this division without regard to the provisions of section 3324 of title 31, United States Code;

(8) rent office space in the District of Columbia; and

(9) make other necessary expenditures.

(b) The Foundation shall submit to the President and to Congress an annual report of its operations under this division.

SEC. 5112. APPROPRIATIONS AUTHORIZED

There are authorized to be appropriated to the Department of Defense $40,000,000 to be transferred to the Treasury for the fund.

DIVISION F—CHILD NUTRITION

TITLE I—REAUTHORIZATION OF CHILD NUTRITION PROGRAMS

SEC. 6101. SUMMER FOOD SERVICE PROGRAM FOR CHILDREN

Section 13(p) of the National School Lunch Act (42 U.S.C. 1761(p)) is amended by striking out "1984" and inserting in lieu thereof "1989".

SEC. 6102. COMMODITY DISTRIBUTION PROGRAM

Section 14(a) of the National School Lunch Act (42 U.S.C. 1762a(a)) is amended by striking out "1984" and inserting in lieu thereof "1989".

SEC. 6103. STATE ADMINISTRATIVE EXPENSES

Section 7(i) of the Child Nutrition Act of 1966 (42 U.S.C. 1776(i)) is amended by striking out "1984" and inserting in lieu thereof "1989".

SEC. 6104. SPECIAL SUPPLEMENTAL FOOD PROGRAM FOR WOMEN, INFANTS, AND CHILDREN

Section 17 of the Child Nutrition Act of 1966 (42 U.S.C. 1786) is amended—

(1) in subsection (c)(2), by striking out "Subject to" and all that follows through "1984" and inserting in lieu thereof "Subject to amounts appropriated to carry out this section under subsection (g)";

(2) in subsection (g)—

(A) by designating the first and second sentences as paragraphs (1) and (3), respectively; and

(B) by amending paragraph (1) (as so designated) to read as follows:

"(1) There are authorized to be appropriated to carry out this section $1,570,000,000 for the fiscal year ending September 30, 1986, such sums as may be necessary for each of the fiscal years ending September 30, 1987, and September 30, 1988, and $1,782,000,000 for the fiscal year ending September 30, 1989."; and

(3) in subsection (h)(2), by striking out "1984" and inserting in lieu thereof "1989".

SEC. 6105. NUTRITION EDUCATION AND TRAINING PROGRAM

The first sentence of section 19(j)(2) of the Child Nutrition Act of 1966 (42 U.S.C. 1788(j)(2)) is amended by striking out "1984" and inserting in lieu thereof "1989".

TITLE II—SCHOOL LUNCH AND BREAKFAST PROGRAMS

SEC. 6201. BASIS OF COMMODITY ASSISTANCE

Section 6(b) of the National School Lunch Act (42 U.S.C. 1755(b)) is amended—

(1) in the first sentence, by striking out "May 15" and inserting in lieu thereof "June 1"; and

(2) in the second sentence, by striking out "June 15" and inserting in lieu thereof "July 1".

SEC. 6202. INCLUSION OF WHOLE MILK AS A SCHOOL LUNCH BEVERAGE

Effective July 1, 1986, section 9(a) of the National School Lunch Act (42 U.S.C. 1758(a)) is amended—

(1) by designating the first, second, and third sentences as paragraphs (1), (3), and (4), respectively; and

(2) by inserting after paragraph (1) (as so designated) the following new paragraph:

"(2) In addition to such other forms of milk as the Secretary may determine, the lunches shall offer whole milk as a beverage.".

SEC. 6203. AUTOMATIC ELIGIBILITY FOR CERTAIN PROGRAMS

Effective July 1, 1986, section 9(b) of the National School Lunch Act (42 U.S.C. 1758(b)) is amended by adding at the end thereof the following new paragraph:

"(6)(A) A child shall be considered automatically eligible for a free lunch and breakfast under this Act and the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.), respectively, without further application or eligibility determination, if the child is a member of—

"(i) a household receiving assistance under the food stamp program authorized under the Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.); or

"(ii) an AFDC assistance unit (under the aid to families with dependent children program authorized under part A of title IV of the Social Security Act (42 U.S.C. 601 et seq.)), in a State where the standard of eligibility for the assistance does not exceed 130 percent of the poverty line (as defined in section 673(2) of the Community Services Block Grant Act (42 U.S.C. 9902(2))).

"(B) Proof of receipt of food stamps or aid to families with dependent children shall be sufficient to satisfy any verification requirement imposed under paragraph (2)(C).".

SEC. 6204. LIMITATION ON MEAL CONTRACTING

Effective July 1, 1986, section 9 of the National School Lunch Act (42 U.S.C. 1758) is amended by adding at the end thereof the following new subsection:

"(e) A school or school food authority participating in a program under this Act may not contract with a food service company to provide a la carte food service unless the company agrees to offer free, reduced-price, and full-price reimbursable meals to all eligible children.".

SEC. 6205. CHANGE IN TUITION LIMITATION FOR PRIVATE SCHOOLS

(a) SCHOOL LUNCH PROGRAMS.—Section 12(d)(5) of the National School Lunch Act (42 U.S.C. 1760(d)(5)) is amended—

(1) in clause (A) of the first sentence, by striking out "$1,500" and inserting in lieu thereof "$2,000"; and

(2) by adding at the end thereof the following new sentence: "On July 1, 1988, and each July 1 thereafter, the Secretary shall adjust the tuition limitation amount prescribed in clause (A) of the first sentence of this paragraph to reflect changes in the Consumer Price Index for All Urban Consumers during the most recent 12-month period for which the data is available.".

(b) SCHOOL BREAKFAST PROGRAMS.—Section 15(c) of the Child Nutrition Act of 1966 (42 U.S.C. 1784(c)) is amended—

(1) in clause (A) of the first sentence, by striking out "$1,500" and inserting in lieu thereof "$2,000"; and

(2) by adding at the end thereof the following new sentence: "On July 1, 1988, and each July 1 thereafter, the Secretary shall adjust the tuition limitation amount prescribed in clause (A) of the first sentence of this paragraph to reflect changes in the Consumer Price Index for All Urban Consumers during the most recent 12-month period for which the data is available.".

(c) APPLICATION.—(1) The amendments made by subsections (a)(1) and (b)(1) shall apply for the fiscal year beginning on October 1, 1986, and each school year thereafter.

(2) The amendments made by subsections (a)(2) and (b)(2) shall apply for the school year beginning on July 1, 1988, and each school year thereafter.

SEC. 6206. USE OF SCHOOL LUNCH FACILITIES FOR ELDERLY PROGRAMS

Section 12 of the National School Lunch Act (42 U.S.C. 1760) is amended by adding at the end thereof the following new subsection:

"(i) Facilities, equipment, and personnel provided to a school food authority for a program authorized under this Act or the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.) may be used, as determined by a local educational agency, to support a nonprofit nutrition program for the elderly, including a program funded under the Older Americans Act of 1965 (42 U.S.C. 3001 et seq.).".

SEC. 6207. PILOT PROJECTS FOR ADMINISTRATION OF CHILD NUTRITION PROGRAMS BY CONTRACT OR DIRECT DISBURSEMENT

(a) PILOT PROJECTS.—Section 20 of the National School Lunch Act (42 U.S.C. 1769) is amended by striking out subsection (d) and inserting in lieu thereof the following new subsection:

"(d) The Secretary may conduct pilot projects in not more than three States in which the Secretary is currently administering programs to evaluate the effects of the Secretary contracting with private profit and nonprofit organizations to act as a State agency under this Act and the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.) for schools, institutions, or service institutions referred to in section 10 of this Act and section 5 of the Child Nutrition Act of 1966 (42 U.S.C. 1774).".

(b) CONFORMING AMENDMENT.—The first sentence of section 20(c) of the National School Lunch Act is amended by striking out "except for the pilot projects conducted under subsection (d) of this section,".

SEC. 6208. DEPARTMENT OF DEFENSE OVERSEAS DEPENDENTS' SCHOOLS

(a) SCHOOL LUNCHES.—Section 22(d) of the National School Lunch Act (42 U.S.C. 1769b(d)) (as added by section 1408(a) of the Education Amendments of 1978 (92 Stat. 2368)) is amended by striking out "and for" and all that follows through "reduced-price lunch".

(b) SCHOOL BREAKFASTS.—Section 20(d) of the Child Nutrition Act of 1966 (42 U.S.C. 1789) is amended by striking out "and for" and all that follows through "reduced-price breakfast".

SEC. 6209. RESTORATION OF CERTAIN KINDERGARTENS TO THE SPECIAL MILK PROGRAM

Effective October 1, 1986, section 3(a) of the Child Nutrition Act of 1966 (42 U.S.C. 1772(a)) is amended—

(1) in the first sentence—

(A) by inserting "(1)" after the subsection designation;

(B) by redesignating clauses (1) and (2) as subparagraphs (A) and (B), respectively; and

(C) in subparagraph (A) (as so redesignated), by inserting "except as provided in paragraph (2)," after "and under,";

(2) by designating the second through eighth sentences as paragraphs (3) through (9), respectively; and

(3) by inserting after paragraph (1) (as so designated) the following new paragraph:

"(2) The limitation imposed under paragraph (1)(A) for participation of nonprofit schools in the special milk program shall not apply to split-session kindergarten programs conducted in schools in which children do not have access to the meal service program operating in schools the children attend as authorized under this Act or the National School Lunch Act (42 U.S.C. 1751 et seq.).".

SEC. 6210. IMPROVEMENT OF BREAKFAST PROGRAM MEAL PATTERN

(a) ADDITIONAL ASSISTANCE.—Effective October 1, 1986, section 4(b) of the Child Nutrition Act of 1966 (42 U.S.C. 1773(b)) is amended by adding at the end thereof the following new paragraphs:

"(3) The Secretary shall increase by 3 cents the annually adjusted payment for each breakfast served under this Act and section 17 of the National School Lunch Act (42 U.S.C. 1776). These funds shall be used to assist States, to the extent feasible, in improving the nutritional quality of the breakfasts.

"(4) Notwithstanding any other provision of law, whenever stocks of agricultural commodities are acquired by the Secretary or the Commodity Credit Corporation and are not likely to be sold by the Secretary or the Commodity Credit Corporation or otherwise used in programs of commodity sale or distribution, the Secretary shall make such commodities available to school food authorities and eligible institutions serving breakfasts under this Act in a quantity equal in value to not less than 3 cents for each breakfast served under this Act and section 17 of the National School Lunch Act.

"(5) Expenditures of funds from State and local sources for the maintenance of the breakfast program shall not be diminished as a result of funds or commodities received under paragraph (3) or (4).".

(b) NUTRITION REQUIREMENTS.—(1) The Secretary of Agriculture shall review and revise the nutrition requirements for meals served under the breakfast program authorized under the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.) and section 17 of the National School Lunch Act (42 U.S.C. 1766) to improve the nutritional quality of the meals, taking into consideration both the findings of the National Evaluation of School Nutrition Programs and the need to provide increased flexibility in meal planning to local food authorities.

(2) Not later than 180 days after the date of enactment of this Act, the Secretary of Agriculture shall promulgate regulations to implement the revisions.

SEC. 6211. EXTENSION OF OFFER VERSUS SERVE PROVISION TO THE SCHOOL BREAKFAST PROGRAM

Section 4(e) of the Child Nutrition Act of 1966 (42 U.S.C. 1773(e)) is amended—

(1) by inserting "(1)" after the subsection designation; and

(2) by adding at the end thereof the following new paragraph:

"(2) At the option of a local school food authority, a student in a school under the authority that participates in the school breakfast program under this Act may be allowed to refuse not more than one item of a breakfast that the student does not intend to consume. A refusal of an offered food item shall not affect the full charge to the student for a breakfast meeting the requirements of this section or the amount of payments made under this Act to a school for the breakfast.".

SEC. 6212. STAFFING STANDARDS

Section 7 of the Child Nutrition Act of 1966 (42 U.S.C. 1776) (as amended by section 103) is further amended—

(1) by striking out subsection (b); and

(2) by redesignating subsections (c) through (i) as subsections (b) through (h), respectively.

TITLE III—SPECIAL SUPPLEMENTAL FOOD PROGRAM FOR WOMEN, INFANTS, AND CHILDREN

SEC. 6301. COSTS FOR NUTRITION SERVICES AND ADMINISTRATION

(a) DEFINITIONS.—Section 17(b) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(b)) is amended—

(1) by striking out paragraph (1);

(2) by redesignating paragraphs (2), (3), and (4) as paragraphs (1), (2), and (3), respectively; and

(3) by inserting after paragraph (3) (as so redesignated) the following new paragraph:

"(4) 'Costs for nutrition services and administration' means costs that shall include, but not be limited to, costs for certification of eligibility of persons for participation in the program (including centrifuges, measuring boards, spectrophotometers, and scales used for the certification), food delivery, monitoring, nutrition education, outreach, startup costs, and general administration applicable to implementation of the program under this section, such as the cost of staff, transportation, insurance, developing and printing food instruments, and administration of State and local agency offices.".

(b) CONFORMING AMENDMENTS.—Section 17 of such Act is amended—

(1) by striking out "administrative funds" each place it appears in subsections (f)(11), (h)(2), (h)(3), and (h)(4) and inserting in lieu thereof "funds for nutrition services and administration"; and

(2) by striking out "administrative costs" each place it appears in subsection (h) and inserting in lieu thereof "costs for nutrition services and administration".

SEC. 6302. STATE ELIGIBILITY FOR WIC FUNDS

(a) ELIGIBILITY.—Section 17(c) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(c)) is amended by adding at the end thereof the following new paragraph:

"(4) A State shall be ineligible to participate in programs authorized under this section if the Secretary determines that State or local sales taxes are collected within the State on purchases of food made to carry out this section.".

(b) APPLICATION.—The amendment made by subsection (a) shall apply to a State beginning with the fiscal year that commences after the end of the first regular session of

the State legislature following the date of the enactment of this Act.

SEC. 6303. PARTICIPATION REPORT

(a) BIENNIAL REPORT.—Section 17(d) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(d)) is amended by adding at the end thereof the following new paragraph:

"(4) The Secretary shall report biennially to Congress on—

"(A) the income and nutritional risk characteristics of participants in the program;

"(B) participation in the program by members of families of migrant farmworkers; and

"(C) such other matters relating to participation in the program as the Secretary considers appropriate.".

(b) USE OF EVALUATION FUNDS FOR REPORT.—Section 17(g)(3) of such Act (as amended by section 104(2)(A)) is further amended by inserting "preparing the report required under subsection (d)(4)," after "health benefits,".

SEC. 6304. PLAN OF OPERATION AND ADMINISTRATION

(a) PLAN.—Paragraph (1) of section 17(f) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(f)(1)) is amended to read as follows:

"(1)(A) Each State agency shall submit annually to the Secretary, by a date specified by the Secretary, a plan of operation and administration for a fiscal year.

"(B) To be eligible to receive funds under this section for a fiscal year, a State agency must receive the approval of the Secretary for the plan submitted for the fiscal year.

"(C) The plan shall include—

"(i) a description of the food delivery system of the State agency and the method of enabling participants to receive supplemental foods under the program, to be administered in accordance with standards developed by the Secretary;

"(ii) a description of the financial management system of the State agency;

"(iii) a plan to coordinate operations under the program with special counseling services, such as the expanded food and nutrition education program, immunization programs, prenatal care, well-child care, family planning, alcohol and drug abuse counseling, child abuse counseling, and with the aid to families with dependent children, food stamp, and maternal and child health care programs;

"(iv) a plan to provide program benefits under this section to, and to meet the special nutrition education needs of, eligible migrants and Indians;

"(v) a plan to expend funds to carry out the program during the relevant fiscal year;

"(vi) a plan to provide program benefits under this section to unserved and underserved areas in the State, if sufficient funds are available to carry out this clause;

"(vii) a plan to provide program benefits under this section to eligible persons most in need of the benefits and to enroll eligible women in the early months of pregnancy, to the maximum extent practicable; and

"(viii) such other information as the Secretary may require.

"(D) The Secretary may permit a State agency to submit only those parts of a plan that differ from plans submitted for previous fiscal years.

"(E) The Secretary may not approve any plan that permits a person to participate simultaneously in both the program authorized under this section and the commodity supplemental food program authorized under sections 4 and 5 of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c note).".

(b) APPLICATION.—The amendment made by subsection (a) shall apply to a plan submitted by a State agency under section 17(f)(1) of the Child Nutrition Act of 1966 for the fiscal year ending September 30, 1987, and each fiscal year thereafter.

SEC. 6305. PUBLIC COMMENT

Paragraph (2) of section 17(f) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(f)(2)) is amended to read as follows:

"(2) A State agency shall establish a procedure under which members of the general public are provided an opportunity to comment on the development of the State agency plan.".

SEC. 6306. AVAILABILITY OF PROGRAM BENEFITS

Paragraph (8) of section 17(f) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(f)(8)) is amended to read as follows:

"(8)(A) The State agency shall, in cooperation with participating local agencies, publicly announce and distribute information on the availability of program benefits (including the eligibility criteria for participation and the location of local agencies operating the program) to offices and organizations that deal with significant numbers of potentially eligible persons (including health and medical organizations, hospitals and clinics, welfare and unemployment offices, social service agencies, farmworker organizations, Indian tribal organizations, and religious and community organizations in low income areas).

"(B) The information shall be publicly announced by the State agency and by local agencies at least annually.

"(C) The State agency and local agencies shall distribute the information in a manner designed to provide the information to potentially eligible persons who are most in need of the benefits, including pregnant women in the early months of pregnancy.".

SEC. 6307. REPAYMENT OF CERTAIN BENEFITS BY RECIPIENTS

Effective October 1, 1986, section 17(f) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(f)) is amended by adding at the end thereof the following new paragraph:

"(15) If a State agency determines that a member of a family has received an overissuance of food benefits under the program authorized by this section as the result of such member intentionally making a false or misleading statement or intentionally misrepresenting, concealing, or withholding facts, the State agency shall recover, in cash, from such member an amount that the State agency determines is equal to the value of the overissued food benefits, unless the State agency determines that the recovery of the benefits would not be cost effective.".

SEC. 6308. PRIORITY FUNDS FOR WIC MIGRANT PROGRAMS

(a) PRIORITY FUNDING.—Effective October 1, 1986, section 17(g) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(g)) (as amended by section 104(2)(A)) is further amended by inserting after paragraph (1) the following new paragraph:

"(2) Of the sums appropriated for any fiscal year for programs authorized under this section, not less than nine-tenths of 1 percent shall be available first for services to eligible members of migrant populations. The migrant services shall be provided in a manner consistent with the priority system of a State for program participation.".

(b) ACCOUNTABILITY.—To the extent possible, accountability for migrant services under section 17(g)(2) of the Child Nutrition Act of 1966 (as added by subsection (a)) shall be conducted under regulations in effect on the date of the enactment of this Act.

SEC. 6309. IMPROVING STATE AGENCY ADMINISTRATIVE SYSTEMS

Section 17(g)(3) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(g)(3)) (as amended by sections 104(2)(A) and 303(b)) is further amended by inserting "providing technical assistance to improve State agency administrative systems," after "subsection (d)(4),".

SEC. 6310. PAPERWORK REDUCTION

Section 17(h)(1) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(h)(1)) is amended by adding at the end thereof the following new sentence: "The Secretary shall limit to a minimal level any documentation required under the preceding sentence.".

SEC. 6311. ALLOCATION STANDARDS

Section 17(h)(3) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(h)(3)) is amended—

(1) in the second sentence, by striking out ", which satisfy allocation guidelines established by the Secretary"; and

(2) by striking out the last sentence.

SEC. 6312. ADVANCE PAYMENTS

Effective October 1, 1986, section 17(h)(4) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(h)(4)) is amended by striking out "shall" and inserting in lieu thereof "may".

SEC. 6313. AVAILABILITY OF FUNDS

(a) AVAILABILITY.—Section 17(i) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(i)) is amended—

(1) by designating the first, second, third, fourth, and fifth sentences as paragraphs (1), (2), (4), (5), and (6), respectively; and

(2) by inserting after paragraph (2) (as so designated) the following new paragraph:

"(3)(A) Notwithstanding paragraph (2)—

"(i) not more than 1 percent of the amount of funds allocated to a State agency under this section for supplemental foods for a fiscal year may be expended by the State agency for expenses incurred under this section for supplemental foods during the preceding fiscal year; or

"(ii) not more than 1 percent of the amount of funds allocated to a State agency for a fiscal year under this section may be expended by the State agency during the subsequent fiscal year.

"(B) Any funds made available to a State agency in accordance with subparagraph (A)(ii) for a fiscal year shall not affect the amount of funds allocated to the State agency for such year.".

(b) APPLICATION.—Section 17(i)(3)(A)(i) of the Child Nutrition Act of 1966 (as amended by subsection (a)) shall not apply to appropriations made before the date of enactment of this Act.

TITLE IV—OTHER NUTRITION PROGRAMS

SEC. 6401. HEARINGS ON FEDERAL AUDIT ACTIONS UNDER THE CHILD CARE FOOD PROGRAM

Section 17(e) of the National School Lunch Act (42 U.S.C. 1766(e)) is amended—

(1) by striking out "The" and inserting in lieu thereof "(1) Except as provided in paragraph (2), the"; and

(2) by adding at the end thereof the following new paragraphs:

"(2) A State is not required to provide a hearing to an institution concerning a State action taken on the basis of a Federal audit determination.

"(3) If a State does not provide a hearing to an institution concerning a State action taken on the basis of a Federal audit determination, the Secretary, on request, shall

afford a hearing to the institution concerning the action.".

SEC. 6402. BASIS FOR NUTRITION EDUCATION GRANTS

Section 19(j)(2) of the Child Nutrition Act of 1966 (42 U.S.C. 1788(j)(2)) is amended by striking out "$75,000" each place it appears and inserting in lieu thereof "$50,000".

SEC. 6403. EXTENSION OF ALTERNATIVE MEANS OF ASSISTANCE

Section 14 of the National School Lunch Act (42 U.S.C. 1762a) is amended by adding at the end thereof the following new subsection:

"(g)(1) As used in this subsection, the term 'eligible school district' has the same meaning given such term in section 1581(a) of the Food Security Act of 1985.

"(2) In accordance with the terms and conditions of section 1581 of such Act, the Secretary shall permit an eligible school district to continue to receive assistance in the form of cash or commodity letters of credit assistance, in lieu of commodities, to carry out the school lunch program operated in the district.

"(3)(A) On request of a participating school district (and after consultation with the Comptroller General of the United States with respect to accounting procedures used to determine any losses) and subject to the availability of funds, the Secretary shall provide cash compensation to an eligible school district for losses sustained by the district as a result of the alteration of the methodology used to conduct the study referred to in section 1581(a) of such Act during the school year ending June 30, 1983.

"(B) There are authorized to be appropriated $50,000 to carry out out this paragraph, to be available without fiscal year limitation.".

SEC. 6404. NATIONAL DONATED COMMODITY PROCESSING PROGRAMS

In accordance with the terms and conditions of section 1114(a)(2) of the Agriculture and Food Act of 1981 (7 U.S.C. 1431e(a)(2)), whenever a commodity is made available without charge or credit under any nutrition program administered by the Secretary of Agriculture, the Secretary shall encourage consumption of the commodity through agreements with private companies under which the commodity is reprocessed into end-food products for use by eligible recipient agencies.

TITLE V—TECHNICAL CORRECTIONS

SEC. 6501. OBSOLETE PROVISIONS

(a) NUTRITION PROGRAM STAFF STUDY; TRUST TERRITORY APPROPRIATIONS.—(1) Sections 18 and 19 of the National School Lunch Act (42 U.S.C. 1767 and 1768) are repealed.

(2) The first sentence of section 3 of such Act (42 U.S.C. 1752) is amended by striking out "sections 13, 17, and 19" and inserting in lieu thereof "sections 13 and 17".

(b) STUDY OF MENU CHOICE.—Section 22 of such Act (42 U.S.C. 1769c) (as added by section 9 of the Child Nutrition Amendments of 1978 (92 Stat. 3623)) is repealed.

(c) CONFORMING AMENDMENTS.—(1) The National School Lunch Act (as amended by sections 207 and 208(a) and subsection (b)) is further amended by redesignating sections 20, 21, and 22 (42 U.S.C. 1769, 1769a, and 1769b) as sections 18, 19, and 20, respectively.

(2) Clause (3) of the first sentence of section 6(a) of such Act (42 U.S.C. 1755(a)) is amended by striking out "section 20" and inserting in lieu thereof "section 18".

SEC. 6502. OBSOLETE REFERENCES TO HEALTH, EDUCATION, AND WELFARE

(a) REFERENCES IN NATIONAL SCHOOL LUNCH ACT.—Clause (1) of the sixth sentence of section 17(a) of the National School Lunch Act (42 U.S.C., 1766(a)) is amended by striking out "Health, Education, and Walfare" and inserting in lieu thereof "Health and Human Services".

(b) REFERENCES IN CHILD NUTRITION ACT OF 1966.—(1) The Child Nutrition Act of 1966 is amended by striking out "Health, Education, and Welfare" each place it appears in section 4(a) (42 U.S.C. 1773(a)), subsections (b)(6), (b)(13), (e)(2), (k)(1), and (k)(2) of section 17 (42 U.S.C. 1786), and subsections (d)(2) and (d)(3) of section 19 (42 U.S.C. 1788) and inserting in lieu thereof "Health and Human Services".

(2) Section 19(j)(3) of the Child Nutrition Act of 1966 (42 U.S.C. 1788(j)(3)) is amended by striking out "Office of Education of the Department of Health, Education, and Welfare" and inserting in lieu thereof "Department of Education".

SEC. 6503. CONFORMING AMENDMENTS

(a) DEFINITION OF SECRETARY.—Section 12(d) of the National School Lunch Act (42 U.S.C. 1760(d)) is amended by adding at the end thereof the following new paragraph:

"(8) 'Secretary' means the Secretary of Agriculture.".

(b) REDESIGNATION OF SUBSECTION.—Section 19 of the Child Nutrition Act of 1966 (42 U.S.C. 1788) (as amended by sections 105, 402, and 502(b)(2)) is further amended by redesignating subsection (j) as subsection (i).

MOTION OFFERED BY MR. ASPIN

Mr. ASPIN. Mr. Speaker, I offer a motion.

The SPEAKER. The Clerk will report the motion.

The Clerk read as follows:

Mr. ASPIN moves to strike out all after the enacting clause of the Senate bill, S. 2638, and to insert in lieu thereof the provisions of H.R. 4428, as passed by the House, as follows:

SECTION 1. SHORT TITLE.

This Act may be cited as the "National Defense Authorization Act for Fiscal Year 1987".

SEC. 2. ORGANIZATION.

This Act is divided into five divisions as follows:

(1) Division A—Department of Defense Authorization.

(2) Division B—Military Construction Authorization.

(3) Division C—Other National Defense Authorizations.

(4) Division D—Department of Defense Reorganization.

(5) Division E—Miscellaneous General Provisions.

DIVISION A—DEPARTMENT OF DEFENSE AUTHORIZATION

SEC. 100. SHORT TITLE.

This division may be cited as the "Department of Defense Authorization Act, 1987".

TITLE I—PROCUREMENT

PART A—FUNDING AUTHORIZATIONS

SEC. 101. ARMY.

(a) AUTHORIZATION OF APPROPRIATIONS.—Funds are hereby authorized to be appropriated for fiscal year 1987 for procurement for the Army as follows:

(1) For aircraft, $2,741,700,000.

(2) For missiles, $2,391,900,000.

(3) For weapons and tracked combat vehicles, $3,924,300,000.

(4) For ammunition, $2,100,600,000.

(5) For other procurement, $5,150,900,000, of which—

(A) $824,900,000 is for tactical and support vehicles;

(B) $2,861,500,000 is for communications and electronics equipment; and

(C) $1,464,500,000 is for other support equipment.

(b) LIMITATION ON OBLIGATIONS.—The maximum amount that may be obligated from a procurement account of the Army for fiscal year 1987 is the amount authorized to be appropriated for such account under subsection (a) plus the following:

(1) For aircraft, $22,200,000.

(2) For missiles, $0.

(3) For weapons and tracked combat vehicles, $0.

(4) For ammunition, $0.

(5) For other procurement, $47,600,000.

SEC. 102. NAVY AND MARINE CORPS.

(a) AIRCRAFT.—(1) Funds are hereby authorized to be appropriated for procurement of aircraft for the Navy for fiscal year 1987 in the amount of $9,758,000,000.

(2) The maximum amount that may be obligated for procurement of aircraft for the Navy for fiscal year 1987 is the amount authorized to be appropriated under paragraph (1).

(b) WEAPONS.—(1) Funds are hereby authorized to be appropriated for fiscal year 1987 in the total amount of $5,587,600,000 for procurement of weapons (including missiles and torpedoes) for the Navy.

(2) Funds appropriated or otherwise made available for procurement of weapons (including missiles and torpedoes) for the Navy for fiscal year 1987 may not be obligated in excess of the following amounts:

(A) For missile programs, $4,538,400,000.

(B) For torpedo programs:

For the MK-48 torpedo program, $214,800,000.

For the MK-46 torpedo program, $97,900,000.

For the MK-60 CAPTOR mine program, $59,500,000.

For the MK-50 torpedo program, $94,900,000.

For the antisubmarine rocket (ASROC) program, $13,600,000.

For the vertical Launched ASROC program, $74,300,000.

For the modification of torpedoes and related equipment, $97,700,000.

For the torpedo support equipment program, $32,500,000.

For the antisubmarine warfare range support program, $20,100,000.

(C) For other weapons:

For the MK-15 close-in weapon system program, $105,600,000.

For the MK-75 76-millimeter gun mount program, $14,900,000.

For other weapons programs, $72,700,000.

(D) For spares and repair parts, $150,700,000.

(c) SHIPBUILDING AND CONVERSION.—(1) Funds are hereby authorized to be appropriated for fiscal year 1987 for shipbuilding and conversion for the Navy in the total amount of $9,153,900,000.

(2) Funds appropriated or otherwise made available for shipbuilding and conversion for fiscal year 1987 may not be obligated in excess of the following amounts:

For the SSN-688 nuclear attack submarine program, $2,332,600,000.

For the SSN-21 nuclear attack submarine program, $454,300,000.

For the aircraft carrier service life extension program (SLEP), $83,500,000.

For the CG-47 Aegis cruiser program, $2,725,600,000.

For the DDG-51 guided missile destroyer program, $1,750,100,000.

For the LHD-1 amphibious assault ship program, $232,000,000.

For the TAO-187 fleet oiler program, $275,500,000.

For the TAGOS ocean surveillance ship program, $98,300,000.

For the AOE fast combat support ship program, $612,700,000.

For the oceanographic research ship program, $33,000,000.

For the strategic sealift and sealift enhancement ready reserve program, $48,500,000.

For the TACS auxiliary crane ship program, $61,100,000.

For service craft and landing craft, $58,900,000.

For ship contract design, $69,400,000.

For outfitting and post delivery, $393,900,000.

(d) OTHER PROCUREMENT, NAVY.—(1) Funds are hereby authorized to be appropriated for fiscal year 1987 for other procurement for the Navy in the amount of $5,848,000,000.

(2) Funds appropriated or otherwise made available for other procurement for the Navy for fiscal year 1987 may not be obligated in excess of the following amounts:

(A) For the ship support equipment program, $990,400,000.

(B) For the communications and electronics equipment program, $1,910,700,000.

(C) For aviation support equipment, $735,800,000.

(D) For the ordnance support equipment program, $1,169,100,000, of which $54,000,000 is available only for procurement of six Coherent Receiver Transmitter production kits for the MK-92 system.

(E) For civil engineering support equipment, supply support equipment, and command support equipment, $739,600,000.

(F) For spares and repair parts, $302,400,000.

(e) MARINE CORPS.—(1) Funds are hereby authorized to be appropriated for fiscal year 1987 for procurement for the Marine Corps in the amount of $1,497,100,000.

(2) Funds appropriated or otherwise made available for procurement for the Marine Corps for fiscal year 1987 may not be obligated in excess of the amount authorized to be appropriated in paragraph (1).

SEC. 103. AIR FORCE.

(a) AUTHORIZATION OF APPROPRIATIONS.—Funds are hereby authorized to be appropriated for fiscal year 1987 for procurement of aircraft and missiles and for other procurement for the Air Force as follows:

(1) For aircraft, $17,237,200,000.

(2) For missiles, $6,071,000,000.

(3) For other procurement, $8,854,800,000, of which—

(A) $975,400,000 is for munitions and associated support equipment;

(B) $300,200,000 is for vehicular equipment;

(C) $2,142,900,000 is for electronics and telecommunications equipment; and

(D) $5,535,100,000 is for other base maintenance and support equipment.

(b) LIMITATION ON OBLIGATIONS.—The maximum amount that may be obligated from a procurement account of the Air Force for fiscal year 1987 is the amount authorized to be appropriated for such account under subsection (a) plus the following:

(1) For aircraft, $423,200,000.

(2) For missiles, $61,800,000.

(3) For other procurement, $98,800,000.

SEC. 104. DEFENSE AGENCIES.

(a) AUTHORIZATION OF APPROPRIATIONS.—Funds are hereby authorized to be appropriated for fiscal year 1987 for the Defense Agencies in the amount of $1,406,200,000.

(b) LIMITATION OF OBLIGATION.—Funds appropriated or otherwise made available for procurement for fiscal year 1987 for the Defense Agencies may not be obligated in excess of the amount authorized to be appropriated in subsection (a).

SEC. 105. AMOUNT FOR GUARD AND RESERVE EQUIPMENT.

(a) FY87 LIMITATION ON OBLIGATIONS FOR UN-BUDGETED ITEMS.—Of the amount appropriated or otherwise made available to the Department of Defense for fiscal year 1987 for procurement, not more than $509,100,000 may be obligated or expended for procurement of equipment for the reserve components of the Armed Forces (including the National Guard) for items not included in the President's budget for fiscal year 1987, as set forth in the budget justification documents submitted to Congress in support of the budget request for the Department of Defense.

(b) FUTURE BUDGET REQUESTS FOR GUARD AND RESERVE EQUIPMENT.—Section 138 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(j) In each budget submitted by the President to Congress under section 1105 of title 31, amounts requested for procurement of equipment for the reserve components of the armed forces (including the National Guard) shall be set forth separately from other amounts requested for procurement for the armed forces.".

SEC. 106. AUTHORIZATION OF APPROPRIATIONS FOR CHEMICAL DEMILITARIZATION PROGRAM.

(a) AUTHORIZATION OF APPROPRIATIONS.—Funds are hereby authorized to be appropriated to the Secretary of Defense for fiscal year 1987 for the destruction of lethal chemical agents and munitions in accordance with section 1412 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 747), in the amount of $120,100,000.

(b) LIMITATION OF OBLIGATION.—Funds appropriated or otherwise made available for procurement for fiscal year 1987 for the program described in subsection (a) may not be obligated in excess of the amount authorized to be appropriated in that subsection.

SEC. 107. STRATEGIC BOMBER CONTINGENCY FUND.

(a) DESIGNATION OF FUND.—(1) The amount of $200,000,000 described in paragraph (2) shall be administered as a Strategic Bomber Contingency Fund in accordance with this section.

(2) Of amounts appropriated for procurement of aircraft for the Air Force for fiscal year 1985 that remain available for obligation, $200,000,000 shall be available only for the purpose of the Strategic Bomber Contingency Fund under this section.

(b) AUTHORIZED USES OF AMOUNTS IN FUND.—

(1) OBLIGATION FOR ADDITIONAL LONG-LEAD ITEMS FOR B-1B AIRCRAFT.—Subject to subsection (e), the Strategic Bomber Contingency Fund shall be available for procurement of long-lead production components and subsystems for the B-1 aircraft. The Secretary of Defense shall obligate not less than $100,000,000 of such amount for procurement of such components and subsystems not later than 30 days after the later of—

(A) October 1, 1986, or

(B) the date of the enactment of an appropriation law referred to in subsection (e).

(2) COMPETITIVE ALTERNATIVE SOURCES FOR ATB.—The Secretary of Defense (subject to subsection (e)) may use amounts in the Strategic Bomber Contingency Fund not used for the purpose described in paragraph (1) to establish competitive alternative sources for the Advanced Technology Bomber.

(c) REPORT ON ATB PROGRAM.—Not later than February 1, 1987, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a report concerning the progress of the Advanced Technology Bomber program.

(d) REPORT ON USE OF FUNDS.—Not later than March 1, 1987, the Secretary of Defense shall submit to such committees a report on the plans of the Secretary for unobligated funds forming the balance of the Strategic Bomber Contingency Fund (beyond the amount required to be obligated under subsection (b)(1) and other amounts obligated under subsection (b)). Such report shall describe whether, and to what extent, the Secretary plans to—

(1) use such funds for a purpose described in subsection (b); or

(2) seek the submittal of a rescission with respect to such funds.

(e) AUTHORITY SUBJECT TO APPROPRIATION ACTS.—The authority to obligate funds forming the Strategic Bomber Contingency Fund is effective only to the extent provided in an appropriation law enacted after the date of the enactment of this Act.

(f) LIMITATION ON TOTAL NUMBER OF B-1 AIRCRAFT.—The Secretary of Defense may not obligate or expend funds for the assembly or integration of more than 100 B-1 aircraft.

(g) CONGRESSIONAL NOTICE.—This section is subject to section 1512 of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2627).

SEC. 108. ADVANCED TECHNOLOGY BOMBER.

(a) LIMITATION ON AMOUNT AVAILABLE FOR FY87.—(1) The Secretary of Defense may not obligate funds appropriated pursuant to authorizations in this Act for the Advanced Technology Bomber program in an amount greater than the amount appropriated for such program for fiscal year 1986 unless—

(A) the Secretary prepares an acquisition strategy for such program; and

(B) the Secretary submits to the Committees on Armed Services of the Senate and House of Representatives a report describing the acquisition strategy for such program.

(2) If the Secretary proposes to revise the acquisition strategy prepared under paragraph (1) after the report on that strategy is submitted under that paragraph, the Secretary shall submit to the committees a report describing the proposed revision. Such a revision may not be implemented until 60 days after the date on which the report on the revision is received by those committees.

(3) The Secretary shall ensure that contracts for the Advanced Technology Bomber program are awarded in accordance with the acquisition strategy for the program.

(b) COMPETITIVE ALTERNATIVE SOURCES.—(1) The acquisition strategy prepared under subsection (a) for the Advanced Technology Bomber program shall provide that there will be competitive alternative sources available for the system (and each major subsystem) under the program during the production stage.

(2) In carrying out this subsection, the Secretary may provide that the requirement

for competitive alternative sources for a system or subsystem is satisfied even though the sources for that system or subsystem do not develop or produce identical systems if the systems developed or produced serve similar functions and compete effectively with each other.

(c) WAIVER AUTHORITY.—(1) In preparing an acquisition strategy under subsection (a), the Secretary may waive part or all of subsection (b) with respect to production under the program if the Secretary determines that the application of that subsection to production under the program—

(A) would increase the total cost for the program;

(B) would result in unacceptable delays in fulfilling the needs of the Department of Defense; or

(C) would be adverse to the national security interests of the United States.

(2) If the Secretary grants a waiver under paragraph (1), the report submitted under subsection (a) with respect to the acquisition strategy for the Advanced Technology Bomber program—

(A) shall include notice that the waiver has been made; and

(B) shall set forth the reasons for the waiver, together with supporting documentation of comparative cost and schedule estimates and other background material.

(d) FINANCIAL ANALYSIS.—(1) The Secretary of Defense shall conduct a detailed financial analysis on the projected cost of procurement of 132 advanced technology bomber aircraft. On the basis of such analysis, the President shall certify to Congress the projected cost of such procurement. Such certification shall be submitted with the submittal to Congress of the President's budget for fiscal year 1988 budget.

(2) Not more than 60 days after the date of the enactment of the Department of Defense Appropriation Act for fiscal year 1987, the Secretary shall submit to Congress a written report setting forth the results of the analysis required under paragraph (1). The Secretary shall include in such report the current estimate of the projected total cost for the procurement of 132 advanced technology bombers.

(3) The Secretary shall transmit a copy of the report under paragraph (2) to the Comptroller General of the United States for review and shall make available to the Comptroller General (consistent with those provisions of title 31, United States Code, replacing the Budget and Accounting Act, 1921, and provisions of law contained in the amendments made by Public Law 96-226) such additional data and information as the Comptroller General requires for the purposes of such review. Such data and information as the Comptroller General receives under this section shall not be disclosed to anyone other than those persons specially agreed upon by the Comptroller General and the Secretary of Defense to have access to that data and information. Any report by the Comptroller General concerning data and information provided pursuant to this section may, consistent with the classification of such report, be provided to Congress and shall be prepared with due regard to the sensitivity of the information received in such matter as to avoid disclosure of data which could adversely affect ongoing contract negotiations or the national security.

(e) DEFINITION.—In this section, the term "major subsystem", with respect to the Advanced Technology Bomber program, means a subsystem of the system developed under such program that is purchased directly by the United States and for which—

(1) the amount estimated by the Secretary of Defense for research, development, test and evaluation is 10 percent or more of the amount specified in section 139a(a)(1)(B) of this title as the research, development, test, and evaluation expenditure threshold for a major defense acquisition program; or

(2) the amount estimated by the Secretary of Defense for production is 10 percent or more of the amount specified in that section as the production expenditure threshold for a major defense acquisition program.

SEC. 109. EXTENSION OF AUTHORITY PROVIDED THE SECRETARY OF DEFENSE IN CONNECTION WITH THE NATO AIRBORNE WARNING AND CONTROL SYSTEM (AWACS) PROGRAM.

Effective on October 1, 1986, section 103(a) of the Department of Defense Authorization Act, 1982 (Public Law 97-86; 95 Stat. 1100), is amended by striking out "fiscal year 1986" both places it appears and inserting in lieu thereof "fiscal year 1987".

SEC. 110. MULTIYEAR CONTRACTS FOR FISCAL YEAR 1987.

(a) ARMY.—(1) The Secretary of the Army may not enter into a multiyear contract for procurement for the UH-60A Black Hawk and EH-60A Quick Fix Airframe Program.

(2) The Secretary of the Army may enter into a multiyear contract under section 2306(h) of title 10, United States Code, for the following programs:

(A) Patriot Missile system.

(B) Stinger Missile system.

(b) NAVY.—The Secretary of the Navy may not enter into a multiyear contract for procurement of the following programs:

(1) F/A-18 aircraft.

(2) HARM Missile.

(c) AIR FORCE.—The Secretary of the Air Force may not enter into a multiyear contract for procurement of the following programs:

(1) Defense Support Program.

(2) Complementary Expendable Launch Vehicle.

(d) LIMITATIONS ON AUTHORIZED MULTIYEAR PROCUREMENTS.—During fiscal year 1987, the Secretary of a military department may enter into a multiyear contract under section 2306(h) of title 10, United States Code, with respect to the procurement of a program only if—

(1) the multiyear contract contains options to allow changes in quantity of the end-item to be procured under the contract of not more than 30 percent in any program year; and

(2) the Secretary certifies to Congress that multiyear contracting for such program provides a saving of at least 12 percent over the amount that would be spent under annual contracts.

SEC. 111. DEPLETED URANIUM PENETRATORS.

The Secretary of Defense may only procure ammunition containing a depleted uranium penetrator component if the procurement of such component is on a Government-furnished material basis from at least two sources in the existing production base for such component.

SEC. 112. PROCUREMENT OF NEW FLIGHT INSPECTION AIRCRAFT.

(a) PROCUREMENT.—The Secretary of the Air Force shall, before the end of the 180-day period beginning on the date of the enactment of this Act, commence procurement of new flight inspection aircraft. Such procurement shall be carried out using funds—

(1) previously authorized and appropriated for such purpose; and

(2) such additional funds as the Secretary determines to be required for such procurement, to be derived from funds appropriated for fiscal year 1987 pursuant to authorizations of appropriations of this Act.

(b) COMPETITION.—The procurement described in subsection (a) shall be conducted using competitive procedures in accordance with the requirements of chapter 137 of title 10, United States Code.

(c) SPECIFICATIONS.—The performance characteristics of the aircraft required to be procured by subsection (a) shall be as specified in paragraph 2C(2) of Department of the Air Force Program Management Directive for Flight Inspection Aircraft dated July 11, 1984.

SEC. 113. AIR FORCE FIGHTER COMPETITION.

(a) MULTIYEAR CONTRACTS.—Subject to provisions of appropriations Acts, the Secretary of the Air Force may award a multiyear contract, that employs economic order quantity procurement, for the purchase of Air Defense Aircraft in accordance with section 2306(h) of title 10, United States Code, without prior notice to Congress if the results of the competitive source selection demonstrate that—

(1) a multiyear contract will yield significant savings over the amount that would have resulted under an annual contract with the selected offeror; and

(2) those savings have a positive present value.

(b) CANCELLATION CEILING.—Subject to provisions of appropriations Acts, the cancellation ceiling associated with the first year of a multiyear contract under subsection (a) may be carried as an unfunded contingent liability subject to section 2306(h)(5) of title 10, United States Code.

SEC. 114. CONTINGENT AUTHORIZATION.

Of amounts authorized in this title, the following amounts are available only to the extent that amounts are available through reductions in other parts of the Act:

(1) Missile procurement, Army, $30,000,000.

(2) Other procurement, Army, $57,300,000, to be derived from other support equipment.

(3) Aircraft procurement, Air Force, $490,400,000.

SEC. 115. UPGRADE OF A-10 WEAPONS DELIVERY SYSTEM.

(a) AUTHORITY FOR UPGRADE PROGRAM.—The Secretary of the Air Force may provide for an upgrade of the weapons delivery system of the A-10 aircraft for all inservice A-10 aircraft.

(b) SPECIFICATIONS.—The upgrade of a weapons delivery system under subsection (a) shall—

(1) include a flight control modification to improve stability during gun firing,

(2) enhance the accuracy of target strafing,

(3) provide for tactical training against moving targets,

(4) provide an accurate lateral toss-capable bombing capability, and

(5) provide for effective self-defense against likely air threats.

PART B—PROGRAM LIMITATIONS

SEC. 121. TESTING OF BRADLEY FIGHTING VEHICLE.

(a) TEST PLAN FOR SURVIVABILITY ENHANCEMENTS.—(1) The Secretary of Defense shall carry out live-fire testing of the Bradley Fighting Vehicle in accordance with this section.

(2) In developing a plan for such testing, the Secretary shall develop a plan for testing and evaluating proposed survivability enhancements for the vehicle. Such plan—

(A) shall include a proposal and an expedited schedule for testing the concept of the so-called "minimum casualty vehicle"; and

(B) shall be developed in consultation with the Assistant Secretary of Defense for Operational Test and Evaluation and the National Academy of Sciences.

(3) After developing the plan required by paragraph (2), the Secretary shall certify to Congress that the conditions and plan for the live-fire testing of the Bradley Fighting Vehicle represent the most realistic and suitable conditions and plan to evaluate the proposed survivability enhancements.

(4) The Comptroller General shall—

(A) review all materials of the Department of Defense used to develop the plan with respect to which the certification under paragraph (3) is made; and

(B) submit to the Committees on Armed Services and on Appropriations of the Senate and House of Representatives a report giving the assessment of the Comptroller General as to the realism and suitability of the conditions and plan to evaluate the proposed survivability enhancements of the Bradely Fighting Vehicle.

(b) CONDUCT OF LIVE-FIRE TESTING.—(1) The Secretary of the Army shall conduct live-fire testing of the Bradley Fighting Vehicle so as to test proposed survivability enhancements of such vehicle in accordance with the plan with respect to which the certification under subsection (a)(3) was made.

(2) The Assistant Secretary of Defense for Operational Test and Evaluation shall review the results of such testing.

(3) The Comptroller General shall provide oversight of the testing.

(4) The Assistant Secretary and the Comptroller General shall each observe the conduct of the testing.

(c) REPORTS.—(1) The Secretary of Defense shall submit to Congress a report on the results of the live-fire testing of the Bradley Fighting Vehicle.

(2) The Comptroller General shall review the report of the Secretary of Defense under paragraph (1) and shall submit to Congress a report giving the Comptroller General's evaluation of such report.

SEC. 122. OTHER LIMITATIONS ON ARMY PROCUREMENT.

(a) 120-MILLIMETER MORTAR PROGRAM.—(1) Except as provided in paragraph (3), funds appropriated or otherwise available for procurement for the Army may not be obligated for procurement of 120-millimeter mortars manufactured or assembled outside the United States or for procurement of ammunition manufactured outside the United States for 120-millimeter mortars.

(2) Funds appropriated or otherwise made available for procurement for the Army may not be obligated for procurement of 120-millimeter mortars or for ammunition for 120-millimeter mortars until the Secretary of the Army—

(A) purchases and validates a technical data package for the manufacture and assembly of such mortars; and

(B) conducts a cost-effectiveness analysis of potential domestic sources for the manufacture of such mortars using that technical data package.

(3) Paragraph (1) does not apply to procurement of mortars required—

(A) for testing, evaluation, or type classification; or

(B) for equipping the Ninth Infantry Division.

(b) COPPERHEAD PROJECTILE PROGRAM.—Funds appropriated or otherwise made available for fiscal year 1987 for procurement of ammunition for the Army may not be obligated for the Copperhead Projectile program until the Secretary of Defense certifies to Congress that a second production source for that program has been established.

(c) MOTORCYCLES.—Funds appropriated or otherwise made available for fiscal year 1987 for procurement for the Army may not be obligated for procurement of motorcycles until the Secretary of the Army certifies to Congress that the acquisition strategy of the Army for procurement of motorcycles includes consideration of—

(1) life-cycle costs;

(2) safety;

(3) maintenance; and

(4) durability.

(d) AIR-TO-AIR STINGER MISSILE.—Funds appropriated or otherwise made available for fiscal year 1987 for procurement of aircraft for the Army may not be obligated for the modification program for the air-to-air Stinger missile until—

(1) the Secretary of the Army establishes a comprehensive acquisition plan for procurement of air-to-air Stinger missiles for Army aircraft;

(2) such plan is integrated into the overall Army forward area air defense plan; and

(3) a report on such plan is submitted to the Committees on Armed Services of the Senate and House of Representatives and a period of 30 days passes after receipt of such report.

(e) 10-TON TRUCK PROGRAM.—The Secretary of the Army shall acquire and validate the technical data package for the Heavy Expanded Mobility Tactical Truck (HEMTT).

(f) OPTION TO CONTINUE PRODUCTION OF HEMMT TRUCKS.—

(1) REQUIREMENT TO PROCURE ADDITIONAL HEMMT TRUCKS.—In order to preserve the option for continued production of Heavy Expanded Mobility Tactical Trucks (HEMTT), the Secretary of the Army (subject to paragraph (3)) shall modify the existing contract for such trucks to permit the exercise of the original contract option for 412 additional HEMTT trucks in fiscal year 1986 and shall obligate $49,900,000 for procurement of such trucks under such contract option.

(2) SOURCE OF FUNDS.—Funds shall be derived for purposes of this subsection from amounts appropriated for procurement for the Army for fiscal year 1985 or 1986 that remain available for obligation.

(3) AUTHORITY SUBJECT TO APPROPRIATION ACTS.—The authority of the Secretary to exercise a contract option and obligate funds under paragraph (1) is effective only to the extent provided in appropriation laws enacted after the date of the enactment of this Act.

(4) DEADLINE FOR OBLIGATION.—Funds required to be obligated by paragraph (1) shall be obligated not later than 30 days after the later of—

(A) October 1, 1986, or

(B) the date of the enactment of an appropriation law referred to in paragraph (3).

(g) AT-4 LIGHTWEIGHT MULTIPURPOSE SYSTEM/M72E4 LIGHT ANTIARMOR WEAPON.—None of the funds appropriated pursuant to the authorizations of appropriations in this title may be obligated or expended for the AT-4 Lightweight Multipurpose System until the Secretary of the Army—

(1) completes development and operational testing of the M72E4 light antiarmor weapon;

(2) type classifies such weapon; and

(3) acquires a technical data package for such weapon.

SEC. 123. CHEMICAL MUNITIONS.

(a) PROHIBITION ON SPENDING FUNDS FOR BINARY CHEMICAL MUNITIONS.—Before October 1, 1987, funds appropriated to the Department of Defense for fiscal year 1986 or fiscal year 1987 may not be used—

(1) for procurement (including advance procurement of long-lead components) of binary chemical munitions, including the Bigeye bomb; or

(2) for the establishment of a production base for such munitions.

(b) REPORT ON LONG-RANGE STAND-OFF CHEMICAL WEAPONS.—(1) The Secretary of Defense shall submit to Congress a report on the military requirements for long-range stand-off chemical weapons. The report shall address the military advantages and disadvantages of such weapons and the potential of such weapons as a substitute for the Bigeye bomb.

(2) The report shall be submitted before the date on which the President's budget for fiscal year 1988 is submitted to Congress.

SEC. 124. DDG-51 DESTROYER PROGRAM.

(a) REPEAL OF LIMITATION.—Section 102(h) of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2501), is repealed.

(b) PLAN FOR RACER SYSTEM.—The Secretary of the Navy shall plan for the installation of the RACER system on the "second flight" of DDG-51 vessels. Such planning shall include the preparation of a ship design that includes the RACER system.

SEC. 125. BASIC POINT MISSILE SYSTEM ON AMPHIBIOUS VESSELS.

The Secretary of the Navy shall maintain in an operational status the Basic Point Defense Missile System on any amphibious vessel equipped on the date of the enactment of this Act with such system until a follow-on system, of comparable capability, is available for immediate replacement of the system on such vessel. This section does not apply to a vessel that is retired.

SEC. 126. OTHER LIMITATIONS ON NAVY PROCUREMENT.

(a) SH-2F AIRCRAFT.—Funds appropriated for fiscal year 1987 for procurement of aircraft for the Navy may be obligated for procurement of SH-2F aircraft only for aircraft that are configured so as to incorporate the T-700 engine.

(b) P-3G AIRCRAFT.—Funds appropriated for fiscal year 1987 for procurement of aircraft for the Navy may be obligated for advance procurement of P-3 aircraft—

(1) only for P-3G update IV aircraft; and

(2) only after the use of competitive procedures.

SEC. 127. LIMITATIONS ON AIR FORCE PROCUREMENT.

(a) F-15E FIGHTER PROGRAM.—None of the funds appropriated or otherwise made available to the Air Force for fiscal year 1987 for procurement may be obligated for the F-15E aircraft program until the Secretary of the Air Force—

(1) decides whether to recommend to the President that for fiscal years after fiscal year 1987 the Air Force procure the F-15E aircraft or the Advanced Tactical Fighter aircraft; and

(2) reports that decision to Congress.

(b) ADVANCED CRUISE MISSILE.—Funds appropriated or otherwise made available to the Air Force for fiscal year 1987 for procurement may not be obligated until the Secretary of the Air Force—

(1) decides whether to recommend to the President that for fiscal years after fiscal year 1987 the Air Force procure the Advanced Cruise Missile or the SHRAM II weapon system.

(2) reports that decision to Congress.

(c) C-17 AIRCRAFT PROGRAM.—Funds appropriated or otherwise made available to the Air Force for fiscal year 1987 for procurement may not be obligated for the C-17 aircraft program until 60 legislative days after the date on which the Committees on Armed Services of the Senate and House of Representatives receive the report of the Comptroller General on such program requested by the Committee on Armed Services of the House of Representatives on April 28, 1986. If a decision is made that the C-17 aircraft is not to be procured, funds available for procurement of such aircraft may be used for the procurement of additional Air Force airlift aircraft, including the C-5B aircraft.

(d) AMRAAM PROGRAM.—(1) Funds appropriated or otherwise made available for fiscal year 1987 for procurement of missiles for the Air Force may not be obligated for low-rate production procurement of the Advanced Medium-Range Air-to-Air Missile (AMRAAM) until—

(A) the results of the flight test of the performance of the missile are evaluated against the established program specifications (DS32050000B, as amended by the draft development concept paper of June 14, 1985);

(B) the Secretary of the Air Force reports such results to the Committees on Armed Services of the Senate and House of Representatives; and

(C) a period of 60 days passes after such Committees receive the report of such results.

(2) The program for flight testing the AMRAAM missile shall include testing of AMRAAM missiles that incorporate the producibility enhancements established for the program. Such testing shall be carried out before full-rate production is begun. Such production may not then be begun until the Secretary submits a report on the test results of the flight test program to the respective Committees on Armed Services and a period of 60 calendar days expire after receipt of such report.

(3) The cost of the AMRAAM program may not exceed $7,000,000,000 (in fiscal year 1984 dollars), based upon procurement of 24,000 missiles.

(e) T-46A TRAINER AIRCRAFT PROGRAM.—(1) The maximum program production cost for the T-46A Trainer aircraft program is $3,100,000,000 (in fiscal year 1986 dollars), based upon procurement of 650 production aircraft. The maximum production unit cost for such program is $4,800,000 (in fiscal year 1986 dollars). The program production cost and the production unit cost for such program determined for the purposes of this paragraph shall be determined without regard to amounts for initial spares.

(2) If during any fiscal year either maximum cost specified in paragraph (1) is exceeded, the Secretary of the Air Force may not procure any T-46A Trainer aircraft during a later fiscal year until the Secretary has conducted a competition for procurement of that aircraft.

(f) F-16 AIRCRAFT PROGRAM.—Funds appropriated or otherwise made available for fiscal year 1987 for procurement of aircraft for the Air Force may not be obligated for the F-16 aircraft program until—

(1) the Secretary of Defense, after considering the recommendations of the Joint Requirements and Management Board of the Department of Defense, establishes an acquisition plan for such program;

(2) the plan is submitted to the Committees on Armed Services of the Senate and House of Representatives; and

(3) a period of 30 days passes after receipt of such plan by the Committees.

(g) LIMITATION ON PROCUREMENT OF T-9 NOISE SUPPRESSORS.—The Secretary of the Air Force may not obligate or expend any amounts appropriated or otherwise made available to the Air Force for purposes of procuring A/F32T-9 Noise Suppressor Systems unless in procuring such systems the Secretary uses competitive procedures (within the meaning of such term in section 2302(2) of title 10, United States Code).

SEC. 128. PROHIBITION ON WITHDRAWAL OF EUROPEAN CHEMICAL STOCKPILE.

United States chemical munitions stored in Europe on the date of the enactment of this Act may not be removed from Europe unless they are replaced with binary chemical munitions stationed on the soil of at least one European member nation of the North Atlantic Treaty Organization.

TITLE II—RESEARCH, DEVELOPMENT, TEST AND EVALUATION

SEC. 201. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal year 1987 for the use of the Armed Forces for research, development, test, and evaluation in amounts as follows:

(1) For the Army, $4,818,064,000.

(2) For the Navy (including the Marine Corps), $9,097,089,000.

(3) For the Air Force, $14,132,058,000.

(4) For the Defense Agencies, $7,124,782,000, of which—

(A) $136,800,000 is authorized for the activities of the Deputy Under Secretary of Defense, Test and Evaluation; and

(B) $11,300,000 is authorized for the Director of Operational Test and Evaluation.

(b) GENERAL AUTHORIZATION FOR CIVILIAN PAY CONTINGENCIES.—There are authorized to be appropriated for fiscal year 1987, in addition to the amounts authorized to be appropriated in subsection (a), such amounts as may be necessary for unbudgeted amounts for salary, pay, retirement, and other employee benefits authorized by law for civilian employees of the Department of Defense whose compensation is provided by funds authorized to be appropriated in subsection (a).

(c) LIMITATION ON OBLIGATIONS.—The maximum amount that may be obligated from an account for which funds are authorized to be appropriated in subsection (a) is the amount authorized to be appropriated for such account under that subsection plus any amount authorized for such account under subsection (b) plus the following:

(1) For the Army, $5,000,000.

(2) For the Navy, $0.

(3) For the Air Force, $3,900,000.

(4) For the Defense Agencies, $0.

SEC. 202. AUTHORIZATION OF APPROPRIATIONS FOR FOREIGN CURRENCY PURCHASES.

There is hereby authorized to be appropriated for fiscal year 1987 the amount of $3,500,000 for the purchase of foreign currencies from the Treasury Department to pay expenses incurred in carrying out programs of the Department of Defense.

SEC. 203. LIMITATIONS ON FUNDS FOR THE ARMY.

(a) COPPERHEAD GUIDED PROJECTILE.—The Secretary of the Army may not carry out or enter into a contract for any product improvement or modifications to the Copperhead Guided Projectile until the Secretary of Defense—

(A) submits to the Committees on Armed Services of the Senate and the House of Representatives a plan that is designed to provide maximum commonality of all subsystems (to include guidance and control and fuze between the Copperhead and Five-Inch Guided Projectiles); and

(B) certifies to such Committees in writing that a second source contract has been entered into for production of the Copperhead and Five-Inch Guided Projectiles.

(b) PRODUCT IMPROVEMENT OR MODIFICATION.—For purposes of subsection (a), a product improvement or modification is any change to the production configuration of the Copperhead Guided Projectile as in effect on January 1, 1986.

(c) EXPIRATION OF LIMITATION.—The limitation in subsection (a) expires upon the enactment of a law making appropriations for the Department of Defense for fiscal year 1988.

SEC. 204. LIMITATIONS ON FUNDS FOR THE NAVY.

(a) V-22 OSPREY AIRCRAFT.—Of the funds authorized in section 201 for the Navy, not more than $340,000,000 is available for the V-22 Osprey aircraft. Not more than one-half of such amount may be obligated or expended until the Secretary of the Navy certifies to the Committees on Armed Services of the Senate and the House of Representatives in writing that—

(1) such aircraft is capable of performing the antisubmarine warfare mission currently performed by the S-3A aircraft; and

(2) such aircraft is the most cost effective aircraft to perform that mission.

(b) STANDOFF ATTACK MISSILE.—

(1) IN GENERAL.—Of the amount authorized in section 201 for the Navy, not more than $37,500,000 is available for the Standoff Land Attack Missile (SLAM) program.

(2) LIMITATION.—(A) No funds may be obligated or expended for the Standoff Land Attack Missile (SLAM) program until—

(i) the Secretary of the Navy completes a trade-off analysis of the SLAM program with the Medium Range Air-to-Surface Missile; and

(ii) 15 days of continuous session of Congress expire following the submission to Congress by the Secretary of the Navy of a report containing the results of the analysis described in clause (i).

(B) For purposes of subparagraph (A)(ii), the continuity of a session of Congress is broken only by an adjournment of Congress sine die, and the days on which either House is not in session because of an adjournment of more than three days to a day certain are excluded in the computation of such period.

(c) INTER-COOLED RECOUPERATED CYCLE GAS TURBINE PROPULSION SYSTEM.—Funds appropriated for fiscal year 1987 or any previous fiscal year may not be used for research, development, test, and evaluation of the Inter-Cooled Recouperated Cycle Gas Turbine Propulsion System.

(d) MARINE INTEGRATED FIRE AND AIR SUPPORT SYSTEM (MIFASS).—Funds appropriated for fiscal year 1987 or any previous fiscal year may not be used for research, development, test, and evaluation of the Marine Corps Marine Integrated Fire and Air Support System (MIFASS).

(e) MARINE CORPS PEGASUS ENGINE.—Of the funds appropriated pursuant to authorizations in this title not less than $16,000,000 shall be used for safety and reliability improvements for the Marine Corps AV-8B aircraft Pegasus engine program.

(f) AVIONICS RACK SYSTEM.—Of the funds appropriated pursuant to authorizations in this title not less than $10,000,000 shall be used for test and evaluation of the Floating Beam Avionics Racking system and the interface of that system with the Navy's S-3A antisubmarine warfare aircraft and other aircraft.

(g) RANKINE CYCLE ENERGY RECOVERY (RACER) SYSTEM.—Funds appropriated for fiscal year 1987 may not be used for research, development, test, and evaluation for the DDG-51 class ship until the Secretary of the Navy notifies the Committees on Armed Services of the Senate and the House of Representatives that—

(1) testing of the Rankine Cycle Energy Recovery (RACER) system has resumed;

(2) testing of that system will continue through completion of land-based and at-sea testing; and

(3) compatibility of the RACER system with the second flight of the DDG-51 class ship will be maintained and no design changes will be implemented on the DDG-51 class ships that will obviate the installation or retrofit of the RACER system.

(h) LOW-COST SEEKER MISSILE.—Of the funds authorized in section 201 for the Navy, $39,704,000 is available only for the Low-Cost Seeker Missile program.

(i) FUNDS FOR LIBYAN LESSONS-LEARNED EQUIPMENT MODIFICATIONS.—Of the amount appropriated for research, development, test, and evaluation for the Navy for fiscal year 1987, $50,000,000 may not be obligated or expended until the Secretary of the Navy submits to the Committees on Armed Services of the Senate and House of Representatives a written certification that the expenditure—

(1) is directly related to the Libyan lessons-learned study; and

(2) will be used for equipment modifications and associated development, test, and evaluation that will have a significant affect on the war-fighting capacity of the United States.

(j) 5-INCH ROLLING AIRFRAME MISSILE.—Funds appropriated to the Department of Defense for fiscal year 1987 (or any prior fiscal year) may not be obligated or expended for the 5-Inch Rolling Airframe Missile until the Secretary of Defense—

(1) enters into a firm fixed price production contract for such missile with the development contractor or any other alternative production source at a total unit price of not more than $110,000 (in fiscal year 1986 dollars) for the first procurement lot of missiles with not-to-exceed options for any later purchase of such missiles at $110,000 or less; and

(2) certifies to the Committees on Armed Services of the Senate and House of Representatives that the average unit fly-away cost for the entire planned procurement of such missiles shall not exceed $85,000 per unit (using fiscal year 1986 dollars as the base year index).

(k) SYNTHETIC APERTURE RADAR TECHNOLOGY.—Of the funds authorized in section 201 for the Navy, not less than $5,000,000 shall be used for the development of Synthetic Aperture Radar (SAR) technology for satellites and systems for the ocean surveillance systems of the Navy.

SEC. 205. LIMITATION ON FUNDS FOR THE AIR FORCE.

(a) CRUISE MISSILE SHORT-RANGE ATTACK MISSILE II.—Of the funds authorized in section 201 for the Air Force, not more than $148,000,000 is available for research, development, test, and evaluation of either (but not both) the Advanced Cruise Missile or the Short-Range Attack Missile II system.

(b) AMRAAM.—Of the amount authorized in section 201 for the Air Force, not more than $39,000,000 is available for the Advanced Medium Range Air-to-Air Missile (AMRAAM) program. Funds appropriated for fiscal year 1987 may not be obligated or expended for such program until the Secretary of Defense advises the Committees on Armed Services of the Senate and House of Representatives in writing that the certification required by section 210(b) of the Department of Defense Authorization Act, 1986 (Public Law 99-145, 99 Stat. 611), remains valid.

(c) SPACE DEFENSE SYSTEM.—Of the amount authorized in section 201 for the Air Force, not more than $140,000,000 is available for the Space Defense system. None of such amount may be used for the production verification of the Miniature Homing Vehicle.

(d) LOW-COST SEEKER MISSILE.—Of the funds authorized in section 201 for the Air Force, $17,375,000 is available only for the Low-Cost Seeker Missile program.

(e) TECHNICAL ON-SITE INSPECTION.—Of the amount authorized in section 201 of the Air Force, not less than $9,850,000 shall be available for technical on-site inspection.

SEC. 206. LIMITATION ON FUNDS FOR DEFENSE AGENCIES.

(a) MEDICAL APPLICATION OF FREE ELECTRON LASER.—Of the amount authorized in section 201 for the Defense Agencies (including the Strategic Defense Initiative Organization), $15,000,000 may be used only for the application of Free-Electron Lasers for medical research and material.

(b) ASSISTANT SECRETARY OF DEFENSE (C3I).—Of funds appropriated for fiscal year 1987, not more than $488,857,000 shall be available for the Assistant Secretary of Defense for Command, Control, Communications, and Intelligence for research, development, test, and evaluation of electronic warfare systems. Of such amount, not less than $125,000,000 is available only for the development and demonstration of the Integrated Communication Navigation Identification Avionics and the Integrated Electronic Warfare System and the Associated Very High-Speed Integrated Circuit Based Modular Architecture programs.

(c) LASER PANTOGRAPHY.—Of the amount authorized to be appropriated for the Defense Agencies in section 201 for Microwave/Millimeter Wave Monolithic Integrated Circuit Technology efforts, $4,000,000 is available only for the Laser Pantography project.

SEC. 207. CONVENTIONAL DEFENSE INITIATIVE.

(a) IN GENERAL.—In this Act, Congress commences a program of Conventional Defense Initiatives to provide an emphasis on improving the conventional weapons of the Armed Forces (and the testing of such weapons) and to enhance cooperation with the other member nations of the North Atlantic Treaty Organization. The initiative is intended to improve the fighting power and survivability of the combat forces of the United States and to raise the threshold for nuclear war.

(b) AMOUNT AUTHORIZED.—Of the amount authorized in section 201 for the Army, Navy, and Air Force, $462,313,000 is available only for the Conventional Defense Initiatives program.

SEC. 208. STRATEGIC DEFENSE INITIATIVE.

Of the amount authorized in section 201 for research, development, test, and evaluation for the Defense Agencies, not more than $2,846,000,000 is available for the Strategic Defense Initiative (SDI) program, such amount being the amount of $2,750,000,000 provided for fiscal year 1986 plus an additional $96,000,000 representing a 3.5 percent increase for inflation.

SEC. 209. TACTICAL BALLISTIC MISSILE DEFENSE.

(a) AUTHORITY FOR PROGRAM.—The Secretary of Defense shall provide that the Strategic Defense Initiative Organization (SDIO) of the Department of Defense shall carry out a research, development, and test program in accordance with this subsection. The program shall be carried out through a separate office established within the SDIO. Through such program, the Secretary shall carry out research, development, and test of systems for defense against tactical ballistic missiles. In carrying out such program, the Secretary shall, to the extent practicable, make use of technologies for defense against intercontinental ballistic missiles developed through programs of the Strategic Defense Initiative.

(b) FUNDING.—Of the funds appropriated pursuant to the authorization in section 201 for the Strategic Defense Initiative, up to $50,000,000, shall be available to initiate development and deployment of an antitactical ballistic missile system.

SEC. 210. MODIFICATION OF LINKAGE OF DEPLOYMENT OF THE MX MISSILE AND DEVELOPMENT OF SMALL MOBILE MISSILE.

(a) LIMITATION.—The Secretary of Defense may not deploy more than 10 MX missiles until—

(1) the major elements (including the guidance and control subsystems) of a mobile missile weighing less than 37,000 pounds as a part of an intercontinental ballistic missile system have been tested;

(2) the major elements of the prototype small mobile intercontinental ballistic missile system (including the missile, the prototype mobile transporter-launcher basing system, and the command, control, and communications system) have been designed and functionally integrated and the system has been validated;

(3) contractors for the full-scale engineering development of such missile system have been selected and full-scale engineering development contracts have been awarded to those contractors;

(4) full-scale engineering development of such a mobile system has begun; and

(5) the Secretary has provided to the Committees on Armed Services of the Senate and the House of Representatives written certification that the small mobile missile system program has been structured to provide an initial operational capability of not later than December 31, 1992.

(b) REPEAL OF PRIOR MX LIMITATION.—Subsections (a) and (b) of section 1231 of the Department of Defense Authorization Act, 1984 (Public Law 98-94; 97 Stat. 693), are repealed.

SEC. 211. COOPERATIVE MEDICAL RESEARCH PROGRAM WITH VETERANS' ADMINISTRATION.

(a) AUTHORITY FOR PROGRAM.—The Secretary of Defense shall, in cooperation with the Administrator of Veterans' Affairs, establish a cooperative medical research program to be administered by the Secretary and the Administrator.

(b) FUNDING.—Not less than $10,000,000 of each of the following amounts is available only for the cooperative medical research program established under subsection (a):

(1) ARMY.—The amount authorized in section 201 for the Army.

(2) NAVY.—The amount authorized in section 201 for the Navy.

(3) AIR FORCE.—The amount authorized in section 201 for the Air Force.

(c) DEADLINE.—The Secretary of Defense shall, before the end of the 30-day period beginning on the date of the enactment of a law making appropriations for the Department of Defense for fiscal year 1987—

(1) establish the program required to be established under subsection (a); and

(2) make available the amounts appropriated for that program.

SEC. 212. HIGH-SPEED ANTI-RADIATION MISSILE (HARM).

No funds appropriated or otherwise made available to the Department of Defense may be used for research, development, test, and evaluation for the High-Speed Anti-Radiation Missile (HARM) unless the Secretary of Defense certifies to the Committees on Armed Services of the Senate and House of Representatives that—

(1) the Block IV design (or any derivative of the Block IV design) shall be integrated into the HARM at no cost to the government; and

(2) the development, test, and evaluation of the Low-Cost Seeker Missile compatible with the HARM shall be completed.

SEC. 213. CONVERSION OF POSITION OF DIRECTOR OF OPERATIONAL TEST AND EVALUATION TO ASSISTANT SECRETARY LEVEL.

(a) ASSISTANT SECRETARY OF DEFENSE.—Section 136 of title 10, United States Code, is amended—

(1) by striking out "eleven" in subsection (a) and inserting in lieu thereof "12"; and

(2) by adding at the end of subsection (b) the following new paragraph:

"(7) One of the Assistant Secretaries shall be the Assistant Secretary of Defense for Operational Test and Evaluation. That Assistant Secretary shall have the functions and shall perform the duties prescribed by section 136a of this title.".

(b) STAFF.—Section 136a of such title is amended by adding at the end the following new subsection:

"(i) The Assistant Secretary shall have a professional staff of not less than 40 military and civilian personnel of the Department of Defense.".

(c) CONFORMING AMENDMENTS.—

(1) IN GENERAL.—Section 136a of such title is amended—

(A) in subsection (a)(1)—

(i) by striking out the first sentence;

(ii) by striking out "The Director" the first place it appears and inserting in lieu thereof "The Assistant Secretary of Defense for Operational Test and Evaluation";

(iii) by striking out "of Director"; and

(iv) by striking out "The Director" the second place it appears and inserting in lieu thereof "The Assistant Secretary";

(B) by striking out "Director" each place it appears in subsections (b) through (g) and inserting in lieu thereof "Assistant Secretary"; and

(C) in subsection (h)—

(i) by striking out "the Director of" and inserting in lieu thereof "the Assistant Secretary of Defense for"; and

(ii) by striking out "Director under" and inserting in lieu thereof "Assistant Secretary under".

(2) EXECUTIVE SCHEDULE.—Section 5315 of title 5, United States Code, is amended—

(A) by striking out "Director of Operational Test and Evaluation, Department of Defense."; and

(B) by striking out "(11)" after "Assistant Secretaries of Defense" and inserting in lieu thereof "(12)".

(d) CLERICAL AMENDMENTS.—

(1) HEADING.—The heading of section 136a of such title is amended to read as follows:

"§ 136a. Assistant Secretary of Defense for Operational Test and Evaluation: powers and duties".

(2) TABLE OF SECTIONS.—The item relating to such section in the table of sections at the beginning of chapter 4 of such title is amended to read as follows:

"136a. Assistant Secretary of Defense for Operational Test and Evaluation: powers and duties.".

(e) TRANSITION.—The conversion by the amendments made by this section of the position of Director of Operational Test and Evaluation of the Department of Defense to Assistant Secretary of Defense for Operational Test and Evaluation shall not affect the appointment in such position of the person serving in such position on the date of the enactment of this Act.

SEC. 214. LIVE-FIRE TESTING AND OPERATIONAL TESTING.

(a) TESTING REQUIREMENTS.—

(1) IN GENERAL.—Chapter 139 of title 10, United States Code, is amended by adding at the end the following new sections:

"§ 2364. Live-fire testing: covered systems, major munitions programs, and missile programs

"(a) REQUIREMENTS.—The Secretary of Defense shall provide that—

"(1) a contract for production of a covered system may not be entered into until live-fire testing of the system is completed in accordance with this section; and

"(2) a contract for production of a major munitions program or a missile program may not be entered into until live-fire testing of the program is completed in accordance with this section.

"(b) DIRECTOR OF LIVE-FIRE TESTING.—

"(1) APPOINTMENT.—There is in the Department of Defense a Director of Live-Fire Testing. The Director shall be appointed from civilian life by the Secretary of Defense and shall be under the Director of Defense Research and Engineering.

"(2) DUTIES.—The Director shall—

"(A) before full-scale engineering development begins with respect to a covered system, major munitions program, or missile program—

"(i) review the adequacy of the plan, schedule, and proposed funding of the Secretary of the military department concerned for live-fire testing of that system or program; and

"(ii) report to the Director of Defense Research and Engineering on the adequacy or inadequacy of the plan for such live-fire testing and (if the Director of live-fire testing determines that the plan is inadequate) on what would constitute an adequate test plan; and

"(B) while such live-fire testing is carried out, continue to review the adequacy and progress of such testing.

"(3) IMPROVEMENT OF TESTING.—(A) The Director shall carry out programs to improve the conduct of live-fire tests by the Department of Defense and shall develop improved methods, instruments, and facilities for such tests.

"(B) The Secretary of Defense shall provide to the Director specific funds for the functions of the Director under subparagraph (A).

"(4) OVERSIGHT OF TESTING.—The Director—

"(A) may observe any live-fire test conducted by the Secretary of a military department; and

"(B) shall have access to all live-fire test data and reports produced by the Secretary of a military department.

"(5) STAFF OF DIRECTOR.—The Secretary shall provide to the Director an adequate staff to enable the Director to carry out the duties of the Director under this section.

"(c) LIVE-FIRE TESTING BY SERVICE SECRETARIES.—

"(1) IN GENERAL.—The Secretary of the military department concerned shall carry out live-fire testing of each covered system, major munitions program, or missile program for which the Secretary has responsibility for development and production. Such testing—

"(A) shall be planned and funded by that Secretary; and

"(B) shall be carried out early enough during the developmental phase of the system or program to allow any design deficiency demonstrated by the testing to be corrected and integrated into the design of the system, munition, or missile before production is begun.

"(2) SUBMISSION OF TEST PLAN.—Before full-scale engineering development of the system, munitions program, or missile program is begun (or, in the case of a naval vessel, before contract design is begun), the Secretary concerned shall submit to the Director the plan, schedule, and proposed funding for live-fire testing of the system or program to be carried out by the Secretary.

"(3) REPORT TO DIRECTOR.—After such testing is completed, the Secretary concerned shall submit to the Director a report (in both classified and unclassified forms) on the test conducted by the Secretary. Such report shall include—

"(A) a complete description of the firing parameters used in the test;

"(B) an analysis of the effect on the target of each test shot, with primary emphasis on effect on potential casualties;

"(C) a comparison (including a description and justification of the merit and criteria used in carrying out the comparison) of the results of such live-fire test with results of—

"(i) any live-fire test of the system, munition, or missile that would be replaced by the system, munition, or missile tested; or

"(ii) if there is no system, munition, or missile that would be replaced by the system, munition, or missile tested or if such system, munition, or missile was not subjected to live-fire tests, any live-fire test of the system, munition, or missile that is the nearest competition to the system, munition, or missile tested;

"(D) a description of the potential shortcomings of the system, munition, or missile that were revealed by the testing and (if any were revealed) the plan of the Secretary concerned to incorporate into the design of the system, munition, or missile changes that are necessary to overcome such shortcomings and the associated costs; and

"(E) a test plan for further live-fire testing to verify that the planned design changes are effective in overcoming such shortcomings.

"(4) INDEPENDENT LIVE-FIRE TEST.—If in any case the Director determines that the plan of the Secretary of a military department for a live-fire test is inadequate to determine vulnerability of users of a system or the lethality of a munition or missile, the Director may independently plan and carry out a live-fire test of the system, munition, or missile involved. Such testing may be conducted at the same time as, or after, a similar test by the Secretary concerned. Funds for such testing shall be provided from the program budget for the program concerned.

"(d) USE OF SURROGATE FOREIGN ROUNDS OR TARGETS.—In the case of a live-fire test of a covered system for which sufficient actual foreign rounds are not available or of a major munitions program or missile program for which sufficient actual foreign targets are not available, the Director—

"(1) shall establish plans for obtaining or producing surrogate foreign rounds or surrogate foreign targets or United States targets, as appropriate;

"(2) shall test the realism of such surrogates; and

"(3) when required, shall obtain such surrogate rounds or targets.

"(e) USE OF SURROGATES FOR TESTING.—In the case of a covered system for which the Director determines that it is extraordinarily expensive to test an actual prototype or production model, the Director shall configure or produce realistic surrogates of the system for test purposes.

"(f) REPORT TO DIRECTOR, DEFENSE RESEARCH AND ENGINEERING.—Before production of a covered system, major munitions program, or missile program begins, the Director shall submit to the Director of Defense Research and Engineering a report on each live-fire test conducted with respect to that system or program. The report shall include an analysis of the adequacies and inadequacies of the test and any differences in interpretation of the Director and Secretary concerned of the firing results, and any differences and conclusions. Each such report shall be independent of, and uncoordinated with, the report of the Secretary concerned and shall be submitted in both classified and unclassified forms.

"(g) REPORT TO DEFENSE COMMITTEES.—At the conclusion of live-fire testing for a covered system, major munitions program, or missile program, the Director shall submit to the defense committees a report on such testing.

"(h) WAIVER.—The Secretary of Defense may waive the application of this section to a covered system, munitions program, or missile program if the Secretary, before such system or program enters full-scale engineering development, certifies to Congress that live-fire testing of such system or program (even if a surrogate is used as provided in subsection (e)) would be extraordinarily expensive and unnecessary.

"(i) DEFINITIONS.—In this section:

"(1) COVERED SYSTEM.—The term 'covered system' means a vehicle, weapon platform, or conventional weapon system—

"(A) that includes features designed to provide some degree of protection to users in combat; and

"(B) that is a major system within the meaning of that term in section 2302(5) of this title.

"(2) MAJOR MUNITIONS PROGRAM.—The term 'major munitions program' means—

"(A) a munitions program for which more than 1,000,000 rounds are planned to be acquired; or

"(B) a conventional munitions program that is a major system within the meaning of that term in section 2302(5) of this title.

"(3) LIVE-FIRE TESTING.—The term 'live-fire testing' means—

"(A) in the case of a covered system, testing for vulnerability and survivability of the system in combat by firing foreign conventional munitions (including all threat munitions that would likely be encountered by the system in combat) at the system configured for combat, with the primary emphasis on testing vulnerability with respect to potential user casualties; and

"(B) in the case of a major munitions program or a missile program, testing for lethality by firing the munition or missile concerned at foreign targets configured for combat, including each principal foreign target against which the munition or missile is intended to be used during combat.

"(4) CONFIGURED FOR COMBAT.—The term 'configured for combat', with respect to a weapon system, platform, or vehicle, means loaded or equipped with all dangerous conventional materials (including all flammables and explosives) that would normally be on board in combat.

"(5) DEFENSE COMMITTEES.—The term 'defense committees' has the meaning given that term in section 2362(e)(3) of this title.

"§ 2365. Operational testing: certain major defense acquisition programs

"(a) INDEPENDENT TEST AND EVALUATION BY SERVICE SECRETARIES.—

"(1) IN GENERAL.—The Secretary of the military department concerned shall conduct an independent operational test and evaluation with respect to a major defense acquisition program under which there is to be acquired a conventional weapons system that—

"(A) is a major system within the meaning of that term in section 2302(5) of this title; and

"(B) is designed for use in combat.

"(2) LIMITATION ON PRODUCTION CONTRACTS.—(A) An operational test and evaluation required by paragraph (1) shall be conducted before a major defense acquisition program may proceed into the production stage.

"(B) A contract for production of a major defense acquisition program may not be entered into until the requirements of this section with respect to such program are fulfilled.

"(C) Subparagraph (B) does not apply to a contract for production of weapons systems that are required for operational test and evaluation required by paragraph (1).

"(3) DESCRIPTION OF INDEPENDENT TEST AND EVALUATION.—(A) Except as provided in subparagraph (B), an operational test and evaluation is not independent for purposes of this subsection if any person employed by the contractor for the system being tested is involved in any stage of the operational test and evaluation.

"(B) This paragraph does not apply to the involvement in an operational test and evaluation of a person employed by the contractor who is involved in depot-level maintenance of the system being tested to the same extent and in the same manner as that person would be involved in such maintenance in time of war.

"(b) SIDE-BY-SIDE TESTING.—

"(1) IN GENERAL.—The operational test and evaluation required by subsection (a) shall include a side-by-side test of the system being acquired with equal-cost quantities of—

"(A) the system intended to be replaced (if the system being acquired is intended to replace another system); or

"(B) the nearest, most effective competitor of the system being acquired (if the system being acquired is not intended to replace another system) that is manufactured in the free world.

"(2) COST OF SYSTEMS.—For purposes of the side-by-side test described in paragraph (1)—

"(A) the cost of the system being acquired is the projected program unit cost included in the most recent Selected Acquisition Report with respect to that system; and

"(B) the cost of the system intended to be replaced or the competitor system is the cost of acquiring that system.

"(c) INDEPENDENT ANALYSIS OF RESULTS OF OPERATIONAL TEST AND EVALUATION.—

"(1) IN GENERAL.—The Assistant Secretary for Operational Test and Evaluation shall independently analyze the results of each operational test and evaluation carried out under subsection (a). At the conclusion of that operational test and evaluation, the Assistant Secretary shall submit a report to the Secretary of Defense on that analysis.

"(2) INDEPENDENT OPERATIONAL TEST AND EVALUATION.—If in any case the Assistant Secretary determines that the operational test and evaluation carried out under subsection (a) is inadequate to determine effectiveness, suitability, vulnerability of users, or lethality, the Assistant Secretary may independently plan and carry out an operational test and evaluation of the system involved.

"(3) REIMBURSEMENT OF COSTS.—The Secretary of Defense shall provide that costs of the Assistant Secretary incurred incident to operational test and evaluation under paragraph (1) or (2) (as such costs are determined by the Assistant Secretary) shall be reimbursed to funds available to the Assistant Secretary from funds available for the system concerned.

"(d) CONTENT OF REPORTS.—Each report under subsection (c) shall include an analysis of whether the extent and realism of the test and evaluation performed were adequate to assess confidently, in comparison with the system intended to be replaced or the competitor system, each of the following to the extent appropriate with respect to the particular item or component tested:

"(1) SURVIVABILITY.—The ability of the system to survive (with primary emphasis on casualties) when hit in a combat situation by weapons likely to be encountered in such a situation.

"(2) MAINTAINABILITY.—The ability of military personnel of average skill, operating under the stress of combat, to maintain the system in an operational status.

"(3) PROBABILITY OF SYSTEM FAILURE.—The probability of system failure in a combat situation under the maintenance conditions described in paragraph (2).

"(4) MOBILITY.—The time required to move, with no prior notice, combat units containing the system in a realistic combat environment over typical deployment distances and battlefield distances.

"(5) MANEUVERABILITY.—The maneuverability of the system in a combat situation with respect to—

"(A) survival; and

"(B) firing advantage.

"(6) EFFECTIVENESS.—The effectiveness of the system as indicated by results of the side-by-side test required in subsection (b)(1).

"(e) SUBMISSION OF REPORTS TO DEFENSE COMMITTEES.—Each report of the Assistant Secretary under subsection (c) shall be submitted to the defense committees in precisely the same form and with precisely the same content as the report originally was submitted to the Secretary and shall be accompanied by such comments as the Secretary of Defense may wish to make on such report.

"(f) APPROVAL OF TEST PLANS.—

"(1) IN GENERAL.—Operational testing of a major defense acquisition program may not be conducted until the Assistant Secretary approves in writing the adequacy of the plans (including the adequacy of projected

levels of funding) for operational test and evaluation to be conducted in connection with that program.

"(2) WAITING PERIOD.—(A) A final decision within the Department of Defense to proceed with a major defense acquisition program beyond low-rate initial production may not be made until 15 days of continuous session of Congress expire following after the date that the defense committees receive the report required under subsection (e).

"(B) For purposes of subparagraph (A), the continuity of a session of Congress is broken only by an adjournment of Congress sine die, and the days on which either House is not in session because of an adjournment of more than three days to a day certain are excluded in the computation of such period.

"(g) WAIVER.—In time of war or mobilization, the President may suspend the operation of any provision of this section.

"(h) DEFINITIONS.—In this section:

"(1) MAJOR DEFENSE ACQUISITION PROGRAM.—The term 'major defense acquisition program' means a program subject to the Selected Acquisition Report requirements of section 139a of this title.

"(2) OPERATIONAL TEST AND EVALUATION.—The term 'operational test and evaluation' has the meaning given that term in section 136a(a)(2)(A) of this title.

"(3) DEFENSE COMMITTEES.—The term 'defense committees' has the meaning given that term in section 2362(e)(3) of this title.".

(2) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new items:

"2364. Live-fire testing: covered systems, major munitions programs, and missile programs.
"2365. Operational testing: certain major defense acquisition programs.".

(b) ANNUAL REPORT.—Subsection (g)(1) of section 136a of such title is amended—

(1) by striking out "January 15" in the second sentence and all that follows through "is prepared" and inserting in lieu thereof "10 days after the transmission of the budget for the next fiscal year pursuant to section 1105 of title 31";

(2) by striking out "evaluation and" in the third sentence and inserting in lieu thereof "evaluation,"; and

(3) by striking out "activities" in the third sentence and inserting in lieu thereof "activities, and the resources and personnel assigned to the Director to enable the Director to carry out his duties under this section".

(c) CONFORMING AMENDMENTS.—Such section is further amended—

(1) by striking out clause (i) of subsection (a)(2)(A) and inserting in lieu thereof the following:

"(i) the field test under realistic operational conditions of a production representative item of a weapon system, equipment or munition for purposes of assessing and determining the effectiveness and suitability of the weapon system, equipment, or munition for use by typical users, and, if appropriate, additional operational testing including analysis of tactical and doctrinal concepts for and key components of weapon systems, equipment, or munitions; and";

(2) in subsection (b)—

(A) by adding "and" at the end of paragraph (4);

(B) by striking out paragraph (5); and

(C) by redesignating paragraph (6) as paragraph (5);

(3) by striking out subsection (c);

(4) by redesignating subsections (d) and (e) as subsections (c) and (d), respectively;

(5) by striking out subsection (f);

(6) by redesignating subsection (g) (as amended by subsection (b)) as subsection (e) and in that subsection striking out "such comments" in the third sentence and inserting in lieu thereof "a detailed explanation of the points of agreement and disagreement between the Assistant Secretary and the Secretary of the military department concerned with respect to each evaluation conducted by the Secretary during the preceding fiscal year and such other comments"; and

(7) by redesignating subsection (h) and subsection (i) (as added by section 213(b)) as subsections (f) and (g), respectively.

(d) EFFECTIVE DATES.—

(1) LIVE-FIRE TESTING REQUIREMENTS.—Section 2364 of title 10, United States Code, as added by subsection (a), shall apply with respect to systems, munitions programs, and missile programs that have not begun full-scale engineering development by the end of the 90-day period beginning on the date of the enactment of this Act.

(2) OPERATIONAL TESTING REQUIREMENTS.—Section 2365 of title 10, United States Code, as added by subsection (a), and the amendments made by subsection (b) shall apply with respect to major defense acquisition programs under which, on the date of the enactment of this Act, the Secretary of Defense or the Secretary of the military department concerned has not entered into a contract to proceed beyond low-rate initial production.

SEC. 215. LIMITATION ON TESTING OF ANTI-SATELLITE WEAPONS.

(a) ASAT TESTING MORATORIUM.—The Secretary of Defense may not carry out a test of the Space Defense System (anti-satellite weapon) against an object in space until the President certifies to Congress that the Soviet Union has conducted, after the date of the enactment of this Act, a test against an object in space of a dedicated anti-satellite weapon.

(b) EXPIRATION.—The prohibition in subsection (a) expires on October 1, 1987.

SEC. 216. ADVANCED ANTI-ARMOR WEAPON SYSTEM.

(a) FEASIBILITY DEMONSTRATION OF CANDIDATE SYSTEMS.—Of the funds authorized in section 201 for the Army, $48,735,000 is authorized to be appropriated for the Advanced Anti-Armor Weapon System Medium (AAWS-M) program, but funds may be obligated for such program only if—

(1) the Secretary of the Army begins a prototype feasibility demonstration of not more than three candidate systems for such program, including a true fire-and-forget, launch, and leave candidate;

(2) the feasibility demonstration for such a system is capable of being completed within 24 months after the date of the enactment of this Act;

(3) the authority for test planning and evaluation for the feasibility demonstration is the Director of Test and Evaluation of the Department of Defense; and

(4) the actual conduct of the feasibility demonstration is carried out jointly by the Army and the Marine Corps.

(b) REQUIREMENT FOR SATISFACTION OF SERVICE ANTI-ARMOR REQUIREMENTS.—The Secretary of Defense may not authorize the initiation of full-scale engineering development of the winning AAWS-M candidate until—

(1) the Secretary of the Army certifies to the Committees on Armed Services and Appropriations of the Senate and House of Representatives that the winning system meets the anti-armor requirement of the Army; and

(2) the Secretary of the Navy, upon recommendation of the Commandant of the Marine Corps, certifies to such Committees that the winning system meets the anti-armor requirement of the Marine Corps.

SEC. 217. COORDINATION OF RESEARCH ACTIVITIES.

(a) PURPOSE.—It is the purpose of this section to strengthen coordination among Department of Defense research facilities and other organizations in the Department of Defense.

(b) FINDINGS.—The Congress finds that centralized coordination of the collection and dissemination of technological data among research facilities and other organizations within the Department of Defense is necessary (1) to ensure that personnel of the Department are currently informed about emerging technology for defense systems; and (2) to avoid unnecessary and costly duplication of research staffs and projects.

(c) DEFINITIONS.—For purposes of this section:

(1) The term "Defense research facility" means any Department of Defense facility which performs or contracts for the performance of (i) basic research, or (ii) applied research known as exploratory development.

(2) The term "milestone 0 decision" means a decision made within the Department of Defense that there is a mission need for a new major weapon system and that research and development is to begin to meet such need.

(3) The term "milestone I decision" means a selection by an appropriate official of the Department of Defense of a new major weapon system concept and a program for demonstration and validation of such concept.

(4) The term "milestone II decision" means approval by an appropriate official with the Department of Defense for the full-scale development of a new major weapon system.

(d) COORDINATION OF DEPARTMENT OF DEFENSE TECHNOLOGICAL DATA.—The Secretary of Defense shall—

(1) promote, monitor, and evaluate programs for the communication and exchange of technological data—

(A) among the Defense research facilities, combat forces, and other organizations that are involved in developing for the Department of Defense the technological requirements for new items for use by combat forces; and

(B) among Defense research facilities and other offices, agencies, and bureaus in the Department that are engaged in related technological matters; and

(2) ensure, to the maximum extent practicable—

(A) that Defense research facilities are assigned broad mission requirements rather than specific hardware needs;

(B) that appropriate personnel of such facilities are assigned to serve as consultants on component and support system standardization;

(C) that the managers of such facilities have broad latitute to choose research and development projects;

(D) that technology position papers prepared by Defense research facilities are readily available to all military commands and to contractors who submit bids or proposals for Department of Defense contracts; and

(E) that, in order to promote increased consideration of technological issues early in the development process, any position papers prepared by Defense research facilities on technological issues relating to a major weapon system and any technological assessments made by such facilities in the

case of such component are made a part of the records considered for the purpose of making milestone 0, I, and II decisions.

(e) REPORT.—The Secretary of Defense shall submit to the Congress, within one year after the date of the enactment of this Act, a written report containing a description of (i) the actions taken by the Secretary for the purpose of implementing this section, and (ii) any other action taken by the Secretary for the purpose of improving the management and utilization of Defense research facilities.

SEC. 218. LIMITATION ON ESTABLISHMENT OF A FEDERALLY FUNDED RESEARCH AND DEVELOPMENT CENTER FOR THE STRATEGIC DEFENSE INITIATIVE PROGRAM.

(a) LIMITATION.—The Secretary of Defense may not obligate or expend any funds for the purpose of operating a Federally funded research and development center that is established for the support of the Strategic Defense Initiative Program after the date of the enactment of this Act unless—

(1) the Secretary submits to the Committees on Armed Services of the Senate and House of Representatives a report with respect to such proposed center that provides the information described in subsection (b); and

(2) funds are specifically authorized to be appropriated for such purpose after the date of the enactment of this Act in an Act other than—

(A) an appropriations Act; or

(B) a continuing resolution.

(b) CONTENT OF REPORT.—A report submitted under subsection (a)(1) with respect to a proposed center shall include a discussion of—

(1) the ability of existing Federally funded research and development centers, Federal research laboratories, and private contractors to perform the objectives of technological integration and evaluation required by the Strategic Defense Initiative Organization;

(2) the comparative cost of having the proposed work performed by—

(A) the Strategic Defense Initiative Organization;

(B) Federally funded research and development centers in existence on the date of the enactment of this Act;

(C) by Federal research laboratories;

(D) by private contractors; or

(E) by such center;

(3) whether such center is intended to be—

(A) primarily a study and analysis center; or

(B) primarily a system engineering/system integration center;

(4) whether such center will be required or authorized to enter into contracts under which research projects would be performed by other Federally funded research and development centers, Federal research laboratories, or private contractors;

(5) whether the contract to operate such center will be awarded on a competitive basis;

(6) whether proposals with respect to the operation of such center—

(A) will be considered by the appropriate Defense Agency; and

(B) will be subjected to review by persons to be elected by the National Academy of Sciences;

(7) whether such center will be designed to prevent even the possibility of an appearance of a conflict of interest—

(A) by prohibiting any officer, employee, or member of the governing body of such center from holding any position with—

(i) the Strategic Defense Initiative Organization; or

(ii) a private contractor that has a substantial interest in the development of the Strategic Defense Initiative; and

(B) by prohibiting more than one-half of the members of the governing body of the proposed Federally Funded Research Center from simultaneously holding any position with the Strategic Defense Initiative Advisory Committee or any similar body which provides technological, scientific, or strategic advice to the Department of Defense about the Strategic Defense Initiative;

(8) whether other actions will be taken to avoid possible conflict of interest situations within such center;

(9) the role of the Department of Defense in—

(A) the selection of the staff of such center; and

(B) the internal organization of such center; and

(10) whether a prescribed minimum percentage of the annual budget of such center will be set aside for research to be conducted independently of the Department of Defense.

SEC. 219. LIMITATION ON TESTING ELECTROMAGNETIC PULSE.

During fiscal year 1987, the Secretary of the Navy may not carry out a demonstration test of an electromagnetic pulse in the Chesapeake Bay, Maryland and Virginia, in connection with the Electromagnetic Pulse Radiation Environment Simulator Program for Ships.

SEC. 220. TRANSFER OF FUNDS.

Of the amounts appropriated pursuant to authorizations of appropriations in this Act, the Secretary of Defense shall make available to the Director of Central Intelligence, from amounts other than amounts appropriated for intelligence and intelligence-related activities, the sum of $90,000,000, which shall be available as the Director may determine for the collection, processing, and analysis of intelligence to support counterintelligence, counternarcotics, and counterterrorism programs and activities within the National Foreign Intelligence Program.

TITLE III—OPERATION AND MAINTENANCE

SEC. 301. OPERATION AND MAINTENANCE FUNDING.

(a) AUTHORIZATION OF APPROPRIATIONS.—Funds are hereby authorized to be appropriated for fiscal year 1987 for the use of the Armed Forces and other activities and agencies of the Department of Defense for expenses, not otherwise provided for, for operation and maintenance in amounts as follows:

For the Army, $20,742,770,000.

For the Navy, $24,437,000,000.

For the Marine Corps, $1,845,700,000.

For the Air Force, $19,562,600,000.

For the Defense Agencies, $6,728,097,000.

For the Army Reserve, $789,800,000.

For the Naval Reserve, $907,500,000.

For the Marine Corps Reserve, $64,800,000.

For the Air Force Reserve, $927,100,000.

For the Army National Guard, $1,790,100,000.

For the Air National Guard, $1,783,100,000.

For the National Board for the Promotion of Rifle Practice, $4,330,000.

For the Military Health Care Account, $1,569,503,000.

For Defense Claims, $153,100,000.

For the Court of Military Appeals, $3,400,000.

For Foreign Currency Fluctuations, Defense, $495,000,000.

For Environmental Restoration, Defense, $385,900,000.

(b) GENERAL AUTHORIZATION FOR CONTINGENCIES.—There are authorized to be appropriated for fiscal year 1987, in addition to the amounts authorized to be appropriated in subsection (a), such sums as may be necessary—

(1) for unbudgeted increases in fuel costs;

(2) for unbudgeted increases as the result of inflation in the cost of activities authorized by subsection (a); and

(3) for unbudgeted amounts for salary, pay, retirement, and other employee benefits authorized by law for civilian employees of the Department of Defense whose compensation is provided for by funds authorized to be appropriated in subsection (a).

(c) LIMITATION ON OBLIGATIONS.—The maximum amount that may be obligated from an appropriation account for which funds are authorized to be appropriated by this section or section 302 or 303 is the amount authorized to be appropriated for that account plus any amount authorized under subsection (b).

SEC. 302. WORKING CAPITAL FUNDS.

Funds are hereby authorized to be appropriated for fiscal year 1987 for the use of the Armed Forces and other activities and agencies of the Department of Defense for providing capital for working-capital funds in amounts as follows:

For the Army Stock Fund, $286,700,000.

For the Navy Stock Fund, $458,500,000.

For the Marine Corps Stock Fund, $44,400,000.

For the Air Force Stock Fund, $239,400,000.

For the Defense Stock Fund, $126,800,000.

SEC. 303. AUTHORIZATION OF APPROPRIATIONS FOR ASSISTANCE TO PAN AMERICAN GAMES.

Funds are hereby authorized to be appropriated for fiscal year 1987 for assistance to the Tenth International Pan American Games in accordance with section 304 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 583), in the amount of $15,000,000.

SEC. 304. PROHIBITIONS ON MANAGING CIVILIAN PERSONNEL BY END STRENGTHS AND ON CONTROLLING PERSONNEL NOT FUNDED BY GOVERNMENT.

(a) IN GENERAL.—Section 140b of title 10, United States Code, is amended—

(1) by inserting "(a)" at the beginning of the text of such section;

(2) by inserting "and" before "(2)";

(3) by striking out ", and (3)" and all that follows through "such fiscal year";

(4) by striking out the period at the end of the second sentence and inserting in lieu thereof "or any constraint or limitation (known as an 'end-strength') on the number of such personnel who may be employed on the last day of such fiscal year."; and

(5) by adding at the end the following:

"(b) The number of, and the amount of funds available to be paid to, indirectly funded Government employees of the Department of Defense may not be—

"(1) subject to any constraint or limitation on the number of such personnel who may be employed on the last day of a fiscal year;

"(2) managed on the basis of any end-strength; or

"(3) controlled under any policy of the Secretary of a military department for control of civilian manpower resources.

"(c) In this section, the term 'indirectly funded Government employees' means civilian employees of the Department of Defense—

"(1) who are employed by industrial-type activities or commercial-type activities described in section 2208 of this title; and

"(2) whose salaries and benefits are funded from sources other than appropriated funds.".

(b) EFFECTIVE DATE.—Subsections (b) and (c) of section 140b of title 10, United States Code, as added by subsection (a), shall take effect on October 1, 1986.

(c) CONFORMING AMENDMENTS.—Section 138(c) of title 10, United States Code, is amended—

(1) by striking out paragraph (2);

(2) by redesignating paragraph (3) as paragraph (2) and in subparagraph (A) of that paragraph—

(A) by striking out "annual" before "active duty" the first place it appears in the first sentence;

(B) by striking out "the annual civilian personnel end strength level" in the first sentence and inserting in lieu thereof "projecting civilian personnel strength levels";

(C) by striking out "next fiscal year, and shall include in that report justification for the strength levels recommended and an explanation of the relationship between the personnel strength levels recommended for that fiscal year" and inserting in lieu thereof "next fiscal year. The Secretary shall include in that report justification for the strength levels recommended for active duty end strengths and projected for civilian personnel and an explanation of the relationship between such strength levels";

(3) by redesignating paragraph (4) as paragraph (3) and in that paragraph striking out "or civilian"; and

(4) by redesignating paragraph (5) as paragraph (4).

SEC. 305. CONTRACT PERSONNEL TO BE INCLUDED IN BUDGET JUSTIFICATION.

Section 2203 of title 10, United States Code, is amended by adding at the end the following new sentences: "The Secretary of Defense shall provide that the budget justification documents for such budget include information on the number of employees of contractors estimated to be working on contracts of the Department of Defense during the fiscal year for which the budget is submitted. Such information shall be set forth in terms of employee-years or such other measure as will be uniform and readily comparable with civilian personnel of the Department of Defense.".

SEC. 306. PROCUREMENT OF CERTAIN BAKERY AND DAIRY PRODUCTS OUTSIDE THE UNITED STATES.

(a) PROCUREMENT OF BAKERY AND DAIRY PRODUCTS.—Chapter 143 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2422. Bakery and dairy products: procurement outside the United States

"(a) The Secretary of Defense may authorize any element of the Department of Defense that procures bakery and dairy products for use by the armed forces outside the United States to procure any products described in subsection (b) through the use of procedures other than competitive procedures.

"(b) The products referred to in subsection (a) are bakery or dairy products produced by the Army and Air Force Exchange Service in a facility outside the United States that began operating before July 1, 1986.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2422. Bakery and dairy products: procurement outside the United States.".

SEC. 307. FUNCTIONS OF MILITARY COMMISSARIES; PURCHASE OF ALCOHOLIC BEVERAGES BY NONAPPROPRIATED FUND INSTRUMENTALITIES.

(a) IN GENERAL.—Chapter 147 of title 10, United States Code, is amended by adding at the end the following new sections:

"§ 2486. Commissary stores: merchandise that may be sold; uniform surcharges

"(a) Commissary stores are similar to commercial grocery stores and may sell merchandise similar to that sold in commercial grocery stores.

"(b) Merchandise sold in commissary stores may include items in the following categories:

"(1) Health and beauty aids.
"(2) Meat and poultry.
"(3) Fish and seafood.
"(4) Produce.
"(5) Food and non-food grocery items.
"(6) Bakery goods.
"(7) Dairy products.
"(8) Tobacco products.
"(9) Delicatessen items.
"(10) Frozen foods.
"(11) Other categories designated in regulations prescribed by the Secretary of a military department and approved by the Secretary of Defense.

"(c) An adjustment of or surcharge on sales prices in commissary stores under section 2484(b) or 2685(a) of this title or for any other purpose shall be applied as a uniform percentage of the sales price of all merchandise sold in commissary stores.

"§ 2487. Commissary stores: limitations on release of sales information

"(a) In order to protect commercially valuable information, the Secretary of a military department, except as provided in subsection (b), may not release to the public those portions of computer data generated by electronic scanners used in military commissaries, and those portions of reports generated by such scanners, that contain the following information:

"(1) The unit prices of items sold.
"(2) The number of units of items sold.

"(b) Information subject to subsection (a) may be released under a written agreement. Any such agreement shall require payment for such information and shall specify the amount of such payment.

"(c) Amounts received by the United States under an agreement described in subsection (b) with respect to a commissary shall be deposited in the Commissary Trust Revolving Fund of the military department under which the commissary is operated.

"§ 2488. Nonappropriated fund instrumentalities: purchase of alcoholic beverages

"(a) The Secretary of Defense shall provide that—

"(1) covered alcoholic beverage purchases made for resale on a military installation located in the United States shall be made from the most competitive source, price and other factors considered, except that

"(2) in the case of malt beverages and wine purchased for resale on a military installation located in the contiguous States, such purchases shall be made from, and delivery shall be accepted from, a source within the State in which the military installation concerned is located.

"(b) If a military installation located in the contiguous States is located in more than one State, a source of supply in any State in which the installation is located shall be considered for the purposes of subsection (a)(2) to be a source within the State in which the installation is located.

"(c) In this section:

"(1) The term 'covered alcoholic beverage purchases' means purchases of alcoholic beverages by a nonappropriated fund instrumentality of the Department of Defense with nonappropriated funds.

"(2) The term 'State' includes the District of Columbia.".

(b) REPEAL OF LIMITATION ON FY86 FUNDS.—Section 8099 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190), is repealed.

(c) EXEMPTION FROM WRITTEN NOTICE REQUIREMENTS.—Section 2305(b) of title 10, United States Code, is amended by adding at the end of paragraph (4) the following new subparagraph:

"(E) Subparagraph (D) does not apply with respect to the award of a contract for the acquisition of perishable subsistence items.".

(d) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new items:

"2486. Commissary stores: merchandise that may be sold; uniform surcharges.
"2487. Commissary stores: limitation on release of sales information.
"2488. Nonappropriated fund instrumentalities: purchase of alcoholic beverages.".

SEC. 308. AUTHORITY FOR SECRETARY OF DEFENSE TO ACCEPT GIFTS FOR THE DEFENSE DEPENDENTS' EDUCATION SYSTEM.

(a) IN GENERAL.—Chapter 155 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2605. Acceptance of gifts for defense dependents' education system

"(a) The Secretary of Defense may accept, hold, administer, and spend any gift (including any gift of an interest in real property) made on the condition that it be used in connection with the operation or administration of the defense dependents' education system provided for under the Defense Dependents' Education Act of 1978 (20 U.S.C. 921 et seq.). The Secretary may pay all necessary expenses in connection with the acceptance of a gift under this subsection.

"(b) There is established in the Treasury a fund to be known as the 'Department of Defense Dependents' Education Gift Fund'. Gifts of money, and the proceeds of the sale of property, received under subsection (a) shall be deposited in the fund. The Secretary may disburse funds deposited under this subsection for the benefit or use of the defense dependent's education system, subject to the terms of the gift.

"(c) Subsection (c) of section 2601 of this title applies to property that is accepted under subsection (a) in the same manner that such subsection applies to property that is accepted under subsection (a) of that section.

"(d)(1) Upon request of the Secretary of Defense, the Secretary of the Treasury may—

"(A) retain money, securities, and the proceeds of the sale of securities, in the Department of Defense Dependents' Education Gift Fund; and

"(B) invest money and reinvest the proceeds of the sale of securities in that fund in securities of the United States or in securi-

ties guaranteed as to principal and interest by the United States.

"(2) The interest and profits accruing from those securities shall be deposited to the credit of the fund and may be disbursed as provided in subsection (b).

"(e) In this section, the term 'gift' includes a devise of real property or a bequest of personal property.

"(f) The Secretary of Defense shall prescribe regulations to carry out this section.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2605. Acceptance of gifts for defense dependents' education system.".

SEC. 309. RENOVATION OF FACILITIES.

(a) IN GENERAL.—Chapter 169 of title 10, United States Code, is amended by adding at the end of subchapter I the following new section:

"§ 2810. Renovation of facilities

"(a) The Secretary concerned may carry out renovation projects that combine maintenance, repair, and minor construction projects for an entire single-purpose facility, or one or more functional areas of a multipurpose facility, using funds available for operations and maintenance.

"(b) The amount obligated on such a renovation project may not exceed the maximum amount specified by law for a minor construction project under section 2805 of this title.

"(c) Construction of new facilities or additions to existing facilities may not be carried out under the authority of this section."

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such subchapter is amended by adding at the end the following new item:

"2810. Renovation of facilities.".

SEC. 310. PROHIBITION OF PURCHASE OF PETROLEUM PRODUCTS FROM COMPANIES PRODUCING OIL IN ANGOLA.

(a) GENERAL RULE.—The Secretary of Defense may not enter into a contract for the purchase of a petroleum product from a company if the company (or a subsidiary or partnership of the company)—

(1) is engaged in the production of petroleum products in Angola; or

(2) during the preceding 12 months has purchased petroleum products, directly or indirectly, from Angola.

(b) PETROLEUM PRODUCT DEFINED.—For the purposes of this section, the term "petroleum product" means crude oil, residual fuel oil, or any refined petroleum product (including any natural gas liquid or any natural gas liquid product).

(c) EFFECTIVE DATE.—This section shall take effect six months after the date of the enactment of this Act. Purchases of petroleum products before the date on which this section takes effect shall not be considered for purposes of subsection (a)(2).

SEC. 311. PROHIBITION OF CONTRACTS FOR THE PERFORMANCE OF CERTAIN ARMY AMMUNITION ACTIVITIES.

(a) PROHIBITIONS OF CONTRACTING.—The Secretary of Defense and the Secretary of the Army may not enter into a contract for the performance by contractor personnel of functions performed by employees of the Department of Defense at the Crane Army Ammunition Activity, Crane, Indiana, or the McAlester Army Ammunition Plant, McAlester, Oklahoma.

(b) EXCEPTION.—The prohibition in subsection (a) does not apply to a contract (or the renewal of a contract) for the performance of a function that on the date of the enactment of this Act is under contract for performance by contractor personnel.

SEC. 312. EXTENSION OF AUTHORIZATION FOR HUMANITARIAN ASSISTANCE.

(a) TRANSPORTATION, ADMINISTRATION, AND DELIVERY OF HUMANITARIAN RELIEF SUPPLIES TO AFGHAN REFUGEES.—Section 305 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 617), is amended—

(1) by inserting after "sum of $10,000,000" in subsection (a) the following: "and for fiscal year 1987 the sum of $3,000,000";

(2) by striking out "for the purpose of" in subsection (a) and inserting in lieu thereof "for the purposes of (1)";

(3) by inserting after "Soviet Union" in subsection (a) the following: ", (2) paying administrative costs of providing such transportation, and (3) providing for the acquisition of transportation assets for the distribution of supplies as part of such relief"; and

(4) by adding at the end the following new subsection:

"(d) AVAILABILITY OF FUNDS.—Amounts appropriated pursuant to the authorization in subsection (a) shall remain available until expended, if so provided in appropriation Acts."

(b) DISTRIBUTION OF EXCESS NONLETHAL SUPPLIES FOR HUMANITARIAN RELIEF.—(1) Section 2547(b) of title 10, United States Code, is amended to read as follows:

"(b) Excess supplies made available for humanitarian relief purposes under this section shall be transferred—

"(1) to the Secretary of State, who shall be responsible for the distribution of such supplies; or

"(2) following notification to the Secretary of State, to a component of the Department of Defense which plans to distribute such supplies under otherwise authorized humanitarian and civic assistance programs.".

(2) There is hereby authorized to be appropriated to the Secretary of Defense for fiscal year 1987 the sum of $9,000,000 to carry out section 2547 of title 10, United States Code.

SEC. 313. NATIONAL BOARD FOR THE PROMOTION OF RIFLE PRACTICE.

(a) PERSONNEL SERVICES.—Section 4308 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(c) The Secretary may provide personnel services (in addition to pay and non-travel related allowances for members of the armed forces) in carrying out the authority of the Secretary under this section and sections 4310 through 4312 of this title.".

(b) ALLOWANCES FOR COMPETITORS AT NATIONAL MATCHES.—Section 4313 of such title is amended—

(1) by striking out "draw not more than" in subsection (a) and all that follows through the end of the subsection and inserting in lieu thereof "be paid a subsistence allowance in such amount as the Secretary of the Army shall prescribe."; and

(2) by striking out "of five cents a mile" in subsection (b) and inserting in lieu thereof "in such amount as the Secretary of the Army shall prescribe".

SEC. 314. PROHIBITION ON JOINT USE OF GRAY ARMY AIRFIELD WITH CIVIL AVIATION.

The Secretary of the Army may not enter into an agreement to allow joint use of the Robert Gray Army Airfield at Fort Hood, Texas, with civil aviation.

SEC. 315. PREFERENCE FOR UNITED STATES AGRICULTURAL PRODUCTS IN COMMISSARY FOOD PURCHASES.

(a) PREFERENCE REQUIREMENT.—The Secretary of Defense shall require that, when acquiring food products through the use of competitive procedures for resale through commissary stores located in the United States, the Department of Defense give preference to United States companies that use United States agricultural commodities in the products sold to the Department of Defense.

(b) GUIDELINES.—The Secretary shall develop guidelines to implement the preference required by subsection (a). Such guidelines shall be developed and implemented not later than 60 days after the date of enactment of this Act. The Secretary shall transmit a copy of the guidelines to the Committees on Armed Services of the Senate and House of Representatives as soon as they are developed.

(c) REPORT.—The Secretary shall, not later than 120 days after the date of the enactment of this Act, submit to the Committees on Armed Services of the Senate and House of Representatives a report on the implementation of this section.

SEC. 316. TRANSPORTATION OF LIVESTOCK FEED.

The Secretary of Defense may authorize the use during 1986 of National Guard equipment and personnel for transportation (including airlift) of livestock feed to drought-stricken areas of the United States.

TITLE IV—MILITARY PERSONNEL AUTHORIZATIONS

SEC. 401. END STRENGTHS FOR ACTIVE FORCES.

The Armed Forces are authorized strengths for active-duty personnel as of September 30, 1987, as follows:

(1) The Army, 780,800.
(2) The Navy, 583,300.
(3) The Marine Corps, 198,800.
(4) The Air Force, 606,470.

SEC. 402. END STRENGTHS FOR SELECTED RESERVE.

(a) IN GENERAL.—For fiscal year 1987, the Selected Reserve of the reserve components of the Armed Forces shall be programmed to attain strengths as of September 30, 1987, of not less than the following:

(1) The Army National Guard of the United States, 456,596.
(2) The Army Reserve, 326,600.
(3) The Naval Reserve, 152,994.
(4) The Marine Corps Reserve, 43,663.
(5) The Air National Guard of the United States, 115,013.
(6) The Air Force Reserve, 80,489.
(7) The Coast Guard Reserve, 13,000.

(b) ADJUSTMENTS.—The end strengths prescribed by subsection (a) for the Selected Reserve of any reserve component shall be proportionately reduced by—

(1) the total authorized strength of units organized to serve as units of the Selected Reserve of such component which are on active duty (other than for training) at the end of the fiscal year; and

(2) the total number of individual members not in units organized to serve as units of the Selected Reserve of such component who are on active duty (other than for training or for unsatisfactory participation in training) without their consent at the end of the fiscal year.

SEC. 403. END STRENGTHS FOR RESERVES ON ACTIVE DUTY IN SUPPORT OF THE RESERVE COMPONENTS.

(a) IN GENERAL.—Within the end strengths prescribed in section 402, the reserve components of the Armed Forces are authorized, as of September 30, 1987, the following number

of Reserves to be serving on full-time active duty or, in the case of members of the National Guard, on full-time National Guard duty for the purpose of organizing, administering, recruiting, instructing, or training the reserve components or the National Guard:

(1) The Army National Guard of the United States, 25,731.

(2) The Army Reserve, 12,657.

(3) The Naval Reserve, 21,476.

(4) The Marine Corps Reserve, 1,745.

(5) The Air National Guard of the United States, 8,169.

(6) The Air Force Reserve, 665.

(b) AUTHORITY TO INCREASE END-STRENGTH LIMIT.—Upon a determination by the Secretary of Defense that such action is in the national interest, the end strengths prescribed by subsection (a) may be increased by a total of not more than the number equal to 2 percent of the total end strengths prescribed.

SEC. 404. MILITARY TRAINING STUDENT LOADS.

(a) IN GENERAL.—For fiscal year 1987, the components of the Armed Forces are authorized average military training student loads as follows:

(1) The Army, 76,758.

(2) The Navy, 72,483.

(3) The Marine Corps, 19,433.

(4) The Air Force, 43,911.

(5) The Army National Guard of the United States, 18,262.

(6) The Army Reserve, 15,858.

(7) The Naval Reserve, 3,493.

(8) The Marine Corps Reserve, 3,944.

(9) The Air National Guard of the United States, 3,566.

(10) The Air Force Reserve, 2,127.

(b) ADJUSTMENTS.—The average military student loads for the Army, the Navy, the Marine Corps, and the Air Force and the reserve components authorized in subsection (a) for fiscal year 1987 shall be adjusted consistent with the personnel strengths authorized in sections 401 and 402. Such adjustment shall be apportioned among the Army, the Navy, the Marine Corps, and the Air Force and the reserve components in such manner as the Secretary of Defense shall prescribe.

TITLE V—DEFENSE PERSONNEL POLICY

PART A—ACTIVE FORCES

SEC. 501. ASSIGNMENT OF ACTIVE-DUTY MEMBERS OUTSIDE THE UNITED STATES.

(a) REPEAL OF 12-WEEK REQUIREMENT.—Section 671 of title 10, United States Code, relating to assignment of members outside the United States before the completion of training, is amended by striking out "until he has had twelve weeks of basic training or its equivalent" and inserting in lieu thereof "until the member has completed basic training or its equivalent".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to individuals who begin basic training on or after the date of the enactment of this Act.

SEC. 502. WEARING OF RELIGIOUS APPAREL BY MEMBERS OF THE ARMED FORCES WHILE IN UNIFORM.

(a) IN GENERAL.—Chapter 45 of title 10, United States Code, is amended—

(1) by redesignating section 774 as section 775; and

(2) by inserting after section 773 the following new section 774:

"§ 774. Religious apparel: wearing while in uniform

"(a) GENERAL RULE.—Except as provided under subsection (b), a member of the armed forces may wear an item of religious apparel while wearing the uniform of the member's armed force.

"(b) EXCEPTIONS.—The Secretary concerned may prohibit the wearing of an item of religious apparel—

"(1) in circumstances with respect to which the Secretary determines that the wearing of the item would interfere with the performance of the member's military duties; or

"(2) if the Secretary determines, under regulations under subsection (c), that the item of apparel is not neat and conservative.

"(c) REGULATIONS.—The Secretary concerned shall prescribe regulations concerning the wearing of religious apparel by members of the armed forces under the Secretary's jurisdiction while the members are wearing the uniform. Such regulations shall be consistent with subsections (a) and (b).

"(d) RELIGIOUS APPAREL DEFINED.—In this section, the term 'religious apparel' means apparel the wearing of which is part of the observance of the religious faith practiced by the member.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by striking out the item relating to section 774 and inserting in lieu thereof the following:

"774. Religious apparel: wearing while in uniform.
"775. Applicability of chapter.".

(c) REGULATIONS.—The Secretary concerned shall prescribe the regulations required by section 774(c) of title 10, United States Code, as added by subsection (a), not later than the end of the 120-day period beginning on the date of the enactment of this Act.

SEC. 503. SERVICE OF MEMBERS ON STATE AND LOCAL JURIES.

(a) IN GENERAL.—Chapter 49 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 982. Members: service on State and local juries

"(a) A member of the armed forces on active duty may not be required to serve on a State or local jury if the Secretary concerned determines that such service—

"(1) would unreasonably interfere with the performance of the member's military duties; or

"(2) would adversely affect the readiness of the unit, command, or activity to which the member is assigned.

"(b) A determination by the Secretary concerned under this section is conclusive.

"(c) The Secretary concerned shall prescribe regulations for the administration of this section.

"(d) In this section, the term 'State' includes the District of Columbia, the Commonwealth of Puerto Rico, and each territory of the United States.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"982. Members: service on State and local juries.".

SEC. 504. EXTENSION OF EXPIRING AUTHORITY FOR SPOT PROMOTIONS OF NAVY LIEUTENANTS.

Section 5721(f) of title 10, United States Code, is amended by striking out "September 30, 1986" and inserting in lieu thereof "September 30, 1987".

SEC. 505. REPEAL OF REQUIREMENT REGARDING ENLISTMENT OF WOMEN IN THE AIR FORCE DURING FISCAL YEAR 1987.

Section 551(a) of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2530), is amended by striking out "the period beginning on October 1, 1986" and all that follows through the end of the subsection and inserting in lieu thereof "fiscal year 1988, not less than 22 percent shall be women.".

SEC. 506. AUTHORITY TO EXEMPT PHYSICIANS AT UNIFORMED SERVICES UNIVERSITY OF THE HEALTH SCIENCES FROM REDUCTIONS IN RETIRED PAY.

Section 2113(f) of title 10, United States Code, is amended—

(1) by inserting "(1)" after "(f)"; and

(2) by adding at the end the following:

"(2) The Board may exempt, at any time, a physician who is a member of the faculty from the restrictions in subsections (a), (b), and (c) of section 5532 of title 5, if the Board determines that such exemption is necessary to recruit or retain well-qualified physicians for the faculty of the University. An exemption granted under this paragraph shall terminate upon any break in employment with the University by a physician of three days or more. An exemption granted under this paragraph to a person shall apply to the retired pay of such person beginning with the first month after the month in which the exemption is granted.".

SEC. 507. STUDY OF REPRESENTATION OF RELIGIOUS FAITHS IN THE ARMED FORCES.

(a) FINDINGS.—The Congress finds that an imbalance exists in the representation of various religious faiths among chaplains of the Armed Forces compared to the representation of those faiths among members of the Armed Forces as a whole. While recognizing that much of this faith imbalance may be attributable to an overall shortage of clergy in the United States among religious faiths that are underrepresented among military chaplains, Congress finds that the Department of Defense has not taken sufficient steps to alleviate the existing faith imbalance.

(b) STUDY.—The Secretary of Defense shall carry out a complete study of the causes and conditions of the existing faith imbalances in the Armed Forces. The study shall include the following:

(1) A list of all religious denominations represented in the Armed Forces and the goals set by the Secretary or the Secretary concerned for the number of chaplains to serve each such religious denomination; a comparison of such goals and the actual number of chaplains for each such religious denomination for fiscal year 1987; an analysis of how such goals and the actual number of chaplains compares to the demographic representation of religious denominations in the United States at the time of the study; and recommendations on how the number of chaplains in the Armed Forces in the future can better reflect current and future demographic representation of religious denominations in the United States.

(2) An analysis of all policies, procedures of operation, and standards affecting personnel requirements of all branches of the Corps of Chaplains, and an analysis of all means to alleviate existing faith imbalances, including the use of grade retentions, continuation boards, and standby tours of duty for reserve chaplains from underrepresented faiths.

(3) A roster of chaplains for all branches and, for the purpose of establishing the number of clergy on duty and ready for mobilization, personnel data for all active duty chaplains, reserve duty chaplains, inactive reserve duty chaplains, and contract clergy.

(4) An analysis and comparison of retentions in grade and age waivers as in effect for physicians in the Armed Forces and clergy in the Armed Forces. The analysis shall include an examination of the ration-

ale and purpose of such policies as they apply to physicians versus as they apply to clergy in the Armed Forces.

(5) The names, faiths, salaries, and places of work for all contract clergy for all branches of the Armed Forces.

(c) REPORT TO CONGRESS.—Not later than 4 months after the date of the enactment of this Act, the Secretary shall submit a report on the findings of the study conducted under subsection (b) to the Committees on Armed Services of the Senate and the House of Representatives. The report shall address the effects of personnel policies, releases, and retentions in grade on existing faith imbalances in the Corps of Chaplains and shall include recommendations on how to alleviate the existing faith imbalances.

SEC. 508. EXTENSION OF MANDATORY RETIREMENT AGE FOR MEDICAL OFFICERS.

(a) GENERAL RULE.—Section 1251 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(c) Unless retired or separated earlier, each regular officer of the Army, Navy, or Air Force who is a medical officer shall be retired on the first day of the month following the month in which the officer becomes 67 years of age.".

(b) CONFORMING AMENDMENTS.—

(1) Section 1251(a) of such title is amended by inserting "a medical officer or" after "other than".

(2)(A) Chapter 36 of such title is amended by inserting after section 636 the following new section:

"§ 636a. Exception to mandatory retirement for medical officers

"Sections 633, 634, 635, and 636 of this title do not apply to medical officers.".

(B) The table of sections at the beginning of subchapter III of such chapter is amended by adding at the end the following new item:

"636a. Exception to mandatory retirement for medical officers.".

PART B—RESERVE FORCES

SEC. 511. AUTHORITY FOR PRESIDENT TO CALL SELECTED RESERVE MEMBERS TO ACTIVE DUTY.

Section 673b(c) of title 10, United States Code, is amended by striking out "100,000" and inserting in lieu thereof "200,000".

SEC. 512. PAY, ALLOWANCES, AND BENEFITS FOR MEMBERS OF THE RESERVE COMPONENTS.

(a) MEDICAL AND DENTAL CARE.—(1) Section 1074a of title 10, United States Code, is amended to read as follows:

"§ 1074a. Medical and dental care: members on duty other than active duty for a period of more than 30 days

"(a) Under joint regulations prescribed by the administering Secretaries, the following persons are entitled to the benefits described in subsection (b):

"(1) Each member of a uniformed service who incurs or aggravates an injury, illness, or disease in the line of duty while performing—

"(A) active duty for a period of 30 days or less; or

"(B) inactive-duty training.

"(2) Each member of a uniformed service who incurs or aggravates an injury, illness, or disease while traveling directly to or from the place at which that member is to perform or has performed—

"(A) active duty for a period of 30 days or less; or

"(B) inactive-duty training.

"(b) A person described in subsection (a) is entitled to—

"(1) the medical and dental care appropriate for the treatment of the injury, illness, or disease of that person until the resulting disability cannot be materially improved by further hospitalization or treatment; and

"(2) subsistence during hospitalization.

"(c) A member is not entitled to benefits under this section if the injury, illness, or disease, or aggravation of an injury, illness, or disease described in subsection (a)(2), is the result of the gross negligence or misconduct of the member.".

(2) The item relating to section 1074a in the table of sections at the beginning of chapter 55 of such title is amended to read as follows:

"1074a. Medical and dental care: members on duty other than active duty for a period of more than 30 days.".

(b) PAY AND ALLOWANCES FOR DISABLED MEMBERS.—Section 204 of title 37, United States Code, is amended as follows:

(1) Subsections (g) and (h) are amended to read as follows:

"(g) A member of a reserve component of a uniformed service is entitled to the pay and allowances provided by law or regulation for a member of a regular component of a uniformed service of corresponding grade and length of service whenever such member—

"(1) is called or ordered to active duty for a period of more than 30 days; and

"(2) is physically disabled in line of duty from injury, illness, or disease.

"(h)(1) A member of a reserve component of a uniformed service is entitled, upon request, to a portion of the monthly pay and allowances provided by law or regulation for a member of a regular component of a uniformed service of corresponding grade and length of service for each month for which the member demonstrates a loss of income from non-military compensation as a result of an injury, illness, or disease incurred or aggravated—

"(A) in line of duty while performing active duty for a period of 30 days or less;

"(B) in line of duty while performing inactive-duty training (other than work or study in connection with a correspondence course of an armed force or attendance in an inactive status at an educational institution under the sponsorship of an armed force or the Public Health Service); or

"(C) while traveling directly to or from that duty or training.

"(2)(A) Subject to subparagraphs (B) and (C), pay and allowances paid under paragraph (1) shall be in an amount which offsets the loss of income from non-military compensation.

"(B) Pay and allowances may not be paid under paragraph (1) to a member who is enrolled in any other income protection insurance plan to the extent that such payment would result in total benefits to the member of more than the demonstrated loss of income from non-military compensation.

"(C) The total amount of pay and allowances paid under paragraph (1) and compensation paid under section 206(a) of this title for any period may not exceed the amount of pay and allowances provided by law or regulation for a member of a regular component of a uniformed service of corresponding grade and length of service for that period.

"(3) Pay and allowances may be paid under paragraph (1)—

"(A) for a period of not more than six months; or

"(B) for a longer period, if the Secretary concerned determines that it is in the interests of fairness and equity to do so.

"(4) A member is not entitled to benefits under this subsection if the injury, illness, disease, or aggravation of an injury, illness, or disease described in paragraph (1)(B) is the result of the gross misconduct of the member.

"(5) Regulations with respect to procedures for paying pay and allowances under paragraph (1) shall be prescribed—

"(A) by the Secretary of Defense for the armed forces under the jurisdiction of the Secretary; and

"(B) by the Secretary of Transportation for the Coast Guard when the Coast Guard is not operating as a service in the Navy.".

(2) Subsection (i) is repealed.

(3) Subsection (j) is redesignated as subsection (i).

(c) INACTIVE-DUTY TRAINING PAY FOR DISABLED MEMBERS.—Section 206(a) of title 37, United States Code, is amended by striking out "entitled to basic pay" the second place it appears and all that follows and inserting in lieu thereof the following: "entitled to basic pay—

"(1) for each regular period of instruction, or period of appropriate duty, at which the member is engaged for at least two hours, including that performed on a Sunday or holiday;

"(2) for the performance of such other equivalent training, instruction, duty, or appropriate duties, as the Secretary may prescribe; or

"(3) for a regular period of instruction that the member is scheduled to perform but is unable to perform because of physical disability resulting from an injury, illness, or disease incurred or aggravated—

"(A) in line of duty while performing—

"(i) active duty for a period of 30 days or less; or

"(ii) inactive-duty training; or

"(B) while traveling directly to or from that duty or training (unless such injury, illness, disease, or aggravation of an injury, illness, or disease is the result of the gross negligence or misconduct of the member).".

(d) RETIREMENT FOR DISABILITY.—(1) Sections 1204 and 1206 of title 10, United States Code, are amended by striking out "resulting from an injury".

(2)(A) The heading of section 1204 of such title is amended to read as follows:

"§ 1204. Members on active duty for 30 days or less: retirement".

(2) The heading of section 1205 of such title is amended to read as follows:

"§ 1205. Members on active duty for 30 days or less: temporary disability retired list".

(3) The heading of section 1206 of such title is amended to read as follows:

"§ 1206. Members on active duty for 30 days or less: separation".

(4) The items relating to sections 1204, 1205, and 1206 in the table of sections at the beginning of chapter 61 of such title are amended to read as follows:

"1204. Members on active duty for 30 days or less: retirement.

"1205. Members on active duty for 30 days or less: temporary disability retired list.

"1206. Members on active duty for 30 days or less: separation.".

(e) DEATH BENEFITS.—(1) Section 1475(a) of title 10, United States Code, is amended by striking out "from an injury incurred by

him after December 31, 1956," in paragraph (3).

(2) Section 1476 of such title is amended—

(A) by striking out subsection (a) and inserting in lieu thereof the following:

"(a)(1) Except as provided in section 1480 of this title, the Secretary concerned shall pay a death gratuity to or for the survivors prescribed in section 1477 of this title of each person who dies within 120 days after discharge or release from—

"(A) active duty; or

"(B) inactive-duty training (other than work or study in connection with a correspondence course of an armed force or attendance, in an inactive status, at an educational institution under the sponsorship of an armed force or the Public Health Service).

"(2) A death gratuity may be paid under paragraph (1) only if the Administrator of Veterans' Affairs determines that the death resulted from an injury or disease incurred or aggravated during—

"(A) the active duty or inactive-duty training described in paragraph (1); or

"(B) travel directly to or from such duty.";

(B) by striking out subsection (b); and

(C) by redesignating subsections (c) and (d) as subsections (b) and (c), respectively.

(3) Section 1481(a) of such title is amended—

(A) by striking out paragraph (2) and inserting in lieu thereof the following:

"(2) a member of a reserve component of an armed force who dies while—

"(A) on active duty;

"(B) performing inactive-duty training;

"(C) performing authorized travel directly to or from active duty or inactive-duty training; or

"(D) hospitalized or undergoing treatment for an injury, illness, or disease incurred or aggravated while on active duty or performing inactive-duty training;"; and

(B) by striking out paragraph (3).

(f) TECHNICAL AND CONFORMING AMENDMENTS.—(1) Title 10, United States Code, is amended as follows:

(A) Sections 3687, 3721, 3722, 6148, 8687, 8721, and 8722 are repealed.

(B)(i) The table of sections at the beginning of chapter 353 is amended by striking out the item relating to section 3687.

(ii) The table of sections at the beginning of chapter 355 is amended by striking out the items relating to sections 3721 and 3722.

(iii) The table of sections at the beginning of chapter 561 is amended by striking out the item relating to section 6148.

(iv) The table of sections at the beginning of chapter 853 is amended by striking out the item relating to section 8687.

(v) The table of sections at the beginning of chapter 855 is amended by striking out the items relating to sections 8721 and 8722.

(C) Sections 1076(a)(2)(B) and 1086(c)(2)(B) are amended by striking out "injury or illness" and inserting in lieu thereof "injury, illness, or disease".

(D) Sections 3723 and 8723 are amended by striking out "was injured, or contracted a disease," and inserting in lieu thereof "incurred an injury, illness, or disease,".

(2)(A) Sections 318, 319, 320, and 321 of title 32, United States Code, are repealed.

(B) The table of sections at the beginning of chapter 3 of such title is amended by striking out the items relating to sections 318, 319, 320, and 321.

(g) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to persons who, after the date of enactment of this Act—

(1) incur or aggravate an injury, illness, or disease; or

(2) die.

SEC. 513. ACTIVE DUTY OF NATIONAL GUARD.

(a) GOVERNOR CONSENT FOR ACTIVE DUTY OF NATIONAL GUARD MEMBERS.—Section 501 of title 32, United States Code, is amended by adding at the end the following new subsection:

"(c) With regard to active duty outside the United States, its territories, and its possessions, the consent of the Governor described in sections 672(b) and 672(d) of title 10 may not be withheld in whole or in part because of any objection to the location, purpose, type, or schedule of such active duty.".

(b) CONFORMING AMENDMENT.—Section 672 of title 10, United States Code, is amended—

(1) by inserting "except as provided by section 501(c) of title 32" after "as the case may be" in subsection (b); and

(2) by inserting "except as provided by section 501(c) of title 32" after "whichever is concerned" in subsection (d).

SEC. 514. TREATMENT OF SINGLE PARENTS ENLISTING IN RESERVE COMPONENTS OF THE ARMED FORCES.

(a) IN GENERAL.—(1) Section 510 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(e)(1) In determining whether a person who is applying to enlist in a reserve component upon discharge or release from active duty is qualified for enlistment as a Reserve of an armed force, the Secretary concerned may not disqualify the person because the person is a single parent if the person became a single parent while serving on active duty.

"(2) The Secretary concerned shall provide that treatment of a person described in paragraph (1) shall be equivalent with respect to parenthood to the treatment of a member who becomes a single parent during the term of the member's enlistment. Such equivalent treatment may include a requirement for a written agreement with respect to child care.

"(3) In this subsection, the term 'single parent' means a person who is not married and who has custody of a child under the age of 18 pursuant to a court order.".

(b) EFFECTIVE DATE.—Section 510(e) of title 10, United States Code, as added by subsection (a), shall take effect on the date of the enactment of this Act.

TITLE VI—COMPENSATION AND OTHER PERSONNEL BENEFITS

PART A—PAY AND ALLOWANCES

SEC. 601. ENHANCEMENT OF AVIATION OFFICER CONTINUATION PAY.

(a) ELIMINATION OF OFFSET FOR RECEIPT OF HAZARDOUS DUTY INCENTIVE PAY.—Section 301b(e) of title 37, United States Code, is amended by striking out paragraph (4).

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to payments made for periods beginning after September 30, 1986, under agreements entered into under section 301b of title 37, United States Code.

SEC. 602. AUTHORITY TO PAY ROTC MEMBERS IN ADVANCE FOR FIELD TRAINING.

(a) IN GENERAL.—Section 1006 of title 37, United States Code, is amended by adding at the end the following new subsection:

"(j) Under regulations prescribed by the Secretary concerned, not more than one month's pay may be paid in advance to a member of the Senior Reserve Officers' Training Corps who is ordered to field training or a practice required under section 2109 of title 10.".

(b) EFFECTIVE DATE.—Subsection (j) of title 37, United States Code, as added by subsection (a), shall apply with respect to pay payable for months beginning after the later of September 30, 1986, and the date of the enactment of this Act.

SEC. 603. REPORT ON VARIABLE HOUSING ALLOWANCE RECAPTURE PROVISION.

Not later than February 1, 1987, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a report on the impact of the variable housing allowance recapture provision enacted in the Department of Defense Authorization Act, 1986 (Public Law 99-145). The report shall address—

(1) the cost of administering the variable housing program;

(2) the total cost of the variable housing program; and

(3) levels of regular military compensation (as defined in section 101 of title 37, United States Code) among members of the armed forces in the same pay grade and locality.

PART B—TRAVEL AND TRANSPORTATION

SEC. 611. TRANSPORTATION OF MOTOR VEHICLES FOR MEMBERS MAKING PERMANENT CHANGES OF STATION.

Section 2634 of title 10, United States Code, is amended—

(1) by striking out "in the case of" and all that follows through "debarkation" in subsection (a)(4) and inserting in lieu thereof "by other surface transportation"; and

(2) by striking out ", or his designee," in the second sentence of subsection (a);

(3) by striking out the first and second sentences of subsection (b) and inserting in lieu thereof the following: "In this section, the term 'change of permanent station' means the transfer or assignment of a member of the armed forces from a permanent station inside the continental United States to a permanent station outside the continental United States or from a permanent station outside the continental United States to another permanent station.".

SEC. 612. REIMBURSEMENT FOR ACTUAL LODGING EXPENSES PLUS PER DIEM FOR MEMBERS ENTITLED TO TRAVEL ALLOWANCES.

(a) IN GENERAL.—Section 404(d) of title 37, United States Code, is amended—

(1) by striking out "per diem in place of subsistence in an amount not more than $50 determined by the Secretaries concerned to be sufficient" in paragraph (1)(B) and inserting in lieu thereof "payment in lieu of subsistence as provided in paragraph (2) of this subsection in an amount sufficient";

(2) by striking out "to be" in paragraph (1)(B) after "travel is"; and

(3) by striking out paragraph (2) and inserting in lieu thereof the following:

"(2) Under regulations prescribed by the Secretaries concerned, a member of a uniformed service entitled to travel and transportation allowances under subsection (a) of this section is entitled to any of the following:

"(A) A per diem allowance at a rate not to exceed that established by the Secretaries concerned.

"(B) Reimbursement for the actual and necessary expenses of official travel not to exceed an amount established by the Secretaries concerned.

"(C) A combination of payments described in subparagraphs (A) and (B) of this paragraph.

"(3) A per diem allowance or maximum amount of reimbursement established for

purposes of paragraph (2) of this subsection shall be established, to the extent feasible, by locality.

"(4) For travel consuming less than a full day, the payment prescribed by regulation under paragraph (2) of this subsection shall be allocated in such manner as the Secretaries concerned prescribe.".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply with respect to travel performed after the end of the 180-day period beginning on the date of the enactment of this Act.

SEC. 613. PER DIEM FOR DEPENDENTS RECEIVING TRANSPORTATION ALLOWANCE.

(a) IN GENERAL.—Section 406 of title 37, United States Code, is amended as follows:

(1) The first sentence of subsection (e) is amended by striking out ", as the case may be," and inserting in lieu thereof the following: "(as the case may be), plus a per diem,".

(2) Subsection (f) is amended by inserting after "member" the following: ", plus a per diem for the member's dependents,".

(3) Subsection (g)(1) is amended by inserting after "404(c) of this title" the following: ", and to a per diem for his dependents".

(4) Subsection (j) is amended by inserting after "household effects," the following: "plus a per diem for the member's dependents,".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply to travel performed after the later of September 30, 1986, and the date of the enactment of this Act.

SEC. 614. MODIFICATION OF FAMILY SEPARATION ALLOWANCE.

(a) DENIAL OF ALLOWANCE TO CERTAIN MEMBERS.—(1) Section 427(b) of title 37, United States Code, is amended—

(1) by inserting "(1)" after "(b)";

(2) by redesignating paragraphs (1), (2), and (3) as subparagraphs (A), (B), and (C), respectively;

(3) by designating the second sentence as paragraph (2) and striking out "clause (2) or (3)" in that sentence and inserting in lieu thereof "subparagraph (B) or (C) of paragraph (1)"; and

(4) by adding at the end the following:

"(3) A member who elects to serve a tour of duty unaccompanied by his dependents at a permanent station to which the movement of his dependents is authorized at the expense of the United States under section 406 of this title is not entitled to an allowance under this subsection. The Secretary concerned may waive the preceding sentence in situations in which it would be inequitable to deny the allowance to the member because of unusual family or operational circumstances.".

(b) SAVINGS PROVISION.—Notwithstanding the amendments made by subsection (a), a member who on September 30, 1986, was assigned to a permanent station to which the movement of his dependents was authorized at the expense of the United States under section 406 of title 37, United States Code, and who elected to serve a tour of duty at that station unaccompanied by his dependents, shall, until he departs that station as a result of a change of permanent station, be entitled to receive the allowance authorized by section 427(b) of such title without regard to paragraph (3) of such section, as added by subsection (a).

(c) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on October 1, 1986.

SEC. 615. TRANSPORTATION AND TRAVEL ALLOWANCES FOR ESCORTS FOR CERTAIN DEPENDENTS.

(a) IN GENERAL.—(1) Chapter 7 of title 37, United States Code, is amended by adding at the end the following new section:

"§ 431. Travel and transportation: members escorting certain dependents

"(a) Under regulations prescribed by the Secretary concerned, a member of a uniformed service may be provided round trip transportation and travel allowances for travel performed or to be performed under competent orders as an escort for the member's dependent when travel by the dependent is authorized by competent authority and the dependent is incapable of traveling alone because of age, mental or physical incapacity, or other extraordinary circumstances.

"(b) Whenever possible, the Military Airlift Command or Military Sealift Command shall be used, on a space-required basis, for the travel authorized by this section.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"431. Travel and transportation: members escorting certain dependents.".

(b) EFFECTIVE DATE.—Section 431 of title 37, United States Code, as added by subsection (a), shall apply with respect to travel performed after September 30, 1986.

SEC. 616. TRANSPORTATION FOR DEPENDENTS AND HOUSEHOLD EFFECTS OF CERTAIN MEMBERS.

(a) TRANSPORTATION OF DEFENDENTS.—Paragraph (2)(A) of section 406(a) of title 37, United States Code, is amended to read as follows:

"(2)(A) Except as provided in subparagraph (B) of this paragraph, a member who—

"(i) is separated from the service or released from active duty; and

"(ii) on the date of his separation from the service or release from active duty, has not served on active duty for a period of time equal to at least 90 percent of the period of time for which he initially enlisted or otherwise initially agreed to serve.

may be provided transportation under this subsection for his dependents only by transportation in kind by the least expensive mode of transportation available or by a monetary allowance that does not exceed the cost to the Government of such transportation in kind.".

(b) TRANSPORTATION OF HOUSEHOLD EFFECTS.—(1) The first sentence of section 406(h) of title 37, United States Code, is amended to read as follows: "(1) If the Secretary concerned determines that it is in the best interests of a member described in paragraph (2) or his dependents and the United States, he may, when orders directing a change of permanent station for the member concerned have not been issued, or when they have been issued, but cannot be used as authority for the transportation of his dependents, baggage, and household effects—

"(A) authorize the movement of the member's dependents, baggage, and household effects at the station to an appropriate location in the United States or its possessions or the country of the dependents' origin, in the event the dependents are foreign nationals, and prescribe transportation in kind, reimbursement therefor, or a monetary allowance in place thereof (as the case may be), plus a per diem, as authorized under subsection (a) or (b) of this section; and

"(B) in the case of a member described in paragraph (2)(A), authorize the transportation of one motor vehicle owned by the member or for his or her dependents' personal use to that location by means of transportation authorized under section 2634 of title 10.".

(2) Section 406(h) of such title is further amended by adding at the end the following new paragraph:

"(2) A member referred to in paragraph (1) is a member who—

"(A) is serving at a station outside the United States or Hawaii or Alaska;

"(B) receives an administrative discharge under other than honorable conditions; or

"(C) is sentenced by a court-martial to be confined for a period of more than 30 days, to receive a dishonorable or bad-conduct discharge, or to be dismissed from a uniformed service, if the sentence is approved under section 860(c)(2) of title 10.".

SEC. 617. COORDINATION OF PERMANENT CHANGE OF STATION MOVES WITH SCHOOL YEAR.

The Secretary of each military department shall establish procedures to ensure that, to the maximum extent practicable, permanent change of station moves for members of the Armed Forces under the jurisdiction of the Secretary who have dependents in elementary or secondary school occur between normal school years.

PART C—BENEFITS FOR SURVIVORS AND FORMER SPOUSES

SEC. 631. COURT-ORDERED SURVIVOR ANNUITIES FOR FORMER SPOUSES.

(a) GENERAL RULE.—Paragraph (4) of section 1450(f) of title 10, United States Code, is amended to read as follows:

"(4) A court order may require a person to elect (or to enter into an agreement to elect) under section 1448(b) of this title to provide an annuity to a former spouse (or to both a former spouse and child).".

(b) CONFORMING AMENDMENTS.—

(1) Section 1448(b)(5) of such title is amended by inserting "(A) whether the election is being made pursuant to the requirements of a court order, or (B)" after "setting forth".

(2) Paragraph (2) of section 1450(f) of such title is amended—

(A) by striking out "enters into" and all that follows through "pursuant to such agreement" and inserting in lieu thereof "is required by a court order to elect under section 1448(b) of this title to provide an annuity to a former spouse (or to both a former spouse and child), or who enters into a written agreement (whether voluntary or required by a court order) to make such an election, and who makes an election pursuant to such order or agreement,";

(B) by striking out "in a case in which such agreement" at the beginning of subparagraph (A) and inserting in lieu thereof "in a case in which the election is required by a court order, or in which an agreement to make the election";

(C) by striking out "relating to the agreement to make such election" and inserting in lieu thereof "relating to such election, or the agreement to make such election,"; and

(D) by striking out "in which such agreement" at the beginning of subparagraph (B) and inserting in lieu thereof "of a written agreement that".

(3) Paragraph (3)(A) of such section is amended—

(A) by striking out "voluntary" both places it appears;

(B) by inserting "or if such person is required by a court order to make such an

election," after "applicable State law" the first place it appears; and

(C) by inserting "requires such election or" after "on its face, which".

(c) EFFECTIVE DATE.—The amendments made by this section apply to court orders issued on or after the date of the enactment of this Act.

SEC. 632. MISCELLANEOUS SURVIVOR BENEFIT AND FORMER SPOUSE AMENDMENTS.

(a) ANNUITY FOR A DEPENDENT CHILD.—

(1) REPEAL OF COMMON-ACCIDENT LIMITATION.—(A) Subsection (d)(2) of section 1448 of title 10, United States Code, is amended by striking out "if the member and the member's spouse die as a result of a common accident" and inserting in lieu thereof "if there is no surviving spouse or if the member's surviving spouse subsequently dies".

(B) Subsection (f)(2) of such section is amended by striking out "if the person and the person's spouse die as a result of a common accident" and inserting in lieu thereof "if there is no surviving spouse or if the person's surviving spouse subsequently dies".

(2) AMOUNT OF ANNUITY FOR DISABLED CHILD OVER AGE 62.—(A) Subsection (a) of section 1451 of such title is amended—

(i) by inserting "or is a dependent child" in paragraphs (1)(A) and (2)(A) after "under 62 years of age"; and

(ii) by inserting "(other than a dependent child)" in paragraphs (1)(B) and (2)(B) after "beneficiary".

(B) Subsection (c)(1) of such section is amended—

(i) by inserting "or is a dependent child" in subparagraph (A) after "under 62 years of age"; and

(ii) by inserting "(other than a dependent child)" in subparagraph (B) after "receiving the annuity".

(3) EFFECTIVE DATES.—The amendment made by paragraph (1) shall apply only to claims arising on or after the date of the enactment of this Act. The amendments made by paragraph (2) shall apply to payments for periods after the later of September 30, 1986, and the date of the enactment of this Act.

(b) AGE AT WHICH REMARRIAGE TERMINATES SPOUSE SURVIVOR BENEFIT.—

(1) REDUCTION FROM AGE 60 TO AGE 55.—Section 1450(b) of such title is amended by striking out "age 60" both places it appears and inserting in lieu thereof "age 55".

(2) EFFECTIVE DATE.—The amendments made by paragraph (1) shall apply with respect to remarriages that occur on or after the date of the enactment of this Act, but only with respect to payments for periods after the later of September 30, 1986, and the date of the enactment of this Act.

(c) REVISION OF DEFINITION OF DISPOSABLE RETIRED PAY FOR PURPOSES OF COURT ORDERS.—(1) Section 1408(a)(4) of such title is amended—

(A) by striking out "(other than" and all that follows through "title)" in the matter preceding subparagraph (A); and

(B) by striking out subparagraph (E) and inserting in lieu thereof the following:

"(E) in the case of a member entitled to retired pay under chapter 61 of this title, are equal to the amount of retired pay of the member under that chapter computed using the percentage of the member's disability on the date when the member was retired (or the date on which the member's name was placed on the temporary disability retired list); or".

(2) The amendments made by paragraph (1) shall apply with respect to court orders issued after the date of the enactment of this Act.

SEC. 633. REVISION OF OPEN PERIOD TO ELECT FORMER SPOUSE AND CHILD COVERAGE.

Section 716(b) of the Survivor Benefit Plan Amendments of 1985 (title VII of Public Law 99-145; 99 Stat. 674) is amended—

(1) by striking out "the date of the enactment of this Act" and inserting in lieu thereof "March 1, 1986,";

(2) by striking out ", within the one-year period beginning on that date of enactment,"; and

(3) by adding at the end the following new sentence: "Such an election must be made—

"(1) not later than March 1, 1987, in the case of a person who made the election to provide an annuity for a former spouse before November 8, 1985; and

"(2) not later than the end of the one-year period beginning on the date of the enactment of the Department of Defense Authorization Act, 1987, in the case of a person who made the election to provide an annuity for a former spouse during the period beginning on November 8, 1985, and ending on February 28, 1986.".

SEC. 634. EXTENSION OF MEDICAL BENEFITS FOR CERTAIN FORMER SPOUSES.

Section 645(c) of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2549), is amended by striking out "during the two-year period" and inserting in lieu thereof "until the later of (1) April 1, 1988, and (2) the last day of the two-year period".

PART D—EDUCATIONAL ASSISTANCE PROGRAM

SEC. 641. TUITION ASSISTANCE FOR ARMY RESERVE COMPONENT OFFICERS.

(a) IN GENERAL.—Section 2007 of title 10, United States Code, is amended—

(1) by inserting "on active duty" in subsection (a)(3) after "a commissioned officer"; and

(2) by adding at the end of the following new subsection:

"(c)(1) Subject to paragraphs (2) and (3), the Secretary of the Army may pay not more than 75 percent of the charges of an educational institution for the tuition or expenses of an officer in the Selected Reserve of the Army National Guard or the Army Reserve for education or training of such officer in a program leading to a baccalaureate degree.

"(2) The Secretary may not pay charges under paragraph (1) for tuition or expenses of an officer unless the officer agrees to remain a member of the Selected Reserve for at least four years after completion of the education or training for which the charges are paid.

"(3) The Secretary may not pay charges under paragraph (1)—

"(A) for a warrant officer; or

"(B) for an officer on active duty or full-time National Guard duty.".

(b) LIMITATION ON AMOUNT FOR FISCAL YEAR 1987.—The total amount obligated by the Secretary of the Army under subsection (c) of section 2007 of title 10, United States Code, as added by subsection (a), during fiscal year 1987 may not exceed $4,200,000.

(c) EFFECTIVE DATE.—Subsection (c) of section 2007 of title 10, United States Code, as added by subsection (a), shall take effect on October 1, 1986.

PART E—COST REDUCTIONS

SEC. 651. COST REDUCTIONS FOR FISCAL YEAR 1987.

(a) PCS MOVES.—The total amount expended by the Department of Defense during fiscal year 1987 for permanent change of station moves may not exceed $2,533,760,000.

(b) SELECTIVE REENLISTMENT BONUS.—(1) During fiscal year 1987, the Secretary concerned may not pay more than 50 percent of an amount paid to any person under section 308 of title 37, United States Code, in a lump sum.

(2) During fiscal year 1987, the total amount obligated for payments under such section with respect to reenlistments and extensions of enlistments after Septeber 30, 1986, may not exceed $291,600,000.

(c) ENLISTMENT BONUSES.—An enlistment bonus under section 308a of title 37, United States Code, may not be paid by the Secretary of the Navy or the Secretary of the Air Force with respect to an enlistment after September 30, 1986.

(d) ENLISTED TO OFFICER RATIO.—The Secretary of Defense shall require that officer personnel strengths be managed so as to attain a ratio within the armed forces (other than the Coast Guard) of enlisted members to officers of not less than 6.12 to 1 by September 30, 1987, with a goal of achieving a ratio of 6.5 to 1 by September 30, 1990.

(e) RESERVE UNIT AND INDIVIDUAL TRAINING.—During fiscal year 1987, the amount spent for reserve unit and individual training may not exceed $5,084,500,000.

TITLE VII—UNIFORM CODE OF MILITARY JUSTICE

SEC. 701. SHORT TITLE; REFERENCES TO UNIFORM CODE OF MILITARY JUSTICE.

(a) SHORT TITLE.—This title may be cited as the "Military Justice Amendments of 1986".

(b) REFERENCES TO UCMJ.—Except as otherwise expressly provided, whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of chapter 47 of title 10, United States Code (the Uniform Code of Military Justice).

SEC. 702. ESTABLISHMENT OF DEFENSE OF LACK OF MENTAL RESPONSIBILITY.

(a) IN GENERAL.—(1) Subchapter VII is amended by inserting after section 850 (article 50) the following new section (article):

"§ 850a. Art. 50a. Defense of lack of mental responsibility

"(a) It is an affirmative defense in a trial by court-martial that, at the time of the commission of the acts constituting the offense, the accused, as a result of a severe mental disease or defect, was unable to appreciate the nature and quality or the wrongfulness of the acts. Mental disease or defect does not otherwise constitute a defense.

"(b) The accused has the burden of proving the defense of lack of mental responsibility by clear and convincing evidence.

"(c) Notwithstanding the provisions of section 852 of this title (article 52), the accused may be found not guilty under this section only if—

"(1) a majority of the members of the court-martial present at the time the vote is taken determines that the defense of lack of mental responsibility has been established; or

"(2) in the case of a court-martial composed of a military judge only, the military judge determines that the defense of lack of mental responsibility has been established.".

(2) The table of sections at the beginning of such subchapter is amended by inserting after the item relating to section 850 (article 50) the following new item:

"850a. 50a. Defense of lack of mental responsibility.".

(b) EFFECTIVE DATE.—Section 850a of title 10, United States Code, as added by subsection (a)(1), shall apply only to offenses committed on or after the date of the enactment of this Act.

SEC. 703. APPLICATION FOR ENLISTED MEMBERS TO SERVE ON COURT-MARTIAL.

(a) IN GENERAL.—Section 825(c)(1) (article 25(c)(1)) is amended by striking out "has requested in writing" and inserting in lieu thereof "has requested orally on the record or in writing".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply only to a case in which arraignment is completed on or after the effective date of this part.

SEC. 704. COURT-MARTIAL JURISDICTION OVER RESERVE MEMBERS.

(a) JURISDICTION OVER RESERVE MEMBERS UNDER CERTAIN CIRCUMSTANCES.—(1) Paragraph (3) of section 802(a) (article 2(a)) is amended to read as follows:

"(3) Members of a reserve component while—

"(A) on active duty; or

"(B) on inactive-duty training, but in the case of members of the Army National Guard of the United States or the Air National Guard of the United States only when in Federal service.".

(2) Section 802 (article 2) is further amended by adding at the end the following new subsection:

"(d)(1) A member of a reserve component who is charged with having committed an offense against this chapter may be called or ordered to active duty involuntarily for the purpose of—

"(A) investigation under section 832 of this title (article 32);

"(B) trial by court-martial; or

"(C) nonjudicial punishment under section 815 of this title (article 15).

"(2) A member of a reserve component may not be called or ordered to active duty under paragraph (1) except with respect to an offense committed while the member was—

"(A) on active duty; or

"(B) on inactive-duty training, but in the case of members of the Army National Guard of the United States or the Air National Guard of the United States only when in Federal service.

"(3) Authority to call or order a member to active duty under paragraph (1) shall be exercised under regulations prescribed by the Secretary concerned.".

(b) CONTINUED AMENABILITY TO JURISDICTION.—Section 803 (article 3) is amended by adding at the end the following new subsection:

"(d) A member of a reserve component who is subject to this chapter is not, by virtue of the termination of a period of active duty or inactive-duty training, relieved from amenability to the jurisdiction of this chapter for an offense against this chapter committed during such period of active duty or inactive-duty training.".

(c) AUTHORITY TO ADMINISTER OATHS.—Section 936 (article 136) is amended by inserting "or performing inactive-duty training" in subsections (a) and (b) after "active duty".

(d) ARTICLES TO BE EXPLAINED.—The text of section 937 (article 137) is amended to read as follows:

"(a)(1) The sections of this title (articles of the Uniform Code of Military Justice) specified in paragraph (3) shall be carefully explained to each enlisted member at the time of (or within six days after)—

"(A) the member's initial entrance on active duty; or

"(B) the member's initial entrance into a duty status with a reserve component.

"(2) Such sections (articles) shall be explained again—

"(A) after the member has completed six months of active duty or, in the case of a member of a reserve component, after the member has completed basic or recruit training; and

"(B) at the time when the member reenlists.

"(3) This subsection applies with respect to sections 802, 803, 807–815, 825, 827, 831, 837, 838, 855, 877–934, and 937–939 of this title (articles 2, 3, 7–15, 25, 27, 31, 37, 38, 55, 77–134, and 137–139).

"(b) The text of the Uniform Code of Military Justice and of the regulations prescribed by the President under such Code shall be made available to a member on active duty or to a member of a reserve component, upon request by the member, for the member's personal examination.".

(e) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall apply only to an offense committed on or after the effective date of this part.

SEC. 705. STATUTE OF LIMITATIONS.

(a) REVISION OF STATUTES OF LIMITATION.—Subsections (a), (b), and (c) of section 843 (article 43) are amended to read as follows:

"(a) A person charged with absence without leave or missing movement in time of war, or with any offense punishable by death, may be tried and punished at any time without limitation.

"(b)(1) Except as otherwise provided in this section (article), a person charged with an offense is not liable to be tried by court-martial if the offense was committed more than five years before the receipt of sworn charges and specifications by an officer exercising summary court-martial jurisdiction over the command.

"(2) A person charged with an offense is not liable to be punished under section 815 of this title (article 15) if the offense was committed more than two years before the imposition of punishment.

"(c) Periods in which the accused is absent without authority or fleeing from justice shall be excluded in computing the period of limitation prescribed in this section (article).".

(b) TIME FOR REINSTATEMENT OF CHARGES.—Such section is further amended by adding at the end the following new subsection:

"(g) If charges or specifications are dismissed as defective or insufficient for any cause and the period prescribed by the applicable statute of limitations—

"(1) has expired; or

"(2) will expire within six calendar months of the date of dismissal of the charges and specifications,

trial and punishment under new charges and specifications are not barred by a statute of limitations if the new charges and specifications are received by an officer exercising summary court-martial jurisdiction over the command within six calendar months of the dismissal of the charges or specifications.".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to an offense committed on or after the date of the enactment of this Act.

SEC. 706. TIME FOR DEFENSE POST-TRIAL SUBMISSIONS.

(a) SIMPLIFICATION OF TIME FOR SUBMISSION.—Subsection (b) of section 860 (article 60) is amended—

(1) by striking out paragraph (3);

(2) by redesignating paragraph (2) as paragraph (3) and inserting a comma in that paragraph after "case"; and

(3) by striking out paragraph (1) and inserting in lieu thereof the following:

"(1) The accused may submit to the convening authority matters for consideration by the convening authority with respect to the findings and the sentence. Except in a summary court-martial case, such a submission shall be made within 10 days after the accused has been given an authenticated record of trial and, if applicable, the recommendation of the staff judge advocate or legal officer under subsection (d). In a summary court-martial case, such a submission shall be made within seven days after the sentence is announced.

"(2) If the accused shows that additional time is required for the accused to submit such matters, the convening authority or other person taking action under this section, for good cause, may extend the applicable period under paragraph (1) for not more than an additional 20 days.".

(b) RECOMMENDATIONS OF STAFF JUDGE ADVOCATE.—Subsection (c)(2) of such section is amended by striking out "and, if applicable, under subsection (d),".

(c) CONFORMING AMENDMENTS.—Subsection (d) of such section is amended—

(1) in the third sentence, by striking out "who shall have five days from the date of receipt in which to submit any matter in response" and inserting in lieu thereof "who may submit any matter in response under subsection (b)"; and

(2) by striking out the fourth sentence.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply in cases in which the sentence is adjudged on or after the effective date of this part.

SEC. 707. DETAIL OF JUDGE ADVOCATES.

(a) REPRESENTATION OF UNITED STATES INTERESTS.—Section 806(a) (article 6(a)) is amended by inserting after the second sentence the following: "A judge advocate who is assigned or detailed to perform the functions of a civil office in the Government of the United States under section 973(b)(2)(B) of this title may perform such duties as may be requested by the agency concerned, including representation of the United States in civil and criminal cases.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a)—

(1) shall take effect on the date of the enactment of this Act; and

(2) may not be construed to invalidate an action taken by a judge advocate, pursuant to an assignment or detail under section 973(b)(2)(B) of title 10, United States Code, before the date of the enactment of this Act.

SEC. 708. EFFECTIVE DATE.

Except as provided in sections 702(b), 705(c), and 707(b), the amendments made by this title shall take effect on the earlier of—

(1) the last day of the 120-day period beginning on the date of the enactment of this Act; or

(2) the date specified in an Executive order for such amendments to take effect.

TITLE VIII—DEPARTMENT OF DEFENSE MANAGEMENT

PART A—MANAGEMENT OF CERTAIN PROCUREMENT MATTERS

SEC. 801. CONTRACTS FOR OVERHAUL, REPAIR, AND MAINTENANCE OF NAVAL VESSELS.

(a) IN GENERAL.—Section 7299a of title 10, United States Code (relating to construction of combatant and escort vessels and assign-

ment of naval vessel projects), is amended by adding at the end the following new subsections:

"(c) In evaluating bids or proposals for a contract for the overhaul, repair, or maintenance of a naval vessel, the Secretary of the Navy shall, in determining the price of work to be performed in an area outside the area of the homeport of the vessel, consider all costs of performing the work in that area (including costs to the Navy of performing the work in that area that are subject to estimation before contract award).

"(d)(1) Notwithstanding subsections (b) and (c), the Secretary may award a contract for short-term work for the overhaul, repair, or maintenance of a naval vessel only to a contractor that is able to perform the work at the homeport of the vessel, if the Secretary determines that adequate competition is available among firms able to perform the work at the homeport of the vessel.

"(2) In this subsection, the term 'short-term work' means work that will be for a period of six months or less.".

(b) REPEAL OF LIMITATION ON FY86 FUNDS.—Section 8104 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190 (99 Stat. 1221)), is repealed.

SEC. 802. HANDLING OF HAZARDOUS WASTE GENERATED DURING REPAIR OR MAINTENANCE OF NAVAL VESSELS.

(a) REQUIRED CONTRACT PROVISIONS.—Chapter 633 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 7311. Repair or maintenance of naval vessels: handling of hazardous waste

"(a) CONTRACTUAL PROVISIONS.—The Secretary of the Navy shall ensure that a contract entered into for repair or maintenance of a naval vessel includes the following provisions:

"(1) IDENTIFICATION OF HAZARDOUS WASTES.—Provisions identifying the type and amounts of hazardous wastes that are expected to be generated during the performance of the repair or maintenance.

"(2) COMPENSATION.—Provisions specifying that the contractor shall be compensated under the contract for work performed by the contractor for duties of the contractor specified under paragraph (3).

"(3) STATEMENT OF WORK.—Provisions mutually acceptable to the Navy and the contractor specifying the responsibilities of the Navy and of the contractor, respectively, for the removal, handling, storage, transportation, and disposal of hazardous wastes generated during the performance of the repair or maintenance.

"(b) RENEGOTIATION OF CONTRACT.—The Secretary of the Navy shall renegotiate a contract described in subsection (a) if—

"(1) the contractor, during the performance of repair or maintenance under the contract, discovers hazardous wastes different in type or amount from those identified in the contract; and

"(2) such hazardous wastes originated on the naval vessel on which the repair or maintenance is being performed, including any waste materials rendered hazardous as a result of the performance of the work required by the contract.

"(c) IDENTIFICATION NUMBERS.—Each naval vessel, or each Supervisor of Shipbuilding in lieu of each vessel, at or upon which hazardous wastes are produced or from which hazardous wastes are removed, shall obtain an identification number which shall be used on all contracts, manifests, and invoices for the transportation of such wastes for treatment, storage, or disposal in accordance with regulations issued by the Administrator of the Environmental Protection Agency pursuant to the Resource Conservation and Recovery Act of 1978, as amended. For purposes of this section, the term 'hazardous wastes' shall include all wastes for which the contractor is entitled to reimbursement under subsection (a)(2) or (b).".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"7311. Repair or maintenance of naval vessels: handling of hazardous waste.".

SEC. 803. LIMITATION ON TRANSFER OF CERTAIN TECHNICAL DATA PACKAGES.

(a) TECHNICAL DATA PACKAGES FOR PRODUCTION OF LARGE-CALIBER CANNON.—(1) Chapter 433 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 4542. Technical data packages for large-caliber cannon: prohibition on transfers to foreign countries; exception

"(a) GENERAL RULE.—Funds appropriated to the Department of Defense may not be used—

"(1) to transfer to a foreign country a technical data package for a defense item being manufactured or developed in an arsenal; or

"(2) to assist a foreign country in producing such a defense item.

"(b) EXCEPTION.—The Secretary of the Army may use funds appropriated to the Department of Defense to transfer a technical data package, or to provide assistance, described in subsection (a) if—

"(1) the transfer or provision of assistance is to a friendly foreign country (as determined by the Secretary of Defense in consultation with the Secretary of State);

"(2) the Secretary of the Army determines that such action—

"(A) would have a clear benefit to the preservation of the production base for the production of cannon at the arsenal concerned; and

"(B) would not transfer technology (including production techniques) considered unique to the arsenal concerned; and

"(3) the Secretary of Defense enters into an agreement with the country concerned described in subsection (c).

"(c) COPRODUCTION AGREEMENTS.—An agreement under this subsection shall be in the form of a Government-to-Government Memorandum of Understanding and shall include provisions that—

"(1) prescribe the content of the technical data package or assistance to be transferred to the foreign country participating in the agreement;

"(2) require that production by the participating foreign country of the defense item to which the technical data package or assistance relates be shared with the arsenal concerned;

"(3) subject to such exceptions as may be approved under subsection (d), prohibit transfer by the participating foreign country to a third party or country of—

"(A) any defense article, technical data package, technology, or assistance provided by the United States under the agreement; and

"(B) any defense article produced by the participating foreign country under the agreement; and

"(4) require the Secretary of Defense to monitor compliance with the agreement and the participating foreign country to report periodically to the Secretary of Defense concerning the agreement.

"(d) TRANSFERS TO THIRD PARTIES.—A transfer described in subsection (b)(3) may be made if—

"(1) the defense article, technical data package, or technology to be transferred is a product of a cooperative research and development program in which the United States and the participating foreign country were partners; or

"(2) the President—

"(A) complies with all requirements of section 3(d) of the Arms Export Control Act (22 U.S.C. 2753(d)) with respect to such transfer; and

"(B) certifies to Congress, before the transfer, that the transfer would provide a clear benefit to the production base of the United States for large-caliber cannon.

"(e) NOTICE AND REPORTS TO CONGRESS.—(1) The Secretary of the Army shall submit to Congress a notice of each agreement entered into under this section.

"(2) The Secretary shall submit to Congress a semi-annual report on the operation of this section and of agreements entered into under this section.

"(f) ARSENAL DEFINED.—In this section, the term 'arsenal' means a Government-owned, Government-operated defense plant that manufactures large-caliber cannon.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"4542. Technical data packages for large-caliber cannon: prohibition on transfers to foreign countries; exception.".

(b) EFFECTIVE DATE.—Section 4542 of title 10, United States Code, as added by subsection (a), shall apply with respect to funds appropriated for fiscal years after fiscal year 1986.

SEC. 804. INFORMATION CONCERNING USE IN MAJOR SYSTEMS OF COMPONENTS MANUFACTURED OUTSIDE THE UNITED STATES.

(a) INCLUSION OF INFORMATION IN COMPREHENSIVE ANNUAL SELECTED ACQUISITION REPORTS.—Section 139a(c)(3) of title 10, United States Code, is amended—

(1) by striking out "and" at the end of subparagraph (B);

(2) by striking out the period at the end of subparagraph (C) and inserting in lieu thereof "; and"; and

(3) by adding at the end the following new subparagraph:

"(D) for each major defense acquisition program included in the report, information detailing the use of components manufactured outside the United States, including the dollar value and country of origin of such components.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a)(3) shall apply to comprehensive annual Selected Acquisition Reports submitted for fiscal years beginning after the date of the enactment of this Act.

SEC. 805. REQUIREMENTS CONCERNING TRANSPORTATION OF MEMBERS OF THE ARMED FORCES BY CHARTERED AIRCRAFT.

(a) IN GENERAL.—(1) Chapter 157 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2640. Charter air transportation of members of the armed forces

"(a) REQUIREMENTS.—(1) The Secretary of Defense may not enter into a contract with an air carrier for the charter air transportation of members of the armed forces unless the air carrier—

"(A) meets, at a minimum, the safety standards established by the Secretary of Transportation under title VI of the Federal Aviation Act of 1958 (49 U.S.C. App. 1421 et seq.);

"(B) has at least 12 months of experience operating services in air transportation that are substantially equivalent to the service sought by the Department of Defense; and

"(C) undergoes a technical safety evaluation.

"(2) For purposes of paragraph (1)(C), a technical safety evaluation—

"(A) shall include inspection of a representative number of aircraft; and

"(B) shall be conducted in accordance with regulations prescribed by the Secretary, after consultation with the Secretary of Transportation.

"(b) INSPECTIONS.—The Secretary shall provide for inspections of each air carrier that contracts with the Department of Defense for the charter air transportation of members of the armed forces. The inspections shall be conducted in accordance with standards established by the Secretary, after consultation with the Secretary of Transportation, and shall include, at a minimum, the following:

"(1) An on-site capability survey of the air carrier conducted at least once every two years.

"(2) A performance evaluation of the air carrier conducted at least once every six months.

"(3) A preflight safety inspection of each aircraft conducted not more than 72 hours before each flight to ensure a high degree of flying safety.

"(4) Operational check-rides on aircraft conducted periodically.

"(c) COMMERCIAL AIRLIFT REVIEW BOARD.—The Secretary shall establish a Commercial Airlift Review Board within the Department of Defense. The Board shall consist of personnel from the Department of Defense and other Government personnel as may be appropriate. The duties of the Board shall be—

"(1) to make recommendations to the Secretary on suspension and reinstatement of air carriers under subsection (d);

"(2) to make recommendations to the Secretary on waivers under subsection (g); and

"(3) to carry out such other duties and make recommendations on such other matters as the Secretary considers appropriate.

"(d) SUSPENSION AND REINSTATEMENT.—(1) The Secretary shall establish guidelines for the suspension of air carriers under contract with the Department of Defense for the charter air transportation of members of the armed forces and for the reinstatement of air carriers that have been so suspended. The guidelines—

"(A) shall require the immediate determination of whether to suspend an air carrier if an aircraft of the air carrier is involved in a fatal accident; and

"(B) may require the suspension of an air carrier—

"(i) if the carrier is in violation of any order, rule, regulation, or standard prescribed under title VI of the Federal Aviation Act of 1958 (49 U.S.C. App. 1421 et seq.); or

"(ii) if an aircraft of the air carrier is involved in a serious accident.

"(2) The Commercial Airlift Review Board shall make recommendations to the Secretary on suspension and reinstatement under this subsection.

"(3) The Secretary shall include in each contract subject to this section the provisions on suspension and reinstatement established under this subsection.

"(e) AUTHORITY TO LEAVE UNSAFE AIRCRAFT.—A representative of the Military Airlift Command, the Military Traffic Management Command, or such other agency as may be designated by the Secretary of Defense (or if there is no such representative reasonably available, the senior officer on board a chartered aircraft) may order members of the armed forces to leave a chartered aircraft if the representative (or officer) determines that a condition exists on the aircraft which may endanger the safety of the members.

"(f) FAA INFORMATION.—The Secretary shall request the Secretary of Transportation to provide to the Secretary a report on each inspection performed by Federal Aviation Administration personnel, and the status of corrective actions taken, on each aircraft of an air carrier under contract with the Department of Defense for the charter air transportation of members of the armed forces.

"(g) WAIVER.—After considering recommendations by the Commercial Airlift Review Board, the Secretary may waive any provision of this section in an emergency.

"(h) REGULATIONS.—The Secretary shall prescribe regulations to carry out this section, including requirements and identification of inspecting personnel with respect to preflight safety inspections required by subsection (b)(3).

"(i) DEFINITIONS.—In this section:

"(1) The terms 'air carrier', 'aircraft', 'air transportation', and 'charter air transportation' have the meanings given such terms by sections 101(3), 101(5), 101(10), and 101(15), respectively, of the Federal Aviation Act of 1958 (49 U.S.C. App. 1301(3), 1301(5), 1301(10), and 1301(15)).

"(2) The term 'members of the armed forces' means members of the Army, Navy, Air Force, and Marine Corps.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2640. Charter air transportation of members of the armed forces.".

(b) DEADLINE FOR REGULATIONS.—Not later than 120 days after the date of the enactment of this Act, the Secretary of Defense shall prescribe the regulations required by section 2640 of title 10, United States Code, as added by subsection (a).

(c) EFFECTIVE DATE.—Section 2640 of title 10, United States Code, as added by subsection (a), shall apply only to contracts which are entered into on or after the date on which the regulations required by subsection (b) are prescribed.

SEC. 806. FUEL SOURCES FOR HEATING SYSTEMS ON MILITARY INSTALLATIONS.

(a) USE OF MOST COST-EFFECTIVE FUEL IN NEW HEATING SYSTEMS.—(1) Section 2690 of title 10, United States Code, is amended to read as follows:

"§ 2690. Fuel sources for heating systems

"(a) The Secretary of the military department concerned shall provide that the primary fuel source to be used in any new heating system constructed on lands under the jurisdiction of the military department is the most cost-effective fuel for that heating system over the life cycle of the system.

"(b) The Secretary of Defense shall prescribe regulations for the determination of the life-cycle cost effectiveness of a fuel for the purposes of subsection (a).

"(c) In the case of a military installation in the Federal Republic of Germany, the Secretary of the military department concerned shall, where practical, use the German utility system for purposes of heating.".

(2) The item relating to such section in the table of sections at the beginning of chapter 159 of such title is amended to read as follows:

"2690. Fuel sources for heating systems.".

(b) REPEAL OF REQUIREMENT FOR CONVERSION OF EXISTING STEAM-GENERATING PLANTS.—Section 8110 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190 (99 Stat. 1222)), is repealed.

SEC. 807. PROHIBITION ON CONTRACTS FOR PERFORMANCE OF FIREFIGHTING AND SECURITY FUNCTION.

(a) PROHIBITION.—Chapter 159 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2693. Prohibition on contracts for performance of firefighting and security-guard functions

"(a) Except as provided in subsection (b), funds appropriated to the Department of Defense may not be obligated or expended for the purpose of entering into a contract for the performance of firefighting or security-guard functions at any military installation or facility.

"(b) The prohibition in subsection (a) does not apply—

"(1) to a contract to be carried out at a location outside the United States (including its commonwealths, territories, and possessions) at which military personnel would have to be used for the performance of the function described in subsection (a) at the expense of unit readiness;

"(2) to a contract to be carried out on a Government-owned but privately operated installation; or

"(3) to a contract (or the renewal of a contract) for the performance of a function under contract on September 24, 1983.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2693. Prohibition on contracts for performance of firefighting and security-guard functions.".

SEC. 808. DEFENSE INVESTIGATIVE SERVICE INVESTIGATIONS OF SPECIAL ACCESS PROGRAM CONTRACTORS.

(a) PERIODIC SECURITY INVESTIGATIONS.—The Secretary of Defense shall direct the Director of the Defense Investigative Service to conduct an investigation at least every six months of each special access program contractor in order to verify control of classified material held by the contractor pertaining to the special access program.

(b) REPORT.—The Secretary of Defense shall submit to Congress an annual report on the results of investigations under subsection (a). Such report shall be submitted in an unclassified form and shall be prepared in consultation with the Director of the Defense Investigative Service. Each such report shall include—

(1) a certification of what portion of special access program contractors have been determined to be handing special access program information in accordance with established Department of Defense procedures and what portion have been determined to not be handling such information in accordance with such procedures;

(2) with respect to those special access program contractors which have been determined to not be handling such information in accordance with such procedures—

(A) a certification of what portion have been corrected or are being corrected;

(B) a description of the seriousness of the failures to handle such information in accordance with such procedures; and

(C) a description of what corrective action has been taken and is planned to be taken to correct such failures.

(c) DEFINITION.—For purposes of this section, the term "special access program contractor" means a firm that is a contractor with the Department of Defense under a special access program established by the Secretary of Defense.

PART B—HEALTH CARE MANAGEMENT

SEC. 811. IMPROVEMENT OF MILITARY HEALTH-CARE DELIVERY SYSTEM.

(a) IN GENERAL.—(1) Chapter 55 of title 10, United States Code, is amended by adding at the end the following new sections:

"§ 1096. Contracts for medical care for retirees, dependents, and survivors: alternative delivery of health care

"(a) IN GENERAL.—The Secretary of Defense, after consulting with the other administering Secretaries, may contract for the delivery of health care to which covered beneficiaries are entitled under this chapter. The Secretary may enter into a contract under this section with any of the following:

"(1) Health maintenance organizations.

"(2) Preferred provider organizations.

"(3) Individual providers, individual medical facilities, or insurers or consortiums of such providers, facilities, or insurers.

"(b) SCOPE OF COVERAGE UNDER HEALTH CARE PLANS.—A contract entered into under this section may provide for the delivery of—

"(1) selected health care services;

"(2) total health care services for selected covered beneficiaries; or

"(3) total health care services for all covered beneficiaries who reside in a geographical area designated by the Secretary.

"(c) CHARGES FOR HEALTH CARE.—The Secretary of Defense may prescribe by regulation a premium, deductible, copayment, or other charge for health care provided under this section.

"(d) DEFINITION.—In this section, the term 'covered beneficiary' means a beneficiary under this chapter other than a beneficiary under section 1074(a) of this title.

"§ 1097. Military Health Care Account

"(a) ESTABLISHMENT OF ACCOUNT.—

"(1) ESTABLISHMENT.—There is hereby established in the Department of Defense an account to be known as the 'Military Health Care Account'. All sums appropriated to carry out the functions of the Secretary of Defense with respect to the Civilian Health and Medical Program of the Uniformed Services shall be appropriated to the account.

"(2) AVAILABILITY OF AMOUNTS.—Amounts appropriated to the account shall remain available until obligated or expended under subsection (c) or (d).

"(b) ALLOCATION OF AMOUNTS IN ACCOUNT FOR PROVISION OF MEDICAL CARE BY SERVICE SECRETARIES.—

"(1) REQUESTS FOR ALLOCATIONS.—The Secretary of a military department shall, before the beginning of a fiscal year quarter, provide to the Secretary of Defense a description of the amounts necessary to pay for charges for benefits under the program for covered beneficiaries under the jurisdiction of the Secretary for that quarter.

"(2) ALLOCATION BY SECRETARY OF DEFENSE.—The Secretary of Defense shall, subject to amounts provided in advance in appropriation acts, make available to each Secretary of a military department the amount from the account that the Secretary of Defense determines is necessary to pay for charges for benefits under the program for covered beneficiaries under the jurisdiction of that Secretary for that quarter.

"(c) EXPENDITURE OF AMOUNTS FROM ACCOUNT BY SERVICE SECRETARIES.—The Secretary of a military department shall provide medical and dental care to covered beneficiaries for a fiscal-year quarter from amounts appropriated to the Secretary and from amounts from the account made available for that quarter to the Secretary by the Secretary of Defense.

"(d) OBLIGATION OF AMOUNTS FROM ACCOUNT BY SECRETARY OF DEFENSE.—The Secretary of Defense may obligate or expend funds from the account for purposes of entering into a contract under section 1096 of this title to the extent amounts are available in the account.

"(e) REGULATIONS.—The Secretary shall prescribe regulations to carry out this section.

"(f) DEFINITIONS.—In this section:

"(1) The term 'account' means the Military Health Care Account established in subsection (a).

"(2) The term 'Civilian Health and Medical Program of the Uniformed Services' means the program authorized under sections 1079 and 1086 of this title and includes contracts entered into under section 1091 or 1096 of this title and demonstration projects under section 1092 of this title.

"(3) The term 'covered beneficiary' has the meaning given that term in section 1095(d) of this title.

"(4) The term 'program' means the Civilian Health and Medical Program of the Uniformed Services.

"§ 1098. Health care enrollment system

"(a) ESTABLISHMENT OF SYSTEM.—The Secretary of Defense, after consultation with the other administering Secretaries, shall establish a system of health care enrollment for covered beneficiaries who reside in the United States.

"(b) DESCRIPTION OF SYSTEM.—Such system shall—

"(1) allow covered beneficiaries to elect a health care plan from eligible health care plans designated by the Secretaries; or

"(2) if necessary in order to ensure full use of facilities of the uniformed services in a geographical area, assign covered beneficiaries who reside in such area to a health care plan.

"(c) HEALTH CARE PLANS AVAILABLE UNDER SYSTEM.—A health care plan designated by the Secretary of Defense shall provide all health care to which a covered beneficiary is entitled under this chapter. Such a plan may consist of any of the following:

"(1) Use of facilities of the uniformed services.

"(2) The Civilian Health and Medical Program of the Uniformed Services.

"(3) Any other health care plan contracted for by the Secretary of Defense.

"(d) ISSUANCE OF REGULATIONS.—The Secretary of Defense, after consultation with the other administering Secretaries, shall prescribe regulations to carry out this section.

"(e) DEFINITIONS.—In this section:

"(1) The term 'Civilian Health and Medical Program of the Uniformed Services' has the meaning given that term in section 1097(f)(2) of this title.

"(2) The term 'covered beneficiary' has the meaning given that term in section 1096(d) of this title.

"§ 1099. Diagnosis-related groups

"(a) ESTABLISHMENT OF DRGS.—The Secretary of Defense, after consultation with the other administering Secretaries, shall establish by regulation the use of diagnosis-related groups as the primary criteria for allocation of resources to facilities of the uniformed services.

"(b) CONTENT OF REGULATIONS.—Such regulations shall establish a system of diagnosis-related groups similar to that established under section 1886(d)(4) of the Social Security Act (42 U.S.C. 1395ww(d)(4)). Such regulations shall include the following:

"(1) A classification of inpatient treatments by diagnosis-related groups and a similar classification of outpatient treatment.

"(2) A methodology for classifying specific treatments within such groups.

"(3) An appropriate weighting factor for each such diagnosis-related group which reflects the relative resources used by a facility of a uniformed service with respect to treatments classified within that group compared to treatments classified within other groups.".

(2) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new items:

"1096. Contracts for medical care for retirees, dependents, and survivors: alternative delivery of health care.

"1097. Military Health Care Account.

"1098. Health care enrollment system.

"1099. Diagnosis-related groups.".

(b) REPORTS TO CONGRESS.—

(1) HEALTH CARE ENROLLMENT SYSTEM.—Not later than March 1, 1987, the Secretary of Defense shall submit to Congress a report detailing—

(A) the establishment and initial implementation of a system of health care enrollment under section 1098(a) of title 10, United States Code (as added by subsection (a)); and

(B) the plan of the Secretary for completing the implementation of such system.

(2) DIAGNOSIS-RELATED GROUPS.—The Secretary shall submit to Congress—

(A) not later than May 1, 1987, a report on plans of the Secretary for establishing diagnosis-related groups for inpatient services under section 1099(a) of title 10, United States Code (as added by subsection (a)); and

(B) not later than May 1, 1988, a report on plans of the Secretary for establishing diagnosis-related groups for outpatient services under such section.

(c) EFFECTIVE DATES.—The Secretary of Defense shall prescribe regulations—

(1) as required by section 1097(e) of title 10, United States Code (as added by subsection (a)), to take effect after September 30, 1986;

(2) as required by section 1098(d) of such title (as added by subsection (a)), to gradually implement the system of health care enrollment for covered beneficiaries during the period beginning on October 1, 1987, and ending on September 30, 1990; and

(3) as required by section 1099(a) of such title (as added by subsection (a)), to take effect—

(A) in the case of inpatient treatments, after September 30, 1987; and

(B) in the case of outpatient treatments, after September 30, 1988.

SEC. 812. MEDICAL INFORMATION SYSTEMS ACQUISITION.

(a) SELECTION OF MEDICAL INFORMATION SYSTEM.—

(1) IN GENERAL.—After carrying out the testing required by subsection (b) and the demonstration project described in subsection (c), the Secretary of Defense shall designate for use in all military medical treatment facilities the medical information system tested that is the most advantageous to the Government based on the recommendations of the Secretary required by subsection (e).

(2) RESTRICTION.—The Secretary may not obligate or expend funds appropriated or otherwise made available to the Department of Defense to—

(A) deploy a medical information system in military medical treatment facilities before the Secretary submits the report required by subsection (e); or

(B) conduct an extended benchmark test of the system known as the Composite Health-Care System.

(3) WAITING PERIOD.—The Secretary may not designate a medical information system under paragraph (1) until the end of the 30-day period beginning on the date on which the Comptroller General submits the report required by subsection (f)(2)(B).

(b) OPERATIONAL TESTING OF MEDICAL INFORMATION SYSTEMS.—

(1) IN GENERAL.—The Secretary shall carry out operational tests on medical information systems for purposes of selecting the medical information system for use in military medical treatment facilities that is the most advantageous to the Government based on the recommendations of the Secretary required by subsection (e).

(2) REQUIREMENTS FOR TEST.—(A) The tests required by paragraph (1) shall be carried out over a one-year period at six test sites designated by the Secretary.

(B) Each test site designated by the Secretary shall include not less than one medium-to-large military medical treatment facility and not less than one small military medical treatment facility.

(C) Each branch of the services shall be represented at not less than one of the test sites designated by the Secretary.

(D) The Secretary shall designate vendors to participate in the tests required by paragraph (1), including—

(i) not less than three vendors for the system known as the Composite Health-Care System; and

(ii) not less than one vendor who uses and adapts the existing Veterans' Administration software with respect to the hospital management computer system of the Veterans' Administration known as the Veterans' Administration's decentralized hospital computer program.

(E) Each vendor that participates in such tests shall—

(i) demonstrate the functions included in phases I, II, and IID of Solicitation No. DAHC26-85-R-0009 (relating to acquisition of the Composite Health-Care System); and

(ii) calculate an incremental price and delivery schedule, at the appropriate level, for each of the functions offered in phases I, II, IID, and III of such solicitation.

(3) SPECIAL INTEREST USER GROUPS.—The Secretary shall establish a special interest user group at each test site designated under paragraph (2)(A) to facilitate the implementation and development of the medical information system at each such site. Each such group shall include—

(A) representatives from the program office of the Tri-Service Medical Information Systems of the Department of Defense;

(B) representatives from the military medical treatment facilities at the site; and

(C) representatives of the vendor.

(c) VETERANS' ADMINISTRATION DECENTRALIZED HOSPITAL COMPUTER PROGRAM.—

(1) IN GENERAL.—The Secretary shall continue to carry out the demonstration project required by section 1203 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 718), with respect to the hospital-management computer system of the Veterans' Administration known as the Veterans' Administration Decentralized Hospital Computer Program.

(2) EXTENSION OF DEMONSTRATION PROJECT.—The Secretary shall extend the duration of the demonstration project described in paragraph (1) so that such project shall be completed on the same date as the tests required by subsection (b).

(3) USE OF ALL COMPONENTS OF DHCP.—Section 1203 of the Department of Defense Authorization Act, 1986, is amended in subsection (c)—

(A) by striking out "available"; and

(B) by inserting "that are available at least six months before the date on which the demonstration project is expected to be completed" after "software)".

(d) EVALUATIONS.—

(1) MILITARY EVALUATION TEAMS.—The Secretary shall establish teams of military medical personnel assigned to military medical facilities to assist in evaluating each medical information system being tested. Each such team shall travel to each test site included in the operational tests under subsection (b) or the demonstration project described in subsection (c) in order to compare all the medical information systems being tested.

(2) INDEPENDENT EVALUATION.—The Secretary shall enter into a contract with an independent technical firm to conduct an evaluation of the demonstration project. For purposes of this paragraph, an independent technical firm is a technical firm that is not involved in any aspect of the operational tests under subsection (b) or the demonstration project described in subsection (c).

(3) CONTENT OF EVALUATIONS.—An evaluation under this paragraph shall include—

(A) an assessment of the benefits (including quality and timeliness of care) and cost-effectiveness of the use of each of the medical information systems tested under subsection (b) or under the demonstration project described in subsection (c) and the technical factors of each of such systems;

(B) an assessment of the impact of initiatives of the Department of Defense (including proposed reform, initiative of the Department of Defense with respect to the Civilian Health and Medical Program of the Uniformed Services (commonly known as "Project Imprint") on the functioning and required workload of each medical information system tested; and

(C) the formulation of a life cycle management plan for automation of military medical facilities.

(e) REPORT.—The Secretary shall submit to Congress a report describing the testing carried out under subsection (b) and the demonstration project referred to in subsection (c). The report shall include—

(1) specific findings and recommendations by the Secretary with respect to—

(A) the benefits (including quality and timeliness of care) and cost-effectiveness of the use of each of the medical information systems tested under subsection (b) or under the demonstration project described in subsection (c) and the technical factors of each of such systems; and

(B) the benefits to be achieved by each function referred to in subsection (b)(2)(E);

(2) a plan for implementing the systems recommended by the Secretary under paragraph (1);

(3) findings and recommendations with respect to the impact of the initiatives described in subsection (d)(3)(B); and

(4) a complete life cycle management plan for automation of military medical facilities.

(f) EVALUATIONS AND REPORTS BY COMPTROLLER GENERAL.—

(1) SELECTION OF VENDORS.—(A) The Comptroller General shall evaluate the selection of vendors by the Secretary for the testing of the Composite Health-Care System.

(B) The Comptroller General shall submit to Congress a report on such evaluation before the end of the 45-day period beginning on the date that the Secretary completes the selection of vendors for such testing.

(2) EVALUATION BY COMPTROLLER GENERAL.—(A) The Comptroller General shall evaluate the conduct of the evaluations required by subsection (d) and the report of the Secretary required by subsection (e).

(B) The Comptroller General shall submit to Congress a report on such evaluation before the end of the 45-day period beginning on the date that the Secretary submits such report to Congress.

(g) DEFINITIONS.—In this section:

(1) The term "medical information system" means a computer-based information system that—

(A) receives data normally recorded concerning patients;

(B) creates and maintains from such data a computerized medical record for each patient; and

(C) provides access to data for patient care, hospital administration, research, and medical care resource planning.

(2) The term "medium-to-large military medical treatment facility" means a military hospital with 150 or more beds.

(3) The term "military medical treatment facility" means a hospital, medical center, or clinic under the jurisdiction of the Secretary of a military department or the Secretary of Defense.

(4) The term "Secretary" means the Secretary of Defense.

(5) The term "small military medical treatment facility" means a military hospital with fewer than 50 beds or a free-standing ambulatory clinic.

SEC. 813. CHAMPUS CATCHMENT AREAS.

(a) REIMBURSEMENT FOR INPATIENT SERVICES WITHIN CATCHMENT AREA.—Section 1079(a)(7) of title 10, United States Code, is amended by striking out "pays for at least 75 percent of the services" and inserting in lieu thereof "provides primary coverage for the services".

(b) EFFECTIVE DATE.—The amendment made by paragraph (1) shall take effect on October 1, 1986.

SEC. 814. USE OF PUBLIC HEALTH SERVICE HOSPITALS AS FACILITIES OF THE UNIFORMED SERVICES.

Subsection (e) of section 1252 of the Department of Defense Authorization Act, 1984 (42 U.S.C. 248d(e)), is amended in the first sentence by striking out "December 31, 1987" and inserting in lieu thereof "December 31, 1988".

SEC. 815. LIMITATION ON IMPLEMENTATION OF HEALTH CARE REFORM INITIATIVE.

(a) LIMITATION.—

(1) IN GENERAL.—The Secretary of Defense may not obligate or expend funds appropriated or otherwise made available to the Department of Defense for purposes of implementing the health care reform initiative of the Department of Defense commonly known as Project Imprint until—

(A) the Secretary completes the study required by subsection (b)(1) and submits the report required by subsection (b)(2); and

(B) a period of 30 days of continuous session of Congress elapses after the Secretary submits such report.

(2) COMPUTATION OF TIME PERIOD.—For purposes of this paragraph, the continuity of a session of Congress is broken only by an adjournment of the Congress sine die, and the days on which either House is not in session because of an adjournment of more than three days to a day certain are excluded in the computation of such 30-day period.

(b) STUDY OF HEALTH CARE ALTERNATIVES.—

(1) IN GENERAL.—The Secretary shall conduct a study of—

(A) methods to guarantee the maintenance of competition among providers of health care to persons under the jurisdiction of the Secretary;

(B) the merits of the use of a voucher system or a fee schedule for provision of health care to such persons; and

(C) methods to guarantee that community hospitals are given equal consideration with other health care providers for provision of health care services under contracts with the Department of Defense.

(2) REPORT.—The Secretary shall submit to Congress a report discussing the matters evaluated in the study required by paragraph (1) before the end of the 60-day period beginning on the date of the enactment of this Act.

SEC. 816. ELIGIBILITY OF PHILANTHROPIC INSTITUTIONS TO RECEIVE REIMBURSEMENT UNDER CHAMPUS.

(a) IN GENERAL.—

(1) ACTIVE-DUTY DEPENDENTS.—Section 1079 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(l) Notwithstanding subsection (j), a hospital that is operated primarily for philanthropic purposes may not be denied payment for a charge for services for which a claim is submitted under a plan contracted for under subsection (a) solely on the basis that such hospital does not impose a legal obligation on patients to pay for such services.".

(2) CERTAIN MEMBERS, FORMER MEMBERS, AND THEIR DEPENDENTS.—Section 1086 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(h) Notwithstanding subsection (d) or any other provision of this chapter, a hospital that is operated primarily for philanthropic purposes may not be denied payment for a charge for services for which a claim is submitted under a plan contracted for under subsection (a) solely on the basis that such hospital does not impose a legal obligation on patients to pay for such services.".

(b) EFFECTIVE DATE.—Section 1079(l) of title 10, United States Code (as added by subsection (a)(1)), and section 1086 of such title (as added by subsection (a)(2)) shall apply with respect to medical care received after the date of the enactment of this Act.

PART C—COMMISSION ON MERCHANT MARINE AND DEFENSE

SEC. 821. STATUS OF MEMBERS OF COMMISSION ON MERCHANT MARINE AND DEFENSE; EXTENSION OF REPORT DEADLINES AND AVAILABILITY OF APPROPRIATIONS.

(a) STATUS OF COMMISSION MEMBERS.—Subsection (d) of section 1536 of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2633), is amended—

(1) by inserting "(1)" after "(d)"; and

(2) by adding at the end the following new paragraph:

"(2) A member of the Commission appointed under subsection (c)(1)(C) (who is not otherwise employed by the Federal Government) shall not be considered to be a Federal employee, except for the purposes of—

"(A) chapter 81 of title 5, United States Code, relating to compensation for work-related injuries; and

"(B) chapter 171 of title 28, United States Code, relating to tort claims.".

(b) EXTENSIONS.—Such section is further amended as follows:

(1) The last sentence of subsection (b) and the first sentence of subsection (g) are each amended by striking out "the date of the enactment of the law first providing funds for the Commission" and inserting in lieu thereof "the date on which sufficient members of the Commission to constitute a quorum have been appointed".

(2) The second sentence of subsection (g) is amended by striking out "of enactment" each place it appears.

(3) The last sentence of subsection (i) is amended by striking out "September 30, 1988" and inserting in lieu thereof "36 months after the date on which sufficient members of the Commission to constitute a quorum have been appointed".

(c) DEADLINE FOR APPOINTMENTS.—The President shall make appointments as required by subsection (c)(1)(C) of such section before the end of the 30-day period beginning on the date of the enactment of this Act.

TITLE IX—PROCUREMENT POLICY REFORM

SEC. 900. SHORT TITLE.

This title may be cited as the "Defense Procurement Improvement Act of 1986".

PART A—MANAGEMENT OF THE ACQUISITION PROCESS

SEC. 901. DUTIES OF UNDER SECRETARY OF DEFENSE FOR ACQUISITION.

(a) DUTIES OF POSITION.—

(1) IN GENERAL.—Section 134a of title 10, United States Code, is amended to read as follows:

"§ 134a. Under Secretary of Defense for Acquisition: appointment; powers and duties; precedence

"(a) There is an Under Secretary of Defense for Acquisition, appointed from civilian life by the President, by and with the advice and consent of the Senate. The Under Secretary shall be appointed from among persons who have an extensive management background in the private sector.

"(b) Subject to the authority, direction, and control of the Secretary of Defense, the Under Secretary of Defense for Acquisition—

"(1) is responsible for setting overall policy for, and supervises, all acquisition activities of the Department of Defense; and

"(2) shall perform such duties and exercise such powers as the Secretary of Defense may prescribe.

"(c) The Under Secretary—

"(1) is the senior procurement executive for the Department of Defense for the purposes of section 16(3) of the Office of Federal Procurement Policy Act (41 U.S.C. 414(3));

"(2) is the Defense Acquisition Executive for purposes of regulations and procedures of the Department providing for a Defense Acquisition Executive; and

"(3) to the extent directed by the Secretary, supervises all other officers in the Office of the Secretary of Defense who have acquisition responsibilities.

"(d) Supervision of the audit and oversight functions performed by the Defense Contract Audit Agency on the date of the enactment of this section shall be carried out in the same manner as in effect on such date.

"(e) The Secretary of Defense shall prescribe the precedence of the Under Secretary in the Department of Defense.".

(2) CLERICAL AMENDMENT.—The item relating to such section in the table of sections at the beginning of chapter 4 of such title is amended to read as follows:

"134a. Under Secretary of Defense for Acquisition: appointment; powers and duties; precedence.".

(b) INDEPENDENCE OF DIRECTOR OF OPERATIONAL TEST AND EVALUATION.—Section 136a(d) of title 10, United States Code (relating to the Director of Operational Test and Evaluation), is amended by inserting "personally" after "Secretary of Defense" in the first sentence.

(c) ARMED FORCES POLICY COUNCIL.—Section 171(a) of such title (relating to the Armed Forces Policy Council) is amended—

(1) by redesignating paragraphs (3) through (11) as paragraphs (4) through (12), respectively;

(2) by inserting after paragraph (2) the following new paragraph (3):

"(3) the Under Secretary of Defense for Acquisition;"; and

(3) by striking out "Under Secretaries of Defense" in paragraph (7) (as so redesignated) and inserting in lieu thereof "Under Secretary of Defense for Policy and the Director of Defense Research and Engineering".

(d) PREVENTION OF DUPLICATION OF CERTAIN CONTRACT AUDIT AND OVERSIGHT ACTIVITIES.—(1) Chapter 131 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2214. Audit and oversight of contractor activities: coordination and prevention of duplicative policies

"(a) COORDINATION.—The Secretary of Defense shall prescribe procedures to ensure that Department of Defense policies for the audit and oversight of contractor activities are coordinated and carried out in a manner to prevent duplication of audit and oversight activities by different elements of the Department.

"(b) CONSULTATION.—In carrying out this section, the Secretary shall consult with the Under Secretary of Defense for Acquisition and the Inspector General of the Department of Defense.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2214. Audit and oversight of contractor activities: coordination and prevention of duplicative policies.".

SEC. 902. STREAMLINING PROGRAM MANAGEMENT.

(a) IN GENERAL.—

(1) PROGRAM TO STREAMLINE MANAGEMENT.—The Secretary of Defense shall conduct, through the Secretaries of the military departments, a program with respect to increasing the efficiency of the management structure of major defense acquisition pro-

grams by reducing the number of officials through whom a program manager reports to the senior procurement executive of the military department concerned.

(2) DESIGNATION OF PARTICIPATING PROGRAMS.—The Secretary shall require that the Secretary of each military department designate at least two major defense acquisition programs of that department, and as many as practicable, to participate in the program described in paragraph (1).

(3) ELIGIBILITY.—A program may be designated under paragraph (2) only if the program has not proceeded into full-scale engineering development as of September 30, 1986.

(b) GUIDELINES.—The Secretary of Defense shall issue guidelines governing the management of the major defense acquisition programs designated by the Secretaries of the military departments under subsection (a)(2). Such guidelines shall include the following requirements:

(1) PROGRAM EXECUTIVE OFFICER.—The Secretary concerned shall designate a program executive officer for each program.

(2) SUPERVISION OF PROGRAM MANAGER.—The program manager for each program shall report directly, without intervening review or approval, to the program executive officer for that program. The program manager shall consider recommendations received from the competition advocate for the department with respect to decisions concerning that program.

(3) SUPERVISION OF PROGRAM EXECUTIVE OFFICER.—The program executive officer for a program shall report directly, without intervening review or approval, to the senior procurement executive of the military department concerned designated pursuant to section 16(3) of the Office of Federal Procurement Policy Act (41 U.S.C. 414(3)).

(c) DEFINITION.—In this section, the term "major defense acquisition program" has the meaning given that term in section 139a(a)(1) of title 10, United States Code.

SEC. 903. MILESTONE AUTHORIZATION AND BASELINING.

(a) PROGRAM STABILITY.—

(1) Chapter 4 of title 10, United States Code, is amended by inserting after section 139c the following new section:

"§ 139d. Major defense acquisition programs: enhanced program stability

"(a)(1) The Secretary of Defense shall include in a request to Congress for funding for a major defense acquisition program, before full-scale engineering development and before full-rate production, the following:

"(A) In the case of the full-scale engineering development stage—

"(i) a baseline description of the total program; and

"(ii) the total program cost (including the cost of all elements included in the baseline description), which may not exceed the amount of the independent estimate for that program submitted to the Secretary under section 139c of this title.

"(B) In the case of the production stage, a revision of the most recent baseline description and of the most recent total program cost.

"(2) The Secretary shall include in the baseline description of a program all elements related to the development, production, and initial provisioning of the system to be developed under the program, including—

"(A) system performance;

"(B) number of end items;

"(C) scheduling;

"(D) testing;

"(E) initial training; and

"(F) initial provisioning.

"(b) The Secretary of Defense shall designate for each fiscal year not more than three major defense acquisition programs in each military department to be considered for multiyear authorization under subsection (c). A program may not be designated under this subsection if—

"(1) the program is being submitted for approval by Congress to proceed into the full-rate production stage; and

"(2) initial operational test and evaluation of the program has not been completed.

"(c)(1) If a program designated by the Secretary of Defense under subsection (b) is approved by Congress to proceed into the full-scale engineering development stage, or into the full-rate production stage, Congress shall authorize funds for that stage in a single amount sufficient to carry out that stage, but not for a period in excess of five years.

"(2) The Secretary concerned may not begin full-scale engineering development, or full-rate production, for such a program until Congress authorizes funds for that stage in an amount sufficient to carry out that stage.

"(d)(1) If, in carrying out a full-scale engineering development or full-rate production for which Congress has authorized funds, the Secretary concerned determines that there is a significant adverse program deviation—

"(A) the Secretary concerned shall notify Congress in writing of that determination and of the significant adverse program deviation before the end of the 10-day period beginning on the date that the determination is made; and

"(B) except as provided in paragraph (2), funds appropriated for that program may not be obligated on or after the date of that determination.

"(2) The prohibition in paragraph (1)(B) on the obligation of funds for a major defense acquisition program shall cease to apply at the end of the 45-day period beginning on the date on which the Secretary concerned submits the report required under paragraph (1)(A), except that the Secretary may not obligate funds appropriated for the fiscal year following the fiscal year in which the deviation occurred unless such funds are authorized by law.

"(3) In this subsection, the term 'significant adverse program deviation', with respect to a program, means—

"(A) an adverse change in the capability of the system being acquired under the program that results in a capability for the system that does not meet the thresholds specified in the current baseline description for the program;

"(B) an increase in the current total program cost, in constant year dollars, above the total program cost associated with that baseline description; or

"(C) a delay in program schedule beyond the threshold specified in the current baseline description.

"(e)(1) After Congress authorizes funds for full-scale engineering development, or for full-rate production, for a program under this section, the Secretary of Defense or the Secretary concerned may (except as provided in subsection (d)) change the current baseline description with respect to the program and the total program cost associated with that baseline description.

"(2) The Secretary of Defense or the Secretary concerned shall notify the Committees on Armed Services of the Senate and House of Representatives of a change under paragraph (1) not later than 10 days after the date on which the change is made.

"(3) Except for a change required by mandatory safety concerns, authority under paragraph (1) may only be delegated—

"(A) in the case of the Secretary of Defense, to the Deputy Secretary of Defense or to the Under Secretary of Defense for Acquisition; and

"(B) in the case of a Secretary of a military department, to the Under Secretary (or to any other official designated by the Secretary concerned as the Service Acquisition Executive of that military department).

"(f) The Secretary is not required to report under section 139a of this title on any program that is designated under subsection (b).

"(g) In this section, the term 'major defense acquisition program' has the meaning given that term in section 139a(a)(1) of this title.".

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 139c the following new item:

"139d. Major defense acquisition programs: enhanced cost control.".

(b) EFFECTIVE DATE.—The Secretary of Defense shall make the designations required by subsection (b) of section 139d of title 10, United States Code, as added by subsection (a), as part of the budget submission of the Department of Defense for fiscal year 1988.

SEC. 904. COMPARABLE BUDGETING FOR SIMILAR SYSTEMS.

(a) MATTERS TO BE INCLUDED IN ANNUAL DEFENSE BUDGETS.—In preparing the defense budget for any fiscal year, the Secretary of Defense shall—

(1) specifically identify each common procurement weapon system included in the budget;

(2) take all feasible steps to minimize variations in procurement unit costs for any such system as shown in the budget requests of the different armed forces requesting procurement funds for the system; and

(3) identify and justify in the budget all such variations in procurement unit costs for common procurement weapon systems.

(b) ASSISTANT SECRETARY (COMPTROLLER).—The Secretary of Defense shall carry out this section through the Assistant Secretary of Defense (Comptroller).

(c) DEFINITIONS.—In this section:

(1) DEFENSE BUDGET.—The term "defense budget" means the budget of the Department of Defense included in the President's budget submitted to Congress under section 1105 of title 31, United States Code, for a fiscal year.

(2) COMMON PROCUREMENT WEAPON SYSTEM.—The term "common procurement weapon system" means a weapon system for which two or more of the Army, Navy, Air Force, and Marine Corps request procurement funds in a defense budget.

SEC. 905. PREFERENCE FOR NONDEVELOPMENTAL PRODUCTS.

(a) IN GENERAL.—

(1) ESTABLISHMENT OF PREFERENCE.—Chapter 137 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2325. Preference for nondevelopmental items

"(a) IN GENERAL.—

"(1) STATEMENT OF PROCUREMENT REQUIREMENTS.—The Secretary of Defense shall ensure, that, to the maximum extent practicable—

"(A) requirements of the Department of Defense with respect to a procurement of

supplies are stated in the broadest possible functional description; and

"(B) such requirements are defined so that nondevelopmental items may be procured to fulfill such requirements when such items are adequate to meet the needs of the Department.

"(2) REGULATIONS.—The Secretary of Defense shall prescribe regulations to carry out this section.

"(b) DEFINITION.—In this section, the term 'nondevelopmental item' means—

"(1) any item of supply, or component of such item, that is available in the commercial marketplace;

"(2) any previously-developed item of supply, or component of such item, that is in use by a department or agency of the United States, a State or local government, or a foreign government with which the United States has a mutual defense cooperation agreement; or

"(3) any item of supply, or component of such item, described in paragraph (1) or (2) that requires only minor modification in order to meet the requirements of the procuring agency.".

(2) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2325. Preference for nondevelopmental items.".

(3) EFFECTIVE DATE.—The Secretary of Defense shall prescribe regulations as required by section 2325(a)(2) of title 10, United States Code (as added by subsection (a)(1)), before the end of the 120-day period beginning on the date of the enactment of this Act.

(b) EVALUATION BY COMPTROLLER GENERAL.—

(1) EVALUATION.—The Comptroller General shall conduct an independent evaluation of the actions taken by the Secretary of Defense to carry out the requirements of section 2325 of title 10, United States Code (as added by subsection (a)(1)).

(2) REPORT.—The Comptroller General shall submit to Congress a report on the evaluation required by paragraph (1). Such report shall include—

(A) an analysis of the effectiveness of the actions taken by the Secretary to carry out the requirements of section 2325 of title 10, United States Code (as added by subsection (a)(1));

(B) a description of any programs conducted to notify acquisition personnel of the Department of Defense of the requirements of such section and to train such personnel in the appropriate procedures for carrying out such section;

(C) a description of each law, regulation, and procedure which prevents or restricts maximum practicable use of nondevelopment items to fulfill the supply requirements of the Department of Defense; and

(D) such recommendations for additional legislation as the Comptroller General considers necessary or appropriate to promote maximum procurement of nondevelopmental items to fulfill the supply requirements of the Department of Defense.

(3) The report required by paragraph (2) shall be submitted before the end of the one-year period beginning on the date of the enactment of this Act.

(c) REMOVAL OF IMPEDIMENTS TO ACQUISITION OF NONDEVELOPMENTAL ITEMS.—

(1) REPORT.—The Secretary of Defense shall submit to the defense committees a report—

(A) identifying all statutes and regulations that are determined by the Secretary to impede the acquisition of nondevelopmental products by the Department of Defense; and

(B) recommending any legislation that the Secretary considers necessary or appropriate to promote maximum procurement of nondevelopmental items to fulfill the supply requirements of the Department of Defense.

(2) ACTIONS BY SECRETARY.—The Secretary shall take appropriate steps to remove any impediments identified by the Secretary under paragraph (1)(A) that are under the jurisdiction of the Secretary.

(3) DEFENSE COMMITTEES.—In this subsection, the term "defense committees" means the Committees on Armed Services and on Appropriations of the Senate and House of Representatives.

SEC. 906. REPORT ON OPPORTUNITIES FOR ADVANCEMENT FOR PROGRAM MANAGERS AND OTHER ACQUISITION PERSONNEL.

(a) REPORT.—The Secretary of Defense shall submit to Congress a report that describes methods to enhance career opportunities for program managers and other acquisition personnel of the Department of Defense.

(b) DEADLINE FOR REPORT.—The report shall be submitted not later than the end of the 90-day period following the date of the enactment of this Act.

PART B—AMENDMENTS TO EXISTING LAW

SEC. 911. SMALL BUSINESS SET-ASIDES.

(a) PROPORTION OF CONTRACTS SET ASIDE DETERMINED ON INDUSTRY CATEGORY BASIS.—Paragraph (3) of section 15(a) of the Small Business Act (15 U.S.C. 644(a)(3)) is amended—

(1) by inserting "in each industry category" after "Government", and

(2) by adding at the end the following new sentences: "For purposes of clause (3) of the first sentence of this subsection, an industry category is a discrete group of similar goods and services. Such groups shall be determined by the Administration in accordance with the four-digit standard industrial classification codes contained in the Standard Industrial Classification Manual published by the Office of Management and Budget, except that the Administration shall limit such an industry category to a greater extent than provided under such classification codes if the Administration receives evidence indicating that further segmentation for purposes of this paragraph is warranted due to special capital equipment needs or special labor or geographic requirements or to recognize a new industry. A market for goods or services may not be segmented under the preceding sentence due to geographic requirements unless the Government typically designates the area where work for contracts for such goods or services is to be performed and Government purchases comprise the major portion of the entire domestic market for such goods or services and, due to the fixed location of facilities, high mobilization costs, or similar economic factors, it is unreasonable to expect competition from business concerns located outside of the general areas where such concerns are located.".

(b) AWARDING OF CONTRACTS AT FAIR MARKET PRICES.—(1) Section 15(a) of such Act (15 U.S.C. 644(a)) is further amended by adding at the end the following new sentence: "A contract may not be awarded under this subsection if the award of the contract would result in a cost to the awarding agency which exceeds a fair market price.".

(2) Section 8(a)(1)(A) of such Act (15 U.S.C. 637(a)(1)(A)) is amended by striking out the semicolon at the end and adding in lieu thereof the following: ". A contract may not be awarded under this subsection if the award of the contract would result in a cost to the awarding agency which exceeds a fair market price;".

(c) ASSURANCE AS TO COMPOSITION OF LABOR FORCE.—(1) Section 8(a) of such Act (15 U.S.C. 637(a)) is amended by adding at the end the following new paragraph:

"(13)(A) A concern may not be awarded a contract under this subsection as a small business concern unless the concern agrees that—

"(i) in the case of a contract for services (except construction), the concern will perform at least 50 percent of the cost of the contract with its own employees; and

"(ii) in the case of a contract for procurement of supplies (other than procurement from a regular dealer in such supplies), the concern will perform work for at least 50 percent of the cost of manufacturing the supplies (not including the cost of materials).

"(B) The Administrator may change the percentage under clause (i) or (ii) of subparagraph (A) if the Administrator determines that such change is necessary to reflect conventional industry practices. A percentage established under the preceding sentence may not differ from a percentage established under section 15(n).

"(C) Not later than 180 days after the date of the enactment of this paragraph, the Administration shall establish, through public rulemaking, requirements similar to those specified in subparagraph (A) to be applicable to contracts for general and specialty construction and to contracts for any other industry category not otherwise subject to the requirements of such subparagraph. The percentage applicable to any such requirement shall be determined in accordance with subparagraph (B), except that such a percentage may not differ from a percentage established under section 15(n) for the same industry category.".

(2) Section 15 of such Act (15 U.S.C 644) is amended by adding at the end the following new subsection:

"(n)(1) A concern may not be awarded a contract under this subsection as a small business concern unless the concern agrees that—

"(A) in the case of a contract for services (except construction), the concern will perform at least 50 percent of the cost of the contract with its own employees; and

"(B) in the case of a contract for procurement of supplies (other than procurement from a regular dealer in such supplies), the concern will perform work for at least 50 percent of the cost of manufacturing the supplies (not including the cost of materials).

"(2) The Administrator may change the percentage under subparagraph (A) or (B) of paragraph (1) if the Administrator determines that such change is necessary to reflect conventional industry practices. A percentage established under the preceding sentence may not differ from a percentage established under section 15(n).

"(3) Not later than 180 days after the date of the enactment of this paragraph, the Administration shall establish, through public rulemaking, requirements similar to those specified in paragraph (1) to be applicable to contracts for general and specialty construction and to contracts for any other industry category not otherwise subject to the requirements of such subparagraph. The percentage applicable to any such requirement shall be determined in accordance with

paragraph (2), except that such a percentage may not differ from a percentage established under section 15(n) for the same industry category.".

(d) DISCLOSURE OF INFORMATION CONCERNING APPLICANTS FOR PROCUREMENT SET-ASIDES.—(1) Section 8 of such Act is amended by adding at the end the following new subsection:

"(k)(1) The head of any Federal agency shall, within five days of the agency's decision to set aside a procurement for an identifiable small business concern under this section, provide the name and address of the small business concern expected to receive the procurement and the names and addresses of the principals of such concern to any person who requests such information.

"(2) The Secretary of Defense may decline to provide information under paragraph (1) in order to protect national security interests.".

(2) Section 15 of such Act is amended by adding at the end the following new subsection:

"(o)(1) The head of any Federal agency shall, within five days of the agency's decision to set aside a procurement for small business concerns under this section, provide the names and addresses of the small business concerns expected to respond to the procurement to any person who requests such information.

"(2) The Secretary of Defense may decline to provide information under paragraph (1) in order to protect national security interests.".

(e) REVIEW OF SIZE STANDARDS.—(1) Section 3 of the Small Business Act is amended by inserting "(1)" after "SEC. 3. (a)" and adding at the end of subsection (a) the following:

"(2)(A) Within six months after the date of the enactment of this paragraph, the Small Business Administration shall establish a program for the review of the size standards for eligibility of business concerns in the industry categories described in subparagraph (B) for a procurement restricted to small business concerns under section 8(a) or 15(a).

"(B) Subparagraph (A) shall apply only to business concerns in the following industry categories:

"(i) Construction (except dredging).

"(ii) Architectural and engineering services (including surveying and mapping services).

"(iii) Ship building and ship repair.

"(3) If the Administrator determines, on the basis of any such review, that contracts awarded under the set-aside programs under such sections exceed 30 percent of the dollar value of the total contract awards for that industry category, as determined under the last sentence of section 15(a)(3), the Administrator shall adjust the size standards for such industry category establishing eligibility for a set-aside program to a size that will likely reduce the number of contracts which may be set aside to approximately 30 percent of the value of contracts to be awarded under such sections.

"(4) The Administrator shall conduct a review under the program established under paragraph (2) at least once during every three years. Such review shall be completed and appropriate size standard adjustments made with the expiration of 180 days after each three-year review period. The first review shall review the periods of fiscal years 1984, 1985, and 1986 and shall begin on January 1, 1987.".

(f) EFFECTIVE DATE.—The amendments made by this section shall take effect at the end of the 180-day period beginning on the date of the enactment of this Act.

SEC. 912. TRUTH IN NEGOTIATIONS ACT AMENDMENTS.

(a) STRENGTHENING OF PREVENTION OF UNEARNED AND EXCESSIVE CONTRACTOR PROFITS.—Chapter 137 of title 10, United States Code, is amended by inserting after section 2306 the following new section:

"§ 2306a. Cost or pricing data: truth in negotiations

"(a) REQUIRED COST OR PRICING DATA AND CERTIFICATION.—(1) The head of an agency shall require offerors, contractors, and subcontractors to make cost or pricing data available as follows:

"(A) An offeror for a prime contract under this chapter to be entered into using procedures other than sealed-bid procedures shall be required to submit cost or pricing data before the award of the contract if the price of the contract to the United States is expected to exceed $100,000.

"(B) The contractor for a contract under this chapter shall be required to submit cost or pricing data before the pricing of a change or modification to the contract if the price adjustment is expected to exceed $100,000 (or such lesser amount as may be prescribed by the head of the agency).

"(C) An offeror for a subcontract (at any tier) of a contract under this chapter shall be required to submit cost or pricing data before the award of the subcontract if—

"(i) the price of the subcontract is expected to exceed $100,000; and

"(ii) the prime contractor and each higher-tier subcontractor have been required to make available cost or pricing data under this subsection.

"(D) The subcontractor for a subcontract covered by subparagraph (C) shall be required to submit cost or pricing data before the pricing of a change or modification to the subcontract if the price adjustment is expected to exceed $100,000 (or such lesser amount as may be prescribed by the head of the agency).

"(2) A person required, as an offeror, contractor, or subcontractor, to submit cost or pricing data under paragraph (1) (or required by the head of the agency concerned to submit such data under subsection (c)) shall be required to certify that, to the best of the person's knowledge and belief, the cost or pricing data submitted are accurate, complete, and current.

"(3) Cost or pricing data required to be submitted under paragraph (1) (or under subsection (c)), and a certification required to be submitted under paragraph (2), shall be submitted—

"(A) in the case of a submission by a prime contractor (or an offeror for a prime contract), to the contracting officer for the contract (or to a representative of the contracting officer designated by the contracting officer for the purposes of the negotiation of the contract); or

"(B) in the case of a submission by a subcontractor (or an offeror for a subcontract), to the prime contractor.

"(4) Except as provided under subsection (b), this section applies to contracts entered into by the head of an agency on behalf of a foreign government.

"(b) EXCEPTIONS.—This section need not be applied to a contract or subcontract—

"(1) for which the price agreed upon is based on—

"(A) adequate price competition;

"(B) established catalog or market prices of commercial items sold in substantial quantities to the general public; or

"(C) prices set by law or regulation; or

"(2) in an exceptional case when the head of the agency determines that the requirements of this section may be waived and states in writing his reasons for such determination.

"(c) AUTHORITY TO REQUIRE COST OR PRICING DATA—When cost or pricing data are not required to be submitted by this section, such data may nevertheless be required to be submitted by the head of the agency if the head of the agency determines that such data are necessary for the evaluation by the agency of the reasonableness of the price of the contract or subcontract.

"(d) PRICE REDUCTIONS FOR DEFECTIVE COST OR PRICING DATA.—(1)(A) A prime contract (or change or modification to a prime contract) under which a certificate under subsection (a)(2) is required shall contain a provision that the price of the contract to the United States, including profit or fee, shall be adjusted to exclude any significant amount by which it may be determined by the head of the agency that such price was increased because the contractor (or any subcontractor required to make available such a certificate) submitted defective cost or pricing data.

"(B) For the purposes of this section, defective cost or pricing data are cost or pricing data which, as of the date of agreement on the price of the contract (or another date agreed upon between the parties), were inaccurate, incomplete, or noncurrent. If for purposes of the preceding sentence the parties agree upon a date other than the date of agreement on the price of the contract, the date agreed upon by the parties shall be as close to the date of agreement on the price of the contract as is practicable.

"(2)(A) A contractor shall not be allowed to offset an amount against the amount of a contract price adjustment under a contract provision required by paragraph (1) unless—

"(i) the contractor certifies to the contracting officer (or to a representative of the contracting officer designated by the contracting officer) that, to the best of the contractor's knowledge and belief, the contractor is entitled to the offset; and

"(ii) the contractor proves that the cost or pricing data were available before the date of agreement on the price of the contract (or price of the modification) and that the data were not submitted as specified in subsection (a)(3) before such date.

"(B) A contractor shall not be allowed to offset an amount otherwise authorized to be offset under subparagraph (A) if the United States proves that, had the cost or pricing data referred to in subparagraph (A)(ii) been submitted to the United States before the date of agreement on the price of the contract (or price of the modification), the submission of such cost or pricing data would not have resulted in an increase in that price in the amount to be offset.

"(3) In determining for purposes of a contract price adjustment under a contract provision required by paragraph (1) whether, and to what extent, a contract price was increased because the contractor (or a subcontractor) submitted defective cost or pricing data, it shall be a defense that the United States did not rely on the defective data submitted by the contractor or subcontractor.

"(4) It is not a defense to an adjustment of the price of a contract under a contract provision required by paragraph (1) that—

"(A) the price of the contract would not have been modified even if accurate, complete, and current cost or pricing data had been submitted by the contractor or subcon-

tractor because the contractor or subcontractor—

"(i) was the sole source of the property or services procured; or

"(ii) otherwise was in a superior bargaining position with respect to the property or services procured;

"(B) the contracting officer should have known that the cost and pricing data in issue were defective even though the contractor or subcontractor took no affirmative action to bring the character of the data to the attention of the contracting officer;

"(C) the contract was based on an agreement between the contractor and the United States about the total cost of the contract and there was no agreement about the cost of each item procured under such contract; or

"(D) the prime contractor or subcontractor did not submit a certification of cost and pricing data relating to the contract as required under subsection (a)(2).

"(e) INTEREST AND PENALTIES FOR CERTAIN OVERPAYMENTS.—(1) If the United States makes an overpayment to a contractor under a contract with the Department of Defense subject to this section and the overpayment was due to the submission by the contractor of defective cost or pricing data, the contractor shall be liable to the United States—

"(A) for interest on the amount of such overpayment, to be computed—

"(i) for the period beginning on the date the overpayment was made to the contractor and ending on the date the contractor repays the amount of such overpayment to the United States; and

"(ii) at the current rate prescribed by the Secretary of the Treasury under section 6621 of the Internal Revenue Code of 1954; and

"(B) if the submission of such defective data was a knowing submission, for an additional amount equal to the amount of the overpayment.

"(2) Except as provided under subsection (d), the liability of a contractor under this subsection shall not be affected by the contractor's refusal to submit a certification under subsection (a)(2) with respect to the cost or pricing data involved.

"(f) RIGHT OF UNITED STATES TO EXAMINE CONTRACTOR RECORDS.—(1) For the purpose of evaluating the accuracy, completeness, and currency of cost or pricing data required to be submitted by this section with respect to a contract or subcontract, the head of the agency, acting through any authorized representative of the head of the agency who is an employee of the United States or a member of the armed forces, shall have the right to examine all records of the contractor or subcontractor related to—

"(A) the proposal for the contract or subcontract;

"(B) the discussions conducted on the proposal;

"(C) pricing of the contract or subcontract; or

"(D) performance of the contract or subcontract.

"(2) The right of the head of an agency under paragraph (1) shall expire three years after final payment under the contract or subcontract.

"(3) In this subsection, the term 'records' includes books, documents, and other data.

"(g) COST OR PRICING DATA DEFINED.—In this section, the term 'cost or pricing data' means all facts that, as of the time of agreement on the price of a contract (or the price of a contract modification), a prudent buyer or seller would reasonably expect to affect price negotiations significantly. Such term does not include information that is judgmental and not subject to verification.".

(b) CONFORMING AMENDMENTS.—(1) Subsection (f) of section 2306 of such title is amended to read as follows:

"(f) So-called 'truth-in-negotiations' provisions relating to cost or pricing data to be submitted by certain contractors and subcontractors are provided in section 2306a of this title.".

(2) Section 934(a) of the Defense Procurement Improvement Act of 1985 (title IX of Public Law 99-145; 99 Stat. 700) is repealed.

(c) CLERICAL AMENDMENTS.—(1) The heading of section 2306 of title 10, United States Code, is amended to read as follows:

"§ 2306. Kinds of contracts".

(2) The table of sections at the beginning of chapter 137 of such title is amended by striking out the item relating to section 2306 and inserting in lieu thereof the following:

"2306. Kinds of contracts.
"2306a. Cost or pricing data: truth in negotiations.".

(d) EFFECTIVE DATES.—(1) Except as provided in paragraph (2), section 2306a of title 10, United States Code, as added by subsection (a), and the amendments made by subsection (b) shall apply with respect to contracts entered into after the end of the 120-day period beginning on the date of the enactment of this Act.

(2) Subsection (e) of such section 2306(a) shall apply with respect to contracts entered into after November 7, 1985.

SEC. 913. RIGHTS IN TECHNICAL DATA.

(a) RIGHTS IN TECHNICAL DATA.—Subsection (a) of section 2320 of title 10, United States Code, is amended to read as follows:

"(a)(1) The Secretary of Defense shall prescribe regulations to define the legitimate interest of the United States and of a contractor or subcontractor in technical data pertaining to a product or process. Such regulations shall be included in regulations of the Department of Defense prescribed as part of the Federal Acquisition Regulation. Such regulations may not impair any right of the United States or of any contractor or subcontractor with respect to patents or copyrights or any other right in technical data otherwise established by law.

"(2) Such regulations shall include the following provisions:

"(A) In the case of a product or process that is developed by a contractor or subcontractor exclusively with Federal funds, the United States shall have the unlimited right to use, release, or disclose technical data pertaining to the product or process.

"(B) In the case of a product or process that is developed by a contractor or subcontractor exclusively at private expense, the contractor or subcontractor may limit the right to use, release, or disclose to persons outside the Government technical data pertaining to the product or process.

"(C) Notwithstanding subparagraph (B), the Government may use, release, or disclose technical data pertaining to a product or process to persons outside the Government if such technical data is otherwise publicly available or if—

"(i) such use, release, or disclosure—

"(I) is necessary for emergency repair and overhaul; or

"(II) is a use, release, or disclosure to a foreign government that is in the interest of the United States and is required for evaluational or informational purposes; and

"(ii) such use, release, or disclosure is made subject to a prohibition that the person to whom the data is released or disclosed may not further use, release, or disclose such data.

"(D) In the case of a product or process that is developed in part with Federal funds and in part at private expense, rights in technical data pertaining to such product or process shall be established as early in the acquisition process as practicable (preferably during contract negotiations), based upon consideration of the following factors:

"(i) The statement of congressional policy and objectives in section 200 of title 35, the statement of purposes in section 2(b) of the Small Business Innovation Development Act of 1982 (15 U.S.C. 638 note), and the declaration of policy in section 2 of the Small Business Act (15 U.S.C. 631).

"(ii) The interest of the United States in increasing competition and lowering costs by developing and locating alternative sources of supply and manufacture.

"(iii) The interest of the United States in encouraging contractors to develop at private expense items for use by the Government.

"(E) A contractor or subcontractor, or a prospective contractor or subcontractor, that develops a product or process exclusively at private expense may not be required, as a condition of being responsive to a solicitation or as a condition for the award of a contract, to sell or otherwise relinquish to the United States any rights in technical data that would permit the use by, or release or disclosure of, such data to persons outside the Government except under the conditions described in paragraph (2)(C).

"(F) The Secretary of Defense may—

"(i) enter into a contract with a contractor or subcontractor for the acquisition of rights in technical data pertaining to a product or process developed by such contractor or subcontractor exclusively at private expense if necessary to develop alternative sources of supply and manufacture; or

"(ii) agree to limit rights of the United States in technical data pertaining to a product or process developed entirely or in part with Federal funds if the United States receives a royalty-free license to use, release, or disclose the data for purposes of the United States (including purposes of competitive procurement).

"(2) The Secretary of Defense shall include definitions of the terms 'developed' and 'private expense' in regulations prescribed under paragraph (1).

"(3) In this subsection, the term 'Federal Acquisition Regulation' means the single system of Government-wide procurement regulations as defined in section 4(4) of the Office of Federal Procurement Policy Act (41 U.S.C. 403(4)).".

(b) VALIDATION OF PROPRIETARY DATA RESTRICTIONS.—Subsections (a) and (b) of section 2321 of title 10, United States Code, are amended to read as follows:

"(a) A contract for supplies or services entered into by the Department of Defense which provides for the delivery of technical data shall provide that a contractor or subcontractor at any tier shall be prepared to furnish to the contracting officer a written justification for any restriction asserted by the contractor or subcontractor on the right of the United States to use such technical data.

"(b)(1) The Secretary of Defense shall ensure that there is a thorough review of the appropriateness of any restriction on the right of the United States to use, release, or disclose technical data delivered under a contract. Such review shall be conducted

before the end of the three-year period beginning on the date on which final payment is made on a contract under which technical data is required to be delivered, or the date on which the technical data is delivered under such contract, whichever is later.

"(2)(A) If the Secretary determines, at any time before the end of the three-year period beginning on the date on which final payment is made on a contract under which technical data is required to be delivered, or the date on which the technical data is delivered under such contract, whichever is later, that a challenge to a restriction asserted in the contract is warranted, the Secretary shall provide written notice to the contractor or subcontractor asserting the restriction. Such a determination shall be based on a finding by the Secretary that reasonable grounds exist to question the current validity of the asserted restriction and that the continued adherence to the asserted restriction by the United States would make it impracticable to procure the item competitively at a later time. Such notice shall—

"(i) state the specific grounds for challenging the asserted restriction;

"(ii) require a response within 60 days justifying the current validity of the asserted restriction; and

"(iii) state that evidence of a validation by any agency of the Department of Defense of a restriction identical to the asserted restriction within the three-year period preceding the challenge shall serve as justification for the asserted restriction if—

"(I) the validation occurred after a review of the validated restriction under this subsection; and

"(II) the validated restriction was asserted by the same contractor or subcontractor to whom such notice is being provided.".

"(B) Notwithstanding subparagraph (A), if technical data delivered under a contract is otherwise publicly available, the United States may challenge a restriction on the use, release, or disclosure of such technical data at any time.".

(c) CONFORMING AMENDMENTS.—Section 1202 of the Department of Defense Authorization Act, 1985 (10 U.S.C. 2301 note), is amended—

(1) by inserting "and" at the end of paragraph (4);

(2) by striking out "; and" at the end of paragraph (5) and inserting in lieu thereof a period; and

(3) by striking out paragraph (6).

(d) DEADLINE FOR REVISION OF REGULATIONS.—The regulations required by section 2320(a)(1) of title 10, United States Code (as amended by subsection (a)), shall be prescribed not later than 180 days after the date of the enactment of this Act.

SEC. 914. PRICES FOR PRODUCTS SOLD COMMERCIALLY.

(a) ESTABLISHMENT OF COMMERCIAL PRICING REQUIREMENT.—

(1) IN GENERAL.—Section 2323 of title 10, United States Code, is amended to read as follows:

"§ 2323. Commercial pricing for items of supply

"(a) LIMITATION ON PRICE OF COMMERCIALLY AVAILABLE SUPPLIES.—Except in the case of an offer submitted with a written statement under subsection (b)(2) and except as provided in subsection (c), if the head of an agency, using procedures other than competitive procedures, enters into a contract with a contractor for the purchase of items which such contractor also offers for sale to the general public, the price charged the United States for such items under the contract may not exceed the lowest commercial price charged by the contractor in sales of such items to the general public, under similar circumstances, terms, and conditions, during a period described in subsection (b)(1).

"(b) REQUIREMENTS FOR INCLUSION IN OFFER.—The head of an agency, with respect to an offeror who submits an offer to the head of an agency to enter into a contract for the supply of items under a contract awarded using procedures other than competitive procedures, and who also offers such items for sale to the general public, shall require that the offeror—

"(1) certify in such offer that, to the best of the knowledge and belief of the offeror, the price proposed in the offer does not exceed the lowest commercial price at which such offeror sold such items during the most recent regular monthly, quarterly, or other period for which sales data are reasonably available; or

"(2) submit with such offer a written statement—

"(A) specifying the amount of the difference between the price proposed in the offer and the lowest commercial price at which such offeror sold such items during a period described in paragraph (1); and

"(B) providing a justification for that difference.

"(c) EXCEPTION TO LIMITATION.—Subsections (a) and (b) do not apply in the case of a contract with respect to which the contracting officer includes in the file on the contract a written determination by such officer that the use of the lowest commercial price with respect to such contract is not appropriate because of—

"(1) national security considerations; or

"(2) significant differences between the terms of the commercial sales of the items to be acquired under such contract and the terms of such contract, including differences in—

"(A) quantity;

"(B) quality;

"(C) delivery requirements; or

"(D) other terms and conditions.

"(d) AUDITING.—

"(1) IN GENERAL.—In order to verify any certification or statement made under subsection (b) with respect to a contract, the contracting officer who awards such contract, or any representative of the contracting officer who is an employee of the United States or a member of the armed forces, during the time period specified in paragraph (2), may examine and audit all records of sales (including contract terms and conditions) maintained by or for the contractor that are directly pertinent to such certification or statement.

"(2) TIME LIMITATION.—The head of an agency shall require an offeror who submits a certification or written statement under subsection (b) to make available the records, books, data, and documents described in paragraph (1) for examination, audit, or reproduction for the purposes of such paragraph during the three-year period beginning on the date that the offeror submits such certification or statement to such head of an agency.

"(3) EFFECT ON OTHER RIGHTS.—The authority established in this section is in addition to the authority of the head of an agency under section 2306(f) of this title.

"(e) REGULATIONS.—The Secretary of Defense, after consultation with the Secretary of Transportation and the Administrator of the National Aeronautics and Space Administration, shall prescribe regulations to carry out this section. Such regulations may not require the disclosure or submission of any data related to any element underlying the price of a commercial product not otherwise required by law.

"(f) LOWEST COMMERCIAL PRICE.—In this section, the term 'lowest commercial price' means the lowest price at which a sale was made to the general public of a particular item. Such term does not include the price at which a sale was made to—

"(1) any agency of the United States;

"(2) a dealer, distributor, or original equipment manufacturer of the contractor, or any other remarketer unless the Government can demonstrate that the sale is under the same terms and conditions as a sale to a dealer, distributor, or original equipment manufacturer of the contractor, or any other remarketer;

"(3) a subsidiary, affiliate, or parent business organization of the contractor, or any other branch of the same business entity;

"(4) an educational institution if the item sold is to be used for educational purposes; or

"(5) a customer located outside the United States.

"(g) APPLICABILITY.—This section does not apply to a contract entered into utilizing simplified small purchase procedures established under section 2304(g) of this title.".

(2) CLERICAL AMENDMENT.—The table of sections for chapter 137 of such title is amended by striking out the item relating to section 2323 and inserting in lieu thereof the following:

"2323. Commercial pricing for items of supply.".

(b) EFFECTIVE DATE.—The Secretary of Defense shall prescribe regulations as required by section 2323(e) of title 10, United States Code (as amended by subsection (a)(1)), before the end of the 30-day period beginning on the date of the enactment of this Act.

SEC. 915. FUNDING OF PROCUREMENT TECHNICAL ASSISTANCE PROGRAMS SERVING DISTRESSED AREAS.

(a) DEFINITION.—Section 2411(2) of title 10, United States Code, is amended by striking out "entity' means an eligible entity (within the meaning of paragraph (1)(B))" and inserting in lieu thereof "area' means an area".

(b) SERVICE AREAS.—Section 2413(b) of such title is amended by striking out "is a distressed entity" and inserting in lieu thereof "serves a distressed area".

SEC. 916. EDUCATIONAL REQUIREMENTS FOR ACQUISITION PERSONNEL.

Section 1622(b)(1) of title 10, United States Code, is amended by striking out "attended" and inserting in lieu thereof "completed".

PART C—MISCELLANEOUS

SEC. 921. SAFEGUARDING OF MILITARY WHISTLEBLOWERS.

(a) FINDINGS.—The Congress makes the following findings:

(1) In the course of their duties, members of the Armed Forces may become aware of information evidencing wrongdoing or waste of funds.

(2) It is generally the duty of members of the Armed Forces to report such information through the chain of command.

(3) Reporting such information through the chain of command does not always result in correction and may, in some cases, be futile.

(4) Members of the Armed Forces who become aware of such information should be

encouraged to disclose it to an Inspector General or Member of Congress if necessary.

(5) Members of the Armed Forces who disclose such information should be protected from adverse personnel consequences (or threats thereof) as a result of such disclosures.

(6) Members of the Armed Forces who believe they have been subject to retaliation (or the threat thereof) should have the right to a speedy Inspector General investigation and administrative review of their cases.

(b) WHISTLEBLOWER PROTECTION.—(1) Section 1034 of title 10, United States Code, relating to communicating with a Member of Congress, is amended to read as follows:

"§ 1034. Communicating with a Member of Congress or Inspector General

"(a) RESTRICTING COMMUNICATIONS WITH MEMBERS OF CONGRESS AND INSPECTORS GENERAL PROHIBITED.—

"(1) GENERAL RULE.—No person may restrict a member of an armed force in communicating with a Member of Congress or an Inspector General.

"(2) EXCEPTIONS.—Paragraph (1) does not apply to a communication that—

"(A) is unlawful; or

"(B) violates a regulation necessary to the security of the United States.

"(b) PROHIBITION OF RETALIATORY PERSONNEL ACTIONS.—No person may take (or threaten to take) an unfavorable personnel action, or withhold (or threaten to withhold) a favorable personnel action, as a reprisal against a member of an armed force for making or preparing a communication to a Member of Congress or an Inspector General that (under subsection (a)) may not be restricted.

"(c) INSPECTOR GENERAL INVESTIGATION.—

"(1) INVESTIGATION OF CERTAIN ALLEGATIONS.—The Inspector General of the Department of Defense shall expeditiously investigate an allegation by a member of the armed forces that a reprisal prohibited by subsection (b) has been taken (or threatened) against the member with respect to a communication to a Member of Congress or an Inspector General making a complaint or disclosing information that the member of the armed forces reasonably believes evidences—

"(A) a violation of a law, rule, or regulation; or

"(B) mismanagement, a gross waste of funds, an abuse of authority, or a substantial and specific danger to public health or safety.

"(2) TIME FOR ALLEGATION.—The Inspector General is not required to make an investigation under paragraph (1) in the case of an allegation made more than 90 days after the reprisal (or threatened reprisal) that is the subject of the allegation.

"(3) INVESTIGATION OF SUBJECT MATTER OF DISCLOSURE.—If the Inspector General has not already done so, the Inspector General shall commence a separate investigation of the information that the member believes evidences wrongdoing as described in subparagraph (A) or (B) of paragraph (1).

"(4) REPORT.—Not later than 10 days after completion of an investigation under this subsection, the Inspector General shall submit a report on the results of the investigation to the Secretary of Defense. The Inspector General shall provide an unclassified copy of that report to the member concerned.

"(5) TIME FOR REPORT.—If, in the course of an investigation of an allegation under this section, the Inspector General determines that it is not possible to submit the report required by paragraph (2) within 30 days of the date of receipt of the allegation being investigated, the Inspector General shall provide to the Secretary of Defense and to the member making the allegation a notice—

"(A) of that determination (including the reasons why the report may not be submitted within that time); and

"(B) of the time when the report will be submitted.

"(6) CONTENT OF REPORT.—The report on the results of the investigation shall contain a thorough review of the facts and circumstances relevant to the allegation and the complaint or disclosure and shall include documents acquired during the course of the investigation, including summaries of interviews conducted. If a person agrees to be interviewed only on the condition that the person's identity not be disclosed, the report shall not contain any information about such interview. The report shall contain no findings of disputed fact or recommendations as to the disposition of the complaint.

"(7) DELEGATION.—The Inspector General of the Department of Defense may delegate any function, power, or duty of the Inspector General under this subsection to any other Inspector General in the Department of Defense.

"(d) CORRECTION OF RECORDS.—

"(1) BOARDS FOR CORRECTION OF MILITARY RECORDS.—In resolving an allegation made by a member of an armed force to whom the Inspector General has reported under subsection (c), a correction board acting under section 1552 of this title, on the request of the member or otherwise, may—

"(A) direct further investigation;

"(B) direct the production of evidence;

"(C) direct the examination of witness;

"(D) receive oral argument; or

"(E) direct or conduct an evidentiary hearing.

"(2) LEGAL ASSISTANCE.—A member to whom the Inspector General has reported under subsection (c) is entitled to the assistance of a judge advocate in filing a petition for correction under section 1552 of this title.

"(3) BOARD DECISIONS.—The Board shall issue a final decision with respect to the petition within 120 days after the filing of such petition. If the Board fails to issue such a final decision within such time, the member shall be deemed to have exhausted administrative remedies under section 1552 of this title to the extent that such exhaustion may be required in any judicial proceeding concerning the relief sought in the petition for correction. The decision of the Board shall be in writing and shall include findings of fact and a statement of reasons. The Board shall cause its decision to be served on the petitioner by first class mail to the address listed in the petition for correction within 10 days of the date of the decision. A determination by the Board by a preponderance of the evidence that a personnel action adversely affecting a member would not have been taken in the absence of a complaint or disclosure of information described in subsection (c)(1) shall constitute a determination of a prohibited retaliatory personnel action under subsection (b).

"(4) CORRECTIVE ACTION.—The Board shall order such action as is necessary to correct the record and the effect of a prohibited retaliatory personnel action.

"(5) DISCIPLINARY ACTION.—If the Board determines that a prohibited retaliatory personnel action, as defined in subsection (b), has occurred, the Board shall refer the record of the matter to the officer exercising general court-martial jurisdiction over the person who committed the prohibited retaliatory personnel action.

"(e) JUDICIAL REVIEW.—

"(1) RIGHT OF REVIEW.—(A) A member of an armed force aggrieved by a final order of the Board may obtain judicial review of the order by filing a petition for review before the end of the 60-day period beginning on the later of—

"(i) the date the member received notice of the order of the Board; or

"(ii) the date on which the member was deemed to have exhausted administrative remedies under subsection (d)(3).

"(B) A petition for review under subparagraph (A) shall be filed with the United States Court of Appeals—

"(i) for the circuit in which the member resides;

"(ii) for the circuit in which the member is stationed; or

"(iii) in the Court of Appeals for the District of Columbia.

"(2) REVIEW OF RECORD.—With respect to any case for which a petition for review is filed under paragraph (1)(A), the court—

"(A) shall review the record; and

"(B) in any case in which it determines that the record fails to resolve significant issues of fact, may refer the case to the appropriate United States district court for a hearing de novo.

"(3) STANDARD OF REVIEW.—The court shall set aside any order of the Board that, upon completion of a review under paragraph (2), is determined to be—

"(A) arbitrary, capricious, an abuse of discretion, or otherwise not in accordance with law; or

"(B) not supported by substantial evidence.

"(4) ATTORNEYS FEES.—If, upon completion of a review under paragraph (2), the court finds that the claim of the member is meritorious, the court shall award such member reasonable attorneys fees and costs.

"(f) REGULATIONS.—The Secretary of Defense, and the Secretary of Transportation with respect to the Coast Guard when it is not operating as a service in the Navy, shall prescribe regulations to carry out this section. Such regulations shall include regulations for which violations are subject to section 892 of this title (article 92 of the Uniform Code of Military Justice).".

(2) The item relating to such section in the table of sections at the beginning of chapter 53 of such title is amended to read as follows:

"1034. Communicating with a Member of Congress or Inspector General.".

(c) DEADLINE FOR REGULATIONS.—The Secretary of Defense and the Secretary of Transportation shall prescribe regulations required by subsection (e) of section 1034 of title 10, United States Code, as added by subsection (a), not later than 120 days after the date of the enactment of this Act.

SEC. 922. PROTECTION OF CONTRACTOR EMPLOYEES FROM REPRISAL FOR DISCLOSURE OF CERTAIN INFORMATION.

(a) IN GENERAL.—(1) Chapter 141 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2408. Contractor employees: protection from reprisal for disclosure of certain information

"(a) PROHIBITION OF REPRISALS.—(1) A contractor of the Department of Defense may not take a reprisal action against any officer or employee of that contractor for disclosing to an appropriate Government official information relating to a contract (or

the negotiation or competition for a contract) between such contractor and the Department of Defense which the officer or employee reasonably believes evidences—

"(A) a violation of law, rule, or regulation; or

"(B) mismanagement, a gross waste of funds, an abuse of authority, or a substantial and specific danger to public health or safety.

"(2) In this section, the term 'appropriate Government official' includes—

"(A) an officer or employee of the Department of Defense;

"(B) a Member of Congress or an officer or employee of Congress, the General Accounting Office, the Congressional Budget Office, or the Office of Technology Assessment;

"(C) any other officer or employee of the United States whose duties include the investigation or enforcement of any law, rule, or regulation relating to defense acquisition; and

"(D) a member or employee of any authorized commission established for purposes related to defense acquisition.

"(b) REMEDIES.—(1) An officer or employee of a defense contractor who believes that such officer or employee has been subject to a reprisal prohibited by subsection (a) may file a complaint with the Secretary of Defense.

"(2)(A) Under procedures prescribed by the Secretary of Defense by regulation, the Secretary shall investigate each complaint filed under paragraph (1).

"(B) If, after an investigation under subparagraph (A), the Secretary believes there is a reasonable likelihood that a reprisal prohibited by subsection (a) has occurred, the Secretary shall provide the contractor with an opportunity to show cause why the Secretary should not order corrective action and assess penalties under subparagraph (C).

"(C) If, after considering the presentation of the contractor under subparagraph (B), the Secretary finds that a reprisal prohibited by subsection (a) has occurred, the Secretary shall—

"(i) order the contractor to take action to eliminate the adverse effect of the reprisal on the complainant; and

"(ii) assess a monetary penalty against such contractor.

"(D) The Secretary shall impose penalties, which may include monetary fines and debarment from further contracts, against any contractor who fails to comply promptly with an order of the Secretary under subparagraph (C).

"(E) The Secretary shall issue a decision on a complaint filed under paragraph (1) within 45 days of receipt of the complaint.

"(3)(A) The decision of the Secretary under paragraph (2) shall be a final agency action for purposes of chapter 7 of title 5.

"(B) Failure of the Secretary to decide on a complaint within the period provided in paragraph (2)(E) shall be deemed to be final agency action for purposes of chapter 7 of title 5.

"(C) In any action brought under chapter 7 of title 5 related to a reprisal under subsection (a), a court may assess against the defense contractor, or against the United States, reasonable attorney fees and other litigation costs reasonably incurred by an officer or employee of the contractor who substantially prevails in such action.

"(c) REGULATIONS.—The Secretary of Defense shall prescribe regulations to carry out this section (other than subsection (b)(3)). Such regulations shall provide that any firm which negotiates with the Department of Defense for a contract or competes for a Department of Defense contract thereby submits to the jurisdiction of the Secretary of Defense for purposes of this section.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2408. Contractor employees: protection from reprisal for disclosure of certain information.".

(b) INITIAL REGULATIONS.—The Secretary of Defense shall prescribe the regulations required by subsection (c) of section 2408 of title 10, United States Code, as added by subsection (a), not later than the end of the 90-day period beginning on the date of the enactment of this Act.

(c) EFFECTIVE DATE.—Section 2408 of title 10, United States Code, as added by subsection (a), shall apply with respect to any reprisal action taken on or after the date of the enactment of this Act.

SEC. 923. FEDERALLY FUNDED RESEARCH AND DEVELOPMENT CENTERS.

(a) INCREASED USE OF COMPETITIVE PROCEDURES.—Except as provided in subsection (b), the Secretary of Defense may not place work with a federally funded research and development center unless such work is within the purpose, mission, and general scope of effort of such center as established in the sponsoring agreement with such center.

(b) EXCEPTION.—This section does not apply to a federally funded research and development center that performs applied scientific research under laboratory conditions.

(c) STUDY.—The Comptroller General shall conduct a study of the national defense role of federally funded research and development centers. Such study shall consider the following:

(1) The appropriate circumstances for establishing such centers.

(2) The role presently served by such centers in the procurement process of the Department of Defense.

(3) The growth in the size of such centers during fiscal years 1982 through 1986.

(4) The validity of typical reasons given for such growth.

(5) The cost efficiency of such centers, particularly in comparison with other suppliers of similar services.

(6) The appropriateness of the exemption of contracts with such centers from the competitive procedures required by section 2304 of title 10, United States Code.

(7) The relationship of such centers to their sponsors.

(d) REPORT.—(1) The Comptroller General shall submit to Congress a report on the study required by subsection (a). Such report shall include a discussion of each of the matters listed in subsection (a).

(2) The report required by paragraph (1) shall be submitted not later than one year after the date of the enactment of this Act.

(e) LIMITATION.—No funds appropriated pursuant to authorizations in this or any other Act may be expended or obligated on or after the date of the enactment of this Act for purposes of operating a federally funded research center that was not in existence on or before June 1, 1986, until the end of the 60-day period beginning on the date that the head of an agency submits to Congress a report with respect to such center that describes the purpose, mission, and general scope of effort of such center.

SEC. 924. CONFLICT-OF-INTEREST IN DEFENSE PROCUREMENT.

(a) IN GENERAL.—(1) Chapter 141 of title 10, United States Code, is amended by inserting after section 2397a the following new sections:

"§ 2397b. Certain former Department of Defense procurement officials: limitations on employment by contractors

"(a)(1) Any person—

"(A) who is a former officer or employee of the Department of Defense or a former or retired member of the armed forces; and

"(B) who, during the two-year period preceding the person's separation from service in the Department of Defense, participated personally and substantially, and in a manner involving decisionmaking responsibilities, in a procurement function with respect to a contract through contact with the contractor,

may not accept compensation from that contractor for a period of two years following the person's separation from service in the Department of Defense.

"(2) In paragraph (1), the term 'decisionmaking responsibilities' includes the following activities with respect to a contract: approval or disapproval, or making recommendations or engaging in negotiations, with regard to a procurement function.

"(3) For purposes of paragraph (1), whether or not a person is a contractor (as defined in subsection (f)(2)) is determined as of the date of the separation from service of the officer or employee of the Department of Defense or member of the armed forces involved.

"(4) Any person who knowingly violates paragraph (1) shall be imprisoned for not more than one year and shall be subject to a fine in the amount provided in title 18.

"(5) Any person who knowingly offers or provides any compensation to another person, and who knew or should have known that the acceptance of such compensation is or would be in violation of paragraph (1), shall be imprisoned for not more than one year and shall be subject to a fine in the amount provided in title 18.

"(b)(1) This section applies only to—

"(A) civilian positions for which the rate of pay is equal to or greater than the minimum rate of pay payable for grade GS-13 of the General Schedule; and

"(B) to positions held by members of the armed forces in a pay grade of O-4 or higher.

"(2)(A) When a vacancy occurs in a sensitive civilian procurement executive position, the Secretary of Defense, with the concurrence of the Director of the Office of Government Ethics, may exempt the person appointed to fill the vacancy from the provisions of subsection (a) by reason of service in such position.

"(B) For purposes of subparagraph (A), a sensitive civilian procurement executive position is a position—

"(i) which is identified under paragraph (1);

"(ii) which is a civilian position to which a person is appointed by the President, by and with the advice and consent of the Senate; and

"(iii) with respect to which the Secretary of Defense determines that the duties inherent in the position involve personal and substantial participation in procurement functions (to the extent to which subsection (a)(1) applies) with so many contractors that implementation of subsection (a) with respect to persons serving in the position would seriously hamper the ability of the Department of Defense to obtain the services of a highly qualified person to serve in the position.

"(C) An exemption granted under this paragraph shall not apply to the extent that the person granted the exemption acts as a Government representative in the negotiation or settlement of a contract with a contractor.

"(D) Whenever the Secretary of Defense grants an exemption under this paragraph, the Secretary shall promptly submit to the Committees on Armed Services and Governmental Affairs of the Senate and the Committees on Armed Services and the Judiciary of the House of Representatives a report describing the exemption and setting forth the specific reasons for the exemption.

"(c) The Secretary of Defense shall provide to each person separated from service in the Department of Defense in a position described in subsection (b)(1) who, within the two years preceding the date of such separation, participated in a procurement function of the Department a notice with respect to this section. Such notice shall include—

"(1) a written explanation of the provisions of this section; and

"(2) the name of each contractor from whom such person is prohibited from accepting compensation under this section.

"(d) This section does not apply—

"(1) to a contract for an amount less than $100,000;

"(2) to compensation of a person by an entity that did not have a Department of Defense contract in excess of $100,000 at the time the person participated personally and substantially in a procurement function (to the extent to which subsection (a)(1) applies) with respect to a contract with that entity; or

"(3) to a contractor that was awarded contracts by the Department of Defense during the preceding fiscal year in a total amount less than $100,000.

"(e)(1) A person who is considering the propriety of accepting compensation that might place the person in violation of subsection (a) may, before acceptance of such compensation, apply to the Director of the Office of Government Ethics for advice on the applicability of this section to the acceptance of such compensation.

"(2) An application under paragraph (1) shall contain such information as the Director requires.

"(f) In this section:

"(1) The term 'compensation' includes any payment, gift, benefit, reward, favor, or gratuity—

"(A) which is provided, directly or indirectly, for services rendered; and

"(B) which is valued in excess of $250 at the prevailing market price.

"(2) The term 'contractor' means—

"(A) a person that contracts to supply the Department of Defense with goods or services; and

"(B) a person that controls, is controlled by, or is under common control with, a person described in subparagraph (A).

Such term does not include a State or local government or an organization described in section 501(c)(3) of the Internal Revenue Code of 1954 which is exempt from taxation under section 501(a) of such Code.

"(3) The term 'procurement function' includes, with respect to a contract, any function relating to—

"(A) the negotiation, award, administration, or approval of the contract;

"(B) the selection of a contractor;

"(C) the approval of changes in the contract;

"(D) quality assurance, operational and developmental testing, the approval of payment, or auditing under the contract; or

"(E) the management of the procurement program.

"(4) The term 'armed forces' does not include the Coast Guard.

"(g) For the purposes of this section and section 2397c of this title, a member or former member of the armed forces shall be considered to have been separated from service in the Department of Defense upon the member's discharge or release from active duty.

"§ 2397c. Defense contractors: requirements concerning former Department of Defense officials

"(a)(1) With respect to a contractor that during a fiscal year enters into contracts with the Department of Defense for the procurement of goods and services in amounts aggregating $100,000 or more, each contract for procurement of goods or services entered into by the Department with that contractor during the next fiscal year shall include a provision under which the contractor agrees not to provide compensation to a person if the acceptance of such compensation by such person would violate section 2397b(a)(1) of this title.

"(2) Such a contract shall also provide that if the contractor knowingly violates a contract provision required by paragraph (1) the contractor shall pay to the United States, as liquidated damages under the contract, an amount equal to the greater of—

"(A) $100,000; or

"(B) three times the compensation paid by the contractor to the person in violation of such contract provision.

"(b)(1)(A) Each contractor subject during a calendar year to a contract term described in subsection (a) shall submit to the Secretary of Defense not later than April 1 of the next year a report covering the preceding calendar year. Each such report shall list the name of each person (together with other information adequate for the Government to identify the person) who—

"(i) is a former officer or employee of the Department of Defense or a former or retired member of the armed forces; and

"(ii) was provided compensation by that contractor during the preceding calendar year, if such compensation was provided within two years after such officer, employee, or member left service in the Department of Defense.

"(B) Each such listing shall—

"(i) show each agency in which the person was employed or served on active duty during the last two years of the person's service in the Government;

"(ii) show the person's job titles during the last two years of the person's service in the Government;

"(iii) contain a full and complete description of the duties of the person during the last two years of such service; and

"(iv) contain a description of the duties (if any) that the person is performing on behalf of the contractor.

"(2) A person who knowingly fails to file a report required by paragraph (1) shall be fined not more than $10,000.

"(3) The Secretary of Defense shall review each report under paragraph (1) to assess the report for accuracy and completeness and for the purpose of identifying possible violations of paragraph (1) or section 2397b(a) of this title or of a contract provision required by subsection (a). The Secretary shall report any such possible violation to the Attorney General.

"(c)(1) The Director of the Office of Government Ethics shall have access to the reports submitted under subsection (b)(1) and shall conduct an annual random review of the reports for violations of section 2397b(a) of this title and subsections (a) and (b)(1).

"(2) Not later than October 1 of each year, the Director shall submit to Congress a report on the operation of this section. Each such report shall include the findings of the Director based on the examination of reports for the preceding calendar year.

"(d) This section does not apply to a contract for an amount less than $100,000.

"(e) The definitions set forth in section 2397b(f) of this title apply to this section.".

(2) The table of sections at the beginning of chapter 141 of title 10, United States Code, is amended by inserting after the item relating to section 2397a the following new items:

"2397b. Certain former Department of Defense procurement officials: limitations on employment by contractors.

"2397c. Defense contractors: requirements concerning former Department of Defense officials.".

(b) REPEAL.—Effective on the effective date of this section, section 921 of the Defense Procurement Improvement Act of 1985 (title IX of Public Law 99-145; 10 U.S.C. 2397a note) is repealed.

(c) EFFECTIVE DATES.—

(1) IN GENERAL.—Subject to paragraphs (1) and (2), this section and the amendments made by this section shall take effect 180 days after the date of the enactment of this Act.

(2) EFFECTIVE DATE FOR REGULATORY AUTHORITY.—Subsection (b) of section 2397b of title 10, United States Code, as added by subsection (a), shall take effect on the date of the enactment of this Act. The Secretary of Defense shall prescribe and publish in the Federal Register regulations under that subsection not later than 180 days after such date.

(3) EFFECT ON EMPLOYMENT.—(A) The amendments made by this section—

(i) do not preclude the continuation of employment that began before the effective date of this section or the acceptance of compensation for such employment; and

(ii) do not, except as provided in subparagraph (B), apply to a person whose service in the Department of Defense terminates before the effective date of this section.

(B) Subparagraph (A)(ii) does not preclude the application of the amendments made by this section to a person with respect to service in the Department of Defense by such person on or after the effective date of this section.

(4) EFFECTIVE DATE FOR REPORTING REQUIREMENT.—The first report under section 2397c(c)(2) of title 10, United States Code, as added by subsection (a), shall be submitted not later than October 1, 1987.

SEC. 925. REQUIREMENTS RELATING TO UNDEFINITIZED CONTRACTUAL ACTIONS.

(a) LIMITATION ON USE OF FUNDS FOR UNDEFINITIZED CONTRACTUAL ACTIONS.—

(1) LIMITATION ON USE OF FUNDS.—(A) On the last day of a fiscal quarter during a covered fiscal year, the amount of funds represented by undefinitized contractual actions (as determined under paragraph (3)) entered into by the Secretary of Defense (with respect to the Defense Logistics Agency) or the Secretary of a military department during the reporting period with respect to such quarter may not exceed 10 percent of the amount of funds represented by all contractual actions entered into by the Secretary during such period.

(B) If at the end of a fiscal quarter during a covered fiscal year the amount of funds represented by undefinitized contractual actions under the jurisdiction of a Secretary that were entered into during the reporting period with respect to such quarter exceeds the limit established in subparagraph (A), the Secretary may not enter into any additional undefinitized contractual actions until the end of the following quarter.

(2) QUARTERLY REPORTS TO DEFENSE COMMITTEES.—(A) During each covered fiscal year, the Secretary of Defense and the Secretaries of the military departments shall each submit to the defense committees a report at the end of each fiscal year quarter concerning—

(i) the amount of funds represented by contractual actions under the jurisdiction of the Secretary that were entered into during the reporting period with respect to the month for which the report is submitted; and

(ii) the amount of such funds represented by undefinitized contractual actions.

(B) A report required by subparagraph (A) shall be submitted not later than the end of the 45-day period beginning on the first day following the fiscal year quarter for which the report is submitted.

(C) The first reports required by subparagraph (A) shall be with respect to the fiscal year quarter ending on December 31, 1986.

(3) DETERMINATION OF AMOUNTS OF CONTRACTUAL ACTIONS.—For purposes of this section, the amount of funds represented by a contractual action shall be—

(A) the contractual price; or

(B) in the case of an undefinitized contractual action, the negotiated overall ceiling price.

(4) DEFINITIONS.—For purposes of this subsection:

(A) The term "covered fiscal year" means fiscal year 1987 or 1988.

(B) The term "defense committees" means the Committees on Armed Services and on Appropriations of the Senate and House of Representatives.

(C) The term "reporting period" means, with respect to any month of a covered fiscal year, the period beginning on the first day of such fiscal year and ending on the last day of such month.

(D) The term "Secretary concerned" means—

(i) the Secretary of Defense, with respect to matters concerning the Defense Logistics Agency; and

(ii) the Secretary of a military department, with respect to matters concerning that military department.

(E) The term "undefinitized contractual action" has the meaning given such term in section 2325(g) of title 10, United States Code (as added by section 3(a)(1)).

(b) REQUIREMENTS WITH RESPECT TO UNDEFINITIZED CONTRACTUAL ACTIONS.—

(1) IN GENERAL.—(A) Chapter 137 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2325. Undefinitized contractual actions: restrictions

"(a) IN GENERAL.—The head of an agency may not enter into an undefinitized contractual action unless—

"(1) the request to the head of the agency for authorization of the contractual action includes a description of the anticipated effect on requirements of the military department if a delay is incurred for purposes of determining contractual terms, specifications, and price before performance is begun under the contractual action; and

"(2) the contractual action provides for determination of contractual terms, specifications, and price by the earlier of—

"(A) the end of the 180-day period beginning on the date that the contractual action is initiated; or

"(B) the date on which the amount of funds obligated or expended under the contract is equal to 50 percent of the amount of the negotiated overall ceiling price.

"(b) LIMITATION ON OBLIGATION OF FUNDS.—(1) Except as provided in paragraph (2), the contracting officer for an undefinitized contractual action may not expend with respect to such contractual action an amount that is equal to more than 50 percent of the negotiated overall ceiling price until the contractual terms, specifications, and price are definitized for such contractual action.

"(2) If a contractor submits a proposal to definitize an undefinitized contractual action before an amount equal to more than 50 percent of the negotiated overall ceiling price is expended on such action, the contracting officer for such action may not expend with respect to such contractual action an amount that is equal to more than 75 percent of the negotiated overall ceiling price until the contractual terms, specifications, and price are definitized for such contractual action.

"(c) INCLUSION OF NON-URGENT REQUIREMENTS.—Requirements for spare parts and support equipment that are not needed on an urgent basis may not be included in an undefinitized contractual action for spare parts and support equipment that are needed on an urgent basis unless the head of the agency approves such inclusion as being—

"(1) good business practice; and

"(2) in the best interests of the United States.

"(d) MODIFICATION OF SCOPE.—The scope of an undefinitized contractual action under which performance has begun may not be modified unless the head of the agency approves such modification as being—

"(1) good business practice; and

"(2) in the best interests of the United States.

"(e) ALLOWABLE PROFIT.—The head of an agency shall ensure that the profit allowed on an undefinitized contractual action for which the final price is negotiated after a substantial portion of the performance required is completed reflects—

"(1) the reduced cost risk of the contractor with respect to costs incurred during performance of the contract before the final price is negotiated; and

"(2) the reduced cost risk of the contractor with respect to costs incurred during performance of the remaining portion of the contract.

"(f) APPLICABILITY.—This section does not apply to the Coast Guard or the National Aeronautics and Space Administration.

"(g) DEFINITION.—In this section, the term 'undefinitized contractual action' means a new procurement action entered into by the head of an agency for which the contractual terms, specifications, or price are not agreed upon before performance is begun under the action.".

(B) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2325. Undefinitized contractual actions: restrictions.".

(2) EFFECTIVE DATE.—Section 2325 of title 10, United States Code (as added by subsection (a)(1)), applies to undefinitized contractual actions that are entered into after the end of the 30-day period beginning on the date of the enactment of this Act.

SEC. 926. DEFENSE ACQUISITION CORPS.

(a) IN GENERAL.—Part II of subtitle A of title 10, United States Code, is amended by inserting after chapter 83 the following new chapter:

"CHAPTER 84—DEFENSE ACQUISITION CORPS

"Sec.
"1611. Establishment.
"1612. Appointments.

"§ 1611. Establishment

"(a) ESTABLISHMENT.—There is in the Department of Defense a Defense Acquisition Corps consisting of acquisition-related positions in the Office of the Secretary of Defense, the military departments, and the Defense Agencies specified in regulations prescribed by the Secretary of Defense. The head of the Defense Acquisition Corps is the Under Secretary of Defense for Acquisition.

"(b) NUMBER.—The number of Defense Acquisition Corps positions in a military department shall be determined by the Secretary of Defense.

"§ 1612. Appointments

"The Secretary of Defense shall make appointments to the Defense Acquisition Corps from the best-qualified military personnel. The qualifications of such personnel shall be established based on levels of education, experience, and training and performance on examinations.".

(b) COMPENSATION AND PERSONNEL MANAGEMENT INITIATIVE.—

(1) IN GENERAL.—The Secretary of Defense shall develop a plan for a compensation and personnel management initiative to enhance the professionalism of military personnel in the Defense Acquisition Corps.

(2) REPORT.—The Secretary shall submit to Congress a report describing the plan developed as required by paragraph (1) not later than April 15, 1987.

(c) CLERICAL AMENDMENT.—The tables of chapters at the beginning of subtitle A of such title and at the beginning of part II of such subtitle are each amended by inserting after the item relating to chapter 83 the following new item:

"84. Defense Acquisition Corps..... 1611".

SEC. 927. DEFENSE ACQUISITION UNIVERSITY.

(a) ESTABLISHMENT.—The Secretary of Defense shall establish by regulation a Defense Acquisition University that includes acquisition-related defense schools in existence on the date of the enactment of this Act.

(b) REGULATIONS.—The regulations establishing the Defense Acquisition University shall include the following:

(1) ACQUISITION SPECIALTIES.—Provision for separate schools within the University with respect to various acquisition specialties, including contracting, logistics, quality, program management, systems engineering, production, and manufacturing.

(2) ADMISSION STANDARDS.—Standards and procedures for admission to the University.

(3) CURRICULUM REQUIREMENT.—A requirement that each student at the University successfully complete a central curriculum of contracting and acquisition methodology.

(4) ASSOCIATED PROGRAMS.—Provision for the education of members of the Defense Acquisition Corps through programs offered in conjunction with or in lieu of attendance at the University.

SEC. 928. BUDGETING FOR DEFENSE INFLATION.

(a) IN GENERAL.—(1) Chapter 131 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2214. Budgeting and accounting for inflation

"(a) INFLATION IN DEFENSE BUDGETING.—In preparing the budget of the Department of Defense to be included in the budget the President submits to Congress under section 1105 of title 31 for any fiscal year, the Secretary of Defense shall set out separately for each budget account the portion of the amount requested for that account that is required to offset estimated inflation.

"(b) LIMITATION ON AN AMOUNT REQUESTED TO OFFSET ESTIMATED INFLATION.—The total amount requested in such budget as required to offset estimated inflation on purchases of property and services by the Department of Defense (other than purchases of fuel and foreign currency and amounts requested for pay and retirement benefits) may not exceed the amount that would be required to offset inflation on such purchases were inflation to be estimated at the rates projected in the President's budget for the gross national product deflator.

"(c) COMPARISONS TO PRIOR FISCAL YEARS.—In preparing such budget, the Secretary shall set out separately for each budget account a comparison, for the fiscal year during which the budget is submitted and the most recently completed fiscal year, of the portions of the amounts appropriated for such accounts that were required and are currently estimated to be required to offset inflation.

"(d) IDENTIFICATION OF INFLATION INDEXES.—If the amount required to offset inflation for any budget account in any fiscal year shown in such budget (other than purchases and amounts excepted in subsection (b)) is based on actual or projected rates of inflation different than the actual or projected rates for the gross national product deflator set forth in such budget, the Secretary shall include in the budget a description of the inflation index used and a justification for its use, together with an estimate of the amount required to offset inflation for such account using the actual and projected rates for the gross national product deflator set forth in such budget.

"(e) PROGRAM ADJUSTMENTS.—If any program adjustment is proposed to or made by Congress with respect to the amount requested or made available for any budget account, the Secretary shall identify the effect of such adjustment on that portion of such amount that was required to offset inflation.

"(f) INFLATION FUND.—(1) There is established in the Treasury a fund to be known as the 'Defense Inflation Fund'. The fund shall be administered by the Secretary of Defense. As part of the budget of the Department of Defense to be included in the President's budget submitted to Congress, the Secretary shall report—

"(A) the balance then in the fund; and

"(B) the amounts estimated to be paid from the fund to offset inflation in each budgetary account.

"(2) Amounts appropriated for a fiscal year to cover amounts required to offset inflation in major defense acquisition programs shall be appropriated to the fund.

"(3) Subject to paragraph (4), amounts in the fund shall be used by the Secretary of Defense without fiscal year limitation to meet costs for inflation—

"(A) under contracts subject to section 2408 of this title, to the extent that those costs are authorized to be paid by contract provisions required by that section; and

"(B) for that portion of spending for major defense acquisition programs that is not made under contracts subject to section 2408 of this title, in accordance with procedures approved by the Secretary of Defense.

"(4) Amounts in the fund may not be used to meet the costs of changes in contract prices due to changes in the specification of the property or services being purchased.

"(5) In this subsection, the term 'major defense acquisition program' means a Department of Defense procurement program—

"(A) that is designated by the Secretary of Defense as a major defense acquisition program; or

"(B) that is estimated by the Secretary of Defense to require an eventual total expenditure for procurement of more than $1,000,000,000 (based on fiscal year 1980 constant dollars).".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2214. Budgeting and accounting for inflation.".

(b) EFFECTIVE DATE.—Section 2214 of title 10, United States Code, as added by subsection (a), shall take effect with respect to fiscal year 1988.

SEC. 929. INFLATION ADJUSTMENT CLAUSES IN MAJOR PROCUREMENT CONTRACTS.

(a) CONTRACT CLAUSE REQUIRED.—(1) Chapter 141 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2408. Major procurement contracts: economic price adjustment clauses

"(a) REQUIRED CONTRACT CLAUSES.—The Secretary of Defense shall require that each major procurement contract include an economic price adjustment clause providing for adjustments in contract prices to compensate for inflation over the life of the contract.

"(b) LIMITATIONS.—An economic price adjustment clause included in a contract pursuant to subsection (a)—

"(1) may not be based on an index or indices measuring inflation for a sector of the economy in which purchases, or wages paid, by the contractor constitute more than 20 percent of total purchases or wages paid;

"(2) may not be based on an index or indices measuring inflation for a sector of the economy in which purchases for national security or military purposes, or wages paid by contractors with the Department of Defense or their subcontractors, are predominant, unless the Committees on Armed Services of the Senate and House of Representatives have been notified in writing of a proposal to base a clause on such an index or indices and 30 days of continuous session of Congress have expired following the date such notice is received; and

"(3) may not permit to be included as inflation under the contract a change in contract prices due to changes in the specifications of the property or service being purchased, except that if any such change in prices becomes effective, the contract may provide for adjustment in the change in price to compensate for inflation over the remaining life of the contract.

"(c) DEFINITION.—In this section, the term 'major procurement contract' means a contract (other than a cost reimbursement contract) for the purchase of property or services awarded after using procedures other than sealed bid procedures which is performable over a period greater than two years and which—

"(1) is a prime contract under a major defense acquisition program for the purposes of section 2214 of this title; or

"(2) is an associate or Government-furnished equipment contract under such a major defense acquisition program which is one of the six largest contracts under such program in dollar amount and which is for an amount in excess of $2,000,000.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2408. Major procurement contracts: economic price adjustment clauses.".

(b) EFFECTIVE DATE.—Section 2408 of title 10, United States Code, as added by subsection (a), shall apply with respect to contracts entered into after the end of the 180-day period beginning on the date of the enactment of this Act.

SEC. 930. GAO REPORT ON IMPLEMENTATION OF DEFENSE BUDGETING FOR INFLATION.

The Comptroller General shall periodically report to Congress on implementation by the Department of Defense of the requirements of sections 2214 and 2408 of title 10, United States Code, as added by the amendments made by sections 928(a) and 929(a). Each such report shall include any recommendations of the Comptroller General for further legislative action.

SEC. 931. GAO REPORT ON DEFENSE FINANCIAL MANAGEMENT SYSTEM.

(a) REPORT.—The Comptroller General shall submit to Congress a report setting forth a proposed financial management system for the Department of Defense. The proposed financial management system shall be designed to reconcile—

(1) funds appropriated or otherwise made available to the Department of Defense, with

(2) funds obligated by the Department.

(b) DEADLINE FOR REPORT.—The report required by subsection (a) shall be submitted not later than the end of the six-month period beginning on the date of the enactment of this Act.

SEC. 932. CODIFICATION OF REQUIREMENT FOR PERIODIC REPORTS ON UNOBLIGATED BALANCES.

(a) PERIODIC REPORTS ON UNOBLIGATED BALANCES.—(1) Chapter 131 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2215. Reports on unobligated balances

"(a) REQUIRED REPORTS.—The Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives reports (at the times specified under subsection (d)) containing an estimate of the amount of funds in each appropriation account of the Department of Defense that at the time of the report—

"(1) is available for obligation; and

"(2) is in excess of the amount needed to carry out the programs for which the funds were appropriated.

"(b) MATTERS TO BE INCLUDED.—Each report under subsection (a) shall include, set forth separately for each account, estimates of amounts attributable to—

"(1) inflation savings;

"(2) foreign currency savings;

"(3) excess working capital fund cash; and

"(4) all other savings.

"(c) UNANTICIPATED COST INCREASES.—Each such report shall also identify unanticipated cost increases resulting from adverse economic trends.

"(d) SUBMISSION OF REPORTS.—A report under this section shall be submitted to Congress each year—

"(1) with the President's budget for the next fiscal year;

"(2) with the April Budget Update; and

"(3) with the Mid-Session Budget Review.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2215. Reports on unobligated balances.".

(b) REPEAL OF SOURCE LAW.—Section 1407 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 745), is repealed.

SEC. 933. CERTIFICATION OF ALLOWABLE INDIRECT COSTS.

(a) STRENGTHENING OF CERTIFICATION REQUIREMENT.—Subsection (h) of section 2324 of title 10, United States Code, is amended to read as follows:

"(h)(1) A contractor that submits a proposal for interim or final settlement of indirect costs applicable to a covered contract shall be required to certify that all indirect costs included in the proposal are allowable. Any such certification shall be in the form prescribed in paragraph (2).

"(2) The certification required by paragraph (1) is as follows:

"'CERTIFICATE OF OVERHEAD COSTS

"'This is to certify that:

"'1. I have reviewed the indirect cost proposal submitted with this certification.

"'2. All costs included in this proposal to establish (billing) (final indirect cost rates) for (identify period) are allowable in accordance with the requirements of contracts to which they apply and with the cost principles of the Department of Defense applicable to those contracts.

"'3. This proposal does not include any costs which are unallowable under applicable cost principles of the Department of Defense, such as (without limitation): advertising and public relations costs (contributions and donations), entertainment costs, fines and penalties, lobbying costs, defense of fraud proceedings, and goodwill.

"'4. All costs included in this proposal benefit the Department of Defense and are demonstrably related to or necessary for the performance of each Department of Defense contract covered by the proposal.

"'I declare under penalty of perjury that the foregoing is true and correct.'.

"(3) Such certification shall identify the contractor and be signed by the chief financial officer of the contractor.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to contracts entered into after the end of the 90-day period beginning on the date of the enactment of this Act.

SEC. 934. COMPETITIVE PROTOTYPE STRATEGY REQUIREMENT FOR MAJOR DEFENSE ACQUISITION PROGRAMS.

(a) ESTABLISHMENT OF REQUIREMENT.—

(1) IN GENERAL.—Chapter 139 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2362. Competitive prototype strategy requirement for major defense acquisition programs

"(a) COMPETITIVE PROTOTYPE STRATEGY REQUIREMENT.—Except as provided in subsection (c), the Secretary of Defense shall require the use of a competitive prototype program strategy in the development of a major weapons system (or a subsystem of such system).

"(b) QUALIFYING STRATEGIES.—A strategy qualifies as a competitive prototype strategy if it—

"(1) requires that contracts be entered into with not less than two contractors, using the same combat performance requirements, for the competitive design and manufacture of a prototype system or subsystem for operational test and evaluation;

"(2) requires that all systems or subsystems developed under contracts described in paragraph (1) be tested in a comparative side-by-side test that is designed to—

"(A) reproduce combat conditions; and

"(B) determine which system or subsystem is most effective under such conditions; and

"(3) requires that each contractor that develops a prototype system or subsystem, before the testing described in subparagraph (B) is begun, submit—

"(A) bids for full-scale engineering development;

"(B) production estimates; and

"(C) if appropriate, fixed-price or not-to-exceed production price options.

"(c) EXCEPTION.—Subsection (a) shall not apply to the development of a major weapons system (or subsystem of such system) after—

"(1) the Secretary submits to Congress—

"(A) written notification that use of a competitive prototype program strategy is not practicable with respect to such system or subsystem; and

"(B) a report that fully explains why use of such a strategy is not practicable, including—

"(i) detailed cost estimates comparing the total program cost of the competitive prototype strategy with the total program cost of the non-competitive prototype strategy; and

"(ii) a demonstration that the total program cost of the competitive prototype strategy is significantly greater than the total program cost of the non-competitive prototype strategy; and

"(2) 30 days of continuous session of Congress elapse after the Secretary submits the notification and report required by paragraph (1).

"(d) DEFINITIONS.—In this section:

"(1) MAJOR WEAPONS SYSTEM.—The term 'major weapons system' means a major weapons system that is acquired under a program that is a major defense acquisition program.

"(2) MAJOR DEFENSE ACQUISITION PROGRAM.—The term 'major defense acquisition program' means a Department of Defense acquisition program that—

"(A) is not a highly sensitive classified program (as determined by the Secretary of Defense); and

"(B) that is estimated by the Secretary of Defense to require an eventual total expenditure for research, development, test, and evaluation of more than $200,000,000 (based on fiscal year 1980 constant dollars).".

(2) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2362. Competitive prototype strategy requirement for major defense acquisition programs.".

(b) EFFECTIVE DATE.—Section 2362 of title 10, United States Code (as added by subsection (a)(1)), shall apply to major weapons systems (as defined in subsection (c)(1) of such section) that enter the advanced development stage after September 30, 1986.

SEC. 935. RELEASE OF TECHNICAL DATA.

(a) IN GENERAL.—Chapter 137 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2326. Release of technical data

"(a) IN GENERAL.—

"(1) RELEASE OF DATA.—The Secretary of Defense shall, if required to release technical data under section 552 of title 5, release technical data to a person requesting such a release if such person pays all reasonable costs attributable to search and duplication.

"(2) REGULATIONS.—The Secretary of Defense shall prescribe regulations, pursuant to notice and receipt of public comment, specifying a uniform schedule of fees under this section. The fees established in such schedule may not exceed comparable fees established under section 9701 of title 31.

"(b) DISPOSITION OF COSTS.—Amounts collected under this section shall be retained by the collecting agency and shall be used to reimburse the costs incurred in complying with requests for technical data.

"(c) WAIVER.—The Secretary of Defense shall waive the payment of costs required by subsection (a) which are in addition to costs under section 552 of title 5 if—

"(1) the request is made by a citizen of the United States or a United States corporation, and such citizen or corporation certifies that the technical data requested is required to enable such citizen or corporation to submit an offer or determine whether it is capable of submitting an offer to provide the product to which the technical data relates to the United States or a contractor with the United States;

"(2) the release of technical data is requested in order to comply with the terms of an international agreement; or

"(3) the Secretary determines, in accordance with section 552(a)(4)(A) of title 5, that such a waiver is in the interests of the United States.

"(d) TECHNICAL DATA.—In this section, the term 'technical data' means formulae, designs, drawings, blueprints, technical manuals, or computer software.".

(2) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2326. Release of technical data.".

(b) EFFECTIVE DATE.—The amendments made by this section shall take effect at the end of the 90-day period beginning on the date of the enactment of this Act.

SEC. 936. THRESHOLDS FOR CERTAIN REQUIREMENTS RELATING TO SMALL PURCHASES.

(a) NOTICE THRESHOLDS.—

(1) SMALL BUSINESS ACT.—Subparagraph (A) of section 8(e)(1) of the Small Business Act (15 U.S.C. 637(e)(1)(A)) is amended—

(A) by striking out "$10,000" each place such term appears in subparagraph (A) and inserting in lieu thereof "$25,000";

(B) by striking out "or" at the end of clause (i);

(C) by striking out the comma at the end of clause (ii) and inserting in lieu thereof "; or"; and

(D) by inserting after clause (ii) the following new clause:

"(iii) solicit bids or proposals for a contract for property or services for a price expected to exceed $10,000, if there is not a reasonable expectation that not less than two offers will be received from responsive and responsible offerors,".

(2) OFFICE OF FEDERAL PROCUREMENT POLICY ACT.—Subparagraph (A) of section 18(a)(1) of the Office of Federal Procurement Policy Act (41 U.S.C. 416(a)(1)(A)) is amended—

(A) by striking out "$10,000" each place such term appears in subparagraph (A) and inserting in lieu thereof "$25,000";

(B) by striking out "or" at the end of clause (i);

(C) by striking out the comma at the end of clause (ii) and inserting in lieu thereof "; or"; and

(D) by inserting after clause (ii) the following new clause:

"(iii) solicit bids or proposals for a contract for property or services for a price ex-

pected to exceed $10,000, if there is not a reasonable expectation that not less than two offers will be received from responsive and responsible offerors,".

(b) SMALL BUSINESS SET-ASIDES.—The first sentence of subsection (j) of section 15 of the Small Business Act (15 U.S.C. 644(j)) is amended by striking out "$10,000" and inserting in lieu thereof "25,000".

SEC. 937. SUBCONTRACTOR INFORMATION TO BE PROVIDED TO PROCUREMENT OUTREACH CENTERS.

(a) CONTRACTORS TO FURNISH INFORMATION.—(1) Chapter 142 of title 10, United States Code, is amended—

(A) by redesignating section 2416 as section 2417; and

(B) by inserting after section 2415 the following new section:

"§ 2416. Subcontractor information

"(a) The Secretary of Defense shall require that any defense contractor in any year shall provide to an eligible entity with which the Secretary has entered into a cooperative agreement under this chapter, on the request of such entity, the information specified in subsection (b).

"(b) Information to be provided under subsection (a) is a listing of the name of each appropriate employee of the contractor who has responsibilities with respect to entering into contracts on behalf of such contractor that constitute subcontracts of contracts being performed by such contractor, together with the business address and telephone number and area of responsibility of each such employee.

"(c) A defense contractor need not provide information under this section to a particular eligible entity more frequently than once a year.

"(d) In this section, the term 'defense contractor', for any year, means a person awarded a contract with the Department of Defense in that year for an amount in excess of $100,000.".

(2) The table of sections at the beginning of such chapter is amended by striking out the item relating to section 2416 and inserting in lieu thereof the following new items:

"2416. Subcontractor information.
"2417. Regulations.".

(b) EFFECTIVE DATE.—Section 2416 of title 10, United States Code, as added by subsection (a), shall take effect on January 1, 1987.

SEC. 938. PRIORITY FOR DOMESTIC FIRMS WITH RESPECT TO DEFENSE CONTRACTS.

(a) ESTABLISHMENT OF PRIORITY.—

(1) IN GENERAL.—Chapter 141 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2408. Contracts: priority for domestic firms

"(a) IN GENERAL.—The Secretary concerned shall award a contract to a domestic firm that, under the use of competitive procedures, would be awarded to a foreign firm if—

"(1) when completely assembled, not less than 50 percent of the final product of the domestic firm would be domestically produced; and

"(2) the difference between the bids submitted by the foreign and domestic firms is not more than five percent.

"(b) WAIVER.—This section does not apply to the extent to which the Secretary of Defense determines that—

"(1) such application would not be in the public interest; or

"(2) compelling national security considerations require otherwise.".

(2) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2408. Contracts: priority for domestic firms.".

(b) EFFECTIVE DATE.—Section 2408 of title 10, United States Code (as added by subsection (a)), shall apply to contracts for which solicitations for bids are issued after the date of the enactment of this Act.

SEC. 939. LIMITATION ON AVAILABILITY OF EXCESS FUNDS.

(a) UNNECESSARY FUNDS.—The Secretary of Defense may not obligate or expend amounts appropriated to the Secretary, for any program, project, or activity, that are in excess of the amount needed to carry out the program, project, or activity for which such amounts were appropriated. Excess amounts that may not be obligated or expended are—

(1) inflation savings;

(2) excess working capital fund costs;

(3) foreign currency savings; and

(4) all other savings.

(b) FAILURE TO OBLIGATE FUNDS WITHIN THREE YEARS.—The Secretary of Defense may not obligate amounts appropriated to the Secretary for any program, project, or activity, for which a contract has not been entered into after the end of the three-year period beginning on the date that such amounts become available for obligation for such program, project, or activity.

TITLE X—GENERAL PROVISIONS

PART A—FINANCIAL MATTERS

SEC. 1001. TRANSFER AUTHORITY.

(a) AUTHORITY TO TRANSFER AUTHORIZATIONS.—(1) Upon determination by the Secretary of Defense that such action is necessary in the national interest, the Secretary may transfer amounts of authorizations made available to the Department of Defense in this division between any such authorizations (or any subdivisions thereof). Amounts of authorizations so transferred shall be merged with and be available for the same purposes as the authorization to which transferred.

(2) The total amount of authorizations that the Secretary of Defense may transfer under the authority of this section may not exceed $2,000,000,000.

(b) LIMITATIONS.—The authority provided by this section to transfer authorizations—

(1) may only be used to provide authority for items that have a higher priority than the items from which authority is transferred; and

(2) may not be used to provide authority for an item that has been denied authorization by Congress.

(c) EFFECT ON OBLIGATION LIMITATIONS.—A transfer made under the authority of this section—

(1) increases by the amount of the transfer the obligation limitation provided in this division on the account (or other amount) to which the transfer is made; and

(2) decreases by the amount of the transfer the obligation limitation provided in this division on the account (or other amount) from which the transfer is made.

(d) NOTICE TO CONGRESS.—The Secretary of Defense shall promptly notify Congress of transfers made under the authority of this section.

SEC. 1002. DEBT COLLECTION.

(a) IN GENERAL.—Chapter 165 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 2780. Debt collection

"(a)(1) Subject to paragraph (2), the Secretary of Defense shall enter into one or more contracts with a person for collection services to recover indebtedness owed to the United States Government (arising out of activities related to Department of Defense) that is delinquent by more than three months.

"(2) The authority of the Secretary to enter into a contract under this section for any fiscal year is subject to the availability of appropriations.

"(3) Any such contract shall provide that the person submit to the Secretary a status report on the person's success in collecting such debts at least once each six months. Section 3718 of title 31 shall apply to any such contract, to the extent not inconsistent with this subsection.

"(b) The Secretary shall disclose to consumer reporting agencies, in accordance with paragraph (1) of section 3711(f) of title 31, information concerning any debt described in subsection (a) of more than $100 that is delinquent by more than 31 days.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2780. Debt collection.".

SEC. 1003. LIMITATION ON CERTAIN SPENDING AUTHORITY.

A provision of this Act (including an amendment made by this Act) under which the United States is obligated to make payments to a person or government who meets the requirements established by law for such payments may only be construed as providing authority to make such payments if the budget authority for such payments is provided for in advance by appropriation Acts.

PART B—SPECIAL OPERATIONS MATTERS

SEC. 1011. ESTABLISHMENT OF NATIONAL SPECIAL OPERATIONS AGENCY.

(a) SHORT TITLE.—This section may be cited as the "Dan Daniel Special Operations Forces Act".

(b) AGENCY CHARTER.—Chapter 8 of title 10, United States Code, is amended—

(1) by redesignating section 191 as section 192; and

(2) by inserting after the table of sections the following new section:

"§ 191. National Special Operations Agency

"(a) ESTABLISHMENT.—(1) There is hereby established in the Department of Defense the National Special Operations Agency (hereinafter in this section referred to as the 'Agency'). The head of the Agency shall be a Director, who shall be appointed by the President, by and with the advice and consent of the Senate. The Director may not be an officer of the armed forces on the active-duty list.

"(2) The Director reports directly to the Secretary of Defense and has rank in the Department of Defense equivalent to that of an Assistant Secretary of Defense. The Director is the principal adviser to the Secretary of Defense and the Chairman of the Joint Chiefs of Staff for all matters pertaining to special operations forces and activities.

"(b) AUTHORITY OF DIRECTOR.—Subject to the authority, direction, and control of the President and the Secretary of Defense, the Director—

"(1) shall exercise command and operational control of all special operations forces (including reserve component forces) of the Department of Defense (other than those forces assigned or allocated to a unified combatant command); and

"(2) shall be responsible for—

"(A) all training, exercises, plans, and doctrine of the Department of Defense relating to special operations, including professional military education and preparation for joint staff assignments; and

"(B) all special operations activities (including special operations missions) assigned to elements of the Department of Defense by the President or Secretary of Defense.

"(c) DEPUTY DIRECTORS.—(1) There shall be not less than three Deputy Directors of the Agency. The Deputy Directors shall include—

"(A) a Deputy Director for Policy, who shall be a civilian;

"(B) a Deputy Director for Programs, who may be a civilian or an officer on the active-duty list; and

"(C) a Deputy Director for Operations, who shall be an officer on the active-duty list and who shall serve in such position in a grade above major general or rear admiral, if appointed to such grade by the President for service in such position under section 601 of this title.

"(2) Deputy Directors shall be selected by the Director, except that officers on the active-duty list shall be selected by the Director in accordance with procedures approved by the Secretary of Defense.

"(d) ASSIGNED FORCES.—(1) Notwithstanding any other provision of law, the Secretary of Defense shall provide that all special operations forces shall be assigned to the Agency. The Secretary may assign or allocate such forces from the Agency to a combatant command.

"(2) Forces assigned to the Agency shall be organized as the Joint Special Operations Command. The Deputy Director for Operations of the Agency shall be the commander of the Joint Special Operations Command.

"(e) THEATER SPECIAL OPERATIONS FORCES.—(1) The Director shall assign to each unified combatant command an officer to serve as the theater special operations commander. Such officer shall also be the liaison of the Agency to the commander of the command. The theater special operations commander assigned to a unified combatant command is under the command of the commander of that command, and the assignment of an officer to a position as theater special operations commander is subject to the approval of the commander of the command.

"(2) The commander of a unified combatant command exercises command and operational control of special operations forces assigned or allocated to that command. Except in the case of elements of the Navy assigned to fleet operations, such operational control shall be exercised through the theater special operations commander.

"(f) BUDGET MATTERS.—(1) The Secretary of Defense shall provide that the budget justification documents of the Department of Defense for any fiscal year shall be prepared so that the presentation of major force programs in those documents sets out funding for all activities and elements of the Agency as a separate major force program category.

"(2) The responsibility for preparation, justification, and execution of budgets for the Agency shall be vested solely in the Director. The Director shall carry out such functions in accordance with guidance furnished by the Secretary of Defense and, in carrying out such functions, shall consider the views and recommendations of the commanders of the combatant commands.

"(g) PERSONNEL.—The Director shall have the authority to select, train, and assign military and civilian personnel of the Agency (including the personnel of forces assigned to the Agency).

"(h) UNAUTHORIZED ACTIVITIES.—This section does not constitute authority to conduct any activity which, if carried out as an intelligence activity by the Department of Defense, would require—

"(1) a finding under section 662 of the Foreign Assistance Act of 1961 (22 U.S.C. 2422); or

"(2) a notice to the intelligence committees under section 501(a)(1) of the National Security Act of 1947 (50 U.S.C. 413).

"(i) REGULATIONS.—The Secretary of Defense shall prescribe regulations for the activities of the Agency. Those regulations shall include provisions authorizing the Director to provide for operational security of special operations forces and activities. The regulations may not authorize the Agency to engage in clandestine foreign intelligence collection or (except in time of war) in covert action activities.

"(j) SPECIAL OPERATIONS FORCES DEFINED.—(1) Except as provided in paragraph (2), the term 'special operations forces', for the purposes of this section, means those forces of the armed forces that—

"(A) are identified as core forces or as augmenting forces in the Joint Chiefs of Staff Joint Strategic Capabilities Plan, Annex E, dated December 17, 1985;

"(B) are described in the Terms of Reference and Conceptual Operations Plan for the Joint Special Operations Command, as in effect on April 1, 1986; or

"(C) are designated as special operations forces by the Secretary of Defense.

"(2) Subject to paragraph (3), the term 'special operations forces' does not include forces identified, described, or designated under paragraph (1) that the Director (in conjunction with the Chairman of the Joint Chiefs of Staff) determines—

"(A) are augmenting forces (rather than core forces); and

"(B) are not necessary to the performance of nonpriority special operations activities.

"(3) When required by the Director, forces described in paragraph (2)—

"(A) shall immediately be assigned or otherwise made available to the Director; and

"(B) shall be considered to be special operations forces for the purposes of this section. The Secretary of Defense shall ensure that this paragraph is implemented so as to give the Director clear and unambiguous authority under the preceding sentence.

"(k) SPECIAL OPERATIONS ACTIVITIES DEFINED.—In this section, the term 'special operations activities' includes each of the following insofar as it relates to special operations:

"(1) Direct action.

"(2) Strategic reconnaissance.

"(3) Unconventional warfare.

"(4) Foreign internal defense.

"(5) Civil affairs.

"(6) Psychological operations.

"(7) Counterterrorism.

"(8) Drug interdiction (including coordination with other Government agencies).

"(9) Humanitarian assistance.

"(10) Theater search and rescue.

"(11) Such other matters as may be specified by the President or Secretary of Defense.".

(c) CLERICAL AMENDMENTS.—The table of sections at the beginning of such chapter is amended—

(1) by redesignating the item relating to section 191 to conform to the redesignation made by paragraph (1)(A); and

(2) by inserting before such item the following new item:

"191. National Special Operations Agency.".

(d) IMPLEMENTATION.—

(1) DIRECTOR.—The nomination of an individual for appointment as Director of the National Special Operations Agency shall be made by the President not later than 30 days after the date of the enactment of this Act.

(2) AGENCY.—The establishment of the National Special Operations Agency, including the assignment of forces to the Agency, shall be completed not later than six months after the date of the enactment of this Act.

(3) INITIAL FUNDING.—The Secretary of Defense may spend unobligated funds appropriated to the Department of Defense for fiscal years before fiscal year 1987 in such sums as necessary in order to carry out this section and section 191 of title 10, United States Code, as added by subsection (a).

(4) PERSONNEL.—The Secretary of Defense shall provide that the initial assignment of personnel to the Agency (including military and civilian personnel) shall, to the maximum extent practicable, be made from among personnel assigned to the headquarters staffs of the Department of Defense, military departments, and military services (including the Joint Staff) whose functions are rendered redundant by the establishment of the Agency.

SEC. 1012. SPECIAL OPERATIONS AIRLIFT READINESS.

(a) CONFIGURATION CONTROL OF SPECIAL OPERATIONS AIRCRAFT.—Funds appropriated or otherwise made available to the Department of Defense for fiscal year 1987 for the development, modification, or procurement of special operations and combat rescue aircraft shall be obligated and expended subject to the following requirements:

(1) PAVE LOW MODIFICATION.—The Secretary of the Air Force shall develop a plan that provides that, during the modification of the airframes for the HH-53H helicopters, there will be a transition from the Pave Low III Enhanced configuration to the Pave Low IV (HH-60H Nighthawk) configuration.

(2) HH-60A/MH-60X DEVELOPMENT.—The Secretary of Defense shall designate the Air Force as the Executive Agent—

(A) for the development of a joint-service HH-60A/MH-60X aircraft variant for special operations and combat rescue missions; and

(B) to ensure maximum commonality and economic procurement for an avionics suite to be adapted to the variant airframe selected by the Navy for those missions.

(3) MH-47E DEVELOPMENT.—The Secretary of the Army shall carry out further development of the MH-47E special operations variant of the CH-47D helicopter—

(A) subject to full and open competition; and

(B) so that such helicopter is configured to maximum commonality between a MH-47E and the joint-service HH-60A/MH-60X and Pave Low IV aircraft, as provided in paragraphs (1) and (2).

(4) CV-22A OSPREY AND MC-130H SYSTEMS.—The Secretary of the Navy shall carry out development of the special operations variant of the CV-22A Osprey tilt-rotor aircraft so that—

(A) such development is expedited to the maximum extent possible; and

(B) the configuration of such aircraft is conformed to the maximum extent possible with that of the aircraft referred to in paragraphs (1), (2), and (3) and the MC-130H Combat Talon II aircraft currently in production.

(b) AIR FORCE HH-60A AIRCRAFT.—The Secretary of the Air Force shall retain the initial HH-60A test aircraft in its existing configuration and shall make such aircraft available as necessary for joint-service testing purposes until sufficient numbers of aircraft under the programs referred to in paragraphs (1) through (4) of subsection (a) have been produced in a common configuration to make continued use of such HH-60A aircraft for such testing purposes unnecessary. At such time, such aircraft may be assigned for operational use in an Air Force special operations/combat rescue squadron.

PART C—REPORTS

SEC. 1021. REPORT ON CHEMICAL WEAPONS DEMILITARIZATION PROGRAM.

(a) REPORT REQUIREMENT.—The Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a report on the chemical weapons demilitarization program required by section 1412 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 747). The report shall describe—

(1) methods for carrying out such program that would optimize safety considerations; and

(2) methods for carrying out such program that would optimize cost-effectiveness considerations.

(b) DEADLINE FOR REPORT.—The report required by subsection (a) shall be submitted not later than February 1, 1987.

SEC. 1022. REPORT ON ARMY DEBT COLLECTION.

(a) REPORT REQUIREMENT.—The Secretary of the Army shall submit to Congress a report on actions of the Secretary relating to debt collection taken as a result of the identification of problems with such debt collection in the report of the General Accounting Office entitled "Debt Collection", dated December 13, 1985.

(b) DEADLINE FOR REPORT.—The report required by subsection (a) shall be submitted not later than the end of the 60-day period beginning on the date of the enactment of this Act.

SEC. 1023. REPORT ON LANDING AREA FOR AV-8B HARRIER AIRCRAFT ON IOWA CLASS BATTLESHIP.

Within six months after the date of the enactment of this Act, the Secretary of Defense shall submit to Congress a report on the feasibility and benefits of removing the rear turret off an Iowa class battleship to create a landing area for AV-8B Harrier aircraft.

SEC. 1024. ANNUAL REPORT ON SOVIET ABM TREATY COMPLIANCE.

Not later than February 1, 1987, and not later than February 1 of each following year, the Secretary of Defense shall submit to the Congress a report (in both classified and unclassified versions) on the compliance of the Soviet Union with the 1972 Treaty on the Limitation of Anti-Ballistic Missile Systems. The report shall include—

(1) the findings of the Secretary with respect to such compliance during the previous year including, if necessary, the military implications of, and possible United States military responses to, violations by the Soviet Union of such treaty; and

(2) any additional information the Secretary considers necessary to keep the Congress currently informed about such compliance.

SEC. 1025. REPORT ON EFFORTS TO INCREASE DEFENSE CONTRACT AWARDS TO INDIAN-OWNED BUSINESS.

(a) REPORT.—The Secretary of Defense shall submit to Congress a report on the efforts by the Department of Defense during fiscal year 1986 to increase defense contract awards to Indian-owned businesses in accordance with the memorandum of understanding between the Department of Defense and the Small Business Administration of September 29, 1983. Such report shall include, to the maximum extent practicable, any data regarding the number and value of prime contracts awarded by the Department of Defense during such fiscal year to such businesses.

(b) DEADLINE.—The report required by subsection (a) shall be submitted no later than March 31, 1987.

(c) INDIAN-OWNED BUSINESS DEFINED.—For purposes of this section, the term "Indian-owned business" means a firm owned and controlled by American Indians, including a tribally owned for-profit entity.

SEC. 1026. REPORT ON GEOGRAPHIC DISTRIBUTION OF DEFENSE CONTRACTS.

(a) REPORT.—The Secretary of Defense shall submit to Congress a report on the geographic distribution by State of defense contract awards during fiscal years 1985 and 1986. Such report shall include—

(1) an analysis of any efforts undertaken by the Department of Defense to reduce disparities in the number and value of contract awards between geographic regions and between States; and

(2) data on direct purchases, indirect purchases, indirect payroll, total defense spending, share of net State product, and per capita amounts of defense outlays, using the Department of Defense's Defense Economic Impact Modeling System.

(b) DEADLINE.—The report required by subsection (a) shall be submitted no later than March 31, 1987.

SEC. 1027. SENSE OF CONGRESS EXPRESSING SUPPORT FOR A CENTRAL ROLE FOR NUCLEAR RISK REDUCTION CENTERS.

(a) CONGRESSIONAL STATEMENTS.—The Congress—

(1) has expressed its prior support for the establishment of nuclear risk reduction centers; and

(2) supports the President's willingness to negotiate an agreement with the Soviet Union to establish such centers in each nation.

(b) SENSE OF CONGRESS.—It is the sense of Congress that if an agreement on nuclear risk reduction centers is signed, the United States center should be assigned the responsibility—

(1) for ongoing assignment of Federal risk reduction activities; and

(2) to serve as the locus of such Federal activities.

PART D—MISCELLANEOUS

SEC. 1031. USE OF MARINE MAMMALS FOR NATIONAL DEFENSE PURPOSES.

(a) IN GENERAL.—Chapter 645 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 7524. Use of marine mammals for national defense purposes

"(a) IN GENERAL.—Notwithstanding the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 et seq.) and subject to subsection (b), the Secretary of Defense, with the concurrence of the Secretary of Commerce and after consultation with the Marine Mammal Commission established by section 201 of such Act (16 U.S.C. 1401), may authorize the taking of not more than 25 marine mammals each year for national defense purposes. Any mammal taken under this section shall be captured, supervised, cared for, transported, and deployed in a humane manner consistent with conditions established by the Secretary of Commerce.

"(b) RESTRICTIONS.—A mammal may not be taken under this section if such mammal is determined to be a member of an endangered or threatened species under section 4 of the Endangered Species Act of 1973 (16 U.S.C. 1533).".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new subsection:

"7524. Use of marine mammals for national defense purposes.".

SEC. 1032. CONTRACT SET-ASIDE REQUIREMENTS.

(a) SET-ASIDE REQUIREMENT.—Except as provided in subsection (d), not less than 10 percent of each amount described in subsection (b) shall be obligated during any fiscal year for contracts entered into with—

(1) small business concerns owned and controlled by socially and economically disadvantaged individuals (as defined by section 8(d) of the Small Business Act (15 U.S.C. 637(d)) and regulations issued under such section);

(2) historically Black colleges and universities; or

(3) minority institutions (as defined by the Secretary of Education pursuant to the General Education Provisions Act (20 U.S.C. 1221 et seq.)).

(b) AMOUNT TO BE SET-ASIDE.—The requirements of subsection (a) for any fiscal year apply to each of the following amounts:

(1) Funds appropriated to the Department of Defense for such fiscal year for procurement.

(2) Funds appropriated to the Department of Defense for such fiscal year for research, development, test, and evaluation.

(3) Funds appropriated to the Department of Defense for such fiscal year for military construction.

(4) Funds appropriated to the Department of Defense for operation and maintenance.

(c) TECHNICAL ASSISTANCE.—The Secretary of Defense shall provide for technical assistance to potential contractors described in subsection (a). Such technical assistance shall include information about the set-aside program, advice about Department of Defense procurement procedures, assistance in preparation of proposals, and such other assistance as the Secretary considers appropriate.

(d) APPLICABILITY.—Subsection (a) does not apply—

(1) to the extent to which the Secretary of Defense determines that compelling national security considerations require otherwise; and

(2) if the Secretary making such a determination notifies Congress of such determination and the reasons for such determination.

(e) COMPETITIVE PROCEDURES AND ADVANCE PAYMENTS.—In carrying out the requirements of subsection (a), the Secretary of Defense shall—

(1) solicit bids or competitive proposals in a manner designed to achieve full and open competition for the procurement, and

(2) to the extent practicable and when necessary to facilitate achievement of the 10 percent set-aside requirement described in subsection (a), make advance payments under section 2307 of title 10, United States Code, to contractors described in subsection (a).

(f) ANNUAL REPORT.—(1) Not later than May 1 of each fiscal year, the Secretary of Defense shall submit to Congress a report on the compliance of the Secretary with the requirements of subsection (a) during the pre-

ceding fiscal year. Each such report shall include—

(A) a full explanation of any failure to comply with such requirements; and

(B) a plan to remedy such failure.

(2) The first report required by subsection (a) shall be submitted not later than May 1, 1987.

(g) EFFECTIVE DATE.—This section applies to each of fiscal years 1987, 1988, 1989, 1990, and 1991.

SEC. 1033. REPORT ON HEALTH CARE FOR CERTAIN ABUSED DEPENDENTS.

(a) The Secretary of Defense shall submit a report to the Congress no later than December 31, 1986, on the desirability of establishing a program to provide one year of medical (including mental health) and dental care to the dependents of military members who are discharged or who voluntarily leave the service, who abused their dependents while in the service, and whose dependents require medical or dental care as a result of the abuse.

(b) The report shall include (1) data on the cost and the estimated number of persons that would be eligible for medical and dental care under subsection (a), and (2) a plan to implement such a program.

SEC. 1034. REIMBURSEMENT FOR INCIDENTAL EXPENSES INCURRED WHILE PROVIDING VOLUNTARY SERVICES.

Section 1588 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(c) The Secretary of the military department concerned may provide for reimbursement of incidental expenses which are incurred by a person providing voluntary services under subsection (a) as an ombudsman or for a family service center program. Such Secretary shall determine which expenses are eligible for reimbursement under this subsection.".

SEC. 1035. DEFENSE OF LEGAL MALPRACTICE SUITS.

(a)(1) IN GENERAL.—Chapter 53 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 1051. Defense of certain suits arising out of legal malpractice

"(a) The remedy against the United States provided by sections 1346(b) and 2672 of title 28 for damages for injury or loss of property caused by the negligent or wrongful act or omission of any person who is an attorney, paralegal, or other member of a legal staff within the Department of Defense (including the National Guard while engaged in training or duty under section 316, 502, 503, 504, or 505 of title 32), in connection with providing legal services while acting within the scope of the person's duties or employment, is exclusive of any other civil action or proceeding by reason of the same subject matter against the person (or the estate of the person) whose act or omission gave rise to such action or proceeding.

"(b) The Attorney General shall defend any civil action or proceeding brought in any court against any person referred to in subsection (a) (or the estate of such person) for any such injury. Any person against whom such a civil action or proceeding is brought shall deliver, within such time after date of service or knowledge of service as determined by the Attorney General, all process served upon such person (or an attested true copy thereof) to such person's immediate superior or to whomever was designated by the head of the agency concerned to receive such papers. Such person shall promptly furnish copies of the pleading and process therein—

"(1) to the United States attorney for the district embracing the place wherein the action or proceeding is brought;

"(2) to the Attorney General; and

"(3) to the head of the agency concerned.

"(c) Upon a certification by the Attorney General that a person described in subsection (a) was acting in the scope of such person's duties or employment at the time of the incident out of which the suit arose, any such civil action or proceeding commenced in a State court—

"(1) shall be removed without bond at any time before trial by the Attorney General to the district court of the United States of the district and division embracing the place wherein it is pending; and

"(2) shall be deemed a tort action brought against the United States under the provisions of title 28 and all references thereto. Should a United States district court determine on a hearing on a motion to remand held before a trial on the merits that the case so removed is one in which a remedy by suit within the meaning of subsection (a) is not available against the United States, the case shall be remanded to the State court.

"(d) The Attorney General may compromise or settle any claim asserted in such civil action or proceeding in the manner provided in section 2677 of title 28, and with the same effect.

"(e) For purposes of this section, the provisions of section 2680(h) of title 28 shall not apply to a cause of action arising out of a negligent or wrongful act or omission in the provision of legal assistance.

"(f) The head of the agency concerned may hold harmless or provide liability insurance for any person described in subsection (a) for damages for injury or loss of property caused by such person's negligent or wrongful act or omission in the provision of authorized legal assistance while acting within the scope of such person's duties if such person is assigned to a foreign country or detailed for service with an entity other than a Federal department, agency, or instrumentality or if the circumstances are such as are likely to preclude the remedies of third persons against the United States described in section 1346(b) of title 28, for such damage or injury.

"(g) In this section, 'head of the agency concerned' means—

"(1) the Secretary of Defense or the Secretary of a military department; or

"(2) the Secretary of Transportation.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"1051. Defense of certain suits arising out of legal malpractice.".

(b) EFFECTIVE DATE.—Section 1051 of title 10, United States Code, as added by subsection (a), shall apply only to claims accruing on or after the date of the enactment of this Act, regardless of when the alleged negligent or wrongful act or omission occurred.

SEC. 1036. CORRECTION OF EFFECTS OF CONTAMINATION AT ROCKY MOUNTAIN ARSENAL.

(a) IN GENERAL.—

(1) USE OF AMOUNTS RECEIVED FROM LITIGATION.—Any amounts received as the result of the litigation described in paragraph (2) (whether from a judgment rendered in such litigation or from a settlement of such litigation) shall be available, without fiscal year limitation, to the Secretary of the Army only for purposes of correcting the effects of contamination at the Rocky Mountain Arsenal.

(2) DESCRIPTION OF LITIGATION.—The litigation referred to in paragraph (1) is any litigation between the United States and any person concerning the liability of such person for correcting the effects of contamination at the Rocky Mountain Arsenal or for cost recovery relating to correcting the effects of such contamination.

(b) ACCEPTANCE OF SERVICES.—In partial settlement of the litigation described in subsection (a), the United States may accept services that correct the effects of contamination at the Rocky Mountain Arsenal.

SEC. 1037. WAGE RATE FOR CERTAIN CORPS OF ENGINEERS EMPLOYEES.

(a) WAGE DETERMINATIONS.—(1) Notwithstanding any other provision of law, in the administration of the last undesignated paragraph preceding chapter 6 of title I of Public Law 97-257 (96 Stat. 832), the individuals described in paragraph (2) shall be paid wages determined in the same manner as that established in such undesignated paragraph with respect to United States Army Corps of Engineers employees paid from Corps of Engineers Special Power Rate Schedules.

(2) The individuals described in this paragraph are electric powerplant controllers and powerplant shift operators (as defined under regulations prescribed by the Secretary of Defense or his designee) assigned to the Soo Locks Power Plant in the Detroit District in the North Central Region of the United States Army Corps of Engineers.

(b) EFFECTIVE DATE.—Subsection (a) is effective with respect to pay periods commencing on or after the date of enactment of this Act.

SEC. 1038. MEAL REIMBURSEMENT FOR NONPROFIT YOUTH GROUPS RESIDING AT MILITARY INSTALLATIONS.

Section 1011(b) of title 37, United States Code, is amended by inserting after "military installation" in the second sentence the following: "or when residing at a military installation pursuant to an agreement in effect on June 30, 1986,".

SEC. 1039. FOREIGN CURRENCY EXCHANGE FOR MOVEMENT OF HOUSEHOLD GOODS.

(a) REINSTATEMENT OF PROGRAM.—The Secretary of the Army shall reinstitute the foreign currency rate adjustment program of the Military Traffic Management Command of the Army effective with the procurement Volume 54 (effective April 1, 1987) provided that the Comptroller General certifies to the Congress no later than September 30, 1986, that cost savings to the Government can reasonably be expected by the reinstitution of the program.

(b) Subject to subsection (a), the Commander of the Command shall follow the recommendations of the Comptroller General with respect to procedures for the administration of the program to ensure that the interests of the United States are adequately protected when any rate adjustment is made under the program. The Commander of the Command shall also, to the extent practicable, take into account the concerns of the affected industry in any reinstitution of the program.

SEC. 1040. REPORT ON PROPOSED REGULATIONS RELATING TO MOVEMENT OF HOUSEHOLD GOODS AND CARGOES.

(a) REPORT REQUIREMENT.—

(1) IN GENERAL.—The regulations of the Military Traffic Management Command described in subsection (b) may not become effective until—

(A) the Commander of the Military Traffic Management Command submits a report to Congress with respect to such regulations that includes a discussion of—

(i) the cost savings expected as a result of implementation of such regulations; and

(ii) the increased quality of services expected as a result of such implementation; and

(B) 90 days of continuous session of Congress elapse after the submission of such report.

(2) COMPUTATION OF TIME PERIOD.—For purposes of this subsection, the continuity of a session of Congress is broken only by an adjournment of the Congress sine die, and the days on which either House is not in session because of an adjournment of more than three days to a day certain are excluded in the computation of such 90-day period.

(b) DESCRIPTION OF REGULATIONS.—The regulations referred to in subsection (a) are the regulations contained in the International Through Government Bill of Lading Rate Solicitation, volume 54, that concern—

(1) elimination of the so-called "me-too" rate filing cycle;

(2) elimination of the rate cancellation cycles;

(3) mandatory use of Government-owned containers; and

(4) changes in storage-in-transit charges.

SEC. 1041. SENSE OF CONGRESS ON USE OF ARMED FORCES TO PROTECT UNITED STATES CITIZENS AND AIR CARRIERS AT AIRPORTS OUTSIDE THE UNITED STATES.

It is the sense of the Congress that the President, pursuant to his authority under the Constitution, should consider assigning or detailing members of the Army, Navy, Air Force, or Marine Corps to guard United States citizens and United States passenger air carriers (including aircraft and personnel) at airports outside the United States against terrorism and other acts of violence. Any such assignment or detail—

(1) should not be made if the assignment or detail will adversely affect the military preparedness of the United States; and

(2) should be made only in a Nation whose government has agreed to allow the assignment or detail.

SEC. 1042. OFF-POST RENTAL HOUSING LEASE INDEMNITY PILOT PROGRAM.

(a) ESTABLISHMENT OF PROGRAM BY SECRETARY OF DEFENSE.—

(1) IN GENERAL.—The Secretary of Defense shall establish a pilot program to test the feasibility of implementing a program under which the Secretary of a military department may guarantee compensation of any person who leases a rental unit to any member of the Armed Forces under the jurisdiction of the Secretary for any breach of any lease or any damage to the rental unit by the member.

(2) DEADLINE.—The program referred to in paragraph (1) shall be established not later than the end of the 90-day period beginning on the date of the enactment of this Act, but not before October 1, 1986.

(b) ACTIONS BY SECRETARIES OF MILITARY DEPARTMENTS.—

(1) DESIGNATION OF MILITARY INSTALLATIONS.—In accordance with action taken by the Secretary of Defense under subsection (a), the Secretary of each military department shall designate one military installation in the United States that is under the jurisdiction of such Secretary to participate in the program established under subsection (a).

(2) SECURITY AGREEMENTS.—For purposes of carrying out this section, the Secretary of a military department, to the extent approved in advance in appropriation Acts, may enter into an agreement with any person who leases a rental unit to any member of the Armed Forces under the jurisdiction of the Secretary. Any agreement under this paragraph shall provide that—

(A) the term of the agreement shall not be for more than one year;

(B) the member shall not pay a security deposit;

(C) the Secretary (except as provided in subparagraphs (D) and (E)) shall compensate the lessor for any breach of the lease by the member and for any damage to the rental unit caused by the member or by any guest or dependent of the member;

(D) the total liability of the Secretary for any breach of the lease or for any damage described in subparagraph (C) shall not exceed an amount equal to the amount that the Secretary determines would have been required by the lessor as a security deposit absent the agreement authorized in this paragraph;

(E) the Secretary shall not compensate the lessor for any breach of the lease or for any damage described in subparagraph (C) until the lessor exhausts any remedies available to the lessor against the member for the breach or damage; and

(F) the Secretary shall be subrogated to the rights of the lessor in any case in which the Secretary compensates the lessor for any breach of the lease or for any damage described in subparagraph (C).

(3) REGULATIONS.—Any authority of the Secretary of a military department under this section shall be exercised under regulations prescribed by the Secretary of Defense.

(c) GARNISHMENT OF PAY OF MEMBER OF ARMED FORCES.—Any Secretary who compensates any lessor under subsection (b) for any damage to a rental unit or any breach of a lease by a member of the Armed Forces may issue a special order under section 1007 of title 37, United States Code, to authorize the withholding from the pay of the member of an amount equal to the amount paid by the Secretary to the lessor as compensation for the breach or damage.

(d) REPORT REQUIREMENT.—

(1) IN GENERAL.—The Secretary of Defense shall submit to Congress a report concerning the pilot program established under subsection (a), including—

(A) findings and conclusions of the Secretary with respect to the pilot program; and

(B) recommendations as to the feasibility of implementing a program similar to the pilot program on all military installations.

(2) DEADLINE.—The report referred to in paragraph (1) shall be submitted before the expiration of the 18-month period following the date of the establishment of the pilot program under subsection (a).

(e) TERMINATION OF AUTHORITY.—The authority of the Secretary of a military department to enter into any contract under subsection (b) shall terminate upon the expiration of the 18-month period following the date of the establishment of the pilot program under subsection (a).

SEC. 1043. REIMBURSEMENT FOR TRANSFERRED DEFENSE INDUSTRIAL RESERVE EQUIPMENT.

(a) IN GENERAL.—Section 4 of the Defense Industrial Reserve Act (50 U.S.C. 453) is amended—

(1) by inserting "(a)" before "To execute"; and

(2) by adding at the end the following:

"(b)(1) The Secretary of a military department to which equipment or other property is transferred from the Defense Industrial Reserve shall reimburse appropriations available for the purposes of the Defense Industrial Reserve for the full cost (including direct and indirect costs) of—

"(A) storage of such property;

"(B) repair and maintenance of such property; and

"(C) overhead allocated to such property.

"(2) The Secretary of Defense shall prescribe regulations establishing general policies and fee schedules for reimbursements under pragraph (1).".

(b) EFFECTIVE DATE.—(1) The regulations required to be prescribed by subsection (b) of section 4 of the Defense Industrial Reserve Act, as added by subsection (a), shall be prescribed not later than 60 days after the date of the enactment of ths Act.

(2) The requirement for reimbursement under such subsection shall apply with respect to property transferred from the Defense Industrial Reserve to a military department after the date on which such regulations are prescribed.

SEC. 1044. LIMITATION ON SOURCE OF FUNDS FOR NICARAGUAN DEMOCRATIC RESISTANCE.

(a) LIMITATION.—Notwithstanding title II of the Military Construction Appropriations Act, 1987, or any other provision of law, funds appropriated or otherwise made available to the Department of Defense for any fiscal year for operation and maintenance may not be used to provide assistance for the democratic resistance forces in Nicaragua. If funds appropriated or otherwise made available to the Department of Defense for any fiscal year are authorized by law to be used for such assistance, funds for such purpose may only be derived from amounts appropriated or otherwise made available to the Department for procurement. However, not more than 10 percent of the amount required may be taken from the procurement of ammunition provided that the Secretary of Defense notifies the Congress in writing that such transfer of funds will not adversely affect the combat readiness of United States forces.

(b) REPORT.—Before funds appropriated or otherwise made available to the Department of Defense are released to be used for the purpose described in subsection (a), the Secretary of Defense shall submit to Congress a report describing the specific source of such funds.

SEC. 1045. BALLISTIC MISSILE DEFENSIVE SYSTEM.

The Congress declares that it is the policy of the United States to expeditiously develop and deploy in cooperation with our allies a defensive system as capable as the Soviet SA-12 system to defend against attacks by tactical ballistic missiles.

SEC. 1046. LIMITATION ON INTRODUCTION OF ARMED FORCES INTO NICARAGUA FOR COMBAT.

(a) LIMITATION.—Funds appropriated to the Department of Defense may not be obligated or expended for the purpose of introducing United States Armed Forces into or over Nicaragua for combat.

(b) DEFINITION OF COMBAT.—As used in this section, the term "combat" means the introduction of United States Armed Forces for the purpose of delivering weapons fire upon an enemy.

(c) EXCEPTIONS TO LIMITATION.—This section does not apply with respect to an introduction of United States Armed Forces into or over Nicaragua for combat if—

(1) the Congress has declared war or enacted specific authorization for such introduction; or

(2) such introduction is necessary—

(A) to meet a clear and present danger of hostile attack upon the United States, its territories or possessions or its allies;

(B) to meet a clear and present danger to, and to provide necessary protection for the United States Embassy;

(C) to meet a clear and present danger to, and to provide necessary protection for and to evacuate, United States Government personnel or United States citizens; or

(D) to respond to hijacking or kidnapping of citizens of the United States or of an ally of the United States, or to respond to other acts of terrorism involving such citizens.

(d) EXISTING REQUIREMENTS PRESERVED.—Nothing in this section shall invalidate any requirement of Public Law 93-148.

(e) TREATY AUTHORITY PRESERVED.—Nothing in this section shall invalidate any authority of the United States to act in accordance with the Organization of American States under the provisions of the Inter-American Treaty of Reciprocal Assistance.

(f) EXPIRATION.—This section shall not apply after the date on which MIG aircraft, or other aircraft similar in design and capability, or nuclear weapons are introduced into Nicaragua.

SEC. 1047. LIMITATION.

Military technology developed with funds appropriated or otherwise made available for fiscal year 1987 or fiscal year 1988 to the Strategic Defense Initiative Organization may not be made available to the Soviet Union unless the President determines it is in the national interest and for the purposes of maintaining peace.

SEC. 1048. COMPUTATION OF CONTRACT BID PRICES.

(a) IN GENERAL.—Section 2306 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(i) The head of an agency, in computing the price of a contract to be awarded using sealed-bid procedures, may not include in such computation the prices under such contract for options to purchase additional units of the item being procured under such contract unless the head of the agency has determined that there is a reasonable certainty that the options will be exercised.".

(b) EFFECTIVE DATE.—Section 2306(i) of title 10, United States Code (as added by subsection (a)), shall apply to solicitations for sealed bids issued after the date of the enactment of this Act.

SEC. 1049. SENSE OF CONGRESS REGARDING RENAMING OF CHECKPOINT CHARLIE.

(a) FINDINGS.—The Congress finds the following:

(1) On March 24, 1985, Major Arthur D. Nicholson, Junior, of the United States Army was carrying out his official duties as a United States intelligence officer in the German Democratic Republic.

(2) On that date, Major Nicholson was performing his duties in an open and direct manner, according to orders and in the knowledge that he was conducting himself in a way which was neither excessively provocative nor beyond the limits of acceptable behavior for his assigned duties.

(3) On that date, a member or members of the Soviet armed forces shot and fatally wounded Major Nicholson without warning and without provocation, given the traditionally accepted rules of behavior for military officers engaged in activities such as those in which Major Nicholson was engaged.

(4) After having shot Major Nicholson, the members of the Soviet armed forces forcibly restrained Major Nicholson's aide and prevented him from providing medical assistance to Major Nicholson, so that Major Nicholson died slowly and with great suffering, which death and suffering might have been prevented had Major Nicholson been permitted to receive assistance.

(5) The death of Major Nicholson was an untimely, unnecessary, cold-blooded murder committed against a United States military officer in pursuit of his official duties by a member or members of the armed forces of the Soviet Union, in a painful and degrading manner.

(b) SENSE OF CONGRESS.—The Congress deplores and condemns the cold-blooded murder of Major Arthur D. Nicholson, Junior. It is the sense of Congress that—

(1) the Government of the Union of Soviet Socialist Republics should apologize for and renounce the murder of Major Nicholson and should indemnify the family of Major Nicholson financially; and

(2) the President should name the East-West control point between the American and Soviet sectors in Berlin, currently known as Checkpoint Charlie, in honor of Major Arthur D. Nicholson, Junior.

SEC. 1050. AUTHORITY FOR PAYMENT TO NASA.

(a) AUTHORITY.—The Secretary of Defense may make payments during fiscal year 1987 to the National Aeronautics and Space Administration for space shuttle services in advance of the receipt of such services. Any such payments—

(1) may be made only from funds available to the Department of Defense for obligation and only to the extent provided in appropriations Acts;

(2) may not be made until 30 days after the date on which the report required in subsection (b) is received by the Congress; and

(3) may not exceed $531,000,000.

(b) REPORT.—Not later than December 31, 1986, the Secretary of Defense shall submit to the appropriate committees of the Congress a ten-year plan setting forth the schedule for planned payments to the National Aeronautics and Space Administration for space shuttle services and the schedule for the provision of such services.

SEC. 1051. RESTRICTION ON PERFORMANCE OF SERVICES BY PERSONS WHO FAIL TO REGISTER UNDER THE MILITARY SELECTIVE SERVICE ACT.

(a) IN GENERAL.—(1) Chapter 141 of title 10, United States Code, is amended by adding at the end the following:

"§ 2408. Contracts: performance of services by selective service nonregistrants

"(a) A person born after December 31, 1959, who is required to register under section 3(a) of the Military Selective Service Act (50 U.S.C. App. 453(a)) and who has not so registered shall not perform services under any contract or subcontract financed in whole or in part by funds appropriated to the Department of Defense.

"(b) The Secretary may waive the application of this section with respect to a contract when the Secretary determines such a waiver is necessary in the interests of national security.".

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

"2408. Contracts: performance of services by selective service nonregistrants.".

(b) EFFECTIVE DATE.—Section 2408 of title 10, United States Code (as added by subsection (a)), shall apply to contracts entered into after the date of the enactment of this Act and only with respect to individuals hired by contractors or subcontractors after such date.

SEC. 1052. REPORT ON CLEANUP OF NATIONAL PRESTO INDUSTRIES.

The Secretary of Defense shall investigate and report to the Committees on Armed Services of the Senate and the House of Representatives by January 1, 1987, on the sources, dates of origin, and responsibility for hazardous waste contamination at the National Presto Industries Plant near Eau Claire, Wisconsin.

PART E—LIMITATIONS ON DEPLOYMENT OF STRATEGIC NUCLEAR WEAPONS CONSISTENT WITH EXISTING ARMS LIMITATION AGREEMENTS

SEC. 1061. LIMITATIONS ON STRATEGIC WEAPONS.

(a) LIMITATIONS.—Notwithstanding any other provision of law, funds may not be obligated or expended for the deployment of—

(1) launchers for more than 820 intercontinental ballistic missiles carrying multiple independently-targetable reentry vehicles;

(2) launchers for an aggregate of more than 1,200 intercontinental ballistic missiles carrying multiple independently-targetable reentry vehicles and submarine-launched ballistic missiles carrying multiple independently-targetable reentry vehicles; or

(3) an aggregate of more than 1,320 launchers described in paragraph (2) and heavy bombers equipped for air-launched cruise missiles capable of a range in excess of 600 kilometers;

unless the President certifies to the Congress that the Soviet Union has deployed strategic forces in excess of these limitations.

(b) DEFINITIONS.—For purposes of this section—

(1) launchers of intercontinental ballistic missiles and submarine-launched ballistic missiles equipped with multiple independently-targetable reentry vehicles are launchers of the types developed and tested for launching intercontinental ballistic missles and submarine-launched ballistic missiles equipped with multiple independently-targetable reentry vehicles; and

(2) air-launched cruise missiles are unmanned, self-propelled, guided, weapon-delivery vehicles which sustain flight through the use of aerodynamic lift over most of their flight path and which are flight tested from or deployed on aircraft.

DIVISION B—MILITARY CONSTRUCTION AUTHORIZATION

SEC. 2001. SHORT TITLE.

This division may be cited as the "Military Construction Authorization Act, 1987".

TITLE I—ARMY

SEC. 2101. AUTHORIZED ARMY CONSTRUCTION AND LAND ACQUISITION PROJECTS.

(a) INSIDE THE UNITED STATES.—The Secretary of the Army may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations inside the United States:

UNITED STATES ARMY FORCES COMMAND

Camp Dawson, West Virginia, $8,700,000.
Fort Bragg, North Carolina, $24,600,000.
Fort Campbell, Kentucky, $21,240,000.
Fort Carson, Colorado, $11,300,000.
Fort Devens, Massachusetts, $20,800,000.
Fort Drum, New York, $615,000,000.
Fort Hood, Texas, $13,350,000.
Fort Irwin, California, $820,000.
Fort Lewis, Washington, $25,980,000.
Fort McPherson, Georgia, $2,900,000.
Fort Ord, California, $6,550,000.
Fort Polk, Louisiana, $27,000,000.
Fort Riley, Kansas, $12,500,000.
Fort Sam Houston, Texas, $3,700,000.
Fort Sheridan, Illinois, $2,050,000.
Fort Stewart, Georgia, $1,550,000.

UNITED STATES ARMY WESTERN COMMAND

Wheeler Army Air Field, Hawaii, $2,900,000.

Various locations, Hawaii, $12,000,000.

UNITED STATES ARMY TRAINING AND DOCTRINE COMMAND

Carlisle Barracks, Pennsylvania, $800,000.
Fort Belvoir, Virginia, $5,600,000.
Fort Benning, Georgia, $16,180,000.
Fort Eustis, Virginia, $2,050,000.
Fort Jackson, South Carolina, $1,300,000.
Fort Knox, Kentucky, $3,200,000.
Fort Leavenworth, Kansas, $1,100,000.
Fort Lee, Virginia, $17,600,000.
Fort Leonard Wood, Missouri, $43,200,000.
Fort McClellan, Alabama, $540,000.
Fort Rucker, Alabama, $44,500,000.
Fort Story, Virginia, $2,700,000.

UNITED STATES ARMY MATERIEL COMMAND

Aberdeen Proving Ground, Maryland, $42,750,000.

Anniston Army Depot, Alabama, $1,950,000.

Badger Army Ammunition Plant, Wisconsin, $980,000.

Corpus Christi Army Depot, Texas, $10,650,000.

Detroit Arsenal, Michigan, $1,350,000.

Dugway Proving Ground, Utah, $12,900,000.

Fort Monmouth, New Jersey, $4,900,000.
Fort Wingate, New Mexico, $350,000.

Harry Diamond Laboratory, Maryland, $680,000.

Letterkenny Army Depot, Pennsylvania, $1,900,000.

Lexington-Blue Grass Depot Activity, Kentucky, $540,000.
Navajo Army Depot, Arizona, $3,900,000.
Pueblo Depot Activity, Colorado, $600,000.
Red River Army Depot, Texas, $1,350,000.
Redstone Arsenal, Alabama, $19,500,000.
Savanna Army Depot, Illinois, $320,000.
Seneca Army Depot, New York, $1,100,000.
Sierra Army Depot, California, $2,450,000.
Tooele Army Depot, Utah, $1,850,000.
Umatilla Army Depot, Oregon, $1,050,000.
Yuma Proving Ground, Arizona, $820,000.

UNITED STATES ARMY INFORMATION SYSTEMS COMMAND

Fort Huachuca, Arizona, $17,200,000.

UNITED STATES MILITARY ACADEMY

U.S. Military Academy, New York, $24,500,000.

MILITARY TRAFFIC MANAGEMENT COMMAND

Sunny Point Military Ocean Terminal, North Carolina, $650,000.

ASSISTANT CHIEF OF ENGINEERS

Classified, United States, $7,400,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of the Army may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

UNITED STATES ARMY, JAPAN

Kawakami, Japan, $1,200,000.

EIGHTH UNITED STATES ARMY

Camp Carroll, Korea, $1,740,000.
Camp Casey, Korea, $24,940,000.
Camp Castle, Korea, $4,800,000.
Camp Essayons, Korea, $3,000,000.
Camp Greaves, Korea, $3,650,000.
Camp Hovey, Korea, $9,000,000.
Camp Howze, Korea, $5,850,000.
Camp Humphreys, Korea, $16,100,000.
Camp Jackson, Korea, $1,800,000.
Camp Laguardia, Korea, $2,970,000.
Camp Libby, Korea, $1,100,000.
Camp Liberty Bell, Korea, $780,000.
Camp Long, Korea, $5,600,000.
Camp Market, Korea, $540,000.
Camp Nimble, Korea, $1,950,000.
Camp Page, Korea, $1,400,000.
Camp Pelham, Korea, $2,280,000.
Camp Red Cloud, Korea, $4,550.000.
Camp Stanley, Korea, $4,700,000.
H220, Korea, $2,750,000.
K-16 Army Airfield, Korea, $2,520,000.
Pusan, Korea, $12,940,000.
Second Infantry, Korea, $5,150,000.
Taegu, Korea, $4,900,000.
Yongsan, Korea, $8,760,000.

UNITED STATES ARMY STRATEGIC DEFENSE COMMAND

Kwajalein, $20,600,000.

UNITED STATES ARMY FORCES COMMAND, OVERSEAS

Classified, $4,000,000.

UNITED STATES ARMY EUROPE AND SEVENTH ARMY

Ansbach, Germany, $1,790,000.
Aschaffenburg, Germany, $7,000,000.
Bad Kreuznach, Germany, $11,100,000.
Bamberg, Germany, $18,000,000.
Baumholder, Germany, $18,450,000.
Bitburg, Germany, $19,920,000.
Enisiedlerhof, Germany, $4,750,000.
Fulda, Germany, $1,000,000.
Giessen, Germany, $6,570,000.
Goeppingen, Germany, $1,850,000.
Hanau, Germany, $26,150,000.
Heidelberg, Germany, $1,600,000.
Heilbronn, Germany, $2,100,000.
Hohenfels, Germany, $8,800,000.
Kaiserslautern, Germany, $1,400,000.
Karlsruhe, Germany, $10,000,000.
Mannheim, Germany, $2,450,000.
Neu Ulm, Germany, $26,050,000.
Nuernberg, Germany, $5,500,000.
Rheinberg, Germany, $29,150,000.
Schweinfurt, Germany, $23,000,000.
Stuttgart, Germany, $820,000.
Various, Germany, $6,350,000.
Vilseck, Germany, $53,020,000.
Wuerzburg, Germany, $1,000,000.
Katsimidhi Site, Greece, $560,000.
Zelo, Italy, $610,000.

UNITED STATES ARMY INTELLIGENCE AND SECURITY COMMAND, OVERSEAS

Location 177, $1,950,000.
Location 276, $3,700,000.
Location 280, $2,100,000.

SEC. 2102. FAMILY HOUSING.

The Secretary of the Army may construct or acquire family housing units (including land acquisition) at the following installations in the number of units shown, and in the amount shown, for each installation:

Fort Irwin, California, thirty-eight manufactured home spaces, $730,000.

Fort Ord, California, three hundred and eighty-five units, $34,000,000.

Crailsheim, Germany, forty units, $4,100,000.

Darmstadt, Germany, forty units, $3,150,000.

Erlangen, Germany, one hundred and six units, $9,400,000.

Herzo Base, Germany, thirty-four units, $3,300,000.

Schweinfurt, Germany, ninety units, $8,400,000.

Vilseck, Germany, two hundred and twenty-four units, $21,000,000.

Wildflecken, Germany, twenty-four units, $2,050,000.

Various Locations, Germany, one hundred and twenty units, funded in the manner authorized in section 2103(a).

Fort Polk, Louisiana, five hundred and eighty-three units, $37,000,000.

Kwajalein, Marshall Island, one hundred and thirty-six units, $23,000,000.

Aberdeen Proving Ground, Maryland, one hundred and forty units and seventy manufactured home spaces, $10,800,000.

Fort Drum, New York, one thousand and two hundred units, $91,000,000.

Seneca Army Depot, New York, thirty units, $2,900,000.

SEC. 2103. IMPROVEMENTS TO MILITARY FAMILY HOUSING UNITS.

(a) AMOUNT AUTHORIZED.—Subject to section 2825 of title 10, United States Code, the Secretary of the Army may make expenditures, using amounts appropriated pursuant to section 2110(a)(7)(A), to improve existing military family housing units in an amount not to exceed $145,930,000, of which not more than $11,900,000 may be used to convert portions of existing facilities at various locations in Germany to military family housing units, and may make additional expenditures not to exceed $15,671,000 for energy conservation projects using amounts appropriated pursuant to section 2110(b)(1).

(b) WAIVER OF MAXIMUM PER UNIT COST FOR CERTAIN IMPROVEMENT PROJECTS.—Notwithstanding the maximum amount per unit for an improvement project under section 2825(b) of title 10, United States Code, the Secretary of the Army may carry out projects to improve existing military family housing units at the following installations in the number of units shown, and in the amount shown, for each installation:

Aschaffenburg, Germany, one hundred and forty-four units, $5,120,000.

Aschaffenburg, Germany, forty-eight units, $2,800,000.

Bremerhaven, Germany, twenty-four units, $1,400,000.

Karlsruhe, Germany, twenty-four units, $1,400,000.

Kitzingen, Germany, one hundred and two units, $5,950,000.

Mainz, Germany, one unit, $69,000.

Worms, Germany, six units, $350,000.

Fort Benjamin Harrison, Indiana, one hundred and sixty-six units, $6,000,000.

Pusan, Korea, forty-eight units, $2,237,000.

Fort Indiantown Gap, Pennsylvania, six units, $166,000.

Fort Sam Houston, Texas, twenty-three units, $930,000.

Fort Myer, Virginia, three units, $140,000.

SEC. 2104. FORT DRUM, NEW YORK.

(a) AUTHORIZATION.—The Secretary of the Army may, in advance of the availability of appropriations authorized to be appropriated by section 2110(c), enter into one or more contracts for the military construction projects authorized by section 2101 at Fort Drum, New York, if each such contract limits the amount of payments that the Federal government is obligated to make under such contract to the amount of appropriations available, at the time the contract is entered into, for obligation under such a contract. Such construction may be accomplished by using one-step turn-key selection procedures or other competitive contracting methods.

(b) FAMILY HOUSING.—(1) Of the family housing units authorized by section 102 of the Military Construction Authorization Act, 1986, to be constructed at Fort Drum, New York—

(A) three of those units shall be constructed for assignment to general officers, and notwithstanding section 2826 of title 10, United States Code, each such unit may be constructed with a maximum net floor area of 3,000 square feet; and

(B) seven of those units shall be constructed for assignment to colonels who hold positions as commanders, and notwithstanding section 2826 of title 10, United States Code,

each such unit may be constructed with a maximum net floor area of 2,100 square feet.

(2) For purposes of this subsection, the term "net floor area" has the meaning given that term by section 2826(f) of title 10, United States Code.

SEC. 2105. LAND EXCHANGE, ORLANDO, FLORIDA.

(a) IN GENERAL.—Subject to subsections (b) through (e), the Secretary of the Army may convey to the City of Orlando, Florida, all right, title, and interest of the United States in and to a tract of land located in Orlando, Florida, consisting of approximately 36 acres, together with improvements thereon, comprising the United States Army Reserve training facility located at the former McCoy Air Force Base, Orlando, Florida.

(b) CONSIDERATION.—In consideration for the conveyance by the Secretary under subsection (a), the City shall—

(1) convey to the United States a tract of real property consisting of approximately 36 acres located at Orlando Jetport, Orlando, Florida; and

(2) design, and construct on such real property, suitable replacement facilities, in accordance with the requirements of the Secretary, for the training activities of the United States Army Reserve.

(c) PAYMENT BY THE CITY.—If the fair market value (as determined by the Secretary) of the land and improvements conveyed by the United States to the City under subsection (a) exceeds the sum of the fair market value (as determined by the Secretary) of the property conveyed by the City to the United States and the fair market value of the facilities constructed by the City on the land conveyed to the United States under subsection (b), the City shall pay to the United States the amount of the difference.

(d) LEGAL DESCRIPTION OF THE LAND.—The exact acreages and legal description of properties to be conveyed under subsections (a) and (b) shall be determined by surveys that are satisfactory to the Secretary. The cost of such surveys shall be borne by the City.

(e) ADDITIONAL TERMS AND CONDITIONS.—The Secretary may require such additional terms and conditions as the Secretary considers appropriate to carry out the provisions of this section and to protect the interests of the United States.

SEC. 2106. SALE OF LAND AND REPLACEMENT OF CERTAIN WAREHOUSING FACILITIES.

(a) IN GENERAL.—Subject to subsections (b) through (g), the Secretary of the Army may convey approximately 14.41 acres of real property, and improvements thereon, at Kapalama Military Reservation, Hawaii, and may replace and relocate warehousing facilities located on such property.

(b) CONSIDERATION.—In consideration for the real property and improvements described in subsection (a), the purchaser of such property and improvements shall pay—

(1) for the cost of the design and construction of suitable replacement warehousing facilities to be constructed at Schofield Barracks, Hawaii, in a manner determined by the Secretary;

(2) for any cost incurred by the Department of the Army under this section with respect to the relocation of warehousing facilities; and

(3) the amount described in subsection (d).

(c) SALE AND REPLACEMENT ACTIVITIES.—The Secretary may use any amount received from the purchaser under paragraphs (1) and (2) of subsection (b) for the purpose of carrying out this section.

(d) PAYMENT OF EXCESS INTO TREASURY.—If the fair market value of the real property and improvements described in subsection (a) exceeds the costs described in paragraphs (1) and (2) of subsection (b), as determined by the Secretary, the purchaser shall pay the amount of such difference to the Secretary, and the Secretary shall deposit such amount into the Treasury as miscellaneous receipts.

(e) COMPETITIVE BID PROCEDURES.—The conveyance described in subsection (a) shall be carried out under competitive bid procedures.

(f) LEGAL DESCRIPTION OF LAND.—The exact location and legal description of the real property described in subsection (a) shall be determined by a survey which is satisfactory to the Secretary. The cost of such survey shall be borne by the purchaser.

(g) ADDITIONAL TERMS.—The Secretary may require such additional terms and conditions under this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2107. PLAN FOR CLEANUP OF ROCKY MOUNTAIN ARSENAL.

Section 822(b)(7) of the Military Construction Authorization Act, 1986 (Public Law 99-167; 99 Stat. 991), is amended by inserting before the semicolon the following: ", including establishing methods of assisting local governments near the Arsenal with the planning and design of water treatment facilities in appropriate cases".

SEC. 2108. COMMUNITY PLANNING ASSISTANCE.

The Secretary of the Army may not use more than $200,000 from funds appropriated to the Department of the Army for fiscal year 1987 for planning and design purposes to provide planning assistance to local communities located near the newly established light infantry division at Fort Drum, New York, if the Secretary determines that the financial resources available to the community (by grant or otherwise) are inadequate.

SEC. 2109. LAND CONVEYANCE, WHITTIER NARROWS DAM, LOS ANGELES COUNTY, CALIFORNIA.

(a) AUTHORITY TO CONVEY.—Subject to subsections (b) through (f), the Secretary of the Army may convey to Southern California Edison Company approximately 7.44 acres of real property, and improvements thereon, within the Whittier Narrows Flood Control Basin located north of Rush Street and east of Walnut Grove Avenue in Los Angeles County, California, for not less than the fair market value, as determined by the Secretary.

(b) CONSIDERATION.—In consideration for the conveyance authorized by subsection (a), the Secretary may accept land in the Los Angeles area or cash, or both.

(c) CONDITIONS.—(1) The Secretary may convey the real property described in subsection (a) only if—

(A) the Company grants the United States a perpetual easement that enables the Federal Government to carry out necessary flood control activities with respect to such real property; and

(B) the Company agrees to permit the County of Los Angeles to use a portion of such real property for parking in connection with recreation activities at Whittier Narrows Golf Course, as the Secretary considers appropriate.

(d) USE OF FUNDS.—Any funds received by the Secretary under this section shall be deposited into the general fund of the Treasury.

(e) LEGAL DESCRIPTION OF LAND.—The exact location and legal description of the real property described in subsection (a) shall be determined by a survey which is satisfactory to the Secretary. The cost of such survey shall be borne by the company.

(f) ADDITIONAL TERMS.—The Secretary may require such additional terms and conditions under this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2110. AUTHORIZATION OF APPROPRIATIONS, ARMY.

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986, for military construction, land acquisition, and military family housing functions of the Department of the Army in the total amount of $3,013,060,000 as follows:

(1) For military construction projects inside the United States authorized by section 2101(a), $678,350,000.

(2) For military construction projects outside the United States authorized by section 2101(b), $456,310,000.

(3) For the construction of the Eastern Distribution Center, New Cumberland Army Depot, Pennsylvania, as authorized by section 101 of the Military Construction Authorization Act, 1986, $43,000,000.

(4) For Pershing II security upgrade at various locations, Germany, as authorized by section 101 of the Military Construction Authorization Act, 1986, $7,000,000.

(5) For unspecified minor construction projects under section 2805 of title 10, United States Code, $20,000,000.

(6) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $131,640,000.

(7) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $420,760,000;

(B) for support of military family housing (including the functions described in section 2833 of title 10, United States Code), $1,250,000,000, of which—

(i) not more than $31,246,000 may be obligated or expended for the leasing of military family housing units in the United States, the Commonwealth of Puerto Rico, and Guam; and

(ii) not more than $142,639,000 may be obligated or expended for the leasing of military family housing units in foreign countries; and

(C) for the Homeowners Assistance Program as authorized by section 2832 of title 10, United States Code, $6,000,000.

(b) AUTHORIZATION OF UNOBLIGATED FUNDS.—(1) Funds appropriated to the Department of Defense for fiscal years before fiscal year 1987 which could be used for energy conservation projects for existing military family housing units of the Department of the Army that remain available for obligation are hereby authorized to be made available, to the extent provided in appropriation Acts, for energy conservation projects for military family housing of the Army in an amount not to exceed $15,671,000.

(2) Funds appropriated to the Department of Defense for fiscal years before fiscal year 1987 for military construction functions of the Army (other than funds described in paragraph (1)) that remain available for obligation are hereby authorized to be made available, to the extent provided in appropriation Acts, for the construction of an Army aviation museum at Fort Rucker, Alabama, in an amount not to exceed $2,500,000.

(c) ADVANCE AUTHORIZATION OF APPROPRIATIONS FOR FORT DRUM, NEW YORK.—Funds

are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986, for the military construction projects and land acquisition authorized at Fort Drum, New York, by sections 2101(a) and 2104 as follows:

(1) $221,000,000 in fiscal year 1988.

(2) $214,000,000 in fiscal year 1989.

(d) LIMITATION ON TOTAL COST OF CONSTRUCTION PROJECTS AUTHORIZED IN THIS TITLE.—Notwithstanding the cost variations authorized by section 2853 of title 10, United States Code, and any other cost variations authorized by law, the total cost of all projects carried out under section 2101 may not exceed the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a) and under subsection (c).

SEC. 2111. EXTENSION OF CERTAIN PRIOR YEAR AUTHORIZATIONS.

(a) EXTENSION OF AUTHORIZATION OF CERTAIN FISCAL YEAR 1984 PROJECTS.—Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1984 (Public Law 98-115, 97 Stat. 780), authorizations for the following projects authorized in section 101 of that Act, as extended by section 606(b) of the Military Construction Authorization Act, 1986 (Public Law 99-167, 99 Stat. 983) shall remain in effect until October 1, 1987, or the date of enactment of the Military Construction Authorization Act for fiscal year 1988, whichever is later:

(1) Unaccompanied personnel housing in the amount of $1,400,000 at Argyroupolis, Greece.

(2) Operations building in the amount of $370,000 at Argyroupolis, Greece.

(3) Multipurpose recreation facility in the amount of $480,000 at Argyroupolis, Greece.

(4) Unaccompanied officer housing in the amount of $600,000 at Perivolaki, Greece.

(5) Operations building in the amount of $410,000 at Perivolaki, Greece.

(6) Multipurpose recreation facility in the amount of $620,000 at Perivolaki, Greece.

(7) Physical fitness training center in the amount of $1,000,000 at Elefsis, Greece.

(b) EXTENSION OF AUTHORIZATION OF CERTAIN FISCAL YEAR 1985 PROJECTS.—Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1985 (Public Law 98-407, 98 Stat. 1515), authorizations for the following projects authorized in sections 101 of that Act shall remain in effect until October 1, 1987, or the date of enactment of the Military Construction Authorization Act for fiscal year 1988, whichever is later:

(1) Barracks with dining facility in the amount of $11,400,000 at Presidio of San Francisco, California.

(2) Child care center in the amount of $1,980,000 at Presidio of San Francisco, California.

(3) Barracks in the amount of $6,600,000 at Presidio of San Francisco, California.

(4) Multipurpose recreation facility in the amount of $1,150,000 at Koropi, Greece.

(5) Multipurpose recreation facility in the amount of $960,000 at Katsimidi, Greece.

(6) Barracks modernization in the amount of $660,000 at Argyroupolis, Greece.

(7) Barracks modernization in the amount of $660,000 at Perivolaki, Greece.

(8) Barracks with dining facility in the amount of $2,350,000 at Elefsis, Greece.

SEC. 2112. STUDY OF USE OF PROPERTY AT LOS ALAMITOS ARMED FORCES RESERVE CENTER, CALIFORNIA, FOR MILITARY FAMILY HOUSING.

(a) IN GENERAL.—The Secretary of the Army and the Secretary of the Navy shall conduct a study concerning the potential use of the property currently being utilized as the Los Alamitos Armed Forces Reserve Center, California, for military family housing for the Navy.

(b) MATTERS TO CONSIDER.—In conducting the study described in subsection (a), each of the Secretaries shall take into consideration—

(1) the extensive number of complaints from residents concerning aircraft noise;

(2) the need for such military family housing;

(3) the public safety concerns involved with respect to military aircraft flying over a highly populated, urban area;

(4) the importance of maintaining facilities for the stationing of National Guard and other Reserve component units;

(5) the importance of maintaining facilities for the training of military aviation personnel;

(6) the importance of maintaining facilities for the maintenance of Army facilities and Army aircraft assigned to the California Army National Guard and the United States Army Reserve;

(7) the importance of the Los Alamitos Armed Forces Reserve Center, California, as a designated relief site in the event of a national disaster or emergency; and

(8) the costs associated with establishing and maintaining military family housing for the Navy at such Center.

(c) RECOMMENDED ACTION.—If the Secretaries find that the Center described in subsection (a) would not be suitable for military family housing or that it should not be so used, they shall recommend, in the report transmitted to the Committees pursuant to subsection (d), an alternate course of action for reducing the noise caused by aircraft traffic between the Center and the training area in the Santa Ana Mountains.

(d) DATE OF TRANSMITTAL.—The Secretaries described in subsection (a) shall transmit a copy of the findings and conclusions of the study carried out under this section to the Committees on Armed Services of the House of Representatives and the Senate no later than 90 days after the date of enactment of this Act.

SEC. 2113. LAND EXCHANGE, SANTA FE, NEW MEXICO.

(a) AUTHORITY TO CONVEY.—(1) Subject to subsections (b) through (f), the Secretary of the Army may make the conveyances described in paragraphs (2) and (3).

(2) The Secretary may convey, without reimbursement except as provided in subsection (f)(2), to the City of Santa Fe, New Mexico (hereinafter in this section referred to as the "City"), all right, title, and interest of the United States in and to the southernmost 27.88 acres, more or less, of the parcel of land conveyed to the State of New Mexico in accordance with the Act of June 19, 1956 (70 Stat. 296) and currently being leased to the City as a public park.

(3) The Secretary may convey, without reimbursement except as provided in subsection (f)(2), to the New Mexico State Armory Board (hereinafter in this section referred to as the "Board"), all right, title, and interest of the United States in and to the northernmost 21.61 acres, more or less, of the parcel of land conveyed to the State of New Mexico in accordance with the Act of June 19, 1956 (70 Stat. 296), and currently the location of the State headquarters and other facilities of the New Mexico National Guard.

(b) CONDITIONS.—The lands conveyed by the Secretary under subsection (a) shall be subject to the following conditions:

(1) The City shall, in accordance with the agreement entered into under subsection (d), provide to the Board a site of not less than 250 acres determined by the Board to be acceptable for the construction of—

(A) an armory for all New Mexico National Guard units located in Santa Fe, New Mexico;

(B) an organizational maintenance shop;

(C) a United States property and fiscal office building and warehouse;

(D) a headquarters complex for the New Mexico National Guard;

(E) a local training area for the New Mexico National Guard units;

(F) a complex for the New Mexico Army National Guard officer candidate school and noncommissioned officer academy; and

(G) additional facilities specified by the National Guard Bureau or the New Mexico State Armory Board.

(2) The Board shall use the land provided to it by the City pursuant to paragraph (1) for the training and support of the National Guard of New Mexico, and for other military purposes and if the site ever ceases to be used for such purposes, all right, title, and interest in and to such property shall revert to and become the property of the United States which shall have the immediate right of entry thereon.

(c) MINERAL RIGHTS.—The conveyances made by the Secretary under subsection (a) shall reserve all mineral rights, including oil and gas, to the United States in accordance with the Act of June 19, 1956 (70 Stat. 296).

(d) GENERAL AUTHORITY.—To implement the land exchange authorized by this section, the Secretary may enter into agreements with the City, the Board, and such other parties the Secretary determines are necessary to effectuate the purpose of this section.

(e) LEGAL DESCRIPTION OF LANDS.—The exact acreage and legal description of the site provided by the City to the Board in accordance with subsection (b) shall be determined by surveys that are satisfactory to the Secretary. The cost of any such surveys shall be borne by the City or the Board.

(f) ADDITIONAL TERMS AND CONDITIONS.—(1) The Secretary may require such other terms and conditions with respect to the transaction authorized by this section as the Secretary considers appropriate to protect the interests of the United States.

(2) The terms and conditions described in paragraph (1) may include a requirement for payment to the United States by the City or the Board, or both, to the extent, if any, that the value of the property conveyed by the United States pursuant to subsection (a) exceeds the value of the property conveyed to the Board pursuant to subsection (b).

TITLE II—NAVY

SEC. 2201. AUTHORIZED NAVY CONSTRUCTION AND LAND ACQUISITION PROJECTS.

(a) INSIDE THE UNITED STATES.—The Secretary of the Navy may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations inside the United States:

UNITED STATES MARINE CORPS

Headquarters Marine Corps, Arlington, Virginia, $3,020,000.

Marine Corps Air Station, Beaufort, South Carolina, $4,250,000.

Camp H. M. Smith, Oahu, Hawaii, $1,570,000.

Marine Corps Base, Camp Lejeune, North Carolina, $36,120,000.

Marine Corps Air Station, Camp Pendleton, California, $10,410,000.

Marine Corps Base, Camp Pendleton, California, $37,140,000.
Marine Corps Air Station, Cherry Point, North Carolina, $15,510,000.
Marine Corps Air Station, El Toro, California, $13,450,000.
Marine Corps Air Station, Kaneohe Bay, Hawaii, $39,440,000.
Marine Corps Air Station, New River, North Carolina, $21,710,000.
Marine Corps Recruit Depot, San Diego, California, $8,440,000.
Marine Corps Air Station, Tustin, California, $14,910,000.
Marine Corps Air-Ground Combat Center, Twentynine Palms, California, $32,630,000.
Marine Corps Air Station, Yuma, Arizona, $8,860,000.

SPACE AND NAVAL WARFARE SYSTEMS COMMAND

Naval Electronic Systems Engineering Center, Portsmouth, Virginia, $1,870,000.

CHIEF OF NAVAL OPERATIONS

Naval Academy, Annapolis, Maryland, $2,660,000.
Navy Tactical Interoperability Support Activity, Long Beach, California, $510,000.
Naval Legal Service Office, Norfolk, Virginia, $1,080,000.
Naval Legal Service Office Detachment, Oceana, Virginia, $540,000.
Commandant Naval District, Washington, District of Columbia, $2,000,000.

COMMANDER IN CHIEF, ATLANTIC FLEET

Naval Air Station, Brunswick, Maine, $1,160,000.
Naval Air Station, Cecil Field, Florida, $8,640,000.
Naval Station, Charleston, South Carolina, $1,400,000.
Naval Ocean Processing Facility, Dam Neck, Virginia, $540,000.
Naval Air Station, Jacksonville, Florida, $9,030,000.
Naval Air Station, Key West, Florida, $10,140,000.
Naval Amphibious Base, Little Creek, Virginia, $6,970,000.
Naval Station, Mayport, Florida, $880,000.
Naval Supply Center Detachment, Mayport, Florida, $3,730,000.
Naval Submarine Base, New London, Connecticut, $4,630,000.
Naval Station, New York, New York, $52,950,000.
Fleet Intelligence Center Europe and Atlantic, Norfolk, Virginia, $1,880,000.
Naval Air Station, Norfolk, Virginia, $1,570,000.

COMMANDER IN CHIEF, PACIFIC FLEET

Naval Air Station, Adak, Alaska, $24,400,000.
Naval Facility, Adak, Alaska, $5,700,000.
Naval Air Station, Alameda, California, $18,625,000.
Naval Submarine Base, Bangor, Washington, $5,900,000.
Trident Refit Facility, Bangor, Washington, $1,570,000.
Naval Facility, Centerville Beach, California, $1,370,000.
Naval Amphibious Base, Coronado, California, $21,170,000.
Naval Air Station, Fallon, Nevada, $31,200,000.
Naval Air Station, Lemoore, California, $980,000.
Naval Station, Long Beach, California, $7,260,000.
Naval Magazine, Lualualei, Hawaii, $4,350,000.
Naval Air Station, Miramar, California, $40,400,000.
Naval Station, Pearl Harbor, Hawaii, $3,240,000.
Naval Submarine Base, Pearl Harbor, Hawaii, $690,000.
Naval Station, San Diego, California, $19,460,000.
Naval Submarine Base, San Diego, California, $6,500,000.
Naval Station, Seattle, Washington, $2,950,000.
Naval Air Station, Whidbey Island, Washington, $5,180,000.

CHIEF OF NAVAL EDUCATION AND TRAINING

Naval Air Station, Corpus Christi, Texas, $690,000.
Naval Guided Missile School, Dam Neck, Virginia, $3,140,000.
Naval Training Center, Great Lakes, Illinois, $5,300,000.
Naval Construction Training Center, Gulfport, Mississippi, $1,180,000.
Naval Air Station, Kingsville, Texas, $3,780,000.
Combat Systems Technical Schools Command, Mare Island, California, $5,200,000.
Naval Air Station, Memphis, Tennessee, $3,010,000.
Naval Air Station, Meridian, Mississippi, $4,410,000.
Naval Submarine School, New London, Connecticut, $9,540,000.
Naval Education and Training Center, Newport, Rhode Island, $11,700,000.
Surface Warfare Officers School Command, Newport, Rhode Island, $8,840,000.
Fleet Training Center, Norfolk, Virginia, $5,400,000.
Naval Training Center, Orlando, Florida, $12,620,000.
Naval Diving and Salvage Training Center, Panama City, Florida, $2,850,000.
Naval Technical Training Center, Pensacola, Florida, $7,360,000.
Naval Construction Training Center, Port Hueneme, California, $3,240,000.
Fleet Intelligence Training Center, Pacific, San Diego, California, $4,220,000.
Fleet Training Center, San Diego, California, $3,930,000.
Naval Training Center, San Diego, California, $18,170,000.
Naval Technical Training Center, San Francisco, California, $9,820,000.
Naval Air Station, Whiting Field, Florida, $2,120,000.

NAVAL MEDICAL COMMAND

Naval Hospital, Camp Lejeune, North Carolina, $1,670,000.
Naval Hospital, Pensacola, Florida, $690,000.

NAVAL OCEANOGRAPHY COMMAND

Naval Observatory, Washington, District of Columbia, $980,000.

NAVAL SECURITY GROUP COMMAND

Naval Security Group Activity, Adak, Alaska, $14,600,000.

NAVAL SUPPLY SYSTEMS COMMAND

Naval Supply Center, Bremerton, Washington, $500,000.
Naval Supply Center, Jacksonville, Florida, $830,000.
Navy Ships Parts Control Center, Mechanicsburg, Pennsylvania, $1,670,000.
Naval Supply Center, Norfolk, Virginia, $3,140,000.
Naval Supply Center, Oakland, California, $3,490,000.
Naval Supply Center, Pearl Harbor, Hawaii, $11,820,000.
Naval Supply Center, San Diego, California, $2,450,000.

NAVAL AIR SYSTEMS COMMAND

Pacific Missile Range Facility, Barking Sands, Kauai, Hawaii, $8,260,000.
Naval Air Rework Facility, Cherry Point, North Carolina, $37,200,000.
Naval Air Test Center, Patuxent River, Maryland, $21,140,000.
Naval Air Rework Facility, Pensacola, Florida, $8,050,000.
Pacific Missile Test Center, Point Mugu, California, $590,000.

NAVAL FACILITIES ENGINEERING COMMAND

Naval Construction Battalion Center, Gulfport, Mississippi, $17,650,000.
Navy Public Works Center, Norfolk, Virginia, $8,740,000.
Navy Public Works Center, Pearl Harbor, Hawaii, $25,690,000.
Navy Public Works Center, Pensacola, Florida, $2,120,000.
Naval Construction Battalion Center, Port Hueneme, California, $7,120,000.
Navy Public Works Center, San Francisco, California, $450,000.

NAVAL SEA SYSTEMS COMMAND

Charleston Naval Shipyard, Charleston, South Carolina, $10,810,000.
Naval Weapons Station, Charleston, South Carolina, $22,630,000.
Naval Weapons Station, Concord, California, $790,000.
Naval Weapons Support Center, Crane, Indiana, $6,880,000.
Naval Weapons Station, Earle, New Jersey, $54,760,000.
Naval Ordnance Station, Indian Head, Maryland, $1,450,000.
Naval Undersea Warfare Engineering Station, Keyport, Washington, $5,890,000.
Long Beach Naval Shipyard, Long Beach, California, $3,630,000.
Norfolk Naval Shipyard, Portsmouth, Virginia, $5,900,000.
Naval Sea Combat Systems Engineering Station, Norfolk, Virginia, $980,000.
Supervisor of Shipbuilding, Pascagoula, Mississippi, $4,120,000.
Naval Ship System Engineering Station, Philadelphia, Pennsylvania, $400,000.
Portsmouth Naval Shipyard, Kittery, Maine, $12,270,000.
Naval Weapons Station, Yorktown, Virginia, $4,220,000.

OFFICE OF THE CHIEF OF NAVAL RESEARCH

Naval Weapons Center, China Lake, California, $1,370,000.
Naval Surface Weapons Center, Dahlgren, Virginia, $15,960,000.
Naval Coastal Systems Center, Panama City, Florida, $880,000.
Naval Research Laboratory Annex, Quantico, Virginia, $1,500,000.

STRATEGIC SYSTEMS PROJECT OFFICE

Naval Submarine Base, Kings Bay, Georgia, $117,610,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of the Navy may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

MARINE CORPS

Marine Corps Air Station, Futenma, Okinawa, Japan, $4,270,000.
Marine Corps Base, Camp Smedley D. Butler, Okinawa, Japan, $8,950,000.

COMMANDER IN CHIEF, ATLANTIC FLEET

Naval Station, Guantanamo Bay, Cuba, $2,600,000.
Naval Air Station, Keflavik, Iceland, $13,840,000.
Naval Facility, Keflavik, Iceland, $1,570,000.
Atlantic Fleet Weapons Training Facility, Roosevelt Roads, Puerto Rico, $4,220,000.
Naval Station, Roosevelt Roads, Puerto Rico, $7,080,000.

COMMANDER IN CHIEF, PACIFIC FLEET

Administrative Support Unit, Bahrain Island, $2,550,000.

Mobile Construction Battalion, Camp Covington, Guam, $15,500,000.

Naval Facility, Guam, $820,000.

Naval Supply Depot, Guam, $400,000.

COMMANDER IN CHIEF, UNITED STATES NAVAL FORCES EUROPE

Naval Support Activity, Naples, Italy, $1,570,000.

Naval Station, Rota, Spain, $4,600,000.

Classified Locations, $15,700,000.

NAVAL TELECOMMUNICATIONS COMMAND

Naval Communications Area Master Station, Western Pacific, Guam, $480,000.

Naval Communications Station, Harold E. Holt, Exmouth, Australia, $2,180,000.

Naval Communications Area Master Station, Mediterranean, Naples, Italy, $8,250,000.

Naval Communication Station, Thurso, United Kingdom, $350,000.

NAVAL SECURITY GROUP COMMAND

Naval Security Group Activity, Edzell, Scotland, $2,250,000.

Naval Security Group Detachment, Guam, $2,150,000.

Naval Security Group Activity, Sabana Seca, Puerto Rico, $790,000.

NAVAL FACILITIES ENGINEERING COMMAND

Navy Public Works Center, Guam, $1,570,000.

OFFICE OF THE CHIEF OF NAVAL RESEARCH

Naval Underwater Systems Center, Andros Island, Bahamas, $3,730,000.

SEC. 2202. FAMILY HOUSING.

The Secretary of the Navy may construct or acquire family housing units (including land acquisition) at the following installations in the number of units shown, and in the amount shown, for each installation:

Naval Station, Long Beach, California, three hundred units, $22,900,000.

Naval Air Station, Moffett Field, California, one hundred and twenty-six units, $11,600,000.

Navy Public Works Center, San Francisco, California, three hundred units, $26,450,000.

Marine Corps Air-Ground Combat Center, Twentynine Palms, California, three hundred and ninety-two units and seventy-five mobile home spaces, $35,300,000.

Marine Corps Base, Camp Pendleton, California, one hundred mobile home spaces, $1,800,000.

Marine Corps Base, Camp Lejeune, North Carolina, seventy-five mobile home spaces, $930,000.

Marine Corps Development and Education Command, Quantico, Virginia, fifty mobile home spaces, $790,000.

Naval Station, Keflavik, Iceland, two hundred and fifty units, $48,642,000.

SEC. 2203. IMPROVEMENTS TO MILITARY FAMILY HOUSING UNITS.

(a) AMOUNT AUTHORIZED.—Subject to section 2825 of title 10, United States Code, the Secretary of the Navy may make expenditures, using amounts appropriated pursuant to section 2210(a)(7)(A), to improve existing military family housing units in an amount not to exceed $51,580,000.

(b) WAIVER OF MAXIMUM PER UNIT COST FOR CERTAIN IMPROVEMENT PROJECTS.—Notwithstanding the maximum amount per unit for an improvement project under 2825(b) of title 10, United States Code, the Secretary of the Navy may carry out projects to improve existing military family housing units at the following installations in the number of units shown, and in the amount shown, for each installation:

Naval Station, Mare Island, Vallejo, California, one hundred units, $5,200,000.

Marine Corps Logistics Base, Albany, Georgia, one unit, $33,300.

Navy Public Works Center, Great Lakes, Illinois, two hundred and ten units, $9,400,000.

Naval Air Station, Brunswick, Maine, forty-four units, $1,274,600.

Naval Construction Battalion Center, Gulfport, Mississippi, one unit, $28,700.

Naval Air Station, Fallon, Nevada, forty-four units, $1,868,500.

Naval Station, New York, New York, one hundred and twenty units, $9,600,000.

Naval Air Development Center, Warminster, Pennsylvania, six units, $256,800.

Naval Education and Training Center, Newport, Rhode Island, one hundred and eighty-six units, $10,200,000.

Navy Public Works Center, Guam, one unit, $64,700.

Navy Public Works Center, Guam, one hundred and nine units, $10,360,000.

Naval Air Station, Agana, Guam, one hundred units, $9,517,000.

Naval Air Station, Agana, Guam, one unit, $58,600.

SEC. 2204. ACQUISITION OF EXISTING HOUSING UNITS ON GUAM.

The Secretary of the Navy may acquire, without reimbursement, 89 existing family housing units constructed and used by the Federal Aviation Administration on land in Finegayan, Guam, held by the Secretary of the Navy under the provisions of section 1158 of title 49, United States Code.

SEC. 2205. INCREASE IN TITLE TOTAL AMOUNT FOR MILITARY CONSTRUCTION PROJECT AT KINGS BAY, GEORGIA.

Section 602(c) of the Military Construction Authorization Act, 1986 (Public Law 99-167; 99 Stat. 981), is amended by striking "may not exceed the total amount authorized" and all that follows and inserting the following:

"may not exceed—

"(1) the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a);

"(2) the amount specified in subsection (b); and

"(3) $85,600,000 (the balance of the amount authorized under section 201(a) for military construction projects at Kings Bay, Georgia).".

SEC. 2206. GRANTING OF EASEMENTS AND REPLACEMENT OF FAMILY HOUSING UNITS AND OTHER FACILITIES AT MARINE CORPS AIR STATION, EL TORO, CALIFORNIA.

(a) AUTHORITY TO GRANT EASEMENTS.—Subject to subsection (b) and other conditions the Secretary may specify in the agreements entered into for the purpose of carrying out this section, the Secretary of the Navy may grant to the County of Orange, California, one or more easements through the Marine Corps Air Station, El Toro, California.

(b) MANDATE TO REPLACE FAMILY HOUSING AND OTHER FACILITIES.—(1) Subject to subsection (c), the Secretary shall provide for the replacement of all family housing units and other facilities that are to be demolished as a result of any easement granted under subsection (a).

(2) An easement granted under subsection (a) shall not become effective until the Secretary determines that—

(A) family housing units have been constructed to replace all the family housing units to be demolished as a result of such easement; and

(B) such replacement units meet the applicable requirements specified in the agreements referred to in subsection (a).

(3) Until the determination referred to in paragraph (2) is made, the Secretary shall continue to use, as military family housing, the housing units that are to be demolished as a result of an easement becoming effective.

(c) FUNDING.—(1) The Secretary may use not more than $2,300,000 of the amount appropriated pursuant to section 2210(a)(7)(A) for payment in connection with the construction of replacement family housing units required by subsection (b).

(2) The Secretary may make available amounts for the construction of such replacement family housing units at the times specified in the agreements referred to in subsection (a).

(3) The Secretary may not make any funds available for the replacement of facilities that are not family housing facilities.

SEC. 2207. LAND EXCHANGE, LONG BEACH NAVAL STATION, CALIFORNIA.

(a) AUTHORITY TO EXCHANGE.—Subject to subsections (b) through (d), the Secretary of the Navy may exchange approximately 16 acres of real property (and improvements thereon) adjacent to Admiral Kidd Park at the Long Beach Naval Station, California, to the City of Long Beach, California, for real property (and improvements thereon) located on Hill Street, between Webster Avenue and the Terminal Island Freeway, in Long Beach, California.

(b) CONDITION.—If the fair market value of the real property and improvements conveyed to the City under subsection (a) exceeds the fair market value of the real property and improvements conveyed to the United States as described in such subsection, the City shall pay the difference to the United States. The Secretary shall deposit any funds received under this subsection as miscellaneous receipts in the Treasury.

(c) LEGAL DESCRIPTION OF LAND.—The exact acreage and legal description of the real property exchanged under this section shall be in accordance with surveys that are satisfactory to the Secretary.

(d) ADDITIONAL TERMS.—The Secretary may require such additional terms and conditions under this section as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2208. LEASE AND DEVELOPMENT OF CERTAIN REAL PROPERTY, SAN DIEGO, CALIFORNIA.

(a) IN GENERAL.—Subject to subsections (b) through (g), the Secretary of the Navy may enter into leases of real property located within the Broadway Complex of the Department of the Navy, San Diego, California.

(b) CONSIDERATION.—(1) In consideration for leasing the real property described in subsection (a), the Secretary shall obtain, without compensation or at substantially below market value, facilities or the use of facilities, or both, constructed on such real property by the lessees.

(2) The Secretary shall provide that the value of the facilities or the use of facilities, or both, obtained under paragraph (1) shall be at least equal to the value of the use of the real property leased under subsection (a), as determined by the Secretary.

(c) CONDITIONS.—(1) The Secretary shall provide that the real property leased under subsection (a) be developed in a manner that is in the best interests of the Department of the Navy, taking into consideration the appropriate use of the real property and the maximum economic return that can be

realized by the Department with respect to such property.

(2) A lease may not be entered into under this section until 21 days after the Secretary submits a plan for the development of the real property described in subsection (a) to the Committees of the Armed Services of the Senate and the House of Representatives, including a justification of how this plan is more advantageous to the United States than developing the real property with Federal funds.

(d) COMPETITIVE PROCEDURES.—Each lease entered into under subsection (a) shall be awarded through the use of competitive procedures.

(e) RIGHT TO ACQUIRE.—The Secretary may provide that, upon the termination of a lease entered into under this section, the United States shall have the right of first refusal to acquire all right, title, and interest to the facilities constructed on the real property subject to such lease.

(f) ADDITIONAL TERMS.—The Secretary may require such additional terms and conditions in connection with the leases authorized by this section as the Secretary considers appropriate to protect the interests of the United States.

(g) LIMITATION.—The Secretary may obligate or expend amounts to obtain facilities or use of facilities under subsection (b)(1) only to the extent funds are available for such purpose.

SEC. 2209. CERTAIN ENLISTED QUARTERS, GUAM.

Section 201(b) of the Military Construction Authorization Act, 1986 (Public Law 99-167; 99 Stat. 970), is amended—

(1) by striking out "Naval Magazine, Guam, $11,270,000." and inserting in lieu thereof "Naval Magazine, Guam, $6,570,000."; and

(2) by striking out "Naval Station, Guam, $10,200,000." and inserting in lieu thereof "Naval Station, Guam, $14,900,000.".

SEC. 2210. AUTHORIZATION OF APPROPRIATIONS, NAVY.

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986, for military construction, land acquisition, and military family housing functions of the Department of the Navy in the total amount of $2,210,683,000 as follows:

(1) For military construction projects inside the United States authorized by section 2201(a), $1,138,005,000.

(2) For military construction projects outside the United States authorized by section 2201(b), $105,420,000.

(3) For military construction projects at Kings Bay, Georgia, authorized by section 2201(a) of the Military Construction Authorization Act, 1986, $40,905,000.

(4) For unspecified minor construction projects under section 2805 of title 10, United States Code, $15,000,000.

(5) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $143,770,000.

(6) For advances to the Secretary of Transportation for construction of defense access roads under section 210 of title 23, United States Code, $5,400,000.

(7) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $204,292,000; and

(B) for support of military housing (including functions described in section 2833 of title 10, United States Code), $557,891,000, of which—

(i) not more than $5,214,100 may be obligated or expended for the leasing of military family housing in the United States, the Commonwealth of Puerto Rico, and Guam; and

(ii) not more than $17,244,900 may be obligated or expended for the leasing of military family housing units in foreign countries.

(b) LIMITATION ON TOTAL COST OF CONSTRUCTION PROJECTS AUTHORIZED IN THIS TITLE.—Notwithstanding the cost variations authorized by section 2853 of title 10, United States Code, and any other cost variation authorized by law, the total cost of all projects carried out under section 2201 of this division may not exceed the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a).

SEC. 2211. EXTENSION OF CERTAIN PRIOR YEAR AUTHORIZATIONS.

(a) EXTENSION OF AUTHORIZATION OF CERTAIN FISCAL YEAR 1984 PROJECTS.—Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1984 (Public Law 98-115, 97 Stat. 780), authorizations for the following projects authorized in section 201 of that Act, as extended by section 606(b) of the Military Construction Authorization Act, 1986 (Public Law 99-167, 99 Stat. 983) shall remain in effect until October 1, 1987, or the date of enactment of the Military Construction Authorization Act for fiscal year 1988, whichever is later:

(1) Land acquisition in the amount of $830,000 at the Naval Weapons Station, Concord, California.

(2) Unaccompanied enlisted personnel housing in the amount of $10,000,000 at the Naval Air Station, Jacksonville, Florida.

(3) Electrical distribution lines in the amount of $7,200,000 at the Mare Island Naval Shipyard, Vallejo, California.

(b) EXTENSION OF AUTHORIZATION OF CERTAIN FISCAL YEAR 1985 PROJECTS.—Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1985 (Public Law 98-407, 98 Stat. 1515), authorizations for the following projects authorized in sections 201 of that Act shall remain in effect until October 1, 1987, or the date of enactment of the Military Construction Authorization Act for fiscal year 1988, whichever is later:

(1) Unaccompanied enlisted personnel housing in the amount of $10,740,000 at the Marine Corps Air Station, Yuma, Arizona.

(2) Antenna support facility in the amount of $320,000 at the Naval Security Group Activity, Adak, Alaska.

(3) Data processing center in the amount of $6,160,000 at the Naval Supply Center, Bremerton, Washington.

(4) Unaccompanied enlisted personnel housing in the amount of $12,130,000 at the Naval Air Station, Whidbey Island, Washington.

(5) Unaccompanied enlisted personnel housing in the amount of $6,600,000 at the Naval Station, Mare Island, Vallejo, California.

(6) Engine test cell in the amount of $9,700,000 for the Naval Air Rework Facility, Cherry Point, North Carolina.

(7) Security building in the amount of $850,000 for the Naval Station, Norfolk, Virginia.

(8) Unaccompanied enlisted personnel housing in the amount of $1,580,000 for the Naval Station, Panama Canal, Panama.

(9) Heating, ventilation and air conditioning in the amount of $4,540,000 for the Naval Air Station, Alameda, California.

(10) Land acquisition in the amount of $4,750,000 for the Marine Corps Air Station, El Toro, California.

(11) Maintenance hangar in the amount of $5,000,000 for the Naval Air Station, Fallon, Nevada.

(12) Construction battalion unit complex in the amount of $1,090,000 for the Naval Station, Mare Island, Vallejo, California.

(13) Airframes shop in the amount of $1,680,000 for the Pacific Missile Test Center, Point Mugu, California.

(14) Unaccompanied enlisted personnel housing in the amount of $6,650,000 for the Pacific Missile Test Center, Point Mugu, California.

(15) Maintenance hangar in the amount of $13,200,000 for the Marine Corps Air Station, Tustin, California.

(16) Oil spill prevention facility in the amount of $710,000 for the Marine Corps Air Station, Tustin, California.

(17) Energy monitoring and control system in the amount of $1,100,000 for the Naval Air Station, Chase Field, Texas.

(18) Host nation infrastructure support in the amount of $2,970,000 for various locations.

TITLE III—AIR FORCE

SEC. 2301. AUTHORIZED AIR FORCE CONSTRUCTION AND LAND ACQUISITION PROJECTS.

(a) INSIDE THE UNITED STATES.—The Secretary of the Air Force may acquire real property and may carry out military construction projects in the amount shown for each of the following installations and locations inside the United States:

AIR FORCE LOGISTICS COMMAND

Hill Air Force Base, Utah, $20,550,000.
Kelly Air Force Base, Texas, $10,900,000.
McClellan Air Force Base, California, $28,900,000.
Newark Air Force Station, Ohio, $3,000,000.
Robbins Air Force Base, Georgia, $16,055,000.
Tinker Air Force Base, Oklahoma, $32,900,000.
Wright-Patterson Air Force Base, Ohio, $19,500,000.

AIR FORCE SYSTEM COMMAND

Arnold Air Force Station, Tennessee, $3,530,000.
Edwards Air Force Base, California, $14,100,000.
Eglin Air Force Base, Florida, $720,000.
Hanscom Air Force Base, Massachusetts, $4,000,000.
Patrick Air Force Base, Florida, $2,600,000.
Sunnyvale Air Force Station, California, $2,600,000.

AIR TRAINING COMMAND

Chanute Air Force Base, Illinois, $11,300,000.
Keesler Air Force Base, Mississippi, $1,970,000.
Lackland Air Force Base, Texas, $16,000,000.
Laughlin Air Force Base, Texas, $3,700,000.
Mather Air Force Base, California, $740,000.
Randolph Air Force Base, Texas, $2,250,000.
Williams Air Force Base, Arizona, $4,900,000.

AIR UNIVERSITY

Gunter Air Force Station, Alabama, $2,900,000.
Maxwell Air Force Base, Alabama, $5,310,000.

ALASKAN AIR COMMAND

Eielson Air Force Base, Alaska, $12,590,000.
Elmendorf Air Force Base, Alaska, $8,170,000.
Galena Airport, Alaska, $11,600,000.
King Salmon Airport, Alaska, $4,050,000.
Shemya Air Force Base, Alaska, $22,300,000.

MILITARY AIRLIFT COMMAND

Altus Air Force Base, Oklahoma, $310,000.
Andrews Air Force Base, Maryland, $25,430,000.
Charleston Air Force Base, South Carolina, $6,290,000.
Kirtland Air Force Base, New Mexico, $11,800,000.
Little Rock Air Force Base, Arkansas, $2,750,000.
McChord Air Force Base, Washington, $6,400,000.
McGuire Air Force Base, New Jersey, $13,595,000.
Norton Air Force Base, California, $1,450,000.
Pope Air Force Base, North Carolina, $3,400,000.
Scott Air Force Base, Illinois, $1,100,000.
Travis Air Force Base, California, $8,200,000.

PACIFIC AIR FORCES

Hickam Air Force Base, Hawaii, $4,700,000.

SPACE COMMAND

Cape Cod Air Force Station, Massachusetts, $4,300,000.
Cavalier Air Force Station, North Dakota, $2,820,000.
Falcon Air Force Station, Colorado, $6,400,000.
Peterson Air Force Base, Colorado, $3,640,000.

SPECIAL PROJECT

Various Locations, $37,056,000.

STRATEGIC AIR COMMAND

Beale Air Force Base, California, $9,516,000.
Blytheville Air Force Base, Arkansas, $3,870,000.
Carswell Air Force Base, Texas, $490,000.
Castle Air Force Base, California, $2,630,000.
Dyess Air Force Base, Texas, $4,130,000.
Ellsworth Air Force Base, South Dakota, $10,910,000.
Fairchild Air Force Base, Washington, $7,520,000.
F. E. Warren Air Force Base, Wyoming, $3,550,000.
Grand Forks Air Force Base, North Dakota, $23,130,000.
Griffiss Air Force Base, New York, $1,590,000.
Grissom Air Force Base, Indiana, $3,850,000.
Holbrook Radar Bomb Score Site, Arizona, $630,000.
K. I. Sawyer Air Force Base, Michigan, $1,730,000.
La Junta Radar Bomb Scoring Site, Colorado, $5,460,000.
Loring Air Force Base, Maine, $1,300,000.
Malmstrom Air Force Base, Montana, $33,770,000.
March Air Force Base, California, $14,440,000.
McConnell Air Force Base, Kansas, $35,740,000.
Minot Air Force Base, North Dakota, $33,100,000.
Offutt Air Force Base, Nebraska, $24,970,000.
Pease Air Force Base, New Hampshire, $2,200,000.
Plattsburgh Air Force Base, New York, $9,610,000.
Vandenburg Air Force Base, California, $2,700,000.
Whiteman Air Force Base, Missouri, $10,700,000.
Wurtsmith Air Force Base, Michigan, $11,740,000.

TACTICAL AIR COMMAND

Avon Park Auxiliary Air Field, Florida, $4,100,000.
Bangor International Airport, Maine, $1,250,000.
Base 39, Classified Location, $2,300,000.
Bergstrom Air Force Base, Texas, $1,860,000.
Davis-Monthan Air Force Base, Arizona, $12,430,000.
England Air Force Base, Louisiana, $2,300,000.
George Air Force Base, California, $9,550,000.
Holloman Air Force Base, New Mexico, $14,760,000.
Homestead Air Force Base, Florida, $6,550,000.
Indian Springs Auxiliary Air Field, Nevada, $1,700,000.
Langley Air Force Base, Virginia, $9,640,000.
Luke Air Force Base, Arizona, $24,140,000.
MacDill Air Force Base, Florida, $3,730,000.
Moody Air Force Base, Georgia, $900,000.
Mountain Home Air Force Base, Idaho, $14,760,000.
Nellis Air Force Base, Nevada, $23,800,000.
Seymour-Johnson Air Force Base, North Carolina, $2,760,000.
Shaw Air Force Base, South Carolina, $3,700,000.
Tyndall Air Force Base, Florida, $15,310,000.
WESTCONUS, Various Locations, $10,300,000.

UNITED STATES AIR FORCE ACADEMY

Air Force Academy, Colorado, $12,620,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of the Air Force may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

MILITARY AIRLIFT COMMAND

Lajes Field, Portugal, $15,750,000.
Rhein-Main Air Base, Germany, $1,300,000.

PACIFIC AIR FORCES

Kadena Air Base, Japan, $7,365,000.
Misawa Air Base, Japan, $10,300,000.
Totsuka Air Base, Japan, $700,000.
Yokosuka Air Base, Japan, $600,000.
Yokota Air Base, Japan, $4,900,000.
Camp Humphreys, Korea, $8,300,000.
Camp Red Cloud, Korea, $1,450,000.
Kimhae Air Base, Korea, $3,620,000.
Kunsan Air Base, Korea, $8,170,000.
Kwang-Ju Air Base, Korea, $600,000.
Osan Air Base, Korea, $14,350,000.
Suwon Air Base, Korea, $3,850,000.
Taegu Air Base, Korea, $5,170,000.
Saipan, $5,200,000.

SPACE COMMAND

Sondrestrom Air Base, Greenland, $5,860,000.
Thule Air Base, Greenland, $9,790,000.
Woomera Air Station, Australia, $2,300,000.

STRATEGIC AIR COMMAND

Andersen Air Force Base, Guam, $7,600,000.

TACTICAL AIR COMMAND

Keflavik Naval Air Station, Iceland, $1,600,000.
Masirah, Oman, $3,500,000.
Thumrait, Oman, $3,400,000.

UNITED STATES AIR FORCES IN EUROPE

Florennes Air Base, Belgium, $1,200,000.
Bitburg Air Base, Germany, $5,350,000.
Hahn Air Base, Germany, $12,640,000.
Lindsey Air Station, Germany, $1,200,000.
Ramstein Air Base, Germany, $31,230,000.
Sembach Air Base, Germany, $11,870,000.
Spangdahlem Air Base, Germany, $8,310,000.
Wueschheim Air Station, Germany, $310,000.
Zweibrucken Air Base, Germany, $6,740,000.
Iraklion Air Station, Greece, $320,000.
Aviano Air Base, Italy, $4,200,000.
Camp Darby, Italy, $270,000.
Comiso Air Station, Italy, $3,230,000.
San Vito Air Station, Italy, $3,790,000.
Camp New Amsterdam, The Netherlands, $1,500,000.
Woensdrecht Air Base, The Netherlands, $30,780,000.
Ankara Air Station, Turkey, $6,780,000.
Incirlik Air Base, Turkey, $12,250,000.
Pirinclik Air Station, Turkey, $3,000,000.
Martlesham Heath, United Kingdom, $1,650,000.
RAF Alconbury, United Kingdom, $17,170,000.
RAF Bentwaters, United Kingdom, $7,550,000.
RAF Chicksands, United Kingdom, $950,000.
RAF Croughton, United Kingdom, $630,000.
RAF Fairford, United Kingdom, $4,450,000.
RAF Lakenheath, United Kingdom, $500,000.
RAF Mildenhall, United Kingdom, $4,700,000.
RAF Molesworth, United Kingdom, $2,430,000.
RAF Upper Heyford, United Kingdom, $11,700,000.
RAF Welford, United Kingdom, $1,590,000.
RAF Wethersfield, United Kingdom, $650,000.
RAF Woodbridge, United Kingdom, $3,400,000.
Base 30, Classified Location, $2,950,000.
Overseas Classified Location, $11,500,000.
Various Locations, Europe, $3,953,000.

SEC. 2302. FAMILY HOUSING.

The Secretary of the Air Force may construct or acquire family housing units (including land acquisition) at the following installations, in the number of units shown, and in the amount shown, for each installation:

Bitburg Air Base, Germany, three hundred and thirty-two units, $26,415,000.
Hahn Air Base, Germany, one hundred and fifty units, $11,300,000.
La Junta Air Force Station, Colorado, forty units, $4,000,000.
Beale Air Force Base, California, family housing maintenance shop, $180,000.
Davis-Monthan Air Force Base, Arizona, family housing management office, $300,000.
McGuire Air Force Base, New Jersey, family housing management office, $325,000.
Pope Air Force Base, North Carolina, family housing management office, $300,000.
Edwards Air Force Base, California, twenty-four mobile home spaces, $376,000.

SEC. 2303. IMPROVEMENTS TO MILITARY FAMILY HOUSING UNITS.

(a) AMOUNT AUTHORIZED.—Subject to section 2825 of title 10, United States Code, the Secretary of the Air Force may make expenditures, using amounts appropriated pursuant to section 2306(a)(6)(A), to improve existing military family housing units, including energy conservation projects, in an amount not to exceed $58,644,000.

(b) WAIVER OF MAXIMUM PER UNIT COST FOR CERTAIN IMPROVEMENT PROJECTS.—Notwithstanding the maximum amount per unit for an improvement project under section 2825(b) of title 10, United States Code, the Secretary of the Air Force may carry out projects to improve existing military family housing units at the following installations in the number of units shown, and in the amount shown, for each installation:

Eielson Air Force Base, Alaska, eighty-eight units, $6,186,000.

Elmendorf Air Force Base, Alaska, twelve units, $760,000.

Air Force Academy, Colorado, one unit, $120,000.

Peterson Air Force Base, Colorado, four units, $149,000.

MacDill Air Force Base, Florida, one hundred and fifty-eight units, $4,430,000; seven units, $553,000; seventy-one units, $2,103,000.

Scott Air Force Base, Illinois, one hundred and twelve units, $4,690,000.

Barksdale Air Force Base, Louisiana, one hundred and fourteen units, $5,342,000.

Bangor Air Force Station, Maine, one unit, $30,000.

Andrews Air Force Base, Maryland, seven units, $518,000.

Pease Air Force Base, New Hampshire, two-hundred units, $7,177,000.

Plattsburgh Air Force Base, New York, twenty-nine units, $2,272,000.

Shaw Air Force Base, South Carolina, one hundred and twenty-five units, $4,385,000; seventy-four units, $2,598,000.

Carswell Air Force Base, Texas, two hundred and three units, $7,478,000.

Lackland Air Force Base, Texas, sixty-four units, $1,920,000.

Randolph Air Force Base, Texas, five units, $402,000.

Reese Air Force Base, Texas, one hundred units, $2,895,000.

Langley Air Force Base, Virginia, five units, $441,000.

Andersen Air Force Base, Guam, two hundred units, $14,517,000.

Kadena Air Base, Japan, one hundred units, $5,054,000; three units, $240,000.

SEC. 2304. RESTRICTION ON CERTAIN MILITARY CONSTRUCTION FUNDING.

Funds appropriated for military construction may not be used during fiscal year 1987 in connection with the basing at any military installation or facility other than Little Rock Air Force Base, Jacksonville, Arkansas, the eight KC-135 tanker aircraft that, as of June 1, 1986, were based at such Air Force base and assigned to the 189th Air Refueling Group of the Air National Guard.

SEC. 2305. LIMITATION ON CERTAIN EXTENSION OF AUTHORIZATION AND OBLIGATION OF CERTAIN APPROPRIATIONS.

(a) LIMITATION ON AUTHORIZATION.—The extension of authorization in section 2307 for 140 units of family housing at Fort MacArthur, California, shall become effective on the date on which the Secretary of Defense submits to the Committees on Armed Services of the Senate and the House of Representatives a report containing a description of—

(1) all Federal land in the Los Angeles, California, metropolitan area that is suitable for military family housing;

(2) the family housing needs of each military department in such area; and

(3) the sites at which the personnel who will reside in the military family housing planned for the area will carry out their military responsibilities.

(b) LIMITATION ON OBLIGATION OF PRIOR YEAR APPROPRIATIONS.—Funds appropriated for military family housing units at Fort MacArthur, California, for fiscal year 1983 or fiscal year 1985 that have not been obligated by June 9, 1986, may not be obligated until the date on which the Secretary of Defense submits the report described in subsection (a).

SEC. 2306. AUTHORIZATION OF APPROPRIATIONS, AIR FORCE.

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986, for military construction, land acquisition, and military family housing functions of the Department of the Air Force in the total amount of $2,206,440,000 as follows:

(1) For military construction projects inside the United States authorized by section 2301(a) $835,042,000.

(2) For military construction projects outside the United States authorized by section 2301(b), $347,158,000.

(3) For unspecified minor construction projects under section 2805 of title 10, United States Code, $16,000,000.

(4) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $127,260,000.

(5) For advances to the Secretary of Transportation for construction of defense access roads under section 210 of title 23, United States Code, $32,700,000.

(6) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $108,840,000; and

(B) for support of military housing (including functions described in section 2833 of title 10, United States Code), $739,440,000, of which—

(i) not more than $5,600,000 may be obligated or expended for the leasing of military family housing units in the United States, the Commonwealth of Puerto Rico, and Guam; and

(ii) not more than $74,176,000 may be obligated or expended for the leasing of military family housing units in the foreign countries.

(b) AUTHORIZATION OF UNOBLIGATED FUNDS FOR ENERGY CONSERVATION PROJECTS.—Funds appropriated to the Department of Defense for fiscal years before fiscal year 1987 which could be used for energy conservation projects of the Department of the Air Force that remain available for obligation are hereby authorized to be made available, to the extent provided in appropriation Acts, for energy conservation projects authorized in section 2301(a) in an amount not to exceed $9,470,000.

(c) LIMITATION ON TOTAL COST OF CONSTRUCTION PROJECTS AUTHORIZED IN THIS TITLE.—Notwithstanding the cost variations authorized by section 2853 of title 10, United States Code, and any other cost variation authorized by law, the total cost of all projects carried out under section 2301 may not exceed the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a) and the amount specified in subsection (b).

(d) USE OF CERTAIN FUNDS.—The Secretary of the Air Force may use not more than $350,000 of the amount appropriated pursuant to subsection (a)(3) to acquire a 20-acre tract of real property, and improvements thereon, located adjacent to Lake Wateree near Shaw Air Force Base, South Carolina.

SEC. 2307. EXTENSION OF CERTAIN PRIOR YEAR AUTHORIZATIONS.

Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1985 (Public Law 98-407, 98 Stat. 1515) and subject to section 2305 of this division, authorizations for the following projects authorized in section 302 of that Act shall remain in effect until October 1, 1987, or the date of enactment of the Military Construction Authorization Act for fiscal year 1988, whichever is later:

(1) Fort MacArthur, California, 140 units, $15,100,000.

(2) RAF Greenham Common, United Kingdom, 250 units, $22,441,000.

(3) RAF Bentwaters, United Kingdom, 200 units, $20,163,000.

TITLE IV—DEFENSE AGENCIES

SEC. 2401. AUTHORIZED CONSTRUCTION PROJECTS AND LAND ACQUISITION FOR THE DEFENSE AGENCIES.

(a) INSIDE THE UNITED STATES.—The Secretary of Defense may acquire real property and carry out military construction projects in the amounts shown for each of the following installations and locations inside the United States:

DEFENSE COMMUNICATIONS AGENCY

Scott Air Force Base, Illinois, $7,600,000.

DEFENSE LANGUAGE INSTITUTE

Defense Language Institute, Monterey, California, $5,400,000.

DEFENSE LOGISTICS AGENCY

Defense Fuel Support Point, Estero Bay, California, $680,000.

Hazardous Materials and Waste Storage Facility, Fort Stewart, Georgia, $730,000.

Hazardous Materials and Waste Storage facility Naval Air Station, Brunswick, Maine, $510,000.

Hazardous Materials and Waste Storage Facility, Kirtland Air Force Base, New Mexico, $620,000.

Defense Construction Supply Center, Columbus, Ohio, $860,000.

Hazardous Materials and Waste Storage Facility, Navy Ship Parts Control Center, Mechanicsburg, Pennsylvania, $318,000.

Defense Fuel Support Point, Charleston, South Carolina, $460,000.

Defense Fuel Support Point, Naval Supply Center, Charleston, South Carolina, $5,130,000.

Hazardous Materials and Waste Storage Facility, Fort Bragg, North Carolina, $825,000.

Defense Depot, Memphis, Tennessee, $1,160,000.

Hazardous Materials and Waste Storage Facility, Fort McCoy, Wisconsin, $260,000.

DEFENSE MAPPING AGENCY

Aerospace Center, St. Louis, Missouri, $16,700,000.

DEFENSE MEDICAL FACILITIES OFFICE

Edwards Air Force Base, California, $3,950,000.

March Air Force Base, California, $2,350,000.

Fort Ord, California, $530,000.

Vandenberg Air Force Base, California, $1,900,000.

Pearl Harbor, Hawaii, $9,700,000.

Mountain Home Air Force Base, Idaho, $30,500,000.

Fort Polk, Louisiana, $2,650,000.
Andrews Air Force Base, Maryland, $2,000,000.
Keesler Air Force Base, Mississippi, $3,100,000.
McGuire Air Force Base, New Jersey, $3,800,000.
Camp Lejeune, North Carolina, $3,900,000.
Fort Hood, Texas, $3,450,000.
Randolph Air Force Base, Texas, $13,700,000.
Fort Sam Houston, Texas, $10,000,000.

DEFENSE NUCLEAR AGENCY

Armed Forces Radiobiology Research Institute, Bethesda, Maryland, $790,000.
Field Command, Kirtland Air Force Base, New Mexico, $900,000.

JOINT TACTICAL COMMAND, CONTROL, AND COMMUNICATIONS AGENCY

Fort Huachucha, Arizona, $9,890,000.

NATIONAL SECURITY AGENCY

Fort Meade, Maryland, $5,200,000.
Classified Location, $3,000,000.
Classified Location, $4,000,000.
Classified Location, $1,000,000.

DEPARTMENT OF DEFENSE SECTION 6 SCHOOLS

Fort McClellan, Alabama, $2,830,000.
Fort Benning, Georgia, $1,080,000.
Robbins Air Force Base, Georgia, $2,440,000.
Fort Campbell, Kentucky, $1,340,000.
Fort Knox, Kentucky, $4,350,000.
Governors Island, New York, $2,600,000.
Camp Lejeune, North Carolina, $1,190,000.
Dahlgren, Virginia, $1,130,000.
Quantico, Virginia, $420,000.

UNIFORMED SERVICES UNIVERSITY OF HEALTH SCIENCES

Bethesda, Maryland, $900,000.

(b) OUTSIDE THE UNITED STATES.—The Secretary of Defense may acquire real property and may carry out military construction projects in the amounts shown for each of the following installations and locations outside the United States:

DEFENSE LOGISTICS AGENCY

Defense Fuel Support Point, Chimu Wan, Japan, $6,640,000.
Defense Fuel Support Point, Tsurumi, Japan, $3,520,000.
Defense Reutilization and Marketing Office, Bupyong, Korea, $1,290,000.
Defense Fuel Support Point, Toegeywon, Korea, $1,010,000.

DEFENSE MEDICAL FACILITIES OFFICE

Boeblingen, Germany, $3,650,000.
Grafenwoehr, Germany, $3,950,000.
Karlsruhe, Germany, $6,800,000.
Vilseck, Germany, $5,600,000.
Camp Edwards, Korea, $1,800,000.
Camp Long, Korea, $1,850,000.
Camp Pelham, Korea, $720,000.
Camp New Amsterdam, The Netherlands, $6,000,000.

DEPARTMENT OF DEFENSE DEPENDENT SCHOOLS

Florennes, Belgium, $1,260,000.
Naval Air Station, Bermuda, $4,280,000.
Aschaffenburg, Germany, $6,600,000.
Bad Kissingen, Germany, $1,330,000.
Baumholder, Germany, $1,600,000.
Dexheim, Germany, $2,430,000.
Erlangen, Germany, $3,220,000.
Gelnhausen, Germany, $1,130,000.
Grafenwoehr, Germany, $2,500,000.
Hahn, Germany, $3,470,000.
Heidelberg, Germany, $3,190,000.
Hessisch-Oldendorf, Germany, $2,310,000.
Hohenfels, Germany, $1,190,000.
Kaiserslautern, Germany, $7,880,000.
Nuernberg, Germany, $8,580,000.
Schwaebish Gmuend, Germany, $1,640,000.
Stuttgart, Germany, $4,530,000.
Wuerzburg, Germany, $7,760,000.
Seoul, Korea, $510,000.
Woensdrecht, The Netherlands, $7,420,000.

SEC. 2402. FAMILY HOUSING.

The Secretary of Defense may construct or acquire three family housing units (including land acquisition) at classified locations in the total amount of $270,000.

SEC. 2403. AUTHORIZATION OF APPROPRIATIONS, DEFENSE AGENCIES.

(a) IN GENERAL.—Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986, for military construction, land acquisition, and military family housing functions of the Department of Defense (other than the military departments), in the total amount of $516,403,000 as follows:

(1) For military construction projects inside the United States authorized by section 2401(a), $175,843,000.

(2) For military construction projects outside the United States authorized by section 2401(b), $115,660,000.

(3) For the construction of a research and engineering facility at Fort Meade, Maryland, authorized by section 401(a) of the Military Construction Authorization Act, 1986, $38,000,000.

(4) For the construction of the Madigan Army Medical Center, Fort Lewis, Washington, authorized by section 101(a) of the Military Construction Authorization Act, 1985, $72,100,000.

(5) For unspecified minor construction projects under section 2805 of title 10, United States Code, $4,000,000.

(6) For construction projects under the contingency construction authority of the Secretary of Defense under section 2804 of title 10, United States Code, $5,000,000.

(7) For architectural and engineering services and construction design under section 2807 of title 10, United States Code, $88,200,000.

(8) For military family housing functions—

(A) for construction and acquisition of military family housing and facilities, $270,000; and

(B) for support of military housing (including functions described in section 2833 of title 10, United States Code), $17,330,000, of which not more than $14,027,000 may be obligated or expended for the leasing of military family housing units in foreign countries.

(b) LIMITATION ON TOTAL COST OF CONSTRUCTION PROJECTS AUTHORIZED IN THIS TITLE.—Notwithstanding the cost variations authorized by section 2858 of title 10, United States Code, and any other cost variations authorized by law, the total cost of all projects carried out under section 2401 may not exceed the total amount authorized to be appropriated under paragraphs (1) and (2) of subsection (a).

(c) USE OF CERTAIN FUNDS.—Of the amounts appropriated pursuant to subsection (a), not more than $16,000,000 may be used for the construction of a medical facility for Kirtland Air Force Base, New Mexico.

SEC. 2404. EXTENSION OF PRIOR YEAR AUTHORIZATIONS.

Notwithstanding the provisions of section 607(a) of the Military Construction Authorization Act, 1985 (Public Law 98-407, 98 Stat. 1515), the authorizations for the following projects authorized in sections 401 and 402 of such Act shall remain in effect until October 1, 1987, or the date of the Military Construction Authorization Act for fiscal year 1988, whichever is later:

(1) Defense property disposal office in the amount of $1,950,000 at Pearl Harbor Naval Shipyard, Hawaii.

(2) Six family housing units at classified locations in the amount of $693,000.

TITLE V—NORTH ATLANTIC TREATY ORGANIZATION INFRASTRUCTURE

SEC. 2501. AUTHORITY OF THE SECRETARY OF DEFENSE TO MAKE CONTRIBUTIONS.

(a) IN GENERAL.—The Secretary of Defense may make contributions for the North Atlantic Treaty Organization infrastructure program as provided in section 2806 of title 10, United States Code, in an amount not to exceed the sum of the amount authorized to be appropriated for this purpose in section 2502 and the amount collected from the North Atlantic Treaty Organization as a result of construction previously financed by the United States.

(b) LIMITATION.—The Secretary may obligate funds under this section only to the extent funds are appropriated for use under section 2806 of title 10, United States Code.

SEC. 2502. AUTHORIZATION OF APPROPRIATIONS, NATO.

Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 1986, for contributions by the Secretary of Defense under section 2806 of title 10, United States Code, for the share of the United States of the cost of projects for the North Atlantic Treaty Organization Infrastructure Program as authorized by section 2501, in the amount of $247,000,000.

SEC. 2503. AMENDMENT TO NATO INFRASTRUCTURE PROGRAM.

(a) IN GENERAL.—Section 2806(a) of title 10, United States Code, is amended by inserting "and for related expenses" after "headquarters)".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on October 1, 1986, and shall apply only with respect to contributions made with funds appropriated for fiscal years after fiscal year 1986.

SEC. 2504. RESTRICTION ON CERTAIN FUNDING.

The Secretary of Defense may not obligate or expend any funds after fiscal year 1987 with respect to the North Atlantic Treaty Organization infrastructure program as provided in section 2806 of title 10, United States Code, until the Secretary submits to the Committees on Armed Services of the Senate and the House of Representatives—

(1) a comprehensive master plan for establishing adequate active defenses for—

(A) air bases in Europe at which operations of United States aircraft are planned; and

(B) sites in Europe used by the United States for logistic support of the North Atlantic Treaty Organization or for prepositioned overseas materiel configured to unit sets; and

(2) a report containing a certification by the Secretary that sufficient funds have been budgeted by the Department of Defense in the fiscal year 1988 five-year defense plan to meet the objectives of such comprehensive master plan.

TITLE VI—GUARD AND RESERVE FORCES FACILITIES

SEC. 2601. AUTHORIZATION FOR GUARD AND RESERVE FACILITIES.

There are authorized to be appropriated for fiscal years beginning after September 30, 1986, for the costs of acquisition, architectural and engineering services, and construction of facilities for the Guard and Reserve Forces, and for contributions therefor,

under chapter 133 of title 10, United States Code (including the cost of acquisition of land for those facilities), the following amounts:

(1) For the Department of the Army—

(A) for the Army National Guard of the United States, $121,100,000, and

(B) for the Army Reserve, $86,700,000.

(2) For the Department of the Navy, for the Naval and Marine Corps Reserves, $44,500,000.

(3) For the Department of the Air Force—

(A) for the Air National Guard of the United States, $140,000,000, and

(B) for the Air Force Reserve, $58,900,000.

TITLE VII—GENERAL PROVISIONS

PART A—EXPIRATION OF AUTHORIZATIONS

SEC. 2701. EXPIRATION OF AUTHORIZATIONS.

(a) IN GENERAL.—Except as provided in subsection (b), all authorizations contained in titles I, II, III, IV, and V for military construction projects, land acquisition, family housing projects and facilities, and contributions to the NATO Infrastructure Program (and authorizations of appropriations therefor) shall expire on October 1, 1988, or the date of the enactment of the Military Construction Authorization Act for fiscal year 1989, whichever is later.

(b) EXCEPTION.—The provisions of subsection (a) do not apply to authorizations for military construction projects, land acquisition, family housing projects and facilities, and contributions to the NATO Infrastructure Program (and authorizations of appropriations therefor), for which appropriated funds have been obligated before October 1, 1988, or the date of the enactment of the Military Construction Authorization Act for fiscal year 1989, whichever is later, for construction contracts, land acquisition, family housing projects and facilities, or contributions to the NATO Infrastructure Program.

PART B—MILITARY CONSTRUCTION PROGRAM PROVISIONS

SEC. 2711. CODIFICATION OF CERTAIN AMOUNTS REQUIRED TO BE SPECIFIED BY LAW.

(a) MAXIMUM AMOUNT FOR UNSPECIFIED MINOR MILITARY CONSTRUCTION PROJECTS.—Section 2805 of title 10, United States Code, is amended—

(1) in subsection (a), by striking out "the amount specified by law as the maximum amount for a minor military construction project" in clause (2) and inserting in lieu thereof "$1,000,000";

(2) in subsection (b)(1), by striking out "50 percent" and all that follows through "project" and inserting in lieu thereof "$500,000"; and

(3) in subsection (c), by striking out "20 percent" and all that follows through "project" and inserting in lieu thereof "$200,000".

(b) MAXIMUM AMOUNT FOR ARCHITECTURAL AND ENGINEERING SERVICES.—Section 2807(b) of such title is amended by striking out "the maximum amount specified by law for the purposes of this section" and inserting in lieu thereof "$300,000".

(c) MAXIMUM AMOUNT PER UNIT FOR AN IMPROVEMENT PROJECT FOR FAMILY HOUSING UNITS.—Section 2825(b)(1) of such title is amended by striking out "an amount specified by law for such purpose" and inserting in lieu thereof "$30,000".

(d) MAXIMUM ANNUAL RENTAL FOR A FAMILY HOUSING UNIT IN THE UNITED STATES.—Section 2828(b) of such title is amended—

(1) in paragraph (2), by striking out "the amount specified by law as the maximum annual domestic family housing unit lease amount" and inserting in lieu thereof "$10,000"; and

(2) in paragraph (3)(A), by striking out "the maximum annual domestic" and all that follows through the period and inserting in lieu thereof "$10,000 but does not exceed $12,000.".

(e) MAXIMUM ANNUAL RENTAL FOR A FAMILY HOUSING UNIT OUTSIDE THE UNITED STATES.—Section 2828(e)(1) of such title is amended by striking out "the amount specified by law as the maximum annual foreign family housing unit lease amount" and inserting in lieu thereof "$16,800".

(f) MAXIMUM NUMBER OF FAMILY HOUSING UNITS LEASED IN FOREIGN COUNTRIES.—Section 2828(e)(2) of such title is amended by striking out "shall be specified by law" and inserting in lieu thereof "is $32,000".

(g) MAXIMUM ANNUAL RENTAL FOR FAMILY HOUSING FACILITIES, OR FOR REAL PROPERTY RELATED TO FAMILY HOUSING FACILITIES, LEASED IN A FOREIGN COUNTRY.—Section 2828(f) of such title is amended by striking out "the amount specified by law for such purpose" and inserting in lieu thereof "$250,000".

SEC. 2712. FAMILY HOUSING IN FOREIGN COUNTRIES.

(a) IN GENERAL.—Subsection 2828(e)(1) of title 10, United States Code, is amended by striking out "200" and inserting in lieu thereof "220".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply only with respect to funds appropriated for fiscal years after fiscal year 1986.

SEC. 2713. PLANNING AND DESIGN.

(a) IN GENERAL.—Section 2807 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(d) For study, planning, design, architectural, and engineering services related to military construction and family housing projects, the Secretaries of the military departments may incur obligations for contracts or portions of contracts using military construction and family housing appropriations from different fiscal years to the extent that those appropriations are available for obligation.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply only to funds appropriated for fiscal years after fiscal year 1986.

SEC. 2714. BUDGETING FOR GUARD AND RESERVE.

Section 2859 of title 10, United States Code, is amended by adding at the end the following sentence: "Beginning with fiscal year 1988, the Secretary of Defense shall provide that at least 10 percent of the total amount requested for military construction authorization (excluding the amount requested for military family housing) for a fiscal year shall be requested for the costs of acquisition, architectural and engineering services, and construction of facilities for the Guard and Reserve Forces, and for contributions therefor, under chapter 133 of this title (including the cost of acquisition of land for those facilities).".

SEC. 2715. EXEMPTION FOR CERTAIN MILITARY CONSTRUCTION CONTRACTS.

Section 2852 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(c)(1) With respect to the rate of wages to be paid in fiscal year 1987 for laborers and mechanics employed on any authorized military construction or military family housing project (including any alteration or repair project), the Secretary of Defense and the Secretaries of the military departments may enter into a contract for not more than $25,000 to carry out such a project without regard to the requirements of the Act entitled 'An Act relating to the rate of wages for laborers and mechanics employed on public buildings of the United States and the District of Columbia by contractors and subcontractors, and for other purposes', approved March 3, 1931 (40 U.S.C. 276a–276a-5) (referred to in this subsection as the 'Davis-Bacon Act').

"(2) Any 2 or more contracts for any authorized military construction or military family housing project (including any alteration or repair project) that—

"(A) individually do not exceed $25,000,

"(B) in the aggregate do exceed $25,000, and

"(C) all relate to the same project or related projects at the same site,

shall be treated as a single contract for purposes of paragraph (1).

"(3)(A)(i) Any interested person may bring an action against the Secretary of Defense or Secretaries of the military departments to enforce the requirements of the Davis-Bacon Act with respect to any contract to which paragraph (1) applies.

"(ii) For purposes of this paragraph, the term 'interested person' means any contractor likely to seek or to work under a contract to which paragraph (1) applies, any association representing such a contractor, any laborer or mechanic likely to be employed or to seek employment under such a contract, or any labor organization which represents such a laborer or mechanic.

"(B) An action described in subparagraph (A) may be brought in any United States district court for the district in which the violation of the Davis-Bacon Act is alleged to have been committed or in the United States District Court for the District of Columbia. Such an action shall be commenced not later than 90 days after the day on which the last labor was performed under the contract with respect to which the action is brought.

"(C) If in an action brought under subparagraph (A) the court finds that there has been a violation of the Davis-Bacon Act with respect to a contract to which paragraph (1) applies, the court may order such relief as may be appropriate, including (i) compliance with the Davis-Bacon Act in the payment of wages under such contract, and (ii) the payment by the Secretary of Defense and the Secretaries of the military departments, as the case may be, of prevailing wage rates in accordance with that Act from the date construction began under the contract involved in such action until the date of the judgment of the court, together with interest, at a rate determined by the court, on the difference between the wages paid under such contract and the wages required to be paid under such contract by the Davis-Bacon Act.

"(D) If an interested person prevails in an action brought under subparagraph (A), the court in such action shall assess the defendants in the action reasonable attorney fees and other litigation costs reasonably incurred by the interested person.

"(E) If in an action brought under subparagraph (A) the Secretary of Defense certifies that performance of the contract involved in such action is essential to the national security, the court shall not grant any relief which delays, halts, or in any other manner hinders the performance of that contract.".

PART C—REAL PROPERTY TRANSACTIONS

SEC. 2721. PROPERTY MANAGEMENT.

In accordance with the provisions of section 202 of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 483) governing transfers of excess property, the

Administrator of General Services shall transfer, without reimbursement, to the Secretary of the Army approximately 235 acres of real property (and improvements thereon) near Beltsville, Maryland, for such use as the Secretary of the Army considers appropriate.

SEC. 2722. AUTHORIZATION OF LAND CONVEYANCE TO CITY OF ARCADIA, CALIFORNIA.

(a) IN GENERAL.—Subject to subsection (b), the County of Los Angeles, California, may convey the land described in the Act entitled "An Act to convey certain land in the county of Los Angeles, State of California", approved March 24, 1933, to the City of Arcadia, California.

(b) REVERTER.—Any conveyance made under subsection (a) may be made only on the condition that the land shall revert to the United States if it is used for purposes other than public park, playground, and recreation purposes.

PART D—MISCELLANEOUS

SEC. 2731. PROHIBITION OF FUNDING FOR CERTAIN MILITARY CONSTRUCTION CONTRACTS ON GUAM.

(a) IN GENERAL.—Except as provided in subsection (b), funds appropriated pursuant to any authorization made by this division may not be expended with respect to any contract for a military construction project on Guam if any work is carried out on such project by any person who is a nonimmigrant described in section 101(a)(15)(H)(ii) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(15)(H)(ii)).

(b) EXCEPTION.—In any case in which there is no acceptable bid made in response to a solicitation by the Secretary of a military department for bids on a contract for a military construction project on Guam and the Secretary concerned makes a determination that the prohibition contained in subsection (a) is a significant deterrent to obtaining bids on such contract, the Secretary concerned may make another solicitation for bids on such contract and the prohibition contained in subsection (a) shall not apply to such contract after the end of the 21-day period beginning on the date on which the Secretary concerned transmits a report concerning such contract to the Committees on Armed Services of the Senate and the House of Representatives.

(c) EFFECTIVE DATE.—This section shall apply only to contracts entered into, amended, or otherwise modified on or after the date of the enactment of this division.

SEC. 2732. POSTAL FACILITIES.

(a) ARMY.—Section 4779 of title 10, United States Code, is amended—

(1) by striking out subsection (b); and

(2) by redesignating subsection (c) as subsection (b).

(b) AIR FORCE.—Section 9779 of such title is amended—

(1) by striking out subsection (b); and

(2) by redesignating subsection (c) as subsection (b).

SEC. 2733. REPORT.

The Secretary of the Army shall, within 45 days of the date of the enactment of this Act, submit a real estate acquisition report for the lease of temporary facilities located in Rio Rancho, New Mexico, for the Hawk Missile Battalion of the New Mexico Army National Guard that is to be permanently located near Rio Rancho, New Mexico.

DIVISION C—OTHER NATIONAL DEFENSE AUTHORIZATIONS

TITLE I—DEPARTMENT OF ENERGY NATIONAL SECURITY PROGRAMS

SEC. 3001. SHORT TITLE.

This title may be cited as the "Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1987".

PART A—NATIONAL SECURITY PROGRAMS AUTHORIZATIONS

SEC. 3011. OPERATING EXPENSES.

Funds are authorized to be appropriated to the Department of Energy for fiscal year 1987 for operating expenses incurred in carrying out national security programs (including scientific research and development in support of the Armed Forces, strategic and critical materials necessary for the common defense, and military applications of nuclear energy and related management and support activities) as follows:

(1) For weapons activities, $3,327,454,000, to be allocated as follows:

(A) For research and development, $895,200,000, of which $17,000,000 shall be used for the plasma separation process program.

(B) For weapons testing, $539,800,000.

(C) For production and surveillance, $1,833,604,000.

(D) For program direction, $58,850,000.

(2) For the defense inertial confinement fusion program, $148,200,000, to be allocated as follows:

(A) $61,000,000 shall be used to support the program at the Lawrence Livermore National Laboratory.

(B) $33,000,000 shall be used to support the program at the Los Alamos National Laboratory.

(C) $29,000,000 shall be used to support the program at the Sandia National Laboratory, Albuquerque, New Mexico.

(D) $25,200,000 shall be used for supporting services.

(3) For verification and control technology, $90,500,000.

(4) For defense nuclear materials production, $1,565,990,000, to be allocated as follows:

(A) For uranium enrichment for naval reactors, $176,000,000.

(B) For other uranium enrichment, $14,500,000.

(C) For production reactor operations, $616,660,000.

(D) For processing of defense nuclear materials, including naval reactors fuel, $493,830,000, of which $70,900,000 shall be used for special isotope separation.

(E) For supporting services, $242,100,000.

(F) For program direction, $22,900,000.

(5) For defense nuclear waste and byproduct management, $431,050,000, to be allocated as follows:

(A) For interim waste management, $314,345,000.

(B) For long-term waste management technology, $75,205,000.

(C) For terminal waste storage, $39,100,000.

(D) For program direction, $2,400,000.

(6) For nuclear materials safeguards and security technology development program, $60,100,000.

(7) For security investigations, $33,300,000.

(8) For naval reactors development, $523,800,000.

SEC. 3012. PLANT AND CAPITAL EQUIPMENT.

Funds are authorized to be appropriated to the Department of Energy for fiscal year 1987 for plant and capital equipment (including maintenance, restoration, planning, construction, acquisition, modification of facilities, and the continuation of projects authorized in prior years, land acquisition related thereto, and acquisition and fabrication of capital equipment not related to construction) necessary for national security programs as follows:

(1) For weapons activities:

Project 87-D-101, general plant projects, various locations, $29,000,000.

Project 87-D-121, general plant projects, various locations, $32,000,000.

Project 87-D-122, short-range attack missile II (SRAM II) warhead production facilities, various locations, $5,000,000.

Project 87-D-123, protective clothing decontamination facility, Rocky Flats Plant, Golden, Colorado, $500,000.

Project 86-D-103, decontamination and waste treatment facility, Lawrence Livermore National Laboratory, Livermore, California, $5,300,000, for a total project authorization of $9,000,000.

Project 86-D-104, strategic defenses facility, Sandia National Laboratories, Albuquerque, New Mexico, $7,000,000, for a total project authorization of $11,000,000.

Project 86-D-105, instrumentation systems laboratory, Sandia National Laboratories, Albuquerque, New Mexico, $5,800,000, for a total project authorization of $12,000,000.

Project 86-D-106, laboratory data communications center, Los Alamos National Laboratory, Los Alamos, New Mexico, $10,000,000, for a total project authorization of $13,000,000.

Project 86-D-122, structural upgrade of existing plutonium facilities, Rocky Flats Plant, Golden, Colorado, $2,420,000, for a total project authorization of $5,420,000.

Project 86-D-123, environmental hazards elimination, various locations, $16,840,000, for a total project authorization of $25,540,000.

Project 86-D-124, safeguards and site security upgrading, Phase II, Mound Plant, Miamisburg, Ohio, $1,880,000, for a total project authorization of $4,880,000.

Project 86-D-125, safeguards and site security upgrade, Phase II, Pantex Plant, Amarillo, Texas, $8,410,000, for a total project authorization of $9,910,000.

Project 86-D-130, tritium loading facility replacement, Savannah River Plant, Aiken, South Carolina, $29,700,000, for a total project authorization of $34,700,000.

Project 85-D-102, nuclear weapons research, development, and testing facilities revitalization, Phase I, various locations, $29,950,000, for a total project authorization of $130,750,000.

Project 85-D-103, safeguards and security enhancements, Lawrence Livermore National Laboratory and Sandia National Laboratories, Livermore, California, $6,500,000, for a total project authorization of $27,600,000.

Project 85-D-105, combined device assembly facility, Nevada Test Site, Las Vegas, Nevada, $5,400,000, for a total project authorization of $20,000,000.

Project 85-D-106, hardened engineering test building, Lawrence Livermore National Laboratory, Livermore, California, $330,000, for a total project authorization of $3,030,000.

Project 85-D-112, enriched uranium recovery improvements, Y-12 Plant, Oak Ridge, Tennessee, $19,000,000, for a total project authorization of $38,800,000.

Project 85-D-113, power plant and steam distribution system, Pantex Plant, Amarillo,

Texas, $1,790,000, for a total project authorization of $24,790,000.

Project 85-D-115, renovate plutonium building utility systems, Rocky Flats Plant, Golden, Colorado, $13,440,000, for a total project authorization of $34,040,000.

Project 85-D-121, air and water pollution control facilities, Y-12 Plant, Oak Ridge, Tennessee, $9,160,000, for a total project authorization of $28,160,000.

Project 85-D-125, tactical bomb production facilities, various locations, $12,800,000, for a total project authorization of $28,800,000.

Project 84-D-102, radiation-hardened integrated circuit laboratory, Sandia National Laboratories, Albuquerque, New Mexico, $3,000,000, for a total project authorization of $40,500,000.

Project 84-D-107, nuclear testing facilities revitalization, various locations, $13,300,000, for a total project authorization of $79,240,000.

Project 84-D-112, Trident II warhead production facilities, various locations, $14,500,000, for a total project authorization of $155,200,000.

Project 84-D-124, environmental improvements, Y-12 Plant, Oak Ridge, Tennessee, $9,280,000, for a total authorization of $38,280,000.

Project 84-D-211, safeguards and site security upgrading, Y-12 Plant, Oak Ridge, Tennessee, $27,220,000, for a total project authorization of $40,220,000.

Project 82-D-107, utilities and equipment restoration, replacement, and upgrade, Phase III, various locations, $97,904,000, for a total project authorization of $838,304,000.

Project 82-D-144, simulation technology laboratory, Sandia National Laboratories, Albuquerque, New Mexico, $6,000,000, for a total project authorization of $40,000,000.

(2) For materials production:

Project 87-D-146, general plant projects, various locations, $32,100,000.

Project 87-D-149, reduced chemical discharges to process sewers, Richland, Washington, $3,150,000.

Project 87-D-150, radioactive liquid effluent treatment facility, partial design only, Richland, Washington, $4,000,000.

Project 87-D-152, environmental protection plantwide, Savannah River, South Carolina, $1,500,000.

Project 87-D-159, environmental, health, and safety improvements, Phase I, Feed Materials Production Center, Fernald, Ohio, $10,000,000.

Project 86-D-149, productivity retention program, Phase I and II, various locations, $65,625,000, for a total project authorization of $89,825,000.

Project 86-D-150, in-core neutron monitoring system, N reactor, Richland, Washington, $2,760,000, for a total project authorization of $7,220,000.

Project 86-D-151, PUREX electrical system upgrade, Richland, Washington, $2,480,000, for a total project authorization of $4,980,000.

Project 86-D-152, reactor electrical distribution system, Savannah River, South Carolina, $8,410,000, for a total project authorization of $10,410,000.

Project 86-D-153, additional line III furnace, Savannah River, South Carolina, $7,605,000, for a total project authorization of $9,105,000.

Project 86-D-154, effluent treatment facility, Savannah River, South Carolina, $15,650,000, for a total project authorization of $18,150,000.

Project 86-D-156, plantwide safeguards systems, Savannah River, South Carolina, $13,610,000, for a total project authorization of $16,610,000.

Project 85-D-139, fuel processing restoration, Idaho Fuels Processing Facility, Idaho National Engineering Laboratory, Idaho, $32,430,000, for a total project authorization of $54,430,000.

Project 85-D-140, productivity and radiological improvements, Feed Materials Production Center, Fernald, Ohio, $23,500,000, for a total project authorization of $41,500,000.

Project 85-D-145, fuel production facility, Savannah River, South Carolina, $27,500,000, for a total project authorization of $53,300,000.

Project 84-D-134, safeguards and security improvements, plantwide, Savannah River, South Carolina, $5,765,000, for a total project authorization of $32,665,000.

Project 84-D-135, process facility modifications, Richland, Washington, $24,475,000, for a total project authorization of $56,975,000.

Project 84-D-136, enriched uranium conversion facility modifications, Y-12 Plant, Oak Ridge, Tennessee, $500,000, for a total project authorization of $20,100,000.

Project 82-D-124, restoration of production capabilities, Phases II, III, IV, and V, various locations, $3,511,000, for a total project authorization of $352,045,000.

(3) For defense waste and byproducts management:

Project 87-D-171, general plant projects, interim waste operations and long-term waste management technology, various locations, $24,535,000.

Project 87-D-172, WESF K-3 filter upgrade, Richland, Washington, $500,000.

Project 87-D-173, 242-A evaporator crystallizer upgrade, Richland, Washington, $2,800,000.

Project 87-D-174, 241-AQ tank farm, Richland, Washington, $2,100,000.

Project 87-D-175, steam system rehabilitation, Phase I, Richland, Washington, $900,000.

Project 87-D-177, test reactor area liquid radioactive waste cleanup system, Phase III, Idaho National Engineering Laboratory, Idaho, $700,000.

Project 87-D-180, burial ground expansion, Savannah River, South Carolina, $2,000,000.

Project 87-D-181, diversion box and pump pit containment buildings, Savannah River, South Carolina, $960,000.

Project 86-D-172, B-plant F-filter, Richland, Washington, $2,949,000, for a total project authorization of $3,949,000.

Project 86-D-174, low-level waste processing and shipping system, Feed Materials Production Center, Fernald, Ohio, $8,072,000, for a total authorization of $10,572,000.

Project 86-D-175, Idaho National Engineering Laboratory security upgrade, Idaho National Engineering Laboratory, Idaho, $5,258,000, for a total project authorization of $7,258,000.

Project 85-D-158, central warehouse upgrade, Richland, Washington, $1,044,000, for a total project authorization of $6,744,000.

Project 85-D-159, new waste transfer facilities, Savannah River, South Carolina, $4,118,000, for a total project authorization of $24,118,000.

Project 85-D-160, test reactor area security system upgrade, Idaho National Engineering Laboratory, Idaho, $2,703,000, for a total project authorization of $6,953,000.

Project 81-T-105, defense waste processing facility, Savannah River, South Carolina, $123,967,000, for a total project authorization of $721,467,000.

(4) For naval reactors development:

Project 87-N-101, general plant projects, various locations, $4,800,000.

Project 87-N-102, Kesselring site facilities upgrade, Knolls Atomic Power Laboratory, West Milton, New York, $5,000,000.

Project 87-N-103, computation laboratory addition, Bettis Atomic Power Laboratory, West Mifflin, Pennsylvania, $2,300,000.

(5) For capital equipment not related to construction:

(A) For weapons activities, $273,570,000.

(B) For the defense inertial confinement fusion program, $9,500,000.

(C) For materials production, $110,120,000.

(D) For defense waste and byproducts management, $35,505,000.

(E) For verification and control technology, $4,200,000.

(F) For nuclear safeguards and security, $4,800,000.

(G) For naval reactors development, $46,700,000.

(6) For verification and control technology:

Project 85-D-171, Space Science Laboratory, Los Alamos, New Mexico, $2,000,000, for a total project authorization of $7,500,000.

(7) The sum of the amounts authorized to be appropriated by this section is hereby reduced by $11,000,000.

SEC. 3013. AUTHORIZATION FOR STRATEGIC DEFENSE INITIATIVE.

Of the funds authorized to be appropriated in sections 3011 and 3012, $279,000,000 is authorized for programs, projects, and activities of the Strategic Defense Initiative, such amount being the amount of $270,000,000 provided for fiscal year 1986 plus an additional $9,000,000 representing a 3.5 percent increase for inflation.

PART B—RECURRING GENERAL PROVISIONS

SEC. 3021. REPROGRAMMING.

(a) NOTICE TO CONGRESS.—(1) Except as otherwise provided in this title—

(1) no amount appropriated pursuant to this title may be used for any program in excess of 105 percent of the amount authorized for that program by this title or $10,000,000 more than the amount authorized for that program by this title, whichever is the lesser, and

(2) no amount appropriated pursuant to this title may be used for any program which has not been presented to, or requested of, the Congress,

unless a period of 30 calendar days (not including any day on which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain) has passed after receipt by the Committees on Armed Services and Appropriations of the Senate and House of Representatives of notice from the Secretary of Energy (hereinafter in this part referred to as the "Secretary") containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of such proposed action, or unless each such committee before the expiration of such period has transmitted to the Secretary written notice to the effect that such committee has no objection to the proposed action.

(b) LIMITATION ON AMOUNT OBLIGATED.—In no event may the total amount of funds obligated pursuant to this title exceed the total amount authorized to be appropriated by this title.

SEC. 3022. LIMITS ON GENERAL PLANT PROJECTS.

(a) IN GENERAL.—The Secretary may carry out any construction project under the general plant projects provisions authorized by this title if the total estimated cost of the construction project does not exceed $1,200,000.

(b) REPORT TO CONGRESS.—If at any time during the construction of any general plant project authorized by this title, the estimated cost of the project is revised because of unforeseen cost variations and the revised cost of the project exceeds $1,200,000, the Secretary shall immediately furnish a complete report to the Committees on Armed Services and Appropriations of the Senate and House of Representatives explaining the reasons for the cost variation.

SEC. 3023. LIMITS ON CONSTRUCTION PROJECTS.

(a) IN GENERAL.—Whenever the current estimated cost of a construction project, which is authorized by section 3012 of this title, or which is in support of national security programs of the Department of Energy and was authorized by any previous Act, exceeds by more than 25 percent the higher of—

(1) the amount authorized for the project; or

(2) the amount of the total estimated cost for the project as shown in the most recent budget justification data submitted to Congress,

construction may not be started or additional obligations incurred in connection with the project above the total estimated cost, as the case may be, unless a period of 30 calendar days (not including any day on which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain) has passed after receipt by the Committees on Armed Services and Appropriations of the Senate and House of Representatives of notice from the Secretary of Energy containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of such proposed action, or unless each such committee before the expiration of such period has transmitted to the Secretary written notice to the effect that such committee has no objection to the proposed action.

(b) EXCEPTION.—Subsection (a) shall not apply to any construction project which has a current estimated cost of less than $5,000,000.

SEC. 3024. FUND TRANSFER AUTHORITY.

Funds appropriated pursuant to this title may be transferred to other agencies of the Government for the performance of the work for which the funds were appropriated, and funds so transferred may be merged with the appropriations of the agency to which the funds are transferred.

SEC. 3025. AUTHORITY FOR CONSTRUCTION DESIGN.

(a) IN GENERAL.—(1) Within the amounts authorized by this title for plant engineering and design, the Secretary may carry out advance planning and construction designs (including architectural and engineering services) in connection with any proposed construction project if the total estimated cost for such planning and design does not exceed $2,000,000.

(2) In any case in which the total estimated cost for such planning and design exceeds $300,000, the Secretary shall notify the Committees on Armed Services and Appropriations of the Senate and House of Representatives in writing of the details of such project at least 30 days before any funds are obligated for design services for such project.

(b) SPECIFIC AUTHORITY REQUIRED.—In any case in which the total estimated cost for advance planning and construction design in connection with any construction project exceeds $2,000,000, funds for such design must be specifically authorized by law.

SEC. 3026. AUTHORITY FOR EMERGENCY CONSTRUCTION DESIGN.

In addition to the advance planning and construction design authorized by section 3012, the Secretary may perform planning and design utilizing available funds for any Department of Energy defense activity construction project whenever the Secretary determines that the design must proceed expeditiously in order to meet the needs of national defense or to protect property or human life.

SEC. 3027. FUNDS AVAILABLE FOR ALL NATIONAL SECURITY PROGRAMS OF THE DEPARTMENT OF ENERGY.

Subject to the provisions of appropriation Acts, amounts appropriated pursuant to this title for management and support activities and for general plant projects are available for use, when necessary, in connection with all national security programs of the Department of Energy.

SEC. 3028. ADJUSTMENTS FOR PAY INCREASES.

Appropriations authorized by this title for salary, pay, retirement, or other benefits for Federal employees may be increased by such amounts as may be necessary for increases in such benefits authorized by law.

SEC. 3029. AVAILABILITY OF FUNDS.

When so specified in an appropriation Act, amounts appropriated for "Operating Expenses" or for "Plant and Capital Equipment" may remain available until expended.

PART C—SPECIAL PROGRAM PROVISIONS

SEC. 3031. PROTECTION OF SENSITIVE TECHNICAL INFORMATION.

(a) Whenever any contractor makes an invention or discovery to which the Department of Energy has elected to retain ownership at the time of contracting pursuant to section 202(a) (ii) or (iv) of title 35, United States Code, or pursuant to section 152 or section 159 of the Atomic Energy Act of 1954 (42 U.S.C. 2182 or 2189) in the course of or under any Government contract or subcontract of the Naval Nuclear Propulsion Program or the nuclear weapons programs or other atomic energy defense activities of the Department of Energy and the contractor requests waiver of any property rights, the Secretary of Energy may decide to assign to the contractor property rights in such invention or discovery. Such decision shall be made within a reasonable time (which shall usually be six months from the date of the request by the contractor for assignment of such rights).

(b) In making a decision under this section, the Secretary shall consider—

(1) whether national security will be compromised;

(2) whether sensitive technical information (whether classified or unclassified) under the Naval Nuclear Propulsion Program or the nuclear weapons programs or other atomic energy defense activities of the Department of Energy for which dissemination is controlled under Federal statutes and regulations will be released to unauthorized persons;

(3) whether an organizational conflict of interest contemplated by Federal statutes and regulations will result; and

(4) whether failure to assert such a claim will adversely affect the operation of the Naval Nuclear Propulsion Program or the nuclear weapons programs or other atomic energy defense activities of the Department of Energy.

SEC. 3032. RESTRICTION ON USE OF FUNDS TO PAY PENALTIES UNDER ENVIRONMENTAL LAWS.

(a) RESTRICTION.—Funds appropriated to the Department of Energy for fiscal year 1987 pursuant to authorizations of appropriations in this title for the Naval Nuclear Propulsion Program or the nuclear weapons programs or other atomic energy defense activities of the Department of Energy may not be used to pay a penalty, fine, forfeiture, or settlement in regard to a defense activity or facility of the Department of Energy due to a failure to comply with any environmental requirement.

(b) EXCEPTION.—Subsection (a) shall not apply with respect to an environmental requirement if—

(1) the President fails to request funds for compliance with the environmental requirement; or

(2) the Congress has appropriated funds for such purpose (and such funds have not been sequestered, deferred, or rescinded) and the Secretary of Energy fails to use the funds for such purpose.

SEC. 3033. STUDY OF PRODUCTION REACTOR SAFETY.

(a) REQUIREMENT FOR INDEPENDENT STUDY.—(1) The Secretary of Energy shall request the National Academy of Sciences and the National Academy of Engineering—

(A) to make an independent assessment of the safety of continuing operations of the "N" Production Reactor, located near Richland, Washington, including any technical and safety issues raised by the nuclear reactor accident at Chernobyl in the Soviet Union; and

(B) to provide a report on such assessment, together with findings and recommendations, concurrently to Congress and the Secretary not later than March 1, 1987.

(2) The assessment should—

(A) be made by distinguished scientists and engineers drawn from the councils of the National Academy of Sciences, the National Academy of Engineering, and the National Institute of Medicine chosen with regard for their special competence and expertise; and

(B) be conducted in a manner that would allow for appropriate public participation in the review process consistent with statutory requirements to prevent the unauthorized disclosure of classified information.

(b) REVIEW AND COMMENT BY SECRETARY.—The Secretary shall review the findings and recommendations contained in the report under subsection (a) and shall separately provide to Congress a report containing—

(1) the Secretary's comments on such findings and recommendations; and

(2) a description (including cost assessments) of plans of the Secretary to correct any technical problems described in the report or to carry out recommendations set forth in the report.

SEC. 3034. COMMUNITY ASSISTANCE PAYMENTS.

Section 1532 of the Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1986 (title XV of Public Law 99-145; 99 Stat. 773) is amended by adding at the end the following new subsection:

"(d) RULE OF CONSTRUCTION.—The authority of the Secretary of Energy under subsection (a) to provide a final financial settlement with Anderson County and Roane County, Tennessee, and with the City of Oak Ridge, Tennessee, and terminate all annual

assistance payments made to those entities pursuant to section 91 of the Atomic Energy Community Act of 1955 (42 U.S.C. 2391) does not affect any other right, function, or duty of the Secretary with respect to such Act (42 U.S.C. 2301), and the Secretary shall consider the purposes of such Act a continuing atomic energy defense function of the Department of Energy.".

SEC. 3035. AUTHORITY FOR DEPARTMENT OF ENERGY CONTRACTOR EMPLOYEES TO CARRY FIREARMS BEYOND BOUNDARIES OF A DOE FACILITY.

Section 161k. of the Atomic Energy Act of 1954 is amended—

(1) by inserting "and subcontractors (at any tier)" in the second sentence after "employees of its contractors";

(2) by striking out "owned by the United States and" in the second sentence and inserting in lieu thereof "under the jurisdiction of the United States";

(3) by inserting "or being transported to or from such facilities" in the second sentence after "contracted to the United States";

(4) by inserting after the third sentence the following new sentence: "An employee of a contractor or subcontractor authorized to carry firearms under this subsection may make such arrests only when the individual to be arrested is within, or in direct flight from, the area of such offense."; and

(5) by striking out the semicolon at the end and inserting in lieu thereof the following: ". The Secretary, with the approval of the Attorney General, shall issue guidelines to implement this subsection;".

SEC. 3036. LIMITATION ON NUCLEAR TESTING.

(a) ONE-YEAR LIMITATION.—During calendar year 1987, funds appropriated to the Department of Defense or the Department of Energy may not be obligated or expended to carry out any nuclear explosion with a yield exceeding one kiloton, or a nuclear explosion that is conducted outside a designated test area, unless the President certifies to Congress—

(1) that the Soviet Union has carried out a nuclear explosion with a yield exceeding one kiloton after December 31, 1986;

(2) that the Soviet Union has carried out a nuclear explosion outside a designated test area after December 31, 1986; or

(3) that the Soviet Union has refused to accept and implement reciprocal in-country monitoring arrangements to be in effect for calendar year 1987.

(b) TERMINATION FOR CERTAIN NEW AGREEMENTS.—The limitation on nuclear explosions in subsection (a) shall cease to apply if supplanted by an agreement, accord, or treaty between the United States and the Soviet Union establishing significant limits on nuclear explosions by such countries that is negotiated after the date of the enactment of this Act.

(c) DEFINITIONS.—For the purposes of this section:

(1) The term "in-country reciprocal monitoring arrangements" means arrangements between the United States and the Soviet Union to supplement national technical means of verification through the emplacement by each country of seismic monitoring stations on the national territory of the other so that the seismic monitoring network of each nation will be capable of detecting and identifying nuclear explosions with a yield exceeding one kiloton at known nuclear weapons test sites of the other nation and at any other site of the other nation that currently has the capability to accommodate decoupled nuclear explosions with a yield exceeding one kiloton.

(2) The term "designated test area" means an area within the Soviet Union or the United States which—

(A) is known to be composed of strong-coupling rock; and

(B) is located within the boundaries of a single existing nuclear weapons testing site in such country.

SEC. 3037. CONTRACTOR LIABILITY FOR CLAIMS ARISING OUT OF ATOMIC WEAPONS TESTING PROGRAMS.

(a) IN GENERAL.—(1) Chapter 171 of title 28, United States Code, is amended by adding at the end the following new section:

"§ 2681. Certain civil actions involving the atomic weapons testing program

"(a)(1) Notwithstanding any other provision of this chapter, or section 2401 of this title, an action may be brought against the United States for money damages for injury to or loss of property or for personal injury or death due to exposure to radiation based on an act or omission of a contractor in carrying out an atomic weapons testing program under a contract with the United States. In any such action, the United States shall be liable to the same extent as the contractor would be liable, and shall have available as defenses only those defenses that would be available to the contractor.

"(2) Notwithstanding any other provision of this chapter, or section 2401 of this title, in any action brought against any person other than the United States for money damages for injury to or loss of property or for personal injury or death due to exposure to radiation based on an act or omission of a contractor in carrying out an atomic weapons testing program under a contract with the United States, the United States shall be substituted as the party defendant and shall have available as defenses only those defenses available to the contractor.

"(3) For purposes of any action described in paragraph (1) or (2), the contractor shall not be considered to be a corporation primarily acting as an instrumentality or agency of the United States.

"(4) Any action described in paragraph (1) or (2) shall, at the request of any party to the action, be tried by the court with a jury.

"(b) A contractor against whom an action described in subsection (a)(2) is brought shall promptly deliver all process served upon that contractor to the Attorney General. Upon certification by the Attorney General that the suit against the contractor is within the provisions of subsection (a)(2), an action commenced in a State court shall be removed without bond at any time before trial by the Attorney General to the district court of the United States for the district and division embracing the place in which the action is pending. For purposes of such removal, the certification by the Attorney General under this subsection establishes conclusively that the action is within the provisions of subsection (a)(2) of this section.

"(c) In any action under subsection (a), the United States shall not be liable for interest prior to judgment or for punitive damages.

"(d) The judgment in an action under subsection (a) shall constitute a complete bar to any other civil action by the plaintiff, by reason of the same subject matter, against the contractor whose act or omission gave rise to the claim, or against any employee or agent of the contractor.

"(e) The Attorney General or a person designated by the Attorney General may arbitrate, compromise, or settle any action under subsection (a).

"(f)(1) No attorney may charge, demand, receive, or collect for services rendered, fees in excess of 25 percent of any judgment rendered, or any compromise or settlement made, in an action under subsection (a).

"(2) Any attorney who violates paragraph (1) shall, if recovery be had, be fined not more than $2,000 or imprisoned not more than one year, or both.

"(g) This section applies to actions pending on October 19, 1984, and to actions commenced after that date.

"(h) For purposes of this section, the term 'contractor' includes a contractor, or cost reimbursement subcontractor of any tier, participating in the conduct of the United States atomic weapons testing program for the Department of Energy (or any of its predecessor agencies, including the Manhattan Engineer District, the Atomic Energy Commission, and the Energy Research and Development Administration). Such term also includes facilities which conduct or have conducted research concerning health effects of ionizing radiation in connection with the testing under contract with the Department of Energy (or any of its predecessor agencies).".

(2) The table of sections at the beginning of chapter 171 of title 28, United States Code, is amended by adding at the end the following new item:

"2681. Certain civil actions involving the atomic weapons testing program.".

(b) COURT JURISDICTION.—Section 1346 of title 28, United States Code, is amended by adding at the end the following new subsection:

"(g) The district courts shall have exclusive jurisdiction of all actions under section 2681 of this title.".

(c) REPEAL.—Section 1631 of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2646), is repealed effective on October 19, 1984.

(d) EFFECT ON STATUTES OF LIMITATIONS.—The period during which section 1631 of the Department of Defense Authorization Act, 1985, was in effect shall not be taken into account in computing the period provided in any Federal or State statute of limitations applicable to any civil action for an injury, loss of property, personal injury, or death described in subsection (a)(1) of such section.

TITLE II—NATIONAL DEFENSE STOCKPILE

SEC. 3101. SHORT TITLE.

This title may be cited as the "Strategic and Critical Materials Stock Piling Amendments of 1986".

SEC. 3102. STOCKPILE REQUIREMENTS.

(a) PURPOSE OF STOCKPILE.—Section 2 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98a) is amended by adding at the end the following new subsection:

"(c) It is the intent of Congress—

"(1) that the National Defense Stockpile be used to serve the interest of national defense only and not be used for economic or budgetary purposes; and

"(2) that the quantities of materials stockpiled under this Act should be sufficient to sustain the United States for a period of not less than three years in the event of a national emergency.".

(b) ESTABLISHMENT OF STOCKPILE REQUIREMENTS BY LAW.—Section 3 of such Act (50 U.S.C. 98b) is amended to read as follows:

"ESTABLISHMENT BY LAW OF STOCKPILE REQUIREMENTS

"SEC. 3. (a) The materials that are strategic and critical materials for the purposes of this Act, and the quality and quantity of each such material to be acquired for the purposes of this Act and the form in which each such material shall be acquired and stored, shall be established by law.

"(b) Such materials when acquired, together with the other materials described in section 4, shall constitute and be collectively known as the National Defense Stockpile (hereinafter in this Act referred to as the 'stockpile').

"(c) Determinations under subsection (a) shall be known as 'stockpile requirements'.".

(c) INITIAL LEVEL OF STOCKPILE REQUIREMENTS.—The determinations in effect as of October 1, 1984, under section 3(a) of the Strategic and Critical Materials Stock Piling Act shall be the stockpile requirements for the purposes of such section, as amended by this title, until otherwise provided by law.

SEC. 3103. TRANSFER OF CERTAIN STOCKPILE FUNCTIONS TO THE SECRETARY OF DEFENSE.

(a) IN GENERAL.—Sections 5, 6, 10, and 11 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98d, 98e, 98h–1, 98h–2) are amended by striking out "President" each place it appears and inserting in lieu thereof "Secretary".

(b) DEFINITION OF SECRETARY.—Section 12 of such Act (50 U.S.C. 98h-3) is amended by adding at the end the following new paragraph:

"(3) The term 'Secretary' means the Secretary of Defense.".

(c) TECHNICAL AMENDMENT.—Section 11(b) of such Act (50 U.S.C. 98h–1) is amended by striking out "each year" and all that follows through "the next fiscal year" and inserting in lieu thereof "each year, at the time that the Budget is submitted to Congress pursuant to section 1105 of title 31, United States Code, for the next fiscal year,".

SEC. 3104. ANNUAL RECOMMENDATION OF STOCKPILE REQUIREMENTS BY SECRETARY OF DEFENSE.

The Strategic and Critical Materials Stock Piling Act is amended by adding at the end the following new section:

"ANNUAL RECOMMENDATIONS BY SECRETARY OF DEFENSE

"SEC. 14. (a) IN GENERAL.—In order to assist Congress in establishing stockpile requirements under section 3, the Secretary shall submit to Congress an annual report on stockpile requirements. Each such report shall be submitted with the annual report submitted under section 11(b) and shall include—

"(1) the Secretary's recommendations with respect to stockpile requirements; and

"(2) the matters required under subsections (b) through (e).

"(b) NATIONAL EMERGENCY PLANNING ASSUMPTIONS.—Each report under this section shall set forth the national emergency planning assumptions used in determining the stockpile requirements recommended by the Secretary. Assumptions to be set forth include assumptions relating to each of the following:

"(1) Length and intensity of the assumed emergency.

"(2) The military force structure to be mobilized.

"(3) Losses from enemy action.

"(4) Military, industrial, and essential civilian requirements to support the national emergency.

"(5) The availability of supplies of strategic and critical materials from foreign sources, taking into consideration possible shipping losses.

"(6) Domestic production of strategic and critical materials.

"(7) Civilian austerity measures.

"(c) CONSIDERATION OF MATERIALS BASED ON NET IMPORT RELIANCE.—

"(1) IN GENERAL.—In determining the materials to be recommended to Congress under subsection (a)(1) as strategic and critical materials (and the quantity and quality of such materials to be recommended), the Secretary shall consider—

"(A) whether each of the materials determined under paragraph (3) should be recommended as a strategic and critical material; and

"(B) in the case of any such material, whether the quantity determined under paragraph (5) with respect to such material is the appropriate quantity of such material to be established by Congress as the stockpile requirement for that material.

"(2) MATTERS TO BE INCLUDED IN REPORT.—In each report under this section, the Secretary shall identify—

"(A) each material determined under paragraph (3); and

"(B) the quantity determined under paragraph (5) with respect to each such material.

"(3) MATERIALS TO BE IDENTIFIED.—The Secretary shall identify each material that the Secretary determines is necessary for the security of the United States, essential to the economy of the United States, and obtained from foreign sources.

"(4) CLASSIFICATION OF MATERIALS BASED ON NET IMPORT RELIANCE.—Each of the materials identified under paragraph (3) shall be classified by the Secretary for the purposes of this section as follows:

"(A) CLASS A MATERIALS.—A material shall be classified as a class A material if—

"(i) the material is not produced in the United States or is produced in the United States in limited quantities; and

"(ii) the net import reliance of the United States for the material is greater than or equal to 65 percent.

"(B) CLASS B MATERIALS.—A material shall be classified as a class B material if—

"(i) the material is produced in the United States but is not available in sufficient quantities in the United States; and

"(ii) the net import reliance of the United States for the material is greater than or equal to 30 percent but less than 65 percent.

"(C) CLASS C MATERIALS.—A material shall be classified as a class C material if—

"(i) the material is produced in substantial quantities in the United States; and

"(ii) the net import reliance of the United States for the material is less than 30 percent.

"(5) QUANTITY TO BE DETERMINED.—For each material identified under paragraph (3), the Secretary shall determine the following:

"(A) CLASS A MATERIALS.—In the case of a material classified under paragraph (4) as a class A material, the Secretary shall determine the quantity of such material equal to three years' net imports of such material.

"(B) CLASS B MATERIALS.—In the case of a material classified under paragraph (4) as a class B material, the Secretary shall determine the quantity of such material equal to two years' net imports of such material.

"(C) CLASS C MATERIALS.—In the case of a material classified under paragraph (4) as a class C material, the Secretary shall determine the quantity of such material equal to one year's net imports of such material.

"(6) DETERMINATION OF NET IMPORTS.—For purposes of paragraph (5), a year's net imports of a material is the quantity of the material equal to the amount by which—

"(A) the sum of—

"(i) the average annual imports of such material into the United States during the base period; and

"(ii) the average annual shipment of such material from the stockpile as excess material during the base period; exceeds

"(B) the average annual exports of such material from the United States during the base period.

"(7) BASE PERIOD DEFINED.—For purposes of paragraph (6), the term 'base period' means the most recent period of five calendar years for which data is available.

"(d) EFFECT OF ESTABLISHING STOCKPILE REQUIREMENTS IN ACCORDANCE WITH DETERMINATIONS UNDER SUBSECTION (c).—The Secretary shall include in each report under this section an analysis of the effect (including the cost and the impact on world markets) of establishing the stockpile requirements in accordance with the materials, and the quantities of materials, identified under subsection (c).

"(e) DIFFERENCES BETWEEN RECOMMENDATIONS AND NET IMPORT RESULTS.—When the stockpile requirements recommended by the Secretary in a report under this section differ from the materials and quantities that are identified under subsection (c), the Secretary shall also include in the report a detailed explanation for such differences, including—

"(1) a description of the assumptions used to determine the recommended stockpile requirements; and

"(2) a detailed analysis supporting the recommended quantity and quality for each material recommended as a strategic and critical material.

"(f) PERIODIC REVIEW.—The Secretary shall conduct a detailed review of the stockpile requirement for each strategic and critical material at least once every five years. If the Secretary determines at any time that the stockpile requirement for a material should be revised, the Secretary shall submit to Congress a report that—

"(1) notifies Congress of that determination;

"(2) sets forth the Secretary's recommended stockpile requirement for that material; and

"(3) sets forth the assumptions used by the Secretary in determining that recommended requirement.".

SEC. 3105. STOCKPILE MANAGEMENT.

The Strategic and Critical Materials Stock Piling Act is amended by adding after section 14 (as added by section 3104) the following new sections:

"INTERAGENCY AGREEMENTS

"SEC. 15. (a) AUTHORITY TO ENTER INTO AGREEMENTS.—The Secretary may enter into an interagency agreement with the head of any other department or agency for the performance of functions of the Secretary relating to section 6.

"(b) REIMBURSEMENT.—The Secretary shall reimburse the head of any such agency for expenses incurred by that agency in the administration of functions relating to the stockpile assigned to that agency by the Secretary under such an interagency agreement.

"APPROPRIATIONS TO BE MADE TO DEPARTMENT OF DEFENSE

"SEC. 16. Appropriations for the operation and management of the stockpile and for de-

posit to the National Defense Stockpile Transaction Fund shall be made as part of appropriations made to the Department of Defense for the military functions of the Department.".

SEC. 3106. EXTENSION OF USES OF STOCKPILE TRANSACTION FUND AND CODIFICATION OF REVOLVING FUND PROVISIONS.

(a) IN GENERAL.—Section 9(b) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98h(b)) is amended—

(1) by striking out the second sentence of paragraph (1); and

(2) by striking out paragraphs (2) and (3) and inserting in lieu thereof the following:

"(2) Subject to section 5(a)(1), moneys covered into the fund under paragraph (1) are hereby made available (subject to such limitations as may be provided in appropriation Acts) for—

"(A) the acquisition of strategic and critical materials under section 6(a)(1);

"(B) transportation, storage, and other incidental expenses related to such acquisition;

"(C) development of current specifications of stockpile materials and the upgrading of existing stockpile materials to meet current specifications (including transportation related to such upgrading);

"(D) testing and quality studies of stockpile materials; and

"(E) other reasonable requirements for management of the stockpile.

"(3) Moneys in the fund shall remain available until expended.".

(b) CONFORMING AMENDMENT.—Section 110 of Public Law 97-377 (96 Stat. 1911) is amended by striking out "Notwithstanding" and all that follows through "That during" and inserting in lieu thereof "During".

(c) APPLICABILITY OF AMENDMENTS.—The amendments made by subsection (a) apply with respect to funds covered into the National Defense Stockpile Fund before, on, or after the date of the enactment of this Act.

SEC. 3107. MISCELLANEOUS TECHNICAL AMENDMENTS.

(a) TECHNICAL AMENDMENTS.—Section 4(a) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98c(a)) is amended—

(1) by striking out "on the day before the date of the date of the enactment of the Strategic and Critical Materials Stock Piling Revision Act of 1979" in paragraphs (1) and (3) and inserting in lieu thereof "on July 29, 1979", and

(2) by striking out "on or after the date of the enactment of the Strategic and Critical Materials Stock Piling Revision Act of 1979" in paragraph (2) and inserting in lieu thereof "after July 29, 1979".

(b) CLARIFYING AMENDMENT.—Section 6(a)(3) of such Act (50 U.S.C. 98e(a)(3)) is amended by striking out "the form most" and inserting in lieu thereof "a form more".

TITLE III—CIVIL DEFENSE

SEC. 3201. AUTHORIZATION OF APPROPRIATIONS FOR CIVIL DEFENSE FUNCTIONS.

There is hereby authorized to be appropriated for fiscal year 1987 the sum of $126,565,000 to carry out the provisions of the Federal Civil Defense Act of 1950 (50 U.S.C. App. 2251 et seq.).

TITLE IV—NUCLEAR WINTER RESEARCH

SEC. 3301. AUTHORIZATION FOR NUCLEAR WINTER RESEARCH.

(a) AUTHORIZATION.—

(1) DEPARTMENT OF DEFENSE.—Funds are hereby authorized to be appropriated to the Department of Defense for fiscal year 1987 for nuclear winter research as described in subsection (b) in the amount of $8,500,000.

(2) DEPARTMENT OF ENERGY.—Funds are hereby authorized to be appropriated to the Department of Energy for fiscal year 1987 for nuclear winter research as described in subsection (b) in the amount of $2,500,000.

(b) PURPOSES.—The funds authorized under subsection (a) are for the following purposes:

(1) To improve computer modeling efforts on the short- and long-term climatic effects of nuclear winter.

(2) To expand field research in areas related to the nuclear winter theory, including fire ignition, smoke production and composition, and smoke plume dynamics.

(3) To create a substantial research program on the atmospheric, climatic, biological, health, and environmental consequences of nuclear explosions and nuclear exchanges.

(4) To contract with the National Academy of Sciences to carry out an independent evaluation and submit a report as described in section 3302(c).

(c) REPORT.—Not later than September 30, 1987, the Secretary of Defense and the Secretary of Energy shall each submit to Congress a detailed report on the allocation of funds appropriated pursuant to the authorization in subsection (a). The report shall include a list of the recipients of such funds and the research for which such funds were used.

SEC. 3302. NUCLEAR WINTER STUDY AND REPORT.

(a) STUDY.—The Secretary of Defense shall conduct a comprehensive study on the atmospheric, climatic, biological, health, and environmental consequences of nuclear explosions and nuclear exchanges and the implications that such consequences have for the nuclear weapons, arms control, and civil defense policies of the United States.

(b) REPORT.—Not later than November 1, 1987, the Secretary shall submit to the President and the Congress an unclassified report suitable for release to the public, with classified addenda if necessary, on the study conducted under subsection (a). The report shall contain the following:

(1) A detailed review and assessment of the findings in the current body of domestic and international scientific literature on the atmospheric, climatic, biological, health, and environmental consequences of nuclear explosions and nuclear exchanges.

(2) A thorough evaluation of the implications that such findings have on—

(A) the nuclear weapons policy of the United States, especially with regard to strategy, targeting, planning, command, control, procurement, and deployment;

(B) the nuclear arms control policy of the United States; and

(C) the civil defense policy of the United States.

(3) A discussion of the manner in which the results of such evaluation of policy implications will be incorporated into the nuclear weapons, arms control, and civil defense policies of the United States.

(4) An analysis of the extent to which current scientific findings on the consequences of nuclear explosions are being studied, disseminated, and used in the Soviet Union.

(5) A plan for a five-year research program to advance understanding of nuclear winter and an estimate of the funding necessary to carry out such a research program.

(c) EVALUATION OF REPORT.—Upon submission of the report under subsection (b), the Secretary shall contract with the National Academy of Sciences to—

(1) make an independent evaluation of the material contained in the report; and

(2) not later than April 1, 1988, submit a report to the Secretary of Defense and to the Committees on Armed Services of the Senate and of the House of Representatives, setting forth the results of the evaluation and any recommendations pertaining to the contents of the report, including the plan for the five-year research program.

DIVISION D—DEPARTMENT OF DEFENSE REORGANIZATION

SECTION 3500. SHORT TITLE.

This division may be cited as the "Bill Nichols Department of Defense Reorganization Act of 1986".

TITLE I—COMBATANT COMMANDS

SEC. 3501. ENHANCEMENT OF AUTHORITY OF COMMANDERS OF UNIFIED AND SPECIFIED COMBATANT COMMANDS.

(a) REVISION AND EXTENSION OF COMBATANT COMMAND AUTHORITY.—(1) Title 10, United States Code, is amended by inserting after chapter 5 the following new chapter:

"CHAPTER 6—COMBATANT COMMANDS

"161. Establishment.
"162. Forces assigned to combatant commands.
"163. Functions and supervision.
"164. Administration and support of assigned forces.
"165. Unified and specified commands: program and budget proposals; net assessments.
"166. Combatant command subordinate commanders and CINC staff officers: selection and tenure.
"167. Joint Commanders Council.

"§ 161. Establishment

"(a) UNIFIED AND SPECIFIED COMMANDS.—With the advice and assistance of the Chairman of the Joint Chiefs of Staff, the President, through the Secretary of Defense, shall—

"(1) establish unified combatant commands and specified combatant commands to perform military missions; and

"(2) prescribe the force structure of those commands.

"(b) SPECIAL COMBATANT COMMANDS.—(1) If the President determines that a situation warrants the creation for a specific military mission of a force outside the existing unified and specified commands, the President, with the advice and assistance of the Chairman of the Joint Chiefs of Staff and acting through the Secretary of Defense, may—

"(A) establish a special combatant command to respond to that situation; and

"(B) prescribe the mission, force structure, and support and administrative arrangements of that command.

"(2) In the case of any such special combatant command, the President, with the advice and assistance of the Chairman of the Joint Chiefs of Staff and acting through the Secretary of Defense, shall prescribe the chain of command from the President and Secretary of Defense to the commander of that command. Such chain of command shall be the shortest practicable for each force deployed consistent with proper supervision and support.

"(c) PERIODIC REVIEW.—(1) The Chairman shall periodically (and not less often than every other year)—

"(A) review the overall structure of the unified and specified combatant commands (including the relationship among their respective functions, missions, areas of responsibility, and chains of command); and

"(B) recommend to the President, through the Secretary of Defense, any changes that the Chairman considers necessary or appropriate.

"(2) The President shall promptly inform Congress of any action taken in response to recommendations made by the Chairman under paragraph (1)(B).

"§ 162. Forces assigned to combatant commands

"(a) ASSIGNMENT OF FORCES.—(1)(A) Except as provided in paragraph (2), the Secretaries of the military departments shall assign all forces under their jurisdiction to unified and specified combatant commands to perform the missions assigned to those commands. Such assignments shall be made as directed by the Secretary of Defense, including direction as to the command to which forces are to be assigned.

"(B) As directed by the Secretary of Defense, the commanders of the unified and specified combatant commands and the Secretaries of the military departments shall assign forces under their jurisdiction to any special combatant command established under this chapter to perform the missions assigned to that command.

"(2) Except as otherwise directed by the Secretary of Defense, forces to be assigned by the Secretaries of the military departments to the combatant commands under paragraph (1) do not include forces assigned to the recruiting, organizing, training, or supplying of the armed forces.

"(3) A force assigned to a combatant command under this section may be transferred from the command to which it is assigned only by authority of the Secretary of Defense and under procedures prescribed by the Secretary with the approval of the President.

"(4) A force not assigned to a combatant command remains, for all purposes, in the military department concerned.

"(5) Unless otherwise directed by the Secretary of Defense, all forces operating within the geographic area assigned to the commander of a unified command shall be assigned to and under the command of the commander of that command. The preceding sentence applies to forces assigned to a specified command or a special combatant command only as prescribed by the Secretary of Defense.

"(b) COMMAND OF ASSIGNED FORCES.—(1) Notwithstanding any other provision of law, a force assigned to a combatant command under this section is under the command of the commander of that command. In this section, the term 'command' means the authority to give authoritative direction to subordinate forces necessary to accomplish assigned missions.

"(2) The Secretary of Defense shall ensure that commanders of combatant commands have sufficient authority over the forces assigned to their commands to exercise effective command over those forces.

"(3) If a commander of a combatant command at any time considers his authority over any of the forces assigned to that command to be insufficient to command effectively, the commander shall promptly inform the Secretary of Defense.

"(c) ORGANIZATION, TRAINING, AND EMPLOYMENT OF ASSIGNED FORCES.—(1) The commander of each combatant command shall prescribe the chain of command and organizational structure of forces assigned to that command. To the extent practicable, the structure established should be the structure that would be used in the event of war or hostilities.

"(2) The commander of a combatant command shall have authority—

"(A) to train forces assigned to that command; and

"(B) to employ those forces to accomplish assigned missions.

"§163. Functions and supervision

"(a) FUNCTIONS.—Commanders of combatant commands established under this chapter are responsible to the President and to the Secretary of Defense for such missions as may be assigned to them by the Secretary with the approval of the President.

"(b) SUPERVISION BY JCS CHAIRMAN.—Subject to the authority, direction, and control of the Secretary of Defense, the Chairman of the Joint Chiefs of Staff supervises the commanders of the combatant commands and is their spokesman at the seat of Government.

"§ 164. Administration and support of assigned forces

"(a) ADMINISTRATION.—Subject to the authority, direction, and control of the Secretary of Defense, the Secretary of each military department is responsible for the administration of forces assigned by that department to combatant commands.

"(b) SUPPORT.—Unless otherwise directed by the Secretary of Defense, the Secretary of each military department is responsible for the support of forces assigned by that department to combatant commands. The Secretary of Defense may assign the responsibility for the support of forces assigned to a combatant command (or any part of that responsibility) to—

"(1) one or more of the military departments;

"(2) other agencies of the Department of Defense; or

"(3) the commander of the combatant command concerned.

"(c) REQUESTS BY CINCS TO PROVIDE OWN SUPPORT.—(1) If a commander of a combatant command decides that performance of a support function (or any part of such a function) by elements of that command would improve the capability of the command to carry out assigned missions or would otherwise be more effective, economical, or efficient, the commander may submit to the Secretary of Defense a proposal for the transfer of that function (or any part of that function) to the command.

"(2) Parts of a support function with respect to which a commander may submit a proposal under this subsection include the authority, with respect to that function, to establish requirements and to plan and direct distribution.

"(d) ADVICE OF CHAIRMAN.—The functions of the Secretary under this section shall be carried out with the advice and assistance of the Chairman of the Joint Chiefs of Staff.

"§ 165. Unified and specified commands: program and budget proposals; net assessments

"(a) COMBATANT COMMAND BUDGETS.—The Secretary of Defense shall include in the annual budget of the Department of Defense submitted to Congress a separate budget proposal for such activities of each of the unified and specified combatant commands as may be determined under subsection (b).

"(b) CONTENT OF PROPOSALS.—A budget proposal under subsection (a) for funding of activities of a combatant command shall include funding proposals for such activities of the combatant command as the Secretary (after consultation with the Chairman of the Joint Chiefs of Staff) determines to be appropriate for inclusion. Activities of a combatant command for which funding may be requested in such a proposal include the following:

"(1) Joint exercises.

"(2) Force training.

"(3) Contingencies.

"(4) Selected operations.

"(c) SUBMISSION BY CINCS.—The commander of each unified or specified combatant command shall submit to the Chairman an annual program and budget proposal for that command for consideration for inclusion under subsection (a) in the next budget of the Department of Defense.

"(d) SUBMISSION OF BUDGET PROPOSALS BY CHAIRMAN.—The Chairman shall—

"(1) review and analyze the combatant command budget proposals submitted under subsection (c);

"(2) establish priorities in accordance with guidance provided by the Secretary; and

"(3) recommend to the Secretary for the purposes of subsection (a) a budget proposal for each command.

"(e) SECRETARY OF DEFENSE GUIDANCE.—Budget proposals under subsections (c) and (d) shall be prepared in accordance with, and subject to, guidance furnished by the Secretary of Defense, including guidance with respect to anticipated budget limitations.

"(f) NET ASSESSMENTS.—(1) In accordance with guidelines established by the Secretary of Defense, the findings, conclusions, and recommendations of any net assessment conducted by an organization of the Department of Defense shall be made available to the commanders of the unified and specified combatant commands.

"(2) The Chairman of the Joint Chiefs of Staff shall establish procedures by which—

"(A) each commander of a combatant command may require the Joint Staff to assist the commander with respect to net assessments relating to the commander's duties; and

"(B) each commander shall contribute to the preparation, conduct, and findings of net assessments performed by the Joint Staff.

"(3) The Secretary of Defense shall establish procedures by which a commander of a combatant command may require organizations of the Department of Defense that perform net assessments (in addition to the Joint Staff) to assist the commander with respect to net assessments relating to the commander's duties.

"(4) The commander of a unified or specified combatant command shall include the results of any current net assessment conducted by or on behalf of his command—

"(A) in preparing any evaluation of the capabilities of his command for submission to the Secretary or the Chairman; and

"(B) in developing operations plans for the command.

"§ 166. Combatant command subordinate commanders and CINC staff officers: selection and tenure

"(a) SELECTION.—

"(1) SENIOR GENERAL AND FLAG OFFICERS.—The selection of a general or flag officer for recommendation to the President for nomination to an assignment as a principal subordinate officer of the commander of a unified or specified combatant command, or to the staff of such a commander, in a position of importance and responsibility designated by the President under section 601 of this title shall be made by the commander of that command in accordance with procedures prescribed by the Secretary of Defense. Such procedures shall provide for the selection to be made from a list of officers submitted to the commander by the Secretary of the military department concerned and that the commander may specify the number of officers to be included on such a list.

"(2) OTHER OFFICERS.—Except as provided under paragraph (1), the selection of an officer to an assignment as a principal subordi-

nate officer of the commander of a unified or specified combatant command, or to the staff of such a commander, shall be made by that commander. Such selection shall be made from a list of officers submitted to the commander by the Secretary of the military department concerned. The commander may specify the number of officers to be included on such a list.

"(b) TENURE.—The tenure of an officer assigned to a combatant command under subsection (a) is subject to the approval of the commander of the combatant command.

"§ 167. Joint Commanders Council

"(a) ESTABLISHMENT.—There is hereby established in the Department of Defense a council to be known as the 'Joint Commanders Council'. The Council consists of—

"(1) the Chairman of the Joint Chiefs of Staff, who is the head of the Council; and

"(2) the commanders of the unified and specified combatant commands.

"(b) FUNCTIONS.—The Council, as a body, shall—

"(1) provide advice to the President and Secretary of Defense on matters with respect to which such advice is requested; and

"(2) advise the Chairman, as requested by him, on the execution of the Chairman's responsibilities.".

(2) The tables of chapters at the beginning of subtitle A, and at the beginning of part I of subtitle A, of such title are amended by inserting after the item relating to chapter 5 the following new item:

"6. Combatant Commands ..... 161".

(b) COURT-MARTIAL JURISDICTION.—Section 822(a) of title 10, United States Code (article 22(a) of the Uniform Code of Military Justice), is amended—

(1) by redesignating paragraphs (2) through (7) as paragraphs (4) through (9), respectively; and

(2) by inserting after paragraph (1) the following new paragraphs (2) and (3):

"(2) the Secretary of Defense;

"(3) the commanding officer of a unified or specified combatant command;".

(c)(1) Notwithstanding any other provision of law, the President and the Secretary of Defense may assign missions, roles, and functions to the military departments, unified and specified commands, and other elements of the Department of Defense.

(2) Section 5012 of title 10, United States Code, is amended—

(A) by striking out "is generally" and all that follows in the third sentence of subsection (a) and inserting in lieu thereof ", in accordance with integrated joint mobilization plans, for the expansion of the peacetime components of the Navy to meet the needs of war."; and

(B) by striking out subsection (d).

(d) CONFORMING AMENDMENTS.—

(1) REPEAL OF SECTION 124.—(A) Section 124 of such title is repealed.

(B) The table of sections at the beginning of chapter 3 of such title is amended by striking out the item relating to section 124.

(2) COMMAND AUTHORITY OF CINCS.—Sections 3034(d)(4), 5081(c), 5201(d), and 8034(d)(4) of such title are amended by striking out "full operational command vested in unified or specified combatant commanders under section 124 of this title" and inserting in lieu thereof "command authority vested in the commanders of unified and specified combatant commands under chapter 6 of this title".

SEC. 3502. FUNCTIONS OF CHAIRMAN OF JOINT CHIEFS OF STAFF.

(a) IN GENERAL.—Section 141(c) of title 10, United States Code, is amended—

(1) by striking out the matter preceding clause (1) and inserting in lieu thereof the following:

"(c) Subject to the authority and direction of the President and the Secretary of Defense, the Chairman (in consultation, as appropriate, with the other members of the Joint Chiefs of Staff and with the commanders of the unified and specified commands) shall—";

(2) by striking out "and" at the end of paragraph (7);

(3) by redesignating paragraph (8) as paragraph (15); and

(4) by inserting after paragraph (7) the following new paragraphs:

"(8) submit to the Secretary recommendations for the allocation of defense resources under the proposed national defense budget for each fiscal year, to be developed within anticipated limits on funding levels available for defense functions and based on—

"(A) guidance provided by the Secretary;

"(B) recommendations submitted by the commanders of the unified and specified combatant commands based on the requirements of their assigned missions; and

"(C) recommendations (as appropriate) submitted by the Secretaries of the military departments and the heads of other components of the Department of Defense;

"(9) review the program objectives and budget proposals of the Secretary of each military department and of those defense agencies with a combat support mission and recommend to the Secretary changes in such proposals in accordance with the Chairman's recommendations under clause (8);

"(10) in accordance with section 165(d) of this title, recommend to the Secretary a budget for each unified and specified combatant command, including the functions of each such command for which funds should be appropriated to the command;

"(11) establish and maintain, in consultation with the commanders of the unified and specified combatant commands, a uniform system of evaluating the overall capabilities of each such command to accomplish its missions;

"(12) monitor the extent to which each military department provides officers for joint duty assignments and report to the Secretary of Defense when any department provides substantially fewer than one-third of the positions on the Joint Staff and one-third of the total number of joint duty assignments;

"(13) develop doctrine for the joint employment of the armed forces;

"(14) perform net assessments to determine the capabilities of the armed forces to carry out military operations under unified command; and".

(b) CONSULTATION.—Section 141 of such title is further amended by adding at the end the following new subsection:

"(e) In carrying out his functions under this chapter or any other provision of law, the Chairman shall consult, as appropriate, with the other members of the Joint Chiefs of Staff and the commanders of the unified and specified commands.".

(c) JOINT STAFF NET ASSESSMENT CAPABILITY.—Section 143 of title 10, United States Code, is amended by adding at the end thereof the following new subsection:

"(f) The Chairman shall ensure that the Joint Staff is organized and staffed so as to provide the Chairman the necessary staff expertise to enable him to carry out section 141(a)(14) of this title.".

SEC. 3503. TRANSFERS OF STAFF PERSONNEL.

(a) TRANSFERS OF STAFFS TO CINC HEADQUARTERS.—The Secretary of Defense shall provide that personnel assigned to the headquarters staffs of the military departments and of the separate Armed Forces and personnel assigned to the staffs of the commanders of subordinate forces of the unified and specified commands shall, to the maximum extent practicable, be transferred to the staffs of the commanders of the unified and specified commands to reflect transfers of functions provided for or authorized by this Act. Such transfers shall be carried out as expeditiously as possible.

(b) LIMITATION ON TOTAL STAFF SIZE.—The total size of the headquarters staffs of the commanders of the unified and specified commands, the military departments, the separate Armed Forces, and the commanders of subordinate forces of the unified and specified commands may not be greater after any such transfer of functions than it was before such transfer.

SEC. 3504. INITIAL REVIEW OF UNIFIED COMMAND PLAN.

(a) MATTERS TO BE CONSIDERED—The first review of the structure of the unified and specified commands under section 161(c) of title 10, United States Code, as added by section 3501, shall include consideration of the following:

(1) Creation of a unified strategic command combining the missions, functions, and forces of the Strategic Air Command, the strategic forces of the Navy, and other appropriate forces.

(2) Creation of a unified command for special operations missions.

(3) Creation of a unified command for missions, functions, and responsibilities relating to security of United States borders.

(4) Revision of the geographic area that is the responsibility of the Central Command, to include the ocean areas adjacent to Southwest Asia.

(5) Revision of the geographic area that is the responsibility of the Southern Command, to include the ocean areas adjacent to Central America.

(6) Revision of the missions, functions, and responsibilities of the Readiness Command and of the Central Command.

(7) Elimination of the United States Forces Caribbean Command.

(b) DEADLINE.—The first report to the President under such section shall be made not later than one year after the date of the enactment of this Act.

SEC. 3505. REPEAL OF CERTAIN LIMITATIONS ON DEFENSE MANAGEMENT.

(a) PROHIBITION AGAINST CONSOLIDATING FUNCTIONS OF THE MILITARY TRANSPORTATION COMMANDS.—Section 1110 of the Department of Defense Authorization Act, 1983 (Public Law 97-252; 96 Stat. 747), is repealed.

(b) PROHIBITION AGAINST ALTERING COMMAND STRUCTURE FOR MILITARY FORCES IN ALASKA.—Section 8106 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190 (99 Stat. 1221)), is repealed.

SEC. 3506. TRANSITION.

(a) GENERAL RULE.—Except as otherwise provided in this section, this title and the amendments made by this title shall take effect on the date of the enactment of this Act.

(b) ASSIGNMENT OF FORCES TO COMBATANT COMMANDS.—Section 162 of title 10, United States Code, as added by section 3501, shall take effect at the end of the 90-day period beginning on the date of the enactment of this Act.

(c) PROGRAM AND BUDGET PROPOSALS.—Section 165 (other than subsection (f)) of title

10, United States Code, as added by section 3501, shall take effect with respect to program and budget proposals for fiscal year 1989.

(d) SELECTION AND TENURE OF SUBORDINATE OFFICERS.—Section 166 of title 10, United States Code, as added by section 3501, shall take effect at the end of the 90-day period beginning on the date of the enactment of this Act.

(e) COMBATANT COMMAND EVALUATION SYSTEM.—The uniform system of evaluating the overall capabilities of each unified and specified combatant command required to be established by paragraph (11) of section 141(c) of title 10, United States Code, as added by section 102(a), shall be established not later than the end of the one-year period beginning on the date of the enactment of this Act.

TITLE II—DEFENSE AGENCIES

SEC. 3601. OVERSIGHT REQUIREMENTS WITH RESPECT TO DEFENSE AGENCIES.

(a) IN GENERAL.—(1) Chapter 8 of title 10, United States Code, is amended—

(A) by redesignating section 191 as section 196; and

(B) by inserting after the table of sections the following new sections:

"§ 191. Authority to provide for common performance of supply or service activities

"Whenever the Secretary of Defense determines it will be more effective, economical, or efficient, the Secretary shall provide for the performance of a supply or service activity common to more than one military department by one agency or such other organization as the Secretary considers appropriate.

"§ 192. Defense agencies: oversight by the Secretary of Defense

"(a) PERIODIC REVIEW.—Periodically (and not less often than every two years), the Secretary of Defense shall review the services and supplies provided by the defense agencies to ensure that the provision of those services and supplies by those agencies, rather than by the military departments, is a more effective, economical, or efficient manner of providing those services and supplies consistent with the requirements for combat readiness of the armed forces.

"(b) INFORMATION REQUIRED FOR REVIEW.—(1) In performing the review required by subsection (a), the Secretary shall obtain, as appropriate, the views of—

"(A) the directors of the defense agencies;

"(B) the Chairman of the Joint Chiefs of Staff;

"(C) the Secretaries of the military departments;

"(D) the Chief of Staff of the Army, the Chief of Staff of the Air Force, the Chief of Naval Operations, and the Commandant of the Marine Corps; and

"(E) the commanders of the unified and specified combatant commands.

"(2) Paragraph (1) shall apply to the National Security Agency as determined appropriate by the Secretary. The Secretary shall establish procedures under which information required for review of the National Security Agency shall be obtained.

"§ 193. Combat support agencies: duties of the Chairman of the Joint Chiefs of Staff

"(a) COMBAT READINESS.—(1) Periodically (and not less often than every two years), the Chairman of the Joint Chiefs of Staff shall submit to the Secretary of Defense a report on the combat support agencies. Each such report shall include—

"(A) a determination with respect to the responsiveness and readiness of each such agency to support operating forces in the event of a war or threat to national security; and

"(B) any recommendations that the Chairman considers appropriate.

"(2) In preparing each such report, the Chairman shall review the plans of each such agency with respect to its support of operating forces in the event of a war or threat to national security. After consultation with the Secretaries of the military departments and the commanders of the unified and specified combatant commands, as appropriate, the Chairman may, in accordance with guidelines established by the Secretary of Defense, take steps to provide for any revision of those plans that the Chairman considers appropriate.

"(b) PARTICIPATION IN JOINT TRAINING EXERCISES.—The Chairman shall—

"(1) provide for the participation of the combat support agencies in joint training exercises to the extent necessary to ensure that those agencies are capable of performing their support missions with respect to a war or threat to national security; and

"(2) assess the performance in joint training exercises of each such agency and, in accordance with guidelines established by the Secretary of Defense, take steps to provide for any change that the Chairman considers appropriate to improve that performance.

"(c) READINESS REPORTING SYSTEM.—The Chairman shall develop, in consultation with the director of each combat support agency, a uniform system for reporting to the Secretary of Defense, the commanders of the unified and specified combatant commands, and the Secretaries of the military departments concerning the readiness of each such agency to perform with respect to a war or threat to national security.

"(d) REVIEW OF NATIONAL SECURITY AGENCY.—(1) This section shall apply to the National Security Agency, but only with respect to functions the Agency performs for the Department of Defense.

"(2) The Secretary, after consulting with the Director of Central Intelligence, shall establish policies and procedures with respect to the application of this section to the National Security Agency.

"(3) The Secretary shall submit to Congress a report on any revision of the policies and procedures established under paragraph (2).

"§ 194. Combat support agency representatives: combatant command headquarters

"Upon the request of the commander of a unified or specified combatant command, the director of a combat support agency shall assign a representative of that agency to the headquarters of that command.

"§ 195. Definition of combat support agency

"In this chapter, the term 'combat support agency' means any of the following:

"(1) The Defense Communications Agency.

"(2) The Defense Intelligence Agency.

"(3) The Defense Logistics Agency.

"(4) The Defense Mapping Agency.

"(5) Any other defense agency designated as a combat support agency by the Secretary of Defense.".

(2) The table of sections at the beginning of such chapter is amended to read as follows:

"Sec.

"191. Authority to provide for common performance of supply or service activities.

"192. Defense agencies: oversight by the Secretary of Defense.

"193. Combat support agencies: duties of the Chairman of the Joint Chiefs of Staff.

"194. Combat support agency representatives: combatant command headquarters.

"195. Definition of combat support agency.

"196. Unauthorized use of Defense Intelligence Agency name, initials, or seal.".

(b) DEFENSE AGENCY DEFINED.—Section 101 of such title is amended by adding at the end the following new paragraph:

"(43) 'Defense agency' means an agency established by the Secretary of Defense under section 191 of this title (or under the second sentence of section 125(d) of this title (as in effect before the date of the enactment of the Department of Defense Reorganization Act of 1986)) to perform a supply or service activity common to more than one military department.".

(c) CONFORMING AMENDMENT.—Section 125 of such title is amended by striking out the last sentence of subsection (d).

(d) TRANSITION PROVISIONS.—

(1) SECRETARY OF DEFENSE REVIEW OF DEFENSE AGENCIES.—The first review under section 192 of title 10, United States Code (as added by subsection (a)(1)), shall be completed not later than the end of the two-year period beginning on the date that the report required by section 202(f) is required to be submitted to Congress.

(2) FUNCTIONS OF CHAIRMAN OF JOINT CHIEFS OF STAFF.—The first report under subsection (a) of section 193 of such title (as added by subsection (a)(1)) shall be submitted, and subsections (b) and (c) of such section shall be implemented, not later than the end of the one-year period beginning on the date of the enactment of this Act. The Secretary of Defense shall provide an interim report on the implementation of such subsections (b) and (c) in the report of the Secretary submitted to Congress for 1987 under section 133(c) of title 10, United States Code, and shall provide a final report on such implementation in the report of the Secretary under such section submitted for 1988.

(3) APPLICATION TO NATIONAL SECURITY AGENCY.—The Secretary of Defense shall, before the end of the 120-day period beginning on the date of the enactment of this Act—

(A) establish the policies and procedures required to be established by subsection (d)(2) of section 193 of such title (as added by subsection (a)(1)) with respect to the application of such section to the National Security Agency; and

(B) submit to Congress a report on such policies and procedures.

SEC. 3602. REASSESSMENT OF DEFENSE AGENCIES.

(a) SECRETARY OF DEFENSE.—(1) The Secretary of Defense shall conduct a study of the functions and organizational structure of the defense agencies. The study shall determine the most appropriate means of providing the supplies and services now provided by those agencies, after considering the matters set forth in subsection (d) and the reports submitted under subsection (b).

(2) To the extent that the most appropriate means of providing those supplies and services is determined under paragraph (1) to be the existing defense agency structure, the study shall analyze methods to improve the performance and responsiveness of the defense agencies with respect to the entities to which they provide those supplies and services, particularly with regard to the unified and specified combatant commands.

(b) SERVICE SECRETARIES AND CHAIRMAN OF THE JOINT CHIEFS OF STAFF.—The Chairman of the Joint Chiefs of Staff and the Secretaries of the military departments shall each conduct a study of functions and organizational structure of the defense agencies. The Chairman and Secretaries shall each submit a report to the Secretary of Defense on such study at a time specified by the Secretary. Each such report shall include a discussion of and recommendations concerning each matter set forth in subsection (d).

(c) NATIONAL SECURITY AGENCY.—This section shall apply to the National Security Agency as determined appropriate by the Secretary. The Secretary shall establish procedures under which information required for review of the National Security Agency shall be obtained.

(d) MATTERS CONSIDERED.—The studies required by subsections (a) and (b) shall consider the following matters:

(1) Whether the existing allocation of functions to, and organizational structure of, the defense agencies meets the statutory requirement of providing more effective, economical, or efficient provision of a supply or service activity common to more than one military department and eliminating duplication in the provision of that supply or service activity.

(2) Alternative allocations of authority and functions assigned to the defense agencies, including—

(A) various possible redistributions of responsibilities among those agencies;

(B) transfer of those functions to the military departments;

(C) transfer of those functions to the Office of the Secretary of Defense;

(D) transfer of those functions to the Chairman of the Joint Chiefs of Staff, the commanders of the unified and specified combatant commands, or other joint entities of the Department of Defense;

(E) creation of new defense agencies; and

(F) other organizational changes in the Department of Defense designed to make the performance of those functions more effective, economical, or efficient.

(3) The effect of the amendments made by section 3601 on ensuring the readiness and responsiveness of the defense agencies in the event of a war or threat to national security and any additional legislation that the Secretary considers necessary to ensure such readiness and responsiveness.

(4) Additional legislative or administrative actions that the Secretary considers necessary to ensure effective oversight of defense agency resource management, personnel policies, and budget procedures and to clarify the chain of command.

(5) The findings of the report of March 1979 entitled "Report to the Secretary of Defense of the Defense Agency Review" and directed by Major General Theodore Antonelli, United States Army (Retired).

(e) CONSULTATION WITH APPROPRIATE OFFICIALS.—The Secretary, in carrying out the study required by subsection (a), shall consult with the directors of the defense agencies and such other officials as the Secretary considers appropriate.

(f) REPORT.—The Secretary of Defense shall submit to Congress a report that includes the following:

(1) A report on the study required by subsection (a) that includes—

(A) a discussion of and recommendations concerning each matter set forth in subsection (d); and

(B) a discussion of the reports required by subsection (b).

(2) A copy of each report required by subsection (b) and the comments of the Secretary concerning each such report.

(g) DEADLINE FOR SUBMISSION.—The report required by subsection (f) shall be submitted not later than the end of the one-year period beginning on the date of the enactment of this Act.

SEC. 3603. REPORT ON IMPROVED APPLICATION OF COMPUTER SYSTEMS TO DEFENSE AGENCY FUNCTIONS.

(a) IN GENERAL.—The Secretary of Defense shall prepare a report describing a plan for the improved application of computer systems to defense agency functions and activities, particularly with respect to the application of new automated data processing equipment and systems to such activities and the replacement of existing equipment and systems with new equipment and systems. The report shall set forth a plan for the rapid replacement of existing automated data processing equipment and systems when necessary for agency functions.

(b) SUBMISSION OF REPORT.—The report required by subsection (a) shall be submitted as part of the report of the Secretary under section 3602(f).

TITLE III—JOINT OFFICER PERSONNEL POLICY

SEC. 3701. JOINT OFFICER MANAGEMENT.

(a) ESTABLISHMENT OF JOINT SPECIALTY.—Part II of subtitle A of title 10, United States Code, is amended by inserting after chapter 37 the following new chapter:

"CHAPTER 38—JOINT OFFICER MANAGEMENT

"Sec.
"661. Joint specialty.
"662. Selection for senior military positions.
"663. Training and education.
"664. Length of joint duty assignments.
"665. Procedures for monitoring careers of joint officers.
"666. Reserve officers not on the active duty list.
"667. Annual report to Congress.
"668. Definitions.

"§ 661. Joint specialty

"(a) ESTABLISHMENT.—The Secretary of Defense shall establish an occupational category for officers of the Army, Navy, Air Force, and Marine Corps on the active-duty list who (in addition to their principal military occupational specialty) are particularly trained in and oriented toward joint matters (as defined in section 668 of this title). Officers with that occupational category shall be identified or designated in such manner as the Secretary of Defense directs. For purposes of this chapter, that category is referred to as the 'joint specialty'.

"(b) NUMBERS AND SELECTION.—

"(1) NUMBER.—The number of officers with the joint specialty shall be determined by the Secretary. Such number shall be large enough to meet the requirements of subsection (d).

"(2) SELECTION OF OFFICERS FOR JOINT SPECIALTY.—Officers shall be selected for the joint specialty by the Secretary of Defense with the advice of the Chairman of the Joint Chiefs of Staff. The Secretaries of the military departments shall nominate officers for selection for the joint specialty. Nominations shall be made from among officers—

"(A) who meet qualifications prescribed by the Secretary of Defense; and

"(B) who—

"(i) are senior captains or, in the case of the Navy, lieutenants; or

"(ii) are serving in the grade of major or lieutenant commander or a higher grade.

"(c) TRAINING AND EXPERIENCE REQUIREMENTS.—

"(1) GENERAL RULE.—An officer who is nominated for the joint specialty may not be selected for the joint specialty until the officer—

"(A) successfully completes an appropriate program at a joint professional military education school; and

"(B) after completing such program of education, successfully completes a full tour of duty in a joint duty assignment.

"(2) EXCEPTION FOR OFFICERS WITH CRITICAL SKILLS.—An officer who has a critical occupational specialty involving combat operations (as designated by the Secretary of Defense) who is nominated for the joint specialty may be selected for the joint specialty after successful completion of a joint duty assignment of not less than two years and successful completion of a program under paragraph (1)(A). An officer selected for the joint specialty under this paragraph shall be required to complete the generally applicable requirements for selection under paragraph (1)(B) as soon as practicable after such officer's selection.

"(d) JOINT DUTY ASSIGNMENTS.—

"(1) 50 PERCENT REQUIREMENT.—The Secretary of Defense shall ensure that approximately one-half of the joint duty assignment positions in grades above captain or, in the case of the Navy, lieutenant are filled at any time by officers who have (or have been nominated for) the joint specialty.

"(2) CRITICAL ASSIGNMENTS.—The Secretary of Defense shall designate not fewer than 1,000 joint duty assignment positions as critical joint duty assignment positions. Each such position shall be held only by officers with the joint specialty.

"(e) CAREER GUIDELINES.—The Secretary, with the advice of the Chairman of the Joint Chiefs of Staff, shall establish career guidelines for officers with the joint specialty. Such guidelines shall include guidelines for—

"(1) selection;

"(2) training;

"(3) military education;

"(4) types of duty assignments;

"(5) information and guidelines to be furnished by the Secretary of a military department under section 615 of this title for officer selection boards; and

"(6) such other matters as the Secretary considers appropriate.

"§ 662. Selection for senior military positions

"(a) POLICY FOR SELECTION FOR SENIOR POSITIONS.—The Secretary of Defense shall establish policies to ensure that, whenever practicable, the criteria set forth in subsection (b) are applied to the selection of an officer for recommendation to the President for—

"(1) appointment as Chairman of the Joint Chiefs of Staff or as a Chief of Service; or

"(2) assignment as the commander of a unified or specified combatant command.

"(b) CRITERIA.—The criteria referred to in subsection (a) are as follows:

"(1) JCS CHAIRMAN.—The criteria for selection of an officer for recommendation for appointment as Chairman of the Joint Chiefs of Staff are that the officer have served as a Chief of Service or as the commander of a unified or specified combatant command.

"(2) CHIEF OF SERVICE.—The criteria for selection of an officer for recommendation for appointment as a Chief of Service are that the officer have had significant experience in joint duty assignments and that such ex-

perience include at least one joint duty assignment as a general or flag officer.

"(3) CINC.—The criteria for selection of an officer for recommendation for assignment as the commander of a unified or specified combatant command are that the officer—

"(A) have the joint specialty; and

"(B) have had at least one joint duty assignment as a general or flag officer.

"(c) CHIEF OF SERVICE DEFINED.—In this section, the term 'Chief of Service' means the Chief of Staff of the Army, the Chief of Naval Operations, the Chief of Staff of the Air Force, or the Commandant of the Marine Corps.

"§ 663. Training and education

"(a) CAPSTONE COURSE FOR NEW GENERAL AND FLAG OFFICERS.—

"(1) REQUIREMENT.—Each officer selected for promotion to the grade of brigadier general or, in the case of the Navy, rear admiral (lower half) shall be required, after such selection, to attend a military education course designed specifically to prepare new flag and general officers to work with the other armed forces.

"(2) WAIVER AUTHORITY.—Subject to paragraph (3), the Secretary of Defense may waive paragraph (1)—

"(A) in the case of an officer whose immediately previous assignment was in a critical joint duty assignment and who is thoroughly familiar with joint warfare matters;

"(B) when necessary for the good of the service;

"(C) in the case of an officer whose proposed selection for promotion is based primarily upon scientific and technical qualifications for which joint requirements do not exist (as determined under regulations prescribed under section 619(e)(4) of this title); and

"(D) in the case of a medical officer, dental officer, veterinary officer, medical service officer, nurse, biomedical science officer, chaplain, or judge advocate.

"(3) LIMITATION ON WAIVER AUTHORITY.—The authority of the Secretary of Defense to grant a waiver under paragraph (2) may only be delegated to the Deputy Secretary of Defense or an Assistant Secretary of Defense. Such a waiver may be granted only on a case-by-case basis in the case of an individual officer.

"(b) JOINT MILITARY EDUCATION SCHOOLS.—The Secretary of Defense shall periodically review and revise the curriculum of schools of the National Defense University (and of any other joint professional military education school) to enhance the education and training of officers in joint military matters. Such schools shall be required to maintain rigorous standards for the military education of officers with the joint specialty.

"(c) OTHER PROFESSIONAL MILITARY EDUCATION SCHOOLS.—The Secretary of Defense shall require that each Department of Defense school concerned with professional military education periodically review and revise its curricula for senior and intermediate grade officers in order to strengthen the focus on—

"(1) joint military operations; and

"(2) preparing officers for joint duty assignments.

"(d) POST-TRAINING DUTY ASSIGNMENTS.—The Secretary shall ensure that—

"(1) unless waived by the Secretary in an individual case, each officer with the joint specialty who graduates from a joint professional military school shall be assigned to a joint duty assignment for that officer's next duty assignment; and

"(2) a high proportion (which shall be significantly greater than 50 percent) of the other officers graduating from a joint professional military school also receive assignments to a joint duty assignment as their next duty assignment.

"(e) OTHER REQUIREMENTS FOR SENIOR OFFICERS.—The Secretary shall take all other practicable measures to improve the training and experience of officers serving in senior joint duty assignments.

"§ 664. Length of joint duty assignments

"(a) GENERAL RULE.—The length of a joint duty assignment—

"(1) for general and flag officers shall be not less than three years; and

"(2) for other officers shall be not less than three and one half years.

"(b) WAIVER AUTHORITY.—The Secretary of Defense may waive subsection (a) in any case, but the Secretary shall ensure that the average length of joint duty assignments meets the standards prescribed in that subsection.

"(c) CERTAIN OFFICERS WITH CRITICAL COMBAT OPERATIONS SKILLS.—Joint duty assignments of less than the period prescribed by subsection (a), but not less than two years, may be authorized for the purposes of section 661(c)(2) of this title. Any such assignment shall not be counted for the purposes of determining the average length of joint duty assignments under subsection (b).

"§ 665. Procedures for monitoring careers of joint officers

"(a) PROCEDURES.—(1) The Secretary of Defense, with the advice of the Chairman of the Joint Chiefs of Staff, shall establish procedures for overseeing the careers of—

"(A) officers with the joint specialty; and

"(B) other officers who serve in joint duty assignments.

"(2) Such oversight shall include monitoring of the implementation of the career guidelines established under section 661(e) of this title.

"(b) ADVICE OF CHAIRMAN OF JOINT CHIEFS OF STAFF.—The Chairman of the Joint Chiefs of Staff shall advise the Secretaries of the military departments with respect to duty assignments of—

"(1) officers with the joint specialty; and

"(2) other officers serving in joint duty assignments.

"(c) FUNCTION OF JOINT STAFF.—The Secretary shall take such action as necessary to enhance the capabilities of the Joint Staff so that it can—

"(1) monitor the promotions and career assignments of officers with the joint specialty and of other officers who have served in joint duty assignments; and

"(2) otherwise advise the Chairman on joint personnel matters.

"§ 666. Reserve officers not on the active duty list

"The Secretary of Defense shall establish personnel policies emphasizing training and experience in joint matters for reserve officers not on the active-duty list. Such policies shall, to the extent practicable for the reserves components, be similar to the policies provided by this chapter.

"§ 667. Annual report to Congress

"(a) IN GENERAL.—The Secretary of Defense shall include in the annual report of the Secretary to Congress (in that portion of the report relating to management) the following information:

"(1) The number of officers qualifying for the joint specialty and their education and training.

"(2) The promotion rate for officers in the joint specialty compared with the promotion rates for officers in the same armed force and at the same competitive category, shown for all officers of the armed force and for officers serving on the headquarters staff of the military department concerned.

"(3) The promotion rates of other officers serving in joint duty assignments, compared in the same manner as specified in paragraph (2).

"(4) Promotion rates for officers below the zone, shown for officers with the joint specialty and other officers who have served in joint duty assignments, compared in the same manner as specified in paragraph (2).

"(5) An analysis of assignments of officers after selection for the joint specialty.

"(6) The average length of tours of duty in joint duty assignments—

"(A) for general and flag officers, shown separately for assignments to the Joint Staff and other joint duty assignments; and

"(B) for other officers, shown separately for assignments to the Joint Staff and other joint duty assignments.

"(7) In any case in which the information under paragraphs (2) through (6) shows a significant imbalance between officers serving in joint duty assignments and other officers, a description of what action has been taken (or is planned to be taken) by the Secretary to correct the imbalance.

"(8) Any other information or comparative data that shows performance of the Department of Defense and the performance of each military department in carrying out this chapter and section 626a of this title.

"(b) ANNUAL REPORT OF THE SECRETARY DEFINED.—In this section, the term 'annual report of the Secretary' means the annual report of the Secretary of Defense required by section 133(c) of this title.

"§ 668. Definitions

"(a) JOINT MATTERS.—In this chapter, the term 'joint matters' means matters relating to the integrated employment of land, sea, and air forces, including matters relating to—

"(1) national military strategy;

"(2) long-range and contingency planning; and

"(3) command and control of combat operations under unified command.

"(b) JOINT DUTY ASSIGNMENT.—

"(1) IN GENERAL—The Secretary of Defense shall by regulation define the term 'joint duty assignment' for the purposes of this chapter. That definition shall be limited to assignments in which the officer gains significant experience in joint matters and shall exclude—

"(A) assignments for joint training or joint education; and

"(B) assignments within an officer's own military department.

"(2) PUBLICATION.—The Secretary shall publish a list showing—

"(A) the positions that are joint duty assignment positions under such regulation and the number of such positions; and

"(B) of the positions listed under subparagraph (A), those that are critical joint duty assignment positions and the number of such positions.".

(b) CLERICAL AMENDMENTS.—The tables of chapters at the beginning of subtitle A, and at the beginning of part II of subtitle A, of title 10, United States Code, are amended by inserting after the item relating to chapter 37 the following new item:

"38. Joint Officer Management..... 661".

SEC. 3702. PROMOTION POLICY FOR JOINT SERVICE OFFICERS.

(a) COMPOSITION OF SELECTION BOARDS.—Section 612 of title 10, United States Code, is

amended by adding at the end the following new subsection:

"(c) Each selection board that will consider officers who have served in joint duty assignments shall include at least one officer designated by the Chairman of the Joint Chiefs of Staff who is currently serving in a joint duty assignment. The Secretary of Defense may waive the preceding sentence in the case of any selection board of the Marine Corps.".

(b) REVIEW OF PROMOTION LISTS BY CHAIRMAN OF JCS.—Section 618 of such title is amended—

(1) by redesignating subsections (b), (c), (d), and (e) as subsections (c), (d), (e), and (f), respectively; and

(2) by inserting after subsection (a) the following new subsection (b):

"(b)(1) After completing the requirements of subsection (a), the Secretary concerned shall submit the report to the Chairman of the Joint Chiefs of Staff.

"(2) The Chairman shall review the report in accordance with guidelines prescribed by the Secretary of Defense. After reviewing the report of a selection board, the Chairman may recommend for promotion officers who—

"(A) were considered by the board and not recommended for promotion; and

"(B) have served or are serving in joint duty assignments.

"(3) The number of such officers that the Chairman recommends for promotion in any competitive category considered by the board may not exceed 10 percent of the number of officers that the board was authorized to recommend for promotion in that competitive category (but in any case the Chairman may recommend one such officer).

"(4) After reviewing the report of a selection board, the Chairman shall return the report to the Secretary concerned with the names of officers (if any) who were not recommended for promotion by the selection board and who the Chairman recommends for promotion under paragraph (2). Except as provided under paragraph (5), each such name shall be added to the report of the selection board.

"(5) If the Chairman recommends officers for promotion under paragraph (2), and if (after consulting with the Chairman) the Secretary concerned disagrees with any such recommendation of the Chairman, the Secretary—

"(A) may return the report, together with the Chairman's recommendations and comments, to the selection board for further proceedings in accordance with subsection (a);

"(B) may convene a special selection board in the manner provided for under section 628 of this title for consideration of any such officer on his record; or

"(C) may take other appropriate action to satisfy the concerns of the Chairman.

"(6) If, after completion of all actions taken under paragraph (5), the Secretary concerned and the Chairman remain in disagreement with respect to the selection for promotion of an officer, the Secretary concerned shall indicate such disagreement, and the reasons for such disagreement, as part of his transmittal of the report of the selection board to the Secretary of Defense under subsection (c). Such transmittal shall include the name of each officer recommended by the Chairman."; and

(3) by adding at the end of paragraph (1) of subsection (c) (as redesignated by paragraph (1)) the following new sentences: "If the Secretary concerned and the Chairman of the Joint Chiefs of Staff disagree with respect to a recommendation for promotion by the Chairman under subsection (b), the Secretary of Defense shall, before transmitting the report to the President, decide the matter by directing that the name of an officer recommended for promotion by the Chairman be added to, or not be added to, the report of the selection board for officers recommended for promotion. After final action by the Secretary of Defense, the report of the selection board, as modified in accordance with subsection (b) and the decisions of the Secretary of Defense, shall be considered for all purposes to be the report of the selection board.".

(c) PROMOTION POLICIES FOR JOINT SERVICE OFFICERS.—

(1) RELATIVE PROMOTION RATES.—Chapter 36 of such title is amended by inserting after section 626 end the following new section:

"§ 626a. Promotion policy for joint service officers

"The Secretary of Defense shall establish policies to ensure that, whenever practicable, selection of officers on the active-duty list for promotion under this chapter is carried out in a manner consistent with the following policies:

"(1) JOINT STAFF OFFICERS.—Officers who are serving on, or have served on, the Joint Staff shall, as a group, be promoted at a rate not less than the rate for officers of the same armed force in the same grade and competitive category who are serving or have served on the headquarters staff of their armed force.

"(2) JOINT SPECIALTY OFFICERS.—Officers with the joint specialty under chapter 38 of this title shall, as a group, be promoted at a rate not less than the rate for officers of the same armed force in the same grade and competitive category who are serving or have served on the headquarters staff of their armed force.

"(3) OTHER JOINT ASSIGNMENT OFFICERS.—Officers who are serving in, or have served in, joint assignments (other than officers covered by paragraphs (1) and (2)) shall, as a group, be promoted at a rate determined by the Secretary of Defense between—

"(A) the rate for all officers of that armed force in the same grade and competitive category; and

"(B) the rate for officers of the same armed force in the same grade and competitive category who are serving or have served on the headquarters staffs of the military departments.".

(2) CLERICAL AMENDMENT.—The table of sections at the beginning of subchapter II of such chapter is amended by adding at the end the following new item:

"626a. Promotion policy for joint service officers.".

SEC. 3703. JOINT DUTY ASSIGNMENT AS PREREQUISITE FOR PROMOTION TO GENERAL OR FLAG OFFICER RANK.

Section 619 of title 10, United States Code, is amended by adding at the end the following new subsection:

"(e)(1) An officer may not be selected for promotion to the grade of brigadier general or, in the case of the Navy, rear admiral (lower half) unless the officer has served in a joint duty assignment.

"(2) Subject to paragraph (3), the Secretary of Defense may waive paragraph (1)—

"(A) when necessary for the good of the service;

"(B) in the case of an officer whose proposed selection for promotion is based primarily upon scientific and technical qualifications for which joint requirements do not exist;

"(C) in the case of a medical officer, dental officer, veterinary officer, medical service officer, nurse, biomedical science officer, chaplain, or judge advocate; and

"(D) until January 1, 1992, in the case of an officer who the Secretary determines served before the date of the enactment of this subsection in an assignment (other than a joint duty assignment) that involved significant experience in joint matters.

"(3)(A) A waiver may be granted under paragraph (2) only on a case-by-case basis in the case of an individual officer.

"(B) In the case of a waiver under paragraph (2)(A), the Secretary shall provide that the first duty assignment as a general or flag officer of an officer for whom the waiver is granted shall be in a joint duty assignment.

"(C) The authority of the Secretary of Defense to grant a waiver under paragraph (2)(B) or (2)(C) may only be delegated to the Deputy Secretary of Defense or an Assistant Secretary of Defense.

"(4) The Secretary of Defense shall prescribe regulations to carry out this subsection. Such regulations shall specifically identify those categories of officers for which selection for promotion to brigadier general is based primarily upon scientific and technical qualifications for which joint requirements do not exist.".

SEC. 3704. ANNUAL REPORT ON IMPLEMENTATION.

The Secretary of Defense shall include in the annual report of the Secretary to Congress under section 133(c) of title 10, United States Code, for each year from 1987 through 1991 (in that portion of the report relating to management) a detailed report on the implementation of this title and the amendments made by this title.

SEC. 3705. TRANSITION.

(a) JOINT SPECIALTY.—

(1) INITIAL SELECTIONS.—The Secretary of Defense shall make the initial selections of officers for the joint specialty under chapter 38 of title 10, United States Code, as added by section 3701, from among officers in such grades as the Secretary determines.

(2) SPECIAL RULES.—In making such selections, the Secretary—

(A) may waive the requirement of either subparagraph (A) or (B) (but not both) of section 661(c)(1) of title 10, United States Code, as added by section 3701, in the case of officers in a grade above captain or, in the case of the Navy, lieutenant and below the grade of brigadier general or rear admiral (lower half); and

(B) may waive the requirements of both subparagraphs (A) and (B) of such sentence in the case of general and flag officers who have served in joint duty assignments.

(3) SUNSET.—The authority provided by this section shall expire two years after the date of the enactment of this Act.

(b) JOINT DUTY ASSIGNMENTS.—(1) Section 661(d) of title 10, United States Code, as added by section 3701, shall be implemented as rapidly as possible and not later than two years after the date of the enactment of this Act.

(2) The list of positions that are joint duty assignments required to be published by section 668(b)(2) of such title shall be published not later than the end of the six-month period beginning on the date of the enactment of this Act.

(c) CAREER GUIDELINES.—The career guidelines required to be established by section 661(e) of such title, the procedures required to be established by section 665(a) of such title, and the personnel policies required to

be established by section 666 of such title shall be established not later than the end of the six-month period beginning on the date of the enactment of this Act. The provisions of section 665(c) of such title shall be implemented not later than the end of such period.

(d) TRAINING AND EDUCATION.—

(1) CAPSTONE COURSE.—Subsection (a) of section 663 of such title, as added by subsection (a), shall apply with respect to officers selected in reports of officer selection boards submitted to the Secretary concerned after the end of the 120-day period beginning on the date of the enactment of this Act.

(2) REVIEW OF MILITARY EDUCATION SCHOOLS.—(A) The first review under subsections (b) and (c) of such section shall be completed not later than 120 days after the date of the enactment of this Act. The Secretary of Defense shall submit to Congress a report on the results of the review at each Department of Defense school not later than 60 days thereafter.

(B) Such subsections shall be implemented so that the revised curricula take effect with respect to courses beginning after August 1987.

(e) PROMOTION POLICY.—(1) The amendments made by subsections (a) and (b) of section 3702 shall take effect with respect to selection boards convened under section 611(a) of title 10, United States Code, after the end of the 120-day period beginning on the date of the enactment of this Act.

(2) Section 626a of title 10, United States Code, as added by section 3702(c), shall take effect with respect to selection boards convened under section 611(a) of title 10, United States Code, after the end of the 180-day period beginning on the date of the enactment of this Act.

TITLE IV—MILITARY DEPARTMENT ORGANIZATION

SEC. 3801. REORGANIZATION OF MILITARY DEPARTMENTS BY THE SECRETARY OF DEFENSE.

(a) IN GENERAL.—The Secretary of Defense shall reorganize the executive part of the military departments in accordance with the provisions of this title.

(b) REORGANIZATION POLICIES.—In carrying out the reorganization required by subsection (a), the Secretary of Defense shall implement the following policies:

(1) Each military department shall have a single integrated staff for the executive part of the department, rather than separate civilian secretariat and military staffs.

(2) Commissioned officers serving on the new military department staff shall not constitute or be organized as a separate component within the staff (other than the personal staff of a Service Chief).

(3) The functional assignments of the assistant secretaries of the military departments shall be as uniform as possible across the military departments. In implementing this policy, the Secretary shall limit exceptions to the greatest extent possible.

(4) Senior civilian officials on the department staff who are political appointees shall not be placed in a position subordinate to a military officer.

(5) The size of the department staffs shall be substantially reduced from the combined size of the prior secretariat and military staffs, with functions to be shifted to appropriate joint staffs or to subordinate commands outside the seat of government.

(6) The existing staff functions in the executive part of a military department relating to the reserve components shall not be abolished or consolidated with other elements of the military department staff (other than the consolidation of existing military staff and civilian secretariat staff functions relating to the reserve components).

(7) The position of Administrative Assistant in the Department of the Army provided for under section 3016 of title 10, United States Code, shall not be abolished and the other military departments may be authorized to have a similar position.

(c) LIMITATION ON FUTURE ADMINISTRATIVE REORGANIZATION OF THE MILITARY DEPARTMENTS.—After the reorganization required by this section is implemented, no reorganization may be made within the Department of Defense that would be inconsistent with the policies set forth in subsection (b).

(d) SUPERVISORY CONTROL OF MILITARY PERSONNEL.—Nothing in this title limits the authority of a Service Chief, under the authority, direction, and control of the Secretary concerned, to exercise supervisory control over members of the Armed Forces under his jurisdiction, especially with respect to personnel matters, in the manner exercised by the Service Chief before the enactment of this Act.

SEC. 3802. EXECUTIVE PART OF MILITARY DEPARTMENTS.

(a) IN GENERAL.—The executive part of each of the military departments is composed of the following:

(1) The Secretary of the military department.

(2) The Under Secretary.

(3) The Assistant Secretaries.

(4) The general counsel.

(5) The Chief of Staff and, in the case of the Department of the Navy, the Chief of Naval Operations and the Commandant of the Marine Corps.

(6) The Vice Chief of Staff or, in the case of the Department of the Navy, the Vice Chief of Naval Operations and the Assistant Commandant of the Marine Corps.

(7) Deputy Chiefs of Staff and, in the case of the Department of the Navy, Deputy Chiefs of Naval Operations.

(8) The Administrative Assistant, in the case of the Department of the Army and any other military department with a similar position.

(9) Other offices or positions provided by law to be in the executive part of the military department.

(10) Civilian personnel in the military department assigned or detailed to the executive part of the military department.

(11) Other members of the Armed Forces assigned or detailed to the executive part of the military department.

(b) ASSISTANT SECRETARIES.—

(1) FUNCTIONS.—The Assistant Secretaries of the military departments shall be assigned the following areas of responsibility by the Secretary of Defense:

(A) Manpower functions.

(B) Reserve affairs functions.

(C) Financial management and comptroller functions.

(D) Research and development functions.

(E) Acquisition functions.

(F) Logistics functions.

(G) Installations functions.

(H) In the case of the Department of the Army, civil works functions.

(2) NUMBER.—There shall be four Assistant Secretaries in each military department, plus an additional Assistant Secretary in the Department of the Army for civil works functions.

(c) PERSONAL STAFFS OF SERVICE SECRETARIES AND SERVICE CHIEFS.—The Secretary of each military department and each Service Chief may each have a personal staff of not more than 30 persons. The Administrative Assistant, and the staff of the Administrative Assistant, of a military department shall not be counted as part of the personal staff of the Secretary of the military department under this subsection.

(d) LIMITATION ON SIZE OF MILITARY DEPARTMENT STAFF.—The total number of persons assigned or detailed to the department staff or staffs of a military department may not exceed 85 percent of the total number of persons on the service secretariat and headquarters staff or staffs of that military department before the reorganization of that department under this Act. The Secretary of Defense shall ensure that the reduction of the number of persons on staffs of military headquarters results in a reduction in the number of persons that are assigned to duty in the Washington, D.C., area.

SEC. 3803. LIMITATION OF DEPARTMENT STAFF FUNCTIONS.

(a) JOINT STAFF.—The Secretary of Defense, in carrying out the reorganization required by this title, shall provide that operation and planning responsibilities that are duplicated by the staff of the Joint Chiefs of Staff shall be shifted to that staff.

(b) DECENTRALIZATION OF NON-HEADQUARTERS FUNCTIONS.—The Secretary of Defense, in carrying out the reorganization required by this title, and the Secretaries of the military departments shall provide that functions that may be performed by subordinate commands outside of the Washington, D.C., area shall be reassigned to those commands.

SEC. 3804. RESPONSIBILITIES OF SERVICE SECRETARIES.

(a) INTELLIGENCE ACTIVITIES.—Subject to the authority, direction, and control of the Secretary of Defense, the Secretary of a military department is responsible to the Secretary of Defense for the effective supervision and control of the intelligence activities of that military department.

(b) OPERATIONAL READINESS.—The Secretary of a military department, in organizing, training, and equipping forces under the jurisdiction of the Secretary, shall ensure the operational readiness of such forces.

SEC. 3805. IMPLEMENTATION AND REPORT.

(a) IMPLEMENTATION.—The Secretary of Defense shall complete implementation of this title not later than September 30, 1987.

(b) REPORT.—The Secretary shall submit to Congress a report on such implementation. The report shall be submitted not later than 30 days after the date provided under subsection (a). The report shall include a draft of legislation to make conforming changes to title 10, United States Code, and other appropriate provision of law to reflect the reorganization carried out pursuant to section 3801 and the effect of the other provisions of this title.

SEC. 3806. DEFINITION.

For purposes of this title, the term "Service Chief" means any of the following:

(1) The Chief of Staff of the Army.

(2) The Chief of Naval Operations.

(3) The Chief of Staff of the Air Force.

(4) The Commandant of the Marine Corps.

TITLE V—MISCELLANEOUS

SEC. 3901. ANNUAL REPORT ON NATIONAL SECURITY STRATEGY.

(a) REPORT REQUIREMENT.—The President shall submit to the Committees on Armed Services and Foreign Relations and the Select Committee on Intelligence of the Senate and the Committees on Armed Services and Foreign Affairs and the Permanent

Select Committee on Intelligence of the House of Representatives each year a comprehensive written report on the national security strategy of the United States. The President shall submit such report on the same date each year on which he submits the budget to Congress pursuant to section 1105 of title 31, United States Code.

(b) CONTENTS OF REPORT.—The report referred to in subsection (a) shall include—

(1) a comprehensive discussion of the vital interests, goals, and objectives of the United States throughout the world;

(2) a coordinated and comprehensive description of the foreign policy, worldwide commitments, and national defense capabilities of the United States necessary to deter aggression and to implement the national security strategy of the United States;

(3) a discussion of the proposed short-term and long-term uses of the political, economic, military, and other elements of the national power of the United States to protect or promote the interests and achieve the goals and objectives referred to in clause (1);

(4) a discussion of the adequacy of the capabilities of the United States to carry out the national security strategy of the United States, including an evaluation of the balance among the capabilities of all elements of the national power of the United States to support the implementation of the national security strategy; and

(5) such other pertinent information as may be necessary to help inform Congress on matters relating to the overall foreign policy strategy and military strategy of the United States.

(c) CLASSIFICATION.—The report referred to in subsection (a) shall be transmitted in a classified and an unclassified form.

SEC. 3902. MANAGEMENT STUDIES OF OFFICE OF THE SECRETARY OF DEFENSE.

(a) SECRETARY OF DEFENSE STUDY.—The Secretary of Defense shall conduct a study on the functions and organization of the Office of the Secretary of Defense. The study shall examine the functions, divisions of responsibility, and management structure of the Office, including each of the matters specified in subsection (c).

(b) SERVICE SECRETARIES AND CHAIRMAN OF THE JOINT CHIEFS OF STAFF.—The Chairman of the Joint Chiefs of Staff and the Secretaries of the military departments shall each conduct a study of the functions and organization of the Office of the Secretary of Defense. The Chairman and Secretaries shall each submit a report to the Secretary of Defense on such study at a time specified by the Secretary. Each such report shall include a discussion of and recommendations concerning each matter specified in subsection (c).

(c) MATTERS TO BE INCLUDED.—The studies required by subsections (a) and (b) shall include consideration of the following:

(1) Whether the present allocation of functions to, and the organizational structure of, the Office constitutes the most effective, efficient, and economical allocation and structure.

(2) Whether the present organization of the Office is the most effective and efficient for the functions of policy initiation, development, and articulation.

(3) Whether the present organization of the Office best ensures that military strategy and military planning are dictated by considerations of national policy and strategy.

(4) Whether effective civilian control of the Department of Defense is best provided by the present structure of the Office, including civilian control of—

(A) policy planning;

(B) force planning;

(C) program development;

(D) budget development;

(E) program execution; and

(F) program review.

(5) Means to improve and strengthen the evaluation function, with particular reference to the findings and recommendations set forth in the final report of the Defense Organization Project of the Georgetown University Center for Strategic and International Studies, entitled "Toward A More Effective Defense" and published in February 1985.

(6) Means to improve and strengthen the oversight function within each element of the Office.

(7) Factors inhibiting efficient and effective execution of the functions of the Office, including factors relating to—

(A) duplication of functions (both within the Office and between the Office and other elements of the Department);

(B) insufficient information; and

(C) insufficient resources (including personnel).

(8) Alternative allocations of authorities and functions of the Office and other reorganization proposals for the Office, including the desirability of—

(A) establishing the Office by law;

(B) establishing Under Secretaries of Defense for mission-oriented areas of responsibility;

(C) establishing the Secretaries of the military departments as Undersecretaries of Defense;

(D) eliminating functional descriptions or designations of Assistant Secretaries of Defense by law;

(E) revising the planning, programming, and budgeting system to strengthen policy and strategy direction;

(F) decentralizing functions of the Office;

(G) reducing the number of officials reporting directly to the Secretary of Defense; and

(H) changing the number of military and civilian personnel in the Office.

(d) ANALYSIS OF CIVILIAN CONTROL.—The Secretary of Defense, in considering under subsection (c)(4) whether effective civilian control of the Department of Defense is best provided by the current structure of the Office, shall examine the functions performed in the Office by members of the Armed Forces on active duty and the functions performed by members in a retired status serving in civilian positions. Such examination shall include determination of—

(1) the number of positions in the Office in grades GS-9 (or the military equivalent) and above held by members of the Armed Forces on active duty, shown for each pay grade by number and as a percentage of the total number of positions in the Office in the pay grade concerned; and

(2) the number of such positions held by members of the Armed Forces in a retired status, shown in the same manner as provided under paragraph (1).

(e) CONSULTATION WITH OTHER APPROPRIATE OFFICIALS.—The Secretary of Defense, in carrying out the study required by subsection (a), shall consult with and obtain the views of the Under Secretaries and Assistant Secretaries of Defense, the directors of the defense agencies, and such other officials as the Secretary considers appropriate.

(f) INDEPENDENT CONTRACTOR STUDY.—The Secretary shall provide for an independent study to be carried out by a contractor to consider the same matters considered in the study of the Secretary under subsection (a). The Secretary shall ensure that the contractor has full access to such information as the contractor requires and that the contractor otherwise receives full cooperation from all Department of Defense officials and entities.

(g) REPORT TO CONGRESS.—(1) The Secretary of Defense shall submit to Congress a report on the Secretary's study under subsection (a). The report shall include—

(A) the findings and conclusions of the Secretary with respect to each of the matters set forth in subsection (c);

(B) the findings and statistical determinations required under subsection (d); and

(C) any recommendations of the Secretary for organizational changes in the Office of the Secretary of Defense and a description for the means for implementing each such recommendation.

(2) The Secretary shall include with the report a copy of each report to the Secretary under subsection (b) and a copy of the report of the independent contractor under subsection (e), together with such comments on each such report as the Secretary considers appropriate.

(3) The report under this subsection shall be submitted not later than one year after the date of the enactment of this Act.

SEC. 3903. REDUCTION OF REPORTING REQUIREMENTS.

(a) POLICY.—It is the policy of Congress to reduce the administrative burden placed on the Department of Defense by requirements for reports, studies, and notifications to be submitted to Congress through the elimination of outdated, redundant, or otherwise unnecessary report requirements.

(b) COMPILATION OF EXISTING REPORT REQUIREMENTS.—(1) The Secretary of Defense shall compile a list of all provisions of law currently in effect that require the President, with respect to national defense functions of the Government, or any official or employee of the Department of Defense to submit in writing any report, notification, or study to Congress or any committee of Congress.

(2) The Secretary shall submit to Congress the list compiled under paragraph (1) not later than six months after the date of the enactment of this Act. The Secretary shall include with such list (with respect to each report, notification, or study shown on the list) the following:

(A) The date the requirement for such report, notification, or study was first imposed by law.

(B) The Secretary's assessment of the continuing utility of such requirement to Congress and to the executive branch.

(C) The Secretary's assessment of the administrative burden of such requirement and how such burden relates to the utility of the report, notification, or study.

(D) The Secretary's recommendation as to whether such requirement should be retained, modified, or repealed.

(3) The matter submitted under paragraph (2) shall also include any recommendation of the Secretary for consolidation of different requirements for reports, notifications, and studies and a draft of legislation to implement any changes in law recommended by the Secretary.

(c) PARTIAL TERMINATION OF PROGRAMS ON LIST.—Except as provided in subsection (d), effective as of the end of the first session of the 100th Congress, each provision of law shown on the list submitted under subsection (b) that is contained in title 10, 32, or

37, United States Code, or in any Act authorizing appropriations or making appropriations for military functions of the Department of Defense (including military construction and military family housing functions) and that is recommended by the Secretary of Defense under subsection (b)(2)(D) to be repealed shall not be effective to the extent such provision requires the submission in writing of a report, notification, or study shown on the list.

(d) EXCEPTIONS.—Subsection (c) shall not apply to any provision of law enacted on or after the date of enactment of this Act or to any provision of law that requires the submission of the following reports, notifications, and studies:

(1) The annual reports, statements, and recommendations required by section 133(c) of title 10, United States Code, relating to the accomplishments of the Department of Defense.

(2) The annual report required by section 133(e) of such title, relating to foreign policy, major military missions, and military force structure.

(3) The reports required by subsection (b)(5) of section 136a of such title and the annual report required by subsection (g) of such section, relating to operational test and evaluation activities.

(4) The annual report required by section 133a of such title, relating to North Atlantic Treaty Organization readiness.

(5) The reports required by section 1464(c) of such title, relating to the status of the Department of Defense Military Retirement Fund.

(6) The annual report required by section 2208(k) of such title, relating to the condition and operation of working-capital funds.

(7) The notifications required by section 2233a(a)(1) of such title, relating to expenditures and contributions for acquisition of facilities for reserve components.

(8) The notifications required by section 2304(c)(7) of such title, relating to the use of procurement procedures other than competitive procedures.

(9) The notifications required by section 2306(h)(3) of such title, relating to cancellation ceilings in certain multiyear contracts.

(10) The annual report required by section 2313(d)(4) of such title, relating to subpoenas issued by the Director of the Defense Contract Audit Agency to obtain contractor records.

(11) The annual report required by section 2349 of such title, relating to North Atlantic Treaty Organization acquisition and cross-servicing agreements.

(12) The semiannual report required by section 2357 of such title, relating to contracts in excess of $50,000 entered into by the military departments for research and development.

(13) The notifications required by section 2394(b)(2) of such title, relating to contracts for energy or fuel.

(14) The annual report required by section 2397(e) of such title, relating to the names of certain employees and former employees of defense contractors.

(15) The notifications required by clauses (B) and (C) of section 2401(b)(1) of such title, the cost analyses required by section 2401(e)(1) of such title, and the reports required by section 2401(e)(2) of such title, all relating to the long-term lease or charter of vessels and aircraft by the military departments.

(16) The notifications required by subsection (e)(1) of section 2403 of such title and the annual report required by subsection (e)(2) of such section, relating to waivers of certain requirements for contractor guarantees.

(17) The notifications required by paragraphs (1) and (2) of section 2407(d) of such title, relating to certain contracts awarded by the Department of Defense in connection with North Atlantic Treaty Organization cooperative agreements.

(18) The annual report required by section 2457(d) of such title, relating to the policy to standardize equipment, ammunition, and fuel procured for the use of United States military forces stationed in Europe under the North Atlantic Treaty.

(19) The reports required by subsection (a) or (e) of section 2662 of such title and the annual report required by subsection (b) of such section, relating to certain real property transactions.

(20) The proposals referred to in section 2667a(b)(1) of such title, relating to sale and replacement of nonexcess real property.

(21) The notifications required by section 2672(b) of such title, relating to acquisitions of interests in land for more than $100,000.

(22) The notifications required by section 2676(d) of such title, relating to reductions in scope and increases in cost of a land acquisition.

(23) The notifications and submissions required by section 2687(b) of such title, relating to base closures and realignments.

(24) The annual report required by section 2779(b)(4) of such title, relating to the use of funds appropriated for the elimination of certain losses caused by fluctuations in currency exchange rates of foreign countries.

(25) The reports required by section 133b of such title, relating to sales or transfers of certain defense articles.

(26) The reports required by section 2803(b) of such title, relating to emergency military construction projects carried out under section 2803 of such title.

(27) The reports required by section 2804(b) of such title, relating to military construction projects not authorized by law.

(28) The notifications required by paragraphs (2) and (3) of section 2805(b) of such title, relating to minor construction in connection with certain relocations of activities from one installation to another.

(29) The reports required by section 2806(c)(2) of such title, relating to contributions for North Atlantic Treaty Organization Infrastructure.

(30) The notifications required by subsection (b) of section 2807 of such title and the reports required by subsection (c) of such section, relating to architectural and engineering services and construction design in connection with military construction or military family housing projects.

(31) The notifications required by section 2808(b) of such title, relating to military construction projects in the event of a declaration of war or national emergency.

(32) The justifications and economic analyses required by section 2809(a)(4) of such title, relating to long-term contracts for the construction, management, and operation of certain facilities.

(33) The notifications and justifications required by section 2823(b) of such title, relating to disagreements on the availability of suitable alternative housing at locations in the United States where family housing is proposed to be constructed.

(34) The notifications required by section 2827(b) of such title, relating to relocation of military family housing units.

(35) The economic analyses required by section 2828(g)(6)(A) of such title, relating to leasing military family housing facilities.

(36) The notifications required by section 2834(b) of such title, relating to agreements with the Secretary of State for the use of Department of State housing and related services by Department of Defense personnel.

(37) The notifications required by subsections (d) and (e) of section 2853 of such title, relating to reductions in the scope of work or increases in the cost of military construction projects.

(38) The notifications required by section 2854(b) of such title, relating to repair, restoration, or replacement of damaged or destroyed military facilities.

(39) The annual request required by section 2859 of such title, relating to military construction authorizations.

(40) The annual report required by section 2861(a) of such title, relating to military construction activities and military family housing activities.

(41) The annual report required by section 138(c)(3) of such title, relating to military and civilian personnel end strength levels, certain other manpower requirements, base structures, and certain requirements for and information on officers.

(42) The annual report required by section 138(d)(2) of such title, relating to average student training loads.

(43) The annual report required by section 138(e) of such title, relating to operations and maintenance.

(44)(A) The annual and supplemental reports required by section 139 of such title, relating to weapons development and procurement schedules, including the matter required by section 53(b) of the Arms Export Control Act (95 Stat. 1524; 22 U.S.C. 2795b(b)) to be included in such annual reports.

(B) The notifications in lieu of such supplemental reports under subsection (b) of such section.

(45) The Selected Acquisition Reports required by section 139a of such title.

(46) The notifications required by subsection (d)(3) of section 139b of such title and reports required by subsection (e) of such section, relating to increases in program acquisition unit costs and procurement unit costs of certain major defense acquisition programs.

(47) The notifications required by section 7307(b)(2) of such title, relating to the disposition of naval vessels to foreign nations.

(48) The quarterly report required by section 7434 of title 10, United States Code, relating to the production from the naval petroleum reserve.

(49) The annual report required by section 406(i) of title 37, United States Code, relating to dependents accompanying members of the Armed Forces stationed outside the United States.

(50) The statements and quarterly report required by subsections (c) and (e) of section 709 of the Department of Defense Appropriation Authorization Act, 1975 (88 Stat. 408; 50 U.S.C. App. 2403–1(e)), relating to the export of certain goods, technology, and industrial techniques.

(51) The notifications, summaries, certifications, and reports required by subsections (a), (b), and (c) of section 502 of the Department of Defense Authorization Act, 1981 (10 U.S.C. 2304 note), relating to conversion of performance of commercial and other type functions from Department of Defense personnel to private contractors.

(52) The notifications required by section 1201(c) of the Department of Defense Authorization Act, 1984 (Public Law 98-94; 97 Stat. 678), relating to transfers of amounts of authorizations.

(53) The reports and assessments required by section 1231 of the Department of Defense Authorization Act, 1984 (Public Law 98-94; 97 Stat. 693), relating to certain intercontinental ballistic missile systems.

(54) The reports required by section 307(b)(3) of the Department of Defense Authorization Act, 1985 (98 Stat. 2515; 10 U.S.C. 2304 note), relating to waivers of a prohibition on contracting out certain logistics activities.

(55) The annual report required by section 1002(d)(1) of the Department of Defense Authorization Act, 1985 (98 Stat. 2575; 22 U.S.C. 1928 note), relating to the supply of munitions and certain aircraft facilities in support of the North Atlantic Treaty Organization.

(56) The annual report required by section 1002(d)(2) of the Department of Defense Authorization Act, 1985 (98 Stat. 2575; 22 U.S.C. 1928 note), relating to the status and cost of the United States commitment to the North Atlantic Treaty Organization and certain activities of other North Atlantic Treaty Organization members.

(57) The annual reports required by subsections (c) and (d) of section 1003 of the Department of Defense Authorization Act, 1985 (98 Stat. 2576; 22 U.S.C. 1928 note), relating to allied contributions to the common defense.

(58) The annual report required by section 1102 of the Department of Defense Authorization Act, 1985 (98 Stat. 2580; 10 U.S.C. 2872 note (formerly 10 U.S.C. 139 note)), relating to the Strategic Defense Initiative and any other antiballistic missile defense program.

(59) The notifications required by section 1501(c) of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2626), relating to transfers of amounts of authorizations.

(60) The reports required by section 1536(g) of the Department of Defense Authorization Act, 1985 (98 Stat. 2633; 46 U.S.C. 1120 note), relating to the Commission on Merchant Marine and Defense.

(61) The certification required by section 125(a)(1) of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 601), relating to any new contract for the procurement of 5-ton trucks.

(62) The legislative environmental impact statement required by section 209(c) of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 610), relating to full-scale development of a small intercontinental ballistic missile or the selection of basing areas for the deployment of such missile.

(63) The certification required by section 222 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 613), relating to termination of a prohibition of deployment of a strategic defense system.

(64) The reports required by section 223 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 613), relating to the Strategic Defense Initiative.

(65) The quarterly reports required by section 502(c) of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 621), relating to the obligation of funds appropriated for civilian personnel.

(66) The report required by section 1002 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 705), relating to Soviet compliance with arms control commitments.

(67) The annual report required by section 1221(d)(2) of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 727), relating to a research program to support the polygraph activities of the Department of Defense.

(68) The annual reports required by section 1407 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 745), relating to unobligated balances in appropriation accounts.

(69)(A) The certifications required by subsections (b) and (c)(2) of section 1411 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 99 Stat. 745), relating to the procurement or assembly of binary chemical weapons.

(B) The report required by subsection (e) of such section, relating to consultations among North Atlantic Treaty Organization member nations concerning North Atlantic Treaty Organization's chemical deterrent posture.

(70) The annual reports required by section 704 of the Military Construction Authorization Act, 1982 (Public Law 97-99; 95 Stat. 1377), relating to contracts for construction in the United States and its possessions.

(71) The economic analyses required by section 802(d)(1) of the Military Construction Authorization Act, 1984 (97 Stat. 784; 10 U.S.C. 2821 note), relating to proposed military housing rental guarantee agreements.

(72) The notifications required by section 803(b)(2) of the Military Construction Authorization Act, 1984 (97 Stat. 785; 10 U.S.C. 2821 note), relating to waivers of a requirement to use manufactured or factory-built housing fabricated in the United States by a United States contractor for military family housing construction in foreign countries.

(73) The report required by section 840(d) of the Military Construction Authorization Act, 1986 (Public Law 99-167; 99 Stat. 998), relating to the sale of land at Fort Jackson, South Carolina.

(74) The notifications required by the proviso in section 8005(m) of the Department of Defense Appropriations Act, 1985 (as contained in section 101(h) of Public Law 98-473 (98 Stat. 1923)), relating to unusual cost overruns incident to overhaul, maintenance, and repair for certain ships.

(75) The annual report required by section 8104(b) of the Department of Defense Appropriations Act, 1985 (as contained in section 101(h) of Public Law 98-473 (98 Stat. 1942)), relating to consultations with members of common defense alliances concerning Strategic Defense Initiative research.

(76) The notifications required by section 8020 or 8021 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190 (99 Stat. 1206)), relating to transfers of working capital funds.

(77) The notifications required by section 8021 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190 (99 Stat. 1206)), relating to the obligation of working capital funds to procure war reserve material inventory.

(78) The notifications required by section 8042 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190 (99 Stat. 1210)), relating to the availability of appropriated funds for intelligence or special activities different from activities justified to the Congress.

(79) The notification required by section 8075 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190 (99 Stat. 1214)), relating to the acquisition of certain types of weapons, subsystems, and munitions of European North Atlantic Treaty Organization manufacture.

(80) The certification required by section 8097 of the Department of Defense Appropriations Act, 1986 (as contained in section 101(b) of Public Law 99-190 (99 Stat. 1219)), relating to the obligation or expenditure of funds to carry out a test of the Space Defense System (anti-satellite weapon) against an object in space.

(81) The annual report required by the third proviso in the undesignated paragraph under the heading "FOREIGN CURRENCY FLUCTUATION, CONSTRUCTION, DEFENSE" in the Military Construction Appropriation Act, 1980 (Public Law 96-130; 93 Stat. 1019), relating to transfers of appropriated funds to eliminate losses in military construction or expenses of family housing caused by fluctuations in foreign currency exchange rates of foreign countries.
